PUBLIC WORSHIP.

HIS Excellency the Lieutenant Governor, with the advice of His Executive Council, has been pleased to direct that the Regulations of the 16th December, 1851, relative to Public Worship, shall be cancelled in consequence of the Act of Council, 7 William 4, No. 3, being repealed, and that the following shall be in force from this date to carry out the provisions of the Act of Council, 16 Victoria, No. 28, to promote the erection of Buildings for Public Worship, and to provide for the maintenance of Ministers of Religion in the Colony of Victoria.

1. The Head of each Christian Denomination that can claim aid, under these Regulations is required to send in an application to the Colonial Secretary, for the purpose of being laid before His Excellency the Lieutenant Governor and his Executive Council, on or before the first day of May in the present year, and in all subsequent years on or before the tenth day of January, setting forth its designation, the number belonging to the Denomination at the last preceding Census, and the names of the Clergymen who are qualified by these Regulations to receive stipends, stating the parishes or districts to which they are attached, and the amount of stipend they can claim from the public fund.

2. No application for assistance for any purpose, from any Religious Denomination, not heretofore receiving it, will be acknowledged, unless it can be satisfactorily shewn that the Head or Minister of the Denomination has been duly appointed in accordance with its recognized custom; that it has a Church or Chapel or other fixed place for the performance of Public Worship, and that a Certificate accompany the application signed by at least three hundred adults, that they are *bona fide* Members of the Denomination.

3. The entire amount set apart from the public funds for Religious purposes under the present Act of Council will be divided into sums proportionate to the numbers which each of the Religious Denominations, that can receive aid, had at the last preceding Census, and will be set apart for, and paid to them, upon the conditions hereafter named, one-half of such sums being applicable to the payment of Ministers' stipends, and the other half towards the erection of buildings for Public Worship and Ministers' dwellings.

4. Any portion of the sums so set apart for the several Religious Denominations, which cannot be appropriated in accordance with these Regulations in any one year, cannot be carried on as a balance to the next, but will merge into the General Revenue of the Colony.

5. Applications for aid towards the erection of buildings for Public Worship, or for Ministers' dwellings, must be made by the Head of the Denomination to the Colonial Secretary, and must be accompanied by satisfactory proof that the portion of land on which the buildings are to be erected, has been duly conveyed, to not less than three, nor more than five Trustees, appointed by the contributors towards the erection of the building, and approved by the Lieutenant Governor and Executive Council.

6. No application for aid towards the erection of a Church or Chapel, can be entertained until £200 at least shall have been raised by contribution, and actually paid over to the Trustees; and in like manner £50 at least must have been raised and paid over, in the case of an application being made to erect a Minister's dwelling, and in support of each application the Trustees will forward a list of the contributors, with the amount which each has paid over to the Trustees, with a certificate attached to the list, and signed by the Trustees, that they have actually received the sums therein shewn for the erection of the building in question.

7. Upon the above particulars having been laid before the Lieutenant Governor and Executive Council, authority will be given to appropriate from the General Revenue of the Colony a sum equal to twice the amount paid over to the Trustees by the contributors towards the erection of the building; provided such sum in no case exceeds £2000 for a Church or Chapel, or £400 for a Minister's dwelling.

8. Payment of the authorized amount will be made to the Trustees from time to time, as the building progresses, upon the production of an account in the usual form, accompanied by the necessary vouchers of the sum actually expended on the building. This account will then be referred to an Architect, who will be required to certify upon it, that he has examined the building, that the workmanship and materials are good and sufficient, and that he believes the sum specified in the account to have been actually laid out. A sum, equal to that so certified to, will then be directed to be paid to the Trustees.

9. Payments will not be made in less sums than £50, nor can they be granted for material not worked up.

10. Before a Minister appointed to a Church or Chapel, which has been erected in the manner before stated, can receive a stipend from the general revenue, it will be necessary for the Head of the Denomination to send in an application in the annexed form (A) to the Colonial Secretary, containing the signatures and declaration from those adult inhabitants of the Parish or District, who intend to attend Divine Service at that particular place of worship.

11. The number of signatures thus attached to the declaration, would claim for the Minister appointed to officiate, a rate of stipend according to the following scale, viz.:

100 signatures £200 a year,
150 signatures £300 a year,
300 signatures £400 a year,

which latter will be the highest rate of stipend granted from the General Revenue.

12. It will, however, be necessary, before the full amount of any of these stipends can be sanctioned, that a declaration must be obtained from the Head of the Denomination, that a sum equal to one-half of the stipend claimed will be obtained in the course of the current year by contributions from other sources; which declaration, in the case of a first application for the Minister's stipend of any newly established Church or Chapel, is to be forwarded to the Colonial Secretary with the form A, and in all other cases it is to be sent with the annual returns (previously directed) in support of the claim then made for

each Minister's stipend. Should the full amount of contributions thus required not be certified for, double the sum stated in the certificate only, will be allowed.

13. On or before the 31st of December in each year, the Head of each Denomination will send to the Colonial Secretary a list containing the names of the persons contributing, or the other sources from whence the sums have been contributed to make up the amount which had been previously certified to, to entitle the several Clergymen to the stipends which they had received within that year, stating the sums received from each person or source, and to which the several Ministers are to certify that they have actually received the whole of the sums therein named, as having been paid to them, for their own use and benefit. Should the amount received, in any case, fall short of the sum required to be raised by contribution, the deficiency will be deducted from the amount which would be set apart for that Denomination for the next year.

14. In special cases, where it is found impossible to obtain 100 signatures to the form A, a representation may be made by the Head of the Denomination, stating the cause of such deficiency, and of the necessity for a stipend being allowed; and should the Lieutenant Governor and Executive Council consider it expedient, a stipend will be authorized not exceeding £200 a year, and upon such sanction being given, the application is to be made in precisely the same manner, and under the same conditions, as heretofore directed.

15. In districts or parishes where it is found necessary to employ a Minister, but where no Church or Chapel has been erected in which he can officiate, the Lieutenant Governor, with the advice of his Executive Council, will sanction a stipend being issued to him, upon a representation being made to him by the Head of the Denomination of the circumstances. No such stipend can, however, be paid until £50 at least has been raised in any one year by private contributions towards the support of the Minister, and a list containing the names of the contributors, with the amount given by each, and certified by the Clergyman that he has actually received the amount for his own use, has been sent to the Colonial Secretary. Double the amount so paid to the Minister by private contributions will be directed to be paid to him from the General Revenue, but it is in no case to exceed £300 a year. In the event of a stipend of this character being required to be renewed for subsequent years, it will be always necessary for the Head of the Denomination, in making the application, to represent that there is a reasonable cause for delaying the erection of a permanent building for public worship.

16. An application for an increase of the stipend already allowed to a Minister, by the number of adult parishioners who are desirous to attend his ministrations, being augmented, is to be made in the same form and manner, and under the same conditions as already directed for an original stipend.

17. Pursuant to the seventh clause of the present Act, a statement shall be transmitted in the month of January of every year, to the Clerk of the Executive Council, signed by the Head of each Denomination, certifying that each Minister

of their respective Churches has, during the past year, or such part thereof as he shall have been employed, faithfully and diligently performed the several duties allotted to him in the district for which he shall be appointed, which statement shall be deemed sufficient proof of such performance, unless a complaint be made in writing to the Lieutenant Governor or Executive Council, which shall render further enquiry necessary, and no stipend will be issued for the current year until such certificate shall have been received, or such enquiry, if instituted, shall have been satisfactorily determined.

18. The sums set apart by the Imperial Act, 13 and 14 Vict., chap. 50, schedule B., part 3, will be primarily appropriated to satisfy individual interests and claims which existed prior to the passing of the Act of Council now in operation: should such claims not absorb the whole of the schedule, the balance will be appropriated, as far as may be, under these regulations. Clergymen receiving stipends under this clause, who would be entitled to a higher rate under the previous provisions of these Regulations, can claim such increased rate, upon the terms heretofore prescribed being complied with, provided such Minister's stipend, from both sources, does not exceed the maximum amount.

(A.)

Application for Minister's Stipend, pursuant to the Act of Council, 16 Vic., No. 28.

We, the undersigned adult inhabitants of the Parish of _____ in the County or Town of _____ do hereby solemnly declare that it is our desire and intention to attend Divine Service in the place of Worship situate within the said Parish, and known as _____; that we are members of the Denomination to which this place of Worship belongs, and we have not previously signed any other application of this kind for this or any other place of Divine Worship.
