WOOLLOOMOOLOO BAY.

IT being deemed expedient that measures should be adopted for reclaiming the flat, below high water mark, at the head of Woolloomooloo Bay, and for forming a Wharf across it for the use of the public, as well as for extending the existing streets to the proposed Quay, and for proclaiming others along the Bay from east to west, His Excellency the GOVERNOR-GENERAL directs it to be notified, that, to the proprietors of land having frontage to the Bay, it is proposed to concede portions of the reclaimed land, on condition of their filling up, at their own cost, to the contemplated line of wharf, and of their observing such conditions as may be imposed by the Corporate Authorities of Sydney for the construction of proper drains.

2. Proprietors of land in the locality in question are accordingly invited to inspect the plan, in conformity with which the land is to be reclaimed, at the Office of the Surveyor-General; and to signify, in writing, to the Colonial Secretary, within three months from this date, whether they desire to participate in the advantages arising from these measures, and are willing to abide by the conditions on which they can be extended to them.

By His Excellency's Command,

E. DEAS THOMSON.

ADDITIONAL GOLD REGULATIONS.

WITH reference to the Notices from this Office of the 23rd May and 4th August last, and pending the receipt of Instructions from Her Majesty's Government, His Excellency the Governor-General has been pleased, with the advice of the Executive Council, to publish the following further provisional Regulations for the search of Gold.

1. Persons occupying portions of the Gold Field by erecting temporary buildings, tents, &c., and carrying on business in any way, shall pay a fee of thirty shillings monthly for the use of the land so occupied by them; and they are required to pay the same on demand, and in advance, to the Officer appointed to receive payment of License Fees.

2. Persons desirous of establishing claims to new and unoccupied ground by working in the ordinary method for alluvial Gold, may have their claims marked out on the following scale, namely: (1.) Fifteen feet frontage to either side of a river or main creek, to each person.

(2.) Twenty feet of the bed of a tributary to a river or main creek, to each person.

(3.) Sixty feet of the bed of a ravine or water-course, to each person.

(4.) Twenty feet square of table land or river flats, to each person.

Every such claim shall be voided by the failure on the part of the claimant to work the same within ten days after the date of its acceptance; and persons found working on such or any other ground without having previously paid the License Fee to the proper Officer, shall pay double the amount for such License; and in default be proceeded against in the usual manner.

3. The License fee for private lands will in future be one-half only of that payable for Crown Lands.

4. Persons desirous of working Auriferous Quartz Veins may make application in writing to the Commissioner or Assistant Commissioner of the Gold District, accurately describing the locality. Such application shall be immediately recorded by such Officer in a book to be kept for that purpose, which shall be open at all reasonable times to the inspection of applicants. In case no previous application shall have been made as above directed, and should there be no valid objection to the proposal, the Commissioner shall notify to the applicant his acceptance of the same. The applicant shall then enter into a bond, binding himself and two or more sufficient sureties, to the satisfaction of the Government, jointly and severally, in the sum of two thousand pounds, to pay a Royalty of ten per cent. on all Gold obtained from any part of the land within the limits of his claim, to an Officer to be appointed for that purpose by the Government. He shall further be bound to permit such Officer to reside on the land in the neighbourhood of the works, at such spot as may be assigned by the Commissioner, and also to give to such Officer access at all reasonable times to the buildings or premises, and to all books and accounts connected with the production of Gold; also to give all necessary facilities for the collection of the Royalty daily or weekly as may be found most desirable.

5. All buildings, machinery, or other improvements, erected or made on the land, shall be considered as additional security for the due performance of the conditions of the bond.

6. The above claim shall consist of half a mile of, and in the course of, the vein, with fifty yards reserved on each side of such vein for building and other purposes. The right of cutting and using timber for building purposes or for firewood from adjacent Crown Lands, as well as access to neighbouring water, shall also be conceded. The duration of the claim shall be three years, which shall however be extended for such further period as upon receipt of instructions from Her Majesty's Government may be determined upon, having due regard to the interests of the parties concerned. At the expiration of the term of their holding, or on the sooner termination of their tenure by consent of the Government, the parties shall have liberty to remove all buildings, machinery, or other improvements erected or made by them, and a reasonable time shall be allowed for that purpose; provided always that the conditions of the Bond shall have been duly fulfilled.

7. A claim, such as the above, shall be forfeited by the failure of the applicant to enter within a reasonable period into the required bond;—by his neglecting to pay the prescribed Royalty, at the time and in the manner required by the bond;—by his not employing at least twenty persons on such claim within six months of the acceptance of his application for the same;—by his ceasing to employ that number of persons on the works for the period of one month thereafter;—by obstructing the Officer in the proper performance of his duty, or in any other way violating the terms of the bond. Such vein shall then be open to selection by other parties.

8. Persons desirous of working Auriferous Quartz Veins on their own lands, shall be subject to the terms of the above Regulations, with the exception that the Royalty payable on the gross production of Gold shall be five per cent., and that they shall not be compelled to employ any specific number of persons, nor be liable to any penalty on their ceasing to work.

9. Persons desirous of draining ponds or waterholes may make application in the mode above stated, to the Commissioner or Assistant Commissioner of the Gold District; and shall be subject, in all respects, to the same Regulations, with the exception that in the place of the payment of a Royalty, the applicants shall bind themselves to employ not less than forty persons for such undertaking during the period of their occupation, and take out a License for every person so employed; and such claim shall be voided by the withdrawal of such number of persons from the work, unless in case of interruption by flood or other unforeseen accident.

10. Where more than one application shall have been made for any pond or waterhole previously to the publication of these Regulations, or shall hereafter be made on the same day, such pond or waterhole shall be put up to Tender, the advance being on the existing rate of the License Fee. And it will be understood that such advance shall be paid on any number of persons employed in addition to the forty above determined.

The Commissioner or Assistant Commissioner is empowered to make such temporary regulation as may be necessary to prevent inconvenience to other licensed persons from the carrying on operations of the above nature.

By His Excellency's Command,

E. DEAS THOMSON.
