Printed forms of tender may be obtained from the Government Storekeeper, Melbourne, or the officer in charge of the Police, at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station must be separate, and will be accepted or rejected separately.

At stations marked thus * if oats and bran cannot readily be procured, the tenders may be for hay or straw only. When all the supplies are included in one tender, it will, if advisable, be accepted for hay or straw, and not for the other articles.

At stations marked thus † contractors will be allowed to deliver a quarter's supply on the 1st January; a six months' supply on the 1st April, for a winter's stock; and the remainder on the 1st October, subject to the provisions contained in clause 2, "conditions of contract."

The price must be per ton, for hay and straw, and per bushel for oats and bran, including delivery at the stations and all charges.

The net weight only, after deducting the tare, is to be charged.

No tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which, the contract will be again advertised or another tender accepted.

The names and addresses of the tenderers and of their proposed sureties, must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tender for —," as the case may be, and deposited in the tender box at the Government Stores, King street, or if sent by post, they must be addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known on the 11th December, 1857.

CONDITIONS.

1. The hay to be eaten, good, sound and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats and bran also to be sound and sweet, and of the best description.

2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated

in the schedule being, however, only approximative; and it must be understood that the Government will draw either more, or less than stated. The excess over the estimate will however in no case exceed 50 per cent.

3. The contracts entered into under this notice, are not to be considered as being infringed or vitiated by any contracts made by the Military Commissariat.

4. The forage when delivered must be accompanied by an invoice of quantity, showing the gross weight, the tare, and the net weight (this should be on the back of the requisition or order), which when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account, in the prescribed form, within one month after each delivery, and on presentation thereof to the officer in charge of the station, it will be forwarded through the Government Storekeeper, for payment at the Treasury, Melbourne, or the Sub-Treasury of the district, as may be indicated on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours, from a reasonable time, to be fixed by the officer in charge of the station or district, it will be competent for the department, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage, as to quality of the same, it is to be decided by a board of survey, composed of persons named by the head of a department, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality it must be immediately replaced by the contractor, failing which, it will be procured elsewhere, and the expense, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage and supply good in its stead, failing which, it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it, when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Government Storekeeper on behalf of the Government, or for the contractor on his own behalf to terminate the contract, by giving in writing a notice of three full calendar months to the opposite party to that effect, it being understood, that such notice can only be given from the first day of a month, and provided that no such notice can be given by either party before the 30th April, 1858.

By His Excellency's Command,
C. H. EBDEN.
