NOTICE TO MARINERS.

HIS Excellency the GOVERNOR has been pleased to direct the re-publication, from the South Australian *Government Gazette*, of the following Sailing Directions for Gulf St. Vincent.

*By His Excellency's Command,
 E. DEAS THOMSON.*

**SAILING DIRECTIONS FOR GULF ST.
 VINCENT.**

AFTER making Kangaroo Island, steer E. $\frac{1}{2}$ N. through Investigator's Straits, between that island and Althorpe Island. Should the wind be from the eastward, you will find no difficulty in beating through the Straits, nor anything in the way more than is pointed out in Flinders's chart. If bound up Gulf St. Vincent, great care is requisite to avoid Troubridge Shoal, situated on the west side of the entrance, as the flood tide through Backstairs Passage sets strong (particularly on the full and change of the moon) directly upon the shoal; therefore, coming from the westward, the course should not be altered until Point Marsden bears S.W. by W. $\frac{1}{2}$ W., when you will be about ten miles from the high land inside Cape Jarvis, named in Flinders's chart N.W. Bluff, when you may shape your course for the Light Vessel, N.N.E., forty miles distant. For about six leagues up the Gulf, the land is high and bold; but above that, the shore becomes very low, with hummocks of sand upon it; and the same description of coast prevails to the head of the Gulf.

After passing the high coast land, the water shoals far out, and in some places (when within the distance of ten miles from the Light) five fathoms will be found at a distance of four miles from the beach.

Be careful of your soundings, particularly at night; and in running up to the Light, keep, as nearly as you can, in between five and six fathoms water—not approaching inside five, as within that depth the water shoals suddenly; and if you keep outside six fathoms, you may pass to the westward of the Light and not see it. In these soundings you will make the Light ahead, which may be seen twelve miles from the deck of a ship. The shoal—called the Bar—at the entrance to the Port, bears N.E. one mile from the Light Vessel. When you are within a proper distance, a boat will be sent to you from the Light Vessel with a pilot, and to receive all mails and letters. Should you sight the Light in the early part of the night, you may anchor anywhere to the southward of it in six fathoms, or keep under weigh until daylight, taking care to be to the southward of the Light, and as near it as possible in the morning, as the tide answers early. Where the Light Vessel is moored, in latitude $34^{\circ} 44'$ S., the anchorage is safe; but a good full scope of chain is required, never less than fifty fathoms; and, if it blow, a full chain. Never let go the second anchor if you can avoid it, rather give more chain, as your vessel will ride much easier with one anchor down than two.

When bound down the Gulf, steer from the Light Vessel S.S.W., which will keep you in sight of the land on the east side of the Gulf, and out of the influence of the tide through Backstairs Passage, until you are to the southward of Troubridge Shoal; but on no account shape a course that you may fancy will enable you to weather the Shoal, (thereby laying the ship's broadside exposed to a rapid tide running directly upon it) until you are sufficiently to the southward to shape your course down the Strait.

In beating down the Gulf, never exceed a distance of ten miles from the harbour shore (as the opposite side is a shoal) and be careful, when standing in, to have a cast of the lead, as it is shoal a considerable

distance off, until you get down to the high land. In some places to the northward of Holdfast Bay, there are not more than five fathoms at a distance of four miles from the beach, and the water shoals very quickly within that depth; but where the high land fronts the sea, the shore is steep, except a reef that lies a mile off, about three miles to the southward of Holdfast Bay. The Flag Staff at Holdfast Bay is in latitude $34^{\circ} 58' 28''$ S. In moderate weather, endeavour to be as close to the land as possible by sunset, when you will be certain of the wind off the land, which will lead you down the coast. Do not allow yourself to be thrown off until you are well down with Cape Jervis, and to the southward of Trounbridge Shoal, which is an extensive flat, and only in the middle shows a patch of about 200 yards at high water.

Ships bound down Investigator's Strait meeting a strong westerly wind, and wishing to anchor, will find good holding ground close in on the east side of Point Marsden, in six fathoms water.

Vessels coming from the eastward through Backstairs Passage, and bound up the Gulf, should not be approaching, must keep on the north side of the Passage, and haul round Cape Jervis—all that coast being quite bold. When the Gulf is open, shape a course N. by E. $\frac{1}{2}$ E. for the Light Vessel.

CONDITIONS.

All the articles required by this Notice are to be of the best quality of their several kinds.

The Flour and Bread must be the produce of clean sound Colonial wheat, from which, on the Ration of Emigrants, Surveying, and Mounted Police, or other parties, Superintendent and Crew of the Floating Light, Men at the Light House, Telegraphs, Boatmen, Apprentices, the Orphan Schools, and the Institution for Destitute Roman Catholic Children, 20 per cent., and on the Ration to Prisoners of the Crown, 10 per cent. has been extracted in bran and waste.

Beef and Mutton to be issued in such proportions as may be required for the Ration to Emigrants, and when the quantity admits of it, this, as well as the Convict Ration of Beef, to be delivered in fore and hind quarters alternately.

Beef to be issued to the Orphan Schools on five days, and Mutton on two days of the week.

The Maize Meal to be similar in quality to the Wheat Meal, and to be twice ground.

The Tobacco to be Colonial.

When it may be necessary to substitute one article for another, the following proportions are to be observed, viz.:—11b. wheat

flour or 11b. biscuit, equal to $1\frac{1}{2}$ lb. of bread; 11b. salt beef or 11b. mutton, or 10oz. salt pork, equal to 11b. of fresh beef.

These substitutions are not, however, to be made, except on the requisition of the Officers authorised to draw the several Rations.

Hospital Bread is to be supplied to the Children of the Orphan Schools, and to the Institution for Destitute Roman Catholic Children when required by the Surgeon, in lieu of the ordinary Ration.

Vegetables to be supplied in reasonable proportions of potatoes, greens, pumpkins, onions, &c., &c.

The supplies for Road and other parties, are to be delivered at the nearest fixed Stations to the places where the party may be employed, on the requisition of the Officer in charge; and in cases the whole Ration of Forage be not required or delivered, each of the species to be reckoned as the portion of the Ration undermentioned:—

The maize or barley 4-12, the hay 5-12, the bran 2-12, the straw 1-12.

The supplies (not specified in the preceding paragraph,) are to be delivered direct to the parties or establishments entitled thereto, on the written order of the person duly authorised for the purpose.

The Tenders for provisions and Forage, when required by Rations, according to the scale under their respective heads, are to express the price per Ration only.

The Tenders for Forage are not required to state the price of the Ration for Oxen, as when the latter is required, one-half of the allowance fixed for Horses will be drawn, and one-half the price allowed to the Contractor, whose engagement will be to provide for both Horses and Oxen.

In the event of a difference of opinion between the Contractor and the party receiving the supplies, as to the quality, the same is to be decided, in cases where the article is not of a perishable nature, by a Board of Survey, composed by persons named by the Government, according to the practice of the service. But in country districts, where such a Board of Survey cannot be conveniently assembled, the party objecting will name one person as arbitrator, the Contractor or his agent another, and these two will (previously to any other proceeding on their part,) concur in naming a third as umpire, who, in the event of the arbitrators not agreeing in opinion, will be called upon for his decision, which shall be final.

If the board, arbitrators, or umpire, shall decide that the article is not of proper quality, it must be immediately replaced by the Contractor, failing of which, it will be procured by the Department requiring it, and the expense charged to the Contractor.

In the event of any unnecessary delay, or

failure of the Contractor to supply the articles when required, they will be otherwise procured, and charged in like manner.

In cases where the article is of a perishable nature, or from some other cause injury would be sustained, either by the parties to whom the Rations are due, or to the Contractor, by waiting for a Board of Survey, the head of the Department, or Officer in charge of the party or parties for whom the Rations are to be received, shall have power to reject such article or articles as are obviously of inferior quality; it being distinctly understood, that he will be responsible to the Government for so doing; and that the Contractor will have a right to appeal to the Governor, although, in the mean time, he must take back the rejected article, and supply good in its stead, failing of which, it will be obtained by the Officer or party requiring it, and the expense charged to the Contractor.

A repetition of irregularity in the quality or quantity of the supplies, or of any delay in delivering or replacing them when required, will also subject the Contractor, upon the Report of the Officer in charge of the parties or establishment, to such mulct, not exceeding one-fourth the amount of his monthly account, as the Governor may direct. It will also be in the power of the Governor, upon such repetition, to terminate the Contract forthwith.

It will be in the power of either party to limit the duration of the Contract, by giving, in writing, a notice of three full calendar months to the opposite party, and to end the Contract at the expiration of that period, it being understood that such notice can be given only from the first day of a month, and within the period for which the Contract is made, or agreed to be made.

The Contractor will be required to prepare his own account, monthly or quarterly, in the prescribed form; and on the production thereof, with the requisite vouchers, in a complete state to the Officer receiving the supplies, the same will be forwarded by the latter to the Auditor General, in order that a warrant may be prepared and payment made from the Colonial Treasury.

The value of all packages to be included in the prices demanded.

Printed forms of Tender may be obtained at this Office, or from the Police Magistrates or Benches of the several Districts; and no Tender will be attended to unless accompanied by an agreement in writing, made upon, and in conformity with such printed form, and signed by at least two solvent parties, stating their willingness to become sureties for the due fulfilment of the Contract, and no payments will be made to the parties whose Tenders may be accepted, until the bonds are duly executed by themselves and sureties.

The Tenders to contain the names of the Tenderers and their Sureties, and places of residence, at length.

Each Tender is to be enclosed in a separate envelope, and marked "*Tender for Provisions, &c.*"

Further particulars and information may be obtained on application at this Office, or to the Auditor General.

The party Tendering, or an Agent authorised in writing to act for him, is requested to attend at this Office, at the time appointed for receiving the Tenders, to afford such explanation or information as may be required.

By His Excellency's Command,

E. DEAS THOMSON.
