CONDITIONS.

1. All the articles required by this notice are to be of the best quality of their several kinds.

2. The flour and bread must be the produce of clean sound colonial wheat, from which on the ration of emigrants, surveying parties, border police 20 per cent, and on the ration to prisoners of the crown 10 per cent, has been extracted in bran and waste.

3. Beef and mutton to be issued in such proportions as may be required, and when the quantity admits of it, to be delivered in fore and hind quarters alternately.

4. The maize meal to be similar in quality to the wheat meal, and to be twice ground.

5. When it may be necessary to substitute one article for another, the following proportions are to be observed, viz., 1 lb wheat flour or 1 lb biscuit equal to 1½ lb bread; 1 lb salt beef or 1 lb of mutton, or 10 oz salt pork, equal to 1 lb of fresh beef.

6. The tobacco to be the best colonial.

7. The above substitutions are not to be made except on the requisition of the officer authorised to draw the several rations.

8. Vegetables to be supplied in reasonable proportions of potatoes, greens, pumpkins, onions, &c., &c.

9. The supplies for road parties and surveying parties are to be delivered at the nearest fixed stations to the places where the party may be employed, on the requisition of the officer in charge;

and in case the whole ration of forage be not required or delivered, each of the species to be reckoned as the portion of the ration undermentioned:—The maize or barley 4-12—the hay 5-12—the bran, 2-12—the straw 1-12.

10. The supplies (not specified in the preceding paragraph) are to be delivered direct to the parties or establishments entitled thereto, on the written order of the person duly authorised for the purpose.

11. Provisions and forage, when required by rations, according to the scales under their respective heads, the tenders are to express the price per ration only.

The tenders for forage are not required to state the price of the ration for oxen, as when the latter is required one half of the allowance fixed for horses will be drawn, and one half the price allowed to the contractor, whose engagement is to provide for both horses and oxen.

13. In the event of a difference of opinion between the contractor and the party receiving the supplies, as to the quality, the same is to be decided, in cases where the article is not of a perishable nature, by a Board of Survey according to the practice of the service. But in country districts, where a Board of Survey cannot be conveniently assembled, the party objecting will name one person as arbitrator, the contractor or his agent another, and these two will (previously to any other proceeding on their part) concur in naming a third, as umpire; who, in the event of the arbitrators not agreeing in opinion, will be called upon for his decision, which shall be final.

14. If the board, arbitrators, or umpire shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing of which it will be procured by the department requiring it, and the expense charged to the contractor.

15. In the event of any unnecessary delay or failure of the contractor to supply the articles when required, they will be otherwise procured and charged in like manner.

16. In cases where the article is of a perishable nature, or from some other cause, injury would be sustained either by the parties to whom the rations are due or the contractor, by waiting for a Board of Survey, the head of the department or officer in charge of the party or parties for whom the rations are to be received, shall have the power to reject such article or articles as are obviously of inferior quality; it being distinctly understood that he will be

responsible to the government for so doing; and that the contractor will have a right of appeal to the Governor, although in the meantime he must take back the rejected article and supply good in its stead, failing of which it will be obtained by the officer or party requiring it, and the expense charged to the contractor.

17. A repetition of irregularity in the quantity or quality of the supplies, or of any delay in delivering or replacing them when required, will subject the contractor, upon the report of the officer in charge of the parties or establishment, to such mulct, not exceeding one-fourth the amount of his monthly account, as the Governor may direct. It will also be in the power of the Governor, upon such repetition, to terminate the contract forthwith.

18. It will be in the power of either party to limit the duration of the contract, by giving in writing a notice of three full calendar months to the opposite party, and to end the contract at the expiration of that period, it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made or agreed to be made.

19. The contractor will be required to prepare his own account, monthly or quarterly, in the prescribed form; and on the production thereof, with the requisite vouchers in a complete state, to the Sub-Treasurer for examination, and upon their approval, payment will be made by him at Melbourne.

20. The value of all packages to be included in the prices demanded.

21. Printed forms of tender may be obtained from the Sub-Treasurer; and a security of £2000 will be required for the due fulfilment of the contract. No tender can be attended to unless accompanied by a certificate from two responsible parties proposed as security, stating they are willing to become bound as securities for the contractor accordingly, and the bonds must be executed within twenty days from the day of acceptance of the tender being notified, failing of which the contracts will be again advertised or another tender accepted.

22. The tenders to contain the names of the tenderers and their sureties, and places of residence at length.

23. All tenders to be enclosed in a separate envelope, and marked "Tender for Provisions, &c," and to be deposited in a box marked "Tenders" at the western entrance of the Government Offices.

24. The tenders must include the whole of the rations and separate articles above mentioned.

25. The tenders are to be given in for the undermentioned districts, which may be tendered for separately or collectively. When the latter is the case each locality, as given below, must be stated in the Tender.

1. Melbourne, including the county of Bourke, the Mounted and Police Stations on the Goulburn and Broken Rivers, and any other Stations on or near the Sydney Road within the Port Phillip boundary, also all the Aboriginal Stations, excepting that at Mount Rouse.

GOVERNMENT NOTICE.

OCCUPATION OF CROWN LANDS WITHIN
THE SETTLED DISTRICTS.

THE attention of applicants for the survey and sale of portions of Crown Land, within the settled districts of Port Phillip, under the Government notice, issued from the Colonial Secretary's Office, of the 21st November, 1848, is directed to the following notice:

I.—*Applications made under the notice of 21st November, 1848, by parties who held the land previously, under the regulations of 21st August, 1841.*

Applicants under the notice of 21st November, 1848, who have occupied the land applied for previously, under the regulations dated the 21st August, 1841, are informed that their respective claims to the advantage held out by the above Notice, if still desired, are to be admitted.

In the meantime, and until the survey and sale of the portions of land applied for can be effected, the Applicants are called upon to take out without delay the license for the sections applied for, at the same rate of rent as that upon which they were held at the time of the promulgation of the Orders in Council, both for the current year, and for that commencing 1st January and ending 31st December, 1850.

II.—*Applications made under the notice of 21st November, 1848, by parties previously holding £10 annual licenses for Depasturing purposes.*

The notice of 21st November, 1848, had no reference to occupants of this class. The Applications made under it are therefore inadmissible.

The Applicants are called upon immediately, to take out the lease of the sections applied for, at £1 per section, for the year 1849.

They are also directed to renew, or take out the lease for 1850, of such of these sections as may be left in their occupation for the present, consistently with regard to the following rules.

1st. Applicants of this class occupying Crown Lands, which are not in a position to be claimed by adjoining proprietors of purchased land, under the 16th clause of the regulations 29th March, 1848, may renew their lease, for the year 1850, for the whole number of such sections in their occupation, at £1 per section.

2nd. Applicants of this class, for the

sections comprising whose stations, wholly or in part, application has been, or may be made by adjoining proprietors of land in fee simple, under the 16th clause, can only lay claim to protection, in further temporary occupation, by it being shewn that their stations fall within the class pointed at in the 22nd and 24th clauses of the same Regulations, specifying the class of lands which may still be let, at £1 per section, for depasturing purposes, and the portions which for the present are exempted from pre-emptive occupation. Under favour of the latter clause they may claim a lease for the section containing valuable improvements, and those immediately contiguous, if previously included in their license, notwithstanding the claim of persons under the 16th clause.

The quantity of land however, so protected, can in no instance, under the most liberal construction of the regulations, exceed 9 sections.

It was certainly not contemplated, that the advantage held out by the 22nd and 24th clauses should be conceded to persons previously holding depasturing licenses for Crown Lands, in positions contiguous to the towns, or in parts of the district where considerable quantities of Crown Land have been purchased and occupied previous to the promulgation of the Order in Council.

Still less was it designed to protect persons whose occupancy of Crown Lands, under depasturing license, was of a character neither justifying nor admitting of any considerable outlay, upon so called 'improvements,' being made.

Nevertheless under the actual circumstances of the case, seeing the impossibility of clearly defining what the term "boundary of location" in this district may mean; and further, that many, in consequence of a misconstruction of the intentions of the notice of November last, have been led to consider that their continued occupation of the land was admissible, it may be just to extend to these classes certain consideration.

It is, therefore, directed that within 10 miles of the 5 mile boundary around Melbourne for instance, such claims for the present and ensuing year only, shall now be admitted in the face of the pre-emptive claims, to the extent of the occupation of the section containing the homestead or other improvements; and any two sections adjoining, previously held under license, viz., 3 in all:—from 10 to 20 miles from the above limit, to the occupation of an area, if previously held under

license, not exceeding 6 sections in all,—and, beyond that distance only, to the occupation of the full number, namely, nine sections, in cases clearly justifying the admission of such claims.

The same general rules will apply to Crown Lands, situated within the Settled District, in the vicinity of the towns of Geelong, Portland, Alberton, Belfast, and Warrnambool respectively; the relative distances, as far as necessary, being computed from the boundaries of the respective reserves.

It must be borne in mind by all who, although within the Settled District, may be thus protected, for the present, in the occupation of a certain area of Crown Land previously held under £10 license for depasturing purposes, notwithstanding claims urged by the owners of adjacent lands in fee simple, under the 16th clause—that such protection is but temporary:—that this occupation must give place to the pre-emptive right of occupancy claimed by such holders of adjacent purchased land, in strict accordance with the real intentions of Her Majesty's Government, as set forth in the Orders in Council.

No assurance can justly be asked or given of prolonged indulgence beyond the time herein stated, except in cases in which it may appear that the Crown Lands occupied may be beyond all dispute, of the class pointed at in the 22nd clause of the Regulations of 29th March; and that the character of the improvements effected at the date of the promulgation of the Orders in Council, were such as justly to entitle the occupant to the privilege of claiming the value of those improvements, in the event of sale of the land, which has been conceded by Her Majesty's Government

In His Excellency's Name,

C. J. LA TROBE.

5th. If the application be for the admission of the insane person as a pauper, a certificate will be required from some respectable person, known to the Government, to the effect, not only that such insane person is without funds for his or her maintenance, but that he or she is also without friends who can reasonably be expected to maintain him or her.

CONDITIONS.

1. All the articles required by this notice are to be of the best quality of their several kinds.

6. The tobacco to be the best colonial.

7. The above substitutions are not to be made except on the requisition of the officer authorised to draw the several rations.

8. Vegetables, to be supplied in reasonable proportions of potatoes, greens, pumpkins, onions, &c., &c.

9. The supplies for road parties and surveying parties are to be delivered at the nearest fixed stations to the places where the party may be employed, on the requisition of the officer in charge;

10. The supplies (not specified in the preceding paragraph) are to be delivered direct to the parties or establishments entitled thereto, on the written order of the person duly authorised for the purpose.

11. Provisions and forage, when required by rations, according to the scales under their respective heads, the tenders are to express the price per ration only.

The tenders for forage are not required to state the price of the ration for oxen, as when the latter is required one half of the allowance fixed for horses will be drawn, and one half the price allowed to the contractor, whose engagement is to provide for both horses and oxen.

13. In the event of a difference of opinion between the contractor and the party receiving the supplies, as to the quality, the same is to be decided, in cases where the article is not of a perishable nature, by a Board of Survey according to the practise of the service. But in country districts, where a Board of Survey cannot be conveniently assembled, the party objecting will name one person as arbitrator, the contractor or his agent another, and these two will (previously to any other proceeding on their part) concur in naming a third, as umpire, who, in the event of the arbitrators not agreeing in opinion, will be called upon for his decision, which shall be final.

14. If the board, arbitrators, or umpire shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing of which it will be procured by the department requiring it, and the expense charged to the contractor.

15. In the event of any unnecessary delay or failure of the contractor to supply the articles when required, they will be otherwise procured and charged in like manner.

16. In cases where the article is of a perishable nature, or from some other cause, injury would be sustained either by the parties to whom the rations are due, or the contractor, by waiting for a Board of Survey, the head of the department or officer in charge of the party or parties for whom the rations are to be received, shall have the power to reject such article or articles as are obviously of inferior quality; it being distinctly understood that he will be

responsible to the government for so doing; and that the contractor will have a right of appeal to the Governor, although in the meantime he must take back the rejected article and supply good in its stead, failing of which it will be obtained by the officer or party requiring it, and the expense charged to the contractor.

17. A repetition of irregularity in the quantity or quality of the supplies, or of any delay in delivering or replacing them when required, will subject the contractor, upon the report of the officer in charge of the parties or establishment, to such mulct, not exceeding one-fifth the amount of his monthly account, as the Governor may direct. It will also be in the power of the Governor, upon such repetition, to terminate the contract forthwith.

18. It will be in the power of either party to limit the duration of the contract, by giving in writing a notice of three full calendar months to the opposite party, and to end the contract at the expiration of that period, it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made or agreed to be made.

19. The contractor will be required to prepare his own account, monthly or quarterly, in the prescribed form, and on the production thereof, with the requisite vouchers in a complete state, to the Sub-Treasurer for examination, and upon their approval, payment will be made by him at Melbourne.

20. The value of all packages to be included in the prices demanded.

21. Printed forms of tender may be obtained from the Sub-Treasurer, and a security of £2000 will be required for the due fulfilment of the contract. GOVERNMENT NOTICE.

OCCUPATION OF CROWN LANDS WITHIN
THE SETTLED DISTRICTS.

THE attention of applicants for the survey and sale of portions of Crown Land, within the settled districts of Port Phillip, under the Government notice, issued from the Colonial Secretary's Office, of the 21st November,

1848, is directed to the following notice:

1.—*Applications made under the notice of 21st November, 1848, by parties who held the land previously, under the regulations of 21st August, 1841*

Applicants under the notice of 21st November, 1848, who have occupied the land applied for, previously, under the regulations dated the 21st August, 1841, are informed that their respective claims to the advantage held out by the above Notice, if still desired, are to be admitted.

In the meantime, and until the survey and sale of the portions of land applied for can be effected, the Applicants are called upon to take out without delay the license for the sections applied for, at the same rate of rent as that upon which they were held at the time of the promulgation of the Orders in Council, both for the current year, and for that commencing 1st January and ending 31st December, 1850.

II.—*Applications made under the notice of 21st November, 1848, by parties previously holding £10 annual licenses for Depasturing purposes.*

The notice of 21st November, 1848, had no reference to occupants of this class. The Applications made under it are therefore inadmissible.

The Applicants are called upon immediately, to take out the lease of the sections applied for, at £1 per section, for the year 1849.

They are also directed to renew, or take out the lease for 1850, of such of these sections as may be left in their occupation for the present, consistently with regard to the following rules.

1st. Applicants of this class occupying Crown Lands, which are not in a position to be claimed by adjoining proprietors of purchased land, under the 16th clause of the regulations 29th March, 1848, may renew their lease, for the year 1850, for the whole number of such sections in their occupation, at £1 per section.

2nd. Applicants of this class, for the sections comprising whose stations, wholly or in part, application has been, or may be made by adjoining proprietors of land in fee simple, under the 16th clause, can only lay claim to protection, in further temporary occupation, by it being shewn that their stations fall within the class pointed at in the 22nd and 24th clauses of the same Regulations, specifying the class of lands which may still be let at £1 per section, for depasturing purposes, and the por-

tions which for the present are exempted from pre-emptive occupation. Under favour of the latter clause they may claim a lease for the section containing valuable improvements, and those immediately contiguous, if previously included in their license, notwithstanding the claim of persons under the 16th clause.

The quantity of land, however, so protected, can in no instance, under the most liberal construction of the regulations, exceed 9 sections.

It was certainly not contemplated, that the advantage held out by the 22nd and 24th clauses should be conceded to persons previously holding depasturing licenses for Crown Lands, in positions contiguous to the towns, or in parts of the district where considerable quantities of Crown Land have been purchased and occupied previous to the promulgation of the Order in Council.

Still less was it designed to protect persons whose occupancy of Crown Lands, under depasturing license, was of a character neither justifying nor admitting of any considerable outlay, upon so called 'improvements,' being made.

Nevertheless under the actual circumstances of the case, seeing the impossibility of clearly defining what the term "boundary of location" in this district may mean; and further, that many, in consequence of a misconstruction of the intentions of the notice of November last, have been led to consider that their continued occupation of the land was admissible, it may be just to extend to these classes certain consideration.

It is, therefore, directed that within 10 miles of the 5 mile boundary around Melbourne for instance, such claims for the present and ensuing year only, shall now be admitted in the face of the pre-emptive claims, to the extent of the occupation of the section containing the homestead or other improvements; and any two sections adjoining, previously held under license, viz., 3 in all:—from 10 to 20 miles from the above limit, to the occupation of an area, if previously held under license, not exceeding 6 sections in all;—and, beyond that distance, only, to the occupation of the full number, namely, nine sections, in cases clearly justifying the admission of such claims.

The same general rules will apply to Crown Lands, situated within the Settled District, in the vicinity of the towns of Geelong, Portland, Alberton, Belfast, and Warrnambool respectively; the relative distances, as far as necessary, being computed from the boundaries of the respective reserves.

It must be borne in mind by all who, although within the Settled District, may be thus protected, for the present, in the occupation of a certain area of Crown Land previously held under £10 license for depasturing purposes, notwithstanding claims urged by the owners of adjacent lands in fee simple, under the 16th clause—that such protection is but temporary—that this occupation must give place to the pre-emptive right of occupancy claimed by such holders of adjacent purchased land, in strict accordance with the real intentions of Her Majesty's Government, as set forth in the Orders in Council.

No assurance can justly be asked or given of prolonged indulgence beyond the time herein stated, except in cases in which it may appear that the Crown Lands occupied may be beyond all dispute, of the class pointed at in the 22nd clause of the Regulations of 29th March; and that the character of the improvements effected at the date of the promulgation of the Orders in Council, were such as justly to entitle the occupant to the privilege of claiming the value of those improvements, in the event of sale of the land, which has been conceded by Her Majesty's Government.
