Transmission of pilotage by Customs Department.

2. That all moneys received for pilotage shall be transmitted by the Commissioner of Trade and Customs on or before the 12th of each month, accompanied by a tabular statement containing each vessel's name, tonnage, date of entrance inwards or clearance outwards, and amount of pilotage collected.

6. That a duly certified written statement shall be furnished by each pilot to the Board on or before the tenth of each month, in such form as the Board may direct, of all expenses incurred by them during the preceding month in connection with the pilot service, pilot vessels, boats, &c., accompanied by vouchers in such forms as the Board may direct.

Method of appointment of pilots.

7. When the Pilot Board may consider that additional pilots are required for the service, notice shall be inserted in the *Government Gazette* and two daily journals, calling for persons considering themselves qualified to act as such, to forward to the Board a written statement of their intention to apply for a license, accompanied by certificates of character; when, if such be deemed satisfactory by the Board, a day will be appointed for examination into the fitness of all such candidates, at which examination one or more senior pilots shall always be present.

Pilots so appointed are immediately to repair on board, and are not to leave the vessel without the written permission of the master unless in case of severe sickness; but should she not be ready, the pilot must obtain a written statement to that effect from the master or officer in charge, and immediately report himself at the pilot office as eligible for appointment to another vessel.

Pilots to aid vessels in distress.

16. Pilots shall, by every means in their power, aid and assist vessels in distress.

Pilots' claims for extraordinary services rendered to vessels to be decided by Board.

17. 21. Pilots shall not form any insubordinate or illegal combination, nor attempt to prevent other pilots or persons in the pilot service under the control of the Board from doing their duty.

Pilots to relinquish charge of one ship for another, if required.

Pilots to keep distinguishing flag flying while under weigh.

23. Whenever any vessel shall be in pilotage charge, the pilot shall invariably keep his distinguishing flag flying from sunrise to sunset, or during such time as the vessel may be under weigh.

Pilots taking charge of a vessel inside the Heads to go out as far as possible.

24. Pilots shall, on observing a vessel approaching the Heads with the signal for a pilot hoisted, proceed out as far as possible with their distinguishing flag flying at the bow of the boat in the day time, and shall shew a flash light at night.

Pilots to examine clearance of outward bound vessels to see if pilotage be paid (16 Victoria No. 12, sec. 13).

25. Pilots shall, before taking charge of a vessel outward bound, demand a sight of the customs clearance, in order to see if the certificate of pilotage be duly endorsed thereon, and should such fail to be the case, immediate intimation shall be given to that effect at the pilot office.

Pilots not to interfere, when passengers, unless specially requested.

26. Should a pilot at any time be taking a passage on board a vessel, he shall not in any way interfere with, nor make comments on, the proceedings of the pilot in charge of such vessel, unless his advice or opinion be specially requested by such pilot in charge, or unless circumstances render such interference necessary, and then only at the written request of the master.

Certificate of pilotage to be transmitted to the pilot office.

27. A certificate of pilotage, duly signed by the master of each vessel piloted, shall immediately on her arrival be forwarded or delivered by the pilot to the secretary to the Pilot Board, or at the pilot office, and all pilots shall be particularly careful in seeing that it is mentioned in the certificate whether it be inside or outside pilotage, and also whether the services of a steam tug have been rendered, and to what extent; such certificate to be then transmitted to the collector of customs at the port.

Pilots as passengers to have precedence of turn.

28. A pilot arriving at either station as passenger shall be in turn before any pilots that may have brought ships in on that day, and no pilot in pilotage charge of a vessel shall interfere with or offer obstructions to pilots obtaining passages in such vessels.

Lead lines to be examined and attended to, as also steering gear.

29. Pilots shall at all times, when they take charge of a vessel, see that the lead lines in use be properly marked and adapted for service, and that the lead be kept regularly hove when under weigh, and also that the steering apparatus be in order.

Pilots to report themselves on arrival, and also to report extraordinary circumstances.

30. Pilots shall immediately on their vessels being moored after arrival inwards, fill up and sign their reports in a book to be kept open at the pilot office for such purpose, and also report in writing, for the information of the Board, any extraordinary circumstances that may have occurred on board while under pilotage charge.

Duties of pilots in charge of inward bound vessels.

31. Every pilot who shall be employed to pilot or conduct a vessel into any port shall take the same, her draught of water admitting, to such anchorage or wharf as the master or other person in charge (subject to the order of the harbor master) shall require, or so near thereto as he can safely get, and there moor the vessel in a proper situation.

Behaviour of pilots (16 Victoria No. 12, sec. 16).—*Pilots to be suspended on being charged with misconduct, &c.*

32. Pilots shall at all times observe strict sobriety and civility, and if charged with the use of unbecoming or improper language, or any misconduct affecting the character of the service, or shall, through negligence, incapacity or unskillfulness, occasion injury to any vessel he may be in charge of, or to any other vessel, shall be immediately suspended by the president, or in his absence by a member of the Board, pending an investigation into the case at the next meeting of the Board.

Her Majesty's ships and mail packets inward bound to have preference over other vessels.

33. Pilots are to bear in mind that Her Majesty's ships and mail packets regularly employed in such service shall always obtain the preference over other vessels, unless such other vessels shall be in danger and in urgent need of assistance.

License not to be lent.

34. No pilot shall lend his license to any person under any pretence whatever.

Pilots to enter into a bond.

35. All pilots shall enter into an approved bond for the sum of one hundred pounds, for the due and faithful discharge of their duties, and the due observance of these rules.

Method to be adopted in making complaints regarding the pilot service.—President to call special meeting to investigate complaint, if necessary.

36. All complaints by or against any one connected with the pilot service must be forwarded in writing to the president of the Pilot Board within seven days of the occurrence of the same, otherwise such complaint shall not be entertained unless at the discretion of the Board. The president shall, on any such complaint being made to him in accordance with this rule, if the subject requires immediate investigation, call a special meeting of the Board, giving the various persons concerned in the case due notice to appear at such meeting.

Pilots and others in the service to obey summons of Board, and abide by its decision.

37. All persons in the pilot service shall appear before the Board on receiving notice to do so, and abide by the decision given in all matters relating to the pilot service, subject, however, to the right of appeal allowed by Act of Council No. 28 17 Victoria, sec. 12.

Expenses of personal enquiries to be borne by party in the wrong.

38. In all cases of enquiry of a personal nature instituted at the instance of the pilots, and not directly bearing upon the pilot service, the expense of such enquiry shall be charged to the person or persons found to be in the wrong.

Pilots to observe all port rules (16 Victoria No. 12, sec. 18).

40. Pilots shall strictly observe all port regulations, and prevent by all the means in their power any infraction of the same on board any vessel they may be in charge of.

Pilots to note and report alterations in land and sea marks, and to examine channels, &c.

41. The licensed pilots of Port Phillip shall be particularly careful in noting and reporting to the chief harbor master any alteration in the position of any beacon, buoy, sea or land mark, or of any shoals within the limits of their license, as also the existence of any new shoal, sunken wreck, or other obstruction likely to impede the free navigation of the waters and channels of the port by vessels, boats, &c.; and they are to embrace every available opportunity of examining, by soundings and cross bearings, all channels and waters as far as the limits named in their license may extend.

Pilots to furnish periodical report of state of channels, &c.

42. Pilots shall furnish a written report every three months to the chief harbor master of the state of all channels and sea and land marks as may have fallen under their observation.

Method to be adopted in reporting accidents to vessels in pilotage charge.

44. Every pilot shall be in possession of his license, of a copy of the foregoing rules, and a copy of the port regulations, and shall produce the same for reference if required so to do by the master of any vessel of which such pilot may assume charge.

Penalties of breach of rules.

EXTRACTS FROM DESPATCH DATED "COUNCIL CHAMBER, FORT WILLIAM, 20TH JULY, 1857."

"The Right Honorable the Governor General of India will be much obliged to His Excellency the Captain General and Governor-in-Chief of Victoria, if he will cause enquiries to be made with respect to powerful horses about five years of age, suited to carry men of the Dragoon Guards, two of which corps it is understood have been ordered to India.

"An officer will be despatched by the next steamer to Sydney to select the horses, and it would be a great convenience if the parties having horses could be induced to have the horses ready for selection at that time.

"From three to four hundred horses, at least, will be required from each of the colonies of New South Wales, Victoria and Van Diemen's Land.

(Signed) "R. J. H. BIRCH, Colonel,

PETITION FOR MUNICIPAL INSTITUTIONS. KYNETON.

IN pursuance of the Act of Council 18 Victoria No. 15, His Excellency the Governor, with the advice of the Executive Council, has directed the publication of the substance and prayer of a petition to His Excellency hereinafter set forth, signed by one hundred and fifty-six householders of the town of Kyneton, in the county of Dalhousie.

By His Excellency's Command,
WILLIAM C. HAINES.

A.5832.

The petitioners state that the town of Kyneton has of late vastly increased in population and importance, and may now be classed among the most flourishing inland towns in Victoria.

That it is contained within an area of nine square miles, and comprises a population of householders of one hundred and fifty and upwards, and that no one point in such area is distant more than six miles from any other point.

That several local improvements and institutions are being introduced into the said town, as lighting it with gas, and the petitioners believe that it would tend materially to the stability, progress and improvement of the town if it were constituted a municipal district.

That a considerable portion of the roads and streets of the town are still unformed, and owing to the rich alluvial soil are almost impassable in the wet season, and the petitioners are desirous of metalling, lighting and draining the same.

And the petitioners pray as follows:—

"Your petitioners therefore humbly pray that Your Excellency may be pleased to take into your favorable consideration the subject matter of this petition, and to declare by Your Excellency's proclamation the town a municipal district, according to the proclaimed boundary of the town of Kyneton,

under the name of 'The Kyneton Municipal District,' pursuant to the provisions of the Act of Council 18 Victoria No. 15."

WHEREAS by an Act of the Governor and Legislative Council of New South Wales 14 Victoria No. 20, intitled, "An Act for regulating the formation, drainage, and repair of streets, courts and alleys, on private property within the city of Melbourne," it is amongst other things enacted, That where any street, court, or alley, on private property in the city of Melbourne, shall not be, or shall not have been, sufficiently paved, flagged, macadamised, levelled, drained, and sewered, or otherwise completed or repaired, to the satisfaction of the council of the said city, it shall be lawful for the said council, at any time, and from time to time, by any order under the hand of the mayor or town clerk of the said city, for the time being respectively, to order that any such street, court, or alley, or any part thereof, shall be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewered, or otherwise completed or repaired, in such manner and within such time as to the said council may appear expedient, and thereupon the owners of the tenements adjoining or abutting upon such street, court, or alley, on each side thereof, shall, in such manner, and within such time as shall be expressed in such order, at their respective costs, charges, and expenses, remove all obstructions, and well and sufficiently pave, flag, macadamise, level, drain, and sewer, or otherwise complete or repair so much of the said street, court, or alley, to the centre thereof, as may be opposite to and co-extensive with their respective tenements, adjoining or abutting on such streets, courts, or alleys respectively.

And whereas the streets, courts, and alleys enumerated in the schedule to this order annexed, marked A, have not been sufficiently paved, flagged, macadamised, levelled, drained, and sewered, or otherwise completed or repaired to the satisfaction of the council of the city of Melbourne:

The natural soil is to be reduced or made up as the case may require, so that the longitudinal section of the whole right-of-way shall in no part have an inclination of less than 1 in 120, and, where practicable, the entire length is to form one incline.

In laying on any stuff it is to be spread in layers of not more than one foot thick. The transverse sections of the right-of-way is to shew a roadway whose crown shall be one inch above the kerbs of the footways, and in the fall from the crown of the water channels is to be at the rate of 1 in 25.

On either side of the roadway there is to be a water channel eighteen inches wide, consisting of two rows of bluestone pitchers, nine inches deep, and not less than nine inches by fourteen inches on the surface, with upright sides, set in loam and rammed with a rammer weighing forty pounds, so as to subside four inches.

The bottom of the channel is to be seven inches below the top of the kerbs.

On either side of the roadway there is also to be a footway not more than three feet wide, and these are to be separated from the roadway by a red gum plant or kerb ten inches by three, set on edge, and fastened with five-inch spikes to pilos four inches by four of red gum three feet long, driven into the soil.

The footways are to be covered with a coat of gravel three inches thick, and the surface is to fall towards the channel at the rate of 1 in 10. The whole of the work must be done under the inspection and subject to the approval of the City Surveyor, who is authorised to order any deviation from these general principles, which the particularities of any case may require.
