Printed forms of tender may be obtained from the Government Storekeeper. Melbourne, or the officer in charge of the Police, at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station must be separate, and will be accepted or rejected separately.

At stations marked thus * if oats and bran cannot readily be procured, the tenders may be for hay or straw only. When all the supplies are included in one tender, it will, if advisable, be accepted for hay or straw, and not for the other articles.

At stations marked thus + contractors will be allowed to deliver a quarter's supply on the 1st April, for a winter's stock; and the remainder on the 1st April, for a winter's stock; and the remainder on the 1st October, subject to the provisions contained in clause 2, "conditions of contract."

The price must be per ton, for hay and straw, and per bushel for oats and bran, including delivery at the stations and all charges.

The net weight only, after deducting the tare, is to be charged.

The names and addresses of the tenderers and of their proposed sureties, must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tender for —," as the case may be, and deposited in the tender box at the Government Stores, King street, or if sent by post, they must be addressed to the Government Store-keeper, Melbourne.

The Government will not necessarily accept the lowest or controller.

any tender.

The decision of the Government will be made known on the

11th December, 1857. CONDITIONS

1. The hay to be caten, good, sound and sweet; the straw to be wheaten, and both to be in all respects of the best quality; cats and bran also to be sound and sweet, and of the best description.

2. The supplies to be delivered on the requisition of the 2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated in the schedule being, however, only approximative; and it must be understood that the Government will draw either more or less than stated. The excess over the estimate will however in no case exceed 50 per cent.

3. The contracts entered into under this notice, are not to

be considered as being infringed or vitiated by any contracts made by the Military Commissariat.

made by the Military Commissariat.

4. The forage when delivered must be accompanied by an invoice of quantity, showing the gross weight, the tare, and the net weight (this should be on the back of the requisition or order), which when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account, in the prescribed form, within one month after each delivery, and on presentation thereof to the officer in charge of the station, it will be forwarded through the Government Storekeeper, for payment at the Treasury, Melbourne, or the Sub-Treasury of the district, as may be indicated on the account.

account.
6. Should forage duly ordered under these contracts not be delivered within forty-eight hours, from a reasonable time, to be fixed by the officer in charge of the station or district, it will be competent for the department, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract

will be competent for the department, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage, as to quality of the same, it is to be decided by a board of survey, composed of persons named by the head of a department, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality it must be immediately replaced by the contractor, failing which, it will be procured elsewhere, and the expense, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage and supply good in its stead, failing which, it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it, when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract, by giving in writing a notice of three full calendar months to the opposite party to that effect, it being understood, that such notice can only be given from the first day of a month, and provided that no such notice can be given by either party before the 30th April, 1868.

Advertisements will be charged for at the following rates, viz.:—
One shilling for each of the first six lines and sixpence for every additional line above six.

The GOVERNMENT GAZETTE is published on Tuesday and Friday in each week, and Notices for insertion must be received by the Government Printer, at or before Ten o'clock of the day preceding the day of mublication.

To meet the urgent requirements of the district, the council, at the commencement of this half-year, likewise framed a bycat the commencement of this half-year, likewise framed a byc-law (as No. 10.), for the suppression and prevention of nuisances arising from cattle and other animals being at large or wandering in the streets of this municipality; but after being thrice modified (on its being as often returned by the law officers of the Crown for that purpose) those authorities eventually altogether declined to recommend it for sanction, and this, although a similarly intentioned enactment, had been reveniently conversed of for packles requiring litter.

proviously approved of for another municipality.

The council have lately passed another bye-law (as No. 18) for preventing the use of dangerous and insecure erections, whether temporary or permanent, for public purposes, of any kind soever, within this municipality; the necessity for a regulation of which kind must be well known to every one in the district

district.

But this also has been disallowed. The council, however, believing that their usefulness would be greatly restricted if they were quietly to submit to have their efforts for the good governance of the district thus continually annulled by authorities at a distance, to whom the local necessities cannot be so well known as to those on the spot, have, through their chairman, sent in to the Chief Secretary an urgent remonstrance against such injurious interference with and curtailment of the powers accorded to them by Act of Council; and they hope yet to be able to report a favorable result. They have also to deprecate the injustice and inconsistency in, and the delay, trouble and annoyance, occasioned by, the Government sanctioning for some municipalities bye-laws which the delay, trouble and annoyance, occasioned by, the Government sanctioning for some municipalities bye-laws which shortly afterwards are disallowed for others.

After the final settlement of all appeals (of which there were about eighty-nine), the total value of all properties in the municipality over which the council had control, remained at #155,881 5s. 6d., on which the 1s, rate amounted to £2676 5s. 3d.; and the council can refer with pleasure to the manner in which the rates have been paid, shewn in the appended half-yearly financial statement, as evincing a desire on the part of the inhabitants to contribute their efficient aid in promoting the interest of the district. the interests of the district.

WATER SUPPLY.

WATER SUPPLY.

A special committee, appointed for the purpose, are organising measures for obtaining a constant and adequate supply of water for the necessities and emergencies of the large population now located in and around Beechworth; and the council hope at an early period to attain so desirable an object, which, together, with the bye-law prohibiting canvas and similar materials for buildings (now many months in force), and the intended immediate formation of a fire brigade, will, the council believe, offer still greater inducements for the further settlement of this already important inland town.

INTERMURAL INTERMENTS.

INTERMURAL INTERMENTS.

In consequence of the Government having sold part of the old grave yard, on Camp and Loch streets, in this township, this council, on the 1st of September last (under authority of bye-law No. 7), caused the removal of the whole of the bodies buried therein to the new cemetery, without the township, where the same were re-interred, surmounted by proper headboard, and enclosed with a white paling.

The removal and re-interment took place under the personal superintendence of the council, John C. Dempster, Esq., M.D., and the Government authorities, and in the presence of many relatives of the deceased, to all such of whom as could be discovered the council had caused notice to be given.

The council have caused the construction of a culvert three

The council have caused the construction of a culvert three feet square, from Star lane to Holmes's (or the Back) Creek, which, although they disapprove of culverts as an ordinary means of drainage, was rendered necessary by the natural fall of the ground in that locality, and will prove of great advantage for the drainage of the back part of the town.

Contracts have been accepted for the permanent formation of Camp street, from Finch street to High street, and for the permanent formation of High street from Short street to Camp street, and both works are now in operation.

The council have had the following portions of the town (in addition to those in former report) cleared of all trees, stumps, and boulders, and the holes therein properly filled up, viz:—Last street, William street, and the market reserve, which latter place they intend shortly to let on building leases under certain conditions, and in accordance with the provisions of certain conditions, and in accordance with the provisions of

the Act of Council.

The public recreation reserve of sixty-five acres one rood twenty-two perches the council have agreed to lease to the Public Race Committee for three years from January next, when the same and clear the same, and

that committee undertaking to lence and clear the same, and allow the use thereof for other purposes of public recreation as may be approved by the council.

The council have had properly fenced in the two acres granted by Government for a manure depôt, and have carried out sundry other small works, as shewn in the appended half-mostly the large death.

out sundry other small works, as shewn in the appended half-yearly balance sheet.

Whilst on the subject of public works, the council must revert to the continued delay of the Government in proceeding with their portion of same. The approach to Beechworth from the bridge, on the Melbourne side, remains in the same impassable state that it was in previous to the institution of this municipality, now a twelvementh back, ever since which

this council have been urging the Government to form that entrance, and have been receiving assurances that it should be done, but, although the money for the purpose has been voted and the plans prepared, the work is not proceeded with, notwithstanding the reiterated and urgent representations of the council, and of J. D. Wood, Esq., M.L.A., to the Central Road Board thereon.

- The following applications have been made to the various Government departments, with the undermentioned results:—

 1. That additional magistrates might be appointed for this municipality.—No satisfactory reply hereto has been yet received.
- 2. That this council might have the benefit of prison labor for preparing road metal.—Application to be considered when the new gaol at Beechworth shall have been erected.
- APPLICATIONS TO COMMISSIONER OF PUBLIC WORKS.

 1. That the site of new Court House might be changed from near the Rock to section 8 in the township.—After great delay, granted.
- 2. That section 8 might be withdrawn from sale, and reserved as sites for the centralization of Government buildings, as formerly agreed to .- Granted.

APPLICATIONS TO THE SURVEY DEPARTMENT

APPLICATIONS TO THE SURVEY DEPARTMENT.

1. For a grant of 4.350 to defray the expenses of the removal of the dead under bye-law 7.—At first promised, then refused; but eventually, through the exertions of J. D. Wood, Esq., M.L.A., accorded, and will be shortly paid.

2. That an additional number of town allotments might be offered for sale.—Acceded to, and the desired lands put up to application.

MISCELLANEOUS.

The council received a petition from the miners residing on The council received a petition from the miners residing on the portion of the diggings within the municipal boundary, praying that they might be exempted from payment of the municipal rate, which indulgence it was of course out of the power of the council to grant, and a reply to that effect was accordingly returned, and the rate has, with the exception of a few instances, been paid by all who remained on the ground, till it was called for; were it, however, within the province of the council to allow exemptions, they would certainly feel disposed to extend them to the dwellings of bona fide miners actually located on the digrings.

actually located on the diggings.
On the 23rd May, His Excellency Sir Henry Barkly, being on a visit to Beechworth, was graciously pleased to receive an address from the council, but in consequence of then recent occurrences, the council deemed it unadvisable to obtrude upon His Excellency any special matter of business import.

Appended hereto is the honorary treasurer's half-yearly balance sheet, duly audited by the local managers of the banks of New South Wales and Victoria.

Before concluding this report the council would express their thanks for the co-operation they have met with from their fellow-ratepayers, a continuance of which they hope to receive as long as their efforts are, as they have hitherto been, directed to the furtherance of the general good of the munici-

Symons AND PERRY are favored with instructions to submitto public competition, at the Commercial Sales Room, on Friday, 27th instant, at Twelve o'clock, all that piece or parcel of land containing about twenty-live acres, more or less, being the unsold portion of section No. 50, parish of Boroondara, subdivided into five allotments, each containing about five acres, having a frontage to a Government road one chain wide, by a depth to a road 33 feet wide, both leading to the river

by a depth to a road 33 feet wide, both leading to the river Yarra.

Title unexceptionable.

The peculiar position of this property should recommend it to the attention of all persons desirons of obtaining a really desirable suburban retreat, as it is situated on the Yarra, almost immediately opposite the Toorak grounds and the Government Survey Reserve, near the properties of Sir James Palmer, the Hon, T. H. Power, and Mr. Alderman Walsh. It is within a few minutes' drive of Richmond bridge, from which there is a good road, and the distance from Melbourne by the river is only about three miles. The whole property is high and healthy, and the auctioneers confidently recommend it to the notice of the public as the most desirable that has been for a considerable period offered for positive sale.

Full particulars may be obtained, and a plan seen, at the rooms of the auctioneers.

Terms liberal, will be published prior to sale, Friday, 27th November, at twelve o'clock.
