GOLD DEPOSITED AT THE COLONIAL
TREASURY.

HIS Excellency the Lieutenant Governor deems it advisable to point out to those Persons who forward their Gold by Escort, that it is desirable it should in all possible instances be consigned to Agents in Town, in order to its being removed at as early a date as possible from the Colonial Treasury; it being found that the existing practice of leaving it for a considerable length of time unclaimed is extremely inconvenient, and attended with expense. His Excellency is therefore pleased to direct that all Persons who do not claim and take away their Gold at present deposited at the Treasury within Thirty Days after the 1st of next Month, or who do not take away the Gold which may hereafter be sent to the Treasury within Thirty Days of the date of deposit, will be required to pay One Penny an Ounce for each Week that the Gold is left at the Treasury beyond the stated period of Thirty Days.

PUBLIC ACCOUNTS.

HIS Excellency the Lieutenant Governor has been pleased to direct the publication of the following Regulations, for the guidance of Public Departments and Officers in this Colony, in regard to rendering Accounts of Public Revenue and Expenditure, and which are to take effect from and after the date hereof.

CLASSIFICATION AND DIVISION OF ACCOUNTS.

1. In respect to the Accounts of the Receipt and Expenditure of the General Revenue, the classification and arrangements of the several heads of Revenue and of Service will be the same in the accounts as in the printed Estimates laid before the Legislative Council in each year; every item must, therefore be carefully stated under its appropriate head.

2. Separate accounts are to be rendered of the Expenditure of the General and Territorial Revenues respectively, and likewise of the Expenditure under Schedule B. to the Constitutional Act, as well also of the Expenditure, under each of these branches, for service of the current year, distinct from that of previous years.

3. Each account is to be made out for one particular Department or head of service only, which is to be specified in the account; and in no case to include expenses for any other Department or service.

4. All accounts of Expenditure, whether of the General or Territorial Revenue, are to be divided under the heads "*Salaries and Allowances*" and "*Contingencies*:" and separate and distinct vouchers must be furnished for expenses under each of these heads respectively.

REVENUE.

5. The full amount of all Revenue collected is, in every case, to be paid into the Colonial Treasury without deduction: no portion therefore of the Collections may be expended in making payments of any description whatsoever. Charges for Commission or other allowances must be brought forward and accounted for as payments in the manner hereinafter laid down.

6. Collectors of Public Revenue, and all persons who may collect or receive any moneys whatsoever on account of the Public Revenue, are to pay over the amount of their collections to the Colonial Treasurer,—in Melbourne *weekly*, on the 8th, 15th, 22nd, and last days of each month,—in the country *monthly*, as soon as possible after the last day of the month; and they are to accompany their payments into the Treasury, in each case, with a statement, duly signed by them, specifying full particulars of the amount.

7. On the 10th day of each month, the Colonial Treasurer will report to His Excellency the Lieutenant Governor, the names of such Collectors, as have failed to render the Accounts, and make the payments at the dates above specified; and all moneys payable to such Officers from the Public Treasury, whether for salaries or other allowances, will be suspended, until the above regulation is complied with.

8. In the event of the Sale, whether by Auction or by Tender, of any articles or property of any kind belonging to Government, the payment of the proceeds into the Treasury must be accompanied with the Account of Sale, Tenders,

Schedules, and other documents relating to the transaction; and in the case of the collection or receipt on account of Government of any sums of an unusual or special nature, the Officer or other person collecting such sums, must produce and hand over to the Treasurer, the most satisfactory documents in his power, to show that the correct amount has been collected and credited; and should any obstacles present themselves to his obtaining payment of the sums justly due, or the documents necessary to establish the accuracy of the same, he will not fail to make such representations for the assistance of Government as the nature of each particular case may suggest, as proper and necessary.

9. Commissioners of Crown Lands, Magistrates and Clerks of Benches, or other persons authorized by the Government to grant applications for Licenses, Leases, and such like, are to furnish, direct to the Auditor General, periodically, complete lists of all applications granted by them in the course of each year.

10. All Officers and others who collect or receive money on account of the Public Revenue, are to transmit to the Auditor General monthly, on or before the 10th of each month, a statement shewing the total amount collected under each head of Receipt within the preceding month, as well as the date and amount of each payment or remittance to the Colonial Treasurer, supported by the Receipts of the latter for the sums paid over to him. Even in cases where no Revenue is received during the month, the Collectors will nevertheless furnish the usual statements, with the word "Nil" written in the space for inserting particulars. These statements are to be declared to before the usual competent authority to the following effect, viz:—

"I (A. B.) do solemnly and sincerely
"declare that this is a true and faithful
"account of the sums received by me as
"from the

"to the
"both days inclusive; and that I have paid
"over the whole amount to the Colonial
"Treasurer, in the proportions of each
"description of coin or currency specified
"therein; and I make this solemn declaration conscientiously believing the same to
"be true, and by virtue of the provisions
"of an Act, made and passed in the ninth
"year of the reign of Her present Majesty,
"intituled, '*An Act for the more effectual
"abolition of oaths and affirmations
"taken and made in various departments
"of the Government of New South Wales
"and to substitute declarations in lieu
"thereof, and for the suppression of
"voluntary and extra-judicial oaths and
"affidavits.*'"

11. Immediately after the 10th of each month, the Auditor-General will report to His Excellency the names of such Officers or others as have failed to furnish, up to the last day of the preceding month, the accounts of their collections in the form prescribed. He will at the same time call upon such Officers to furnish the necessary Returns without delay; and if necessary, he will, in accordance with General Government Regulations, withhold the passing of their salaries into warrant, until such time as they shall have complied with the Regulations.

12. The approved forms of the statements of Revenue are to be strictly adhered to.

EXPENDITURE.

13. No expenses whatever are to be incurred by Public Officers or others on account of the Public Service, without the express authority of His Excellency the Lieutenant-Governor; and the production of such authorities, or true copies thereof, with the accounts of the expenditure, will in all cases be considered essential to enable the Auditor-General to pass such accounts into warrant for payment.

14. As soon as practicable after the termination of each month, every Head of a Department or other Officer, will send to the Auditor-General, proper Abstracts and Vouchers of all duly authorised charges incurred in the preceding month, both for "Salaries and Allowances," and "Contingencies."

The Monthly Salaries will not be payable from the Colonial Treasury sooner than on the fourth day of each month.

15. In the event of its being considered necessary in any case that a Head of a Department or other Officer should have public money imprested or advanced to him to enable him to make payments on account of public services, a special authority will be given to the Auditor-General, to prepare the necessary Warrant for the purpose, upon application being made for the same to the Colonial Secretary by the Officer requiring such advance. No advance will, however, be made to any Officer unless he state the service for which it is required, and the period within which it is proposed to account for the appropriation of the amount, and if he fail to repay, or to furnish proper and complete vouchers duly accounting for the expenditure of the amount, within the period specified, all payments to him of any nature whatsoever will be suspended; and should the Officer entrusted with an advance expend any portion of the same for services not duly authorised in the manner pointed out in clause No. 13, such Officer will be provisionally surcharged till the decision of the Lieutenant-Governor in the case, is made known.

No Imprest or advance will be made to any Officer until he shall have duly repaid or accounted for all previous advances made to him; but should it be found absolutely necessary to make an exception to this rule, the circumstances of the case must be reported to the Lieutenant-Governor in sufficient time to allow of His Excellency's decision in the matter being communicated to the Auditor-General, prior to the date when the subsequent advance may be required.

GENERAL DIRECTIONS.

16. All accounts, abstracts, vouchers, authorities, or other documents relating to the accounts, both of the Revenue and the Expenditure, are to be furnished in duplicate. The Bills of Particulars or Vouchers should clearly set forth, in the case of services performed the exact dates or periods of service, the rates of remuneration, and the name of the place, and in the case of articles purchased, the exact dates or period of supply, the place of delivery, and the quantities, qualities, and prices of the several articles. The accounts must also invariably be signed

opposite to the total amount by the parties presenting them.

17. In cases of charges for repairs or works, or for articles purchased, the cost of which is *fifty pounds* or upwards, the Head of the Department or other Officer will apply through the Colonial Secretary for the nomination of a Committee of competent persons to examine and report thereon; and the Report of the Committee to the effect that the repairs or works have been completed according to the terms of the agreement, plan or estimate, and in a good and substantial manner; or in the case of articles purchased, that the delivery has been made in conformity with the terms of the contract or engagement entered into for the purchase of the articles, and that they are of a fit and proper quality, must be produced with the accounts forwarded to the Auditor-General, and they will in every case be held to be essential to enable that Officer to pass the accounts into warrant for payment.

18. When a payment is made to a person not able to write, the mark of such person is to be vouched by a witness, as having been made in his presence. All receipts for Contingent Expenditure are to be vouched by at least one respectable witness, in whose presence the payment has been made. No person interested in any expenditure will be considered a proper person to vouch for its correctness.

19. The receipts for Salaries and Allowances as well as for Contingencies, are to be signed by the parties to whom the money is due, and not by their agents. The adoption of this course will not prevent the persons so signing the receipt from authorising any other person to receive the money from the Treasury on their behalf. Abstracts and Accounts forwarded by Officers or others residing in the country should, in order to obviate delay, be thus duly signed prior to the documents being forwarded to the Audit Office at Melbourne.

20. In stating periods the first and last day specified are both to be considered as inclusive. The amount of all Salaries or Allowances fixed according to a daily rate should invariably be calculated on the exact number of days contained in the period for which they are charged. One twelfth of an Annual Salary is to be considered the amount for each and every month of the year; and the proportion for any less period is to be computed by multiplying the amount of the monthly salary by the number of days in the broken period, and dividing by the number of days in the month.

21. The Heads of the several Departments and other Officers are directed to give prompt and careful attention to the communications of the Auditor-General upon the subject of their accounts, and they are upon his application to furnish him with all such documents or information connected with the Public Accounts, as may reasonably be required of them, and as they may have it in their power to communicate.

Should the accounts transmitted to the Auditor-General for examination be found incorrect, deficient in point of Vouchers or Authorities, vitiated by erasure or interlineation in any essential particular, or not made up in a satisfactory form, the Auditor-General will point out these errors or defects to the Head of the Department, or other Officer, from whom they

are received; and, if necessary, he will return the accounts for correction, or to be made up anew.

22. The foregoing instructions are not, except as herein provided for, to supersede any of the former instructions now in force.

By His Excellency's Command,
W. LONSDALE.
