At Melbourne (including Williamstown, Hobson's Bay, Pentridge, Yarra Bend, &c.,) Nos. 1 to 11 inclusive.

CONDITIONS.

1. All the articles required by this notice are to be of the best quality of their several kinds, in the best condition, and to be delivered in sound packages.

2. The flour and bread must be the produce of prime wheat, from which on ration No. 1, twenty per cent, and on those of prisoners of the Crown, twelve per cent has been extracted in bran and waste.

3. Beef and mutton to be supplied in such proportions as may be required, and when the quantity admits of it, to be delivered in fore and hind quarters alternately.

4. When it may be necessary to substitute one article for another, the following proportions are to be observed, viz:—

- Wheat flour, or
- Best wheaten biscuit, 1 lb., equal to $1\frac{1}{4}$ lb. of bread.
- Salt beef, 1 lb., or
- Mutton, 1 lb., or
- Salt pork, 10 oz., equal to 1 lb. fresh beef.
- Green vegetables, such as
- Pumpkins, Greens free from root,
- Carrots free from top, &c., &c., 2 lbs., or
- Onions, $\frac{1}{2}$ lb., equal to 1 lb. of potatoes.

5. The above substitutions are to be made whenever it may be considered advisable by the Officer authorised to draw the rations, but not otherwise.

6. The supplies are to be delivered direct to the establishment entitled thereto, on the written order of the Officer in charge or such person as he may appoint, except in the case of Aboriginal Stations, which are to be supplied under the Melbourne contract, and the several articles are to be delivered at the Colonial Stores.

7. Should the contractor fail to supply any articles when required, within twenty-four hours, they will be otherwise procured, and the expense over and above the contract price will be deducted from his account.

8. The contractor will be required to prepare his own account monthly in the prescribed form, and on the presentation thereof in a complete state, and signed by the Officer in charge of the Station by whom it was incurred, to the Colonial Storekeeper for examination, it will be forwarded through the proper channel for payment at the Colonial Treasury, or at the Sub-Treasuries, as the case may be. Where no Sub-Treasury has been established, the account will be defrayed from the

Colonial Storekeeper's office by means of draft.

9. In the event of a difference of opinion between the contractor and the officer receiving the supplies as to the quality, the same is to be decided in cases where the article is not of a perishable nature, by a Board of Survey, composed of persons named by the Head of Department, and the decision of the Board is to be considered final.

10. If the Board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which, it will be procured by the person requiring it, and the expense charged as in clause 7.

11. In the Country Districts when a Board of Survey cannot be conveniently assembled, and in all cases when the article is of a perishable nature, or when from some other cause injury would be sustained either by the persons to whom the rations are due, or to the contractor in waiting for a Board Survey, the Head of the Department, or Officer in charge of the Station, will have the power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and that the contractor must take back the rejected article, and supply good in its stead, failing which, it will be obtained by the officer requiring it, and the expense will be charged as in clause 7.

12. A repetition of irregularity in the quantity or quality of the supplies, or of any delay in delivering or replacing them when required, will subject the contractor, upon report of the Colonial Storekeeper to such mulct not exceeding one fourth the amount of the monthly account, as the Governor may direct. It will also be in the power of the Governor upon such repetition to terminate the contract forthwith.

13. It will be competent for either party to limit the duration of the contract, by giving in writing a notice of three full calendar months to the opposite party, and to end the contract at the expiration of that period; it being understood that such notice can be given only from the first day of a month and within the period for which the contract is made.

The names of the Tenderers and of their proposed sureties, together with their addresses, must be stated at full length.

All Tenders must be enclosed in a separate envelope, marked "Tender for ————" (as the case may be), and be deposited in the Tender Box at the Colonial Stores, Great Bourke-street west, or, if sent by post, they must be addressed "To the Colonial Storekeeper, Melbourne."

The Government will not necessarily accept the lowest or any Tender.

The decision of the Government will be made known on the 20th November, 1855.

CONDITIONS.

1. The articles to be of the best quality.

The wood to be cut in billets of two feet in length.

2. All orders for wood or coal under these contracts must issue from the Colonial Storekeeper's Department.

For water, orders will be issued by the several Departments as it may be required.

3. Both fuel and water are to be delivered direct to the officers requiring them without extra charge.

4. The contracts entered into under this notice will not be vitiated by any prior or subsequent contracts made by the Military Commissariat or other Departments of the public service.

5. All supplies of fuel, when delivered, must be accompanied by the order, which will be receipted by the officer requiring it, and the order thus receipted must be rendered with the contractor's account.

6. The contractor, when delivering coal, will be bound to furnish scales and weights, in order that the quantities may be checked.

The contractor for wood will be bound to place it in stacks for measurement.

7. In the event of supplies ordered under these contracts not being delivered within forty-eight hours, it will be competent for the Colonial

Storekeeper, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price will be deducted.

8. The contractor will be required to prepare his own account, monthly, in the prescribed form; and on presentation thereof, in a complete state, and signed by the officer receiving the supply, to the Colonial Storekeeper for examination, it will be forwarded through the proper channel for payment at the Colonial Treasury or Sub-Treasury, as the case may be.

9. In the event of a difference of opinion between the contractor and the officer receiving the supply, as to the quality, the same is to be decided by a Board of Survey composed of persons named by the Head of the Department, and the decision of the Board is to be considered as final.

10. If the Board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which, it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 7.

11. If from any cause injury would accrue to the public service by waiting for a Board of Survey, the Head of Department, or Officer in charge of a Station, will have the power to reject such articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and that the contractor must take back the rejected article and supply good in its stead, failing which, it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 7.

12. A repetition of irregularity in the quantity or quality of the supplies, or of any delay in delivering or replacing them when required, will subject the contractor, upon report from the Colonial Storekeeper, to such mulct, not exceeding one-fourth the amount of the monthly account, as the Governor may direct. It will also be in the power of the Governor, upon such repetition, to terminate the contract forthwith.

13. It will be competent for either party to limit the duration of the contract, by giving in writing a notice of three calendar months to the opposite party, and to end the contract at the expiration of that period, it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

By His Excellency's Command,
WILLIAM C. HAINES.

Contractors are invited to state the cost of carrying letters and papers daily, or letters daily and papers twice or thrice a week; further, in the event of the winter proving unusually severe, Contractors will be allowed upon proper certificates and with consent of the Postmaster General, to carry letters only if necessary, for any portion of the way on horseback.

The hours of arrival and departure will be so arranged as to prove most convenient to Contractors, in all cases when such will not be inconsistent with the proper performance of the service.

STEAM POSTAL COMMUNICATION.—COASTWISE.

1. Between Melbourne and Albion, weekly.
 2. Between Melbourne and Geelong, daily, or as often as circumstances may permit or require.
 3. Between Melbourne and Portland, by way of Warrnambool and Belfast, weekly, or oftener.
- Contractors will be required to deliver at the respective Post Offices, (Melbourne excepted), all mails immediately on arrival, and receive therefrom all mails on the days and hours fixed by the Postmasters, which in all cases will be subject to the day and hour fixed for departure by Contractors.

CONDITIONS, ETC.

First.—It must be understood, that in all instances the usual mail road between the points abovementioned is to be travelled; and where no mail has heretofore run, that course is to be adopted which the Postmaster General may direct, or the Contractor specify in his tender.

Second.—Intending Contractors must give due consideration to the winter difficulties of the roads, and to the necessity for provision for the crossing of rivers or creeks by boat or otherwise, and they must bear in mind that no excuse for delay will be even entertained, unless supported by certificates from persons of known respectability, as to the cause of delay, and that it is attributable to no want of liberal provision both for ordinary duties and to overcome difficulties arising from stress of weather, or from the occurrence of accidents to the men, horses, or vehicles employed.

Third.—Contractors will be not merely bound to convey on and within such days and hours, and with such celerity (not less than six miles an hour) as the Postmaster General may direct, all mails, bags, letters, packets and newspapers, which may be delivered to them, under the authority of the Postmaster General or any Postmaster, but, further, to provide for that service such means of conveyance both as respects description and extent as may meet every emergency and all variations in the bulk of the mails, whether or not the transmission of such mails (either as respects address or contents) has been or is now customary. When there appears in the opinion of the Postmaster General or any officer by him duly authorised, any failure in respect of such ample provision, the deficiencies may be at once repaired by the hire or purchase of every requisite at the Contractor's cost and risk. The Postmaster General will especially require that due arrangements, either by locker, guard, or other satisfactory precautionary means, be made to protect mails from the possibility of being tampered with or abstracted by passengers or others without the immediate knowledge of the driver or other responsible person.

Fourth.—Contractors are invited to make any propositions for increased frequency of mails or definite arrivals and departures at the various stages on their roads; but they are at the same time cautioned that such special offers will not necessarily be regarded in the consideration of tenders; and so, to ensure their certainly appearing as competitors, they must also tender in a form unlogged by stipulations other than those of the above conditions.

Fifth.—Contractors can obtain the permission of the Postmaster General to convey, in addition to the mails, such limited number of passengers or weight of parcels as their means may appear equal to, such authority being, however, no plea or excuse for delays of mails, the conveyance of which must always be the paramount consideration; and the Postmaster General or other proper officer can at once revoke or modify such permission, when it appears that delays have ensued or are likely to ensue from passenger traffic. Every vehicle employed in the mail service must have painted on its door or body, in conspicuous characters, and in addition to the words "Royal Mail," or other sufficient indication of its being so employed, a statement of the number of passengers which it is permitted to convey. For every passenger, or corresponding weight of parcels carried in excess of such authorised and exhibited number, a penalty of Twenty Pounds sterling will be levied.

Sixth.—Contractors will be bound to prevent the conveyance of any letter or packet by any of their servants or passengers, or otherwise through their instrumentality, to the prejudice of the Post Office revenue; but they are bound to deliver along the prescribed or usual mail road, all loose letters and private bags entrusted or tendered to them either by or under the authority of a Postmaster; as well as to convey, and, at the first Post Office arrived at, deliver up every loose letter or private bag which, beyond the precincts of a post town, they may be required by any one to take charge of.

The penalty on the Contractor for every offence in these respects, as well as for the delivery or receipt within a post town, or within a mile of a Post Office, by a mail-man of any article subject to postage charge, shall be Five pounds.

Seventh.—Contractors will be liable to a fine of Ten shillings for every five minutes' delay after the specified time of starting, unless such delay be under instructions and to await any overdue mail for further conveyance; and a like penalty will be inflicted for every ten minutes' delay in arrival, except for the first five or ten minutes respectively.

Eighth.—Contractors are particularly to remember that both on the main and branch roads they will be fined for the full delay that may, in consequence of their late arrival at any point of such road, ensue in the further transmission of each mail entrusted to them, and not merely for the amount of late arrival at such point. The delaying Contractor is bound to forward the mail by express to its final destination, or till it overtakes the proper conveyance at a Post Office in time for due transference through the hands of a Postmaster.

The Postmaster General will, when it appears not inconsistent with the public service, authorise arrangements dependent upon his continued approval, between Contractors for conjoining lines, to avert by awaiting one another's arrival, ill consequences to themselves and the public, but it is to be distinctly understood that the proper responsibility of each party to such an arrangement will not be altered or removed.

Ninth.—The Postmaster General will offer and pay, at the cost of the Contractor, such reward as in his judgment may appear fit, for the recovery of any lost mail, letter, packet, or newspaper.

Tenth.—For every separate mail package damaged by wet or otherwise injured through failure on the part of any Contractor to make adequate provision for its protection, such Contractor shall be liable to a penalty of One pound sterling, and to a further fine of sixpence for each damaged letter, packet or newspaper of its contents.

Eleventh.—Drivers, postmen and all persons in any way employed on the mail service, must be of certified good character; and they, as well as the horses, vehicles, and all other appliances of every kind, are to be at all times subject to the inspection and approval or rejection of the Postmaster General, or any person duly authorised by him. Every Contractor failing within such reasonable time as may be allowed him to remedy any deficiency in any of these respects, shall, for every such act, be mulcted in a sum not exceeding Ten pounds.

Twelfth.—Contractors employing, or required to employ, wheeled vehicles, boats or vessels, will be required, on the requisition of the Postmaster General, to provide free seats therein for officers or servants of the department travelling on the public service; such officers will be counted as authorised passengers.

Thirteenth.—All fines and penalties incurred under contract, may be either deducted by the Postmaster General from the payments becoming due to a Contractor, or recovered by ordinary legal process, and all such fines are to be considered over and above any penalties established by any Act of Council.

Fourteenth.—In all tenders the same division of the roads as shown above must be adopted, and each division (to be designated by number) must be separately tendered for; but a Contractor, desirous of uniting several lines in one service, may accompany his separate tenders for each with an offer of reduction, in the event of all, or any special lot of his tenders being accepted. But tenders for sub-divisions of the roads as above will be entertained, provided that by separate tenders each road as defined be completed.

Fifteenth.—No tender will be entertained which does not bear the *bona fide* signatures of two responsible persons, engaging to enter into a bond with the Contractor in double the amount of contract for the due performance of all its stipulations and the safety of the mails.

Sixteenth.—Contractors will be strictly bound not to sub-let any portion of their contracts without the consent of the Postmaster General.

Seventeenth.—The Postmaster General may appoint deputies to exercise all or any of the powers reposed in him by the contracts.

Eighteenth.—All further particulars may be obtained at the General Post Office, Melbourne, where intending Contractors are requested to apply.

Nineteenth.—Contractors will have to prepare their own accounts (forms for which can be had at the General Post Office), and take the necessary steps for their collection themselves, according to any regulations which exist or may be issued.

Twentieth.—Contractors will enjoy no exemption from payment of tolls, puntage, or any similar charges.

Twenty-first.—Conveyance by wheeled vehicles will be in all cases, where practicable, preferred.

By His Excellency's Command,
WILLIAM C. HAINES.

Colonial Secretary's Office,
Melbourne, 19th October, 1855.

Printed forms of tender may be obtained from the Colonial Storekeeper, Melbourne, or

the officer in charge of the police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station must be separate, and will be accepted or rejected separately. The price must be per ton, including delivery at the stations, and all charges. The net weight only, after deducting the tare, is to be charged.

At stations where straw cannot readily be procured, the tenders may be for hay only; in such cases, the estimated monthly consumption of hay will be increased by one-half the quantity of straw set down in the schedule.

No tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which, the contract will be again advertised or another tender accepted.

The names of the tenderers and of their proposed sureties must be stated at full length.

All tenders must be enclosed in a separate envelope marked "Tender for ——" (as the case may be), and be deposited in the Tender-box at the Colonial Stores, Great Bourke-street west, or if sent by post they must be addressed to the Colonial Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known on the 4th December, 1855.

Conditions.

1. The hay to be eaten, good, sound and sweet; the straw to be wheaten, and both to be in all respects of the best quality.

2. The delivery to be made at such times and in such quantities as may be required by the officer of police in charge of the station. The quantity stated in the schedule must be considered as approximative only, and it must be understood that the Government will draw either more or less than is there given. The excess over the estimate will, however, in no case exceed 50 per cent.

3. The contracts entered into under this notice will not be vitiated by any prior or subsequent contracts made by the Military Commissariat.

4. The hay and straw when delivered must be accompanied by an invoice of quantity, shewing the gross weight, the tare, and the net weight. The invoice must be left with the officer in charge of the station, and without it no hay or straw will be received.

5. Whenever hay or straw shall be delivered at a station, a receipt is to be taken from the officer in charge for the net quantity, and the receipt must be rendered in support of the contractor's account.

6. Each contractor will be required to prepare his own account monthly, in the prescribed form, and on presentation thereof in a complete state to the Colonial Storekeeper for examination, it will be forwarded through the proper channel for payment at the Colonial Treasury, or the Sub-Treasury of the District.

7. Should hay or straw duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed by the officer in charge of the station, it will be competent for the Head of the Department, or officer in charge, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

8. In the event of a difference of opinion between the contractor and the officer receiving the hay or straw as to the quality of the same, it is to be decided by a Board of Survey, composed of persons named by the Head of a Department, and the decision of the Board is to be considered final.

9. If the Board shall decide that the hay or straw is not of proper quality it must be immediately replaced by the contractor, failing which, it will be procured elsewhere, and the expense, if any, will be charged as in clause 7.

10. When a Board of Survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or the contractor by waiting for a Board of Survey, the officer in charge will have the power to reject such hay or straw as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and that the contractor must take back the rejected hay or straw and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 7.

11. A repetition of irregularity in the quantity or quality of the hay or straw, or of any delay in delivering or replacing it, when required, will subject the contractor, upon report from the Colonial storekeeper, to such mulct, not exceeding one-fourth the monthly account, as the Governor may direct. It will also be in the power of the Governor, upon such repetition, to terminate the contract forthwith.

12. It will be competent for the Colonial Storekeeper, on behalf of the Government, or the contractor on his own behalf, to limit the duration of the contract by giving in writing a notice of three full calendar months to the opposite party, and to end the contract at the expiration of that period, it being understood that such notice can be given only from the first day of a month, and provided that no such notice can be given before the 30th April, 1856.

By His Excellency's Command,

WILLIAM C. HAINES.

Colonial Secretary's Office,
Melbourne, 19th October, 1855.

Printed forms of tender may be obtained from the Colonial Storekeeper, Melbourne, or the officer in charge of the police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station must be separate, and will be accepted or rejected separately.

The price must be per ton for hay and straw, and per bushel for oats and bran, including delivery at the stations and all charges.

The net weight only, after deducting the tare, is to be charged.

No tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which, the contract will be again advertised or another tender accepted.

The names of the tenderers and of their proposed sureties must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tender for —" (as the case may be), and be deposited in the Tender Box at the Colonial Stores, Great Bourke-street west, or if sent by post, they must be addressed to the Colonial Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known on the 4th December, 1855.

Conditions.

1. The hay to be eaten, good, sound and sweet; straw to be wheaten, and both to be in all respects of the best quality; oats and bran to be also of the best description, sound and sweet.

2. The delivery to be made at such times, and in such quantities, as may be required by the officer of police in charge of the station. The quantity stated in the schedule must be considered as approximative only, and it must be understood that the Government will draw either more or less than is there given. The excess over the estimate will however in no case exceed 50 per cent.

3. The contracts entered into under this notice will not be vitiated by any prior or subsequent contracts made by the Military Commissariat.

4. The forage when delivered must be accompanied by an invoice of quantity, shewing the gross weight, the tare, and the net weight. The invoice must be left with the officer in charge of the station, and without it no forage will be received.

5. Whenever forage shall be delivered at a station, a receipt is to be taken from the officer in charge for the net quantity, and the receipt must be rendered in support of the contractor's account.

6. Each contractor will be required to prepare his own account monthly, in the prescribed form, and on presentation thereof in a complete state to the Colonial Storekeeper for examination, it will be forwarded through the proper channel for payment at the Colonial Treasury, or the Sub-Treasury of the District.

7. Should forage duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed by the officer in charge of the station, it will be competent for the Head of the Department, or officer in charge, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

8. In the event of a difference of opinion between the contractor and the officer receiving the forage as to the quality of the same, it is to be decided by a Board of Survey, composed of persons named by the Head of a Department, and the decision of the Board is to be considered final.

9. If the Board shall decide that the forage is not of proper quality it must be immediately replaced by the contractor, failing which, it will be procured elsewhere, and the expense, if any, will be charged as in clause 7.

10. When a Board of Survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or to the contractor by waiting for a Board of Survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected forage and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 7.

11. A repetition of irregularity in the quantity or quality of the forage, or of any delay in delivering or replacing it when required, will subject the contractor, upon report from the Colonial Storekeeper, to such mulct, not exceeding one-fourth the monthly account, as the Governor may direct. It will also be in the power of the Governor, upon such repetition, to terminate the contract forthwith.

12. It will be competent for the Colonial Storekeeper, on behalf of the Government, or the contractor on his own behalf, to limit the duration of the contract by giving in writing a notice of three full calendar months to the opposite party, and to end the contract at the expiration of that period, it being understood that such notice can be given only from the first day of a month, and provided that no such notice can be given before the 30th April, 1856.

WILLIAM C. HAINES.
