Every person who is supplied by the Trust with water by measure shall, at his own expense, provide a meter (which meter shall be submitted to and examined by the proper officer of the Trust, who, if he shall find the same correct and in proper working order, shall give his certificate to that effect), which, when fixed, shall be maintained and kept in proper working order by such person. The meter must be so placed as to be open for inspection and so as to be protected from injury, and with means of access thereto; the key of the meter shall be in the possession of the Trust. No meter shall be connected with more than one separate and distinct inlet-pipe leading from the service-pipe, unless otherwise permitted by order of the Trust.

19. No pipes shall be affixed to the main pipe, nor to any service-pipe or apparatus connected therewith, nor shall any alteration be made in any existing pipes or apparatus without notice in writing of the intention so to do being given to the Trust, and the consent of the Trust thereto first had and obtained.

20. Overflow-pipes to private baths will not be permitted, the inlet-pipe to which must be visible and accessible, and attached to the bath above the bottom thereof, and the bath provided with a proper well-fitted and water-tight ground outlet plug or cock.

31. If any person supplied with water by the Trust does, or causes, or permits to be done anything in contravention to these regulations or fails to pay his rates or any lawful charges imposed by the Trust, when due, or fails to do anything which, under any of these regulations, ought to be done, or wilfully or negligently allows water to run to waste, the Trust may cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied.

32. In construction of these regulations the word "person" shall extend to and be deemed to include a corporation whether aggregate or sole, and the word "Trust" shall mean the Bacchus Marsh Irrigation and Water Supply Trust.

UNITED ECHUCA AND WARANGA WATERWORKS TRUST.—EXTENT OF WATERWORKS DISTRICT DIMINISHED.

PRESENT:

His Excellency the Governor.

Mr. Gillies	Mr. Derham
Mr. Wrixon	Mr. Bell.
Dr. Pearson	

WHEREAS by section 18 of *The Water Conservation Act 1887*, No. 946, it is enacted that the Governor in Council may from time to time, after any Trust has been by Order in Council duly constituted, make additional Orders not inconsistent with the provisions of the now in part recited Act, and that the Governor in Council may in such additional Orders in Council, among other things, increase or diminish the extent of the Waterworks District of such Waterworks Trust. And whereas by section 20 of *The Water Conservation Act 1887*, No. 946, it is enacted that when the Waterworks District of any Waterworks Trust has been or is about to be increased or diminished, the Governor in Council may make such Order as appears just for (among other things) determining what persons shall cease or continue to be Commissioners of the Waterworks Trust thereof, and for how long the same shall so continue, and for determining all other matters or things which it appears desirable or proper so to determine. And whereas by an Order in Council bearing date the 11th day of October, 1882, a Waterworks Trust known and incorporated as the "United Echuca and Waranga Waterworks Trust" was duly constituted, having authority, as such Waterworks Trust, within certain lands, the limits whereof were in and by the said Order in Council, and by subsequent Orders in Council duly proclaimed and defined. Now therefore His Excellency the Governor, by and with the advice of the Executive Council, and in pursuance of the provisions of the now in part recited Act, doth order as follow, that is to say:—

That the extent of the Waterworks District of the said United Echuca and Waranga Waterworks Trust shall as from the date hereof be diminished by the excision therefrom of the whole of the district of the Rodney Irrigation and Water Supply Trust, as the same is limited and defined at the date hereof by certain Orders in Council, bearing date respectively the 8th day of April, 1889, and the 14th day of October, 1889.

That the said United Echuca and Waranga Waterworks Trust shall hereafter consist of two members of each of the municipal councils of the shires of Echuca and Waranga and one other Commissioner.

And the Honorable Alfred Deakin, Her Majesty's Minister of Water Supply for Victoria, shall give the necessary directions herein accordingly.

Additional lights in Great Sandy Island Strait.

NOTICE is hereby given that on and after Thursday, 2nd January, the following additional lights will be exhibited to enable vessels to navigate Great Sandy Island Strait by night:—

One white light near the white beacon, marking the northern extremity of the bank N.W. of Snout Point;
One white light bearing north, easterly; and
One white light S. by E. ½ E. easterly from the first light, giving with it two leads—one towards Fig-tree Camp, the other towards the Fairway Buoy;
Two lights—the front red, the other white—are placed near the Fig-tree Camp, and lead southwards of Stewart's Island;
Two lights—one white, the other red—on the bank northwards of the Stewart's Island Cutting, and leading through the centre of the channel;
Two lights—one white and the other red—on Moonboom Island, leading over to that Island;
One green light on a dolphin N.E. of Moonboom Island in 11 feet at low water;
One white light off the western shore of Great Sandy Island;
Two lights—one red and one white—leading through Roundbush Cutting;
One red light, on a dolphin, standing in 11 feet of water at low water, in line with the back light of the next pair of lights, and then in line with that of the last pair, leads N. ¾ W., and then N.N.E. easterly, respectively, to the entrance of the cutting northward of the Roundbush;
Two lights—one red and the other white—lead through that cutting, towards a red beacon standing on a projecting spit on the west side of the channel, and afterwards lead through a cutting further to the N.E. near the lower White Cliffs;
One red light on the above red beacon;
Two white lights are placed on the shore of Great Sandy Island, below the watering place, and lead just to the eastward of the Junction Buoy.

Directions at Night.

After passing the South Fairway Buoy, bring the two white leading lights in one, on a north-easterly bearing, until within a short cable's distance of the lower light; then stand northwards passing it on the starboard hand bringing it on with a third white light to the S. by E. ½ E. easterly; keep them in line until the Fig-tree Lights are nearly reached, when gradually bring them in line and keep them so until the Stewart's Island Cutting Lights are coming in line; keep them in line until the Moonboom Lights are in one. Leave the Moonboom line when within half a cable of the red light, and pass at a ship's length on the port hand the green light to the north-east of the island; then pass on the starboard hand the white light on the Great Sandy Island shore at a similar distance; then keep the red and white Roundbush Lights in line until a red light to the N.N.W. is brought in line with the back light of the next or South White Cliffs lead; keep this line until nearing the red light, when steer to pass it on the port hand at a ship's length, and bring it in line with the back light of the Roundbush Lead. As the South White Cliff Lights are closing, haul up and keep on that line until approaching a red light on the beacon on the West Banks, then haul well out to the N.N.E. and leave it at a good cable's distance, a spit running out thence in that direction. When well past the red light, haul in again and bring it in line with the same leading lights.

When the steep shore of Great Sandy Island is approached follow it round the bight at a distance of a short half cable, and after passing the creek bring the two white lights on the island in line, which lead into the main channel just to the eastward of the Junction Buoy.

On coming southwards, when passing the South White Cliffs, keep the leading lights in line until the black beacon at the western end of the first Cutting is passed, then haul out to the W.S.W. until abreast the red light on the West Banks, when haul in and regain the line of lights.

CONVEYANCE OF MAILS, 1890-91-92-93.

SECOND DIVISION.—302 SERVICES.

TENDERS are hereby invited, and will be received until Noon on Tuesday, the 25th day of February, 1890, for the Conveyance of Post Office Mails, viz., Letters, Packets, Parcels, and Newspapers, as undermentioned, FOR THREE YEARS, from the 1st July, 1890, to 30th June, 1893.

1. Tenders are required to be written on a form, printed copies of which may be had gratuitously on application at any post office in the colony, and are to be forwarded (if by post, PREPAID AND REGISTERED) for receipt at the General Post Office by the hour and date first above mentioned, addressed to the Honorable the Postmaster-General, with the words "Tender for Mail Service No. " endorsed on the cover, or placed in the tender-box at the General Post Office.

2. *Tenderers are requested to describe by their numbers, as below, the mail services for which they tender.*

3. *The amount of the tender must be stated* AT RATE PER ANNUM *in words as well as figures.*

4. Every tender must bear the *bonâ fide* signature and address of the tenderer, and bear the names of two responsible persons willing to become bound for the fulfilment of the contract in such sum as the Government may direct, not exceeding the gross amount of the contract.

5. Every tender must be accompanied by cash, marked cheque, bank draft, or a bank deposit-receipt to the credit of the Deputy Postmaster-General for a sum equal to TEN PER CENT. of the annual amount named in the tender; this deposit to be absolutely forfeited to the Government in case the person whose tender may be accepted shall fail to complete the usual bond and contract to the satisfaction of the Government within ten days of being notified that the documents are ready for execution. The notice of acceptance, if delivered at the address named in the tender, shall be deemed sufficient.

6. The money or other security deposited by successful tenderers will be returned to them upon application, on the bond and contract being duly signed.

7. The money or other security deposited by unsuccessful tenderers will be returned to them upon application, and on their signing receipts for the respective amounts.

8. In the event of a new line of railway, or a new railway station on an existing line being opened for traffic, and it being decided that the mails shall be conveyed by rail, the Postmaster-General shall have the power of cancelling the contract for any mail service running in the vicinity of the railway without compensation to the contractor, or shall have power to alter the points of arrival and departure of the mails; and, in the event of the travelling distance on any mail line being in such manner increased or diminished, all payments for the service subsequent to the alteration shall be computed on the basis of the average mileage-rate of the contract.

9. In the event of it being found necessary, from any cause, to absolutely cancel a contract, the Postmaster-General shall have full power to do so, provided that, unless the contract be cancelled on account of any fault on the part of the contractor, or on account of the opening of a railway line or a new railway station, payment shall be made to the contractor as compensation of a sum equal to ten per cent. of the moneys which would have become due on the unexpired period of the contract if the latter had been continued for the full term of three years.

10. Tenderers are requested to state the mode by which they propose to convey mails, whether by vehicle, on horseback, or by man on foot. If by vehicle, the description of vehicle and number of horses by which it is to be drawn to be given.

11. Tenderers are informed that the Department undertakes to carry parcels up to 7 lbs. in weight by all services for which tenders are accepted for conveyance of mails by vehicle.

Packets up to 3 lbs. in weight are conveyed by horseback services.

12. Tenderers for services to and from Post Offices and Railway Stations are required to name a lump sum per annum for the number of trips specified in the call for tenders, and also state a rate per trip as a basis of payment for additional trips, or for reduction in the payment, should the number of trips be increased or lessened during the currency of the contract.

A "trip" to mean a journey from the Post Office to the Railway Station, and from the Railway Station to the Post Office, *carrying mails each way.*

The carriage of mails one way, viz., either from a Post Office to a Railway Station or from a Railway Station to a Post Office, shall be regarded as half a trip, and payment made accordingly. Where tenders are invited for a service to and from a Post Office and Railway Station "as often as required," tenderers are required to name a lump sum per annum for the work, and such sum shall not be liable to alteration either through increase or diminution in the number of trips. Contracts for services to and from Post Offices and Railway Stations are liable to be discontinued at one month's notice from the department.

13. A separate *bonâ fide* tender must be sent in for each service.

14. The attention of tenderers is drawn to the condition which requires that in cases where vehicles are used, Members of Parliament shall be conveyed free of charge between the districts they represent and the districts in which they reside and Melbourne.

15. The contractor shall not be entitled to claim any extra payment on account of the establishment of any new Post Office, or the removal of any existing Post Office, during the term of his contract, unless such establishment or removal shall increase the distance to be travelled by such contractor on any one day to the extent of one mile.

16. No application for the transfer of a contract will be entertained until a fee has been paid of Ten shillings on a contract not exceeding £50 per annum, and Twenty shillings on a contract above £50 per annum.

17. The general conditions referred to in the printed form of tender, and upon which the tender is to be made, can be inspected by persons proposing to tender, either at the General Post Office or at any post office in the colony.

18. The Government will not necessarily accept the lowest or any tender.

TENDERS FOR GRAZING LANDS.

Tenders must be sent in on proper form, which can be obtained on application to the Lands Department, Melbourne, or any of the Survey Offices in the country.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Friday, 28th February, 1890.

NOTE.—*The fee for the period from 1st March, 1890, to 31st December, 1890, and fee of Five shillings for licence, must accompany each tender.*

TENDERS will be received by the Board of Land and Works, up to Noon of Friday, 28th February, 1890, for the occupation for Grazing purposes only of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 119 of *The Land Act 1884* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under sections 3 and 4 of *The Rabbit Suppression Act Amendment Act 1884*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of *The Land Act 1884*, except under the 119th section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of *The Land Act 1884*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence fee paid by him as the responsible Minister of the Crown for the time being administering Part XI. of *The Land Act 1884* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

2A. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and, immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same, without the permission or sanction of the licensee or any one claiming under her, him, or them.

3. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

4. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

5. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

6. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

7. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

8. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

9. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

10. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence shall be conclusive evidence that the licence is forfeited.

Special Conditions:

1. The period of occupation will be from 1st March, 1890, to 31st December, 1890.

2. The licence fee must be paid in advance. The fee for the period from 1st March, 1890, to 31st December, 1890—for which the licence will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be endorsed "Tender for Lot 1, Block 129," or "Lot 2, Block 257," or "Lot 3, Block 487," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.
