CONDITIONS OF CONTRACTS FOR THE SUPPLY OF FORAGE IN GEELONG DISTRICT DURING 1855.

1. All the articles required by this notice are to be of the best quality of their several kinds.

2. The supplies for road parties and surveying parties are to be delivered at the nearest fixed stations to the places where the party may be employed, on the requisition of the officer in charge.

3. The supplies (not specified in the preceding paragraphs) are to be delivered direct to the parties or establishment entitled thereto, on the written order of the person duly authorised for the purpose.

4. The Tenders are to express the price per ration only, and include the whole of the articles specified in the ration.

5. In the event of a difference of opinion between the contractor and the party receiving the supplied, as to the quality, the same is to be decided, in cases where the article is not of a perishable nature, by a Board of Survey, according to the practice of the service. But, in country districts, where a Board of Survey cannot be conveniently assembled, the party objecting will name one person as arbitrator, the contractor or his agent another, and these two will (previously to any other proceeding on their part) concur in naming a third as umpire, who, in the event of the arbitrators not agreeing in opinion, will be called upon for his decision, which shall be final.

6. If the Board, arbitrators, or umpire shall decide that the article is not of proper quality, it must be immediately replaced by the contractor,

failing which it will be procured by the party requiring it, and the expense charged to the contractor.

7. In the event of any unnecessary delay or failure of the contractors to supply the articles when required, they will be otherwise procured, and charged in like manner.

8. In cases where the article is of a perishable nature, or from some other cause injury would be sustained, either by the parties to whom the rations are due, or to the contractor, by waiting for a Board of Survey, the Civil Commissariat Officer, the head of the department or officer in charge of the party or parties for whom the rations are to be received, shall have the power to reject such article or articles as are obviously of inferior quality; it being distinctly understood that he will be responsible to the Government for so doing; and that the contractor will have a right of appeal to the Governor, although in the meantime he must take back the rejected article, and supply good in its stead, failing which it will be obtained by the officer or party requiring it, and the expense charged to the contractor.

9. A repetition of irregularity in the quantity or quality of the supplies, or of any delay in delivering or replacing them when required, will subject the contractor, upon report of the officer in charge of the parties or establishments, to such mulct, not exceeding one-fourth the amount of his monthly account, as the Governor may direct. It will also be in the power of the Governor, upon such repetition, to terminate the contract forthwith.

10. It will be in the power of either party to limit the duration of the contract, by giving in writing a notice of three full calendar months to the opposite party, to end the contract at the expiration of that period, it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made or agreed to be made.

11. The contractor will be required to prepare his own account, monthly or quarterly, in the prescribed form; and, on the production thereof, with the requisite vouchers, in a complete state, to the Civil Commissary General, or Assistant Civil Commissary of the district, for examination, they will be forwarded to the Audit Office, and payment will be made through the Colonial Treasury.

12. The value of all packages to be included in the prices demanded.

13. Printed forms of tender may be obtained from the Civil Commissary General, and a security of £2000 will be required for the due fulfilment of the contract. No tender can be attended to unless accompanied by a certificate from two responsible parties proposed as security, stating they are willing to become bound as securities for the contractor accordingly, and the bonds must be executed within twenty days from the day of acceptance of the tender being notified, failing of which the contracts will be again advertised or another tender accepted.

14. The tenders are required to have attached to them the signatures of the party or parties willing to supply the Government with the articles enumerated, as also the names of the persons proposed as sureties for the due fulfilment of their contracts, stating fully the addresses or residence.

15. Tenders will be received for the supply of the entire district, or for any particular station in it. In the latter case the name of the station as given before must be stated in the tender.

16. The Government will not necessarily accept the lowest or any tender.
