*Colonial Secretary's Office,
 Auckland, 7th March, 1842.*

HIS Excellency the GOVERNOR has been pleased to direct the publication of the following "Notice to Mariners," having reference to the approaches to Auckland, by Sea, through the Eastern passages, submitted for general information by the Harbour Master of this port.

*By His Excellency's Command,

NOTICE TO MARINERS.

*Harbour Master's Office,
 Auckland, 5th March, 1842.*

BETWEEN Mutu Tapu and Waiheke Islands, and on either side of Mutu Hea, there is a good

passage with deep water; care must, however, be taken not to approach too near to the N. W. end of Mutu Hea, from whence a reef runs out about a quarter of a mile.

In working along the south side of the Island of Rangitoto, the lead should be kept going, and vessels should not shoal less than three and a half fathoms.

There is no passage between Mutu Korea and the Eastern Head of the Tamaki River, for any but very small craft.

Along the south side of Waiheke there is a good passage in from four to six fathoms water; the opposite shore is shoal, and in standing towards it, the lead should be carefully attended to.

Between the eastern side of the Waiheke and the Islands Paroa, Te Rotoeroa, and Pa Ratu, there is a good passage, with deep water; vessels should keep nearest Waiheke shore, and not approach the Islands under six fathoms to avoid some rocky patches near them. Care should also be taken to avoid a small sand bank under water, lying about a mile off the Waiheke shore near the southern entrance of the passage, and almost abreast of a settlement occupied by Mr. Graham.

Between Paroa and Pakia Islands there is not a good passage, but small vessels, with a leading wind, may pass through by keeping very close to the Paroa shore in three and four fathoms, to avoid a Gravel Spit, which stretches from the north end of Pakia in a N. N. E. direction nearly across the passage.

DAVID ROUGH,
Harbour Master.
