**PARTIES** applying for Letters at the General Post Office are particularly requested to give the correct number of the letter and also the date and number of the list in which they may have observed their names, as such reference will materially facilitate delivery. Persons in the country making written applications, in addition to the number of the letter, and the date and number of the list, are requested to state where they expect their letters from, and any information which may tend to prevent an unnecessary transmission of letters.

Application to be made at the General Delivery Department, corner of Elizabeth and Bourke-streets. The next List will contain all letters received by Ship up to the 8th March, 1856.

*N.B.—Letters posted in any part of the Colony of Victoria are not advertised. The Lists contain only Letters received by Ship from England, Foreign Countries, and the neighbouring Colonies.*

#### NOTICE TO MARINERS.

PORT PHILLIP HEADS.

THE white beacon on Swan Point has been moved in a westerly direction, and now bears from the Low Lighthouse Point N. 40 E.

A pillar beacon, surmounted with a skeleton ball painted red, has also been placed on the rising ground inshore of the Point Lonsdale flagstaff, and bearing from the latter N. 56 W. These alterations have been rendered necessary, in order to mark the position and guide vessels clear of a small sunken rock, lying S.E. three (3) cables length from the outer end of Lonsdale reef.

This rock has twenty-two (22) feet water over it, with five (5) fathoms all round, and bears from the upper lighthouse S. 38 W., Point Lonsdale flagstaff S. 56 E.

The Swan Point beacon shut in a sail's breadth, with the Low Lighthouse Point and the Point Lonsdale flagstaff on with the red beacon, marks the position of the rock.

Vessels of heavy draught passing through between the Heads, either inwards or outwards, will avoid the rock by keeping the Swan Point beacon open of the Low Lighthouse Point until the red beacon on Point Lonsdale is well open of the tidal flagstaff.

Two (2) beacons have also been placed on Point Nepean, bearing from each other east and west; the easternmost is painted white, the westernmost painted red; this latter is erected on the centre of Nepean dry rock.

These beacons are intended as additional marks to guide vessels clear of the Corsair rock, and when seen in one line of bearing and the low lighthouse on with Shortland's Bluff flagstaff, mark the position of the rock.

The white beacon on Point Lonsdale, hitherto used as a cross mark for the Corsair rock, will be removed altogether on and after the first day of June next.

Mariners are further requested to take notice that in consequence of a small knoll having formed near the Lightship and the N. E. part of the west sand, extending in a southerly direction, the Lightship will, on or about the first of April, be moved to the southward of her present position, and moored midway between the chequered buoy and black buoy, which have recently been placed within half-a-mile of the Lightship. The chequered buoy lies in thirteen feet, on a knoll of sand, which is about twenty (20) feet in diameter, with the following bearings:—

The Upper Lighthouse, S. 36 W.  
The Lightship, N. 6 E.  
The summit of Arthur's Seat, S. 52 E.

The black buoy is placed on the N.E. elbow of the west sand, and lies in three (3) fathoms, with the following bearings:—

The Lightship, N. 17 E.  
Arthur's Seat, S. 50 E.

The foregoing bearings are all by compass, and the depths those of low water, spring tides, but it must be remembered that strong northerly or easterly winds depress the tides between the Heads and all over Port Phillip Bay from one (1) to two (2) feet below the ordinary level.

Masters of vessels who possess the sailing directions for this port, which were published here in May, 1854, will, on application at any of the harbor offices in the Colony, obtain a slip containing the above information, printed in corresponding type and size, suitable to be inserted therein.
