GOVERNMENT GAZETTE,

Published by Authority.

FRIDAY, JANUARY 30, 1846.

*Colonial Secretary's Office,**Sydney, 30th January, 1846.*

CENSUS.

HIS Excellency the GOVERNOR is pleased to direct the publication of the following Circular, which has been addressed to the several Police Magistrates, Benches of Magistrates, and Commissioners of Crown Lands, with a view of explaining the nature of the duties devolving on them, under the provisions of the Act of Council, 9 Victoria, No. 21.

By His Excellency's Command,
E. DEAS THOMSON.

CIRCULAR.

Colonial Secretary's Office,
Sydney, 17th January, 1846.

I am directed by His Excellency the Governor to offer the following observations for your guidance in carrying out the provisions of the Census Act, 9 Victoria, No. 21.

2. The first duty devolving upon you under this enactment, ^{Preparatory Notices.} namely, the affixing of preparatory Notices throughout the District, has already been referred to in my Circular of the 9th ultimo.

3. You will find the limits of your District set forth in the ^{GO-} Limits of District. ^{and to} Government Notice of the ^{and to} these limits you should strictly adhere.

4. In the next place, you are required, on or before the 16th of February, to appoint proper persons to collect, within your District, ^{Collectors to be appointed.} the information required by the Act. It is of great importance that in the selection of individuals to be appointed Collectors, none but persons ^{Their qualification.} of sufficient education, intelligence, and capacity, should be chosen.

Number of Collectors to be appointed.

5. The number of Collectors to be appointed will be left to your discretion. But although the Governor does not wish to fetter you in this respect, His Excellency desires strongly to impress upon you the necessity for observing a strict economy, in order that the entire expense of taking the Census may be kept within the amount provided by the Legislature to meet this service. Whilst on this subject, I may remark, that it is very desirable that the Census should be taken in the shortest possible time, consistent with accuracy. And on the other hand it must be borne in mind, that the fewer the Collectors employed, the less risk will there be of confusion in the apportionment of the work, and in the ultimate condensation of the Returns. You will therefore, it is believed, best consult the public interests, and at the same time ensure the accuracy of the Census, by endeavouring to procure the performance of the work by the smallest number of Collectors in the shortest period. For, independently of any considerations of economy, the shorter the period occupied in taking the Census, the more nearly may the Returns be supposed to approximate to the truth, as a fertile source of error will thereby be partially removed, namely, the constant changes taking place in the residences, &c., of the population.

Census should be taken in shortest possible time and by smallest number of Collectors.

Accuracy of Returns thereby ensured.

Distinct portion of District assigned to each Collector.

6. In those Districts in which it is found necessary to employ more than one Collector, each Collector should have assigned to him a distinct portion of the District. In the City of Sydney and in towns, this will be a matter of easy accomplishment; but in the rural Districts it may, in some cases, become one of difficulty. To this point I would solicit your best attention, as confusion and error will inevitably result from any want of precaution in this respect.

Collectors to be instructed in the nature of their duties,

7. Having fully informed the Collectors of the limits of the District or part of a District within which they are respectively to be employed, it will be very desirable that, before they commence their duties, you should make them acquainted with the provisions of the Act, so far as the same may be applicable to them, and also with the nature of the information to be obtained by them, and the mode of filling up the Returns.

and practised in filling up forms.

8. In order to test more perfectly the qualification of each Collector, he should be required, previously to the day for taking the Census, to fill up some of the forms of Return, by the enumeration of the families of the Magistrates or other persons, of whom the particulars can be ascertained and checked. By this means the incapacity of any individual may be previously known, and any further instruction given to him which may be considered necessary, or if found incompetent, some other person may be selected for the duty.

Form A. to be left at each house.

9. From the memorandum at the head of Schedule A, annexed to the Act, it will be perceived, that it is intended to leave a copy of the form A at each house or establishment in the District at some time previous to the 2nd March, in order that it may be properly filled up by the householder, at his leisure, and delivered to the Collector when called for. By this means, it is hoped, much time will be saved to the Collectors. I must explain to you, however, that this arrangement has reference chiefly to towns, and the more populous rural Districts. In thinly inhabited Districts, and especially in Districts beyond the limits of location, where the Collectors would have twice to travel a considerable distance, firstly to deposit the form, and again to obtain it duly filled up, it may not be desirable to adhere to this plan. In cases such as I have alluded to, you will adopt the course which you deem most likely to secure the desired end.

Exceptions.

10. In filling up the heading of each form, the following particulars should be distinctly stated, viz.:—The County, the Police District, Particulars to be inserted in heading of form A. (or Border District as the case may be,) the Town (if any,) and the street &c., if in a Town. In the County of Cumberland, but not elsewhere, the parish must also be stated, and in Sydney, and Melbourne, the Ward of the City or Town, respectively.

11. The Collectors in seeking any information required by the Act should studiously avoid every thing likely to give offence; and they Collectors to avoid giving offence. should be reminded that under the proviso annexed to the 2nd clause, they are not at liberty to ask any person *directly* any question relating to his or her civil condition.

12. A single copy of the form A will suffice for each House or Form A. Establishment so far as regards the *Numerical Return*. The form of Numerical Return. *Nominal Return* has been repeated on each sheet seven times; and in Nominal Return. any case where this proves insufficient for the number of residents, the Collector should insert the additional names in one of the detached forms which have been printed for the purpose, taking care that the sheets are afterwards securely fastened together, and his own signature and that of the Householder, duly attached to the last sheet.

13. When the Collector calls for these Returns he should carefully peruse and examine each paper, in order that he may be enabled to ask any necessary question or supply any deficiency before leaving the House or Establishment. Collectors to examine forms before leaving each house.

14. I believe I need not offer any observations as to the mode of filling up the *Numerical Return*, which would seem sufficiently to explain itself. And in regard to the *Nominal Return*, which is very simple in its details, what is principally required is, that it should shew clearly and intelligibly the occupation of each person, whether in the capacity of employer or employee. If this be not done, it will be impossible for you, with any degree of confidence, to prepare that part of the condensed Return which relates to the occupations of the people. As to filling up returns. Numerical Return. Nominal Return.

15. It is concluded that in remote Districts, the heads of Establishments will in most cases include in their Returns the names of all persons employed on or about their respective Establishments. But in all such cases, and also in Towns, great vigilance should be used by the Collectors, otherwise the heads of such Establishments may, from misapprehension, include the names of persons employed by them during the day only, who will again be returned in respect of the premises where they usually *sleep* or reside. The proper course to follow in such cases will be to return those persons only who *slept* or sojourned on the premises during the night of the 1st of March. As to returning persons employed in any establishment during the day only.

16. The forms when duly filled up, should be numbered and delivered to you on or before the 16th of March, by each Collector, who is required to make before a Magistrate a solemn declaration of their accuracy in the form annexed to the Act marked B. They should then be arranged by you in regular series for each County, parish, District, Town or Ward as the case may be; and it would conduce to simplification if a distinctive letter were attached to each series. For example, in the Police District of Windsor, which embraces portions of the Counties of Cumberland, Cook and Hunter, the Returns should be arranged separately for each separate parish or part of a parish in the County of Cumberland, separately for each of the Counties of Cook and Hunter, and separately for every Town in any one of these Counties. Forms to be numbered and delivered by the 16th of March, and declaration made of their accuracy. To be arranged in regular series, for each county, &c. Example.

17. In filling up the form of declaration above alluded to, the Collector should state minutely the District or portion of a District for Filling up form declaration.

Example. which the Returns are rendered. Thus a Return might be described as "a statement of the number and quality of the persons residing within that portion of the parish of _____ in the County of Cumberland, comprised in the Police District of Windsor,"—and so in respect to any other portion of the District assigned to the Collector.

As to Gaols, Hospitals, &c. 18. If there be within your District any public Establishment of the nature of those specified in the third clause of the Act, you will understand that the person in charge of such Establishment is deemed to be a Collector in respect of the inmates of such Establishment. The heads of all such Establishments should be supplied by you with the necessary forms as in the case of ordinary Collectors.

Examination of Returns. 19. As soon as conveniently may be, after the receipt of the Returns from the Collectors, you will appoint a day for their examination—requiring at the same time, the attendance of the Collectors to afford any information touching the accuracy of the Returns. It will then rest with you to exercise the power vested in you by the fifth section of the Act, of supplying or correcting, as far as possible, any defect or inaccuracy which your local knowledge may enable you to discover in the Returns.

Collectors to be in attendance. **Inaccuracies to be corrected.** 20. The next duty devolving on you is to cause Abstracts of the Returns to be made in the form C,—taking care that a separate Abstract is prepared for every County or portion of a County, and for every Town or reputed Town in your District. Thus, commencing with the Returns for the Town of _____, the items will be transferred (in the manner hereinafter described,) from the Returns in the form A, to the form C. The Abstract for the Town being thus completed, make a separate Abstract for the *remainder* of the County, in the same manner, and add the totals of the Town, as forming a part of the County, but without retranscribing the items at full length. In the County of Cumberland (but not elsewhere) separate Abstracts must also be made for each parish; and in the City of Sydney, and in the Town of Melbourne, in like manner, separate Abstracts are required for each Ward of the City and Town respectively.

Preparation of Abstracts in form C. 21. The several Columns under the general heads "*Number of each Age*"—"Social Condition"—"*Civil Condition*" and "*Religion*" will be filled up simply by transcribing the items from the corresponding columns in the form A,—*each line* in the form C, containing the particulars given in one of the forms A.

Items to be transcribed from form A. to C. 22. The classification of ages under the head "*Education*" in form C differs from that under the same head in the form A,—the latter being more minutely subdivided than the former. It will therefore be necessary to condense the particulars given in the form A to suit the columns in the form C, which distinguish only persons under, from those above 21 years of age. Perhaps the simplest mode to accomplish this will be to subtract the number in each column *above* 21 years (that is to say the *lowest* line) from the total number in the same column in the form A. The remainder will of course be the number under 21 years in each division respectively.

Classification under head "Education." 23. The Return under the head "*Country where born*" will be an Abstract of the particulars in this respect contained in the *Nominal* Return attached to the form A.

Return "Country where born." 24. The mode in which it is proposed to collect the information under the head "*Occupation*," is now adopted in this Colony for the first time. The principle is that each person should state *in his own words* the nature of his occupation, and that afterwards a digest should be made of the information thus obtained, more or less minute, as may be here-

"Occupation return."

after determined on. It has not, however, been deemed advisable by the Legislature to require at the hands of the Benches any more detailed Abstract than that indicated by the several columns in this portion of the Return C.

25. In the first column, headed "*Commerce, Trade, and Manufacture*," should be returned:—

- 1st.—All Merchants, Bankers, Commercial Agents, &c., and all persons employed by them *as such*. For instance, the Merchant's Clerks, Book-keeper, and all persons employed by him *in his mercantile pursuits*, will be properly returned in this column, but not his domestic servants. "Commerce."
- 2nd.—All Shopkeepers, Storekeepers, and other retail Dealers, Publicans, and all persons employed by them *as such*, excepting domestic servants. "Trade."
- 3rd.—All Millers, manufacturers of Cloth, Hats, Soap, Tallow, and every other description of manufacture, all Distillers, Brewers, Rectifiers, &c., and the persons in their employ *as such*, excepting domestics. "Manufacture."

26. The column under the head "*Agriculture*," will include Farmers and Agricultural Laborers; that is to say, all persons engaged in *tilling the soil*, except those hereafter enumerated under the head "*Horticulture*." "Agriculture."

27. The Return under the head "*Grazing*," will embrace:— "Grazing."

- 1st.—All persons engaged in the care or management of sheep; and—
- 2nd.—All persons engaged in the care or management of cattle or horses.

28. The cases will be numerous in which persons may be engaged in the management jointly of sheep and cattle, or in some other mixed occupation. In any future analysis of the Occupation Returns these can be classified in the way which may be deemed most advisable. In the mean time, however, for the sake of uniformity throughout the Colony, it will be well that in all such cases, the occupation of the individual which shall preponderate in favor of any one of the enumerated classes, should be set down in the General Abstract under the appropriate head as that to which he belongs. As to mixed occupations.

29. Under the head "*Horticulture*," will be returned Gardeners, Florists, Nurserymen, Vine-dressers, and those in their employ *as such*. "Horticulture."

30. In the next column will be included all *Laborers*, other than those comprised in any of the foregoing columns. "Other Laborers."

31. The columns headed respectively "*Mechanics and Artificers*," and "*Domestic Servants*," do not seem to require any comment; except, of course, that any persons included in the Return under the head of manufacturers, are not to be repeated under the head of Mechanics or Artificers. "Mechanics and Artificers."
"Domestic Servants."

32. Under the head "*Clerical Profession*," will be returned Clergymen of all recognised persuasions and Clerical Students. "Clerical Profession."

33. The "*Legal Profession*" will embrace all Judges, Barristers, Solicitors, Conveyancers, Notaries, Law Students, articled Clerks, and other Law Clerks of every description. "Legal Profession."

34. The "*Medical Profession*" will embrace all Physicians, Surgeons, Apothecaries, Chemists, Druggists, Accoucheurs, Dentists, Midwives, and their respective assistants, apprentices, and others in their employ *as such*. "Medical Profession."

35. In the column "*Other educated people*" will be included, all officers of the Civil Government, Clerks in public offices, artists, and persons engaged in Literary pursuits. "Other educated persons."

36. The next column will include alms people, pensioners, paupers, lunatics, and all person confined in Gaols, Hospitals, &c. "Alms people, paupers, &c."

37. In the next column will be inserted all persons who follow any definite occupation not already comprised in the foregoing, such as the Military, &c. "Other occupations."

38. And finally in the last column will be returned the "*Residue of the population*," that is to say persons of all ages and both sexes not "Residue of population."

returned in any of the foregoing columns. This will include persons not following any occupation—women (for the most part)—and children: and also all those persons who may to your knowledge be omitted to be returned by the Collectors, in consequence of having been travelling, or not within any house on the night of the 1st of March, and who cannot be more definitely described.

Persons arriving on or after 2nd March.

39. Persons who may arrive in your District by Sea or Land from other parts of the Colony, on or immediately after the 2nd March, and of whom full particulars can be ascertained, should be returned as for the Inn or other House at which they put up,—first ascertaining, as far as practicable, that they have not been already returned for some other District.

Classification of families.

40. As difficulties may arise in classifying the families of persons returned as following some occupation, I beg to explain that, unless actually and habitually employed in some way in the trade or calling of the husband, the wife and family should be returned under the head "*Residue*."

Examples.

To illustrate this principle I would instance the case of a merchant, one of whose sons or other male relatives, residing with him, assists in the Counting House. The merchant, his son or relative, his accountant, Book-keeper, Clerks, &c., will be returned under the head "*Commerce*," whilst the wife and remainder of the family not thus personally employed, will come under the head "*Residue*." This of course will not affect the case of a wife who pursues some occupation distinct from that of her husband, in respect of which she should be returned under the appropriate head. Again, in the case of an Hotel Keeper whose wife jointly conducts the business, both husband and wife will be returned as persons in trade, and their family (if not occupied) as "*Residue*." And the same principle applies equally to trades and handicrafts as to occupations of the nature alluded to.

Figures to be added up.

41. Having transferred the particulars from the Collector's returns to the form C, each column of figures on each sheet should be carefully added up, the amounts carried over to the succeeding page, again repeated on the last page, and the grand Totals ascertained,—the certificate at the foot of the last sheet of each series being filled up and signed by you. The whole should be securely fastened together *and sealed*; and with the original returns of the Collectors, transmitted to this office, on or before the first day of June next.

Certificates to be signed

Abstracts to be sent to Colonial Secretary.

Number of forms sent to Colonial Secretary to be stated.

42. In the letter transmitting them to me it should be clearly stated how many sheets of each form are sent, in order that it may readily be seen whether any of them have miscarried.

43. I have already forwarded to you, or will hereafter forward as opportunities offer, copies of the form A, copies of the form B, and copies of the form C, the great bulk of the forms not admitting of their being all sent at once, except to those Districts to which access is had by water.

44. As some misapprehension appears to exist as to the number of the forms which will be required in the various Districts, I beg to explain that one copy of the form A is (as already stated) to be left at each House or Establishment, whilst one copy of the form B (namely the form of declaration) will suffice for each Collector, or at least for each Series of Returns made by the same Collector; and each copy of the form C will embrace and be equivalent to 20 copies of the form A.

I have the honor to be,

Your most obedient servant,

(Signed)

E. DEAS THOMSON.

The limits of the Districts are the same as those adopted in the Division of the Colony into Police Districts, and a map shewing the same may be seen at this Office.

CONDITIONS.

1. All the articles shall be of the best quality of their several kinds.
2. The Bread shall be the produce of clean, sound Wheat, Barley, and Maize, from which, on the Military Ration 20 per cent., and on the Convict Ration 10 per cent., has been extracted in bran and waste. The Wheaten Bread shall be made in loaves of 3lbs., and the Mixed Bread in loaves of 3½ lbs. each, and baked 24 hours before being issued; and parties tendering are requested to observe, that the most rigid adherence to the conditions as to the quality of the Bread, shall be invariably enforced.
3. The Fresh Meat for the Military Ration shall be in the proportion of 5 lbs. of Beef, and 2 lbs. of Mutton, weekly, deliverable alternately in fore and hind quarters, when the quantity admits of it; for the Convict Rations, the Beef shall be delivered in the same manner: Salted Beef being issued only in summer to Road Parties; and when authorised.
4. The Maize Meal shall be similar in quality to the Wheaten Meal, and shall be twice ground.
5. The Vegetables for the Hospitals and other Establishments entitled thereto, shall be supplied in reasonable proportions of Potatoes, Greens, Pumpkins, Onions, Carrots, Turnips, &c.
6. The Rum shall be West India, five per cent. under proof, and to be taken out as required for the service at Sydney, from the Bonded Stores, and upon the Certificate of the Commissariat Officer in charge of the Provision Branch.

MODE OF DELIVERY.

7. The supplies above specified shall all be delivered by the Contractor direct to the Parties or Establishment entitled thereto, upon the written order of the Commissariat Officer in charge of the District, or of the person authorised for that purpose.

8. At the several fixed Stations the Rations for the Troops, the Convict Establishments, and Road and other Parties, shall be delivered by the Contractor at the Barracks, Establishments, or Huts, where the parties to be supplied may be stationed; being previously to removal from the Contractor's Premises approved by a person authorised for the purpose.

9. The Forage shall be delivered by the Contractor at the Establishments where the Horses or Cattle are stationed, and in case the whole Ration of Forage be not required or delivered, each of the species shall be reckoned as the proportion of the Ration undermentioned, viz:—

- | | |
|-------------------------------|----------|
| The Maize or Barley | 4-12ths. |
| The Hay | 5-12ths. |
| The Bran | 2-12ths. |
| The Straw | 1-12th. |

GENERAL CONDITIONS.

10. Parties tendering may do so by either of the three following modes, at their option, viz:—

1. The whole of the Supplies of every description, in each District may be included in one Tender, as at present.
2. Or the Supplies may be tendered in sub-divisions as below, by a separate Tender for each sub-division, viz:—

1. The Military Ration
2. The several Rations for Exiles and Convicts as described from 2 to 11, inclusive
3. The Ration of Forage
4. The Ration of Fuel and Light
5. The Supplies for Hospitals
6. The Supplies for Naval Purposes and Penal Settlements
7. The Supplies for General Purposes.

3. Or the various articles comprising the several Rations referred to, as well as all those required for Hospitals and other purposes, may be tendered separately or singly, by weight and measure; the undersigned reserving to himself the power of accepting Tenders for supplying by any of these modes which he may find most expedient.

11. Contractors shall have at all times on the spot a supply of *fourteen days in reserve*, in the care of a competent Agent, to whom reference may be had in the Contractor's absence, in default of which, the Commissariat Officer, or other duly authorised person, may purchase at his, the Contractor's expense, such articles as are not forthcoming: and in the event of repeated failures in this respect, together with other causes of dissatisfaction arising from the bad qualities of the supplies as decided by Boards of Survey or arbitrators, it shall be in the power of the undersigned or his successors in office to cancel the contract and enforce the penalty.

12. In the event of a difference of opinion between the Contractor and the party receiving the supplies, as to the quality, the same is to be decided according to the practice of the Service. But in country districts, where a Board of Survey cannot

be conveniently assembled, the party objecting will name one person as Arbitrator, the Contractor or his agent another, and these two will (previously to any other proceeding on their part) concur in naming a third as Umpire, who, in the event of the Arbitrators not agreeing in opinion, will be called upon for his decision, which shall be final—the only question referred to the Board, or to the Arbitrators, will be, whether or not the article objected to be such as, by his contract, the Contractor is bound to deliver; and if the Board, Arbitrators, or Umpire, shall decide that the article is not according to the conditions of the Contract, it must be immediately replaced by the Contractor, failing which it will be procured, and the expense charged to his account. In cases where the article is of a perishable nature, or from some other cause injury would be sustained, either by the parties to whom the rations are due, or to the Contractor, by waiting for a Board of Survey, the Head of the Department, or Officer in charge of the party or parties for whom the rations are to be received, shall have power to reject such article or articles as are obviously of inferior quality or improper condition, it being distinctly understood that he will be responsible to the Government for so doing; and that the Contractor will have a right to appeal, although, in the mean time, he must take back the rejected article, and supply good in its stead, failing which it will be obtained by the Officer or party requiring it, and the expense charged to the Contractor.

13. It shall be in the power of either party to limit the duration of the Contract, by giving, in writing, a notice of three calendar months to the opposite party, and to end the Contract at the expiration of that period, it being understood that such a notice can be given only from the first day of a month, and within the period for which the Contract is made, or agreed to be made; and not later than the 1st of August.

14. The Contractor shall prepare his own account monthly according to the prescribed form; and shall receive payment on the production thereof, with the requisite vouchers in a complete state, before the termination of the succeeding month.

15. The value of all packages shall be included in the prices demanded.

16. Persons wishing to tender are requested to apply either at this Office, or to the Commissariat Officers in charge of the several Stations, who will furnish them with printed forms for the purpose, and communicate further particulars; and as adequate security will be required for the due fulfilment of the Contracts, each Tender must be accompanied by a letter from the parties proposed as such, stating that they are willing to become bound as securities for the Contractor accordingly.

17. The amounts of the Bonds required in the several Districts are as follows:—if contracted for collectively, viz.:—Sydney, £5000; Parramatta, £1000; Liverpool and Campbelltown, £500; Illawarra, £500; Windsor, £500; Penrith, £500; Hartley, £500; Bathurst, £500; Newcastle, £1000; Maitland, £500; Port Macquarie, £500; Moreton Bay, £500; Port Phillip, £500.

The several Bonds to be executed on or before the 1st March next, otherwise fresh Tenders will be re-advertised for.

18. Tenders, *in Duplicate*, are to be enclosed in a separate envelope, addressed to the undersigned, marked "*Supplies for 1846*" and no Tender made in consequence of this advertisement shall be withdrawn or altered, but notice of those accepted shall be given within eight days of the time of opening.

19. Flour in place of bread to be given for the Military Ration, *when required*, in the proportion of 14 2-7th ozs. of the former, for 16 ozs. of the latter.

20. The Contractor for the District of Sydney will be bound to furnish the Rations and articles particularised under the head of Provisions, No. 1 to 16, not only for the purposes specified, but also for any other purposes of the Military, Naval, and Convict Services, should there be occasion for it.
