*Colonial Secretary's Office,**Sydney, 27th March, 1844.***NOTICE TO MARINERS.**

**A**T the request of the Most Noble the Governor in Council of the Presidency of Madras, His Excellency the GOVERNOR has been pleased to direct the re-publication of the following Notice, touching the exhibition of a new Light at the Port of Fort St. George.

*By His Excellency's Command,***E. DEAS THOMSON.****NOTICE.***Marine Board Office,  
Madras, 9th October, 1843.*

**NOTICE** is hereby given, that on and after the 1st day of January, 1844, a Light will be exhibited on the New Light House erected at Madras, immediately to the northward of the Walls of Fort St George; and that on and after the said 1st day of January, 1844, the Light heretofore and now exhibited on the Old Light House within the Walls of Fort St. George, will be discontinued. The New Light (to be exhibited) will be elevated 128 feet above the mean level of the sea,—and may be seen from the deck of a ship at the distance of 20 miles. The light is of the "flashing description;" and the duration of the flashes to that of the eclipses or dark periods is in the ratio of 2 to 3,—but as the nature of the motion is reciprocating instead of rotatory, the above ratio merely expresses the average proportion of the light and dark intervals which are themselves variable according to the position of the spectator. The rapidity of movement is so adjusted, that the

duration of the flashes will vary from 0" to 48", and that of the eclipses from 0" to 72", the sums of the duration of light and darkness, bearing however, in every position, the constant ratio of 2 to 3. From the south-eastern extremity of the Pulicat Shoal the New Light House bears S. 23° W., and is distant 13 miles; but no ship or vessel when hauling in from the northward for the Madras Roadstead should bring the light to bear to the southward of S. 28° W., or S. S. W. ½ W.,—unless her position is well ascertained. Commanders of vessels are hereby warned of the serious risk they incur by incautiously approaching the dangerous vicinity of the Pulicat Shoal, as hazy weather or other causes may obscure the light,—true soundings therefore and a vigilant look-out are imperatively called for. The limits of the Madras Roadstead (in 8 or 9 fathoms) are comprised within the following bearings, viz. from the northward the Light House will bear S. 56° W., and from the southward N. 81° W., or from S. W. by W. to W. ¾ N.

The New Lighthouse at Madras, is in latitude 13° 5' 10" north, and in longitude 80° 20' east of Greenwich.

Published by order of the Marine Board at Fort St. George.
