

SUPPLEMENT
TO THE
PORT PHILLIP
GOVERNMENT GAZETTE,

OF WEDNESDAY, FEBRUARY 21, 1849,

Published by Authority.

FRIDAY, FEBRUARY 23, 1849.

N.B.—Caveats entered against Applications, comprised within this List, may be entered at the Superintendent's Office, up to the 23rd April, inclusive.

Superintendent's Office,
Melbourne, January, 1849.
**CLAIMS TO LEASES OF CROWN
LANDS,**

BEYOND THE SETTLED DISTRICTS.
PORTLAND BAY DISTRICT.

HIS Excellency the Governor directs it to be notified, for the information of all persons interested, that in pursuance of Her Majesty's Order in Council, 9th March, 1847, the undermentioned persons have demanded Leases of the several runs of Crown Land particularised in connection with their respective names.

Persons who object to any of these claims, either wholly or in part, should lodge Caveats at this office within two months from the present date, specifying the Lands to which their objections extend, and the grounds on which their objections are based.

It is to be distinctly understood, that the Government does not pledge itself to the issue of a lease in any case until due enquiry has been made into the validity of the claim, and whether or not it may be necessary to reserve any portion of the land claimed for any of the public purposes contemplated in the Order in Council.

In the case of the Portland Bay District, it is possible that certain of these applications for lease may be found to have reference to lands really situated within the Settled District, and therefore

only subject to occupation under the regulations of March 29th, 1848.

By His Excellency's Command,
C. J. LA TROBE.

No. 1.

William W. Allen
Name of run—Colantet
Estimated area—8,675 acres
Estimated grazing capability—5,500
sheep

Commencing at a point $1\frac{1}{2}$ miles west, by hut upon home station, running then 162 chains north-east by E half E 15 chains east, by north 17 chains, south-east 66 chains E half S 20 chains S half E along the great barrier, and 92 chains south-east in continuation along the barrier, being boundary line with J. and F. Manifold; then 140 chains S to a marked tree, being boundary with Mr. Road-night, thence on to another tree 72 chains south; and from thence to another marked tree in the forest 165 chains south-west by south, being boundary with Mr. Henry Millers station; and from thence following the course of the forest 204 chains NNW, and 140 chains, west by north to the bottom of a gully; and from thence by a line running 175 chains north, being boundary with Messrs. M'Kinnon and Murchie where the points meet.

No. 2.

James Austin
Name of run—Yoe
Estimated area—11,000 acres.

Estimated grazing capability—500 head of cattle

Bounded on the north by the station called Pollard's Old Station, being a line of general bearing east 3 miles, on the east by the Mission Station, being a line of general bearing ESE 6 miles, on the south by Mr. Roadnight, being a line of general bearing west 3 miles, and on the west by Mr. Murray, being a line of general bearing NNW $6\frac{1}{2}$ miles.

No. 3.

James Austin

Name of run—Pollards Old Station

Estimated area—3,553 acres

Estimated grazing capability—300 head of cattle

Bounded on the north by the road from Colac to Geelong and the station of Messrs. Calvert and Bell, being a line of general bearing ENE 3 miles 35 chains, on the east by Messrs. Dennis, being a line bearing nearly south 2 miles 28 chains; on the south by the station called Yoe, being a line bearing nearly west 2 miles 5 chains; and on the west by the station of Mr Hugh Murray being a line of general bearing north-west 1 mile 69 chains.

No. 4.

James Austin

Name of run—Long Water Hole

Estimated area—52,200 acres

Estimated grazing capability—16,000 sheep

Bounded on the north by the station of Messrs Thomson, being a line of general bearing ENE $10\frac{1}{2}$ miles; on the east by the stations of G D Mercer and Harding, a line having a general bearing south-west 8 miles; on the south by the stations of Mr Harding and F. Duvernay a line having a general bearing WSW. $10\frac{1}{2}$ miles; and on the west by the stations of Messrs Acheson and Compton Ferrars, being a line of general bearing north-east 8 miles.

No. 5.

George and David Aitcheson

Name of run—Kuruck Kuruck

Estimated area—34,140 acres

Estimated grazing capability—5,000 head of cattle or 15,000 sheep

Commencing at a point on the river Wardy Yallock 1 mile 72 chains north from crossing place over said river at the Frenchman's Inn; and bounded on the south by a line bearing 285° 10 chains 90 links; thence by a line bearing 273° 40 chains, thence by a line bearing 279° 2 miles 2 chains; these last three lines dividing said run from that occupied by Messrs Williamson and Blow; thence on the west by a line bearing 347° 52 chains dividing said run from that occupied by Messrs Williamson and Blow, thence by a line bearing 43° 1 mile 66 chains to

the Wardy Yallock river, thence by a back water of the said river 21 chains 50 links, thence by a line bearing 47° 2 miles 51 chains, thence by a line bearing 1° 1 mile 36 chains; these last three lines and back-water dividing said run from that of Glenfinc occupied by Thos. Downie; thence by a line bearing 96° 1 mile 47 chains to Kuruck Kuruck creek, thence by the said creek bearing from point to point 24° 30' 3 miles to the confluence of the Corindap Creek, thence by the said Corindap Creek, bearing 354° 4 miles 13 chains 50 links, the said Corindap Creek and Kuruck Kuruck Creek and last line dividing said run from that of Commeralghip occupied by Messrs M'Millan and Wilson; thence on the north by a line bearing 91° 1 mile 60 chains to the White Hill gully, dividing said run from that of Dereel occupied by Messrs M'Millan and Wilson; thence on the west by the said White Hill gully, bearing 135° 30' 34 chains 50 links, thence by a gully bearing 227° 29 chains, thence by a line bearing 200° 70 chains, thence by a line bearing 132° 1 mile 39 chains to White Hill gully, thence by a line bearing 155° 30' 1 mile 1 chain to Kuruck Kuruck Creek, thence by a continuation of the same line 45 chains to the point of the stony rises, thence by a line bearing 195° 5 miles 19 chains, thence by a line bearing 145° 57 chains, these last six lines and gully dividing said run from that occupied by Compton Ferrars, thence by a continuation of the last line 39 chains, thence by a line bearing 236° 1 mile 60 chains, thence by a line bearing 216° 2 miles 60 chains; these last three lines dividing said run from that occupied by Mr. James Austin, and thence on the south by a line bearing 282° 2 miles 42 chains, and thence by the river Wardy Yallock, bearing 282° 16 chains to the commencing point.

No. 6.

William Adenly

Name of Run—Chocolyn

Estimated area—5948 $\frac{1}{2}$ acres

Estimated grazing capability—7000 sheep.

Bounded on the north by J. G. Ware's run, on the north-east and east and south by J. and P. Manifold's run. On the southwest by Sherrin's run and Medjinnook Creek; and on the west and north-west by Lake Golongoluck. Boundaries—N & NE & E, from north-east point of Lake Golongoluck on J. Ware's boundary 140 chains bearing west 54° 30' S, thence 90 chains bearing south-east to Lake Bromfield, thence across part of said lake, about 23 chains to the extremity of east boundary on bank of the lake, east from last-named point, 73 chains, bearing south-west 7° south to a

mark in-ground, thence 149 chains 70 links, bearing south $25^{\circ} 30'$ west, over stony banks of Weritgill Hill, south from last named point across Weritgill Marsh, 129 chains, 30 links, bearing west $13^{\circ} 30'$ north thence 121 chains 94 links, bearing west 5° north to the Medjinook creek at the site of Gibb's old hut, thence 46 chains bearing north 10° west from this point following east shore of Lake Goolgoluck to the point first mentioned on J. G. Ware's boundary distant about 300 chains north 27° east direct.

No. 7.

S. and J. Austin

Name of run—Waterloo Plains

Estimated area—17,000 acres

Estimated grazing capability—8,000 sheep.

Bounded on the north by J. Highett, Esq., by a ploughed line bearing ENE $2\frac{1}{2}$ miles on the east by the river Barwon, on the south by Henry Hopkins, Esq., being a line bearing WNW, about three miles, from thence by a line bearing NNW $2\frac{1}{2}$ miles, and on the west by J. Highett, Esq., being a line bearing north six miles, by ploughed furrow to commencing point.

No. 8.

John Austin

Name of run—Green Hills

Estimated area, 10,000 acres

Estimated grazing capability—800 head of cattle—4000 sheep

This station is bounded on the north by a line running north-east $3\frac{1}{2}$ miles from a marked tree along the station of Dawson and Mitchell, to the junction of a road from Port Fairy, leading to Mount Rouse, from thence by a line running south-east 1 mile along the station of George Youl, on the east by a line running SSE 5 miles along the station of George Youl, on the south by a line running west 4 miles along a scrubby creek, dividing this station from the station of R. D. Chamberlain, on the west by a line running north four miles along the station of Henry Lemann, to the point of commencement.

No. 9.

Robert Anderson

Name of run—Bolac Plains

Estimated Area—14,080 acres

Estimated grazing capability—30 head of cattle—6000 sheep

Situated upon the Salt Creek near Lake Bolac; bounded on the north by the lands held by Henry Gibb; on the west by Messrs. J. and A. Dennistoun, and on the south by Messrs. J. and A. Dennistoun, and on the east by L. M'Kinnon.

No. 10.

Alexander Anderson, jun.

Name of run—Bangal

Estimated area—13,866 acres

Estimated grazing capability—50 head of cattle—6,000 sheep.

Commencing at a point on the Mount Emu Creek, Mount Emu, bearing 31° distant 9 miles 20 chains, and bounded on the north by a line bearing $298^{\circ} 4'$ miles 30 chains, thence by a line bearing $322^{\circ} 30'$ 86 chains, these two lines dividing said run of Bangal from that of Bamganie, occupied by Messrs Wright and Montgomerie, thence by a line bearing $150^{\circ} 2'$ miles, 58 chains, 50 links, dividing said run of Bangal from that of St. Enoch's, occupied by Mr Phillip Black, on the W by a line bearing 180° 2 miles, 45 chains, 25 links, thence by a line bearing 143° 1 mile 78 chains to the Broken Creek, thence by a line bearing 124° 64 chains, these last 3 lines dividing said run of Bangal from that of Caranbalac, occupied by Messrs Johnstone and Campbell, on the south, by a line bearing 76° 62 chains 50 links, thence by a line bearing 54° 3 miles, 11 chains, 50 links, thence by a line bearing 118° 1 mile 68 chains to the Mount Emu creek, these last three lines dividing said run of Bangal from that of Boryallock occupied by Mr Henry Anderson and on the east by the Mount Emu creek, bearing from point to point $86^{\circ} 33'$ chains dividing said run of Bangal from that of Boryallock, occupied by Mr Henry Anderson, thence by the Mount Emu creek, bearing from point to point $4^{\circ} 30' 87'$ chains to the commencing corner, and dividing said run of Bangal from that of Bamganie, occupied by Messrs Wright and Montgomerie.

No. 11.

George Armytage

Name of run—Ingleby

Estimated area—26,840 acres

Estimated Grazing capability—100 head of cattle—10,000 sheep

Bounded on the SW by Wesleyan Mission station and Airy's plough furrow to the main road, thence along said road about 2 miles to a plough furrow, thence along said furrow about 2 miles at right angles from the road, thence north easterly about 3 miles to another furrow, thence about $1\frac{1}{2}$ miles by said furrow to main road and Stephens boundary, thence by Stephen's boundary $2\frac{1}{2}$ miles to the river, thence ESE on south side of river about 7 miles (great portion marked with a plough furrow) turning SSW about 8 miles, thence NW about 3 miles to boundary creek, and by said creek $3\frac{1}{2}$ miles to Mr Vicary's furrow, and again along Mr Vicary's furrow to the Mission station about 4 miles.

No. 12.

Francis Atkinson

Name of run—Bereboke

Estimated area—16000 acres
Estimated grazing capability—6,000 sheep

Bounded on the north by Mr Labilliere, on the east by Messrs Moor and Griffiths, on the south by Mr Staunton on the south west by Mr Steiglitz, on the west by Mr Wallace, on the north west by Messrs Cowie and Stead.

No. 13.

Charles Ayrey
Name of run—Mount Gelibrand
Estimated area—21,717 acres
Estimated grazing capability—40 head of cattle, 9,000 sheep

Bounded by Harding on the north, by Highett and Armytage on the east, by Dennis Brothers, and the Rev Mr Tuckfield on the south, by Calvert and Bell on the west

No. 14.

William Adam
Name of run—Hopkins, Mount Shadwell
Estimated area—35,300 acres
Estimated grazing capability—17,000 sheep

The boundary line commences at the junction of Muston's creek with the river Hopkins, bounded on the south by Muston's creek, bearing easterly from point to point 1 mile a little more or less to a bend in the creek 6 chains west from the crossing of a road, thence by a line north 28° west 2 miles and 78 chains to a swamp, by the swamp north westerly to a gully, and by the gully to a plough line which line bears north 70° west 48 chains, thence by a line north 51° east 60 chains to another plough line leading to the river Hopkins in a general bearing of north 72° east 3 miles and 65 chains, continuing in the same direction to a second bed of the river Hopkins 10 chains, thence by another plough line to the Salt Creek, meeting at a point bearing south 50° west from the flat topped hill, following the said creek south westerly to the Portland road, by the road south easterly 3 miles and 57 chains, south 3 miles and 38 chains, east 4 miles and 65 chains to a plough line, by the said plough line south 32° west 2 miles and 60 chains, north 75° west 2 miles and 60 chains to a creek, by the said creek westerly 1 mile and 60 chains, a little more or less, north 1 mile and 45 chains, north 45° west 5 miles and 50 chains to the Salt creek, by the Salt creek to its junction to the Hopkins, and by the Hopkins to the commencing point.

No. 15.

Addison and Murray
Name of run—Dunrobin
Estimated area—153,600 acres
Estimated grazing capability—37 head of cattle, 14,000 sheep

On the west side of the river Glenelg, commencing 55 chains north of the junction of the rivers Wannon and Glenelg, and bounded on the south by a perpendicular line of 11 miles due west along land occupied by John Macpherson, on the west by a perpendicular line of 24 miles due north, partly along land occupied by John McLellan and unoccupied land, on the north by a perpendicular line of 9 miles due east, thence by a road to Mr Pearson's crossing place on the Glenelg river aforesaid & about 60 chains north of his home station, on the east by the Glenelg river to the point of commencement, distant 24 miles in a straight line with the exception of the border of the river much of the above run consists of extensive heaths and sandy stringy bark forests.

No. 16.

Robert Adams
Name of run—Greenvale
Estimated area—56,880 acres
Estimated grazing capability—18,000 sheep

Situated on the Hopkins river, boundaries, the starting point the plough furrow on the Hopkins river adjoining Mr J Ross, thence a line N W 52° 191 chains bounded by Mr J Ross, thence a line S W $24\frac{1}{2}^{\circ}$ 565 chains, bounded by Messrs Chiroside and Ross, thence a line S W 68° 122 chains, thence a line S W 56° 355 chains, the last 2 lines are bounded by Messrs Chiroside, thence a line S E 12° 167 chains, thence a line N E 61° 44 chains, the last 2 lines are bounded by Mr T K Hardie, thence a line S E 80° 81 chains, thence a line S E $53\frac{1}{2}^{\circ}$ 104 chains, the last two lines are bounded by Messrs Hutchison and Kidd, thence a line N E 70° 193 chains, thence a line S E 75° 159 chains, thence a line east 310 chains, the last 3 lines are bounded by Mr J D Wyselaskie, thence a line N E 45° 58 chains, thence a line N E 19° 248 chains, the last 2 lines are bounded by Mr Robert Patterson, thence a line N E 10° 334 chains, bounded by Mr Fitzgerald, thence a line N W 48° 86 chains, thence a line N W 52° 262 chains, the last 2 lines are bounded by Mr J Ross.

No. 17.

Henry Anderson
Name of run—Borri-Yallock
Estimated area—50,570 acres
Estimated grazing capability—200 head of cattle—18,000 sheep

Commencing at a point on the Mount Emu Creek, Mount Emu bearing 29° $30'$ distant 10 miles 38 chains, and bounded on the north by a line bearing 298° 1 mile 68 chains; thence by a line bearing 234° 3 miles 11 chains 50 links, thence by a line bearing 256° 62 chains

50 links, these last 3 lines dividing said run of Borri-Yallock from that of Bangal, occupied by Mr Alexander Anderson, junior; on the west by a line bearing 159° 1 mile 76 chains to the Mount Emu creek, thence by the Mount Emu creek bearing from point to point 220° 29 chains 20 links, thence by a line bearing 160° 34' 46 chains, thence by a line bearing 195° 40' 3 miles 6 chains 50 links, thence by a line bearing 184° 30' 48 chains, these last five lines dividing said run of Borri-Yallock from that of Caranbalac, occupied by Messrs Johnstone and Campbell; on the south by a line bearing 128° 40 chains, thence by a line bearing 109° 1 mile 24 chains 50 links, thence by a line bearing 128° 40 chains, thence by a line bearing 159° 2 miles 63 chains, these last four lines dividing said run of Borri-Yallock from that of Caranbalack occupied by Messrs Johnstone and Campbell, thence by a line bearing 63° 2 miles 14 chains, thence by a line bearing 67° 2 miles 6 chains, these last two lines dividing said run of Borri-Yallock from that of Mount Elephant occupied by Messrs John and Thomas Brown; on the east by a line bearing 351° 74 chains dividing said run of Borri-Yallock from that of Mount Elephant occupied by Messrs John and Thomas Brown, thence by a line bearing 351° 1 mile 60 chains, thence by a line bearing 25° 1 mile 8 chains, thence by a line bearing 74° 4 miles 4 chains, these last three lines dividing said run of Borri-Yallock from that of Gnarkeet, occupied by Messrs Robert Tennent and Charles H. Lyon, thence by a line bearing 360° 71 chains, thence by a line bearing 319° 4 miles 26 chains and 50 links, these last two lines dividing said run of Borri-Yallock from that of Mount Bute, occupied by Mr Duncan Hoyle, and on the north by a line bearing 234° 76 chains 45 links, thence by a line bearing 298° 2 miles 42 chains, these last two lines dividing said run of Borri-Yallock from that of Bamganie occupied by Messrs Wright and Montgomerie, thence by the Mount Emu Creek bearing from point to point 266° 33 chains to the commencing corner dividing said run of Borri-Yallock from that of Baogal occupied by Mr Alexander Anderson, jun.

No. 18.

C. and D. Aplin
Name of run—St. Kitts
Estimated area—20,000 acres
Estimated grazing capability—1,300 head of cattle

The station is situated on the Shaw River about 6 miles from the mouth, and 12 miles north-west from Port Fairy; bounded on the south from the Shaw River a line of trees running east 5° , north $4\frac{1}{2}$ miles, being a determined line

with Mr. Ritchie; on the east a line of marked trees running north adjoins Mr. Chamberlain $3\frac{1}{2}$ miles; on the north a line of trees running west 5° , north $8\frac{1}{2}$ miles, crossing the River Shaw $\frac{1}{4}$ mile, below the crossing place of the Mount Napier road, being a determined line with Messrs Campbell, M'Knight, and Irvine; on the west a line running south $\frac{1}{4}$ mile adjoins Mr. Brown; on the south-west by a line running south-east by east $5\frac{1}{2}$ miles to the Shaw River, adjoins Mr. Baxter; on the east the Shaw River $\frac{1}{4}$ mile, also adjoins Mr. Baxter.

No. 19.

George Armytage
Name of run—Fulham
Estimated area—65,500 acres
Estimated grazing capability—30 head of cattle—20,000 sheep

Boundaries—Commencing at a marked tree and plough furrow on Melbourne road about $2\frac{1}{2}$ miles from Fulham head station, thence $7\frac{1}{2}$ miles north-easterly to a marked tree on river Glenelg, thence S SE $\frac{1}{4}$ mile to mark on north-east side of river, thence north-east by north about 5 miles, thence westerly 5 miles, thence north-west about $7\frac{1}{2}$ miles to a marked tree again $4\frac{1}{2}$ miles WSW $\frac{1}{4}$ W to another marked tree in gully known as Boundary Gully, and by the said gully to river $2\frac{1}{2}$ miles, then east $\frac{3}{4}$ mile to a marked tree on south side of river, from thence south by marked trees $7\frac{1}{2}$ miles.

No. 20.

Edward Robe Bostock
Name of run—Jellalabad
Estimated area—16,000 acres
Estimated grazing capability—4,000 sheep

Commencing at a point on the River Clyde, Mount Elephant bearing 74° 45' distant 7 miles 52 chains and bounded on the north by a line bearing 97° 3 miles, 37 chains, 50 links dividing said run of Jellalabad from that of Terinallum, occupied by the Clyde Company, thence by a line bearing about 135° 35 chains to the centre of a swamp dividing Jellalabad from Gala occupied by J. & T. Brown; on the south by that swamp and the dry bed of a creek to its junction with the River Clyde dividing Jellalabad from Western Cloven Hill occupied by Nicholas Cole by the River Clyde to the Elephant Bridge; thence by a road leading to Mount Shadwell, about 5 miles dividing Jellalabad from Stony Points occupied by Matthew Hall, and Wooriorite occupied by J. G. Ware, on the west by a line bearing about north-west about 2 miles dividing Jellalabad from an out station occupied by Matthew Hall; thence by a line bearing about north by east 2 miles 40 chains, and another line bearing about ENE

about 2 miles 40 chains to the north side of a salt lagoon named Barribolook dividing Jellalabad from Mount Fyans occupied by Lachlan M'Kinnon, on the north from a point at the south end of Barribolook by a line bearing $97^{\circ} 2'$ miles and 40 chains to the River Clyde, also an out station on the Salt Creek Plain, bounded on the north by Bolac Plains, occupied by R. Anderson, on the east by Mount Fyans occupied by Lachlan M'Kinnon, on the south by Mount Shadwell, occupied by James Webster on the west by Hopkins Hill occupied by Messrs. Dennistoun.

No. 21.

Henry and Frederick Burchett

Name of run—The Gums

Estimated area—16,000 acres

Estimated grazing capability—1400 head of cattle

Bounding on the north with Messrs. Ritchie and Mr. Seales by plough line boundaries, on the east with Mr. Palmer by a plough line boundary, on the south with Mr. M'Arthur, on the east side of Muston's creek and with Mr. Bell, on the west side by a road running between Mr. Palmer's station and Mount Rouse, as far westward from the point where the boundary with Mr. Palmer strikes the said road, as a point known as the Cross Roads, where a road from the Gums to Mr. M'Arthur's station crosses the Mount Rouse road, and thence westerly to a hut upon Muston's creek, formerly belonging to Mr. Clerk, and known as Gibb's hut, thence following the creek northerly to a point halfway between Gibb's hut and the crossing place, on the creek of the Mount Rouse road, and thence westward to the boundary of the Mount Rouse protectorate reserve, on the west by the boundary of the Mount Rouse protectorate reserve.

No. 22.

Phillip Black

Name of run—St Enochs

Estimated area—40,778 acres

Estimated Grazing capability—20,000 sheep

Commencing at a point to the Westward of the Mount Emu creek, Mount Emu bearing $99^{\circ} 50'$ distant 4 miles 34 chains, and bounded on the east by a line bearing $180^{\circ} 4'$ miles 36 chains, thence by a line bearing $199^{\circ} 15'$ 57 chains to the centre of Moumot, these last 2 lines dividing said run from that of Mount Emu occupied by Messrs Thomson and Cunningham, thence on the south by a line bearing $259^{\circ} 4'$ miles 42 chains 50 links dividing said run from that of Bamganie, occupied by Messrs Wright and Montgomerie, thence by a continuation of the last line 2 miles 58 chains 50 links, dividing said run from that of Bangal occupied by Mr Alex-

ander Anderson, jun, thence by a line bearing $239^{\circ} 30'$ being the general bearing of the Portland road by way of the Fiery Creek 3 miles 9 chains, thence by a line bearing $309^{\circ} 30'$ 3 miles 23 chains towards the centre of Nalialyoik or Fiery creek hill, these last 2 lines dividing said run from that of Caranbalac occupied by Messrs Johnstone and Campbell's, thence on the west and north by a line bearing $36^{\circ} 50'$ 3 miles 16 chains dividing said run from that of Yalla Yallapourra occupied by Messrs Steven and Thomson, thence by a line bearing $39^{\circ} 1'$ mile 61 chains, thence by a line bearing $80^{\circ} 1'$ mile 65 chains, thence by the arc of a circle of 1 mile radius, the centre of said circle bearing from last point $350^{\circ} 1'$ mile 22 chains along the chord of said arc, these last 2 lines and arc dividing said run from that occupied by Messrs Thomson and Cooper, thence by a line bearing $91^{\circ} 30'$ 2 miles 17 chains, thence by a line bearing $78^{\circ} 70'$ chains, thence by a line bearing $53^{\circ} 1'$ mile 22 chains, thence by a spur of Mt. Dindimum, bearing $32^{\circ} 30'$ 27 chains, thence following the ridge $60^{\circ} 30'$ 8 chains 70 links to the summit of said Mount Dindimum, thence following the northern spur of the same $47^{\circ} 20'$ 2 miles 18 chains, these last six lines dividing said run from that of Mahwallock occupied by Messrs Alexander Russell and Co, and thence by a line bearing $150^{\circ} 30'$ 2 miles 14 chains to the commencing corner, dividing said run from that of Lillaree occupied by Messrs George and John Macredie, with right of pasturage and watering at the Mount Emu creek over a portion of land commencing at the starting point in the above description and bounded by a line bearing $69^{\circ} 1'$ mile to the Mount Emu creek, and 32 chains wide at right angles to the said line northwards.

No. 23.

C. & J. Bradshaw

Name of run—Boorambita

Estimated area—14,720 acres

Estimated grazing capability—1000 head of cattle

Bounded on the east by the Moorabool river, commencing at the crossing of the Portland road, taking its course down to the junction of the Grunhill creek, forming the boundary line, with Messrs Steiglitz and Paterson's runs, on the south by the Grunhill creek upwards about $2\frac{1}{2}$ miles, thence by a marked line bearing west by north about 1 mile, being the dividing line against Mr Egerton's run on the west by a marked line bearing north to the main road, to the westward for $1\frac{1}{4}$ miles or thereabouts, thence in a direct line towards the Black hill about $\frac{3}{4}$ of a mile, thence westward to the western branch of the Moorabool river,

about $1\frac{1}{2}$ miles being the dividing line against Mr Iogles, thence by this river upwards about $1\frac{1}{2}$ miles, on the north from the point of the Moorabool river last named by a line bearing east by north to the Spring, distant from the Moorabool river about $\frac{3}{4}$ of a mile, from thence by a continued line past the Bare Hill towards the eastern branch of the Moorabool river direct to a point about $2\frac{1}{2}$ miles distant from the Spring before-named, being here joined by a line of marked trees in the same continued course for a further distance of about 2 miles, here joining the Moorabool river; the line from this last named point to the Spring before-mentioned forming the boundary against Mr Francis' run, and thence by the Moorabool river downwards to the commencing point.

No. 24.

Michael Byrne

Name of run—View Lake

Estimated area—20,090 acres

Estimated grazing capability — 6,000 sheep

Bounded on the east by a line $2\frac{1}{2}$ miles west of the Fiery creek, running N N W 5 miles long which divides it from Johnstone and Campbell's run, on the north by a line $2\frac{1}{2}$ miles S W of the Fiery creek, running NW towards the SW base of a double topped hill of 4 miles in length which divides it from Stephen and Thomson's run, on the west by a line running SSW for $2\frac{1}{2}$ miles which divides it from Messrs Fitzgerald's run, and thence by Patterson's plough line for $4\frac{1}{2}$ miles running north and south which divides it from Mr Patterson's run, on the south by a line running east and west intersecting the Portland road in the Camping swamp being $6\frac{1}{2}$ miles long which divides it from Messrs Gibb and M'Pherson's run.

No. 25.

William Backley

Name of run—The Old Stock Yard

Estimated area—9,000 acres

Estimated grazing capability — 5,000 sheep

On the south by a marked tree line bearing S E 3 miles adjoining the run of Mr John Brown, then by a line bearing NE not marked $1\frac{1}{2}$ miles on the Mount Rouse reserve, Mr Hutton occupies the adjoining ground, on the east by the western boundary of the Mount Rouse reserve 5 miles, on the north by a water course from the Mount Rouse spring $1\frac{1}{2}$ miles and $1\frac{1}{2}$ miles along a large swamp, Mr Donald Kennedy occupies the adjoining ground, on the west by a large swamp $3\frac{1}{2}$ miles to Mr Brown's boundary.

No. 26.

William Henry Bacchus, jun

Name of run—Peerewerrh

Estimated area—25,000 acres

Estimated grazing capability—200 head of cattle, 8,000 sheep

Commencing at a marked tree at the east bank of the Lal Lal, distant from the home station 165 chains, a line of marked trees bearing 32° north of east: 142 chains to the Moorabool, thence by the Moorabool 134 chains from point to point to a line of marked trees bearing 40° west of the north 224 chains to the Lal Lal, thence along the west side of the Lal Lal to its source, thence a line of marked trees bearing 13° west of north 193 chains to a line of marked trees bearing SW 121 chains to the source of the Loddon river, which forms the boundary for 434 chains from its source from point to point and to a line of marked trees bearing 9° east of south. 190 chains to the J C Gully, the creek at the bottom of which forms the boundary to its head general bearing of the J C Gully 40° south of east 190 chains, thence a line of marked trees bearing 30° east of south 64 chains, 36° south of east 81 chains, 25° east of south 297 chains, 35° east of south 111 chains, 44° south of east 110 chains to the junction of a small creek with the Lal Lal distant from the home station $1\frac{1}{2}$ miles, thence along the Lal Lal to the starting point, the occupants of adjacent crown lands to this run are W J T Clarke, Peter Inglis, A and C Bird, G Francis, and W Bradshaw.

No. 27.

Thomas Bilston

Name of run—Steep Bank Rivulet

Estimated Area—12,800 acres

Estimated grazing capability—500 head of cattle—4000 sheep

Bounded on the north by a line about four miles in length, and separating the station from Messrs. Willis and Swanston's station; on the east by a line about five miles in length, and separating the station from Messrs. Watson's station; on the south by a line about four miles in length, and separating the station from Mr. Isaac Corney's station; and on the west by a line about five miles in length, and separating the station from Mr. Richard Vine's station.

No. 28.

Edward Bell

Name of run—The Green Hills

Estimated area, 21,000 acres

Estimated grazing capability—1200 head of cattle

Bounded on the north by Messrs. Burchett's run, the boundary being the Melbourne-road from the Mount Rouse reserve and a marked line to a point on Muston's Creek, half-way between the above-mentioned road and Green Hills out station on the said creek, crossing the said creek at a gully running east $\frac{3}{4}$

mile above the said station, and following the said gully half-a-mile, length of boundary, $4\frac{1}{4}$ miles. Bounding on the east with Messrs. Macarthur, viz., running from the extremity of Messrs. Burslett's boundary at right angles with the above-mentioned gully, three-quarters of a mile to Muston's Creek, thence following the course of the said creek to a spot known as the the Stone Quarry, halfway between Messrs. Macarthur's home station, and the Green Hills out-station, thence to a point on the road between Messrs. Macarthur and Clerk's, halfway between the two stations. Length of boundary $5\frac{1}{2}$ miles. Bounding also on the east with Mr. Clerk, viz., by the road to Messrs. Macarthur's above-mentioned from the point last-mentioned, to Spring Creek, thence following the course of the said creek till it is cut by Mr. Whitehead's boundary line, length of boundary $5\frac{1}{2}$ miles. On the south with Mr. Whitehead, being a marked boundary line from the extremity of Mr. Clerk's boundary on Spring Creek, running WSW to the Old Port Fairy Road; length of boundary seven miles. On the west with Messrs. Gibb and Smith, being the Old Port Fairy Road from the western extremity of Mr. Whitehead's boundary, to the southern boundary of the Mount Rouse reserve; length six miles. Bounded also on the east by the Mount Rouse reserve from the Port Fairy road to its south-western corner, and thence running north to the Melbourne road, length $9\frac{1}{2}$ miles.

No. 29.

John Bell.
Name of Run—Mount Eckersley
Estimated Area—8000 acres
Estimated grazing capability—500 head of cattle
Bounded on the east by Bland's Creek and Mr. Learmouth's run, about 3 miles; on the north by Mr. Bland's run and the second creek on the Smoky River road, about 3 miles; on the west by Mr. Cameron's run and the Fitz Roy River, about 6 miles; on the south by the Fitz Roy River and Learmouth's Heath, 4 miles.

No. 30.

John Bell
Name of run—Mount Clay
Estimated area—3200 acres
Estimated grazing capability—130 head of cattle—2,000 sheep.
Bounded on the north-east by the Fitz Roy river, running from a marked tree on the south bank for three miles in an ESE direction, then by a line running due east from the Fitz Roy river to Darlot's Creek, about half-a-mile; and then again by Darlot's Creek, running south-east two miles, to a white rock on the east bank of said creek; on the east

by a straight line running from the white rock aforesaid, crossing the Fitz Roy river at the Stony Ford to the Mount Clay allotment No. 11; on the south-west by a straight line running WSW through a stringy bark forest to a marked tree, on the Scrubby Creek, and on the north-west by the Scrubby Creek running ENE to the commencing point.

No. 31.

John Barclay
Name of run—Green Vale
Estimated area—9000 acres
Estimated grazing capability, 3000 sheep
On the east seven miles along the Grange Road, commencing at the Sunday Creek, three miles from Mr. Edgar's public-house, Fitz Roy river, ending at the Ten-mile Bottom, from thence on the north by a line running three miles in a westerly direction, and from thence by a line running three miles in a south-westerly direction to the Smoky River (Old) Road, at the Major's Heath, about six miles. On the west by the Smoky River Road, in a south-easterly direction about three miles. On the south by a line running three-quarters of a mile east from Smoky River Old Road, to the swamp, from thence south following down the Sunday Creek to the Grange Road $1\frac{1}{2}$ miles (about $2\frac{1}{2}$ miles.) Bounded on the east partly by Mr. Learmouth and Mr. Gore, on the north partly by Mr. Muoro and barrea heaths; on the west partly by Major's Heath and Smoky River Road; on the south partly by Mr. Hunter and Grange-road, and Mr. Bell Mount Eckersley.

No. 32.

Alfred Henry and John Edward Bates
Name of Run—Rokeby or Kaladloo
Estimated area—28,000 acres
Estimated grazing capability—4000 sheep
Boundaries commencing at a point three miles due south from a point due west, from Nangwany water-hole, thence eight miles south along South Australian boundary, thence east five miles along boundary with Edward M'Callum and J. W. Beilby thence four miles north east along Captain Hutton's boundary, thence eight miles north-west by west along boundary with M'Intyre, Sinclair, and Co., thence $1\frac{1}{2}$ mile about north-east along Mount Gambier road, thence $2\frac{1}{2}$ west to point of commencement.

No. 33.

James Blair
Name of run—Clunie
Estimated area—35,000 acres
Estimated grazing capability—12,000 sheep
Bounded on the north and west by the Glenelg river, about nine or ten miles; on the south by the Sugar-loaf creek,

easterly for one mill 60 chains to a creek running into it, thence by that creek up to the point where it takes its rise two miles fifteen chains, thence by a line bearing south 67° east for two miles to the centre of a round swamp distant 50 chains, from the north branch of the Pigeon Ponds, thence by a line running east about five miles to the eastern boundary, dividing it from the station of Messrs. Swanston and Willis; on the east by a deep gully running back from the Glenelg in a SSE direction for about two miles, thence by a line in a southerly direction about eight miles, passing the head of Schofield's gully to the southern boundary, dividing it from the station of Mr. Armytage.

No. 34.

Boyd, Ross, and M'Gill
Name of run—Burrumbeep
Estimated area—110,000 acres
Estimated grazing capability—500 head of cattle—30,000 sheep

Commencing at a point on the Hopkins River, bounding with the run of John Ross, by a line bearing south-east for 4 miles, or thereby, and bounded by John Ross's run, from thence by a low range 1 mile, or thereby again NNE about 4 miles to the Geelong road, thence by an irregular boundary to the end of the black range, and bounded by the run of Stevens and Thomson; on the east by the black range, and bounded by the runs of Thomson and Cooper and Colin Campbell; on the north by the dividing range, and bounded by the runs of W. J. T. Clarke and Sinclair, excepting a portion where the run of Sinclair extends upon the range into a gully; on the west by the dividing range, and the range called Good Morning Bill to its south point, and bounded by the runs of Messrs Wills, Bunbury, and John Ross; from thence in a line nearly east for about 3 miles to the Hopkins River, and by the Hopkins River south to the commencing point about 3 miles; extreme length from south to north estimated at about 18 miles, and extreme breadth from east to west about nine miles.

N.B.—This run has been transferred with the sanction of Government to Ross and M'Gill, in whose names the lease will accordingly be prepared.

No. 35.

John Wood Beilby
Name of run—Western Strathdownie
Estimated area—28,000 acres
Estimated grazing capability—1280 head of cattle

Commencing at a point on the west bank of Glenelg, half mile below the junction of the Limestone Creek, (marked in Pickering's chart as the Running Creek); thence the course of the Glenelg to Scotts Creek 264 chains

forming the boundary with Mr. Talloch, thence up Scott's Creek westerly 210 chains, thence a line due south to a point half a mile north of the Mount Gambier road 276 chains, being boundaries with Messrs Scott, thence a line of marked trees bearing west $14^{\circ} 15'$ north 190 chains to Bate's road, thence a line of marked trees bearing west $4^{\circ} 15'$ north 377 chains, forming boundaries with Urquhart and Lysight, thence a line of marked trees bearing north by west 310 chains to the Double Marshes, thence said marshes, bearing northerly 79 chains to the north-east corner, thence marked trees bearing north-east 50 chains, forming boundary with Messrs M'Callum, thence a water-course bearing ENE 36 chains, thence by a line bearing north 42° east 8 chains to Bate's road, thence said road bearing north-west 10 chains, thence a line bearing west 150 chains to a large swamp, thence a watercourse south-easterly 96 chains to the edge of the Glenelg heaths at the head of Scott's Creek, thence to Monro's road, close to the Limestone Creek, following the ridge of the heathy plains, thence the Limestone Creek easterly to the junction of a small branch creek 136 chains, thence a line bearing east $42^{\circ} 17'$ south 120 chains to the starting point.

No. 36.

Benjamin Boyd
Name of run—Eumeralla
Estimated area—23,000 acres
Estimated grazing capability—1500 head of cattle

Bounded on the north and north-east by the Blackfellows' Creek, distance 4 miles, on the west by the Eumeralla River to Mr. Brown's station distance seven and a half miles, on the south by a line running from Mr. Brown's on the Eumeralla in a line to the crossing of the Mount Napier road with the Shaw or third river, distance $2\frac{1}{2}$ miles; on the eastward by a line beginning at the termination of the south line, and running parallel with the Eumeralla river for about three miles, thence running at right angles between Dunmore station and this 6 miles; on the ENE by a line starting from the Blackfellows' Creek, and following a small creek to its source, then running in a straight direction to some undulated land, known as the gully, then following the gully until it meets the right angle line with Dunmore, distance 4 miles.

N.B.—This run has been transferred with the sanction of Government to William Sprot Boyd, in whose name the lease will accordingly be prepared.

No. 37.

Benjamin Boyd
Name of run—Undit and Domadolock
Estimated area—40,000 acres

Estimated grazing capability—15,000 sheep

Udit—south boundary frontage to Lake Colac, west boundary commencing at Lake Colac, and running (bounded by Fyan's cattle run) until it meets Dr. Stoddart's plough line, north boundary commencing at Lake Purdyovic, and running on the top of the Three Warriors, bounded by Dr. Stoddart and Hugh Murray's runs until it meets the corner cairn; north-east boundary commencing at the corner cairn and running bounded by Calvert and Bell's run until it meets Lake Brake; eastern boundary commencing at Lake Brake, and running (bounded by Calvert and Bell's run) until it meets Lake Colac.

Dormadoloc—Northern boundary commencing at Robertson's purchased land, and running (bounded by Mr. A. Murray and Maccullock's purchased land) until it meets river Punyallab, west boundary frontage to Lake Carangamite, north boundary commencing at Lake Carangamite (bounded by Dr. Stoddart's run) until it meets Robertson's purchased land, east boundary frontage to Robertson's purchased land.

N.B.—This run has been transferred with the sanction of Government to William Sprot Boyd, in whose name the lease will accordingly be prepared.

No. 38.

Niel Black and Co.
Name of run—Glenormiston
Estimated area—43,770 acres
Estimated grazing capability—2,000 head of cattle—14,000 sheep

Commencing at the southernmost part of Lake Pullen Merri; bounded on the east by lines bearing south $11^{\circ} 30'$ west 65.00 , west 2 miles 36 chains, thence by Emu Creek to the nearest point southerly from Lake Terrang, then by a line north 25° west 2 miles 63 chains to an outlet from Peejirk Marsh, following this outlet to the said marsh, and along the west bank to a tea tree scrub, then northerly to a tree marked by Crown Commissioner ascending north-westerly Mount Moorat to a high ridge which it follows 15 chains, again northerly to the west side of the Crater, and thence north-west to a tree marked by Captain Fyans the Crown Commissioner 47 chains 50 links, from said tree to another tree marked by Crown Commissioner at the same time, which two trees are taken as the direction for 73 chains, then by a line with the last mentioned 2 miles 45 chains; north 2 miles, north 62° east to Emu Creek 2 miles 68 chains by Emu Creek to its junction with another creek running from Lake Timboon, by the last mentioned creek to a point bearing south 59° east 1 mile 60 chains, then south 29 chains, east 2 miles 75 chains, south 32° east 1 mile 40 chains to the Salt Lake, round

the west side of the lake to a fence at the south-east point, by the fence south 16° east 46 chains to Lake Pullen Merri, and by the west bank of this lake to the commencing point.

No. 39.

Niel Black and Co.
Name of run—Warreeanga
Estimated area—16,640 acres
Estimated grazing capability—3,000 sheep

Line starting from the sea coast about $1\frac{1}{2}$ miles west to the outlet of the Glenelg River, thence following the boundary line of the colony north 13 miles, thence 3 miles east, thence 5 miles south, and thence 3 miles south-east till it joins the Glenelg.

No. 40.

Niel Black & Company
Name of run—The Sisters
Estimated area—25,200 acres
Estimated grazing capability—1000 head of cattle—10,000 sheep

Commencing at the junction of a creek with the Hopkins River; bounded on the west by the Hopkins River for about $2\frac{1}{2}$ miles; on the south by a line marked by heaps of stones and occasionally by a plough bearing south 69° east, from extreme points, 2 miles 55 chains, thence south 1 mile 18 chains, east 1 mile 62 chains to a small creek, by that creek to a point $1\frac{1}{2}$ miles south from "Sisters" old station, then east 2 miles 46 chains; on the east by a line bearing north 5 miles 66 chains to Capt. Webster's plough line; on the north by Captain Webster's plough line, bearing south 32° west $2\frac{1}{2}$ miles, north 75 west $2\frac{1}{2}$ miles to first mentioned creek, and by the said creek to the commencing point.

No. 41.

John and Thomas Brown
Name of run—Mount Napier
Estimated area—30,000 acres
Estimated grazing capability—1000 head of cattle—5000 sheep

Bounded on the north by Ritchie's run by a line from a marked tree by a large swamp 5 miles to Mount Napier; on the NW & W by John Cox's run, by a line of marked trees from Mount Napier towards the Breakfast creek about 5 miles; on crossing the Breakfast creek, bounded by Moffat's run 2 miles in the same course as John Cox's boundary described; on the south by W. Carmichael's run by a line running along a blind creek known as the halfway creek 4 miles long; on the east by Buckley's run by a line of marked trees running from the blind creek by the side of the stony rises about 7 miles to the large swamp, where a paddock-fence now joins the same; on the NE by the large swamp from Buckley's

boundary to the starting point described above as Ritchie's boundary.

No. 42.

John and Thomas Brown
Name of run—Muston's Creek
Estimated area—10,000 acres
Estimated grazing capability—1000 head of cattle

Bounded on the north by Payne's run by a line running from a point in the scrubby creek marked by a heap of turf $4\frac{1}{2}$ miles NNE to the Melbourne road, from thence along the Melbourne road east and by south about $3\frac{1}{2}$ miles to the south side of a swamp; on the east by Farie and Roger by a line from swamp on the Melbourne road $4\frac{1}{2}$ miles south & by east into Muston's creek, from thence up Muston's creek to the junction of the scrubby creek; on the south by Ware's run, the boundary is from the junction of the scrubby creek with Muston's creek 2 miles up the said scrubby creek to a point mentioned as Payne's boundary line being the starting point:

No. 43.

John and Thomas Brown
Name of run—Mount Elephant
Estimated area—14,300 acres
Estimated grazing capability — 5000 sheep

Situated on the south-west side of Mount Elephant, bounded on the north Campbell and Johnston by a line running from a cairn on the top of Mount Elephant $4\frac{1}{2}$ miles towards Mt. Hamilton, nearly WSW to another cairn of stones on the plain, bounded on the west by George Russell's run, line running from Campbell and Johnston's boundary about $5\frac{1}{2}$ miles, nearly SSW to a cairn of turf by a marsh; bounded on the south by Cole's run by a line running from said marsh ESE about 4 miles to a cairn of turf on the plain; bounded on the east by Currie and Anderson's run by a line from the said cairn on the plain running about NNE $4\frac{1}{2}$ miles to a gap in the south side of Mount Elephant from thence in a straight line to forementioned cairn on the top of Mount Elephant, being the starting point of this description.

No. 44.

John and Thomas Brown
Name of run—Mount Elephant
Estimated area—31,500 acres
Estimated grazing capability—13,000 sheep

Situated on the north-east of Mount Elephant homestead, distant about 6 miles, bounded on the west by a line commencing at a hill known as the Piccaniny Elephant, and running about north and by east $6\frac{1}{2}$ miles to Mr. Henry Anderson's, boundary from thence by a line running nearly east about 5 miles, bounded on north-east by Tennant and Lyon, line running about south-east 5

miles from Anderson's boundary; on the east by C. Synott's run, line running from Tennant and Lyons boundary about SSW nearly 3 miles; bounded on the south by Oliphant and Robinson's run and Currie and Anderson's run, line running from Synott's boundary west about one mile, thence down a dry creek about $1\frac{1}{2}$ miles, from thence by a plough line running from the junction of two creeks toward the southern base of Mount Elephant, passing through a salt lake to the centre of Mount Elephant Marsh, from thence by a line to the Piccaniny Mount Elephant, being the starting point.

No. 45.

Charles Brown
Name of run—Glen Ample
Estimated area—8000 acres
Estimated grazing capability — 5000 sheep

Hilly land, bounded on the south by the Ocean, on the east by very scrubby land (unoccupied) and high timbered ranges, joining Moonlight Head; on the north by dense scrub intersected by barren plains, and on the west by Sherbrook Creek.

No. 46.

John Bland
Name of run—Grafton
Estimated area—8000 acres
Estimated grazing capability — 4000 sheep

Commencing at a point near the centre of the eastern margin of Lake Condam, and bounded on the north by a rocky barrier running easterly about $2\frac{1}{2}$ miles to Norris Big Hill, where his boundary joins with Gorrie and M'Gregor's, being the boundary with Kenilworth station, thence in a south-westerly direction about 1 mile to a waterhole, thence in a south-easterly direction about 4 miles to the edge of Mount Ecklestone, being the boundary with Gorrie & M'Gregor, thence in a westerly direction along the edge of the said stones about 2 miles to a point about 7 miles from Mr. Brown's station, thence south about 2 miles to a large heath (unavailable ground) being the boundary with the said T. Brown, on the south by the said heath, and on the west by a scrub running NNW to the said stones about 2 miles, and from thence north to the foot of Lake Condam about $2\frac{1}{2}$ miles, being the boundary with Mr. Peter Ewart.

N.B.—This run has been transferred with the sanction of Government to Mr. Harry H. Gore, in whose name the lease will accordingly be prepared.

No. 47.

George Claridge
Name of run—Wittleburry
Estimated area—16,000 acres
Estimated grazing capability — 4000 sheep

Commencing at the south-east angle

of the Mile section occupied by Robert Gage, publican, thence in a line south-east by south to Darlot's Creek, forming the boundary of this and Coghill's station, thence 3 miles south-west along Darlot's Creek, thence in a line north-west to the Grange-road, forming the boundary with Learmouth, thence along the Grange-road to the south line of Gage's mile section, thence east along that line to the commencing point.

N.B.—This run has been transferred with the sanction of Government to Mr. Harry H. Gore, in whose name the lease will accordingly be prepared.

No. 48.

Currie and Anderson
Name of run—Geelengla or Larra
Estimated area—32,000 acres
Estimated grazing capability—16,000 sheep

Bounded on the south by the run occupied by J. G. Ware, the boundary line being a plough furrow bearing south 77° east 40 chains, south 72° east 1 mile 26 chains, south 52° east 1 mile 4 chains, south 63 degrees east 1 mile 79 chains, east 1 mile 77 chains; on the south-east corner by the run of John Hastie, the line being a plough furrow bearing east 28 chains, on the east by the run of Oliphant and Robertson, the line also being a plough furrow, bearing north 2° west 2 miles 60 chains, north 49° east 2 miles 31 chains, north 2° west 3 miles 35 chains; on the north by the run of J. & T. Brown, the line being a plough furrow bearing south 72° west 1 mile 34 chains, north 74° west 1 mile 62 chains, north 66° west 2 miles 14 chains; on the north-west by the run of Johnstone and Campbell, the boundary line being heaps of stones bearing south 58° west 1 mile 37 chains, and running to the south-east summit of Mount Elephant; on the west by a run occupied by J. & T. Brown, the boundary line being a line of stone heaps commencing at the summit of Mount Elephant and bearing south 21° west 5 miles 30 chains; on the west by south corner, by the run of Nicholas Cole, the line being a plough furrow bearing east 45° south 9 chains, south 18° west 45 chains.

No. 49.

John Cox
Name of run—Weerangourt
Estimated area—30,000 acres
Estimated grazing capability—2,000 head of cattle

On the north by a line bearing west from the summit of Mount Napier, 5 miles 60 chains to a creek on the run of Elms and Lang plough line to stones, on the west by the before named creek 60 chains to a plough line bearing south 60 chains to the stones, following the course of the stones and the large swamp the head of Darlot's creek to a marked tree

line bearing south 1 mile 50 chains to the four corner marsh, on the south by a line bearing east from the four corner marsh to the Belfast road 2 miles 60 chains following the road to the waterhole 35 chains in a northerly direction, from the waterhole by a line bearing east 1 mile to the boundary creek, on the east by the boundary creek and marked tree line 4 miles 40 chains, general bearing NE to a tree marked VI, from thence by a marked tree line to Mount Napier 4 miles 40 chains.

No. 50.

The Clyde Company, (per George Russel)
Name of run—Golf hill
Estimated area—72,700 acres
Estimated grazing capability—36,000 sheep

Commencing at a point on the river Leigh 2 miles 21 chains northward from the junction of the said Leigh with the river Barwon, and bounded on the south by the said river Leigh, general bearing from point to point 293° 1 mile 30 chains, thence by a line bearing 248° 20' 61 chains 50 links, thence by a line bearing 261° 40' 1 mile 56 chains 50 links, the said river Leigh, and last 2 lines dividing said run from that of the weatherboard occupied by Mr George Duncan Mercer, thence on the west by a line general bearing 339° 30' 1 mile 46 chains, dividing said run from that of the weatherboard aforesaid, thence by a line general bearing 314° 20' 72 chains, thence by a line general bearing 340° 30' 2 miles 39 chains, thence by a line bearing 344° 64 chains, thence by a line general bearing 335° 6 miles 75 chains, these last 4 lines dividing said run from that of Warranbine occupied by Mr John Thomson, thence on the north by a line bearing 19° 30' 40 chains, thence by a line bearing 61° 30' 1 mile 70 chains to the river Leigh, these last two lines dividing said run from that of Mount Mercer, occupied by Mr Alexander F. Cunningham, thence by the said river Leigh, general bearing 127° 1 mile 27 chains, thence by a line bearing 26° 51 chains, thence by a line general bearing 117° two miles 55 chains to Wilson's creek, the said Leigh and last two lines dividing said run from that of Woodbourne, occupied by Messrs. Wilson, Brothers, thence by said Wilson's creek bearing 139° 20 chains to its junction with Beerook Creek, thence crossing Beerook Creek by a line, general bearing 115° 30' 1 mile 21 chains to the Native Creek, thence by the said Native Creek, bearing from point to point. 153° 15 chains, 50 links, thence crossing the said creek by a line general bearing 107° 52 chains, thence by a line general bearing 77° 2 miles 52 chains, thence by a dry gully, general bearing 151° 20' 1 mile 50 chains, thence by a line bearing 78°

45 chains 50 links, thence by a line bearing $56^{\circ} 66$ chains, 40 links, thence by a line, general bearing $326^{\circ} 30'$ 69 chains thence by a line, general bearing $32^{\circ} 41$ chains, 50 links, to the public road leading from Geelong towards Buninyong, the lines formed by the last 10 bearings dividing said run from that of the Native Creek occupied by Mr. Robert Sutherland thence by a line general bearing $61^{\circ} 30'$ one mile nine chains to the River Moorabool, thence by the said River Moorabool, general bearing, $84^{\circ} 68$ chains, thence by a gully, general bearing $59^{\circ} 30'$ 35 chains, thence by a line bearing $74^{\circ} 31$ chains, thence by a line bearing $47^{\circ} 20'$ 28 chains to Sharpe's Creek, thence by said Sharpe's Creek general bearing $127^{\circ} 44$ chains, thence by a line bearing $85^{\circ} 28$ chains, thence by a line bearing $69^{\circ} 1$ mile 26 chains to the road leading from Steiglitz station towards Geelong, the lines formed by the last 8 bearings dividing said run from that of Moronghuk, occupied by Mr. Peter Sharp, thence on the east by said road bearing $160^{\circ} 1$ mile 25 chains to its junction with the old track, leading from Melbourne towards Buninyong, dividing said run from that occupied by Mr. Frederic Griffin; thence by a line, general bearing $207^{\circ} 30'$ 1 mile 38 chains to Sharp's Creek, dividing said run partly from that occupied by Mr. F. Griffin, and partly from that occupied by Mr. Roger Kelsall; thence by said Sharp's Creek, general bearing $135^{\circ} 54$ chains; thence by a line general bearing $171^{\circ} 20'$ 3 miles 5 chains to the river Moorabool, the said creek and last line dividing said run from that occupied by Mr. Roger Kelsall; thence by a line bearing $180^{\circ} 2$ miles 17 chains; thence by a line bearing $90^{\circ} 1$ mile, thence by a line bearing $180^{\circ} 1$ mile; these last 3 lines dividing said run from lands in the Parish of Gheringhap, purchased originally by Messrs. Hughes and Hosking; thence on the south by a line bearing $270^{\circ} 1$ mile, dividing said run from lands occupied by Mr. Learmouth, thence by a line bearing $292^{\circ} 30$ chains, thence by a line bearing $337^{\circ} 78$ chains to the road leading from the Leigh towards Geelong, thence by a line general bearing $293^{\circ} 1$ mile 4 chains, thence by a line bearing $312^{\circ} 30'$ 1 mile 19 chains to Bruce's Creek, thence by Bruce's Creek general bearing $325^{\circ} 1$ mile 41 chains 50 links; thence by a line bearing $278^{\circ} 1$ mile 31 chains, thence by a line bearing $249^{\circ} 52$ chains; the lines formed by these last 7 bearings dividing said run from that occupied by Mr. James Bruce, thence by a line general bearing $269^{\circ} 30'$ 2 miles 13 chains, thence by a line general bearing $257^{\circ} 2$ miles 17 chains to the Native Creek, thence crossing the Native Creek by a line bearing $238^{\circ} 54$ chains, thence by a line bearing $154^{\circ} 30'$ 5 miles 17 chains; these last 4 lines dividing said run from that occupied by Mr. Joseph Tolson, and thence on the south by a line bearing $228^{\circ} 1$ mile 6 chains to the commencing point dividing said run from that occupied by Messrs. Willis and Swanston.

No. 51.

The Clyde Company (per Geo. Russell)
Name of run—Terinallum
Estimated area—57,600 acres
Estimated grazing capability—22,000 sheep

Commencing on a point on the river Clyde, (Mount Elephant bearing $74^{\circ} 45'$ distant 7 miles 52 chains) and bounded on the south by a line bearing $97^{\circ} 3$ miles 37 chains 50 links, dividing said run of Terinallum from that of Jellallabad occupied by Mr. Edward Robe Bostock; on the east by a line bearing $338^{\circ} 30'$ 55 chains, thence by a line bearing $18^{\circ} 10'$ 2 miles, thence by a line bearing $10^{\circ} 43$ chains, thence by a line bearing $16^{\circ} 1$ mile 73 chains; these four last lines dividing said run of Terinallum from that of Galla occupied by Messrs. John and Thomas Brown; thence by a line bearing $36^{\circ} 30'$ 1 mile 6 chains 50 links, thence by a line bearing $356^{\circ} 28'$ 5 miles 2 chains 50 links; these last two lines dividing said run of Terinallum from that of Caranbalac occupied by Messrs. Johnstone and Campbell; on the north by a line bearing $288^{\circ} 3$ miles 75 chains to the river Clyde, thence by the River Clyde, bearing from point to point 190° thirty-two chains seventy links, thence by a line bearing $338^{\circ} 40$ chains; thence by a line bearing $281^{\circ} 45'$ 1 mile 60 chains, thence by a line bearing $258^{\circ} 40'$ 26 chains, thence by a line bearing $233^{\circ} 41$ chains; these last five lines and the River Clyde dividing said run of Terinallum from that of Curnong occupied by Messrs. Chirnside and M'Nab; on the west by a line bearing $159^{\circ} 1$ mile 24 chains, thence by a line bearing $230^{\circ} 35'$ 1 mile 59 chains 60 links, thence by a line bearing $226^{\circ} 1$ mile 20 chains, thence by a line bearing $178^{\circ} 1$ mile 43 chains; these last four lines dividing said run of Terinallum from that of Mr. John M'Pherson, thence by a line bearing $178^{\circ} 1$ mile 14 chains, thence by a line bearing $148^{\circ} 30'$ 1 mile 54 chains, thence by a line bearing $155^{\circ} 2$ miles 5 chains, thence by a line bearing $201^{\circ} 30'$ 2 miles 23 chains 50 links, thence by a salt lagoon same bearing as above from point to point 16 chains, thence by a line bearing $201^{\circ} 30'$ 11 chains; these last five lines and salt lagoon dividing said run of Terinallum from that of Mount Fyans occupied by Mr. Lachlan M'Kinnon; and on the south by a line bearing $97^{\circ} 2$ miles 40 chains to the River Clyde, thence by the River Clyde bearing 90° from point to point 11 chains to the commencing corner, the said River Clyde and last

line dividing said-run of Terinallum from that of Jellallabrd occupied by Mr. Edward Robe Bostock.

No. 52.

Daniel Curdie

Name of run—Tandarook

Estimated area—17,686½ acres

Estimated grazing capability—1,000 head of cattle

Bounded on the north and north-east by Smith and Thomsons' runs; on the west by Ewen's run; on the SW by Macdonald's run; on the south by coast ranges; on the north-east by John and Peter Manifolds' run; and on the east by Mackinnon and Murchie. Boundaries, N and NE from a gum tree marked A on bank of Tea Tree Creek, up the bed of the creek to the highest point of permanent water to a tree marked B, about 80 chains from tree marked A, bearing N 40° W, thence 36 chains, bearing N 11° 15' W to a point of Tea Tree Creek; thence following a bed of creek to a gum tree marked on three sides, by a native well; W and SW from the above-named native well a line of marked trees SW 283 chains to the N extremity of Ewen's SE boundary, along said boundary 235 chains SW to a tree marked SE and NE; thence 115 chains SE joining W extremity of S boundary, S from last-named point 596 chains, being due E; E from E extremity of S boundary 60 chains, N to a gum tree marked D; thence 240 chains N 50° W to a large blackwood tree marked C; thence 90 chains N to the Tea Tree Creek, thence up the bed of the creek to the tree marked A at SE extremity of NE boundary.

No. 53.

John Anthony Cowie and David Stead

Name of run—Bunjeeltap

Estimated area—30,000 acres

Estimated grazing capability—18,000 sheep

Bounded on the N by the runs of William Patterson and C. and J. Bradshaw; on the NE by that of P. Inglis; on the E by that of C. F. Labilliere; on the SE by that of Francis Atkinson; on the S by that of John Wallace; and on the W by that of Dibble and Egerton. The various lines are all distinctly marked, and were determined by mutual agreement with the several occupiers of the adjoining stations.

No. 54.

Donald Craig

Name of run—Eddington Run

Estimated area—4,928 acres

Estimated grazing capability—4,000 sheep

Bounded on the N by J. G. Ware's SE boundary line, being a line bearing N 73° E 2 miles 30 chains to the SE

angle of J. G. Ware's station; on the NE by Nicholas Cole's station, being a line bearing S 34° E 1 mile 19 chains to P. M. Arthur's N boundary, thence by a line of 30 chains to P. M. Arthur's NW angle; on the E by P. M. Arthur's W boundary, being a S line of 4 miles 15 chains to the Blind Creek; on the south by Neil Black along the Blind Creek to its junction with Taylor's River; on the west by Neil Black along Taylor's River to J. G. Ware's S boundary on Taylor's River, or the point of commencement.

No. 55.

Robert Clerk

Name of run—Mumberitch

Estimated area—5,800

Estimated grazing capability—4,000 sheep

Bounded on the N by Mr. Edward Bell's run, with the road running from Spring creek to Messrs. M. Arthur's station to a marked tree half way between the two stations, this line being 2½ miles, on the E by the run of said M. Arthur's by a line running from the last named point to the extremity of Whitehead's boundary 1½ miles, and still on the E by Whitehead's run, being a line two miles on the S and W by Mr. Bell's run, divided therefrom by the Spring Creek 3 miles.

N.B.—This run has been transferred with the sanction of Government to William Campbell, in whose name the lease will accordingly be prepared.

No. 56.

Robert Clerk

Name of run—Englefield

Estimated area—28,000 acres

Estimated grazing capability—10,000 sheep

Bounded on the N by Mr. Sherritt's run, the River Glenelg dividing the two runs, this line being 10 miles; on the E by Mr. George Urquhart's run, by a line running from the Glenelg SSW to the extremity of Mr. Cadden's boundary, this line being 5 miles; on the S by Mr. Cadden's run, by a ploughed line running WSW 7 miles; on the W by Messrs. Fairbairn and Stirling's run, by a line running N from Cadden's boundary, this line being 3 miles, and from thence to the head of the gully known as Lollipop's Falls, running NE to the Glenelg River, this line being three miles.

No. 57.

Issac Corney

Name of run—Cashmere

Estimated area—7,060 acres

Estimated grazing capability—3,500 sheep

Commencing at a point on the Wando River, and bounded on the E by the Wando, bearing N 530 chains dividing

it from land occupied by Mr. William Corney and Davidson; on the NW by a line of marked trees and furrow, bearing SW 420 chains, dividing it from land occupied by R. Vines and G. Robertson; and on the SW by a furrow bearing SE 327 chains dividing it from land occupied by J. Pearson.

No. 58.

William Corney
Name of run—Wando Station
Estimated area—7,065 acres
Estimated grazing capability—4,000 sheep

Commencing at a point, and bounded on the N by a furrow dividing it from land occupied by Davidson (formerly Watson), and bearing easterly 277 chains; on the E by a furrow dividing it from land occupied by J. G. Robertson, and bearing southerly 464 chains; and on the W by the Wando and Corney's Creek, dividing it from land occupied by J. Corney, and bearing northerly 480 chains.

No. 59.

Simon Cadden
Name of Run—Gringegalgon
Estimated Area—58,880 acres
Estimated grazing capability—15,000 sheep

Situation—The Dundas range. Bonnarries—Starting point, the north end of the Dundas range, thence a line of plough furrow north-east 35° 268 chains, bounded by Messrs. D. and D. C. Kennedy, thence a line of plough furrow, north-east 45° 322 chains, bounded by Messrs. D and D C Kennedy, thence a line of plough furrow, north-west 45° 233 chains, bounded by Messrs Urquhart and Glendinning, thence a line of plough furrow south-west 79° 564 chains, bounded by — Clarke, thence a line of plough furrow north-west 29° 46 chains, bounded by — Clarke, thence a line of plough furrow, south-west 78° 314 chains, bounded by Messrs Sterling and Fairbairn, thence by a line of plough furrow north-west 43° 46 chains, bounded by Messrs. Sterling and Fairbairn, thence a line on road south-west 28° 64 chains, bounded by Mr. J. Campbell, thence a line on road south-east 64° 532 chains, bounded by Mr. J. Campbell, thence a line of plough furrow south-east 83° 90 chains, bounded by Messrs. Whyte Brothers, thence a line of plough furrow south-east 50° 75 chains bounded by Messrs Whyte Brothers, thence a line of plough furrow south-east 55° 24 chains bounded by Messrs Whyte Brothers, thence a line of plough furrow south-east 60° 212 chains bounded by Messrs Whyte Brothers, thence a line west of plough furrow west 160 chains, bounded by Messrs Whyte

Brothers, thence a line of plough furrow north-east 25° 180 chains bounded by Messrs Whyte Brothers, thence a line of plough furrow north-east 45° 220 chains, bounded by Messrs. Whyte Brothers, thence a line on the Dundas north-west 45° 96 chains, bounded by Messrs D. and D. C. Kennedy.

No. 60.

George Coghill
Name of run—Lake Condon
Estimated area, 18,000 acres
Estimated grazing capability—750 head of cattle

Commencing at Gage's public-house, on the Grange road, thence on the westward by the Whittlebury station, (Caridge's) first, by a line 27° east of south 3 miles 55 chains; thence on a line 10° east of south 3 miles 20 chains to the Darlot Creek Swamp, thence by the eastern side of said swamp to Darlot's Creek about a mile on the south by Darlot's Creek to Lake Condon, three miles on the east by Lake Condon and Cox's swamp, 11 miles on the north by Munro, on a line WSW one mile to the Grange road, thence by the Grange road two miles to Gage's public-house, the point of commencement.

No. 61.

James Carmichael
Name of run—Union
Estimated Area—25,600 acres
Estimated grazing capability—2000 head of cattle

Running from a water-hole in Spring Creek, above the Abington Inn, to a water-hole termed Richie's, thence in a straight line running east about 3½ miles to a marked tree, thence in a straight line 2½ miles ENE½E to a marked tree, thence in a straight line 5 miles south-east by south to a marked tree, thence 4 miles in a straight line, WSW½W to a water-hole in the creek known as Goody's Creek, thence in a straight line SWbyW about 2½ miles to a small gully running into Spring Creek, thence up the creek to a marked tree known as Simpson's boundary, thence half-a-mile south-west to a marked tree, thence 2½ miles west to a marked tree, thence about three miles NE by N.

No. 62.

Robert Dean Chamberlain
Name of run—Tarrone
Estimated area—46,918 acres
Estimated grazing capability—3,000 head of cattle

Bounded on the east by the runs of J. Nailer, H. N. Simpson, and G. Yuille, being straight lines commencing from a gum tree marked on two sides at the south-east corner, bearing north 70° east (35°00) thirty-five chains; north

20° E, 1 mile (40·00) forty chains; N 81° 30' east (15·87) 15 chains 87 links; north 7° 30' east, two miles 73 chains; north 7° 15', west 1 mile 63 chains, and north 10°, west 1 mile 20 chains 30 links to Loughnan's old track. On the north by the runs of Smylie and Austin and Henry Lemann, being Loughnan's old track to a dry water-course, by that water course to the Tarrone Swamp by a straight line across that swamp, bearing south 62° west 68 chains to the point of a narrow spur of lava, by the centre of that spur to an old dray track, and by that old dray track to the north-west boundary; on the west by the runs of Campbell and Co., and John Ware, being straight lines, bearing south 40° 15' west 5 miles 21 chains, south 21°, east 4 miles 52 chains; on the south by the run of James Kibble, and by Crown land occupied by splitters and sawyers, being straight lines bearing north 82° 8' east, 3 miles 10 chains to the Moyno river, and north 85°, east 5 miles 79 chains from the Moyno river to the starting point.

No. 63.

Donald Cameron
Name of run—Morgiana
Estimated area—8,640 acres
Estimated grazing capability—600 head of cattle

Situated on the junction of the Wannan and the Grange, starting from thence a line on the Grange south-east 89° 26' 8" chains, bounded by William Kippin, junior, thence a line of marked trees south 462 chains, bounded by Angus Cameron, thence a line on swamp and creek north west 72° 166 chains bounded by Duncan McIntyre, thence a line of plough furrow north 221 chains, bounded by William Thomson, thence a line on creek NW 27° 129 chains, bounded by William Thomson, thence a line on creek north-west, 61° 105 chains, bounded by William Thomson, thence a line on the Wannan north-east 33° 74 chains bounded by Mr. De Little to the starting point at the junction of the Wannan and Grange.

No. 64.

Charles Carter
Name of run—Brim Spring
Estimated area—12,800 acres
Estimated grazing capability—4,000 sheep

Between the Grampians and Victoria ranges on the Glenelg river; bounded on the north by the station of Mr. D. C. Simson, on the west by the Glenelg river, on the south by the Grampian and Victoria ranges, and on the east by Mr. Rose's station.

No. 65.

Alexander Campbell
Name of Run—Erumbeen, Mount Cole
Estimated area—48,000 acres
Estimated grazing capability—200 head of cattle—18,000 sheep

Commences from extreme source of that branch of the Fiery Creek which rises on the eastern side of the Mount Cole ranges, continues down right bank of said creek about one mile to a certain fixed point on said creek; from thence by a line nearly due east for 1½ miles, to a certain marked tree, which marked tree forms the uniting point of this run with that of Messrs. Donalds and Hamilton, and Mr. Alexander Irvine; said lines separating this run on the north from that of Mr. Alexander Irvine's; from said marked tree following the crest of the range in the general direction of about south 40°, east for about 3½ miles; from thence continues to follow the crest of the range in the general direction of south by west 10° or about 8½ miles, to a marked tree on the road from this station to that of Messrs. Donald's and Hamilton; from said marked tree still continuing to follow the crest of the range in the general direction south 30½°, east about 1½ miles to a marked tree, which marked tree forms the uniting point of this run with that of Messrs. Donalds and Hamilton and A. Goldsmith, Esq., said lines separating this run on the east from that of Messrs. Donald and Hamilton's run called Lang-y-calcal; from said last-mentioned marked tree continues a quarter mile WSW separating this run on the south from that of A. Goldsmith, Esq., called Trawallo; from thence the same line continued WSW 1½ miles, from thence by a line of marked trees due W 1½ miles, from thence by a line of marked trees 68 chains 23S' 20", and one mile eight chains 256' to the top of a hill where a road crosses, thence along the said road in a general direction of 189°30' 4½ miles, said lines separating this run on the south from that of Messrs. A. Russell and Co, called Mawallock, from thence by a plough line about W, about two miles, and about north by west about seven miles to a point in a branch of the Fiery Creek, which point is at an equal distance from a station called Woodnagorok, belonging to this run and the station of Jallacum belonging to Messrs. Thompson and Cooper, said lines separating this run on the south and west from that of Messrs. Thompson and Cooper's called Jallacum; from thence back along last-mentioned plough line 100 yards, from its termination at the creek, from thence crossing said creek half-way between the two last water-holes next adjoining termination of said plough line, from thence a line di-

rect for the top of Mount Cole two miles from thence direct to a point in that branch of the Fiery Creek commonly called the Middle Creek, which said point is $2\frac{1}{2}$ miles direct from an out station called Woodnagorek belonging to this run; from thence continuing up said Middle Creek to its junction with another branch of the Fiery Creek, from thence continuing up course of said creek to its extreme source on the western side of the Mount Cole ranges, said lines separating this run on the west from that Mr. Colin Campbell.

No. 66.

Colin Campbell
Name of run—Buanger Mount Cole
Estimated area—25,600 acres
Estimated grazing capability—100 head of cattle—10,000 sheep

The boundaries of the above run are to the north from the saddle formed by the junction of the Green Hills with the Mount Cole range from which saddle one branch of the Fiery creek flows to the southward on the one side, to the water falls into the Wimmera to the northward on the other side, to same point in the opposite range (Lanageerein) forming such a line as will divide the intervening ground according as the water falls to the southward or northward betwixt this run and that of — Clarke; from this point along the crest of the range from which the water falls to the eastward into the Fiery creek, and to the westward into the Hopkins, being the boundary agreed on with M'Gill, on the western side to a point in the dividing range where a tree is marked by mutual agreement, as the beginning of the boundary line betwixt this run and that of Messrs Thomson and Cooper; from this point in a straight line to a tree marked by mutual consent on the creek running from Buangor to Chalokum, from this tree in a straight line to the termination of the plough line which marks the boundary between Mr. Alexander Campbell and Messrs Thomson and Cooper's runs at the main creek; from this point for 100 yards along the said plough line on the other side of the main creek, and from this to another point on the main creek, half way between the two last water holes on that creek, next to Messrs Thomson and Cooper's boundary on that creek, from this a line direct for the top of Mount Cole for two miles, thence direct to a point on the creek commonly called the Middle creek, which point is $2\frac{1}{2}$ miles direct from an out-station of Mr Alexander Campbell's called Woonagerok, from thence along the course of the said creek to its extreme source on the western side of the Mount Cole ranges where it falls from the saddle first mentioned.

No. 67.

John Campbell
Name of run—Spring Vale
Estimated area—13,960 acres
Estimated grazing capability—5,000 sheep

Situated on the west of Mr S. Cadden's boundaries; starting point the NW corner of Mr S. Cadden's run, thence a line of plough furrow NW 35° 100 chains, bounded by Messrs Stirling and Fairbairn, thence a line of plough furrow SW 45° 320 chains, bounded by Messrs Willis and Swanston, thence a line on road south 80 chains, bounded by Messrs Willis and Swanston, thence a line SE 14 340 chains, bounded by Mr D. Power, thence a line of plough furrow SE 83° 228 chains, bounded by Messrs Whyte, brothers, thence a line on road NW $6\frac{1}{2}^{\circ}$ 532 chains, bounded by Mr S. Cadden, thence a line on road NE 28° 64 chains, bounded by Mr S. Cadden to the starting point.

No. 68.

William Carmichael
Name of run—Harton Hills
Estimated area—38,400 acres
Estimated grazing capability—1500 head of cattle, 8000 sheep

From tree marked C $5\frac{1}{2}$ miles SE from home station a line of marked trees runs north by east $6\frac{1}{2}$ miles, bounding Dawson and Mitchell's station, $5\frac{1}{2}$ miles WNW by N bounding W. Hutton's run, $5\frac{1}{2}$ miles SW by W bounding Brown, 2 miles south bounding Moffat, 2 miles SE bounding M'Kay, 3 miles S by E bounding Boyds run. $5\frac{1}{2}$ miles E by S bounding Campbell and M'Knight and Irvine's station.

No. 69.

T. and A. Chirnside.
Name of run—Markangar
Estimated area—44,000 acres
Estimated grazing capability—500 head of cattle 12,000 sheep

Bounded on the west by a line running north from a point on the Wannon river, $1\frac{1}{2}$ miles above Waddell's Inn, to stony range, thence along top of range to back creek, dividing said run of Markangar from that occupied by Messrs Riley and Barker, north by a line to Victoria range, dividing it from Mr Parton's station, east by a marked line running south, which divides it from Dr Martin's station, south by a marked line to Barrett's spring, which divides it from Messrs Mercer and Lockhart's station, thence by a line to the commencing point on the Wannon river.

No. 70.

Thomas Chirnside and Robert M'Nab
Name of run—Curnong
Estimated area—31,874 acres

Estimated grazing capability—30 head of cattle 13,000 sheep

Commencing at a point on the Mount Emu creek, Mount Elephant, bearing 146° 35', distant 1.1 miles 49 chains, bounded on the south by a marked line running 3 miles 39 chains 75 links to the west, and 5 miles 1 chain 50 links to the east of said point, dividing the station from that of Tyerenellum, occupied by Mr George Russell, on the east by a marked line 12 miles 23 chains 30 links, dividing it from the station of Cordagalla, occupied by Messrs Johnston and Campbell, on the north by the Portland road 2 miles 36 chains 75 links, dividing it from said station of Cordagalla, and by a marked line from Portland road to Fiery creek 2 miles 7 chains, dividing it from the ground claimed by the Fiery creek public house, on the west by the Fiery creek 46 chains, and by a marked line 8 miles 30 chains dividing it from the station occupied by Mr John M'Pherson.

No. 71.

T. and A. Chirnside

Name of run—Mount William

Estimated area—38,000 acres

Estimated grazing capability—100 head of cattle 14,000 sheep

Bounded on the north by the Grampian ranges, on the east by a line running to morass, which divides said run of Mount William from that occupied by Captain Bunbury, thence by a line SSE to Salt Lake, thence to Geelong road, which divides it from Mr Ross's station, on the south by a line running WSW, which divides it from Mr Adams' station, on the west by a line running to Wannon road, thence along said road to large morass, thence to the Grampian ranges, which divides it from Muirhead and Parker's station.

No. 72.

Ewen Cameron

Name of run—Sutledge

Estimated area—12,800 acres

Estimated grazing capability—640 head of cattle 4000 sheep

Bounded on the west by the South Australian boundary line, on the north by Robert Steel, on the east by John M'Lellan, on the south by Mr Thomas.

No. 73.

Nicholas Cole

Name of run—West Cloven Hill

Estimated area—19,040 acres

Estimated grazing capability—10,000 sheep

Bounded on the NW by Bostock's station, on the west by Halls and J. G. Ware's station, on the SW by Craig's station, on the south by M'Arthur's station, on the east by J. G. Ware's and Currie and Anderson's stations, and on

the NE by J. and T. Brown's station at Mount Elephant

No. 74.

Alexander F. Cunningham

Name of run—Mount Mercer

Estimated area—20,000 acres

Estimated grazing capability—14,000 sheep

Bounded on the north by a marked and determined line with George Mercer, on the east by the River Leigh, on the south a plough furrow, Clyde Company and Thomson, on the west by Ferrar's marked and determined line.

No. 75.

James Crawford

Name of run—Rifle Downs, native name Wataepoolan

Estimated area—35,000 acres

Estimated grazing capability—1000 head of cattle

Bounded on the NW by a line running NE, 11 miles from a point on the River Stokes, 2½ miles from where it joins the Glenelg river to where said line cuts the road known as the Glenelg and Wannon road to Portland, 2 miles from the Wool Pack Inn, thence by said road 1½ miles towards Wool Pack Inn (leaving ½ mile on each side of the Stokes along the road from Wool Pack Inn), thence by a line 3¼ miles SE and by E to Wedge's track, being a long dividing spur, which sheds the waters falling into the Stokes above and below said Portland road, and along Wedge's track 1½ miles to what is known as M'Intyres' out station creek, being boundary with M'Rae and M'Lean, thence by a line 5½ miles SW and by W to where it cuts the Portland road, being boundary with Henry Monro, thence by a line 10 miles W and by S to the Stokes, near starting point

No. 76.

Calvert and Bell

Name of run—Watch Hill

Estimated area—36,480 acres

Estimated grazing capability—20 head of cattle 18,000 sheep

Bounded on the west and NW by Lake Corangamite and the Wardy-Yallock; on the north by Mr Thomson, and on the east by Mr Harding, by plough line mutually agreed upon; on the south by Calvert and Bell, Benjamin Boyd and Hugh Murray, until it touches Lake Corangamite.

No. 77.

Calvert and Bell

Name of run—Irrewarra

Estimated area—31,800 acres

Estimated grazing capability—1400 head of cattle 8000 sheep

Bounded on the west by Benjamin Bayd, Esq., by a plough furrow mutually agreed upon; on the north by

Calvert and Bell, on the east, by William Harding and Charles Airey, by a line mutually agreed upon; also on the east by Dennis, brothers, by a plough line mutually agreed upon; on the South by the Colac road until it touches Lake Colac.

No. 78.

Campbell, M'Knight, and Irvine

Name of run—Donmore

Estimated area—47,228 acres

Estimated grazing capability—3500 head of cattle

Bounded on the east by the runs of J. Ware, R. D. Chamberlain, H. Leman, and J. Dawson, being straight lines bearing $40^{\circ} 15'$ east 7 miles (20,00) twenty chains, and north $30^{\circ} 45'$ west 5 miles (70,00) seventy chains; on the north by the run of W. Carmichael, being a straight line bearing south $82^{\circ} 45'$ west 4 miles (22,00) twenty-two chains; on the west by the runs of B. Boyd and T. A. Brown, being straight lines bearing south $36^{\circ} 30'$ west 4 miles (27,00) twenty-seven chains, and south 6 miles (16,00) sixteen chains, and on the south by the runs of C. and D. Aplin and J. Ware, being straight lines bearing north 85° east 3 miles (50,00) fifty chains to the River Shaw, and south $67^{\circ} 30'$ east 1 mile (19,00) forty-nine chains from the River Shaw.

No. 79.

Patrick Curtin

Name of run—The Merino Water Holes

Estimated area—160 acres

Estimated grazing capability—40 head of cattle

Bounded on the east by A. Rose's station, called Glenorchy, being a line of about $\frac{1}{4}$ mile long, and on the north and on the west and on the south by Francis Henty's station, called Merino Downs, being three side lines of $\frac{1}{4}$ mile long each, so as to comprise an area of 160 acres on both sides of the main road from Portland to the Glenelg.

No. 80.

John and George Coldham

Name of run—Grassdale

Estimated area—13000 acres

Estimated grazing capability—6000 sheep

Bounded on the W by a line running S from the junction of Mr. Rae's creek, with the main creek called Meier Rite, distance $2\frac{3}{4}$ miles, on the N by a line from the junction of the same creeks to a waterhole E on Meier-Rite creek, distance $6\frac{1}{2}$ miles, on the E by a line from the same waterhole S, $1\frac{3}{4}$ points W, distance $1\frac{1}{2}$ mile, on the S by a line, from the termination of the line on the E, running S by W, until meeting the line on the W, distance 6 miles. There is a piece of land on the N side of the

main creek called Meier Rite creek, extent of which is about 400 acres, bounded on the N by Mr. Samuel Winter, on the E & S by Mr. McIntyre, and on the W by McLean & McRae.

No. 81.

W. I. T. Clarke

Name of run—Dowling Forest

Estimated area—40,650 acres

Estimated grazing capability—500 head of cattle—15,000 sheep

Commencing at S W corner, bounded between Learmonth by lines running N 45° W $94^{\circ} 20'$ chains, N 11° W 272 chains to Burrumbeet creek, thence N 39° W $132^{\circ} 30'$ chains to marked tree on point of Saddleback Hill, thence N 11° W 179 chains, across lake Burrumbeet, thence N 10° W 273 chains to top of Bald Hill, thence N 11° W 221 chains to top of Mount Beckworth range and along top of range 40 chains, thence between Cogle by a line S 52° E 76 chains to top of Bald Hill along top of hill 16 chains, thence S $56\frac{1}{2}^{\circ}$ E 81° 50 chains, S $77\frac{1}{2}^{\circ}$ E 28 chains, S 56° E 116 chains, S 66° E 26 50 chains, N 60° E 12 70 chains, S $73\frac{1}{2}^{\circ}$ E 33° 50, thence in the direction of N 60° E, for 284 chains to Cattle Station Creek, thence along said creek about $3\frac{1}{2}$ miles to Birch's gully, thence along Bean Bean side line S 25° W 18 80, S 15° W 6 chains, and S 2° E 9 chains, thence S 6° W 320 chains to splitting track, thence between Waldy by said splitting track on road in westerly direction about $1\frac{1}{2}$ mile, thence between Waldy and Winter by a SW line, passing tree marked FF 529 chains to point of starting. NF

No. 82.

Donald Cameron

Name of run—Mount Sturgeon Plains

Estimated area—28,000 acres

Estimated grazing capability—15,000 sheep

Adjoining the north side of Mount Rouse Aboriginal reserve, starting from the north-west corner of the reserve, thence a line of spade marks north-east 2° 235 chains, bounded by Donald Kennedy, thence by a line of spade marks north-west 67° 262 chains, bounded by Donald Kennedy, thence a line of plough furrow north-east 80° 269, bounded by Captain Lonsdale, thence a line on road north-east 71° 180 chains, bounded by Captain Lonsdale, thence a line of plough furrow south-east 64° 167 chains bounded by Dr. Martin, thence a line of spade marks south-east 16° 656 chains, bounded by I. & A. Cameron and D. & D. C. Kennedy, thence a line of marked trees west 318 chains, bounded by the Mount

Rouse Aboriginal reserve, the starting point.

No. 83.

Donald Cameron
Name of run—Oak Bank, Mount Eckersley

Estimated area—2500 acres
Estimated grazing capability—200 head of cattle—1200 sheep

Bounded on the north by a line $1\frac{1}{2}$ mile in length along forest land, on the east by a gully and the old Smoky river road, the said road and gully being about 2 miles, the occupants on that side being Colin Hunter and John Bell, on the south by the junction of the old and new Smoky river roads, the nearest occupant on that side being David Edgar on the west by the new Smoky river road almost two miles in length, the adjacent occupants on that side being Francis Scott and Duncan McRae.

No. 84.

Angus Cameron
Name of run—Violet Creek
Estimated area—9,600 acres
Estimated grazing capability—800 head of cattle or 4,000 sheep

Commencing at the junction of the Grange and Muddy Creek (being the boundary with Messrs. Griffin & Craigs) south-easterly to the crossing of the old Portland Road, thence by the Portland Road (being the boundary with Mr. A. French) in a south-westerly direction across the Violet Creek about 334 chains, to the big swamp on the Portland Road, thence by the big swamp in a north-westerly direction 91 chains, being the boundary with Mr. D. McIntyre, thence by a line of plough furrow bearing north $1^{\circ} 33'$ east 434 chains to a point half way between the Violet and Tea Tea creeks, being the boundary with Mr. D. Cameron, thence by the Grange creek in an ESE direction (being the boundary with Mr. Kippin) to the commencing point.

No. 85.

Alexander and John Cameron
Name of run—Mount Sturgeon Plains
Estimated area—6,856 acres
Estimated grazing capability—640 head of cattle—5,000 sheep

Situated $2\frac{1}{2}$ miles to the east of Lake Linlithgow and 6 miles to the south of Mount Sturgeon, starting on the road between Mount Rouse and Mount Sturgeon and 196 chains north of the Aboriginal reserve, hence a line of marked trees south-west $79^{\circ} 126'$ chains, bounded by Messrs. D. & D. C. Kennedy, hence a line of spade marks north-west $16^{\circ} 476'$ chains, bounded by Mr. Donald Cameron, hence a line of plough furrow south-east $47^{\circ} 113'$ chains, bounded by Doctor Martin,

hence a line on road north-east $40^{\circ} 30'$ chains, bounded by Doctor Martin, hence a line of marked trees south-east $60^{\circ} 180'$ chains, bounded by Messrs. D. & D. C. Kennedy, hence a line on the Mount Rouse road south-west $2^{\circ} 294'$ chains, bounded by Messrs Kennedy to the starting point.

No. 86.

Donalds and Hamilton
Name of run—Large Kal Kal
Estimated area—70 400 acres
Estimated grazing capability—600 head of cattle—18,000 sheep

Commencing at a marked tree at the top of Mount Ross, and bounded on the south by a ploughed line, bearing east 9° south 70 chains to Spring Hill Creek, then by that creek bearing SE 2 miles to a round clump of tea tree, then by a plough line bearing east 1° south $4\frac{1}{2}$ Miles, then on the east by a plough line bearing north 9° east 102 chains to a lagoon, then by the west side of said lagoon until it meets the plough line, then by said plough line north 32° west 122 chains to the white stone lagoon, then by the east side of that lagoon north-westerly until it meets another plough line bearing north $41\frac{1}{2}^{\circ}$ west 72 chains to the Horse Lagoon, then by the east side of said lagoon 59 chains 40 links to a marked lightwood tree, then by a line bearing east 42° north 780 links to the plough line, then by said plough line bearing north 29° west 103 chains, then by a plough line the general direction of which from end to end is west $33\frac{1}{2}^{\circ}$ north 293 chains, meeting the boundary line of Messrs. Robertson and Skene 1 mile 55 chains from the top of the range, then by the crest of said range north-westerly until it joins the line of marked trees at Major Mitchell's road, bearing west 29° north, then by said line of trees bearing west 29° north from the Major's line to the top of Amphitheatre range, distant about $1\frac{1}{2}$ miles, then along the crest of said range the general bearing of which is westerly for about 2 miles; then west 10° south $1\frac{1}{2}$ miles, then by a marked tree line bearing south 25° west 1 mile or thereabouts until it joins the corner tree at the boundary of Messrs. Donalds and Hamilton's, Mr. Irvine and Mr. A. Campbell; then on the south-west by a line following the range, the general direction of which is south 40° east for a distance of $3\frac{1}{2}$ miles following the head of a gully which runs north-easterly about 1 mile, thence by a line bearing south 20° west $1\frac{1}{2}$ miles, thence by a line bearing south 7° east about $1\frac{1}{2}$ miles, then by a line along the range south $26\frac{1}{2}^{\circ}$ west to a marked tree on the top of the rise at the road distant about

1½ miles, thence by a line the general direction of which is south 30½°; east to Mr. Campbell's corner tree, distant about 1½ miles, then by a line bearing south 10° east ¾ mile to a marked tree at Black and Steel's splitting track, then by a marked tree line bearing east 87 chains, then by east 25° south 46 chains to marked tree head of gully, then east 25° north 2½ miles, then east 18° north 3½ miles, or thereabout, to the commencing point at the top of Mount Ross.

No. 87.

Alexander, John and William Dennis
Name of run—Kerrongeballoort
Estimated area—5,000 acres
Estimated grazing capability—4,000 sheep

Commencing from a salt lake, name unknown, a plough furrow running from thence 4½ miles south, 2½ of which bound Calvert and Bell, 2½ James Austin, from this furrow south-east 27 chains where it joins the furrow of the Aboriginal Mission Station from this place, furrow 5 miles south-east by east Missionaries' boundary, from thence 2½ miles NNW 2 miles west, the 4½ miles being plough furrow, Ayrey's boundary about ½ mile plough line, Calverts where it joins, the salt lake having about 60 chains where it meets the first plough furrow.

No. 88.

Alexander, John and William Dennis.
Name of run—Poliah
Estimated area—7,000 acres
Estimated grazing capability—4,000 sheep

Commencing at the Gnarkeet Ponds, the line being about ½ mile north from Corangamite, thence 2¾ miles east plough furrow, Synott's, thence ¾ mile north Synott's plough furrow, thence ¾ mile east, marked line Blow and Williamson, thence plough furrow of Williamson and Blow, south-east 2¾ miles, from thence 2¾ miles south by east, marked line, one-half being Williamson and Blow's, the other Mr. Thompson's, from this point following the mud flats to the mouth of the Wardy-Yallock, the extent being about 1½ mile the south boundary being Lake Corangamite.

No. 89.

Alexander Donaldson
Name of run—Purdeet
Estimated area—5,120 acres
Estimated grazing capability—900 head of cattle—1,000 sheep

The run lies on the south side of the Mount Rouse Reserve, bounded on the north by it for 4 miles, 2 miles on the west by W. Hutton's station, 4 miles on the south by Mr. Gibb, and 2 miles on the east by Mr. Bell.

No. 90.

Thomas Water Downie
Name of run—Glenfine
Estimated area—31,440 acres
Estimated grazing capability—16,000 sheep

Commencing at a point on the River Wardy Yallock, 2 miles south from the crossing place over the said river, at Langhorne's Inn, and bounded on the north by a line bearing 93° 30' 2 miles 8 chains or thereby dividing from the run of Mindai, occupied by Peter Hardie, on the east by the boundary line to Mc Millan's Creek, thence by a line dividing Glenfine run from the run of Mc Millan and Wilson, thence by a line of boundary with the run of George and David Aitcheson, on the south by a line bearing 27° 2 miles and 50 chains or thereby, and thence by back water of the river Wardy Yallock to the said river, dividing it from the run of George and David Aitcheson, thence by a boundary line with the run of Messrs. Williamson and Blow, on the west by the boundary lines with the runs of C. A. Synnott, Tennant & Lyon, and William Rowe, and on the north by a line bearing 77° 30' 50 chains 20 links, dividing from the run of William Rowe, thence by a fixed boundary line with Peter Hardie to the commencing point.

N.B.—This run has been transferred with the sanction of Government to Thomas Chirnside, in whose name the lease will accordingly be prepared.

No. 91.

J. and A. Dennistoun & Co.
Name of run—Hopkins Hill
Estimated area—98,000 acres
Estimated grazing capability—30,000 sheep

Starting point the plough furrow at the Salt Creek, being 52° south-west of the flat-topped hill, thence by a line of plough furrow north-west 75° 606 chains, bounded by W. Adams, thence by a line of plough furrow, north-west 53° 567 chains, bounded by Payne, thence by a line of plough furrow north-west 12½° 263 chains, bounded by J. F. Palmer, thence by a line south-east 70° 17 chains, thence by a line north-east 20° 186 chains, thence by a line north-east 57° 208 chains, thence by a line of road north-west 10° 80 chains, the last four lines are bounded by Messrs. Gray and Marr, thence by a line of road and plough furrow north-east 17½° 206 chains, bounded by Messrs. Kidd and Hutchison, thence by a line of plough furrow south-east 86° 560 chains, bounded by Messrs. Ewing, Brothers, thence by a line of plough furrow south-west 8½° 185 chains, bounded by H. Gibb, thence by a line of plough furrow south-east 2° 306 chains, bounded by R. Anderson, thence

by a line of plough furrow east 490 chains, bounded by R. Anderson, thence by a line south-west $2^{\circ} 31'$ chains, thence by a line south-east $3\frac{1}{2}^{\circ} 237$ chains, 75 links, the last two lines are bounded by L. Mackinnon, thence by a line north-west $82^{\circ} 120$ chains, thence by a line of plough furrow south-west $65^{\circ} 307$ chains, the last two lines are bounded by J. Webster to the starting point

No. 92.

Robert and Henry De Little
Name of run—Mepunga
Estimated area—8,000 acres
Estimated grazing capability—5,000 sheep

Commencing on the north side of the Wannon about $\frac{1}{2}$ mile below the junction of the Grange, bounded on the south-west by 3 miles north-west along land occupied by W. Thomson and marked by plough furrow, on the westward by 1 mile NNE, and 1 mile north along a road known as White's, by land occupied by Young and Turnbull, on the north by G. M. Eddie, 3 miles running east by south and marked by plough furrow, on the south by the river Wannon, also a piece on the south of the Wannon, bounded on the east by T. Winter, running along north a plough furrow 2 miles, on the south by W. Kippin $2\frac{1}{2}$ miles west by south, and on the north by the Wannon.

No. 93.

Henry Dwyer
Name of run—Victoria Valley Station
Estimated area—25,000 acres
Estimated grazing capability—10,000 sheep

Bounded on the east by the Grampian range, on the west by the Victoria scrub, on the north by an arranged boundary line with Mr. Scott, and on the south by an arranged boundary line with Dr. Martin.

No. 94.

William Dibble and George Egerton
Name of run—Bungall
Estimated area—18,000 acres
Estimated grazing capability—6,000 sheep

Situated on both sides of the western branch of the river, Marabool, and is bounded on the south by John Wallace and Mr. and Mrs. McLeod, on the west by Mr. and Mrs. McLeod, west and north-west by Peter Inglis, north by C. and J. Bradshaw, east by Cowie and Stead. The lines are all marked and determined by mutual agreement.

No. 95.

Dawson and Mitchell
Name of run—Kangatong

Estimated area—30,080 acres
Estimated grazing capability—2,500 head of cattle

From house to tree marked D.M., south 50° east $2\frac{1}{2}$ miles 8 chains, from tree marked D.M., a line runs west 6 miles between, and Le Mann's station, $1\frac{3}{4}$ mile NNW $\frac{1}{2}$ west between, and Campbell, McKnight, and Irvines, $5\frac{1}{2}$ miles north $\frac{1}{2}$ east between, and Carmichael, $2\frac{1}{2}$ miles east between, and Hutton, 1 mile ESE $\frac{1}{2}$ south, 1 mile 24 chains SSE $1\frac{1}{2}$ mile, east 2 miles 8 chains, NNE between and Gibb, 5 miles SSE $\frac{1}{2}$ mile SSW between and Whitehead, $2\frac{1}{2}$ miles south-west by south, to tree marked D.M., between and Smylie and Austin. No natural boundaries.

No. 96.

Duncan and Waldie
Name of run—Wyndholm
Estimated area—18,567 acres
Estimated grazing capability—5000 sheep

Commencing at a point in the Stringy Bark Forest, westward of the river Leigh (Mount Boninyong bearing $163^{\circ} 30'$ distant 7 miles 24 chains) and bounded on the east by a line bearing $360^{\circ} 4$ miles 74 chains, dividing said run from that of Warraneep, occupied by Mr. Peter Inglis, thence by a branch of the river Loddon, general bearing $331^{\circ} 2$ miles, 7 chains, dividing said run partly from that of Peerewerrb, occupied by Mr. Henry Bacchus, and partly from that occupied by Mr. W. J. T. Clarke, thence on the north and west by a line bearing $225^{\circ} 7$ miles, 60 chains, thence by a line general bearing $250^{\circ} 30'$ 1 mile 11 chains 50 links, these last two lines dividing said run from that of Dowling Forest, occupied by Mr. W. J. T. Clarke, thence on the west and south by a line bearing $126^{\circ} 30'$ 1 mile 71 chains, dividing said run from that of Bonshaw, occupied by Mr. John Winter, and on the south by a line general bearing $88^{\circ} 40'$ 6 miles 2 chains to the commencing corner dividing said run from that occupied by Mr. Archibald B. Yuille.

N.B.—This run has been transferred with the sanction of Government to C. Williamson and John Salton, in whose names the lease will accordingly, be prepared.

No. 97.

George Wyndham Elms, and Alexander Dennistone Lang
Name of run—Eneremete
Estimated area—16,000 acres
Estimated grazing capability—600 head of cattle—4000 sheep

Bounded on the west by the Portland Bay road, 8 miles 30 chains, thence by Abraham's Creek to its junction with Darlot's Creek swamp up to the Mound

springs, thence by the line described in the description of Lyne run, thence on the north by a line running in a continuation of that described in the Lyne run as bearing west $10^{\circ} 30'$ north to the great swamp on the Portland road, thence the north edge of the great swamp to the road at the point from which the description starts.

No. 98.

George Wyndham Elms and Alexander Dennistone Lang
Name of run—Lyne
Estimated area—32,000 acres
Estimated grazing capability — 1,200 head of cattle—8000 sheep

Bounded on the south-east by a plough line commencing at a marked gum tree on the river Shaw, 2 miles 5 chains from the home station running 2 miles 5 chains into the Mount Napier stony rises to a gum tree marked on four sides, thence a line running due north 2 miles, thence a line 2 miles 51 chains bearing north 9° west, thence the Grange road to the Violet creek, thence the Violet creek running 18 chains, thence a line running 3 miles 55 chains, bearing west $10^{\circ} 30'$ north, thence a line bearing south 35° west between five and six miles to a marsh, thence a line running into a creek nearest on the last side, thence the creek to its termination at the Mound Springs, from the Mound Springs a line running through the middle of Darlot's creek swamp, first bearing south-west then south, afterwards ENE until it reaches the line of stones coming from Mount Napier between Lyne run and James White's run, thence a line running on the same general bearing between Lyne and Weeraougourt through the middle of the stone gully to a plough furrow beginning at a marked gum tree about 2 miles 10 chains from Lyne, thence the plough furrow to the river Shaw, thence up the Shaw to the starting point.

No. 99.

Peter Ewart
Name of run—Ellengowan
Estimated area—8000 acres
Estimated grazing capability — 1,600 sheep

Bounded on the west by Darlot's creek, about 4 miles on the south by Mr. Learmouth's station about $1\frac{1}{2}$ mile on the east partly by Mr. Bland's station and partly by Crown Land about $3\frac{1}{2}$ miles, and on the north partly by Darlot's creek, and partly by Lake Condam about 3 miles

N.B.—This run has been transferred with the sanction of Government to Mr. William Douglas, in whose name the lease will accordingly be prepared.

No. 100.

John Eddington
Name of run—Ballengeich
Estimated area—17,320 acres
Estimated grazing capability—100 head of cattle—10,000 sheep

Commencing opposite the junction of a small creek named Stony or Spring creek with the river Hopkins, bounded on the east by the river Hopkins bearing southerly 4 miles more or less to a small gully, then by lines bearing north 6° west 2 miles 30 chains to a tea-tree, north 45° west 1 mile 26 chains to a stony rise, north 61° west 1 mile 27 chains to a swamp following the outlet of the swamp to its junction with another small creek, then north 57° west 15 chains west 2 miles 14 chains, north 45° west 1 mile 64 chains, north 2 miles 60 chains to a tea-tree creek following the said creek northerly 1 mile, east 1 mile 44 chains south 1 mile to a marsh, by the outlet of the marsh which becomes a small creek bearing south easterly 6 miles more or less to a bend southerly then by a line east 1 mile 25 chains to the river Hopkins, and by the said river the commencing point 45 chains a little more or less.

No. 101.

David Edgar
Name of run—Fitzroy River
Estimated area—12,800 acres
Estimated grazing capability—400 head of cattle

Bounded on the north by the Fitz Roy river from Mr. Levett's boundary of heath $3\frac{1}{2}$ miles to a line of marked trees on the east being Mr. Saunder's boundary, then by line at right angles from the river to the Portland road, the road to the Surrey river, thence three miles west up Surrey river; then a line running north to the Heath on the Fitzroy river again.

No. 102.

Andrew and William Ewing
Name of run, Tea-tree Creek
Estimated area, 6,400 acres
Estimated grazing capability, 4,000 sheep

Bounded on the north by Wyselaskie's station, on the east by Gibbs, on the south by Dennisons, and on the west by Hutcheson's runs. All the boundaries are determined.

N.B.—This run has been transferred with the sanction of Government to Muirhead and Parker, in whose names the Lease will accordingly be prepared.

No. 103.

Stephen Ewen
Name of run, Marrida-yallock
Estimated area, 17,300 acres
Estimated grazing capability, 2000 head of cattle

Commencing at a point on the Emu creek bearing south 57° east from Mount Noorat, bounded on the north by a line bearing east 2 miles 36 chains to a forest road, following the road SS easterly 3 miles 70 chains from the said road by lines bearing south 2 miles 35 chains south 45° west two miles 75 chains, north 45° east, 4 miles 45 chains to Emu creek, and by Emu creek to the commencing point.

No. 104.

Michael and John Fitzgerald
Name of run—Lake Manania
Estimated area—13,500 acres
Estimated grazing capability—5,000 sheep

Bounded on the north by the stations of John Ross and Messrs. McGill, Ross, and Boyd, being a line bearing east 3 miles 20 chains to a timbered hill, thence by a line bearing south-east 3 miles, bounded by Messrs. Stevens and Thomson, crossing a double-topped hill; on the east by Michael Byrne, being a line bearing south-west $2\frac{1}{2}$ miles; on the south by Mr. Robert Paterson, being a plough line bearing west 5 miles 11 chains; and on the west by Mr. Adams, being a line bearing north 4 miles 11 chains.

No. 105.

George Forbes
Name of run—Moppiananum
Estimated area—30,000 acres
Estimated grazing capability—1,200 head of cattle—9,000 sheep

Commencing from a water-hole on the Wardyallock, about half mile to the south of the homestead in a direction due west for about 2 miles bounding Mr. Gibbs' run, from thence about north 3 miles along a dividing range, from thence about west half mile to a marked tree bounding Mary Linton, from thence skirting the side of a range rounding towards the east for about 3 miles to a marked tree bounding Messrs Russell and Simson; from thence ESE, or thereby about $1\frac{1}{2}$ miles to a marked tree on the Wardy Yallock, from thence about east by north about 2 miles to a marked tree bounding Mr. Smyth; from thence for half mile NNE to the top of a range; from thence ESE about 2 miles to the lower of two water-holes bounding Mr. Winter; from thence 1 point to the west of south for about 5 miles, bounding Mr. Learmonth and Mr. Mercer until it joins Messrs Gibb and Gordon's line; from thence due west to the starting point bounding Messrs Gibb and Gordon.

N.B.—This run has been transferred with the sanction of Government to Messrs Thomas Sprout and John Brown, in whose names the lease will accordingly be prepared.

No. 106.

Claude Farie and George Roger.
Name of run—Merrang
Estimated area—44,910 acres
Estimated grazing capability—1,500 head of cattle—19,000 sheep

Commencing at the junction of the Salt Creek with the River Hopkins by the Salt Creek; south-easterly 30 chains a little more or less to a bend to the northward; thence by lines south 45° east 5 miles 50 chains; south 1 mile 45 chains to a creek, by the said creek to its junction with river Hopkins, by the Hopkins north-easterly 54 chains more or less; west 1 mile 28 chains to a creek by the creek to a marsh in a north-westerly direction, 6 miles more or less from the marsh; north 1 mile west 1 mile 44 chains to a creek, following the said creek northerly 1 mile 8 chains north 2° west 32 chains to a road north 22° $30'$ east, 1 mile 23 chains to a creek, by the creek north-easterly 1 mile 10 chains to its junction with Muston's Creek, from Muston's Creek in the same direction 1 mile 26 chains north 22° $30'$ east 1 mile 64 chains, north 45° east 1 mile 34 chains to the Portland road, by the said road easterly 1 mile 5 chains, south 28° east 2 miles 46 chains, south 3° west 21 chains to a road crossing Muston's Creek, by Muston's Creek easterly 1 mile more or less to its junction with the River Hopkins, and by the River Hopkins to a commencing point.

No. 107.

Claude Farie
Name of run—Merrang
Estimated area—18,860 acres
Estimated grazing capability—12,000 sheep

Commencing at the junction of Muston's Creek with the River Hopkins; on the north by Muston's Creek, bearing westerly from point to point, 1 mile more or less to a road north 3° east 21 chains, north 28° west 2 miles 46 chains to the Portland road, by the said road westerly 1 mile 5 chains south 45° west 1 mile 34 chains, south 22° $30'$ west 1 mile 64 chains south, westerly 1 mile 26 chains more or less to Muston's Creek at the junction with another creek, which it follows in the same direction 1 mile 10 chains south 22° $30'$ west 1 mile 23 chains to a road south 2° east 32 chains to a creek following the said creek southerly 1 mile 8 chains south 1 mile to a swamp, north 66° east 4 miles to the River Hopkins, and by the River Hopkins to the commencing point.

No. 108.

George Roger—Kona Warren
Estimated area—26,050 acres
Estimated grazing capability—1,500 head of cattle—7,000 sheep

Commencing at the junction of the Salt Creek with the River Hopkins, by the Salt Creek south-easterly 30 chains a little more or less to a bend to the northward; thence by lines south 45 east 5 miles 50 chains south, 1 mile 45 chains to a creek, by the said creek to its junction with the River Hopkins, by the Hopkins north-easterly 54 chains more or less, west 1 mile 28 chains to a creek, by the creek to a marsh in a north-westerly direction 6 miles more or less, north 66° east 4 miles to the River Hopkins, and by the River Hopkins to the commencing point.

No. 109.

Compton Gerard Ferrers
Name of run—Wardy Yallock Chain of Ponds

Estimated area—29,156 acres
Estimated grazing capability—16,000 sheep

Bounded on the north by the forest, by a line running from Sim's hut about north-east until it joins Mercer's boundary; thence on the east by Mercer, Cunoingham, and Thomson by lines varying from about south-east to south-west; on the south by Austin's line, running about west by south; on the east by Aitchison and M'Millan, lines varying from about north-west to NNE to Sim's hut.

No. 110.

Grosvenor Francis
Name of run—Bolwarra
Estimated area—30,000 acres
Estimated grazing capability—8,000 sheep

Bounded on the east by the Moora-bool; on the north by impenetrable ranges; on the west by a branch of the Lal-Lal; on the south by a line of marked trees with Messrs Bradshaw and Bacchus's runs.

N.B. This run has been transferred, with the sanction of Government, to Messrs Atkins and Clark in whose names the lease will accordingly be prepared.

No. 111.

Acheson and French
Name of run—Mouivae, formerly Pierre-point

Estimated area—17,280 acres
Estimated grazing capability—5000 sheep

Bounded on the north by the Muddy Creek; on the east by the large swamp between Mount Napier and Mount Rouse for $2\frac{1}{2}$ miles; on the south by an east and west line of marked trees, bounding with Richie from the Big Swamp to the Violet Creek, then the Violet Creek to where it is crossed by the Port Fairy road; thence a line west to a swamp; this latter bounding with Elms, the

Portland road bounding the west side, bounding with Cameron.

No. 112.

Samuel Gorrie and Samuel M'Gregor
Name of run—Eumeralla West
Estimated area—23,680 acres
Estimated grazing capability—1,000 head of cattle—3,000 sheep

Bounded on the east by the Eumeralla River; on the north by the Back Creek, and a marked line with Mr. Cox; on the west by a marked line, a creek, and marked line with Mr. Norris, and a marked line with Mr. Bland, to a water-hole, from thence a marked line with Mr. Bland, running south-east to the swamps outside the stones from ENE along the edge of the stones to the Eumeralla River.

No. 113.

Samuel Gorrie
Name of run—Ardonachie
Estimated area—14,000 acres
Estimated grazing capability—6,000 sheep

Is bounded on the east by a line extending from Mount Eccles along the Ferry Hill to a creek adjoining Mr Norris's run and the Eumeralla Swamp; on the north by a ridge of stones from the Eumeralla river to Mount Eccles; on the south and west by the crest above-mentioned to the stones west of Mount Eccles, from thence by a line through the stones to a water-hole near Lake Condam, from thence along a line running south east to the Eumeralla Swamp.

No. 114.

Samuel M'Gregor
Name of run—Eumeralla West
Estimated area—10,000 acres
Estimated grazing capability—1,000 head of cattle

Is bounded on the east by the Eumeralla river; on the north by the Breakfast Creek and a marked line on Mr Cox's run; on the west by a line along the Ferry Hill; and on the south by a ridge of stones extending from Mount Eccles to the Eumeralla River.

No. 115.

Adolphus Goldsmith
Name of run—Trawallo
Estimated area—40,000 acres
Estimated grazing capability—200 head of cattle—20,000 sheep

Bounded on the east from a point on Black's Lake or Goldsmith's Lagoon, a line bearing 338° 1 mile 10 chains, from thence by line bearing 298° 45 chains, from thence by line bearing 329° 1 mile 30 chains, from thence by line bearing 8° 3 miles 65 chains, these lines divide the run from the station (Mah-

wallock) of Alexander Russell and Co., from thence by line bearing $26^{\circ} 22'$ chains, dividing the run from the station of Alexander Campbell, bounded on the north, from thence by line of marked trees bearing south 10° east $\frac{1}{4}$ mile, from thence by line bearing east 1 mile 7 chains, from thence by line bearing east 25° south 46 chains from thence east 25° north $2\frac{1}{2}$ miles, from thence east 18° north $3\frac{1}{2}$ miles to a marked tree on top of Mount Ross, from thence by line bearing east 9° south 70 chains to the Spring Hill Creek, along the course of said creek in a south-easterly direction for two miles to a clump of tea tree, from thence a plough line runs east $4\frac{1}{2}$ miles; these lines bound the run to the northward, dividing it from Lange Kal Kal, the station of Messrs Donalds and Hamilton, from thence by a line bearing south half east, three miles about, this line bounds the run to the east separating it from the station of Messrs T. and S. Learmouth, from thence a plough line runs west $2\frac{1}{2}$ miles to the Reedy Creek tea-tree, from thence along the bed of the creek in a SSW direction for one mile to the junction tea-tree, these lines bound the run to the southward, separating it from the station (Carngam) of Messrs. Russell and Simson, from thence in a WNW direction along the bed of Spring Hill Creek $1\frac{1}{2}$ mile, from thence a plough line runs in a west direction $1\frac{1}{2}$ miles to the Mount Emu Creek, thence in a west direction a plough about four miles to a clump of trees on the side of the lake opposite to the original point of departure; these lines bound the run to the south, separating it from the station of Messrs. George and John Macredie.

No. 116.

Adolphus Goldsmith
Name of run—St. Helens
Estimated area—25,000 acres
Estimated grazing capability—2000 head of cattle

Bounded on the west by a line beginning on the sea-coast half-a-mile east of the mouth of the river Fitzroy, running north about six miles, dividing said run of St. Helens from that of Messrs. Jamieson, thence by a line running east till it meets a creek called the Back creek distance about six miles, bounding it on the north and dividing it from the station of Thomas Brown, Esq., thence along the bed of the said creek in a southerly direction to a waterhole about $1\frac{1}{2}$ miles from the sea, thence by a line running due south to the sea; the latter two lines about six miles long, bound the run on the east and divide it from that of A Baxter, Esq., the south is bounded by Bass's Straits.

No. 117.

Henry Gibb
Name of Run—Western portion of Peggereet

Estimated area—18,938 acres
Estimated grazing capability—400 head of cattle—7,000 sheep

Commencing at a point on the river Wardy Yallock (the crossing place over said river at Langhorne's public-house, bearing 152° distant 74 chains) and bounded on the south by the bed of a spring falling into the said Wardy Yallock, general bearing $293^{\circ} 30'$, 18 chains 50 links, thence by a line bearing $307^{\circ} 55'$ chains 50 links, thence on the east by a line bearing $184^{\circ} 84'$ chains thence by a line bearing $265^{\circ} 30'$ 17 chains, thence by a line bearing $178^{\circ} 30'$ 66 chains, thence on the south by the bed of a gully on the following bearings, $244^{\circ} 8'$ chains, $288^{\circ} 18'$ chains, $256^{\circ} 30'$ 26 chains, $304^{\circ} 13'$ chains, the lines formed by the last nine bearings dividing said run from that of Mindai occupied by Mr. Peter Hardie, thence by the bed of the said gully, general bearing $313^{\circ} 45'$ 45 chains, thence by a line bearing $288^{\circ} 27'$ chains 60 links, these last two lines dividing said run from that of Naringil occupied by Mr. William Rowe, thence on the west by a line bearing $2^{\circ} 45'$ 45 chains, thence by a line bearing $6^{\circ} 40'$ 39 chains, thence by a line bearing $5^{\circ} 25'$ chains, thence by a line bearing $10^{\circ} 88'$ chains, thence by a line bearing $4^{\circ} 15'$ 11 chains, thence by a line bearing $3^{\circ} 50'$ 88 chains, these last six lines dividing said run from that of Mount Bute, occupied by Mr. Duncan Hoyle, thence on the north by a line bearing $61^{\circ} 130'$ chains to Geerghap Creek, thence crossing the creek by a line bearing $41^{\circ} 56'$ chains, thence by a spur of the Mount Erip Range bearing $7^{\circ} 30'$ 17 chains, thence by the Mount Erip range general bearing $60^{\circ} 68'$ chains, thence by a line bearing $356^{\circ} 147'$ chains, thence by a line bearing $73^{\circ} 129'$ chains, the lines formed by the last six bearings dividing said run from that of Emu hill, occupied by Mrs. Mary Linton, thence by a line bearing $137^{\circ} 161'$ chains to the Wardy Yallock, thence crossing the Wardy Yallock by the bed of a gully bearing $94^{\circ} 30'$ 28 chains, thence by the same gully bearing $106^{\circ} 19'$ chains 75 links, thence by a line bearing $116^{\circ} 107'$ chains, the said line and gully dividing said run from that of Mopiandum, occupied by Mr. George Forbes, thence on the east by a line bearing $219^{\circ} 30'$ 4 miles 75 chains, dividing said run from the eastern portion of said run of Peggereet, now occupied by Mr. Charles Gordon (partner of the firm of Gibb and Gordon, thence on

the south by a line bearing $317^{\circ} 73'$ chains, thence by the bed of a gully falling into the Wardy Yallock, general bearing $259^{\circ} 31' 74$ chains to the said Wardy Yallock, and on the east by the said Wardy Yallock general bearing $175^{\circ} 140$ chains to the commencing point, the last line gully and river dividing said run from that of Mindai, occupied by Mr. Peter Hardie.

No. 118.

Charles Gordon
Name of run—Eastern Portion of Piggereet

Estimated area—14,088 acres
Estimated grazing capability—5,000 sheep

Commencing at a point in the Stringy Bark Ranges to the eastward of the Wardy Yallock, the crossing place over the said Wardy Yallock at Laughorne's public house bearing $214^{\circ} 30'$ distant 7 miles 16 chains; and bounded on the north by a line bearing $116^{\circ} 213$ chains dividing said run from that of Mopiandum occupied by Mr George Forbes; thence on the east by a line general bearing $189^{\circ} 222$ chains to Mount Misery or M'Millan's creek, thence by the said Mount Misery Creek, general bearing $197^{\circ} 207$ chains; thence on the south by a line bearing $291^{\circ} 15' 277$ chains to Illibarook creek; the last two lines and creek dividing said run from those of Deerel and Commeralghip occupied by Messrs M'Millan and Wilson; thence by the said Illibarook Creek, general bearing $313^{\circ} 91$ chains, thence by a line bearing $312^{\circ} 15' 51$ chains 50 links, thence by a line bearing $317^{\circ} 30$ chains; and thence on the west by a line bearing $39^{\circ} 30' 4$ miles 75 chains to the commencing corner; the said Illabarook Creek and last two lines but one dividing said run from that of Mindai, occupied by Mr Peter Hardie, and the last line dividing said run from that of the western portion of Piggereet, occupied by Mr Henry Gibb, partner of the firm of Gibb and Gordon.

No. 119.

Henry Gibb
Name of run—Eilyer Bolac Plains
Estimated area—30,000 acres
Estimated grazing capability—10,000 sheep

Situated upon the Fiery Creek and Salt Creek, near Lake Bolac; bounded on the north by Crown lands held by Robert Patterson and Burns; on the west by Wyselaskie, Ewing, and Denistone; on the south by Robert Anderson; and upon the east by the Crown lands held by John M'Pherson.

No. 120.

Matthew Gibb
Name of run—Patrick's Day

Estimated area—12,000 acres
Estimated grazing capability—6,000 sheep—900 head of cattle

This station is bounded on the west by a line bearing north 4 miles 40 chains along the run of Mr Hutton to the Aboriginal Reserve; on the north by a line bearing east 2 miles 60 chains along the Aboriginal Reserve; on the east by a line bearing 4 miles 20 chains along the run of Edward Bell; on the south by a line bearing south-west 2 miles 20 chains along the run of R. Whitehead, by a line bearing west 1 mile 30 chains along the run of James Dawson, by a line bearing north-west 2 miles 32 chains along the run of James Dawson to the point of commencement.

No. 121.

Frederick Griffin
Name of run—Anakie
Estimated area—36,000 acres
Estimated grazing capability—14,000 sheep

Bounded on the west by a road known as Steiglitz's road running about north 7 miles, forming the boundary with the Clyde Company, and also with the run of Mr. Peter Sharp to a line of marked trees bearing west south-west, thence half way between an outstation at the foot of the Anakie and Mr. C. V. Steiglitz's station, not as yet defined; bounded on the north and the east side by a plough line which divides this run from that of Mr. Simon Staughton, bearing 7 miles east, then 2 miles south the Buinyong road from the southern boundary for a distance of five miles west to a dry creek bearing south, which forms the boundary with the Messrs Synott and Messrs Bates's runs for a distance of miles to a plough line bearing about west a distance of 7 miles to the road first mentioned.

No. 122.

Griffin and Craigs
Name of run—Grange Burn Station
Estimated area—26,500 acres
Estimated grazing capability—700 head of cattle—10,000 sheep

From Grange Boundary with Captain Lonsdale $2\frac{1}{2}$ miles north along a plough furrow; thence $1\frac{1}{2}$ miles north-east along plough furrow, thence half mile west by north along Messrs Mercer and Lockhart's boundary, thence 2 miles west to a swamp on the road from the Grange to the Wannoon, thence to Mount Bambridge $1\frac{1}{2}$ miles, thence nearly west to marked tree half mile, thence $5\frac{1}{2}$ miles south-west along plough furrow, the boundary with Mr. Kippin till it joins the Grange, thence down the Grange to junction with Muddy Creek, from junction up the Muddy Creek to where a gully joins it from the neighbourhood

of Mount Perrepoint, thence up the gully to a point where the boundary line with Captain Lonsdale enters the gully, thence due north to Grange, a plough furrow running part of the way.

No. 123.

G. S. Griffin

Name of run—Portion of Grange Burn, No. 1

Estimated area—14,000 acres

Estimated grazing capability—400 head of cattle—6,000 sheep

Beginning at the Grange by a plough line running south about $1\frac{1}{4}$ mile, thence down a gully to the Muddy Creek, bounded by Captain Lonsdale, from that by the Muddy Creek north-westerly to its junction with the Grange, bounded by French & Cameron, thence up the Grange to commencing point.

No. 124.

G. N. & D. B. Craig (per J. S. Griffin)
Name of run—Portion No. 2 of the Grange Burn

Estimated area—12,500 acres

Estimated grazing capability—300 head of cattle—4000 sheep

Divided from Captain Lonsdale's run by a plough line from the Grange, running north about $2\frac{1}{2}$ miles and north-east about 1 mile, thence 4 miles along Lockhart's boundary to the top of Mount Bambridge, thence along a plough line to the junction of the Grange and Muddy Creek, dividing it from Kippins' run and up the Grange to commencing point.

No. 125.

Charles Gray and John Marr

Name of run—Green Hill Creek

Estimated area—42,376 acres

Estimated grazing capability—15,000 sheep

Boundaries starting point, a tree marked by Captain Fyans on the north point of the She-Oak Hill, thence a line north-west $30\frac{1}{2}^\circ$ 266 chains, thence a line north 100 chains, thence a line north-west 39° 104 chains, the above three lines are bounded by A. Scales, thence by a line of plough furrow north-east $20\frac{1}{2}^\circ$ 287 chains, thence a line west 160 chains, thence a line north 255 chains, the last three lines are bounded by Messrs. D. & D. C. Kennedy, thence a line on road south-east $81\frac{1}{2}^\circ$ 296 chains, bounded by Doctor Martin, thence a line on road north-east 69° 15 chains, bounded by Thomas Wardy, thence a line south-east 49° 190 chains, thence a line south-east 32° 162 chains, thence a line south-west 45° 60 chains, thence a line south-east 4° 100 chains, thence a line south-west 16° 62 chains, thence a line south-east 35° 160 chains, thence a line of creek south-east $70\frac{1}{2}^\circ$ 242 chains, the last seven lines are

bounded by Messrs. Kidd and Hutchison thence a line on road south-east 10° 10 chains, thence a line south-west 57° 208 chains, thence a line south-west 23° 186 chains, thence a line north-west 70° 17 chains, the last four lines are bounded by Messrs. Denningstone, thence a line north-east 30° 10 chains, thence a line north-west 56° 168 chains, thence a line north-west 75° 180 chains, the last three lines are bounded by J. F. Palmer to the starting point

No. 126.

James Graham and Francis McCrae, Cobham

Name of run—Falls of the Hopkins

Estimated area—12,162 acres

Estimated grazing capability—1200 head of cattle

Bounded on the south by the run of Strong and Foster, being a fence bearing east by south from the Merri River, about $4\frac{1}{4}$ miles to Lake Wangoom by the north side of that lake by a fence, and by that fence to the Hopkins River, on the east by the Hopkins River, on the north by the run of John Saunders, being a straight line bearing about west $\frac{1}{2}$ south about 5 miles to the Merri Creek and on the west by the Merri Creek to its junction with the Merri River, and by that river to the point of commencement.

No. 127.

John Good

Name of run—Jujemira

Estimated area—7,680 acres

Estimated grazing capability—600 head of cattle

Bounded by Spring Creek for 240 chains, the creek bearing north-west, from thence to a marked tree by a line 30° east of north 400 chains in length, from thence to a marked tree by a line running south-east for 200 chains, from thence to Spring Creek by a line running 25° west of south for 400 chains

No. 128.

William Harding

Name of run—Mount Hesse Station

Estimated area—45,877 acres

Estimated grazing capability—20,000 sheep

From near Mount Gellibrand a line bearing $81^\circ 20'$ south-west, from south-west point a line bearing 63° south-west, from south-west point a line bearing 81° north-east, from north-east point 4° north-west, from north-west point a line bearing 11° north-west, from north-west point a line bearing $19^\circ 30'$ north-west, from north-west point a line bearing 60° north-east, from north-east point a line bearing 17° north-east, from north-east

point a line bearing 37° north-west, from north-west point a line bearing 74° north-west, from north-west point a line bearing $45^{\circ} 20'$ north-east, from north-east point a line bearing 33° south-east from south-east point, a line bearing 55° south-east, from south-east point, a line bearing 60° south-east from south-east point a line bearing 80° south-east, from south-east point a line bearing $53^{\circ} 30'$ north-east, from north-east point a line bearing 72° north-east, from north-east point a line bearing 73° south-east, from south-east point a line bearing $17^{\circ} 20'$ south-west from south-west point a line bearing 3° south-west, from south-west point a line by a dry creek bearing 1° south-east, from south-east point by Salt Lake bearing 21° south-west, from south-west point a line bearing 76° south-west, from south-west point a line bearing $61^{\circ} 40'$ south-west on dry creek, from south-west point a line bearing $41^{\circ} 30'$ north-west on dry creek, from north-west point a line bearing 17° south-west to near Mount Gellibrand.

No. 129.

Peter Hutchison and James Kidd
Name of run—Bushby Creek
Estimated area—37,425 acres
Estimated grazing capability—15,000 sheep

Situated on the Hopkins River, starting from a tree on the creek at the junction of the boundary with Messrs Gray and Marr, and Messrs Dennistone, thence a line of road and plough furrow north-east $17\frac{1}{2}^{\circ}$ 206 chains; bounded by Messrs Dennistone; thence a line north-west 84° 17 chains, thence a line north-west 8° 63 chains, thence a line north-east 40° 72 chains; the last three lines are bounded by W. and A. Ewing; thence a line north-west $25\frac{1}{2}^{\circ}$ 63 chains, thence a line north-west $46\frac{1}{2}^{\circ}$ 82 chains; thence a line north-east $15\frac{1}{2}^{\circ}$ 163 chains, thence a line north-east 49° 247 chains; thence a line north-west 44° 161 chains, thence a line north-west $53\frac{1}{2}^{\circ}$ 118 chains; the last six lines are bounded by J. D. Wyselaskie; thence a line north-west $53\frac{1}{2}^{\circ}$ 118 chains, thence a line north-west 80° 81 chains; the last two lines are bounded by R. Adams; thence a line south 175 chains, thence a line west $227\frac{1}{2}$ chains, thence a line south-west $22\frac{1}{2}^{\circ}$ 235 chains, thence a line north-west 87° 110 chains; the last four lines are bounded by T. Hardie; thence a line south-east 49° 190 chains, thence a line south-east 32° 162 chains, thence a line south-west 45° 60 chains, thence a line south-east 4° 100 chains, thence a line south-west 16° 62 chains, thence a line south-east 35° 160 chains, thence a line south-east $70\frac{1}{2}^{\circ}$ 242 chains; the

last seven lines are bounded by Messrs Gray and Marr to the starting point.

No. 130.

Francis Henty
Name of run—Merino Downs
Estimated Area—23,500 acres
Estimated grazing capability—200 head of cattle, 16,000 sheep

Is bounded on the NNE and NW by the river Wannon, on the west and south-west by Dwyer's Creek to its source, thence by a straight line running three miles to a gum-tree marked on four sides bearing ESE, thence by a plough line bearing ENE five miles, thence south-east one mile, thence by a plough furrow ENE $1\frac{1}{4}$ miles, thence by a plough furrow bearing north to the tea-tree three miles, thence by a straight line running between the two southernmost hills called the Sisters, bearing north-west by north $1\frac{1}{4}$ miles to a ploughed furrow running to the Wannon, and bearing north by east three-quarters of a mile.

No. 131.

Edward Henty
Name of run—Connell's Run
Estimated area, 17,500 acres
Estimated grazing capability—750 head of cattle, or 7000 sheep

Bounded on the east by the river Wannon, commencing at the junction of Dwyer's Creek, and running to a plough line on the said river, and distant four miles; on the north by a line running north-west from the said point to a spring and a ploughed line distant $5\frac{1}{2}$ miles, on the west and north-west from the same spring, continuing ploughed line to river Geneig, and from there to its junction with the river Wannon, on the south by the river Wannon, from its junction with the Geneig to the junction of Dwyer's Creek.

No. 132.

Edward Henty
Name of run—Muntham
Estimated area—57,300 acres
Estimated grazing capability—3000 head of cattle—20,000 sheep

Bounded on the south by the northern boundary line of Connell's run to the river Wannon, and from thence by the said river to its junction with the Koroite Rivulet, to its junction with Spring Creek, on the east by a line running from the said junction bearing NNE four miles, and by a line bearing NNE, distance $5\frac{1}{2}$ miles to Watson's road, on the north by said road from the terminus of the eastern boundary line, to water-hole at the head of Turkey-bottom creek on said road, on the west by Turkey-bottom creek from the water hole, the terminus of the northern boundary line, to a flat on the said creek, distant nine miles, and from thence by a plough

furrow from same point to a spring on the junction of boundary line with Connell's run:

No. 133.

Colin Hunter
Name of run—Mount Eckersley
Estimated area—794 acres
Estimated grazing capability—40 head of cattle

Commences at a water hole in the Sunday creek, opposite the wool shed of John Barclay, and runs from thence along the Sunday creek in a direction north-west by north 80 chains, then leaving the Sunday creek, it runs towards the old line of road to the river Crawford south-west by west 66 chains, then along the said road to the north-east corner of grain paddock, in the occupation of Donald Cameron, south by west 61 chains, from thence to the commencement of a gully, agreed on as a boundary with John Bell, south-east by south 41 chains, then along the said gully as far as it extends, and continuing in a course north-east by east 112 chains to the water-hole, at which it commences.

No. 134.

William Hamilton
Name of run—Yallock
Estimated area—40,000 acres
Estimated grazing capability—3000 head of cattle

Bounded on the east and south by the Emu creek, on the south-west by Mr. Nicholson, on the west by Mr. Hoyle, on the north by Messrs. Black, Thomson and Black, watered by the Emu creek, low flat country, scrubby and heavily timbered.

N.B. This run has been transferred, with the sanction of Government, to James Brown, in whose name the Lease will accordingly be prepared.

No. 135.

Duncan Hoyle
Name of run—Buckley's Creek
Estimated area—70,000 acres
Estimated grazing capability—5000 sheep

Bounded on the north by forest, on the east by Port Campbell Creek, and the land occupied by Brown, on the south by the sea-coast, on the west by a creek, and the land occupied by the Messrs. Allans' run, extending along the coast about 22 miles, and some portions of it about six miles inland.

No. 136.

Duncan Hoyle
Name of run—Mount Bute
Estimated area—38,000 acres
Estimated grazing capability—100 head of cattle—15,000 sheep

Commencing at a point on the Mount Emu creek (Mount Emu) bearing 353° distant five miles 44 chains, and bounded on the west by a natural ditch, bearing

from point to point 135° 30' 22 chains, 50 links, thence by a line bearing 151° 1 mile 71 chains, 50 links, thence by a line bearing 251° three miles 13 chains, thence by a line bearing 203° 30' 1 mile 30 chains, the said ditch and last three lines dividing said run of Mount Bute from that of Bamganie, occupied by Wright and Montgomerie, thence by a line bearing 139° 4 miles 26 chains, thence by a line bearing 180° 71 chains, these last two lines dividing said run of Mount Bute from that of Borriyallock occupied by Henry Anderson, thence by a continuation of the last line 1 mile 29 chains, dividing said run of Mount Bute from that of Gnarkeet, occupied by Tennent and Lyon, thence on the south by a line bearing 112° 2 miles 52 chains dividing said run of Mount Bute from that of Gnarkeet aforesaid, thence on the east by a line bearing 47° 20' 1 mile 64 chains to the Naringal creek, thence crossing the said creek by a continuation of the last line, 1 mile 21 chains, thence by a line bearing 2° 45' 50 chains, these last three lines dividing said run of Mount Bute from that of Naringal, occupied by William Rowe, thence by a continuation of the last line 45 chains, thence by a line bearing 6° 40' 39 chains, thence by a line bearing 5° 25 chains, thence by a line bearing 10° 88 chains, thence by a line bearing 4° 15' 11 chains, thence by a line bearing 3° 50' 88 chains, these last six lines dividing said run of Mount Bute from that of Piggereet, occupied by Gibb and Gordon, thence by a line bearing 2° 1 mile 9 chains to the centre of Mount Stuart, thence by the range dividing the waters of the Naringal creek from those falling into the Wardy Yallock, bearing from point to point of same 230° 4 miles 50 chains, thence by a gully falling into the Mount Emu Creek, bearing 297° 30' 42 chains, the said gully, mountain range and last line dividing the said run of Mount Bute from that of Emu Hill, occupied by Mary Linton, and thence on the north by the continuation of the said gully bearing 297° 30' 1 mile 13 chains to the Mount Emu Creek and thence by the said Mount Emu Creek, bearing 229° 2 miles 26 chains 50 links to the commencing point dividing said run of Mount Bute from that of Mount Emu occupied by Thomsons and Cunningham.

No. 137.

Duncan Hoyle
Name of run—Hopkins
Estimated area—25,000 acres
Estimated grazing capability—1800 head of cattle

Bounded on the north by the lands occupied by John Eddington and —John-

ston on the east by Neil Black and Co., and a chain of marshes called Chisholm's marshes, on the south by Nicholson and Hamilton, on the west by Saunders and Manifold.

No. 138.

John Hastie

Name of run—Purnpundhal Lake, Corrangamite

Estimated area—22,956 acres

Estimated grazing capability—12,000 sheep

Bounded on the extreme north-east by the run in the occupation of Dennis, Brothers, commencing at a point on the big Corrangamite Lake, and bearing north 5° west through the centre of a chain of water holes 29 chains, again on the north-east by the run occupied by Oliphant and Robertson, bearing south-westerly to the little Corrangamite Lake, 1 mile 15 chains, and by the little Corrangamite Lake to a rising ground in the occupation of Oliphant and Robertson, bearing south 34° west 24 chains, and by a plough furrow drawn in the direction of the highest point of the south Cloven Hill, bearing westward about 6 miles 39 chains to the centre of a certain fresh water marsh where Messrs. Currie and Anderson's run joins that of Messrs. Oliphant and Robertson and by Currie and Anderson's run bearing in the same direction 38 chains, again by the run occupied by J. G. Ware, bearing south 28° east, and passing through the centre of a small salt water basin 3 miles 78 chains, again by the Corio Road bearing westerly 20 $\frac{1}{2}$ chains, again by the run occupied by Manifold, Brothers, bearing south 72° east 3 miles 72 chains, and bearing north 51° east 20 chains to the big Corrangamite Lake 18 chains to the eastward of a certain fresh water spring, and by the big Corrangamite Lake to the commencing point.

No. 139.

Matthew Hall

Name of run—Stony Point.

Estimated area—15,573 acres

Estimated grazing capability—5000 sheep

Bounded on the north by Port Fairy Road bearing south-west by west running 5 miles, thence by a line due north 2 miles, thence by a line 4 miles 30 chains, bearing due west, on the west by a plough furrow $4\frac{1}{4}$ miles, bearing due south, on the south by the Port Fairy Road, bearing north-east by east $4\frac{1}{4}$ miles, thence by a line bearing due east 2 miles 30 chains, thence by Tea Tree Creek and part of Emu Creek, bearing south-east on the east by Spring Creek, bearing north-east running about 3 $\frac{1}{2}$ miles, thence by a line due north 1 mile

11 chains, thence by a line due west 2 miles 5 chains, thence by Emu Creek, bearing north $1\frac{1}{2}$ mile at the crossing place of the Port Fairy Road. Plains tending rather to barrenness, watered by Emu Creek crossing the run in a northerly direction.

No. 140.

William Hutton

Name of run—Gazette

Estimated area—21,760 acres

Estimated grazing capability—200 head of cattle—14,000 sheep

From home station SSE $\frac{1}{2}$ south $6\frac{1}{4}$ miles to a tree marked C. H. D., thence a line bearing north-west $\frac{1}{2}$ west 6 miles long between and William Carmichael, 3 miles 9 chains north by east between and Brown, 4 miles 12 chains north east between and Buckley, $5\frac{1}{2}$ miles south between and Mount Rouse Reserve, $4\frac{1}{2}$ miles east between and Mount Rouse Reserve, $4\frac{1}{2}$ miles south between and Matthew Gibb, $2\frac{1}{2}$ miles west to tree marked C. H. D. between and Dawson and Mitchell.

No. 141.

Charles Hutton

Name of run—East Strathdownie

Estimated area—39,324 acres

Estimated grazing capability—1200 head of cattle

Commencing at a point on the west bank of the Glenelg, half a mile below the junction of the Limestone Creek (marked in Pickering's chart as the running creek), thence a line bearing west 42° 17' north (through heath) to the junction of a small dry creek with the Limestone Creek 120 chains, thence up the Limestone Creek westerly (through heath) to Monro's Road to Portland 136 chains, thence the margin of the plains of heath to the head of Scott's Creek, thence by a grassy water course, bearing north-westerly to a large swamp 96 chains, thence by a line of marked trees bearing west to Bates' road to Portland 150 chains, thence said road bearing nearly south-east 10 chains, thence marked trees bearing south 42° west 8 chains, thence by a water course bearing WSW 36 chains, the above being the boundaries with Mr. Beilby, from thence marked trees bearing north to Bates' road 80 chains, thence said road north-westerly 40 chains to a marked cherry tree, thence a line north through a long swamp 198 chains, forming boundaries with Messrs. Edward and Duncan Macallum, thence by the east side of a long irregular morass to a creek assumed to be about north-east from a tree on the opposite side marked as the commencement of a north-east line of boundary with Messrs. Bates, thence said boundary by marked trees bearing

north-east 376 chains, thence by the south side of a small swamp 19 chains, thence by the top of a stringy bark range bearing easterly 91 chains, thence by a line of marked trees bearing east 13° north 80 chains, to the source of the Sunday Creek, thence said creek to its junction with the Glenelg 270 chains, forming the boundaries with Messrs. McIntyre & Co., and Mr. John McPherson, thence the Glenelg to the starting point is the boundary with Messrs. Miller and Tulloch.

No. 142.

John Highett
Name of run—Hesse Mount Station
Estimated area—22,214 acres
Estimated grazing capability—600 head of cattle, or 6000 sheep

Bounded on the Barwon River bearing 21° south-east from the south-east point, a line bearing 84° south-west from south-west point, a line bearing 10° south-west from south-west point, a line bearing 31° south-east from south-east point, a line bearing 67° north-west from north west point, a line bearing 21° south-west from south-west point, a line bearing 41° north-west from north-west point, a line bearing 66° south-west from south-west point, a line bearing 42° north-west from north-west point, a line bearing 27° north-west from north-west point, a line bearing 81° south-west from south-west point, a line bearing 17° north-east from north-east point, by a dry creek bearing south-east $40^{\circ} 30'$ from south-east point, by a dry creek bearing 61° north-east from north-east point, a line bearing 76° north-east from north-east point by Hesse Mount Lake, bearing 21° north-east from north-east point, by a dry creek, bearing 1° north-east from north-east point, a line bearing south-east 3° from south-east point, a line bearing north-east $17^{\circ} 20'$ from north-east point, a line bearing $73^{\circ} 30'$ south-east to the river Barwon.

No. 143.

John, George, and David Hutchison
Name of run—Runnymede
Estimated area—16,000 acres
Estimated grazing capability—50 head of cattle—4,000 sheep

Commencing at a point where Bushel's Creek joins the Glenelg and bounded on the north by the Glenelg River, bearing south westerly 290 chains, thence by the Glenelg River, bearing westerly $5\frac{1}{2}$ miles, dividing it from land occupied by J. Mc Pherson, on the south-west by a creek and line of marked trees bearing south-east 286 chains, dividing it from land occupied by H. Miller, on the south by a line bearing east 266 chains, dividing it from land formerly occupied

by W. and H. Robertson, on the south-east by a line of marked trees bearing east 41° north 350 chains, dividing it from land formerly occupied by W. and H. Robertson, and a portion of S. and W. Jackson's run, and on the north-east by Bushel's creek, bearing north-westerly 218 chains to the commencing point, dividing it from S. and W. Jackson's station.

No. 144.

Benjamin Heape and T. J. Sumner
Name of run—Yatnat
Estimated area—64,000 acres
Estimated grazing capability—15,000 sheep

Commencing at the south-east corner of the run, and bounded on the east by D. C. Simson, by a line northerly to the southern point of the black range about 2 miles, following the black range northerly about 2 miles, on the north by Mr. Officer, being a line from the black range to the Glenelg river in a W. S. W. direction, about 6 miles, crossing to the opposite bank, on the west by Armytage, being a line south-easterly about 14 miles, and on the south by Airey and Urquhart, being a line south-easterly about 3 miles to a creek, by this creek to the Glenelg, and by the Glenelg upwards to the commencing point.

N.B. This run has been transferred with the sanction of Government to Sherrot and Betts, in whose names the lease will accordingly be prepared.

No. 145.

Thomas K. Hardie
Name of run—Pollockdale
Estimated area—16,000 acres
Estimated grazing capability—7000 sheep

Bounded on the north by the station of Messrs Muirhead and Parker, being a line bearing east 3 miles 4 chains, from thence by a line bearing north 1 mile, (bounded by same parties,) from thence by a line bearing east by north $1\frac{1}{2}$ miles, bounded by the station of Messrs Chirnside; on the east by a line bearing SE by $S\frac{3}{4}$ mile, (bounded by Messrs Chirnside,) from thence by a line bearing west $\frac{3}{4}$ mile, from thence by a line bearing south by east 2 miles 4 chains, from thence by a line bearing east by north $\frac{1}{2}$ mile 3 chains, bounded by Mr Adam's station, from thence by a line bearing south 2 miles 15 chains, bounded by the station of Mess Hutcherson and Kidd; on the south by a line bearing west $2\frac{3}{4}$ miles 7 chains, from thence by a line bearing SSW $2\frac{3}{4}$ miles 15 chains, (bounded by Messrs Hutcherson and Kidd,) from thence by the Portland road, being a line bearing west $1\frac{1}{2}$ miles; and on the west by the station of Doctor Martin, being a line bearing north 6 miles to commencing

point. Mount Stavely is 6 miles from home station bearing east by south.

No. 146.

Peter Hardie

Name of run—Mindi

Estimated area—10,024 acres

Estimated grazing capability—5000 sheep

Commencing at a point on the River Wardy Yallock 2 miles 30 chains south from the crossing place over said river at Langhorne's public house, and bounded on the south by a line bearing $93^{\circ} 30'$ 2 miles 8 chains, dividing said run from that occupied by Mr. Thomas W. Downie, thence on the east by a line bearing $398^{\circ} 15'$ 1 mile 4 chains, thence by a line bearing $352^{\circ} 30'$ 15 chains to the Geelong road, thence by a line bearing $354^{\circ} 40'$ chains, thence by a line bearing $1^{\circ} 1'$ 17 chains, thence by a line bearing $68^{\circ} 43'$ chains to the Illebarook creek, these last five lines dividing said run from that occupied by Messrs M'Millan and Wilson, thence again on the east by the said Illebarook creek bearing from point to point of same $313^{\circ} 1'$ 11 chains, thence on the east and north by a line bearing $312^{\circ} 16'$ 51 chains, thence by a line bearing $317^{\circ} 1'$ 23 chains, thence by a gully leading into the River Wardy Yallock bearing from point to point $259^{\circ} 30'$ 74 chains, thence on the west by the said river Wardy Yallock general bearing from point to point of same $175^{\circ} 1'$ 60 chains, thence by the bed of a spring falling into the said Wardy Yallock bearing from point to point of same $293^{\circ} 30'$ 18 chains 50 links, thence by a line bearing $307^{\circ} 55'$ 50 links, thence by a line bearing $184^{\circ} 84'$ chains, thence by a line bearing $265^{\circ} 30'$ 17 chains, thence by a line bearing $178^{\circ} 30'$ 66 chains, thence by the bed of a gully bearing $244^{\circ} 8'$ chains, $288^{\circ} 18'$ chains, $256^{\circ} 30'$ 26 chains, and $304^{\circ} 13'$ chains, these lines formed by the last fourteen bearings dividing said run from that occupied by Messrs. Gibb and Gordon, thence by a line bearing $285^{\circ} 40'$ 58 chains, 50 links, thence by a line bearing $185^{\circ} 15'$ 15 chains, 90 links, thence by a line bearing $136^{\circ} 2'$ 2 miles, 38 chains, to the centre of the Western Wallinduc Hill, these last three lines dividing said run from that occupied by Mr. William Rowe, and thence on the south by a line bearing $89^{\circ} 1'$ mile, 6 chains, 70 links, to the centre of the Eastern Wallinduc Hill, and thence by a line bearing $93^{\circ} 30'$ 43 chains to the commencing point on the River Wardy Yallock, these last 5 lines dividing said run from that occupied by Mr. Thomas W. Downie.

No. 147.

Peter Inglis

Name of run—Warraneep

Estimated area—27,339 acres

Estimated grazing capability—1500 head of cattle—2,000 sheep

Commencing at a point in the Buninyong stringy bark forest, Buninyong bearing 120° distant 2 miles 25 chains, and bounded on the west by a line bearing $354^{\circ} 30'$ 5 miles 24 chains, thence by a line bearing $338^{\circ} 40'$ 11 chains 50 links, to the River Leigh, thence by the River Leigh general bearing $46^{\circ} 47'$ chains, thence by a line bearing $276^{\circ} 30'$ 7 chains, the said river Leigh and last four lines dividing said run from that occupied by Mr. Archibald Yuille, thence by a line bearing $360^{\circ} 4'$ 4 miles 64 chains to one of the branches of the River Lodden dividing said run from that occupied by Mr. Thomas Waldie, thence on the north and east by the said branch of the river Lodden bearing $79^{\circ} 7'$ chains to the junction of the T. C. creek, thence by the said T. C. creek, general bearing $134^{\circ} 1'$ mile 70 chains, thence by a line general bearing $138^{\circ} 50'$ 1 mile 47 chains, thence by a line bearing $155^{\circ} 3'$ 62 chains, thence by a line general bearing $137^{\circ} 2'$ 2 miles 50 chains, to the Lal Lal Creek, thence by the bed of the said Lal Lal Creek same general bearing as above 1 mile, the lines formed by the last six bearings dividing said run from that of Peerewherr occupied by Mr. Henry Bacchus, thence by the said Lal Lal Creek general bearing $184^{\circ} 77'$ chains, thence by a line bearing $233^{\circ} 2'$ 2 miles 41 chains, the said Lal Lal Creek and last line dividing said run from that of Lal Lal occupied by the said Mr. Peter Inglis, and on the south by a general bearing $283^{\circ} 40'$ 2 miles 15 chains, and thence by a line general bearing $267^{\circ} 30'$ 2 miles 6 chains, to the commencing corner, these last two lines, dividing said run from that occupied by Mr. Andrew Scott.

No. 143.

Peter Inglis

Name of run—Lal Lal

Estimated area—18,313 acres

Estimated grazing capability—1500 head of cattle

Commencing at a point in the stringy bark ranges east of Williamson's Creek, (Buninyong bearing 297° distant 4 miles 4 chains) and bounded on the south by a line bearing $105^{\circ} 30'$ 3 miles 2 chains to the range dividing the waters of the Lal Lal from those falling into Williamson's Creek, dividing said run from that of Narmbool, occupied by Mr. Hector Norman Simson & Co., thence by a line general bearing 19°

39 chains dividing said run from that of Borhonyghurk occupied by Mr. John Norman McLeod, thence by a line bearing 45° 1 mile 24 chains, thence on the east by the summit of the Lal Lal range general bearing 345° 30' 1 mile 33 chains to the Lal Lal rivulet, thence crossing the Lal Lal by a spur of the table land general bearing 21° 30' 64 chains to the brink of the table land, thence by the said brink of the table land general bearing 54° 45' 60 chains to the Wooleen Creek, thence by the said Wooleen Creek general bearing 357° 30' 2 miles 60 chains, thence by a continuation of the same creek general bearing 62° 30' 54 chains; the lines formed by the last six bearings dividing said run from that occupied by Mr. George Egerlon, thence by a line bearing 324° 54' chains to the road leading to Hepburn and Birch's stations, thence on the north by the said road bearing from point to point 283° 30' 1 mile 65 chains to Kohgartnein Creek, the said road and last line dividing said run from that occupied by Messrs. Charles and Joseph Bradshaw, thence by the said Kohgartnein Creek, bearing from point to point of same 222° 1 mile 27 chains, thence by a line general bearing 232° 30' 1 mile 42 chains to the Lal Lal Creek, the said Kohgartnein Creek and last line dividing said run from that of Peerewherr occupied by Mr. Henry Bacchus, thence by said Lal Lal Creek general bearing 184° 77 chains, thence by a line bearing 233° 2 miles 41 chains, the said Lal Lal creek and last line dividing said run from that of Waraneep occupied by the said Mr. Peter Inglis, and on the west by a line bearing 157° 30' 1 mile 38 chains 20 links to the road leading from Bunyong towards Melbourne, and thence by a line bearing 147° 1 mile 41 chains to the commencing corner; these last two lines dividing said run from that of Mr. Andrew Scott.

No. 149.

Peter Inglis
Name of run—Inglis late Campbell
and Wilson's run
Estimated area—14,440 acres
Estimated grazing capability—8,000
sheep

Commencing at a point on the western branch of the Werribee River, (Mount Blackwood or Myrauyong bearing 62° 10' distant 7 miles 44 chains, and bounded on the west by a line bearing 175° 25' 1 mile 69 chains, thence by a line bearing 237° 15' 28 chains, thence by a line bearing 274° 10' 39 chains, these last three lines dividing said run from that of Ballan, occupied by Mr. Robert Steiglitz, thence by the road leading from Ballan towards Geelong,

general bearing 186° 30' 1 mile 53 chains 50 links, dividing said run partly from that occupied by Mr. William Patterson, and partly from that occupied by Messrs. Cowie and Stead, thence on the south by a line bearing 135° 1 mile 46 chains, thence by a line bearing 98° 30' 59 chains, these last two lines dividing said run from that occupied by Messrs. Cowie and Stead, thence by a line 57° 41 chains 50 links to the brink of the table land around the tributaries of Pah Creek, thence by the brink of the said table land on the following general bearings 57° 16 chains, 35° 70' 49 chains, 81° 40' 5 chains, 143° 44 chains, 103° 31 chains, thence across the valley of the said Pah creek by the following bearings, 103° 35 chains 50 links to the bed of the Pah creek 86° 46 chains to the brink of the table land, thence by the brink of the said table land general bearing 99° 81' chains, thence by a dray track, descending the table land towards Mr. C. E. Labilliere's station, general bearing 173° 30' 19 chains, the line formed by the last ten bearings dividing said run from that occupied by Mr. C. E. Labilliere, thence by a line general bearing 66° 30' 1 mile 13 chains to the foot of the stringy bark ranges at the north-west angle of the parish of Gorrockburghap, thence by a line bearing 50° 35' 2 miles 24 chains to the river Werribee, these last two lines dividing said run from that occupied by Messrs. Moore and Griffiths, thence on the east and north by the said river Werribee on the following bearings 301° 1 mile 36 chains, dividing said run from that occupied by Messrs. Goodman and Chenery 297° 30' 1 mile 50 chains to the junction of the eastern branch of the said river dividing said run from that occupied by Mr. Charles M. Exchlan 291° 30' 4 miles 17 chains dividing said run from that occupied by Mr. J. H. Pyke, and 257° 30' 51 chains to the commencing point, dividing said run from that occupied by Mr. John Steiglitz.

No. 150.

Robert and William Jamieson
Name of run—Castle Maddie
Estimated area—7000 acres
Estimated grazing capability—500 head
of cattle

Bounded on the north by a creek running about north-east, and known as boundary creek, and by a line starting from a marked tree at the head of boundary creek, running north 75° east, by the run of William Learmouth Esq., and an unclaimed heath, on the east by a line running north from a point $\frac{1}{4}$ mile east of the mouth of the river Fitz Roy, by the run of Adolphus Goldsmith, Esq., on the south by that portion of Castle Maddie run included in the settled dis-

tricts, it being within three miles of the coast, on the west by Darlot's creek, opposite the run of Mr. John Bell; each of the four boundaries being about $3\frac{1}{2}$ miles in length.

N.B.—This run has been transferred with the sanction of Government to Andrew Vernon Suter, in whose name the lease will accordingly be prepared.

No. 151.

John Johnston
Name of run—Liberton Bank
Estimated area—2,350 acres
Estimated grazing capability—2000 sheep

Stony rises and marshes lightly timbered; bounded on the west side by the Hopkins river, on the north side by Neil Black's plough furrow, on the east side by Neil Black's marked trees, on the south side by Duncan Hoyle's marked trees.

No. 152.

Samuel and William Jackson
Name of run—Sandford
Estimated area—15,700 acres
Estimated grazing capability—1000 head of cattle, or 3000 sheep

Commencing at that point where the Wannoon river joins or falls into the Glenelg river, bearing south along the bank of Glenelg, about two miles, bounded by the run occupied by Mr. M'Pherson, thence south-east to a forest road about $\frac{1}{2}$ mile, again by the said forest road to a stringy-bark tree (marked) bearing southerly, and bounded by a run lately occupied by Mr. E. Henty, (and now in the occupation of Hutchison Brothers) thence south-east $2\frac{1}{2}$ miles to a marked gum tree, bounded by a run in the occupation of Mr. F. Henty, thence on the south and east by several water-holes and Dywan's creek to the Wannoon river, and bounded by the run in the occupation of F. Henty, and then by the Wannoon river on the north-east and north-west to the commencing corner.

No. 153.

Alexander Johnstone, James Walton, and Thomas Walton Campbell
Name of run—Caranballac
Estimated area—75,453 acres
Estimated grazing capability—30,269 sheep

Commencing at the north-west summit of Mount Elephant (highest point of the hill) and bounded on the west by a line bearing $310^{\circ} 30'$ 3 miles 73 chains dividing the said run of Caranballac from that of Gala, occupied by Messrs. John and Thomas Brown, thence $36^{\circ} 30'$ 1 mile 6 chains 50 links, thence $356^{\circ} 28'$ 5 miles 2 chains 50 links, these last two lines dividing the said run from that of Terrinallum occupied by Mr. George Russell, acting on behalf of the Clyde

Company, thence 108° 1 mile 10 chains thence $8^{\circ} 15'$ 1 mile 22 chains, thence 346° 2 miles 69 chains 30 links, thence $321^{\circ} 40'$ 2 miles to the Mount Emu Creek, thence crossing the said creek, by a continuation of the same line 1 mile 78 chains, thence $345^{\circ} 30'$ 4 miles 14 chains to the Portland road by the Fiery Creek, these last five lines dividing the said run from that of Cornong, occupied by Messrs. Chirnside and M'Nab, thence again on the south by the said Portland road, bearing from point to point 240° 2 miles 36 chains 25 links, dividing the said run from that of Curnong, thence by a line bearing 273° 1 mile 41 chains to the crossing place at Fiery creek, thence by the Fiery creek, bearing from point to point 21° 1 mile, thence by a line bearing 270° 1 mile, thence 180° 1 mile 6 chains; these last-mentioned three lines and the Fiery creek dividing the said run from ground claimed as reserve by the public-house; thence by a line bearing 259° 1 mile 5 chains, dividing said run from that occupied by Mr. John Macpherson, thence again on the west by a line bearing 337° 4 miles 52 chains, dividing the said run of Caranballac from that occupied by Mr. Burns, thence on the north by a line bearing 61° 2 miles 20 chains to the Fiery creek, thence $95^{\circ} 30'$ 3 miles 33 chains to the centre of the Fiery creek hill, thence $129^{\circ} 30'$ 75 chains these last-mentioned three lines dividing the said run from that occupied by Messrs. Stevens and Thomson, thence by a continuation of the last line, $129^{\circ} 30'$ three miles 23 chains to the Portland road thence $59^{\circ} 30'$ 3 miles 9 chains, these last two lines dividing the said run from that of St. Enoch's, occupied by Mr. Phillip Black, thence on the east by a line bearing 180° 2 miles 45 chains 25 links, thence 143° 1 mile 78 chains to the Broken creek, thence 124° 64 chains, these last three lines dividing the said run from that of Bangal occupied by Mr. Alexander Anderson, junior, thence 159° 1 mile 76 chains to the Mount Emu Creek, thence by the said creek from point to point 220° 29 chains, 20 links, thence by a line bearing 160° 34' 46 chains, thence $195^{\circ} 40'$ 3 miles 6 chains 50 links, thence $184^{\circ} 30'$ 48 chains, thence 128° 40 chains, thence 109° 1 mile 74 chains 50 links, thence 128° 40 chains, thence 159° 2 miles 50 chains, these last eight lines and the Mount Emu Creek dividing the said run of Caranballac from that of Widderin occupied by Mr. Henry Anderson, thence $192^{\circ} 30'$ 5 miles 50 chains, thence $234^{\circ} 37'$ 1 mile 5 chains, these last two lines dividing the said run from that of Gala, occupied by Messrs. John

and Thomas Brown, thence by a continuation of the last-mentioned line $234^{\circ} 37'$ 1 mile 55 chains over the east point of the crater of Mount Elephant, thence $310^{\circ} 30'$ 15 chains to the commencing corner, these last two lines dividing the said run of Caranballac from that of Geelangle, occupied by Messrs Currie and Anderson.

No. 154.

Donald Kennedy
Name of run—Croxtan
Estimated area—14,727 acres
Estimated grazing capability—7,000 sheep

Commencing at the north-west corner of the Mount Rouse Aboriginal Reserve and bearing south 245 chains and bounded by the said reserve, thence by a line on a swamp north-west 60° 442 chains, bounded by a large swamp, thence by a line bearing north $1\frac{1}{2}$ miles to the Mount Rouse road, thence by a line bearing south-east $1\frac{1}{2}$ miles, thence by a line of marked trees north-east 8° 304 chains, bounded by Captain Lonsdale's run, thence by a line of spade marks south-east 57° 262 chains bounded by Mr. D. Cameron's run, thence by a line south-west 2° 235 chains also bounded by the said Mr. D. Cameron's run to the commencing point.

No. 155.

D. and D. C. Kennedy
Name of run—Hyde Park
Estimated area—30,490 acres
Estimated grazing capability—1000 head of cattle—7000 sheep

Situation north-east of the Dundas range boundaries, starting point a tree marked, FF, with a broad arrow under, point downwards, by Captain Fyans, thence a line of marked trees south-west 60° 200 chains bounded by Messrs. Riley and Barker, thence a line through the centre of the Dundas range NW 45° 460 chains, bounded by Messrs. Whyte, Brothers, and Mr. S. Cadden, thence a plough furrow north-east 35° 280 chains, bounded by Mr. S. Cadden, thence a line of plough furrow north-east 45° 220 chains bounded by Mr. S. Cadden, thence a line of marked trees south-east 45° 207 chains, bounded by Messrs. Urquhart & Glendinning, thence a line of marked trees north-east 54° 146 chains, bounded by Messrs. Urquhart and Glendinning, thence a line of marked trees south-east 89° 172 chains, bounded by Messrs. Urquhart and Glendinning, thence a line of marked trees south-west 23° 440 chains bounded by Messrs. Riley and Barker, thence a line of marked trees south 104 chains, bounded by Messrs. Riley and Barker, thence a line of marked trees south-west 60° 86 chains, bounded by Messrs.

Riley and Barker to the starting point, FF, with a broad arrow under, point downwards, on tree.

No. 156.

D. & D. C. Kennedy
Name of run—Linthgow Plains
Estimated area—44,256 acres
Estimated grazing capability—2,200 head of cattle—16,000 sheep

Situation and starting point 5 miles north of the spring at the Mount Rouse Aboriginal Station, thence a line of marked trees east 114 chains, bounded by the Mount Rouse reserve, thence a line of plough furrow north-east 57° 274 chains, bounded by Mr. Richie, thence a line of plough furrow north-east 25° 140 chains, bounded by Mr. Scales, thence a line of plough furrow west 206 chains, bounded by Mr. Scales, thence a line of plough furrow north-east 31° 170 chains, bounded by Messrs. Scott and Gray, thence a line of plough furrow north-east 6° 118 chains, bounded by Messrs. Scott and Gray, thence a line of marked trees west 160 chains, bounded by Messrs. Scott and Gray, thence a line of marked trees north 256 chains, bounded by Messrs. Scott and Gray, thence a line or road north-west 81° 400 chains, bounded by Mr. Martin, thence a line of plough furrow south-west 36° 332 chains, bounded by Mr. Martin, thence a line on creek north-west 83° 94 chains, bounded by Mr. Martin, thence a line on road south-west 32° 46 chains, bounded by Mr. Martin, thence a line of marked trees south-east 60° 180 chains, bounded by Mr. J. Cameron, thence a line on road to Mount Rouse south-west 2° 294 chains, bounded by Mr. J. Cameron, thence a line of marked trees south-west 79° 126 chains, bounded by Mr. J. Cameron, thence a line of spade marks south-east 16° 180 chains, bounded by Mr. D. Cameron, thence a line of marked trees east 80 chains to the starting point, bounded by the Mount Rouse reserve.

No. 157.

James Kibble
Name of run—Hartly
Estimated area—6,400 acres
Estimated grazing capability—400 head of cattle, or 4,000 sheep

Bounded on the south side by Mr. McGinness, running south-west by west from the Moyn River to the Mount Napier Road determined line, on the west bounded by the Mount Napier Road, on the north side by a determined line running due west from the river Moyn to the Mount Napier road, bounded by Messrs. Chamberlain and Ware's run, and on the south by the river Moyn.

No. 158.

William Kippin, Junior.

Name of run—Bochara

Estimated area—10,880 acres

Estimated grazing capability—800 head of cattle—6,000 sheep

Bounded on the south by the runs of Messrs. Donald and Angus Cameron, and by the Grange from where it joins the Wannan to a gully on the north side 6 miles higher up, thence by the run of Griffin and Craigs, and by a plough furrow running 4 miles north-east to a marked tree, thence by the run of Trevor Winter, and by a plough furrow running $2\frac{1}{2}$ miles west to the junction of two creeks, thence by the run of Trevor Winter, and by part of a creek and a plough furrow running west by north $2\frac{1}{2}$ miles to a marked tree on the mail road, thence by the run of H. DeLittle, and by a line running west $1\frac{1}{2}$ miles to the second gully on the Wannan, below the large waterfall, thence by the run of H. DeLittle, and by the Wannan 2 miles to the junction of the Grange.

No. 159.

Lang, Brothers

Name of run—Lake Moniboeng

Estimated area—113,000 acres

Estimated grazing capability—3,500 head of cattle

The land is bounded on the north and west by the Glenelg, south by the ocean, north by Maleside Creek and a line running to the north of Mount Kincaid, and on the east by a line drawn from the sea at right-angles to the beach, and running to Mount Kincaid.

N.B. This run has been transferred, with the sanction of Government, to John McLean, in whose name the lease will accordingly be prepared.

No. 160.

Gideon S. Lang

Name of run—Kentbrush

Estimated area—38,000 acres

Estimated grazing capability—1,200 head of cattle

Bounded on the south by the ocean, on the north by Maleside Creek and a line running to the eastward and north of Mount Kincaid, on the west by a line running between Maleside Creek and the sea, 1 mile to the east of Moniboeng Lakes, on the east by Kitson's run marked by a line between the sea and the east side of Mount Kincaid.

N.B. This run has been transferred, with the sanction of Government, to John McLean, in whose name the lease will accordingly be prepared.

No. 161.

Richard Lewis

Name of run—Emu Creek

Estimated area—5,400 acres

Estimated grazing capability—500 head of cattle—4,000 sheep

Being a block of land containing about 5,400 acres, where the main road from Portland to the Glenelg crosses the river Stokes and being bounded 1 mile north of the river Stokes on its northern boundary by a line 3 miles long, that is, 2 miles west and 1 mile east of the said Portland road, and which north line is adjacent to a line of the station of Alexander Rose, of Glenorchy, bounded on the east by McRae and McLean's station, being a line bearing south 3 miles, and which line is 1 mile east of the said Portland road, on the south by a line bearing west, intersecting the said Portland road, having a portion of such line bounded by the station of McRae and McLean, for 1 mile east of the Portland road, and by the station of A. Crawford for two miles west of the said Portland road, on the west by the station of T. Snodgrass, being a line bearing north 3 miles and crossing the said river Stokes to meet the boundary on the north, as above described.

No. 162.

Patrick Lynch

Name of run—Arrandovong

Estimated area—640 acres

Estimated grazing capability—100 head of cattle, or 600 sheep

The land situated at Arrandovong is of a good description, and is bounded on east by Duncan M'Intyre, and on the west by Thomas Best, publican, on the north by Henry Munro, and on the south by Messrs. Lang, Brothers.

No. 163.

William Lonsdale

Name of run—Grange

Estimated area—25,000 acres

Estimated grazing capability—15,000 sheep

Bounded on the east by the runs of D. Cameron and D. Kennedy by a line running south from the mail road from Melbourne to Portland till it reaches the road by Mount Rouse, then along the Mount Rouse road for about 1500 yards, and from that a line south 3,400 yards, on the south by the big swamp and muddy creek about 9000 yards, on the north-west a line running about north-east 1500 yards up to near the foot of Mount Pierpoint, from that a line running about 11,500 yards north crossing the Grange and a Lagoon, and having the run of Messrs. Griffin and Craig to the west, on the north-west by the run of Messrs. Mercer and Lockhart having a line running from the last-mentioned point about 1800 yards north-east, from that a line about 2,800 yards south-east, where it comes upon the mail road from Portland to Melbourne, then along that road about 9,000 yards north-east.

No. 164:

Henry Lemann
Name of run—Woodlands
Estimated area—14,080 acres
Estimated grazing capability—1,408
head of cattle

Bounded to the north by Messrs. Dawson and Mitchell, length of line about $5\frac{1}{2}$ miles, this line intersects river Moyn about $2\frac{1}{2}$ miles due north of homestead, bounded towards the west by Messrs. Campbell and McKnight & Co., line commencing from west termination of above described boundary, 1 mile due west of a creek known as the Back Creek, thence about south direct to a rocky waterhole on said creek where it is intersected by a dray track, thence about south by east along the eastern bank of the creek to its intersection by Messrs. Campbell & Co. and R. Chamberlain's boundaries; length of this line about $2\frac{1}{4}$ miles from this point (bounded by R. Chamberlain's run) along a dray track skirting the said Back Creek to the point where it most nearly approaches the swamp into which River Moyn expands, thence along a rocky peninsula running into the swamp, general course about south-east by east from east, extremity of this point due east about 3 miles, total length of this boundary about 5 miles or thereabout, from this point running due north about $4\frac{1}{2}$ miles until the line cuts the boundary between this station and Dawson and Mitchell, above described, this line forms the boundary between Messrs. Smylie and Austin & this station (or a prolongation of it towards the south) and it would be cut by a straight line between Messrs. Smylie and Austin and this station, $\frac{1}{2}$ mile more than half-way between the respective homesteads, reckoning from house.

No. 165.

John and Thomas Learmonth, jun., and
Somerville Learmonth
Name of run—Borrumbet
Estimated area—73,312 acres
Estimated grazing capability—45,000
sheep

From a Honeysuckle tree at the south-east angle of Messrs. Donalds and Hamilton's run (from which point Bonnyong bears south 66° east, and Worrongteep south 81° east) by a line bearing north 8° east to a Gum tree (marked) on the margin of a dry lagoon about 100 chains, thence to a Gum tree on the margin of the same lagoon north 3° west 65 chains, thence to the margin of a lagoon known as the White Stone lagoon, north 33° west 120 chains, thence round the eastern margin of the White Stone lagoon 210 chains, thence

from the termination of a plough furrow on the margin of the same lagoon by a line passing through another lagoon known as the Horse' lagoon to a lightwood tree on its north-eastern margin north 43° west 110 chains, thence to a Gum tree on the top of a small hill north 26° west 94 chains, thence to a Honeysuckle tree at the north-west angle north 49° west 158 chains, the above lines divide the station from Messrs. Donalds and Hamilton's run, from the same Honeysuckle tree at the north-west angle to a lightwood tree north 63° east 126 chains, thence to a lightwood tree north 35° east 95 chains, thence to a Gum tree, marked, west near the Pyrenees road south 76° east 240 chains, thence to a tree, marked, west in the Mount Greerock creek north 47° east 255 chains, thence to a double Gum tree at the northern angle north 3° east 140 chains, the above lines divide the stations from Messrs. Robertson and Skene's runs; from the same double Gum tree at the northern angle to an old Gum tree at a point of timber south 70° east 72 chains, thence to a heap of stones on the Plain south 78° east 56 chains, thence to a Gum tree at the top of a ridge south 68° east 48 chains; the above lines divide the stations from Messrs. McCallum & Co.'s runs; from the same Gum tree along the top of a granite range known as the Mount Rickwick range in a direction about south 42° east about 160 chains till it meets Messrs. Coghill's boundary; the above line separates the stations from Mr. Cameron's run, the next boundary being that with Messrs. Coghill is in dispute and unsettled. From a lightwood tree on the Pyrenees-road to a tree on the top of Bald hill on the margin of little "Borrumbet" south 11° east 82 chains, thence to a lightwood tree on the margin of that lagoon south 3° east 26 chains, thence across little "Borrumbet" to a lightwood tree on the point of the Saddle-backed hill south 11° east 187 chains, thence to a broken, dead Honeysuckle in the Borrumbet creek south 39° east 133 chains, thence to a Gum tree on Viscount hill south 10° east 276 chains, thence to a lightwood tree south 52° east 160 chains; the above lines divide the stations from Mr. W. J. T. Clarke's runs; from the same lightwood tree to a Honeysuckle tree south 22° east 64 chains, thence to a lightwood tree south 40° west 34 chains, thence to a stringy bark tree on the Borrumbet road south 145 chains; the above lines divide the stations from Mr. Winter's runs; from the same stringy-bark tree along the Borrumbet road 108 chains to another stringy-bark tree, thence to a Honey-

suckle tree near the creek about 400 yards below "Bligh's" waterhole south 79° west 58 chains, thence to a lightwood tree west 48 chains, thence to a Gum tree in the range near the Portland road north 79° west 224 chains; the above lines divide the stations from Mr. Archibald Yuille's run; from the same Gum tree in the range to a double lightwood tree north 45° west 205 chains, thence to a stake north 68° west 253 chains; the above lines divide the stations from Messrs. Simson & Russell's runs; from the same stake to another stake on Messrs. Donalds and Hamilton's boundary with Mr. Goldsmith, where the line runs through a dry marsh north 5° west 181 chains; this line divides the station from Mr. Goldsmith's run; thence to the Honeysuckle at the point of commencement.

No. 166.

John and Somerville Learmonth and Thomas Learmonth, junior.

Name of run—Boninyong
Estimated area—12,838 acres
Estimated grazing capability—5,000 sheep

From a lightwood tree near Dr. Power's cottage (Boninyong bearing north 62° east, about 2 miles distant) to a black-barked Gum tree on the Portland road north 22° west 50 chains, thence along the Portland road to a marked Gum tree 45 chains, thence to the mouth of the gully known as the boundary gully south 82° west 142 chains, thence to a lightwood tree south 60° west $18\frac{1}{2}$ chains; the three last lines divide the station from Mr. Winter's station; from the same lightwood tree to another lightwood tree in a gully south 11° west 182 chains, thence to a Peppermint Gum tree at the southern angle south 45° east 204 chains; the above lines divide the station from Mr. Forbes' run; from the same Peppermint Gum tree to a Gum tree on a waterhole in the Leigh river north 57° east 307 chains, thence to a Peppermint Gum tree north 57° east 95 chains; the above lines divide the station from Mr. Mercer's run; from the same Peppermint Gum tree to a stringy-bark tree on the old Sydney road north 132 chains; the above divides the station from Mr. Scott's run; from the same stringy-bark tree to a Gum tree on the Tea Tree creek north 66° west 37 chains; the above divides the stations from Messrs. Porter and Flemmings' runs; from the same Gum tree down the Tea Tree creek to another Gum tree 30 chains, thence to the lightwood tree at the point of commencement north 22° west 20 chains; the above lines and the first described in this paper divide the station from the Inn reserve.

No. 167.

William Learmonth
Name of run—Knebsworth
Estimated area—12,000 acres
Estimated grazing capability—6,000 sheep

Bounded on the west by Lake Condam and the big swamp for about 8 miles, thence from a marked tree on the edge of said swamp running in a southeasterly direction about $5\frac{1}{2}$ miles, being the boundary with James White, thence from a marked tree about south 3 miles to another marked tree at a Gum scrub on the edge of the Mount Ecklestons, being the boundary with Gorrie and McGregor's, thence by a line south 80° west about 3 miles to Lake Condam, being the boundary with John Bland.

N.B.—This run has been transferred with the sanction of Government to Thomas Norris, in whose name the lease will be accordingly prepared.

No. 168.

William Learmonth
Name of run—Ettrick
Estimated area—39,000 acres
Estimated grazing capability—1,500 head of cattle—4,000 sheep

Bounded on the north by the Whittlebury station (H. Gore) from a marked tree on Darlot's creek along a line $5\frac{1}{2}$ miles bearing north 40° west, to the Grange and Portland mail road, thence along the said road $5\frac{1}{2}$ miles to a marked tree near the Sunday Creek, being the boundary with James Barclay, thence by a line 4 miles 20 chains due south to Mallot's waterholes on the Fitz Roy River, forming the boundary with John Saunders, thence along the course of said river to a marked tree opposite Mr. John Bell's homestead, thence by a line due east 20 chains to Darlot's creek, being the side line with J. Bell, thence north along said creek to a dry creek known as the boundary creek, thence by a line north 75° east $2\frac{1}{2}$ miles from the top of the boundary creek to a marked tree near the Green rises, forming boundary line with W. & R. Jamieson, thence by a line 3 miles across the Heath north 10° west to a marked tree, being the corner peg with Peter Emmet, thence by a line north 30° west 2 miles 25 chains to Darlot's creek, thence along said creek $2\frac{1}{4}$ miles to point of commencement.

No. 169.

Mary D. Linton.
Name of run—Emu Hill
Estimated area—15,000 acres
Estimated grazing capability—8,000 sheep

Bounded on the north by a line of marked trees bearing NE, about $2\frac{1}{2}$ miles across stringy-bark ranges, then by a line of marked trees bearing east 1 mile,

on the east by a line commencing from termination of the south boundary bearing north $1\frac{3}{4}$ miles to Wardy Yallock Creek, then by a marked tree line bearing north-east about $1\frac{3}{4}$ miles, on the north by a line of marked trees bearing north-west from termination of east boundary about $3\frac{1}{2}$ miles, and by a line across stringy-bark ranges and scrub bearing west and by south about 4 miles, on the west by a marked tree line bearing south $\frac{1}{2}$ mile to the commencing point of a line of marked trees crossing range of stringy-bark, bearing south and by east and extending about $6\frac{1}{2}$ miles, being the dividing line between Mr. Duncan Hoyle and this station mutually agreed upon, then by a line bearing south and by west about $1\frac{1}{2}$ miles to the point of commencement.

No. 170.

Charles Edgar Labelliere
Name of run — Yallock Vale, South Ballorn
Estimated area—17,755 acres
Estimated grazing capability — 8,000 sheep

The run is about 8 miles to the south of Ballan, and consists for the greater part of gullies; it is divided from the station of Moore and Griffiths by a line commencing from a pipeclay cliff at the south-east side of a gully known as the back gully, the line runs about north-west 1 mile 6 furlongs, the boundary is then a creek about the same course for 2 miles 7 chains to the junction of Moore and Griffiths and Inglis's runs, the commencement of the boundary of this run and Inglis is a road known as Campbell's road, this boundary continues for 22 chains to the top of a hill known as the North Brae, the boundary runs along the brow of this hill, the head-land being Mr. Inglis's, the gully to the west on this run, the line extends about 7 furlongs to a marked tree and then descends into the gully by a line of marked trees running about west to a point known as the Rocky Well distance 4 furlongs 4 chains, and from that north-west to the head-land 1 mile 4 chains (the gully, which is a continuation of the North Brae, is Inglis's run, the gullies to the west of this run) the boundary again commences on the head-lands and is a plough furrow running about north and south 5 furlongs 5 chains to the junction of Inglis and Cowie and Stead's runs; the boundary with Cowie and Stead is plough furrow about 4 miles long north and south at the termination of this line, this run joins Atkinson's, from which it is divided by gullies, creeks and ranges running about north-east and south-west 3 miles

6 furlongs, until it meets the boundary of this run with Moore and Griffiths; in addition to the above there is a small river frontage at Ballan, containing 1755 acres 76 chains included in the estimated area above mentioned, it is bounded on the north by R. W. Steiglitz and the Werribee, a plough furrow divides it on the east from Inglis, and south from Patterson, the Moorabool river is the western boundary.

No. 171.

Francis Findon Levett
Name of run—Richmond Station
Estimated area—12,000 acres
Estimated grazing capability—200 head of cattle—2000 sheep

On the south by the 10-mile boundary from Portland on the east by the new line of road running through the natural heath to the first Fitzroy or Surrey river bridge and a line 3 miles west, thence by a line bearing north to the second Fitzroy river adjoining the run of David Edgar, on the north by the second Fitzroy river, on the west by the natural heath running by Mount Richmond, bounded by the runs of Thomas Watson and James Kitson.

No. 172.

Hugh Murray
Name of run—Illimnyte
Estimated area—24,000 acres
Estimated grazing capability — 12,000 sheep

Bounded on the east by a line commencing at the east end of Lake Colac, bearing south-east $2\frac{1}{4}$ miles, marked by a plough furrow, by a line bearing south-west by south, from termination of plough furrow to the junction of Borongorook and Illimnyte creeks; by Illimnyte creek, four miles from junction, varying from south-east to south-west, mutually agreed on with Messrs. Calvert and Bell, and James Austin. On the south, by a line bearing west by south from termination of eastern boundary on Illimnyte creek, seven miles. On the west by a line from termination of south boundary bearing north by west five miles, ending at the east end of a hill known as Indigo Hill, on the south boundary of lands purchased by Messrs J and W. Robertson, being the dividing line mutually agreed on with Mr. Andrew Murray. On the north by the south boundary of lands purchased by Messrs J and W. Robertson and others bearing east $3\frac{1}{2}$ miles from Indigo Hill, by the west boundary of the township reserve $1\frac{1}{4}$ miles by Lake Colac, terminating at plough furrow commencing point.

No. 173.

Andrew Murray
Name of run—Irriwilope
Estimated area—8,000 acres
Estimated grazing capability—4,000 sheep

Bounded on the west by a creek known as Mack's creek commencing where it is intersected by the public road, bearing south by east 5 miles, being the dividing line between Messrs Scott and Richardson mutually agreed on. On the south by a line commencing at the termination of the west boundary of Mack's creek, bearing east two miles. On the east by a line commencing at the eastern extremity of the south boundary, bearing north by west five miles, ending at a marked tree at the east end of Indigo Hill, on south boundary of Mr William Robertson's purchased lands, being the dividing line with Mr Hugh Murray, mutually agreed on. On the north by a line commencing at the northern extremity of the east boundary, bearing west one mile along part of the south boundary of Mr. William Robertson's purchased lands, and thence by the public road, bearing south-west $1\frac{1}{2}$ miles, being the dividing line with Mr. Benjamin Boyd mutually agreed on.

No. 174.

Hugh Murray
Name of run—Warion
Estimated area—10,000 acres
Estimated grazing capability—5,000 sheep

Bounded on the east by a line commencing at Lake Corangamite, bearing south-east five miles to E end of Warrion hills, marked by cairns of stones, mutually agreed on with Messrs. Calvert and Bell; south by a line marked by plough furrow running along the summit of Warrion hills mutually agreed on with Mr. Benjamin Boyd; west by a line commencing at the red rock on Warrion hills, bearing $2\frac{1}{2}$ miles west by north and $2\frac{1}{2}$ miles north by west, terminating at Lake Corangamite at the commencement of eastern boundary.

No. 175.

Andrew Murray
Name of run—Wool Wool
Estimated area—8,000 acres
Estimated grazing capability—4,000 sheep

Bounded on the east by a line commencing from a high rock on the Warrion hills, known as the Red Rock, bearing west by south $2\frac{1}{2}$ miles, and north by west $2\frac{1}{2}$ miles, marked by cairns of stones and terminating at Lake Corangamite, on the north and west by Lake Corangamite, on the south by a line from Lake Corangamite, running along

the top of the Warrion hills to the Red Rock.

No. 176.

George and John Macredie
Name of run—Lillirice
Estimated area—16,640 acres
Estimated grazing capability—15 head of cattle—9,500 sheep

Bounded on the south side by a marked line running from the bank of Cueruel or the Long water-hole in an easterly direction for about five miles, separating the run from the station of Messrs Thomson and Cunningham, passing through a swamp this line terminates on its bank, thence bounded to the eastward by a plough line running north-easterly for about one mile to the Reedy Creek, along the course of the Reedy Creek for about one mile to the junction tea tree, this line divides the run from the station of Messrs Russell and Simson, thence along the bed of the Spring-hill creek about $1\frac{1}{2}$ miles in a north-westerly direction, from thence by a plough line running westerly about $1\frac{1}{2}$ miles to a point on the Mount Ena creek, thence by a plough line running in a westerly direction for about five miles to the bank of Black and Steels Lake, this line divides the run from the station of Adolphus Goldsmith, Esq., bounding the run to the northward, thence by a line crossing the lake to a point on its southern bank, thence by a plough line running north-east and easterly about two miles to the head of the Long water-hole or Cueruel, the original point of departure from the centre of the Long water-hole, a plough line runs westerly about one mile, between which and last named line lies a strip of neutral ground or watering place.

No. 177.

Henry Munro
Name of run—Crawford
Estimated area—70,000 acres
Estimated grazing capability—60 head of cattle—15,500 sheep

Commencing at Messrs Gage and Lang's public-house, bounded by the Grange-road half-a-mile, thence by a line bearing north-east $1\frac{1}{2}$ miles to a point on the big swamp half-a-mile to the eastward of an old stockyard, thence by the big swamp $3\frac{1}{2}$ miles to the Arandooing creek, thence by the Arandooing creek, three miles to Mr. Best's public-house, thence by a road to Mr. McIntyre's head station, bearing north-east two miles to the corner of a lagoon, thence by a line bearing west three miles to a big swamp on the Wannan road, from thence by a line bearing south-west by west $5\frac{1}{2}$ miles to the top of a gully, falling into Thomson's creek, by a line

bearing south-west $1\frac{1}{2}$ miles to the creek, thence by a line bearing west $1\frac{1}{2}$ miles to a marked tree on Wedge's track one mile bearing from Mr. M'Intyre's out-station, thence along Wedge's track one mile bearing south-west, thence by a line bearing SSW five miles, to the Portland and Emu creek roads, thence to the Portland road to Mr M'Donald's public-house four miles, thence along the old Portland-road to the Blackwood marsh three miles, thence by a line bearing south-east ten miles to the Portland and Graunge roads, thence by the Portland road four miles to the public-house of Gage and Lang.

N.B.—This run has been transferred with the sanction of Government to Messrs. Henry Munro and Andrew Ross Cruikshank, in whose names the Lease will accordingly be prepared.

No. 178.

Allan R. William, K. and Angus M'Donald

Name of run—Glenalin
Estimated area—15,000 acres
Estimated grazing capability—1000 head of cattle

This run has frontage on the Glenelg from the junction of the Stokes or Emu creek to the junction of a creek called Moleside, with the Glenelg at a point about twelve miles lower down the course of that river; that portion of the run backwards may be defined by what is called Tyer's Kangaroo range, commencing at a point on the Crawford river, due north from the Tea-tree swamp, the boundary line agreed upon by the applicants and Mr. Stillard, and terminating at Moleside creek where it forms the bank of the Glenelg; all to the back of the range is unavailable country with the exception of the heads of the Glenalin creek, a line about south-east from the junction of the Stokes to the Crawford river, will include the grazing land between these two creeks, and much that is useless. The Stokes is the boundary between the applicants and Mr. Henry Miller, and Moleside creek, the Lang Brothers, while the Glenelg separates them from the Scott Brothers.

No. 179.

Ewen M'Donnell
Name of run—Eliagamite
Estimated area—18,000 acres
Estimated grazing capability—300 head of cattle

Bounded on the north by Ewen's station, on the south by scrub, on the east by Curdie's station, and on the west by Eyre's station.

No. 180.

Thomas Manifold
Name of run—Grassmere
Estimated area—23,979 acres

Estimated grazing capability—2000 head of cattle

Bounded on the south and east by the Merri river and Merri creek, being the runs of Strong and Foster, F. and J. Manning, Mark Nicholson, John Saunders, and Duncan Hoyle, on the north by the run of John Eddington being a straight line bearing west four miles three chains, on the west by the runs of—Carmichael, John Good, H. N. Simson, and Robert Mailer, being a straight line bearing south 10° , east 2 miles 75 chains to Good's creek, by that creek in a SSW direction 1 mile 47 chains by a straight line from Good's creek, bearing south 54° , east 1 mile 17 chains to a point fixed by the Commissioner on Decision creek, by that creek to its junction with the Merri river, by that river westerly to the division fence, and by that fence to the point of commencement on the Merri river.

No 181.

J P Manifold
Name of run—Purrambete
Estimated area—64,000 acres
Estimated grazing capability—4,000 head of cattle

Commencing on the bank of Corangamite at a marked tree half the distance between Mr. Roadknight's peninsula station and a point of the stony rises, thence by the bank of the Carangamite, about NNE 5 miles, thence with John Hastie, north 37° west 20 chains, north 72 degrees west 3 miles 72 chains, thence by J G Ware by the Geelong road; WSW 3 miles 60 chains, thence by W. Adeny, south-east 35 chains by a line through Lake Broomfield between two marked points about 20 chains, south-west 8° south 73 chains, south 27 east 147 chains, west 14 north 129 chains, west 5° north 121 chains, thence by Donald M'Nichol by the Madooranook Creek south 40 chains, thence from the bed of the creek to the bank of Ballinmery 300 yards south-east from the junction, SSW 4° west 2 miles 22 chains, thence by Ballinmery ESE 5 chains, south-east by east 14 chains, south-east 6 chains, south-east by south half south 20 chains, south half east 16 chains, south by west 4 chains, SSE $4\frac{1}{2}$ chains, south half east 7 chains, SSW 10 chains, south-west half west 8 chains; thence by Smith and Thomson to the marked tree on Bostock's Creek, south by east 16 chains, SSE 20 chains, SSE half south 11 chains, SSE 10 chains, SSE half east 38 chains, south half east 10 chains, west by south half south 23 chains, south-west half west 11 chains, south-west 30 chains; thence by Dr. Curdie SSE 54 chains by Bostock's Creek, south-west 16 chains, south 13 chains, east half north 10 chains, east by south half south 16 chains, south-

east by east 19 chains, ESE 14 chains, south half east 20 chains, SSW $4\frac{1}{2}$ chains; thence by M'Kinnon and Murchie east by south 5 miles; thence by W W Allan north 60° east 2 miles 25 chains, east 15 chains, south-east 17 chains, east by south 33 chains, east 33 chains, by the Barwon, south-west by south 14 chains, SSE 10 chains, south-east 5 chains, south 4 chains, south-east 7 chains, east 7 chains, SSE 9 chains, east by north 7 chains (cross the Barwon); thence by W Roadknight north-east by east 19 chains, east by north 25 chains, thence by the Barwon, east by south half south 40 chains, ENE 10 chains, north-east by north 23 chains, north 11 chains, north half west 13 chains, north-west by west 8 chains, north half west 11 chains, NNW 20 chains, north-west by east 9 chains, NNE 4 chains, north by east 25 chains, north half east 22 chains, (marked tree on Colac road) about north-east 3 miles to the starting point.

No 182.

Henry Miller
Name of Run—Pieracle
Estimated Area—64,000 acres
Estimated grazing capability—8,000 sheep

Commencing at the junction of River Stokes with the Glenelg, and bounded on the west by the Glenelg River for about 15 miles; on the north by the Glenelg River, and the boundary creek, which it follows up about 4 miles, and the reedy swamp about 1 mile; on the east by Hutchinson's run, being a line of marked trees within 1 mile of the Bluff range, dividing it from W and J Robertson's run; and on the south by the River Stokes to the commencing point at the junction with the Glenelg River.

No 183.

Henry Miller
Name of run—South Stony Rises, or Perrinyallock
Estimated area—44,800 acres
Estimated grazing capability—600 head of cattle

Commencing at a point in the Stony Rises called Crows' corner, and bounded on the north by a line of marked trees on Roadknight's and Allen's boundaries 4 miles; on the west by Allen's boundary, and through the coast scrub 15 miles; on the south by the coast scrub 10 miles; and on the E by the coast scrub and Little Buagadore, being Scott and Richardson's boundary to the commencing point.

No 184.

Robert Mailer
Estimated area—13,000 acres
Name of run—Merri Farm

Estimated grazing capability—600 head of cattle

Bounded on the north by Mr. Simpson's run from a point on the road leading from the Fiery Creek to Port Fairy, at which a tree is marked in line of 5 miles nearly east to Mr Manifold's enclosed land; on the east for 1 mile by Mr Manifold's fence 1 mile by the Merri River, and 2 miles by purchased lands; on the south $4\frac{1}{2}$ miles by unlicensed Crown lands, on a straight line from Mr Urquhart's purchased land to Mr. Murray's farm; on the west for $2\frac{1}{2}$ miles by the road from Fiery Creek and Port Fairy road bordering upon Mr Chamberlain's run.

No 185.

James Moore and C. J. Griffith
Name of run—Glenmore
Estimated area—55,000 acres
Estimated grazing capability—20,000 sheep

Bounded on the north by the Werribee river; on the east and south by a plough furrow and occasional heaps of stones running due north and south until it meets the road from Glenmore to Melbourne by the half-way house, then running south-west for about 2 miles, then WSW for a similar distance, and then due west until it strikes the Balliang Creek at a waterhole, then by the said creek until it is joined by a third creek, which it follows until it is met by another plough line with occasional heaps of stones, which runs north-west until it meets the timber at the foot of the Brisbane ranges, then by marked trees to the foot of the ranges, then by an imaginary line running in the same direction, through them until it meets the western boundary between Labilliere's run and Glenmore, which line runs north by west being marked out from the top of the range to the paddock of Messrs Moore and Griffith by marked trees, then following the paddock fence round the western end of the paddock until it meets the Parwan Creek, which creek it follows in a direction generally north-west until it is crossed by the road to Mr Inglis's, which road it follows until it meets a line near the top of the tier marked by marked trees running north-east from a heap of stones to a wooded hill, and thence by an imaginary line running in the same direction through impracticable stringy-bark ranges to the Werribee River.

No 186.

John M'Kay
Name of run—Blackfellow's Creek
Estimated area—5,760 acres
Estimated grazing capability—500 head of cattle—4,000 sheep
Bounded on the north by a line bear-

ing east 1 mile to a tributary of the Blackfellow's Creek, along said creek by a line bearing south-east $\frac{1}{2}$ mile to Blackfellow's Creek; on the east by the Blackfellow's Creek by a line bearing south $2\frac{1}{2}$ miles; on the south by a line bearing east by south 4 miles along said creek to its junction with the Breakfast Creek, and 1 mile along said creek on the same bearing; on the west by a line bearing north half east 1 mile along the Breakfast Creek to its junction with Judy Creek, along said creek by a line bearing north-east $2\frac{1}{2}$ miles to the point of commencement; bounded by William Carmichael on the north, by Benjamin Boyd on the east, by Benjamin Boyd and Gorrie and M'Gregor on the south, J and R Moffatt on the west.

No 187.

W and J M'Conochie
Name of run—Konongwootog Creek
Estimated area—6,000 acres
Estimated grazing capability—4,000 sheep

Bryan's Creek from Sugar Loaf Hill to Young and Turnbull's plough furrow with Whyte Brothers NNE 98 chains, boundary with Young and Turnbull; Bryan's Creek from Whyte Brothers' boundary with young and Turnbull to Portland road, north-east 2 miles 4 chains; from Portland road to Rocky Hill, north-west 1 mile 20 chains; from Rocky Hill to a tree marked W. W. $2\frac{1}{2}$ miles, boundary with Whyte Brothers; from a tree marked W. to a large chopped tree, south-west 40 chains; from large chopped tree to Rocky Bluff, SSE 2 miles 3 chains; from Rocky Bluff to Sugar Loaf Hill, ESE 2 miles 20 chains, boundary with C and J Whyte.

No. 188.

John Norman McLeod
Name of run—Moreep
Estimated area—4,300 acres
Estimated grazing capability—2,000 sheep

Commencing at the junction of the eastern and western branches of the river Moorarbool and bounded on the north by a line, general bearing $95^{\circ} 30'$ 40 chains, thence by a line general bearing $70^{\circ} 1'$ 19 chains, thence by a line bearing $120^{\circ} 1'$ 21 chains, thence on the east by a dry gully general bearing $205^{\circ} 30'$ 64 chains, thence by a continuation of the same gully general bearing $148^{\circ} 13'$ chains, to its junction with a creek falling into the Moorarbool, the lines formed by the last five lines dividing said run from that of Ballark, occupied by Mr. John Wallace, thence by the creek last-mentioned general bearing $227^{\circ} 30'$ 2 miles 21 chains, to its junction with the river

Moorarbool, dividing said run from that of Durdidwarrah, occupied by Mr. Charles A. Von Steiglitz, thence by the said river Moorarbool general bearing $339^{\circ} 30'$ 3 miles 34 chains, to the commencing point dividing said run from that of Borhoneyghurk.

No. 189.

George Meikle
Name of run—Glen Lyon
Estimated area—12,800 acres
Estimated grazing capability—4,000 sheep

Stringy-bark ranges, bounded on west by River Moorarbool, south by R. W. Steiglitz, east by River Weirby, and north by impassable ranges.

N.B. This run has been transferred, with the sanction of Government, to Mr. John McMillan, in whose name the lease will accordingly be prepared.

No. 190.

Muirhead and Parker
Name of run—Yarram Yarram
Estimated area—32,000 acres
Estimated grazing capability—13,000 sheep

North 12 miles, bounded by the Grampians, SSE $2\frac{1}{2}$ miles, 1 furlong, 2 chains, bounded by Messrs. Chirnside, ENE $\frac{1}{2}$ mile, 1 furlong, 6 chains, SSE $2\frac{1}{2}$ miles, ENE 5 miles, bounded by the said party, SSE $2\frac{1}{2}$ miles 9 chains, south $1\frac{1}{4}$ miles, bounded by Mr. Hardy, west $3\frac{1}{4}$ miles, bounded by the said party, WNW $1\frac{1}{4}$ miles 3 chains, bounded by Dr. Martin, NNW $2\frac{1}{2}$ miles WNW $3\frac{1}{2}$ miles.

No. 191.

George Mercer
Name of run—Mount Mercer Cattle Station
Estimated area—18,400 acres
Estimated grazing capability—2,000 head of cattle

From the junction of a deep gully with the Leigh following the river up to a post-and-rail fence, thence along said fence to a road-way along which, to a marked tree, being a determined boundary line with G. F. Read, thence nearly parallel with the course of the Leigh about $1\frac{1}{2}$ miles from the river along land occupied by H. N. Sinson to where the line joins a determined boundary line with T. & S. Learmonth, along which line about south-west by west crossing the Leigh for about 1 mile, thence along thick, stringy-bark tiers and scrub, about SSW to an old trunk of tree, thence along a determined line to an old hut on the Spring Creek with C. G. Ferrers, thence along a determined line with A. F. Cunningham to point of commencement.

No. 192.

Robert Martin
Name of Run—Mount Sturgeon
Estimated area—112,000 acres
Estimated grazing capability—1000 head of cattle—20,000 sheep

Bounded on the north by Mr. Muirhead, being a line of marked trees up to the Grampians, bearing north-west and south-east; also by Mr. Dwyer's line commencing at the west side of the Grampians, running east and west through the second tea-tree scrub on the creek, about half-a-mile from house up to the east of Victoria range; on the west by the Victoria range to the head of the Springs, and from thence running down a mile below the Springs on the east side of the Wannan, thence by the Wannan bearing about south-west and north-east until it joins Mr. Chirside's ploughed furrow, which runs due south about six or seven miles, thence by Mr. Lockhart's furrow bearing WSW and ENE for three miles, until it joins Mr. Cameron's furrow running WNW and ESE for 3½ miles to Mr. Wedge's old road, keeping along it in a NNE direction for one mile, then by Mr. Kennedy's creek, (better known as the Back creek) to its junction with the southern side of the Melbourne swamp, on the Melbourne road, bearing about east by south from thence by a ploughed line running north and by east between Mr. Hardy and Mount Sturgeon station for eight or nine miles ending on Mr. Muirhead's line.

No. 193.

Duncan M'Intyre
Name of run—Ardachy
Estimated area—20,000 acres
Estimated grazing capability—10,000 sheep

Bounded on the north by the Maicait creek up to a gully running west joining Mr. W. Thomson for two miles, and S P Winter for two miles, joining Coldham Brothers, by a dry gully running SSW 1½ miles, then by a line west by south for three miles, by a line west by north for two miles, bounded on the west by D. M'Crae, by a line two miles running south to Wedge's track to the river Stokes, then by a line south one mile, bounded by Mr. Henry Munro, and on the south by a line north-east and by east to a lagoon on the Portland road, distance 8½ miles, and from that lagoon to a small lagoon on the road to the Traveller's Rest, by an easterly line, distance three miles, Mr. Munro joining all along on the south side; bounded on the east by the Narrawong station by a line running north from the road to the Traveller's Rest public-house, distant about four miles to the Maicait creek.

No. 194.

Duncan M'Intyre
Name of run—Narrawong
Estimated area—10,000 acres
Estimated grazing capability—500 head of cattle

Bounded on the east by the mail-road from Melbourne to Portland, running north-west distance 4 miles, the adjoining run belongs to Messrs. Elms and Lang, bounded on the south by P Lynch, a line running west from the Arondoo-vong creek to the road to the Traveller's Rest public-house, distant two miles, and on the west by the Ardachy station, by a line running north from the road to the Traveller's Rest, public-house, to the Maicait creek, distance four miles; bounded on the south by the Maicait creek, running west from the mail-road; the Maicait creek joins Mr. Angus Cameron for half-a-mile, Mr. Donald Cameron for two miles, and Mr. W. Thomson for two miles, when it joins the Ardachy station.

N.B.—This run has been transferred with the sanction of Government to Mr. A. Cameron, in whose name the lease will accordingly be prepared.

No. 195.

Mackinnon and Murchie
Name of run—Jancourt
Estimated area—10,000 acres
Estimated grazing capability—1,200 head of cattle

Commencing at a tree marked A on Bostock's creek, from thence a line bearing east by south 5 miles 10 chains in length, being the boundary on the north, and dividing it from J. and P. Manifold's station, thence by a line bearing south by east three miles and twenty chains, which divides it from W. W. Allen's station on the east, thence by a forest line bearing west by north three miles and twenty chains, to a tree marked C, thence by a line three miles twenty chains north-west by west, to a tree marked B, which divides it from Daniel Curdie's station on the south, and thence by a line bearing north until it meets Bostock creek, following its channel to the commencing point, being one mile forty chains in length, and separating it from Daniel Curdie's station on the west.

No. 196.

Frederick M. and John S. Manning
Name of run—Manning's Farm
Estimated area—2,560 acres
Estimated grazing capability—50 head of cattle

Situated on the Merri river, near Warrnambool; bounded on the south by Messrs Strong and Foster's fence, east and north by Mr. Mark Nicholson's cattle run, west by Manning's Farm.

No. 197.

McIntyre, Sinclair, & Co.
Name of run—Argyle
Estimated area—32,000 acres
Estimated grazing capability—12 head
of cattle—7,000 sheep

Bounded on the west and north by McEachin, Brothers, commencing at a marked tree on the south side of the upper Mount Gambier Road about $2\frac{1}{2}$ miles east of the boundary of this district, running 2 miles due north, thence south-east by east $1\frac{1}{2}$ miles, thence north $1\frac{1}{2}$ miles, thence east $2\frac{1}{2}$ miles to the Mount Gambier Road following the road 1 mile, thence south-east by south $3\frac{1}{2}$ miles, thence ESE 6 miles, thence south $2\frac{1}{2}$ miles through heath and scrub to Charles Hutton, Esq., north line, thence west $2\frac{1}{2}$ miles, thence south-west $2\frac{1}{2}$ miles to the joining of Messrs. Bates, east line, thence to follow these lines north-west and by west 8 miles, to the starting point at Mount Gambier Road.

No. 198.

Duncan McRae
Name of run—Glenlivet
Estimated area—5,300 acres
Estimated grazing capability—500 head
of cattle—4,000 sheep

Bounded on the east by the stations of Messrs. George & Samuel Winter and the Messrs. Coldham, on the south by Messrs. McLean and McRae's station, on the west by A. Rose's station, and on the north by Francis Henty's station, all the boundaries being settled or determined lines.

No. 199.

Duncan McRae
Name of run—Pleasant Hill
Estimated area—12,000 acres
Estimated grazing capability—5,000
sheep

Bounded by H. Monro on the south by a line running ENE $3\frac{1}{4}$ miles by Duncan McIntyre, on the east by a line running north by west 3 miles 3 chains, by Coldham, Brothers, on the east by a line running north-west 6 chains, by Duncan McRae, by a line running west 1 mile, by Alexander Rose by a line running west 3 miles, by James Crawford by a line running south-west by west 3 miles, by the same south-east by east 2 miles, by same by line running south-east by south 1 mile and 7 chains.

No. 200.

Duncan McRae
Name of run—Sinclair or Hunters creek
Estimated area—16,240 acres
Estimated grazing capability—12 head
of cattle—2000 sheep

Bounded on the south by the Fitz

Roy river to large heath, the heath on the west, a line bearing north-west to Mount Gambier road, from thence a line bearing about north-east crossing the Glenelg and Smoky rivers road to top of Mount Eckersly range, along the top of the range a line bearing nearly south-east to a large swamp near Mount Eckersly, then on the east by said swamp and water-course to Fitzroy river, about $3\frac{1}{4}$ miles above Edgar's bridge; this water course the boundary with Mr. F. Scott.

No. 201.

Peter M'Arthur
Name of run—Lawrenny
Estimated area—12,800 acres
Estimated grazing capability—6000
sheep

Bounded on the north by Burnett and Palmer commencing at a point where the Mount Rouse road crosses Muston's creek by a line from thence bearing east half south 3 miles 36 chains along the Mount Rouse road; on the east by Palmer, by a line bearing south half west 2 miles 54 chains from the Mount Rouse road to the junction of a gully with Muston's creek being the south-west angle of Palmer's run, thence up Muston's creek 60 chains to a marked tree, being the north-west angle of Payne's run, thence by a plough line bearing about SSW 2 miles 10 chains, being Payne's boundary line to a point known as the Cross Roads, on the south by Whitehead, by line of 2 miles bearing west by north half north from the Cross Roads, on the south-west by Clark and Bell by a line bearing NNW 3 miles 10 chains from Whitehead's north-west angle, on the west by Bell by a line north-east by north, 60 chains to Muston's creek, thence up Muston's creek 1 mile 60 chains to the point of commencement.

No. 202.

Peter M'Arthur
Name of run—Merringerott
Estimated area—13,196 acres
Estimated grazing capability—7,000
sheep

Bounded on north by Nicholas Cole's station, commencing at the south-east angle by an east line of 26 chains to the bank of a marsh, being a continuation of N. Cole's southern boundary, on the north-east by J. G. Ware by a line bearing south 44° east about 2 miles 8 chains to the north-west angle of Sherren's station, on the east by Sherren by a line bearing south 2° west 3 miles 44 chains, on the south by Niel Black by a line running west 2 miles 75 chains, thence by a south line to the Corio Road 25 chains, then by the Corio Road 1 mile 40 chains to a marked tree, being the termination of a line running south

from the Blind Creek of 1 mile 26 chains in length, thence by that line to its junction with the Blind Creek, thence by that creek to a point distant 2 miles 25 chains from P. McArthur's house, bearing about north 35 east being the south-east angle of Craig's station; on the west by Craig by a north line of 4 miles and 15 chains, and thence by a line of 25 chains to N. Coles south-west boundary, then by a line of 16 chains to Coles' south-west angle, thence by a line of 2 miles and 34 chains to the point of commencement at N. Coles' south-east angle.

No. 203.

John McPherson
Name of run—Spring Bank
Estimated area—25,000 acres
Estimated grazing capability—1000 head of cattle

Commencing at the west side of the Glenelg river and bounded on the north by the Glenelg Inn and Adelaide Road, 7 miles, dividing said run from that of Mr. William Murray, thence by a line bearing SSE 8 miles dividing said run from sandy heaths, thence by a line east to the Glenelg river, 3 miles, dividing said run from that of Mr. Hutton, thence by the Glenelg 8 miles to the commencing corner, dividing it from Messrs. Henty, Jackson, and Hutchison's separate runs.

No. 204.

John McPherson
Name of run—Nerrin Nerrin
Estimated area—52,027 acres
Estimated grazing capability—14,000 sheep

Commencing at a point in the Stony Rises to the westward of the Mount Emu Creek (Mount Elephant bearing 115° distant 11 miles 75 chains) and bounded on the east by a line bearing 358° 1 mile 43 chains, thence by a line bearing 46° 1 mile 20 chains, thence by a line bearing 50° 35' 1 mile, 59 chains, 60 links, thence by a line bearing 339° 1 mile, 24 chains; these last four lines dividing said run from that of Terinallum, occupied by the Clyde Company, thence by a line bearing 351° 4 miles 70 chains, thence by a line bearing 27° 15' 2 miles 25 chains, thence by a line bearing 351° 30' 26 chains, thence by a line bearing 311° 69 chains to the Fiery Creek, thence by the Fiery Creek bearing from point to point of same 16° 46 chains, the said Fiery creek and last four lines dividing said run from that of Curnong, occupied by Messrs Chirnside and M'Nab, thence by the Fiery creek same bearing as last 12 chains to the crossing place of Portland road over Fiery creek, dividing said run from ground claimed

by the Fiery creek public house, thence on the north by the said Portland Bay road 259° 1 mile 56 chains 50 links, dividing said run from that of Carabalac, occupied by Messrs Johnstones and Campbell, thence by the said Portland road bearing 250° 1 mile 70 chains, thence by a line bearing 270° 3 miles 18 chains, the said road and last line dividing said run from that occupied by Mr M. Byrne, thence on the west by a line bearing 180° 1 mile 65 chains, thence by a line bearing 158° 35' 1 mile 34 chains, thence by a line bearing 186° 6 miles 6 chains, dividing said run from that occupied by Mr. Henry Gibb, thence by a line bearing 201° 3 miles 23 chains, dividing said run partly from that of Mr Henry Gibb and partly from that of Mr Robert Anderson, and thence on the south by a line bearing 90° 4 miles 65 chains to the centre of the Devil's Peak, and thence by a continuation of the same line 1 mile 55 chains to the commencing corner, dividing said run from that of Mount Fyans occupied by Mr Lachlan Mackinnon.

No. 205.

William M'Pherson
Name of run—Nangeela
Estimated area—16,000 acres
Estimated grazing capability—6500 sheep

Bounded on the east by the Glenelg river, general bearing of river NW and SE 5 miles, bounded on the S by Dunrobin run, viz., from the river WSW by an old forest road 3 miles, from thence by marked trees for 4½ miles same direction, bounded on the north by Mr W. F. Splatt's run, boundary line from the river by a tea tree creek, general bearing for two miles SW, from thence 2½ miles WSW to a stringy bark forest, bounded on the W (going from north line) for 2 miles through a stringy bark forest to an out station ESE, from thence 3 miles through a stringy bark forest WSW, from thence 2 miles ESE joining the south boundary line with Dunrobin, all the boundary lines defined.

No. 206.

M'Nichol and M'Kinnon (per D. M'Nichol)
Name of run—Donnoon
Estimated area—4,035 acres
Estimated grazing capability—1000 head of cattle

Commences at the north end of a lake named the Salt Bason, bounded by lines bearing north 32°, west 1 mile 45 chains, north 72°, east 55 chains, south 71° east two miles to a small creek, by the said creek southerly past the Lake Ion, to a paddock continuing the east fence southerly, from thence south 82° east by Story's fence, 9 chains, south 2 miles 18 chains, south 73°, west 1

mile to Pullen Merri Lake, by the said lake north-westerly to a fence, following the said fence to Salt-bason Lake and from thence northerly to the commencing point.

No. 207.

Edward and Duncan M'Callum
Name of run—Ardno
Estimated area—32,000 acres
Estimated grazing capability—8,000 sheep

Commencing at the boundary of the colony, at the place where it crosses the road from Portland to Mount Gambier, thence due north along the said boundary to the great tree swamp, 8 miles 3 chains, thence the said swamp and a belt of heath extending ENE 5 miles, forming the boundary with Messrs. A. and D. Bates, thence along swamp extending south to the road from Bates to Belby's station about $1\frac{1}{2}$ miles, thence said road half-a-mile, thence a line due south to the Mount Gambier road to Portland, 7 miles forming the boundary with Captain Hut ton and J. W. Belby, thence said road to the starting point $5\frac{1}{2}$ miles, joining the boundary with Niel Black and Co.

No. 208.

Patrick M'Ginnis
Name of run—Mount Pleasant
Estimated area—12,560 acres
Estimated grazing capability—600 head of cattle

Situated upon the main or Port Fairy river, adjoining Atkin's special survey on the south, and the Mount Napier road on the west, Mr. Kibbie and Mr. Chamberlain's runs northerly, and by Williams road on the east.

No. 209.

M'Millan and Wilson
Name of run—Commerallghip
Estimated area—25,574 acres
Estimated grazing capability—10,000 sheep

Commencing at a point on the plains to the eastward of the river Wardy Yallock (the crossing-place over said Wardy Yallock at Langhorne's Inn, bearing 259° distant two miles) and bounded on the north by a line bearing 62° 43 chains to the Jilibrook creek, dividing said run from that of Mindein, occupied by Mr. Peter Hardie, thence crossing the said creek by a line bearing 79° 30' 1 mile 59 chains, thence by a line bearing 139° 30' 1 mile 73 chains, thence by a line bearing 101° 22 chains to M'Millan's creek, these last three lines dividing said run from that of Piggoreet, occupied by Messrs Gibb and Gordon, thence by a line bearing 100° 2 miles 29 chains to the Corindap creek, dividing said run of Commerallghip from that of Dereel, occupied by the said Messrs M'Millan and Wilson, thence on the east by the said Corindap creek bearing 144 degrees

12 chains, dividing said run from Dereel, thence by the said Corindap Creek, bearing 176° 40' 4 miles 13 chains 50 links to its junction with Kuruc Kuruc creek, thence by the said Kuruc Kuruc creek, bearing 204° 30' from point to point of same, three miles, the said Corindap creek, and Kuruc Kuruc creek, dividing said run from that of Kuruc Kuruc, occupied by Messrs G. and D. Aitchison, thence on the south by a line bearing 276° 1 mile 47 chains dividing said run from that of Kuruc Kuruc aforesaid, thence by a line bearing 286° 45' 1 mile 48 chains to M'Millan's creek, thence by a line bearing 260° one mile sixteen chains, thence on the west by a line bearing 353° fifty one chains, thence by a line bearing 358° 1 mile 50 links, thence by a line bearing 347° 64 chains, thence by a line bearing 351° 1 mile 58 chains, these last six lines dividing said run from that of Glenfine occupied by Mr. Thomas W. Downie, thence by a line bearing 338° 15' 1 mile 4 chains to the Geelong road, thence by a line bearing 354° 40 chains, thence by a line bearing 1° 1 mile 17 chains to the commencing corner, these last four lines dividing said run from that of Mindein, occupied by Mr. P. Hardie.

No. 210.

M'Millan and Wilson
Name of Run—Dereel including Mount Misery
Estimated area—17,215 acres
Estimated grazing capability—7000 sheep

Commencing at a point on M'Millan's creek, crossing place over River Wardy Yallock, at Langhorne's public-house, bearing 281° distant 5 miles 57 chains, and bounded on the west by M'Millan's creek aforesaid, bearing from point to point 17° 2 miles 47 chains, thence by a line general bearing 9° 2 miles 62 chains, the said creek and last line dividing said run from Piggoreet, occupied by Messrs. Gibb and Gordon, thence on the north by a line bearing 89° 4 miles 60 chains, dividing said run from that occupied by Mr. George Forbes and others, thence on the east by a line bearing 180° 1 mile 11 chains 50 links, thence by a line bearing 166° 62 chains, thence by a line bearing 202° 30' 2 miles 12 chains, thence by a line bearing 218° 30' 1 mile, these last four lines dividing said run from that occupied by Compton Ferrers, thence on the south by a line bearing 271° 1 mile 60 chains, dividing said run from that of Kuruc Kuruc, occupied by Messrs. George and David Aitchison, thence by Corindap creek, bearing 324° 12 chains, dividing said run from that of Commerallghip, occupied by the said Messrs. M'Millan and Wilson, thence by a line bearing 280°

2 miles 29 chains to the commencing point on M'Millan's creek.

No. 211.

Mercer and Lockhart

Name of run—Kanonalla

Estimated area—55,615 acres

Estimated grazing capability—20,000 sheep

Bounded on the west by a straight line from the Wannon river, bearing north $27^{\circ} 30'$, west 5 miles 35 chains to a gum tree marked four sides, on edge of swamp, being the boundary with W. Tulloch, thence by a line across the swamp north 28° , west 30 chains to a gum tree marked two sides, thence by a line north $30^{\circ} 45'$, west 2 miles 53 chains to a marked oak tree boundary with Young and Turnbull, thence by a line north $23^{\circ} 45'$, east 3 miles 63 chains to a marked gum tree, thence by a line north 33° east, 51 chains to a peak in the Dundas group boundary with Whyte Brothers, on the north by the Dundas group southerly 40 chains ESE, 33 chains to a peak forming the source of Barefoot creek, by that creek to its junction with the Wannon river, by that river to its junction with Spring creek, thence by a line north $62^{\circ} 15'$ east, 1 mile 32 chains to a honeysuckle marked two sides on edge of swamp, thence by a line across the swamp south 81° , east 22 chains to a gum tree marked two sides, thence by a line south 66° , east 3 miles 38 chains to the Spring creek, by that creek to its source, thence by a line north $67^{\circ} 30'$, east 44 chains, thence by a line north $74^{\circ} 15'$, east 23 chains, boundary with Riley and Barker, thence by a line north $74^{\circ} 15'$, east 2 miles 39 chains to a marked honeysuckle, boundary with Messrs. Chirnside, on the east by a line south 61° , east 1 mile 14 chains to a plough furrow, by that plough furrow south-easterly to a small swamp boundary with Messrs. Chirnside, thence by a continuation of the plough furrow south-south-easterly to the Portland road boundary with Dr. Martin, on the south by the Portland road, west-south-westerly to a plough furrow, in bed of creek, by the creek and plough furrow, north-westerly to the point where the furrow turns in a southerly direction, boundary with W. Lonsdale, thence by a line north $65^{\circ} 30'$ west 48 chains 50 links, thence by a line west two miles to a swamp, thence by a line south 65° , west 1 mile 34 chains across the swamp to the top of Mount Bainbridge, boundary with Griffiths and Craig, thence by a line north 69° , west 4 miles 13 chains to the starting point on the Wannon river boundary with T. Winter.

No. 212.

Charles Farquhar Mackinnon

Name of run—Nangwarry

Estimated area—12,080 acres

Estimated grazing capability—400 head of cattle

Commencing at a point on the boundary of the Colony (marked by Mr Wade) 70 chains west from a waterhole named Nangwarry, and marked on Mr Wade's chart, thence $3\frac{1}{2}$ miles south along said boundary line, thence 2 miles east, which line separates said run from that occupied by Messrs Bates, thence 10 miles north which line separates said run from that held by Mr Charles Thomas, thence 2 miles west to the boundary of the colony which line separates said run from that held by Hugh Cameron, thence $6\frac{1}{2}$ miles south along the boundary of the colony to the starting point.

No. 213.

Macdonald and Mackenzie

Name of run—Snizort

Estimated area—6000 acres

Estimated grazing capability—650 head of cattle—4000 sheep

Bounded on the west by Mr Alexander Thomson's run and 3 miles west from the big bend of the Smoky river, on the east by Mr. Henry Monro's run, on the north by Mr James Crawford's run 2 miles north from the smoky river, on the south by Monro's run, the Crawford Inn, and Thomson's run.

No. 214.

John and Robert Moffat

Name of run—Breakfast Creek

Estimated area—15,000 acres

Estimated grazing capability—7000 sheep

Bounded on the north by a road from Mr Cox's station to Mount Rouse, running east 2 miles, thence by a line east $1\frac{1}{2}$ miles, thence by a line SSW $5\frac{1}{2}$ miles to the head of Judy's creek, thence west by Judy's creek 3 miles, thence SSW $\frac{1}{4}$ mile, thence west by south $\frac{3}{4}$ of mile, thence NNE by a back creek 6 miles to commencing point. Bounded on north by Brown, on east Carmichael, on south by M'Coy, and west by Gorrie and M'Gregor and Cox's stations.

No. 215.

John Norman McLeod (per G. P. Ball)

Name of run—Borhoneyghurk

Estimated area—21,790 acres

Estimated grazing capability—8,000 sheep

Commencing at the crossing place of the Geelong and Boninyong road over Coole-la-barghurk Creek (Boninyong bearing $319^{\circ} 20'$, distant 15 miles 27 chains) and bounded on the south by the said Coole-la-barghurk Creek, general bearing 293° 1 mile 46 chains, dividing said run from that of the Native Creek, occupied by Mr. Robert

Sutherland, thence by the said creek general bearing 360° 29 chains, thence by a line bearing 283° 30' 1 mile 33 chains, 50 links, the said line and creek dividing said run from that of Woodbourne, occupied by Messrs. Wilson, Brothers, thence on the west by a line bearing 322° 40' 1 mile, 17 chains, thence by a line bearing 4° 57 chains, these last two lines dividing said run from that of Cargerie occupied by Mr. George Frederick Read, Jun., thence by a line bearing 34° 30 chains, thence by a line bearing 30° 5 miles, 21 chains, to the top of the Lal Lal range, these last two lines dividing said run from that of Narmbool, occupied by Messrs. Simson and Duerdin, thence on the north by a line bearing 19° 39 chains, thence by a line bearing 45° 63 chains, these last two lines dividing said run from that of Lal Lal, occupied by Mr. Peter Inglis, thence on the east by a line general bearing 128° 27 chains, thence by a line general bearing 174° 30' 1 mile, 28 chains, 50 links, thence by a line general bearing 137° 20' 1 mile, 15 chains, thence again on the north by a line general bearing 72° 1 mile, 25 chains, to Dolley's Creek, thence by a line bearing 80° 61 chains to the Lal Lal or Western branch of the river Moorabool, these last 5 lines dividing said run from that of Bungal, occupied by Messrs. Dibble and Egerton, thence again on the east by the said western branch of the Moorabool general bearing 174° 2 miles, 9 chains, to its junction with the eastern branch, dividing said run from that of Ballark, occupied by Mr. John Wallace, thence by the said river Moorabool, general bearing 159° 30' 3 miles, 34 chains dividing said run from that of Mooreep, occupied by John Norman, M'Leod, thence by the said river Moorabool, general bearing 159° 2 miles 64 chains, dividing said run from that of Durdidwarrah occupied by Mr Charles A. Von Stieglitz, thence by the said river Moorabool, general bearing 178° 1 mile 37 chains, dividing said run from that of Maronghurk occupied by Mr Peter Sharpe, thence on the south by a line bearing 270° 2 miles 34 chains to Coole-la-barghurk creek, dividing said run from that of Maronghurk occupied by Mr Peter Sharpe, and thence on the west by the said Coole-la-barghurk creek general bearing 343° 40' 1 mile 65 chains to the commencing corner dividing said run from that of the Native creek occupied by Mr Robert Sutherland.

No. 216.

Lachlan Mackinnon
Name of run—Mount Fyans
Estimated area—48,546 acres

Estimated grazing capability—1,200 head of cattle 12,000 sheep

Commencing at a point in the Stony Rises to the westward of the river Clyde or Mount Emu creek (Mount Elephant bearing 115° distant 11 miles 75 chains), and bounded on the east by a line bearing 178° 1 mile 14 chains, thence by a line bearing 148° 30' 1 mile 44 chains, thence by a line bearing 155° 2 miles 5 chains, thence by a line bearing 201° 30' 2 miles 23 chains 50 links, thence by a salt lagoon same bearing as above, from point to point 16 chains, thence by a line same bearing as above 11 chains, these last 5 lines and salt lagoon dividing said run of Mount Fyans from that of Terinalluin occupied by the Clyde Company, thence by a line bearing 257° 30' 2 miles 22 chains 50 links, thence by a line bearing 198° 15' 2 miles 42 chains, these last 2 lines dividing said run of Mount Fyans from that occupied by Edward Robe Bostock, thence on the south by a line bearing 264° 3 miles 66 chains 80 links, dividing said run of Mount Fyans from that of Matthew Hall, thence by a line bearing 333° 30' 73 chains 90 links, thence by a line bearing 293° 1 mile 46 chains, these last 2 lines dividing said run from that occupied by James Webster, thence on the west by a line bearing 356° 30' 2 miles 57 chains 75 links thence by a line bearing 2° 3 miles 74 chains, these last two lines dividing said run of Mount Fyans from that occupied by Messrs Dennistoun, thence by a line bearing 90° 60 chains, thence by a line bearing 19° 30' 2 miles, these last two lines dividing said run of Mount Fyans from that occupied by Robert Anderson, and on the north by a line bearing 90° 6 miles 40 chains to the commencing corner, dividing said run of Mount Fyans from that occupied by John M'Pherson

No. 217.

Mark Nicholson and E. T. Higgins
Name of run—Junction of the Hopkins and Black River

Estimated area—18,166 acres.

Estimated grazing capability—1500 head of cattle

Bounded on the west by the Hopkins River between the Brucknell and Hoyle's boundary creeks, on the north by Hoyle's creek to Hamilton's road, bearing south about two miles to a marsh, by that road bearing SSE about $1\frac{1}{2}$ miles to a creek, by that creek to Black's river, by that river to a point known as the Upper Ford, and by a straight line from that ford, bearing about south-west about three miles to the Brucknell creek, and on the south by the Brucknell creek to its junction with the Hopkins river.

No. 218.

Messrs. Oliphant and Robertson
Name of run—Little Corangamite
Estimated area—34,240 acres

Estimated grazing capability—50 head
of cattle—15,000 sheep

Commencing at a point on the Little Corangamite, from which a bluff point on the opposite side of the lake bears south 64° west, and bounded on the south-east by land in the possession of Hastie, the dividing line being a straight line from the bluff above described, on the margin of the Little Corangamite, continued to a water-hole bearing about north 64° east, near the bottom of Synott's creek, about one mile 25 chains from the point first described, thence by Synott's creek to its junction with the the Elephant road, thence on the north by land in possession of Synott and Brown, the dividing line being the Elephant road to a point where the said road crosses the first branch of the creek, or chain of ponds known as Brown's water-holes, which run into a salt-water inlet on the east side of Messrs. Oliphant and Robertson's dwelling, bounded on the north-west by land in possession of Brown, the dividing line being a portion of the last described branch creek, as far as the first water-hole, south from the Elephant road, thence by a line of turf heaps bearing about south 73° west, and about 2 miles and 21 chains long to its junction with the boundary line between Messrs. Currie and Anderson, and Messrs. Oliphant and Robertson, thence on the west by land in possession of Messrs. Currie and Anderson, being a line bearing about south 2° west, and about 3 miles 35 chains long, this line being marked with turf heaps, thence by a line bearing about south 49° west to a single stony ridge, this last line passes through a point equi-distant between a hut of Currie and Anderson, and a hut of Oliphant and Robertson's, thence by Currie and Anderson's eastern boundary to the centre of a lagoon, being a line bearing about south 2° west about 2 miles 60 chains to its junction with a plough furrow bearing about north 73° east about 6 miles 39 chains to the bluff, this last line being the boundary line between Hastie and Messrs. Oliphant and Robertson, thence north 46° east about 24 chains to the margin of the little Corangamite, and thence by the little Corangamite to the point first described on its margin 1 mile 25 chains from the water-hole near the bottom of Synott's creek.

No. 219.

Arthur Pilleau
Name of run—Hilgay
Estimated area—9,650 acres

Estimated grazing capability—5,000
sheep

The Wannan river, the Koroitte rivulet, or Bryan's creek, bounded on the north-east by a ploughed furrow line nearly north and south 2 miles in length, dividing it from Messrs. Young and Turnbull's run, on the south-east, by a line $3\frac{1}{2}$ miles about north-east and south-west in length, dividing it from Mr. George Winter's run, on the south-west by the Wannan river running nearly east and west (in a straight line) about $3\frac{1}{2}$ miles, dividing it from the run of W. and J. Robertson, on the north-west by the Koroitte rivulet, running north-east 6 miles and dividing it from the runs of Messrs. Edward Henty and C. J. Whyte.

No. 220.

Robert Patterson
Name of run—Lake Bolac
Estimated area—38,400 acres
Estimated grazing capability—15,000
sheep

Bounded on the south by an east and west line of 510 chains along land occupied by Mr. Henry Gibb and marked by a plough furrow, June 24th, 1846, east by a north and south line of 880 chains, crossing Piery Creek and along land occupied by Mr. Henry Gibb and Mr. Byrne, marked by plough furrow, June 24th, 1846, north by an east and west line of 411 chains along land occupied by Mr. Fitzgerald, marked by a plough furrow, June 24th, 1846, west by a SSW line of 240 chains along land occupied by Mr. Robert Adams, thence by a south-west line of 148 chains along land occupied by Mr. Robert Adams, thence by a nearly north and south line of 572 chains along land occupied by Mr. J. D. Wyselaskie, and Mr. Robert Adams, and marked by a plough furrow, June 26th, 1846.

No. 221.

David Power
Name of run—Wando Dale, three Wandos
Estimated area—19,806 acres
Estimated grazing capability—800 head
of cattle

Commencing at a point on a public road known as Watson's, to the Bay, and bounded on the east by a line of marked trees bearing north 33° east $277\frac{1}{2}$ chains, dividing it from land occupied by Whyte, Brothers, and a road bearing north 101 chains, bounding with Mr. Cadden, on the north by a line of marked trees bearing west 27° north $43\frac{1}{2}$ chains, and a road bearing north 27° west 73 chains, dividing it from land occupied by Mr. Campbell, on the west by a line of marked trees bearing south 28° west 312 chains bounding with Messrs. Willis and Swanston, and a line of marked trees bearing south

Feb. 23^d 1849.

221 chains, dividing it from Davidson's late Watson's, on the south by a road and creek bearing westerly 411 chains, dividing it from land occupied by Mr. Henty.

No. 222.

John Pearson

Name of run—Retreat

Estimated area—10,750 acres

Estimated grazing capability—6,000 sheep

Bounded on the west by the river Glenelg, on the north-east by the Steep Bank rivulet, on the east by north by a deep creek known as Major Mitchell's creek, on the east by south by a creek that joins Major Mitchell's creek, and by another creek running in a southerly direction until it joins another creek which runs in a south-westerly direction until it comes to the plough furrow which separates this run from Cashmere, occupied by Isaac Corney, which plough furrow runs nearly south-east until it reaches two very prominent hills where the river Wando flows through between them, thence by a very crooked plough furrow running in a south by east direction; the greater part of which plough furrow runs upon the west side of a piece of forest land, and which plough furrow separates the Retreat from Wando Vale occupied by John G. Robertson, thence by a plough furrow running nearly south-west until it terminates at the river Glenelg, separating the Retreat from part of Muntham, occupied by Edward Henty.

No. 223.

Charles Payne

Name of run—Muston's Creek

Estimated area—16,000 acres

Estimated grazing capability—400 head of cattle—7,000 sheep

Commencing at the south-east corner of the run, bounded on the south, first by the Melbourne road bearing about W.N.W. to the commencement of the plough line, second by the plough line bearing about south-west to Muston's creek, dividing it from Mr. Brown's run, third by a continuation of the plough line from Muston's creek bearing about S.S.W. to the Scrubby creek, also dividing it from Mr. Brown's run, fourth by the Scrubby creek bearing generally about west to the south-west extremity of the big marsh, dividing it from Mr. Weir's run, fifth by a plough line bearing about west by north for a short distance and then continuing north-west by west to the old Port Fairy road, dividing it from Mr. Whitehead's run, on the west by the old Port Fairy road bearing about north to the Port Fairy road, also dividing it from Mr. Whitehead's run, on the north-

west by a plough line bearing thence north-east to Muston's creek, dividing it from Mr. McArthur's run, on the north by Muston's creek to a plough line which bears about north-east to Burchett's creek, and thence by Fiery creek road bearing also north-east, dividing it from Mr. Palmer's run, and thence by a plough line bearing about ESE, dividing it from the Clyde Co.'s run, and on the east by the plough line bearing south, dividing it from Mr. Adams' run, to the commencing point on the Melbourne road.

No. 224.

James Frederick Palmer

Name of run—Casamut

Estimated area—17,000 acres

Estimated grazing capability—300 head of cattle—6000 sheep

From a waterhole on Muston's creek by a line of marked trees bearing north $\frac{1}{2}$ east about $2\frac{1}{2}$ miles until it intersects the Mount Rouse road, separating from Mr M'Arthur; from this point by the Mount Rouse road bearing about west by north about 6 furlongs separating from Mr M'Arthur; from this point by a ploughed line bearing about north by west $5\frac{1}{2}$ miles separating from Messrs Burchett; from this point by a ploughed line bearing about east by north about 7 furlongs, separating from Mr Scales; from this point by a plough line bearing about east by south about 4 miles, separating from Messrs Gray and Mair; from this point by a ploughed line bearing about south by east about 3 miles 2 furlongs, separating from Messrs Dennistoun; from this point by a line bearing about ESE about $3\frac{1}{2}$ miles, separating from Mr Payne; from this point by a swamp bearing about south $2\frac{1}{2}$ miles, separating from Capt. Adams; from this point by the Geelong road bearing about west about 5 miles to its intersection of Muston's creek, separating from Mr Brown and Mr Payne; from this point by a line bearing about WSW about 4 miles to the intersection of Whitehead and M'Arthur's road, separating from Mr Payne and Mr M'Arthur; from this point by a ploughed line bearing about NE about 1 mile to its intersection of Muston's creek, separating from Mr M'Arthur; from this point by Muston's creek, bearing about east, (separating from Mr M'Arthur), 4 furlongs to the point of departure.

No. 225.

Peter Purton

Name of run—Victoria Lagoon

Estimated area—20,000 acres

Estimated grazing capability—4,000 sheep

Bounded on the east by the Victoria

range about 6 miles, Mr Simpson a line running west about 4 miles, Messrs Urquhart and Co. a line running SSW about $2\frac{1}{2}$ miles, Messrs Riley and Barker a line running south about 4 miles, Messrs Chirnside a line running east about 5 miles

No. 226.

William Patterson
Name of run—Hunterston
Estimated area—2000 acres
Estimated grazing capability—30 head of cattle 1500 sheep

Bounded on the north by Robert Steiglitz, by a line bearing east from the Moorabool river to the Geelong road, on the east by the Geelong road running for the most part north and south, on the south by Cowie and Stead, by a line bearing WNW to a deep gully joining the Moorabool river, on the west by the Moorabool river

No. 227.

Thomas Richardson and Thomas Ayres
Name of run—Keayang
Estimated area—13,380 acres
Estimated grazing capability—800 head of cattle

Commences at a point on the Emu Creek, being the south-west boundary of the run in the occupation of Mr. Ewen, bounded on the north-east by a line bearing south-east 3 miles 50 chains; on the south-east by a line bearing south 52 west 5 miles 7 chains; on the south-west by a line bearing north-west to Emu Creek 4 miles, and by the Emu Creek to the commencing point.

No. 228.

Riley and Barker
Name of run—Kenilworth
Estimated area—63,000 acres
Estimated grazing capability—800 head of cattle—20,000 sheep

Bounded on the west by the Wannon River, north-east about $2\frac{1}{4}$ miles to the junction of Barefoots Creek, by that creek north-west direction about $4\frac{1}{2}$ miles to its source at the east point of the Dundas Range, being the boundary with Messrs Lockhart, thence by a line north-west about 2 miles, boundary with Whyte Brothers, thence by a line north-east by east about $2\frac{1}{2}$ miles to a tree marked F broad arrow F by the Commissioners, thence by a line NNE about $7\frac{1}{4}$ miles to the Skeleton Creek range, boundary D. and D. C. Kennedy; on the north by the Skeleton Creek range; east by north about 8 miles, being the boundary of Messrs Urquhart and Glendinning and P. Purton; on the east by a line bearing south-west about $6\frac{1}{2}$ miles, boundary of P. Purton and Messrs Chirnside and Co.; thence by a line south about 7 miles to the Wannon River; thence by a line

ESE 1 mile to a point in boundary creek, thence by a line south-east by south about $1\frac{1}{2}$ miles to a marked tree, thence by a line south-east by south about $1\frac{1}{2}$ miles to a dam in branch of boundary creek, thence by a line south-east about 3 miles to Messrs. Lockhart's boundary, being the boundary of Messrs Chirnside and Co.; and on the south by a line WSW about $1\frac{1}{2}$ miles, thence by a line west half north about $3\frac{1}{2}$ miles, thence by a line west by north about $4\frac{1}{2}$ to the starting point on the Wannon River, boundary with Messrs. Lockhart.

No. 229.

John Ritchie
Name of run—Cape Wrath
Estimated area—11,000 acres
Estimated grazing capability—5,000 sheep

Bounded on the north by Mr. French, the line is perfectly defined commencing at Brown's large swamp running due west until it strikes the Violet Creek, which creek continues the boundary until it is crossed by the Grange road, which line is about $5\frac{1}{2}$ miles long; on the west by Messrs Lang and Elms, the line running due south from the termination of Mr French's boundary on the grange road; the line marked by Captain Fyans, which is $4\frac{1}{2}$ miles long, thence to Mount Napier $3\frac{1}{2}$ miles, which is Mr Cox's boundary, clearly defined; on the south by Mr. Thomas Brown, the line commencing at Brown's Swamp running due west $2\frac{1}{2}$ miles, thence to Mount Napier.

No. 230.

John Ritchie
Name of run—Urang Aranga
Estimated area—26,000 acres
Estimated grazing capability—1,700 head of cattle—2,000 sheep

Bounded on the south by 7 miles of sea coast; on the west $4\frac{1}{2}$ miles by the river Shaw, Mr. Baxter adjoining this station on the opposite side of the river; on the north by trees marked under the personal direction of Messrs Aplin, chained $6\frac{1}{2}$ miles; on the north-east by marked trees and swamp about 2 miles, adjoins Kibbles and M'Guinnes' stations; on the east by marked trees $3\frac{1}{2}$ miles, adjoins M'Guinnes and a part of Mr. James Atkinson's special survey; thence south-east to the coast 4 miles by a chain of swamp.

No. 231.

William Roadknight
Name of run—Stony Rises
Estimated area—26,000 acres
Estimated grazing capability—6500 sheep

Commencing at a marked tree on the bank of Lake Corangamite halfway between Mr Roadknight's out-station

at the lake and a point of the Stony Rises near Mr Manifold's heifer station, thence a line of marked trees running about 4 miles to the point in the barrier where the Portland Bay road crosses it, then following the main barrier in the direction of Pondon Hut until it strikes a small barrier running in the direction of Pondon Hill, then by that barrier to the base of the hill, then by a line of marked trees running nearly west to Deán's marked tree on the west barrier, then by that barrier nearly south, and then nearly east until it meets a line of marked trees nearly south running about 2 miles, then by a line of marked trees running east about 1 mile, then by a line of marked trees running nearly SE to the Parrin Yallocke and by that creek to its junction with Lake Corangamite, and by that lake to the marked tree first described. Bounded on the west by J. and P. Manifold; Mr. Allen, and Mr. Miller, on the east by Scott and Richardson.

No. 232.

George Robertson
Name of run—Warrock Glenelg
Estimated area—11,696 acres
Estimated grazing capability—50 head of cattle—5,000 sheep

Commencing at a point on the River Glenelg, and bounded on the south by the Glenelg bearing easterly 318 chains, dividing it from lands occupied by W. F. Splatt and W. M'Pherson, on the east by a furrow bearing NNE 300 chains dividing it from land occupied by J. Pearson and J. Corney, on the north by a furrow and line of marked trees bearing NNW 400 chains, dividing it from land occupied by J. Corney, R. Vines, and W. Nolans, and on the west by Reedy Creek and line of marked trees bearing southerly 355 chains, dividing it from land occupied by W. F. Splatt

No. 233.

Alexander Russell
Name of run—Mawallock
Estimated area—25,768 acres
Estimated grazing capability—13,000 sheep

Commencing at a point in the Stony Rises to the westward of Mount Emu creek (Mount Emu bearing 88° distant 8 miles 36 chains), and bounded on the south by a line bearing 53° 1 mile 22 chains, thence by a spur of Mount Dendimum bearing 32° 30' 27 chains, thence following the ridge 60° 30' 8 chains 70 links to the summit of Mount Dendimum, thence following the north spur of the same 47° 20' 1 mile 68 chains to the brink of Goldsmith's Lagoon, these last four lines dividing said run Mawallock from that of Enuik

occupied by Phillip Black, thence on the east by the brink of said lagoon bearing from point to point of same 338° 20' 1 mile 10 chains, thence by a line bearing 298° 45 chains, thence by a line bearing 329° 15' 1 mile 30 chains, thence by a line bearing 8° 3 miles 65 chains, the said lagoon and last three lines dividing said run of Mawallock from that of Trawallo occupied by Adolphus Goldsmith, thence on the north by a line bearing 246° 10' 1 mile 38 chains, thence by a line bearing 270° 1 mile 40 chains, thence by a line bearing 238° 20' 68 chains, thence by a line bearing 256° 1 mile 8 chains, to the dray track leading from Mount Cole to Messrs. Thomson and Cooper's out-station of Warrapinjoe, these last four lines dividing said run of Mawallock from that of Mount Cole occupied by Messrs. Alexander and Colin Campbell, thence on the west by the aforesaid dray track bearing from point to point of same 189° 30' 4 miles 77 chains, dividing said run of Mawallock from that of Mount Cole, thence again by the said dray track bearing from point to point of same 181° 1 mile 43 chains 50 links, thence by the arc of a circle of 1 mile radius (the centre of said circle bearing from last point 182° 30') 1 mile 32 chains 50 links measured along the chord of said arc, the said arc and last line dividing said run of Mawallock from that occupied by Messrs. Thomson and Cooper, and thence again on the south by a line bearing 91° 30' 2 miles 17 chains, thence by a line bearing 78° 70 chains to the commencing corner, dividing said run of Mawallock from that of Enuik occupied by Phillip Black

No. 234.

W. and H. Robertson
Name of run—Mount Struan
Estimated area—16,000 acres
Estimated grazing capability—3000 sheep

Bounded on the NW by part of the run called Runymede, occupied by Hutcheson, Brothers, starting at a point about 3 miles from the river Glenelg and running in a NE direction about 4 miles, thence in a SE direction about 6 miles, bounded by Stringy Bark forest and approaching nearest to land occupied by Francis Henty, thence in a SW direction about 5½ miles, bounded by heath and stringy bark, thence in a NW direction about 3 miles and approaching nearest to land occupied by Henry Millar, thence in a NE direction about 1½ miles, thence in a NW direction about 2 miles terminating at the point started from.

N.B. This run has been transferred, with the sanction of Government, to Messrs. John, George, and David Hutcheson, in whose names the lease will accordingly be prepared.

No. 235.

John Ross

Name of run—Mount William Plains
Estimated area—20,000 acres
Estimated grazing capability—50 head of cattle 9000 sheep

A portion of this run bounded on the east and south by the river Hopkins, on the north and east by a range and defined boundary with William M'Gill and Co.; on the north and west by a boundary line with Capt. Bunbury's run; on the west and south by a boundary with H. A. Chirnside, Mount William; a portion of this run bounded on north and east by the river Hopkins, extending 4 miles towards Fitzgerald's run lying south; on the east by a boundary line with William M'Gill and Co.; and on the west and south by a boundary line with Robert Adams; a portion of this run bounded on the NE by a lake called Lake Buninyong, on the west by a swamp and a boundary line with H. A. Chirnside and on the south by Robert Adams. This run is situated on Mount William Plains and the river Hopkins runs through it, the boundary lines are all defined, and a small lake called Lake Buninyong lies about the centre of it, about 12 miles from Mount William.

No. 236.

Russell and Simson

Name of run—Carngham
Estimated area—30,000 acres
Estimated grazing capability—16,000 sheep

From a point on the bank of a swamp (Mount Emu bearing south-east 3 miles) a plough line runs north-easterly about three-quarters of a mile to the Reedy creek, from thence along the bed of the Reedy creek to the junction tea-tree about 1½ miles north-north-easterly, this line separates the run from the station of Messrs. George and John Macredie, from thence along the bed of the Reedy creek in a north-north-easterly direction about 1 mile to a tea-tree spring, from thence a plough line runs easterly about 2½ miles, these lines separate the run from the station of Trawallo Adolphus Goldsmith, Esq., from thence a plough line in east-south-easterly direction runs for about 3 miles to a marked tree near the south-west point of lake Borsambeet, from thence a plough line runs in a south-east direction about three miles, ending on the top of a range, these lines separate the run from the station of Messrs. T. and S. Learmonth, from thence a line of marked trees extends three-quarters of a

mile to the Portland Bay road due south, from thence a line of marked trees extends about three-quarters of a mile south by east to a point half-way between Russell and Simson's out-station, Caniko and Mr. Smythe's out-station (bearing east 2½ miles) from thence a line of marked trees extends about two miles south by east to the top of the forest range, these lines separate the run from the station of T. J. Smythe, Esq., from thence marked trees extend along the top of the forest range about three miles in a south-westerly direction, this line separates the run from the station of Forbes, Esq., from thence a line of marked trees extends along the top of the range west for about three miles, this line separates the run from the station of Mrs. Mary Linton, from thence a line of marked trees extends north-westerly about 6½ miles, terminating on the bank of the swamp at the original point of departure; this line separates the run from the station of Messrs. Thomson and Cunningham.

No. 237.

Richardson and Scott

Name of run—Parringyallock
Estimated area—19,971 acres
Estimated grazing capability—2000 head of cattle

Bounded by lake Gorangamite, commencing where the Parringyallock creek falls into lake Corangamite, and bearing northerly to a promontory, and westerly to certain springs on the banks of lake Corangamite, and from the said springs by a line bearing about SSE through the stony rises, dividing said run from that in the occupation of Mr. W. Roadknight, to a certain large water hole in the Parringyallock creek, situated about three-quarters of a mile above the paddocks and huts, again by the Parringyallock creek, bearing westerly to its rise in swamps, and by the swamps and stony rises to the boundary of the land in the occupation of one Millar, where the forest joins the stony rises, and by the forest easterly to a creek known as Mack's creek, and by that creek northerly (dividing this run from ground in the occupation of Mr. A. Murray) to the land purchased by Mr. Hinton, and by the boundary lines of this purchase, bearing southerly, westerly, again northerly, and again westerly to the Parringyallock creek, and by the Parringyallock creek to the commencing point.

No 238.

James Ritchie

Name of run—Blackwood
Estimated area—10,000 acres
Estimated grazing capability—5,000 sheep

Bounded on the east by the Deep creek for four miles, and a plough fur-

row for two, as agreed upon and marked off with Mr. Scales, on the north by a plough furrow marked and determined with Mr. Kennedy, on the west by the Government reserve, Mount Rouse, on the south by Messrs. Burchett, according to a written agreement signed by all parties.

No. 239.

John G. Robertson
Name of run—Wandoe Vale
Estimated area—11,338 acres
Estimated grazing capability—40 head of cattle—6,000 sheep

Bounded on the south-east by Turkey-bottom creek, the remainder by a plough furrow between Mr. Edward, Henty Muntham, on the south-west by a plough furrow between Mr. John Perrin, Retreat, on the west by a plough furrow between Mr. William Corney, Wando station, on the north-east by a plough furrow between Mr. Davidson, formerly J. W. Watson.

No. 240.

William and John Robertson
Name of run—Struan
Estimated area—4,889 acres
Estimated grazing capability—650 head of cattle—4,000 sheep

Bounded on the north by the Wannon River, on the opposite side being Mr. Arthur Pilleau's station; on the east by a line running SSW $2\frac{1}{2}$ miles 10 chains, the adjoining occupier being George Winter, Esq.; on the south by a line running east and west $2\frac{1}{2}$ miles 10 chains, the adjacent occupiers being Francis Henty and George Winter, Esqrs.; and on the west by a line running SSW $2\frac{1}{2}$ miles, the adjacent occupier being Francis Henty, Esq.

No. 241.

George Frederick Read, junr.
Name of run—Cargerie
Estimated area—23,710 acres
Estimated grazing capability—50 head of cattle—10,000 sheep

Commencing at a point on the river Yarrooee or Leigh (Buninyong bearing $1^{\circ} 45'$ distant 6 miles 70 chains); and bounded on the north by a line bearing $62^{\circ} 30'$ 1 mile 31 chains 50 links, thence by a line bearing $106^{\circ} 45'$ 1 mile 39 chains to the Noyal or Williamson's Creek, thence crossing the said creek by a line bearing $129^{\circ} 2'$ miles 10 chains, thence by a line bearing $98^{\circ} 30'$ 2 miles 34 chains 50 links; these last four lines dividing said run of Cargerie from that occupied by Messrs. Hector Norman Simson and Co.; thence on the east by a line bearing $184^{\circ} 57'$ chains, thence by a line bearing $142^{\circ} 40'$ 1 mile 17 chains; these last two lines dividing said run of Cargerie from that of Boronyghurk, occupied by Mr John Norman M'Leod; thence by a line

bearing $220^{\circ} 54'$ chains, thence by Wilson's Creek, general bearing of same from point to point $201^{\circ} 10'$ 2 miles 8 chains, thence by a dry gully, general bearing of same from point to point $278^{\circ} 20'$ 32 chains, thence by a line bearing $276^{\circ} 43'$ chains, thence by a line bearing $208^{\circ} 4'$ miles 40 chains, thence by a line bearing $269^{\circ} 15'$ chains to the Yarrooee or river Leigh; the lines formed by the last six bearings dividing said run of Cargerie from that of Woodbourne occupied by Messrs Wilson Brothers; thence on the west by the Yarrooee or river Leigh, general bearing from point to point of same $333^{\circ} 10'$ 8 miles 22 chains, dividing said run of Cargerie partly from that of Mount Mercer occupied by Mr Alexander F. Cunningham and partly from the cattle station occupied by Mr George Mercer, thence by a dray track, general bearing from point to point of same $64^{\circ} 50'$ chains, thence by a line bearing $37^{\circ} 30'$ 75 chains to a gully leading into the Yarrooee or river Leigh, and thence crossing the said gully by a line bearing $330^{\circ} 1'$ mile 24 chains to the commencing point.

No. 242.

William Rowe
Name of run—Nairngal
Estimated area—12,284 acres
Estimated grazing capability—6,000 sheep

Commencing at the summit of the western Wallindue hill to the westward of the river Wardy Yallock, crossing place over said river at Langhorne's Inn bearing $29^{\circ} 20'$, distant 2 miles, 54 chains, and bounded on the north by a line bearing $257^{\circ} 30'$, 50 chains, 70 links, dividing said run from that occupied by Mr. Thomas W. Downie, thence on the east by a line bearing $177^{\circ} 3'$ miles, 37 chains, thence by a line bearing $136^{\circ} 1'$ mile, 18 chains, thence by a line bearing $230^{\circ} 21'$ chains, crossing the Nairngal creek, thence by a line bearing $240^{\circ} 2'$ miles, 2 chains, and 67 links, these last four lines dividing said run from that occupied by Mr. Thomas W. Downie, thence on the west by a line bearing $330^{\circ} 6'$ miles, 5 chains, dividing said run from that occupied by Messrs. Tennent and Lyon, thence by a line bearing $47^{\circ} 20'$ 1 mile, 64 chains, to the Nairngal creek, thence by a continuation of the same line 1 mile, 21 chains, thence by a line bearing $2^{\circ} 45'$ 50 chains, these last lines dividing said run from that occupied by Mr. Duncan Hoyle, thence on the north and east by a line bearing $108^{\circ} 77'$ chains, 60 links, thence by a line bearing $133^{\circ} 45'$ 45 chains, these last two lines dividing said run from that occupied by Messrs. Gibb and Gordon, thence on

the south by a line bearing $285^{\circ} 40'$ 58 chains, 50 links, and thence on the east by a line bearing $185^{\circ} 15'$ 15 chains, 90 links, and thence by a line bearing $136^{\circ} 2'$ miles, 38 chains, to the commencing corner, dividing said run from that occupied by Mr. Peter Hardie.

No. 243.

William Robertson
Name of run—Colet Colet
Estimated area—6,000 acres
Estimated grazing capability—1,000 head of cattle

Commencing on the north-west angle of section 8, in the Parish of Nalanghie, bounded on the west by section 2, in said parish to the south boundary of the Parish of Warrion at south-west angle of section 21, in said parish, thence on the north-west by a line of 290 chains, running north nearly 34° east to the south-west angle of section 8, in the Parish of Warrion, thence on the north-east by a line of 260 chains, bearing east nearly 21 south, to a point jutting into the north-west end of lake Colac, thence on the east and south-east by lake Colac to the south-east angle of section 5, in the Parish of Nalanghie, thence on the south by the parish boundary to the north-east angle of section 3, in Nalanghie, thence on the east by section 4, to the north-east angle of section 8, and on the south by the north boundary of section 8, to the point of commencement.

No. 244.

Alexander Rose
Name of run—Glenorchy
Estimated area—15,000 acres
Estimated grazing capability—8,000 sheep

Commencing at Lewis's Inn, on the Emu Creek, Portland-road, and bounded on the south-east by Government land six miles, on the north-east by the run of Mr. F. Henty, $5\frac{1}{2}$ miles, on the north-west by the run of Mr. Winter, $3\frac{1}{2}$ miles on the west by the run of Messrs. Coldham, two miles, and on the south by Emu creek, $4\frac{1}{2}$ miles to the commencing point at Lewis's Inn.

No 245.

Peter Sharp
Name of run—Morangourke
Estimated area—18,333 acres
Estimated grazing capability—600 head of cattle—6000 sheep

Commencing at a point on the river Moorabool (station peak bearing $86^{\circ} 10'$ distant 15 miles 68 chains) and bounded on the south by a line, general bearing $241^{\circ} 30'$ 1 mile 9 chains to the public road from Geelong towards Buninyong, dividing said run from that occupied by Mr. George Russell, acting in

behalf of the Clyde Company, thence on the west by the said public road, bearing from point to point of the same, $319^{\circ} 2'$ miles 78 chains 50 links to the intersection of the old road from Melbourne towards Buninyong, with the said public road, thence by a line bearing $54^{\circ} 20'$ 8 chains 80 links, to a gully falling into Coolee Barghurk creek, thence by the said gully bearing from point to point $68^{\circ} 30'$ 28 chains, thence by the said Coolee Barghurk creek, bearing from point to point of same $339^{\circ} 15'$ 2 miles 79 chains, the said creek, gully, and road, dividing said run from that of Native creek, occupied by Mr. Robert Sutherland, thence on the north by a line bearing $90^{\circ} 2'$ miles 34 chains to the river Moorabool, thence by the said river Moorabool, bearing from point to point $358^{\circ} 1'$ mile 37 chains, the said river and last line dividing said run from that of Barbonyghurk, occupied by Mr. John Norman M'Leod, thence by a line bearing $114^{\circ} 5'$ miles 75 chains dividing said run from that of Durdidwarrah, occupied by Mr. Charles Von Steiglitz, thence on the east by the dray road leading from Durdidwarrah towards Geelong, bearing from point to point of same $194^{\circ} 2'$ miles 42 chains, dividing said run from that of Anaki, occupied by Mr. Frederick Griffin, thence on the south by a line bearing $249^{\circ} 1'$ mile 26 chains, thence by a line bearing $265^{\circ} 28'$ chains, to Sharpe's creek, thence by Sharpe's creek bearing from point to point $307^{\circ} 44'$ chains, thence by a line bearing $227^{\circ} 20'$ 28 chains, thence by a line bearing $254^{\circ} 31'$ chains 50 links, thence by a gully leading into the river Moorabool, bearing from point to point $239^{\circ} 30'$ 35 chains, and thence by the said river Moorabool, bearing from point to point $264^{\circ} 68'$ chains to the commencing point, the lines formed by the last seven bearings dividing said run from that occupied by the said Mr. George Russell, acting as aforesaid.

N.B. This run has been transferred, with the sanction of Government, to Mr. William Sharp, in whose name the lease will accordingly be prepared.

No. 246.

John James Barlow Smythe
Name of run—Nentingball
Estimated area—10,440 acres
Estimated grazing capability—300 head of cattle, or 5000 sheep

Commencing at a point on the river Wardy Yallock, about three miles, bearing south to the Portland road, running nearly east and west to a marked tree, the boundary between Mr Charles Forbes' run, thence northerly about four miles to a marked tree, being the boundary between Mr. John Winter's station, thence running westerly to another

marked tree being the boundary between Mr. Learmouth's station, thence southerly about two miles, dividing Simpson and Russell's run from Neningbull, thence ESE to the above starting point.

N.B. This run has been transferred, with the sanction of Government, to Mr. Archibald Buchanan Yuille, in whose name the Lease will accordingly be prepared.

No. 247.

William Sherren

Name of run—Mederinook

Estimated area—3648 acres

Estimated grazing capability—700 head of cattle 4000 sheep

Bounded on the east by Lake Mederinook and the Mederinook creek, on the south by a line of marked trees 2 miles 4 chains, on the west by a line of marked trees 2 miles 77 chains, on the north by a drawn line of 2 miles 19 chains.

No. 248.

Simon Staughton

Name of run—Brisbane Range and Exford Station

Estimated area—70,400 acres

Estimated grazing capability—300 head of cattle 20,000 sheep

Commencing at the Brisbane Range and running up the Little River about 1 mile in a westerly direction, and thence north about $5\frac{1}{2}$ miles, thence through the forest along marked trees until it meets Moor and Griffith's plough furrow in a SE and northerly direction to the Werribee river about 16 miles, thence down the said river in a southerly direction about 9 miles, thence up a dry creek about $\frac{1}{4}$ mile near to the south corner of section No. 24, in a south-westerly direction, in the Parish of Werribee, thence along a line of stones running SSW about $1\frac{1}{2}$ miles and crossing Moor and Griffith's road, thence along a line of stones in a south-westerly direction about $2\frac{1}{2}$ miles to the north corner of a gum swamp, thence west and by south about $1\frac{1}{2}$ miles to a heap of stones on the plains, thence south 30° west to a marked gum tree on the Boninyong road about 3 miles, thence along the said road about $1\frac{1}{2}$ miles, thence along a plough furrow in a westerly direction about 7 miles, dividing the run of F. Griffins from this run to the Anaghe Yowang, and continuing into the Brisbane ranges on the same course about 3 miles, thence turns northerly until it meets the upper part of the Little River about $3\frac{1}{2}$ miles, and by the Little River downwards about 3 miles to the commencing point.

No. 249.

Scott, Brothers

Name of run—Woodford

Estimated area—2903 acres

Estimated grazing capability—10,000 sheep

Northern boundary Scott's creek from its junction with the Glenelg 193 chains west 14° north, western boundary a line running south 3 miles 63 chains, then west 2265 links, then south 360 links, then SW 25 chains, then south 30 west 136 chains, then south $22\frac{1}{2}$ west 2 miles 32 chains, southern boundary a line running east 25 south 5 miles 65 chains to the Glenelg, eastern boundary the Glenelg river excepting that portion occupied by Mr Strachan, publican

No. 250.

William Francis Splatt

Name of run—Dergholm

Estimated area—67,200 acres

Estimated grazing capability—6000 sheep

Commencing at a point on the Glenelg river about 2 miles SE of the head station, and bounded on the south by the Roseneath station south 80° west about 5 miles, on the west by Messrs Steel and Kerr's run, north 20 west 15 miles, on the NW by Mr. Wallace north 40 east about 4 miles, on the NE by Phalan, Bourke, and Swanston's runs, being lines bearing south 36 east about 5 miles, south 50 east about 5 miles to the Glenelg river, and on the east by the Glenelg river downwards about 4 miles, and lines bearing SE 4 miles and south 30 west about 3 miles to the commencing point on the opposite bank of the Glene g.

No. 251.

William Francis Splatt

Name of Run—Roseneath

Estimated area—48,000 acres

Estimated grazing capability—6,000 sheep

Commencing at its NW corner, and bounded on the north by the Dergholm station north 80° east about 5 miles to the Glenelg river, thence crossing the river north 30 east 3 miles, on the east by Nolan and G. Robertson's runs by lines bearing SE about 5 miles, south 15 west 5 miles to the Glenelg, and by that river downwards 1 mile, and on the south and west by M'Pherson and Steel's runs, being lines bearing SW about 5 miles north 35 west about 8 miles, and north 20 west 4 miles to the commencing point.

No. 252.

Robert William Stieglitz

Name of run—Ballan

Estimated area—4836 acres 76 chains

Estimated grazing capability—500 head of cattle or 4000 sheep

Bounded by the west branch of the river Weirabee, a plough line (Mickle's boundary), to the river Moorabool, down the Moorabool to the marked boundary of the county of Grant, by that boundary

across to the Weirabee river, on the south by Labilliere, on the north by Meikle, on the east by John Von Stieglitz, on the west by C. and J. Bradshaw.

No. 253.

Adolphus Sceales
Name of run—Wood House
Estimated area—16,000 acres
Estimated grazing capability—8000 sheep

Bounded on the south by a plough furrow bearing from Muston's creek ENE 293 chains to a marked tree on the north point of She Oak Hill, adjacent lands occupied by H. and F. Burchett and Dr Palmer, from the marked tree on She Oak Hill to a point half way between Gray and Marr's outstation and A. Sceales's hut, which line bears NW by north distance 260 chains, thence by a line bearing north 100 chains, thence by a line bearing NW to a stake 1 mile on the south side of Green Hill distance 100 chains from the She Oak Hill to this stake, adjacent lands occupied by Gray and Marr, from the above stake by a line bearing (plough furrow) west 211 chains, and then by WSW line distance 170 chains to a stake in the middle of a large swamp, from the stake under Green Hill to the middle of swamp, bounded by D. and D. Kennedy, thence by a line general bearing ENE 40 chains, thence ESE 30 chains, thence SSE 90 chains, thence by bed of Muston's creek to point of commencement distance 320 chains, general bearing south by east, bounded by James Ritchie.

No. 254.

Stirling and Fairbairn
Name of run—Congbool
Estimated area—28,000 acres
Estimated grazing capability—8,000 sheep

Bounded on the east by the Glenelg $\frac{1}{2}$ mile, on the SSE by Mr R. Clerk $6\frac{1}{2}$ miles, on the south by Mr. Cadden 5 miles, and by Mr Campbell 1 mile, on the west by Willis and Swanston 5 miles, on the north by Mr Armytage 7 miles, on the NE by Messrs Heape and Summer 3 miles. This run is situated on both sides of the creek known as Mather's creek, which joins the Glenelg at the eastern boundary, and is 15 miles north from the Dundas range.

No. 255.

Stewart and Kemshead (per George M. Eddie)
Name of run—Bung Brungle
Estimated area—7000 acres
Estimated grazing capability—5000 sheep

Starting point south-east of a reedy swamp on the Wannan river running along a creek WN W $3\frac{1}{2}$ miles, thence west by north $1\frac{1}{2}$ miles to a road known as Cadden's road, along that road $\frac{3}{4}$ mile

to its junction with a road called White's road and following the same 3 miles SSE to a plough furrow, thence along that furrow 3 miles east by south to the Wannan river, and thence along the river 2 miles NNE to the starting point.

N.B.—This run has been transferred with the sanction of Government to Messrs. R. and J. DeLittle, in whose names the lease will accordingly be prepared.

No. 256.

John Stephens
Name of run—Pullemere or Bason Lake
Estimated area—1,200 acres
Estimated grazing capability—1,200 sheep

Commencing at a point on the south shore of Bullenmerri lake and bounded on the west by a line bearing south by west 60 chains, thence by a line bearing WSW 24 chains, dividing said run from that occupied by Messrs Niel, Black & Co. thence on the south by a stringy-bark forest bearing south-east 44 chains, thence by a line bearing north-east 35 chains, thence by a Tea Tree creek bearing ENE 44 chains, thence by the same creek bearing south-east 27 chains, dividing said run from that occupied by Messrs. McKinnon and Murchie, thence on the east by a line bearing north-east 56 chains, thence by a line bearing NNW 98 chains to lake Bullenmerri, dividing said run from that of Messrs. J. and P. Manifold, and on the north by lake Bullenmerri.

N.B. This run has been transferred, with the sanction of Government, to Robert Zealley, in whose name the lease will accordingly be prepared.

No. 257.

Robert Sutherland
Name of run—Native Creek Run
Estimated area—22,406 acres
Estimated grazing capability—10,000 sheep

Commencing at the crossing place of the public road from Geelong towards Buninyong over the Barghurk creek (Buninyong bearing $319^{\circ} 20'$ distant 15 miles 27 chains) and bounded on the north by the said Barghurk creek general bearing from point to point of same $293^{\circ} 40'$ 1 mile, 46 chains, dividing said run from that of Borhonyghurk, occupied by Mr. John Norman McLeod, thence on the west by a line bearing $225^{\circ} 3'$ miles, 23 chains, 50 links, to Wilson's creek, thence by said Wilson's creek, general bearing from point to point $176^{\circ} 45'$ 4 miles, 55 chains, the said creek and last line dividing said run from that of Woodbourne, occupied by Messrs. Wilson, Brothers, thence on the south by the said creek general bearing $139^{\circ} 20'$ chains to its junction with Beerook creek, thence crossing Beerook creek by a line general bearing $115^{\circ} 30'$ 1 mile, 21 chains to the Native creek, thence by the said Native creek general

bearing from point to point $153^{\circ} 15'$ chains, 50 links, thence crossing the said creek by a line general bearing $107^{\circ} 52'$ chains, thence by a line general bearing $77^{\circ} 2'$ miles, 52 chains, thence by a dry gully general bearing $151^{\circ} 20'$ 1 mile, 50 chains, thence by a line bearing $78^{\circ} 45'$ chains, 50 links, thence by a line bearing $56^{\circ} 66'$ chains, 40 links, thence by a line general bearing, from point to point, $326^{\circ} 30'$ 69 chains, thence by a line general bearing, from point to point, $32^{\circ} 41'$ chains, 56 links, to the public road leading from Geelong towards Boninyong, the lines formed by the last 10 bearings dividing said run from that of Golf Hill, occupied by Messrs. George Russell & Co., thence on the east by the said public road towards Boninyong bearing $319^{\circ} 2'$ miles, 78 chains; 50 links, to its junction with the old track leading from Melbourne towards Boninyong, thence by a line bearing $54^{\circ} 20'$ 8 chains, 80 links, to a dry creek leading into Barghurk creek, thence by the said dry creek bearing $68^{\circ} 30'$ 28 chains, to its junction with said Barghurk creek, thence by the said Barghurk creek general bearing, from point to point, $339^{\circ} 15'$ 2 miles, 29 chains, the lines formed by the last four bearings dividing said run from that of Moranghurk, occupied by Mr. Peter Sharp, and thence by the continuation of the said Barghurk creek general bearing, from point to point of same, $343^{\circ} 40'$ 1 mile, 65 chains, to the commercing corner, dividing said run from that of Borhonyghurk, occupied by Mr. John Norman McLeod;

No. 253.

A. Scott and Sons

Name of run—Mount Boninyong

Estimated area—16,000 acres

Estimated grazing capability—600 head of cattle

Bounded on the north by a defined line of marked trees with Mr. Inglis running east about 5 miles from the foot of a green hill adjoining B. Yuille's run to a marked tree bearing north-east of Boninyong hill, on the east by a settled line about 5 miles in length, running S S E till it crosses the Melbourne road, leading to Boninyong, where it diverges a point to the east, and joins a settled boundary line with Mr. Simson's on the south, on the south by the said boundary line with Mr. Simson, running W N W till it joins Messrs. Learmonth's settled boundary line on the west, thence on the west by a settled line with Messrs. Learmonth's, running north till it crosses an old road leading to Mr. Learmonth's, thence along a plough furrow running north-west by north till it joins a hut occupied by James Porter, and thence

by a line running north till it joins the north boundary with Mr. Inglis, near the green hill above mentioned.

No. 259.

Francis Scott

Name of run—Drumborg

Estimated area—5,000 acres

Estimated grazing capability—3,000 sheep

Bounded on the north-west by the Washpool water-course from its rise in the swamp to its junction with the Fitzroy river, forming the boundary line with Mr. Duncan M'Rae, on the south by the Fitzroy river, on the east by a road from Edgar's bridge to Mount Eckerley, as far as the saw-pit, thence in a north-east line to the swamp at the starting point; this line forms the boundary between Mr. Donald Cameron.

N.B.—This run has been transferred with the sanction of Government to David Edgar, in whose name the lease will be accordingly prepared.

No. 260.

H. N. Simson and John Duerdin

Name of run—Kilmory

Estimated area—21,160 acres

Estimated grazing capability—1,800 head of cattle

Commencing at a cross-cut in the ground on the west bank of the Spring creek, 151 chains from a cross-cut in the ground at the dwelling-house, and bounded on the north by a line bearing about south-west 4° , south 40 chains, thence by a line bearing about west 10° south, 155 chains 10 links to the Port Fairy road, these last two lines dividing said run of Kilmory from that known as the Union station occupied by Messrs. Carmichael, thence crossing said road and following the windings of Wickham's scrub, bearing from point about west 8° south, 251 chains, dividing said run of Kilmory from that occupied by Mr. Youill, thence on the west by a straight line 81 chains to Chamberlain's tree (being a marked tree by Mr. Chamberlain and Mr. Buchanan as their boundary) thence by a line bearing south $11^{\circ} 15'$, west 236 chains 11 links to a tree marked on four sides (distant 8 chains 20 links from the point where the Port Fairy road intersects Murray's creek) these last two lines dividing said run of Kilmory from that occupied by Mr. Chamberlain, thence on the south by a straight line 8 chains 20 links to a marked forked gum sapling at the point where the Port Fairy road intersects Murray's creek, thence in a straight line 585 chains to a crooked stringy bark tree on the south-east side of the saw-pit gully marked IA, thence by a line bearing north 1° , east 99 chains to a notched panel in Mr. Thomas Manifold's

fence, these last three lines dividing said run of Kilmory from that occupied by Mr. Mailor, thence on the east along said fence north $11^{\circ} 15'$, west 55 chains, north 25° , east 9 chains 84 links, north-east 9 chains 60 links to where said fence intersects the Spring creek, these last three lines and fence dividing said run of Kilmory from that occupied by Mr. Thomas Manifold, thence along the west bank of the Spring creek to the commencing point.

No. 261.

H. N. Simson and John Duerdin

Name of run—Narmbool

Estimated area—22,842 acres

Estimated grazing capability—100 head of cattle 8,000 sheep

Commencing at a point on the river Leigh, Mount Boninyong bearing 24° distant 4 miles 62 chains, and bounded on the north by a line bearing $67^{\circ} 30'$ 4 miles 62 chains to the main road from Boninyong to Geelong; thence by a line bearing $47^{\circ} 19'$ chains crossing Williamson's creek, thence by a line bearing $72^{\circ} 56'$ chains, these last three lines dividing the said run of Narmbool from that occupied by Mr Andrew Scott, thence by a line bearing $105^{\circ} 30'$ 3 miles two chains to the range dividing the waters of the Lal Lal from those falling into Williamson's creek, dividing said run of Narmbool from that of Lal Lal occupied by Mr Peter Inglis, thence on the east by a line bearing $180^{\circ} 30'$ 5 miles 47 chains, dividing said run of Narmbool from that of Borhonyghonrk, occupied by Mr J. N. M'Leod, thence on the south by a line bearing $279^{\circ} 17'$ chains, dividing said run of Narmbool from said Borhonygourk, thence by a continuation of said line 2 miles 35 chains, thence by a line bearing $310^{\circ} 2'$ miles 7 chains 50 links to Williamson's creek, thence by a line bearing $287^{\circ} 30'$ 1 mile 39 chains, thence by a line bearing $244^{\circ} 1'$ mile 33 chains to the River Leigh, these last four lines dividing said run of Narmbool from that of Cargary, occupied by Mr G. F. Read, jun., and thence on the west by the River Leigh general bearing from point to point $326^{\circ} 3'$ miles to the commencing point, dividing said run of Narmbool from the cattle station of George Mercer.

No. 262.

Charles Saunders

Name of run—Fitzroy L'Estrange

Estimated area—8000 acres

Estimated grazing capability—300 head of cattle or 3000 sheep

Bounded on the west by the run of John Bell of Mount Eckersley, and commences at a marked tree near the three mile bottom on the Grange road, and bears to another marked tree on the

Grange road SSW 2 miles 50 chains, on the south and west by the run belonging to Edgar's Inn and bears to the Sunday creek east 36 chains, and along the Sunday creek to its junction with the Fitzroy river south 1 mile and continuing south 2 miles, on the south by vacant Crown land on Mount Clay and bears SE by east 3 miles 60 chains, on the east by the run of John Bell of Mount Clay and bears to the commencement of a creek known as the Scrubby creek north 1 mile, and along the course of that creek to a marked tree on the south side of the Fitz Roy river, NNE 1 mile 50 chains, on the north and east by the run of William Learmonth and bears along the Fitz Roy river to the western side of a water hole, known as Mallet's water hole about west by north 3 miles 26 chains, and to the marked tree on the Grange road where it commences, nearly north 4 miles 20 chains.

No. 263.

John Sumers

Name of run—Bryan O'Linn

Estimated area—12,800 acres

Estimated grazing capability—600 head of cattle

Southern boundary, a line drawn from the corner of cultivation paddock, to the southern end of the mess-mate forest, on the Hopkins, eastern boundary 3 miles on the Hopkins northwards, a creek running three miles back, western to a road running from Wilson to Manifold's dairy, and Manifold's creek.

No. 264.

David Edward Stodart

Name of run—Corunnun

Estimated area—5,500 acres

Estimated grazing capability—600 head of cattle—2,500 sheep

Bounded on the west by lake Corangamite from south-west corner of section 1, parish Nalangie, to south-west corner of section 12, parish Warrion, extent of western boundary about $3\frac{1}{2}$ miles, bounded on the north by the tea-tree springs, and thence by a straight line to a small peaked hill on the northern side of lake Gualiregurk itself, thence across the neck of land which separates lake Gualiregurk from lake Purdiguluc, by lake Purdiguluc itself, extent of northern boundary nearly two miles, separates Mr. Andrew Murray's run; bounded on the east, partly marked by a plough furrow, from the most easterly point of the bank of lake Purdiguluc, running SSE through sections 19 and 21, in the Parish Warrion, to the north-west corner of section 4 in the parish Nalangil, by the western side of section 4 in the parish Nalangil, by the northern and western sides of section 8 in the parish Nalangil, and by the northern half of the

western side of section 14 in the parish Nalangil; extent of eastern boundary $5\frac{1}{2}$ miles, separates Mr. Benjamin Boyd and Mr. William Robertson's run; bounded on the south by a plough furrow running in a straight line south-east by east through sections 10, 9, and 13, in the parish Nalangil from lake Corangamite, commencing at south-west corner of section 1 parish Nalangil to the termination of the eastern boundary in section 14, parish Nalangil, extent of southern boundary $3\frac{1}{2}$ miles, separates Mr Benjamin Boyd's run.

No 265.

Strong and Foster

Name of run—St. Mary's

Estimated area—16,000 acres

Estimated grazing capability—1,800 head of cattle

Bounded on the south by the southern ocean; on the east by the river Hopkins; on the north by a fence from the Hopkins to the Merri; and on the west by the river Merri.

No 266.

John Stillard

Name of run—Lower Crawford

Estimated area—10,000 acres

Estimated grazing capability—3,000 sheep

Bounded on the north 4 miles by scrub and Dr. M'Donald; bounded on the west $5\frac{1}{2}$ miles by scrub and Dr. M'Donald; bounded on the south 4 miles by Rearney and Bourke; bound on the east 2 miles by D. O'Neil.

N.B.—This run has been transferred with the sanction of Government to Alexander Thomson, in whose name the lease will accordingly be prepared.

No 267.

Charles Augustus Synott

Name of run—Gheranghemarajh

Estimated area—19,107 acres

Estimated grazing capability—8,000 sheep

Commencing at the crossing place of the Portland Bay road (by way of the Elephant) over the Gnarkeet Creek; and bounded on the west by the said creek; bearing from point to point of the same $181^{\circ} 5'$ miles 10 chains, dividing said run from that occupied by Messrs. O'Phant and Robertson; thence on the south by a line bearing $79^{\circ} 2'$ miles 43 chains dividing said run from that occupied by Messrs J and W Dennis; thence on the east by a line bearing $4^{\circ} 30'$ 66 chains, dividing said run from that occupied by Messrs J and W Dennis; thence by a continuation of the last line 3 miles 12 chains, thence by a line bearing $350^{\circ} 2'$ miles 72 chains; these last two lines dividing said run from that occupied by Messrs Williamson and Blow; thence by a continuation of the same line 49 chains, dividing said run from that occupied by Mr Thomas W Downie; thence on the

north by a line bearing $249^{\circ} 1'$ mile 60 chains thence by a line bearing $280^{\circ} 8'$ chains to the Gnarkeet Creek, thence by a continuation of the same line 15 chains 50 links, thence by a line bearing $343^{\circ} 1'$ mile 7 chains 40 links to the Gnarkeet Creek, thence by a line bearing $336^{\circ} 25'$ chains, thence by a line bearing $324^{\circ} 30'$ 75 chains, 47 links; thence by a line bearing $249^{\circ} 20'$ chains, thence by a line bearing $277^{\circ} 30'$ 41 chains 50 links, thence by a line bearing 200° crossing the Gnarkeet Creek 24 chains, thence by a line bearing 249° 1 mile 32 chains; these last nine lines dividing said run from that occupied by Messrs Tennant and Lyon; thence on the west by a line bearing $201^{\circ} 30'$ 3 miles 8 chains to the Portland Bay road by way of the Elephant, dividing said run from that occupied by Messrs John and Thomas Brown; and thence on the south by the said Portland Bay road 3 miles 70 chains to the commencing point.

N.B.—This run has been transferred, with the sanction of Government, to Francis Ormond, in whose name the lease will accordingly be prepared.

No. 268.

John Stephens

Name of run—St. Stephen's Station

Estimated area—3,200 acres

Estimated grazing capability—400 head of cattle—3000 sheep

Bounded on the east by the river Barwon $1\frac{1}{2}$ miles, on the south by Mr. Armytage for 3 miles to the Colac road, on the west by Mr. Armytage along the Colac road for $1\frac{1}{2}$ miles, and on the north by Mr. Roadknight for 3 miles.

N.B. This run has been transferred, with the sanction of Government, to John Norman McLeod, in whose name the lease will accordingly be prepared.

No. 269.

Donald Cameron Simson

Name of run—Glenisla

Estimated area—96,000 acres

Estimated grazing capability—500 head of cattle—25,000 sheep

Commencing at a large rock at the southern end of the Victoria range, and bounded on the east by the said range northerly about 14 miles to the river Glenelg, on the north by that river downwards about $4\frac{1}{2}$ miles, thence by a line of marked trees northerly about 3 miles, and the Melbourne road north-east $1\frac{1}{2}$ miles, dividing the run from Mr. Carter, and from a marked tree on the road north-westerly about 3 miles, separating it from P. D. Rose, on the west by a line about SSW 5 miles, more or less, to the Black range, by the Black range about 9 miles (dividing it from Splat and Pynsent and Mr. Officer) and lines SSW about 6 miles, and south-east 6 miles to the Glenelg river, dividing it from Mr. Charles Sherratt, and then c

By the Glenelg river upwards about 2½ miles, thence crossing the run at a marked tree on the east bank by a line south about 5 miles, dividing it from Mr. McIntosh, and on the south by a marked tree line east about 8 miles to the commencing point dividing the run from Mr. Parton.

No. 270.

Stevens and Thomson.

Name of run—Yalla Pourra

Estimated area—66,493 acres

Estimated grazing capability—100 head of cattle—22,000 sheep

Commencing from a point on the Fiery creek (Mount Cole bearing 37° 10' distant 13 miles) by a line of 80 chains bearing 315° to a large swamp, round the south-west end of which Messrs. Thomson & Cooper have a right of way of 10 chains from its margin, thence in same direction 286 chains 50 links to a marked tree on the summit of Corinne range, thence along the semi-circular ridge of said range to its junction with the Black range (which terminates the boundary with Messrs. Thomsons and Cooper to the west of Fiery creek) continuing the semicircle along the ridge of the Black range to the top of its highest peak, the distance from point to point being 1½ miles in an easterly direction, thence by a line of 275 chains bearing 241° 30' to a spot distant 2 miles 1280 yards from the Conyallich out station of Messrs Stevens & Thomson, thence by a line of 748 yards bearing 157° 25' to the head of the rocky gully, down the said gully for 226 chains at a general bearing of 150° to a point 730 yards to the south of the Geelong road, thence at right angles to line of said gully for 100 yards to the east, thence by a line of 4½ miles bearing 193° to the summit of Mount Ross which terminates the boundary with Messrs. William McGill & Co., thence by a line of 195 chains bearing 149° 10' to the summit of the southern peak of the double-topped hill, from the summit of the south peak of the double-topped hill by a line of 280 chains bearing 133° which terminates the boundary with Mr. John Fitzgerald, thence by a line of 90 chains bearing 104° to a small clump of Honeysuckle, the largest of which is marked, which terminates the boundary with Mount Burns, thence by a line of 160 chains bearing 61° to a marked tree in the Fiery creek, thence by a line of 265 chains bearing 93° to the summit of the boundary hill, thence by a line of 75 chains bearing 190° which terminates the boundary with Messrs. Johnstone and Campbell, thence by a line bearing 35° to the halfway point between the two adjoining

out-stations of Messrs. Stevens and Thomson and Mr. Philip Black, thence by a line of 474 chains bearing 311° 10' to a point distant 1½ miles to the north of the highest point of Mount Burn, thence by a line of 236 chains bearing 35° 50' to a point halfway between the Fiery creek and the Spring creek, thence by a line of 192 chains, 50 links, bearing 315° to the Fiery creek, which terminates the boundary with Messrs. Thomson and Cooper to the east of the Fiery creek.

No. 271.

Thomas E. Tulloh,

Name of run—Bongmine

Estimated area—15,000 acres

Estimated grazing capability—8,000 sheep

Commencing at the south end of a reedy swamp on the Wannan river, bounded by land occupied by Messrs Stewart and Kemshead WNW ½ north 3½ miles, and west by north 1½ miles, and by White Brothers NNE ½ east 2 miles, then by Messrs Young and Turnbull by a creek ESE 1½ miles, then by Messrs Young and Turnbull, east two miles to a swamp, and by the same parties NNE ½ E, two miles to another swamp, then by G. D. Lockhart, SE ½ E five miles to the Wannan river, and then by the river south-west to the point of commencement.

No. 272.

Tennent and Lyon

Name of run—Gnarkeet

Estimated area—28,290 acres

Estimated grazing capability—50 head of cattle—12,000 sheep

Commencing at a point on the Gnarkeet chain of ponds, 187 chains north from the crossing place of the Mount Elephant road over said creek, and bounded on the south by a line bearing 280° 15 chains 50 links, thence by a line bearing 343° 87 chains 40 links to the Gnarkeet creek, thence by a line bearing 336° 25 chains, thence by a line bearing 324° 30' 75 chains 47 links, thence by a line bearing 249° 20 chains, thence by a line bearing 277° 30' 41 chains 50 links, thence by a line bearing 200° 24 chains, thence by a line bearing 249° 1 mile 32 chains, these last eight lines dividing said run of Gnarkeet from that of Ourangamaraja occupied by C. A. Synott, on the west by a line bearing 304° 30' 141 chains thence by a line bearing 343° 30' 132 chains, thence by a line 301° 30' 23 chains, to a clump of tea-tree, thence by a line bearing 330° 103 chains, thence by a line bearing 283° 30' 83 chains, thence by a line bearing 264° 30' 73 chains 50 links, these last seven lines dividing said run of Gnarkeet from that

occupied by John and Thomas Brown, thence by a line $351^{\circ} 140$ chains, thence by a line bearing $25^{\circ} 88$ chains, these last two lines dividing said run of Gnarkeet from that occupied by Henry Anderson, on the north by a line bearing $74^{\circ} 4$ miles dividing said run of Gnarkeet from that of Henry Anderson above-mentioned, thence by a line bearing $180^{\circ} 58$ chains, thence by a line bearing $132^{\circ} 169$ chains, thence by a line bearing $112^{\circ} 71$ chains 50 links, these last three lines dividing said run of Gnarkeet from that occupied by Duncan Hoyle, on the east by a line bearing $150^{\circ} 6$ miles 5 chains, dividing said run of Gnarkeet from that occupied by William Rowe, thence by a line bearing $159^{\circ} 15' 78$ chains, to top of Synott's Hill, thence by a line bearing $170^{\circ} 23$ chains 75 links, these last two lines dividing said run of Gnarkeet from that of J. W. Downie, on the south by a line bearing $280^{\circ} 8$ chains to the commencing point, on the Gnarkeet creek, dividing said run from that of Curan-gamaraja, occupied by C. A. Synott.

No. 273.

Thomson and Cunningham
Name of run—Mount Emu
Estimated area—40,000 acres
Estimated grazing capability—20,000 sheep

Commencing at a point to the westward of the Mount Emu creek, (Mount Emu bearing $99^{\circ} 50'$ distant 4 miles 34 chains) and bounded on the west by a line bearing $180^{\circ} 4$ miles 36 chains, thence by a line bearing $199^{\circ} 15'$ 57 chains to the centre of Mount Monnot, these last two lines dividing said run from that of Enuk, occupied by Mr. Phillip Black; thence on the south by a line bearing $79^{\circ} 28$ chains 50 links, thence by a line bearing $105^{\circ} 5$ miles 18 chains 50 links to Mount Emu Creek, thence by the said Mount Emu Creek, bearing from point to point of same $135^{\circ} 30'$ 9 chains; the said Mount Emu Creek and last two lines dividing said run from that of Bamgame, occupied by Messrs Wright and Montgomerie; thence by the said Mount Emu Creek, bearing from point to point of same $49^{\circ} 20'$ 2 miles 26 chains 50 links, thence by a gully bearing from point to point of same $117^{\circ} 30'$ 1 mile 13 chains; the said gully and Mount Emu Creek dividing said run from that of Mount Bute, occupied by Mr Duocan Hoyle; thence by a line bearing $71^{\circ} 4$ miles 29 chains dividing said run from that of Emu Hill, occupied by Mrs Mary Linton; thence on the east by a line bearing $341^{\circ} 1$ mile 41 chains, thence by a line bearing $301^{\circ} 10'$ 4 miles 37 chains to Baillie's Creek, thence by a line bearing $328^{\circ} 1$

mile 47 chains; these last three lines dividing said run from that of Carngham, occupied by Messrs Russell and Simson; thence on the north by a line bearing $252^{\circ} 37$ chains, thence by a line bearing $263^{\circ} 45'$ 5 miles 16 chains to the Mount Emu Creek; these last two lines dividing said run from that of Lillaree, occupied by Messrs George and John Macredie; thence by the Mount Emu Creek, bearing $182^{\circ} 15$ chains, and thence by a line bearing $249^{\circ} 1$ mile to the commencing corner, dividing said run of Mount Emu from a portion of land claimed by Mr. Phillip Black as a watering place.

No 274.

Joseph Tolson
Name of run—Native Creek
Estimated area—12,925 acres
Estimated grazing capability—5,000 sheep

Commencing at a point in the Forest between the Leigh and the Native Creek (the junction of the said Leigh with the Barwon, bearing 143° distant 2 miles six chains); and bounded on the west by a line bearing $334^{\circ} 30'$ 5 miles 17 chains; thence on the north by a line bearing $58^{\circ} 54$ chains to the Native Creek, thence crossing the Native Creek by a line bearing $77^{\circ} 2$ miles 17 chains, thence by a line bearing $89^{\circ} 30'$ 2 miles 13 chains; these last 4 lines dividing said run from that of Golf Hill, occupied by the Clyde Company; thence on the east by a gully, general bearing $161^{\circ} 4$ miles 2 chains, dividing said run from that occupied by Mr. James Bruce; and thence on the south by a line general bearing $246^{\circ} 4$ miles 7 chains, and thence by a line general bearing $205^{\circ} 30'$ 39 chains to the commencing corner; these last two lines dividing said run from that occupied by Messrs Willis and Swanston.

N.B.—This run has been transferred with the sanction of Government to Mr. C. A. Synott, in whose name the lease will accordingly be prepared.

No. 275.

Charles Thomas
Name of run—Heathfield
Estimated area—56,000 acres
Estimated grazing capability—300 head of cattle—6,000 sheep

Bounded by a line commencing at a point $1\frac{1}{2}$ miles from that point of the western boundary of the Province with South Australia which is situated in lat. $37^{\circ} 37'$ south 20 miles 40 chains, north 27° east of Mount Gambier, and 31 miles north of the coast, and extending 1 mile east to the north road from Mount Gambier to the Glenelg; thence 2 miles 60 chains north-east along Messrs McIntyre and Sinclair's north-west line to the east bank of the Black Heath; thence 3

miles 30 chains east across said road; thence 3 miles 10 chains south-east by south through Stringybark and across the washpool swamp; thence 1 mile 60 chains ESE crossing the Big Swamp; thence 11 miles 30 chains north, through stringybark to Mr. Ewen Cameron's south line; thence 10 miles west to a point 60 chains north of the swamp called Lake Mundy; thence 10 miles south along Mr C. F. M'Kinnon's east line to the point first described.

N.B.—This run has been transferred with the sanction of Government to Mr Hugh M'Eachern, in whose name the lease will accordingly be prepared.

No. 276.

James and John Thomson
Name of run—Keilambete
Estimated area—26,650 acres
Estimated grazing capability—500 head of cattle—12,000 sheep

Commencing at the north-west corner of Lake Terrang; bounded on the south by a river bearing north 80 west 4 miles 13 chains; on the west by a line bearing north 5 miles 66 chains; on the north by a plough line bearing north-easterly to a road 4 miles 60 chains, and from the road by a line bearing south 63 east 3 miles 45 chains; on the east by lines bearing south 26 west 4 miles 40 chains, south 57 east 55 chains, south 42 east across the crater of Mount Moorat, 65 chains a little more or less to a road, south 3, east 1 mile 49 chains to a well; south 10, west 1 mile 15 chains to the south bank of Peejirk Marsh; south 25 west 1 mile 10 chains to Lake Terrang, and by Lake Terrang along the north bank to the commencing point.

No. 277.

Dr. William Thomson
Name of run—Yairam
Estimated area—18,779 acres
Estimated grazing capability—9,500 sheep

Situated on the river Wardy Yallock and bounded by it for $1\frac{1}{2}$ miles up from the public-house, with Mr. Blow, from thence by a plough line running east and west $2\frac{1}{2}$ miles with Messrs. Aitchison, from that by a plough line running south east 4 miles with Mr. Austin, and thence by plough line running south-west $1\frac{1}{2}$ miles with Mr. Harding, from thence by a line running west and north, into lake Warring, across it in the same direction, and the line continued for three miles, and from that point running south-west into the Wardy Yallock; then down the river to its junction with the lakes, across them in a west and north direction with Messrs. Calvert and Bell; from thence by a line running $1\frac{1}{2}$ miles west and north with Messrs. Dennis, from thence across a salt lake in a north-east course, from

that by a line running north, $1\frac{1}{2}$ miles to another small salt lake, across the same in a NNE direction, and then by a line to the Elephant-road $1\frac{1}{2}$ miles, then down the road till it crosses the river below the Frenchman's with Mr. Blow.

No. 278.

William Thomson
Name of run—Park Hill
Estimated area—9,680 acres
Estimated grazing capability—7,000 sheep

Bounded on the west by S. Winter, $2\frac{1}{2}$ miles on south side and three miles on the north side of the river, bounded on the south $4\frac{1}{2}$ miles by D. M'Intyre, on the east and north-east five miles by Donald Cameron, east side of the river and on north-west side of river $2\frac{1}{2}$ miles by De Little.

No. 279.

Thomson and Cooper
Name of run—Challicum
Estimated area—46,252 acres
Estimated grazing capability—100 head of cattle—15,000 sheep

Commencing on the crest of the range dividing the upper waters of the Fiery creek from those of the river Hopkins at a point from which Mount Sanjereen bears 340° distant 5 miles, thence by a line along the crest of the said dividing ranges bearing from point to point of same 221° 356 chains, this line separating the said run of Challicum from the run of Messrs. McGill & Co., thence by a line along the crest of a spur of the said dividing range bearing from point to point of same 153° 34 chains to a marked tree, thence by a line bearing 135° to a swamp (round the south-western end of which there is a right of way 10 chains wide,) 264 chains, 50 links, thence by a line continued in the same direction 292 chains, 50 links; thence by a line bearing 218° 50' 256 chains, 13 links, thence by a line bearing 131° 10' 485 chains, the last four lines separating the said run of Challicum from the run of Messrs. Stevens and Thomson, thence by a line bearing 32° to a point halfway between the spring called Lacapot, and a spring on the run of Mr. P. Black on or near the Mount William road, sometimes called Paddy's spring 148 chains, thence by a line bearing 79° 30' 156 chains, 80 links, thence by the arc of a circle of 1 mile radius, the centre of the said circle being at the spring known as Warrapinjoe, bearing from the last point 344° 45' 156 chains, measured along the chord of the said arc, the last 2 lines and a part of said arc separating the said run from that of Mr. Philip Black, thence along a certain road or dray track leading

from the said station of Warrapinjoe to Messrs. A. & C. Campbell's home station bearing from point to point of same 1° 120 chains, the rest of said arc and the last line separating the said run of Challicum from that of Messrs. Alexander Russell & Co.; thence by a line bearing 278° 45' 84 chains, thence by a line bearing 338° 10' 216 chains, thence by a line bearing 343° 55' to a point in Campbell's branch of the Fiery creek halfway between Challicum home station and Mr. Campbell's station called Woodenageroe 336 chains, thence by a line bearing 309° 15' to a marked tree in the Challicum branch of the Fiery creek 175 chains, thence by a line bearing 301° 30' to the point of commencement 230 chains, the last 4 lines separating the said run of Challicum from the run of Messrs A. & C. Campbell.

No. 280.

George and Harry Thomson
Name of run—Challicum
Estimated area—32,200 acres
Estimated grazing capability—75 head of cattle 10,500 sheep

Commencing on the crest of the range dividing the upper waters of the Fiery Creek from those of the River Hopkins at a point from which Mount Sangareen bears 340° distant about 5 miles, thence by a line along the crest of the said dividing range, bearing from point to point of same 221° 356 chains, this line separating the said run of Challicum from the run of Messrs M'Gill and Co., thence by a line along the crest of a spur of the said dividing range to a certain marked tree bearing 153° 34 chains, thence by a line bearing 135° to a swamp round the south-western end of which there is a right of way 10 chains wide 264 chains 50 links, thence by a line continued in the same direction 292 chains 50 links, thence by a line bearing 218° 50' 256 chains 13 links, thence by a line bearing 131° 10' 34 chains, the last 4 lines separating the said run of Challicum from the run of Messrs Stevens and Thomson, thence by a line bearing 63° to a creek called the Salt Spring Creek 276 chains, thence along the said creek bearing from point to point of same 69° 198 chains, the last line and said creek separating the said run from that of Mr. D. B. Cooper, thence by a line bearing 338° 10' 204 chains, thence by a line bearing 343° 55' to a point in Campbell's branch of the Fiery Creek, halfway between Challicum home station and Mr. Campbell's station; called Woodenageroe 336 chains, thence by a line bearing 309° 15' to a marked tree in the Challicum branch of the Fiery Creek; 175 chains, thence by a line bearing 301° 30' to the point of commence-

ment 230 chains, the last 4 lines separating the said run of Challicum from the run of Messrs A. and C. Campbell.

No. 281.

Duncan Elphinstone Cooper
Name of run—Warrapinjoe
Estimated area—14,052 acres
Estimated grazing capability—25 head of cattle—4700 sheep

Commencing at a point from which the bald hill called Mount Ruhn bears 210° 30' distant about one mile, thence by a line bearing 131° 10' 431 chains, this line separating the said run of Warrapinjoe from the run of Messrs. Stevens and Thomson, thence by a line bearing 32° to a point half-way between the spring called Lackapot and a spring on the run of Mr. Phillip Black, on or near the Mount William road, sometimes called Paddy's spring 148 chains, thence by a line bearing 79° 30' 156 chains 80 links, thence by the arc of a circle of one mile radius, the centre of the said circle being at the spring known as Warrapinjoe, and bearing from the last point 344° 45' 156 chains measured along the chord of the said arc, the last two lines and a part of the said arc separating the said run from that of Mr. Phillip Black, thence along a certain road or dray track leading from the said station of Warrapinjoe, to Messrs. A. and C. Campbell's home station, bearing from point to point of same 1° 120 chains, the remaining part of said arc, and the last line separating the said run of Warrapinjoe from the run of Messrs. Alexander Russell and Co., thence by a line bearing 278° 45' 84 chains, thence by a line bearing 338° 10' to the creek called the salt-spring creek, 15 chains, the last two lines separating the said run of Warrapinjoe from the run of Messrs. A. and C. Campbell, thence along the said salt-spring creek, bearing from point to point of same 249° 198 chains, thence by a line bearing in the same direction to the point of commencement 276 chains, the said creek and last line separating the said run of Warrapinjoe from the run of Messrs. G. and H. Thomson.

No. 282.

John Thomson jun., and William Campbell Thomson
Name of run—Warrambine
Estimated area—26,301 acres
Estimated grazing capability—10,000 sheep

Bounded on the north by a line running from Warrambine Hill towards the river Leigh, $2\frac{1}{2}$ miles in length, on the east by a line running parallel with the river Leigh $11\frac{1}{2}$ miles in length, on the south-west by a line running to Gow's Hill, six miles in length, on the west by

a line running from Gow's Hill, five miles in length, from that point to Warrambine hill by a line running north and south $2\frac{1}{2}$ miles in length.

No. 283.

Roderick Urquhart
Name of run—Kinkell
Estimated area—16,000 acres
Estimated grazing capability—640 head of cattle

Situated west by north 10 miles from the junction of the Crawford & Glenelg rivers, commencing at a point on Mr. Beilby's boundary line with Messrs Scott $\frac{1}{2}$ mile north of the road to Mount Gambier, thence a line of marked trees bearing west $14^{\circ} 15'$ north 2 miles, 30 chains to Bates' road to Portland, thence a line of marked trees bearing west $4^{\circ} 15'$ north 1 mile, 65 chains, to a ringed tree, forming boundary with J. W. Beilby, thence a line of marked trees bearing south by west 6 miles to the heaths on the Glenelg, forming boundary with James Lysight, thence a line south-east to the Glenelg, thence the Glenelg upwards to Messrs. Scott's boundary, thence said boundary lines northwards to the starting point.

No. 284.

George Urquhart & Alexander McIntosh
Name of run—Glendinning
Estimated area—34,928 acres
Estimated grazing capability—150 head of cattle—8000 sheep

Starting from the south-west point of the Black range, thence a line north-east $55^{\circ} 78'$ chains, bounded by Messrs Riley and Barker, and Parton, thence a line north-west $4^{\circ} 43'$ chains, bounded by D. C. Atkinson to the Glenelg, thence a line on the Glenelg south west $43^{\circ} 234'$ chains, bounded by D. C. Simson, thence a line on the Glenelg north-west $33^{\circ} 597'$ chains, bounded by Mr. Sherratt, thence a line south-west $13^{\circ} 610'$ chains, bounded by Mr Clark, thence a line south-east $45^{\circ} 45'$ 120 chains, bounded by S. Cadden, thence a line south-west $8^{\circ} 184'$ chains, bounded by S. Cadden, thence a line south-east $80^{\circ} 249'$ chains, bounded by Messrs. D. and D. C. Kennedy, thence a line north-east $54^{\circ} 146'$ chains, bounded by Messrs D. and D. C. Kennedy, thence a line south-east $89^{\circ} 172'$ chains, bounded by Messrs. D. and D. C. Kennedy to the starting point.

No. 285.

Charles Augustus Von Steiglitz
Name of run—Durdidwarrah
Estimated area—24,000 acres
Estimated grazing capability—8000 sheep

Bounded on the south by the Brisbane ranges, on the east by Capt. Atkinson's

station, on the north by Mr. Wallace's station, on the west by Mr. McLeod's station, and on the south-west by Mr. Sharp's station.

No. 286.

Richard Vine
Name of run—Woodbourne Steep Bank Rivulet
Estimated area—7,260 acres
Estimated grazing capability—50 head of cattle—3000 sheep

Commencing at a point on the (north) Glenelg road from Portland, and bounded by said road on north-east bearing south-east 4 miles, dividing from lands occupied by T. Bilstone, on the east by said road bearing south $1\frac{1}{2}$ miles, and a furrow bearing SSW $1\frac{1}{2}$ miles dividing from lands occupied by J. Corney, on the south-west by a furrow bearing WNW 4 miles, dividing from lands occupied by G. Robertson, on the north-west by a line of marked trees through stringybark and heath, bearing NNE 4 miles.

No. 287.

George Winter
Name of run—Taharra and Winninburn
Estimated area—24,000 acres
Estimated grazing capability—1100 head of cattle—10,000 sheep

North boundary Wannon river, extent $4\frac{1}{2}$ miles, west two miles by W. and J. Robertson, south-west two miles by Frank Henty, south 1 mile by M'Crae, east $4\frac{1}{2}$ miles by Mr. S. Winter, on the north bounded by Messrs. Young and Turnbull, for three miles north-east and east by S. Winter, $4\frac{1}{2}$ miles; on the south by the Wannon, extending $4\frac{1}{2}$ miles; on the west by A. Pilleau, three miles.

No. 288.

John Ware
Name of run—Mount Napier Road
Estimated area—3,200 acres
Estimated grazing capability—3,000 sheep

Bounded on the north side by a run occupied by Messrs Campbell, M'Knight, and Irvine, by a marked line 1 mile 30 chains, running ESE, east by Mr Chamberlain's marked line 4 miles 52 chains south 21° east; south by Mr. Kibble's marked line 1 mile 2 chains west 82° north; west by Messrs. Aplin, Mount Napier Road 5 miles, road running south 21° east.

N.B.—This run has been transferred with the sanction of Government to William Rutledge, in whose name the lease will accordingly be prepared.

No. 289.

J. G. Ware
Name of run—Woorioyrite
Estimated area—20,500 acres
Estimated grazing capability—12,000 sheep

Bounded on the east by Cole for about $4\frac{1}{2}$ miles, commencing at a point in the Spring Valley at a plough furrow which divides M. Hall from J. G. Ware, on the north by M. Hall, by a plough furrow to Taylor's river, bearing about south 83° west 1 mile 47 chains, thence by Taylor's river for about 1 mile 30 chains to a small gully at which the tea-tree marsh joins Taylor's river, thence by the northern bank of the tea-tree marsh to the tea-tree spring, the boundary line passing through the middle of the tea-tree, thence by the centre of the marsh to the Elephant-road, on the north-west by Bostock and M. Hall, the boundary line being the Elephant-road for about 4 miles 12 chains to Gibb's road, on the west by Webster, the dividing line being Gibbs road for about 2 miles and 15 chains to its junction with a plough furrow which divides Webster from Thomson; on the south-west by Thomson by a line bearing about south 55° east being a line of marked trees dividing Thomson from Ware, on the south (by Black and Craig) by a three mile line of marked trees to Taylor's river, thence by Taylor's river to plough furrow dividing Craig from Ware, and by the said plough furrow bearing about north 73° east for 2 miles 30 chains to N. Cole's western boundary line, and thence by the said boundary line for about 4 miles 40 chains to the point of commencement in Spring Valley.

No. 290.

J. G. & J. Ware
Name of run—Minjah, late Hamilton's
Estimated area—22,750 acres
Estimated grazing capability—1,200 head of cattle, 4000 sheep

Commences at the junction of a small creek with scrubby creek, bounded on the north by scrubby creek, bearing westerly 4 miles more or less to a marsh, following the SW bank of the said marsh 37 chains, thence by a line bearing S 50° west, 21 chains, to a plough line, by the plough line, north-westerly, to a road 1 mile 40 chains, by the said road southerly, to the head of a creek, 2 miles 30 chains; by the creek, southerly, from point to point, 2 miles more or less, thence by lines S 63° W 1 mile 6 chains to a water hole, S 55° W 3 miles 25 chains to a swamp, from the swamp S 40° E 2 miles, N 80° E 4 miles, to a water hole in Spring Creek, N 71° E 2 miles 40 chains, to a creek; following up the creek 2 miles 40 chains, more or less, by lines N 2° W 32 chains to a road, N 22° $30'$ E 1 mile 23 chains to a creek, and by this creek to the commencing point.

No. 291.

Trevor Winter
Name of run—Nagertu

Estimated area—8000 acres
Estimated grazing capability—6,000 sheep

The boundary begins from a large swamp on the Wannan, half-way between the two falls, from thence by a plough furrow 1 mile alongside Mr. De Little, to mail road from the Grange, thence up the road $1\frac{1}{4}$ miles, thence about E by a plough furrow alongside of Mr. Keppin, about $2\frac{1}{2}$ miles, thence to Mr. Bainbridge 8 miles by a plough furrow, from Mr. Bainbridge by a plough furrow 4 miles, alongside Messrs. Mercer and Lockhart's run, to the Wannan, which is the boundary on the northern side.

N. B.—This run has been transferred, with the sanction of Government, to Thomas Murphy, in whose name the Lease will accordingly be prepared.

No. 292.

Samuel Pratt Winter
Name of run—Spring Valley
Estimated area—20,000 acres
Estimated grazing capability—8,000 sheep

The station is bounded on the N and NW by the stations of George Winter and Messrs. Young and Turnbull; on the NE and E by the stations of R. De Little and W Thomson; on the S and SE by the stations of Messrs. Coldham & M' Rae and M' Intyre.

No. 293.

Edward Willis and Charles Lambert
Swaunston

Name of run—Kout Narin
Estimated area—112,000 acres
Estimated grazing capability—1,500 head of cattle—50,000 sheep

This run is partly in the Wimmera district and partly in that of Portland Bay on the river Glenelg lying about 90 miles in a north by westerly direction from the town of Portland; bounded on the north by the stations of Blair, Stirling, and Fairburn and Campbell; on the south by that of Bilston and strongy bark country; on the east by Power's and Watson's stations; and on the west by that of W. F. Splatt, the whole being intersected by the Glenelg river and the Chetwynd Pigeon Pond and Sugar Loaf Creeks.

No. 294.

John Dixon Wyclaskie
Name of run—Nanapumelap
Estimated area—40,120 acres
Estimated grazing capability—14,000 sheep

Starting from the plough furrow at the Hopkins River, adjoining Messrs W. and A. Ewing; thence a line west 234 chains; bounded by W. and A. Ewing, thence a line north-west $25\frac{1}{2}^{\circ}$ 63 chains, thence a line north-west $46\frac{1}{2}^{\circ}$ 82 chains, thence a line north-east $15\frac{1}{2}^{\circ}$ 163 chains;

thence a line north-east 49° 247 chains, thence a line north-west $4\frac{1}{2}^{\circ}$ 161 chains, thence a line north-west $53\frac{1}{2}^{\circ}$ 132 chains; the last six lines are bounded by Messrs Hutchinson and Kidd; thence a line north-east 70° 193 chains, thence a line south-east 75° 159 chains, thence a line east 310 chains; the last three lines are bounded by Mr. Robert Adams, thence a line south-west 45° 82 chains; bounded by Mr. Robert Patterson, thence a line south-west $2\frac{1}{2}^{\circ}$ 683 chains, bounded by Messrs Patterson and Gibb, thence a line north-west 85° 355 chains, bounded by W. and A. Ewing.

No. 295.

Thomas Wentworth Watson
Name of run—Satirmer
Estimated area—20,000 acres
Estimated grazing capability—100 head of cattle—8,000 sheep

Beginning at the upper waterhole in Turkey Bottom Creek, and bearing south-west $4\frac{1}{2}$ miles, Henty's boundary; then north-west 5 miles to the Wando, J. G. Robertson's boundary; then 2 miles north-west, W. and F. Corney's boundary; then $3\frac{1}{4}$ miles north by east to Steep Bank Rivulet, Bilston's boundary; then 6 miles ESE Willis and Swanston's boundary; then south by east $3\frac{1}{4}$ miles to Turkey Bottom Creek, D. Power's boundary line.

N.B.—This run has been transferred with the sanction of Government to Alexander Davidson and Duncan Robertson, in whose names the lease will accordingly be prepared.

No. 296.

Robert Whitehead
Name of run—Spring Creek
Estimated area—24,000 acres
Estimated grazing capability—1,800 head of cattle—17,000 sheep

Bounded by a line of marked trees bearing south by west $1\frac{1}{4}$ miles to a water hole, thence bearing SW by west $3\frac{1}{4}$ miles 9 chains to a tea tree swamp, the boundary line being a plough furrow and marked trees, and bounded by Joseph Were, the line is marked trees and still bears SW by west for $1\frac{1}{4}$ miles 13 chains to the Port Fairy road, and bounded by George Youll, the road is then the boundary for $\frac{3}{4}$ mile bearing north, then a line of marked trees bearing NNW for $4\frac{1}{4}$ miles bounded by Dawson and Mitchell, the line of marked trees then runs north $\frac{3}{4}$ mile and bounded by Matthew Gibb, the boundary is then a gully bearing ESE 1 mile 15 chains, thence a plough furrow bearing east $\frac{3}{4}$ mile, it then bears SSE for $3\frac{1}{2}$ miles to a water hole on the creek and bounded by E. Bell, the plough furrow then bears NE $\frac{3}{4}$ mile and bounded by Robert Clarke, the boundary line is then marked trees bear-

ing south by east $1\frac{3}{4}$ miles -17 chains and bounded by Peter M'Arthur, a road leading from M'Arthur's to Youll's is then the boundary and bears east by south 1 mile bounded by Charles Payne, thence $1\frac{3}{4}$ miles to a tea tree gully bearing SSE 1 mile to the creek, the creek is then the boundary $1\frac{1}{4}$ miles nearly SE and bounded by Joseph Were.

No. 297.

James Webster
Name of run—Mount Shadwell
Estimated area—42,700 acres
Estimated grazing capability—25,000 sheep

Commences at a point on the Salt creek, the flat topped hill bearing north 50° E, bounded on the S by a line bearing S 81° E 1 mile 46 chains, thence by lines bearing north 51° east 1 mile 17 chains, north 33° east 1 mile 72 chains, south 67° east 2 miles 16 chains, south 26° east 4 miles 53 chains to a road, by the road north 62° east 54 chains to another road following the last mentioned road, the general bearing being S 20° east 2 miles 21 chains to a plough line, which plough line is the boundary with Thomson bearing south 34° west 6 miles 46 chains, north 75° west 2 miles 60 chains to a creek, by the said creek westerly to a point south from Winnidad Swamp, north 5 miles 15 chains to the Portland road, by the said road north-easterly to the Salt creek 3 miles 57 chains, and by the Salt creek to the commencing point 2 miles 12 chains a little more or less.

** * The preceding five claims having been accidentally published without correction, we now re-publish in their corrected form.*

No. 298.

John Winter
Name of run—Banshaw
Estimated area—26,000 acres
Estimated grazing capability—13,000 sheep

Commencing at the south-east angle of Messrs. Learmouth's Borrumbet station on the Borrumbet road, and bounded by that road east 48 chains, thence by a line south 235 chains to a marked tree in Donald's bottom; the above lines divide this station from Youille's; from the same tree north 60 east 25 chains, and thence by a line running between two waterholes on the Native Dog creek to the lowest of two waterholes distant about $2\frac{1}{4}$ miles from Messrs. Learmouth's old home-station south 71° east 227 chains, thence by the same creek to Messrs. Learmouth's north-west boundary; the above lines divide this station from Forbes, thence by a line north 60° east (being Messrs. Learmouth's north-west boundary) passing up the boundary gully to a

point between two waterholes on the Leigh river; and thence by a line north 82 east 142 chains to the Portland road, thence by that road to Shoemaker's road about 19 chains; the above lines divide this station from Messrs. Learmouth's, from the Portland road proceeding easterly along Shoemaker's road about 44 chains to the Blind creek, thence by the Blind creek for about 72 chains, thence by a line bearing north 26 west, 84 chains, to Yuille's south-east angle; the above lines divide this station from Scott's and the Inn reserve, thence from Yuille's south-east angle to a marked tree on the east side of Yuille's wash-pool of the river Leigh north 69 west about 149 chains (to a three-pronged marked tree) thence by a south line 5 chains, thence to a marked tree in the flat near the river 41 chains, thence to a newly marked tree on the west bank of the river Leigh 7½ chains, thence to the new marked tree on the bank of the river 17 chains, and from the same tree 3 chains to the old marked tree, thence to three marked trees about 12 chains south from the little lagoon north 54 west 175 chains, thence from the three marked trees to a newly marked Gum tree north 5½ west 176 chains, thence north 50 west 140 chains to Waldie's boundary; the above lines divide this station from Yuille's, thence from Yuille's NW angle west about 22 chains to the hut-marsh, thence to a stake in the centre of the marsh, and from the stake to a marked tree north 60 west 33 chains, thence by a line north 3° west 114 chains to the north-east angle; the above lines divide this run from Waldie's, from the north-east angle to Mount Dundas, by lines bearing north 53 west 16 chains, and thence south 64 west 245 chains leaving Clarke's marsh to the north; the above lines divide the run from Clarke's; from Mount Dundas by a line bearing south 52 east 160 chains, leaving Mount Mud on the east side, thence south 22 east 64 chains, thence south 40 west 34 chains and thence south 145 to Learmouth's south-east angle on the Borrumbet road or the point of commencement; the above lines divide this station from Messrs. T. and S. Learmouth's Borrumbet station.

No. 299.

Charles James Whyte
Name of run—Koroite
Estimated area—8000 acres
Estimated grazing capability—6000 sheep

Boundary with Pilleau, from junction of Konongwootong creek with Bryant's creek to junction of Henty's Catfle Flat creek with Bryant's creek, WSW, general bearing 2¼ miles 17 chains, boundary

with E. Henty, thence north ¼ mile ½ chain along the creek NNE ¼ mile 6 chains, plough furrow north-east by north ½ north 1½ miles, 13 chains, plough furrow terminates on a wooded rocky point, thence NNE, inclining to north 1½ miles, 9 chains, to intersection with Mr. Henty's plough furrow with creek or marsh, this line the trees are marked, Mr. Henty's plough furrow, thence WNW 38 chains, north-west 28 chains, WNW 40 chains; NNE 40 chains, north-east by north ½ north 70 chains, NNW 54 chains, boundary with Whyte, Brothers, south-east by east 1½ miles south by east 1½ miles 9 chains, these two lines are ploughed; boundary with Messrs. McConochie SSE ½ south 2 miles, 3 chains, to a bluff about ½ mile north of Konongwootong creek, the trees are marked, thence to a Sugar Loaf hill on Bryant's creek 2¼ miles ESE boundary, along Bryant's creek to junction with Konongwootong with Bryant's creek, with Messrs. Young and Turnbull, Richardson, Bell, and A. Pilleau, west by south, general bearing 2¼ miles.

No. 300.

John Wallace
Name of run—Ballank
Estimated area—17,000 acres
Estimated grazing capability—10,000 sheep

Bounded by Cowie and Stead west side of Moorabool by a gully running about WNW from the run 1½ miles and by marked trees south-west by west 1 mile until it joins a creek, by the creek about NNW 1½ miles until it joins Dibble and Egerton's boundary, marked by a plough track running west by south ½ south ½ of a mile by a gully running south ½ of a mile until it joins the western branch of the Moorabool with McLeod, by the western branch of the Moorabool running 3¼ miles south by east until it joins the eastern branch with McLeod, on the east side of river by a plough track running 1½ miles, east by north ¼ mile ESE ¼ mile, south ¼ mile south-east, and joins the creek at Stieglitz's with C. A. Von Stieglitz by the creek for 300 or 400 yards; by a plough track 2¼ miles east ¼ north, and ¼ mile north, and ¾ of a mile east until it joins Captain Atkinson's boundary, by Captain Atkinson's 2¼ miles north ½ west ¼ north-west, by Cowie and Stead, by a plough track running 3 miles west by north ½ north when it joins the eastern branch of the Moorabool.

No. 301.

William Wright and James Montgomerie
Name of run—Bamjanic
Estimated area—21,734 acres
Estimated grazing capability—100 head of cattle—10,000 sheep

Commencing at a point on the Mount Emu creek, distant 5 miles 44 chains from Mount Emu, on a bearing of $173^{\circ} 40'$ and bounded on the east by a natural ditch bearing $135^{\circ} 30'$ 22 chains, 50 links, thence by a line marked by a plough furrow bearing 151° 151 chains, 50 links, thence by another line bearing 251° 3 miles 13 chains, thence by a line bearing $203^{\circ} 30'$ 110 chains, said ditch and lines dividing the said run of Bamjanie from the run of Mount Bute, occupied by Duncan Hoyle, thence by a line bearing 234° 76 chains 45 links, dividing the said run of Bamjanie from the run of Borri Yallock occupied by Henry Anderson, on the south and west by a line bearing 298° 2 miles 42 chains to the Mount Emu creek, also dividing the said run of Bamjanie from the said run of Borri Yallock, thence by the Mount Emu creek, bearing $4^{\circ} 30'$ 87 chains from point to point, thence by a line bearing 298° 4 miles 30 chains, thence by a line bearing $322^{\circ} 30'$ 86 chains, the said part of Mount Emu creek and two last lines dividing the said run of Bamjanie from the run of Bangal, occupied by Alexander Anderson, junior, and on the north by a line bearing 79° 4 miles 42 chains 50 links, to the centre of Mounot hill, dividing the said run of Bamjanie from the run of Enoch, occupied by Phillip Black, thence by a line bearing 79° 28 chains 50 links, thence by a line bearing 105° 5 miles 18 chains 50 links to the Mount Emu creek, and thence by the Mount Emu creek bearing $135^{\circ} 30'$ 9 chains to the commencing point, said last two lines and part of the Mount Emu creek dividing said run of Bamjanie from the run of Mount Emu, occupied by Messrs. Thomsons and Cunningham.

No. 302.

Wilson Brothers

Name of run—Woodburns

Estimated area—14,000 acres

Estimated grazing capability—4000 sheep

Situated on Main Creek, bounded on the west and north by the marked boundary lines with G. F. Read, Esq., on the north-east by a ploughed line with J. N. M'Leod, Esq., on the south by a line halfway between the stations of Wilson Brothers, and those of Mr. Sutherland, and on the south-west by a marked tree with George Russell, Esq., and partly by the river Leigh.

No. 303.

Whyte Brothers

Name of run—Konongwootong

Estimated area—57,000 acres

Estimated grazing capability—50 head of cattle—25,000 sheep

Starting point, Konongwootong creek, west $1\frac{1}{2}$ miles, north 32 chains, north-

west 16° 77 chains, north-west 55° $1\frac{1}{2}$ miles, C. J. Whyte. South-east 5° 12 chains, south-west 12° 16 chains, north-west 45° 38 chains, north-east 15° 12 chains, north 23 chains, north-west 18° 32 chains, north-west 60° 19 chains, north-west 25° 14 chains, north-west 9° 16 chains, north-east 5° 16 chains, north-west 45° 9 chains, north-east 10° 4 chains, west 16 chains, Edward Heuty. North-east 7° 2 miles 55 chains, Power. South-east 83° 2 miles 68 chains, Campbell. South-east 83° 1 mile 10 chains, south-east 50° 75 chains, south-east 55° 24 chains, south-east 60° 2 miles 52 chains, west 2 miles, north-east 25° $2\frac{1}{2}$ miles, north-east 45° $2\frac{1}{2}$ miles, Cadden. South-east 40° 5 miles, Dundas range; south-west 45° 4 miles, Lockbart. North-west 75° 2 miles, south-west 80° $1\frac{1}{2}$ miles, north-west 75° 1 mile, south 1 mile 54 chains, south-east 45° 1 mile 8 chains, south-west 75° $\frac{1}{2}$ mile, north-west 60° 1 mile 26 chains, north-west 50° 20 chains, north-west 70° $1\frac{1}{2}$ miles, Young and Turnbull. South-west 24° $2\frac{1}{2}$ miles, Talloh. North-east 8° 70 chains, north-east 5° 94 chains, north-west 45° 1 mile 20 chains, west 75 chains to the starting point, M'Conochie.

No 304.

William Walker, Junior

Name of run—Squattlesea-mere

Estimated area—32,000 acres

Estimated grazing capability—1,200 head of cattle
