NOTICE TO MARINERS.

HIS Excellency the GOVERNOR-GENERAL directs the republication, for general information, of the following Notice to Mariners, issued by the Government of Bengal, respecting the removal of the South Channel Floating Light, and the distinction of the Gasper Channel and Outer Floating Light.

*By His Excellency's Command,
E. DEAS THOMSON.*

NEW PILOT STATION FOR THE SOUTH-WEST MONSOON.—DISTINCTION OF LIGHTS.

NOTICE is hereby given, that from and after the 15th of March, 1852, the Pilot Station for the South-west Monsoon will be changed to the position described in the following Sailing Directions of the Master Attendant of this Port; and that from and after the date specified, the Eastern Channel Light Vessel will show a bright red light instead of a plain one, as at present, to distinguish it from the Gasper Channel Light which bears from it about N.N.W., distant 22 miles.

By order of the Superintendent of Marine,
JAS. SUTHERLAND,
Secretary.

Fort William,
The 6th May, 1851.

SAILING DIRECTIONS FOR VESSELS REQUIRING PILOTS DURING THE SOUTH-WEST MONSOON AT THE NEW STATION, ON THE NORTH-EAST PART OF THE PILOT'S RIDGE.

False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ north, and longitude $86^{\circ} 47'$ east, and a buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ north, and longitude $87^{\circ} 42'$ east, the buoy therefore bears from False Point Light House north $59^{\circ} 49'$ east true, and distant $59\frac{1}{2}$ miles.

A vessel therefore after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about west-south-west 10 or 15 miles distant, when she will be in 11 or 12 fathoms, then steer east-north-eastward when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge. She should then regulate her course so as to keep between the Ridge and 27 fathoms, when by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the north-east of the Light Vessel stationed during the south-west Monsoon in close proximity to the buoy on the ridge.

The soundings to seaward of the Pilot's Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessel; and on making the former at night, they are strongly recommended to heave to, at a proper distance till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessel in the darkness of the night.

The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ north, and longitude $88^{\circ} 14'$ east, and therefore bears from the buoy on the Pilot's Ridge, north $63^{\circ} 26'$ east, true; and distant $32\frac{1}{2}$ miles.

The Eastern Channel Light Vessel burns a blue light every hour during the night, commencing at 7 p. m., and a maroon (or torch) at the intermediate half hours, and her standing light will from the date above specified, be a bright red colour.

The Pilot's Ridge Light Vessel shows one plain standing Light, and burns a blue light every hour, and a maroon at the intermediate half hours, and also fires a Gun on sighting any vessel.

During the north-east Monsoon, the cruising ground where Ships will have to seek for Pilots, will be as heretofore in the Eastern Channel.

(Signed) H. L. THOMAS,
Master Attendant.

It is to be understood that the Mails are to be despatched on the days and hours to be fixed by the Postmaster-General, either according to the present arrangement, or as he may afterwards determine for the public convenience.

It will be optional with parties to offer for one or more of the above lines of stages, and to propose the mode of conveyance; but on all roads where wheel vehicles can travel, a preference will be given to carriage conveyance, and the Contractors will be held strictly bound to use the conveyance they propose, and to travel at the rate agreed upon. The rate of travelling is not to be less than six

miles per hour, including all stoppages. The Contractors are to carry all bags, letters, and newspapers which may be delivered to them under authority of the Postmaster-General, or any of the Postmasters, and to provide secure lockers for the Mails in carriages and dry coverings for the bags on horseback.

Contractors will be bound to prevent the conveyance of any letter or packet, by any of their servants or passengers, or otherwise to the prejudice of the Post Office Revenue, under penalty of £5 for each and every offence.

Contractors will be liable to a fine of five shillings for every five minutes delay after the specified time of starting; and to a like penalty for every ten minutes delay after the specified time of arrival, except for the first five or ten minutes respectively.

Contractors will be strictly bound not to assign any portion of their Contract without consent of the Postmaster-General.

A Mail Cart or Carriage, drawn only by one horse, must not carry more than one passenger; by two horses not more than three passengers; and by three or more horses, not more than six passengers, exclusive of the driver, under a penalty of £3 for each offence.

All vehicles and horses employed in the conveyance of Mails are to be at all times subject to the inspection and approval, or rejection of the Postmaster-General, or person appointed by him for that purpose.

The drivers and postmen are to be free men, and of certified good character.

All fines and penalties incurred under the agreement are to be deducted by the Postmaster-General, from the next quarterly instalment falling due to the Contractor, and to be considered as over and above any penalties provided by any Act of Council.

Each party tendering or an agent for him must attend at this Office on the day appointed for opening the Tenders; and each Tender must bear the signature of two respectable and solvent persons, engaging to enter into a bond with the Contractor, for the safety of the Mails, and the due performance of the Contract, and every stipulation therein.

The hours of starting from each Post Office or stage, and other particulars, may be ascertained at the General Post Office, where parties proposing to tender are invited to seek information.

Printed forms of Tender may be had on application at the General and all other Post Offices throughout the Colony.

By His Excellency's Command,
E. DEAS THOMSON.
