NOTICE TO MARINERS.

HIS Excellency the Governor has been pleased to direct the re-publication, from the South Australian Government Gazette, of the following Sailing Directions for Gulf St. Vincent.

By His Excellency's Command,
E. DEAS THOMSON.

SAILING DIRECTIONS FOR GULF ST.
VINCENT.

After making Kangaroo Island, steer E. $\frac{1}{2}$ N. through Investigator's Straits, between that island and Althorpe Island. Should the wind be from the eastward, you will find no difficulty in beating through the Straits, nor anything in the way more than is pointed out in Flinders's chart. If bound up Gulf St. Vincent great care is requisite to avoid Troubridge Shoal, situated on the west side of the entrance, as the flood tide through Backstairs Passage sets strong (particularly on the full and change of the moon) directly upon the shoal; therefore, coming from the westward, the course should not be altered until Point Marsden bears S.W. by W. $\frac{1}{2}$ W., when you will be about ten miles from the high land inside Cape Jervis, named in Flinders's chart N.W. Bluff, when you may shape your course for the Light Vessel, N. N. E., forty miles distant. For about six leagues up the Gulf, the land is high and bold; but above that, the shore becomes very low, with hummocks of sand upon it; and the same description of coast prevails to the head of the Gulf.

After passing the high coast land, the water shoals far out, and in some places (when within the distance of ten miles from the Light) five fathoms will be found at a distance of four miles from the beach. Be careful of your soundings, particularly at night; and in running up to the Light, keep, as nearly as you can, in between five and six fathoms water—not approaching inside five, as within that depth the water shoals suddenly; and if you keep outside six fathoms, you may pass to the westward of the Light and not see it. In these soundings you will make the Light ahead, which may be seen twelve miles

from the deck of a ship. The shoal—called the Bar—at the entrance to the Port, bears N.E. one mile from the Light Vessel. When you are within a proper distance, a boat will be sent to you from the Light Vessel with a pilot, and to receive all mails and letters. Should you sight the Light in the early part of the night, you may anchor anywhere to the southward of it in six fathoms, or keep under weigh until day-light, taking care to be to the southward of the Light, and as near it as possible in the morning, as the tide answers early. Where the Light Vessel is moored, in latitude $34^{\circ} 44'$ S., the anchorage is safe; but a good full scope of chain is required, never less than fifty fathoms; and if it blow, a full chain. Never let go the second anchor if you can avoid it, rather give more chain, as your vessel will ride much easier with one anchor down than two.

When bound down the Gulf, steer from the Light Vessel S.S.W., which will keep you in sight of the land on the east side of the Gulf, and out of the influence of the tide through Backstairs Passage, until you are to the southward of Troubridge Shoal; but on no account shape a course that you may fancy will enable you to weather the Shoal, (thereby laying the ship's broadside exposed to a rapid tide running directly upon it,) until you are sufficiently to the southward to shape your course down the Strait.

In beating down the Gulf, never exceed a distance of ten miles from the harbour shore (as the opposite side is a shoal) and be careful, when standing in, to have a cast of the lead; as it is a shoal a considerable distance off, until you get down to the high land. In some places to the northward of Holdfast Bay, there are not more than five fathoms at a distance of four miles from the beach, and the water shoals very quickly within that depth; but where the high land fronts the sea, the shore is steep, except a reef that lies a mile off, about three miles to the southward of Holdfast Bay. The Flag Staff at Holdfast Bay is in latitude $34^{\circ} 58' 28''$ S. In moderate weather, endeavour to be as close to the land as possible by sunset, when you will be certain of the wind off the land, which will lead you down the coast. Do not allow yourself to be thrown off until you are well down with Cape Jervis, and to the southward of Troubridge Shoal, which,

is an extensive flat, and only in the middle shows a patch of about 200 yards at high water.

Ships bound down Investigator's Strait meeting a strong westerly wind, and wishing to anchor, will find good holding ground close in on the east side of Point Marsden, in six fathoms water.

Vessels coming from the eastward through Backstairs Passage, and bound up the Gulf, should night be approaching, must keep on the north side of the Passage, and haul round Cape Jervis—all that coast being quite bold. When the Gulf is open, shape a course N: by E: ½ E. for the Light Vessel.

Naval Officer and Harbour-Master of the Province of South Australia.

Port Adelaide,
15th July, 1845.

Colonial Secretary's Office,
Sydney, 4th November, 1845.

HIS Excellency the Governor has been pleased to appoint Mr. William Johnstone Sugden, Chief Constable of Melbourne, to be an Inspector of Distilleries in and for the District of Port Phillip, under the provisions of the Act of the Governor and Council, 3 Victoria, No. 9, intitled, "An Act to consolidate and amend the Laws for the Distillation of Spirits in the Colony of New South Wales, and for the issue of Licenses for Distilling, Rectifying, and Compounding Spirits therein, and for repealing certain Laws relating thereto."

By His Excellency's Command,
E. DEAS THOMSON.

THE Undermentioned prisoner of the Crown, holding a ticket-of-leave, for Port Phillip, has absconded from his registered place of abode, and is illegally at large, also charged with cattle stealing.

Government Accounts.

IT is requested that all amounts, for any supplies or services obtained for the public service at Port Phillip, previous to the 31st of this month, may be presented to this office in the prescribed form, for payment, as soon after the expense has been incurred as possible, in order that it may, if practicable, be defrayed within the year.

Any accounts for the service of 1845, which cannot be defrayed within the year should be brought forward as soon after its close as will admit of their being paid within the ensuing month of January.

The several collectors and officers in the receipt of public monies, who are not too far distant from Melbourne to prevent it, will in like manner pay into this office, on the 31st instant, all collections remaining in their hands respectively up to that date, so that the entire revenue of the district may, as far as practicable, be credited in the accounts of the year.

By order of his Honor the Superintendent,
W. LONSDALE.

Colonial Secretary's Office,
Sydney, November 18th, 1845.

NOTICE TO MARINERS.

HIS Excellency the Governor has been pleased to direct the publication of the annexed Extract from a letter addressed to the Honorable the Colonial Secretary of New Zealand, by the Harbour Master of the Port of Auckland, relative to a sunken rock, situated between the Great and Little Barrier Islands, in the Frith of the Thames, New Zealand.

By his Excellency's Command,
E. DEAS THOMSON.

EXTRACT.

Auckland, 20th October, 1845.

Sir,—There is a very dangerous sunken rock lying between the Great and Little Barrier Islands, (about three and a half miles distant from the latter Island,) from which the following bearings were taken:—

South end of the Little Barrier or Shoutouron Island, due west (magnetic.) Wellington Head, (Great Barrier Island,) N.E. by N. $\frac{1}{2}$ N., eastern extremity of Kauwau Island, S.W. $\frac{1}{2}$ S. Mutu Takapu, a small Island near Cape Colville, S.E. $\frac{1}{2}$ east.

The sea does not usually break upon this rock during moderate weather, but at times breakers can be seen upon it at several miles distance; and at low water the top of the rock may be seen amongst the breakers. The soundings taken showed three fathoms water close to the breakers, and fourteen fathoms within a cable's length of them.

I am, Sir, &c.

(Signed) DAVID ROUGH,
Harbour Master.

The Honorable the Colonial Secretary,
&c., &c., &c.
