#### LICENSES TO WORK COAL FIELDS.

**A**PPPLICATION having been made to the Government by Charles Black, Esquire, on behalf of Richard Davis and John Watkins, the reputed discoverers of a workable coal field in the vicinity of Cape Paterson, for a lease of such portion of land in that locality as may lead to a thorough test of the usefulness of the discovery, and some doubt having arisen as to the power of the Local Government to grant more than annual licenses, and that such licenses should be offered by auction, the Lieutenant Governor has been pleased, pending the decision of the Right Honorable the Secretary of State (to whom application has been made respecting the leasing of mineral lands not auriferous), and with a view to determine without delay the actual benefit of this discovery, to order that annual licenses to occupy the sections of lands hereafter described and said to contain coal shall be put up to auction at an upset price of £10 per section.

The purchaser of the section now in the occupation of the said Charles Black shall pay over to the present occupant the value of his improvements, the amount whereof will be notified in the *Government Gazette* prior to sale.

At the expiration of the annual license, should the occupant be dispossessed by another licensee, an amount equal to the value of the improvements actually made by him, *bona fide* in working for coal, shall be paid by the in-coming occupant to the person so dispossessed—such amount in case of dispute to be ascertained by two competent persons, one to be appointed by the person dispossessed, and the other by the Government, and in case of their differing, to be decided by an umpire, appointed by the said arbitrators.

The Sale will be held at Twelve o'clock, on Tuesday, the second of January, 1855, by Messrs. W. M. Tennent and Co., Collins-street, Melbourne. Deposit—10 per cent.

By His Excellency's Command,  
JOHN FOSTER.

2. One price is to be stated for each article.
3. Supplies to be made direct to the officers requiring them, upon order from the Civil Commissariat or requisition of officer in charge of station.
4. In the event of a difference of opinion between the contractor and the party receiving the supplies, as to the quality, the same is to be decided, in cases where the article is not of a perishable nature, by a Board of Survey, according to the practice of the service. But, in country districts, where a Board of Survey cannot be conveniently assembled, the party objecting will name one person as arbitrator, the contractor or his agent another, and these two will (previously to any other proceeding on their part) concur in

naming a third as umpire, who, in the event of the arbitrators not agreeing in opinion, will be called upon for his decision, which shall be final.

5. If the Board, arbitrators, or, umpire shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which, it will be procured by the party requiring it, and the expense charged to the contractor.

6. In cases where the article is of a perishable nature, or from some other cause, injury would be sustained, either by the parties to whom the rations are due, or to the contractor by waiting for a Board of Survey, the Civil Commissariat Officer, the head of the department or officer in charge of the party or parties for whom the rations are to be received, shall have the power to reject such article or articles as are obviously of inferior quality; it being distinctly understood that he will be responsible to the Government for so doing; and that the contractor will have a right to appeal to the Governor, although in the meantime he must take back the rejected article, and supply good in its stead, failing which it will be obtained by the officer or party requiring it, and the expense charged to the contractor.

7. In the event of unnecessary delay, or failure of the contractor to supply the articles when required, they will be otherwise procured and charged in like manner.

8. Beef and mutton to be issued in such proportions as may be required, and when the quantity admits of it, to be delivered in fore and hind quarters alternately.

9. A repetition of irregularity in the quality or quantity of supplies, or of any delay in delivering or replacing them, when required, will subject the contractor to the forfeiture of his contract.

10. It will be in the power of either party to limit the duration of the contract, by giving, in writing, a notice of one calendar month to the opposite party, and to end the contract at the expiration of that period, it being understood that such notice can be given only on the first day of a month, and within the period for which the contract is made or agreed to be made.

11. Each supply must be accompanied by an invoice or cart note, shewing the quantity of supply, which invoice must be signed by the party receiving the stores, and these receipts are to be produced with the contractor's quarterly accounts. No goods will be received unless accompanied by such invoice or cart note.

12. The contractors will be required to prepare their own quarterly accounts in the prescribed form, and leave them at the Civil Commissariat Office; and, upon approval, payment will in due course be made.

13. Security will be required in the sum of One hundred pounds for the due fulfilment of the contract.

14. No tender can be considered unless accompanied by a certificate from the parties proposed as security for the contractor, and the bond must be executed within ten days from the notification of the acceptance of the tender, failing which the contract will be again advertised, or another tender accepted.

15. The tenders to contain the names of the tenderers and their sureties, with their places of residence, at full length.
