#### CROWN LANDS BEYOND THE SETTLED DISTRICTS.

(RENEWAL OF PASTURAGE LICENSES.)

HIS Excellency the GOVERNOR, with the advice of the Executive Council, directs it to be notified for general information, that the state of the survey not yet admitting of the issue of Leases for Runs beyond the Settled Districts, all existing Licenses for the occupation of Crown Lands so situated, will be renewed on the 1st July next, on the same terms as Licenses have been granted for the now current year, subject of course to the adjustment of the License fee, according to the quantity of Stock returned by the Commissioner as pastured on every such Run.

2. The Licenses must be taken out on or before the 30th day of September next.

3. If within the year commencing on 1st July next, the Governor shall be in a position to grant Leases of Runs under Her Majesty's Order in Council, any Licensee under this Notice, who may obtain a Lease, will receive credit in the payment of his first year's Rent, for so much of the amount paid for his License, as may be proportionate to the unexpired part of the term for which the License was granted.

#### NAVIGATION OF THE RIVER MURRAY.

AT the instance of the Government of South Australia, His Excellency the GOVERNOR has been pleased to direct the publication of the following notice, offering a bonus for the successful navigation of the River Murray, by means of Steamers.

*By His Excellency's Command,  
E. DEAS THOMSON.*

#### SOUTH AUSTRALIA.

##### STEAM NAVIGATION OF THE RIVER MURRAY.

*Extract Minute of the Proceedings of the Legislative Council, at its Session on the 6th June, 1850:—*

Moved by Captain Bagot, seconded by the Colonial Secretary, and carried—

That His Excellency be requested to place the sum of £4000 upon the Estimates of 1851, for the purpose of granting a bonus of £2000 each, for the first and second Iron Steamer, of not less than forty-horse power, and not exceeding two feet draft of water when loaded, that shall successfully navigate the waters of the River Murray from the Goolwa to (at least) the junction of the Darling.

*True Extract,  
W. L. O'HALLORAN,  
Clerk of Council.*

*Adelaide, South Australia,  
Colonial Secretary's Office, 7th August, 1850.*

#### NOTICE.

THE Governor and Legislative Council of South Australia having offered a bonus of £4000, to be equally divided between the two first Iron Steamers of not less than forty-horse power, and not exceeding two feet draft of water when loaded, as shall successfully navigate the waters of the River Murray, from the Goolwa to (at least) the junction of the Darling, computed to be about 551 miles; and provision for the said sum of £4000 having been made in the Ordinance, No. 9, of 1850, entitled, "An Ordinance for the Further Appropriation of the Revenue for the year 1850, and for the General Appropriation of the Revenue for the year 1851":

Notice is hereby given, that the above awards will be, severally, claimable in respect of the Two First Vessels which shall, at any time, from and after the 1st day of October, 1851, successfully navigate the Murray under the prescribed conditions.

The following particulars, collected from various sources, respecting the waters of the Murray between the above-named points, are published for general information:—

The great surf that is constantly breaking on the Encounter Bay coast, at the spot where the River Murray discharges itself into the sea, renders the entrance into the river from the sea most dangerous, and indeed impracticable; hence, any steamer intended for the inland navigation must either be built, or put together, on the shores of the River or Lake.

Commencing from the Goolwa, the navigation is through a channel about fourteen miles long, and averaging a mile in width, with a depth of water varying from six to thirty-two feet.

The Goolwa Channel then opens out into Lake Victoria, a sheet of water thirty miles long by ten broad, the navigation across which is twenty-five miles in length, the depth of water varying from six to eighteen feet. Fresh water commences about the middle of this Lake.

The River Murray thence to Moorndee, 121 miles distant, is from 150 to 250 yards wide, and varies from ten feet in depth to fourteen fathoms; to this point there are no obstructions to navigation.

From Moorndee to the Darling, 391 miles distant, sand shoals exist in nearly every reach; but a channel is invariably to be found in which there is three feet of water at the lowest season, which is the month of July.

The annual floods increase the depth of water from eight to twelve feet.

The current varies in strength according to the season, and the distance from the sea, and its rate is from one and a-half to three miles per hour.

Abundance of wood for fuel is to be obtained along the banks of the river generally, throughout its whole length.

Wool, tallow, and hi'es would, probably, in the first instance form the chief articles of transport.

Colonial Secretary.
