#### NOTICE TO THE OWNERS OF STEAM VESSELS.

THE Victoria Steam Navigation Board hereby give notice that all Steam Vessels coming within the provisions of the Victoria Steam Navigation Act, 16 Vic., No. 25, must be re-surveyed by the Surveyor appointed by the Board, and the necessary Declarations made and lodged with the Secretary to the Board, on or before the 31st day of December, 1853.

WILLIAM CRAWFORD, Lieut. R.N.,  
 Inspector.

Custom House, Melbourne,  
 5th December, 1853.

Colonial Secretary's Office,  
 Melbourne, 14th December, 1853.

HIS Excellency the Lieutenant Governor directs the publication of the following Notices for general information.

By His Excellency's Command,  
 JOHN FOSTER.

#### NOTICE TO MARINERS.

##### *Additional Lighthouse at the Entrance to Port Phillip.*

The second lighthouse at Shortland's Bluff being now nearly completed, Mariners are requested to take notice that on and after the first day of January next, a *Fixed Red Light* will be exhibited thereon, from sunset to sunrise.

The leading lighthouse tower is built of wood, painted white, and stands at an elevation of eighty (80) feet above the level of the water, bearing from the centre of the upper lighthouse on Shortland's Bluff south thirty-three degrees west, distant six hundred and seventy (670) feet.

The leading light will be seen in ordinary weather ten (10) miles to seaward, within the bearings of south one quarter west round (westerly) to south-west one quarter west.

The two lighthouses by day, and lights by night, kept in one line of bearing, lead in mid-channel between Points Lonsdale and Nepean; but strangers are cautioned not to attempt the entrance by night, nor against the strength of the ebb tide by day.

##### *Beacon on Swan Point.*

Mariners are requested to take notice, that a cone-shaped iron beacon, painted white, elevated fifty (50) feet above the level of the water, has been erected on Swan Point, bearing from the low lighthouse on Shortland's Bluff north forty-one (41) degrees east. This beacon, kept open to the eastward of the low lighthouse, leads in clear of Point Lonsdale Reef, and the flagstaff on Shortland's Bluff kept half a cable's length open to the westward of the low lighthouse, leads in clear of the Corsair Rock, and the other sunken dangers lying off Point Nepean; but in all practicable cases, Mariners waiting the turn of tide, entering or

leaving the harbor, are recommended to keep the Point Lonsdale shore aboard, as the tide there runs fairer, and in bad weather small vessels incur less risk on the Point Lonsdale shore from the tide ripples than towards Point Nepean.

No alteration has taken place in the upper lighthouse on Shortland's Bluff, which is as heretofore a bright stationary light, one hundred and nine (109) feet above the level of the water, seen in ordinary weather twenty (20) miles to seaward, within the bearings of south round by west to south-west by west.

The bearings are by compass, and heights at mean high water.

CHARLES FERGUSON,  
Port and Harbor Master.
