PETITION FOR MUNICIPAL INSTITUTIONS.

WARRINGAL OR HEIDELBERG.

IN pursuance of the Act of Council 18 Victoria No. 15, His Excellency the Governor, with the advice of the Executive Council, has directed the publication of the substance and prayer of a petition to His Excellency, hereinafter set forth, signed by one hundred and fifty-one inhabitant householders of the township of Warringal, otherwise called Heidelberg, in the county of Bourke.

By His Excellency's Command,
JOHN O'SHANASSY.

The petitioners state that they are subjected to great inconvenience and danger from the condition of the streets and roads in their locality, the communication between the township and Melbourne having been during last winter all but cut off, and the streets rendered nearly impassable for both foot passengers and vehicles.

That any general regulations promotive of cleanliness, health and convenience are in the present state of things impracticable, and that hence the township is consigned to utter neglect, and the value of property deteriorated, many persons having removed, and others having been deterred from coming to reside.

The petitioners state further that they feel convinced that the formation of the township into a municipality, under the Act 18 Victoria No. 15, will be the most certain mode of making provision for its present and future requirements.

And the petitioners pray as follows:—
“Your petitioners therefore pray that your Excellency will be pleased to cause the said township of Warringal or Heidelberg to be proclaimed a municipality under the provisions of the said Act.”

PETITION FOR MUNICIPAL INSTITUTIONS.

CARISBROOK.

IN pursuance of the Act of Council, 18 Victoria No. 15, His Excellency the Governor, with the advice of the Executive Council, has directed the publication of the substance and prayer of a petition to His Excellency hereinafter set forth, signed by one hundred and fifty-two householders and landowners in the township and parish of Carisbrook, in the county of Talbot.

Z.3050.

By His Excellency's Command,
WILLIAM C. HAINES.

The petitioners state that they are householders and landowners in the town and parish of Carisbrook, and are convinced that it will conduce to the improvement, welfare and good government of the township if it were incorporated into a municipal district under 18 Victoria No. 15, and they propose the following boundaries, viz.:—Commencing at the north-western point of suburban allotment 4, parish of Carisbrook, and running in a south-westerly direction one hundred and sixty-one chains; thence due south three hundred and thirty-two chains to the Government road from Carisbrook to Amherst; thence due east eighty-two chains, crossing Back Creek and Mount Greenock Creek; thence in a north-easterly direction four hundred and twenty chains to the south-east corner of the cemetery; thence due north, running along the boundary of the cemetery eight chains to the main Government road to Melbourne through Tarrangower; and thence in a north-westerly direction two hundred and twenty-two chains to the commencing point.

The petitioners further state that the proposed municipal district contains nine square miles, that no one point in it is more than six miles distant from any other point, and that more than three hundred landowners and householders are resident within it.

And the petitioners pray as follows:—

“That Your Excellency will be pleased, by proclamation in the usual manner, to declare the district of Carisbrook a municipal district, under the provisions of the Act of Council before mentioned.”

CITY COUNCIL OF MELBOURNE.

WHEREAS by an Act of the Governor and Legislative Council of New South Wales, 14 Victoria No. 20, intituled, "An Act for regulating the formation, drainage and repair of streets, courts and alleys on private property, within the city of Melbourne," it is, amongst other things

enacted, that where any street, court or alley on private property in the city of Melbourne, shall not be, or shall not have been sufficiently paved, flagged, macadamised, levelled, drained and sewered, or otherwise completed or repaired, to the satisfaction of the council of the said city, it shall be lawful for the said council at any time, and from time to time, by any order under the hand of the mayor or town clerk of the said city, for the time being respectively, to order that any such street, court or alley, or any part thereof, shall be freed from obstruction, paved, flagged, macadamised, levelled, drained and sewered, or otherwise completed or repaired, in such manner and within such time as to the said council may appear expedient, and thereupon the owners of the tenements adjoining or abutting upon such street, court or alley, on each side thereof, shall, in such manner and within such time as shall be expressed in such order, at their respective costs, charges and expenses, remove all obstructions, and well and efficiently pave, flag and macadamise, level, drain and sewer, or otherwise complete or repair so much of the said street, court or alley, to the centre thereof, as may be opposite to and co-extensive with their respective tenements, adjoining or abutting on such streets, courts or alleys respectively.

And whereas the streets, courts and alleys enumerated in the schedule to this order annexed, marked A, have not been sufficiently paved, flagged, macadamised, levelled, drained and sewered, or otherwise completed or repaired to the satisfaction of the council of the city of Melbourne:

Be it now ordered by the council of the said city, that the streets, courts and alleys enumerated in the schedule to this order annexed, marked A, shall, within forty days from the date of this order coming into operation, be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewered in such manner as is expressed in the schedule to this order annexed, and marked B; and it is hereby notified to the owners respectively of the tenements adjoining or abutting upon the streets, courts and alleys enumerated in the schedule to this order annexed, marked A, that if they or any of them shall neglect or omit to remove the obstructions, and pave, flag, macadamise, level, drain and sewer, or otherwise complete or repair the street, court or alley on which their tenements respectively adjoin or abut, in the manner and within the time expressed in this order, then the council of the said city will remove all obstructions in the said streets, courts and alleys, and pave, flag, macadamise, level, drain, sewer and otherwise complete or repair the same, or such parts thereof as shall not have been so done pursuant to this order, and will thereupon ascertain, determine, and charge such respective owners with their several proportionate parts of the costs, charges and expenses thereof, according to, and co-extensive with, their respective tenements adjoining or abutting on such street, court or alley, having regard in such apportionment to the state and condition of the pavement, flagging, macadamising, levelling, draining and sewerage in which such streets, courts or alleys respectively, or any part thereof, shall or may be at the time of making this order.

Made and passed by the council of the city of Melbourne, this ninth day of February, 1857.

P. DAVIS,
Mayor.
E. G. FITZGIBBON,
Town Clerk.

SCHEDULE A, REFERRED TO IN THIS ORDER.

Streets, courts, and alleys, ordered to be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewered.

LOCALITY—LA TROBE WARD.

The private lane or lanes in block 6, allotments 7, 8, and 9, running from Flinders lane to Flinders street.

SCHEDULE B, REFERRED TO IN THIS ORDER.

Manner in which the streets, courts, and alleys, enumerated in schedule A, referred to in this order, are ordered to be freed from obstruction, paved, flagged, macadamised, levelled, drained and sewered.

The natural soil is to be reduced or made up as the case may require, so that the longitudinal section of the whole right-of-way shall in no part have an inclination of less than 1 in 120, and where practicable, the entire length is to form one incline. In laying on any stuff it is to be spread in layers of not more than one foot thick. The transverse section of the right-of-way is to shew a roadway whose crown shall be one inch above the kerbs of the footways, and in the fall from the crown of the water channels is to be at the rate of 1 in 25.

On either side of the roadway there is to be a water channel eighteen inches wide, consisting of two rows of bluestone pitches, nine inches deep, and not less than nine inches by fourteen inches on the surface, with upright sides, set in loam and rammed with a rammer weighing forty pounds, so as to subside four inches.

The bottom of the channel is to be seven inches below the top of the kerbs.

On either side of the roadway there is also to be a footway not more than three feet wide, and these are to be separated from the roadway by a red gum plank or kerb ten inches by three, set on edge, and fastened with five-inch spikes to piles four inches by four of red gum, three feet long, driven into the soil.

The footways are to be covered with a coat of gravel three inches thick, and the surface is to fall towards the channel at

the rate of 1 in 10. The roadway is to be covered with a coat of broken metal, broken to a two and a-half inch gauge, and laid on seven inches thick at the channels and eight inches at the crown, and this, when necessary, is to be covered with a coat of loam one and a-half inches thick.

Wherever private entrances lead from the rights-of-way they are to be paved to the full width with bluestone pitchers in the same manner as the channels. Paving is to be extended from the channels towards the line of houses or fences, so as to cross the entire footway.

The whole of the work must be done under the inspection and subject to the approval of the city surveyor, who is authorised to order any deviation from these general principles which the particularities of any case may require. No. 712.

SANDHURST MUNICIPALITY.

I, the Chairman of the Municipal Council of Sandhurst, hereby convene a meeting of the ratepayers of the said municipality, to be held at the Shamrock Hotel, Pall Mall, at eight of the clock in the forenoon of Monday, the 1st day of June next, for the purpose of electing a member of the Municipal Council to serve in the place of Edward Nuccella Emmett, resigned.

Dated this 5th day of May, 1857.

J. F. SULLIVAN,
Chairman.

No. 715.

BEECHWORTH MUNICIPALITY.

FIRST HALF-YEARLY REPORT OF THE MUNICIPAL COUNCIL OF BEECHWORTH TO THE 9TH OF APRIL, 1857, INCLUSIVE, MADE IN PURSUANCE OF THE REQUIREMENTS OF THE 43RD SECTION OF THE MUNICIPAL ACT.

INSTITUTION OF THE MUNICIPALITY.

A petition signed by above 150 householders in the district of Beechworth having been duly presented to His Excellency the Officer administering the Government of this colony, praying that the district might be raised into a municipality, and the other provisions of the Act touching the matter having been duly complied with, and no counter-petition having been lodged within the prescribed time, His Excellency, by Proclamation dated the 23rd August, 1856, declared such district a municipal one under the governance of the Municipal Council of Beechworth.

BOUNDARIES.

The boundaries of such district were defined in said Proclamation as commencing at the north angle of the cemetery reserve, Beechworth; thence by a line bearing east ninety chains; thence by a line bearing south eighty chains; thence by a line bearing west fifty chains; thence by a line bearing south 45 degrees west forty-two chains; thence by a line bearing south forty chains; thence by a line bearing west sixty chains; thence by a line bearing north one hundred and fifty chains; and thence by a line bearing east fifty chains to the commencing point aforesaid.

ELECTIONS.

The district having thus been determined and proclaimed, a public meeting of householders, &c., presided over by W. C. Jones Parry, Esq., was held, pursuant to the provisions of the before mentioned Act, on the 25th day of September, 1856, at the Star Assembly Room, Beechworth, at which meeting it was decided:—

1st. That the municipal council should consist of seven members.

2nd. That their services should be unremunerated.

Sixteen candidates were duly proposed and seconded, for whom, on the following day, a poll was held at the same place, when the following gentlemen were elected in the order named, viz. :—

Richard Mellish	109
A. B. Pritchard	103
Frederick Brown	100
Robert Winter	77
J. C. Gray	76
Charles Williams	73
Henry Robertson	70

CHAIRMAN.

At the council's first meeting, on the 10th October, 1856, councillor Mellish was (in his absence from Beechworth) unanimously chosen chairman of the council.

COUNCIL CHAMBERS AND OFFICES.

For these the council were, owing to a delay on the part of Government in giving them a definite reply to their application for the free grant of a house for the purpose, obliged to rent for the first five months (most inadequate), but the only at all likely accommodation they could obtain. On the 14th March, 1857, however, the council received (as a free grant) from the Government, the premises previously occupied by the late Sub-Treasurer of the district, Mr. Melmoth Hall, which they now occupy, though at present not altogether in as convenient a manner as they could wish, as the said premises now stand on the line of the continuation of the main street of the township, so that until the council are in a position to remove them, or build other offices on the site since granted to them by Government for that purpose, they intend to use the present ones in the same state in which they came into their hands.

No. 54.—MAR 15TH, 1857.—5.

MEETINGS.

The general meetings of the council were in the first instance held twice a week, but it was eventually agreed that they should be weekly, and take place on Thursdays, at half-past Seven o'clock p.m.

There were, during the half-year, 46 meetings of the council, including 12 special ones, the council being always willing to give their time and assistance whenever any matter concerning the public weal seemed to require earlier attention than it could receive if it had to stand over until the council's usual day of assembling.

Only one meeting lapsed for want of a quorum, and that was a special meeting hurriedly called.

The attendance of the members of the council at these meetings was as under, viz. :—

	General.	Special.	Total.
The Chairman	32	10	42
Councillor Pritchard	24	6	30 out of 43
Councillor Brown	31	9	40
Councillor Winter	26	4	30
Councillor Gray	22	3	25
Councillor Williams	22	4	26
Councillor Robertson	16	4	20

Councillor Pritchard resigned office on the 24th of March, and an election to supply the vacancy is to take place in due course.

COMMITTEES.

At the sixth meeting of the council, a public works committee was appointed, consisting of councillors Pritchard, Robertson, Winter, Williams and Gray, of which councillor Winter was afterwards unanimously chosen chairman; and a finance committee, consisting of the chairman and councillors Pritchard and Brown.

There have been eleven meetings of the public works committee during the half-year, at which the attendance of members was as follows:—

The Chairman (Councillor Winter)	11
Councillor Pritchard	8 out of 9.
Councillor Robertson	3
Councillor Williams	6
Councillor Gray	4

One meeting was special, and two lapsed for want of a quorum.

The finance committee held eight meetings, the attendance of which was—

The Chairman	8
Councillor Pritchard	4 out of 6.
Councillor Brown	8

APPOINTMENTS.

The only salaried appointment the council at first made was that of Mr. W. H. C. Darvall, on the 23rd October, 1856, as town clerk and collector, which two offices the council combined, both for the sake of economy and from a belief that they could obtain the services of a more efficient person for the united salary of the two posts than they could for the emolument of either separately.

On the 7th March, 1857, with the approval of the Chief Secretary, the Chief Commissioner of Police, and the Superintendent of the district, they appointed Police Sergeant Lawrence Whelan their inspector of nuisances, with a gratuity of £10 per quarter.

The only other appointment made by the council was that of honorary treasurer, in which capacity their chairman, Richard Mellish, Esq., at their request, consented to act.

BYE-LAWS.

The following bye-laws, passed by the council, have been duly assented to by his Excellency the Governor of the colony.

No. 1. For regulating the proceedings of the council by means of standing orders.

Nos. 2 and 3. For the better prevention of fires in the municipality.

No. 4. For enabling the council to effect certain improvements in the main streets of the municipality.

No. 5. For compelling persons to remove all refuse to an appointed manure depot.

To the following bye-law passed by the council His Excellency, with the advice of the law officers of the Crown, has refused his assent, viz. :—

No. 6. To enable the council to compel attention to be paid in the future erection of buildings within this municipality to the permanent levels of the streets, as adopted by the council.

In framing which bye-law the council had in view the prevention of unpleasant collision between themselves and the other inhabitants of the township whenever they (the council) should take in hand the permanent formation of the streets, when such persons as may have erected buildings without consulting the levels will necessarily be liable to have their property somewhat injured or deteriorated in value. As the bye-law is not passed persons now build at their own risk, unless they come voluntarily and obtain the levels from the council's offices, which any one consulting their own future advantage would do.

No. 7. For removing the bodies from the old graveyard in Camp and Loch streets to the new cemetery had not, up to the close of the council's first half-year, been gazetted as assented to by His Excellency, but it was confidently expected to be so shortly.

To bye-law No. 8 for imposing a rate of 1s. in the pound on the rateable property in the municipal district of Beccworth, for the year 1856-7, the same remarks apply as to No. 7.

LOCAL PETITIONS RECEIVED.

There has been only one petition from the inhabitants, and that was praying the council's intervention with the Government to procure an abatement of the evils arising from the manner in which the formation of the main Sydney road through Ford street was being carried out, which request the council immediately complied with, and after a very lengthy correspondence with the Central Road Board, and interviews with the engineer for the district, they have obtained a partial amelioration of the annoyances complained of, and they are informed that there are tenders now called for by that board for works which, when completed, will still further rectify the errors forming the subject matter of complaint.

PUBLIC WORKS.

In the prosecution of works for the general improvement of the municipality, the council have been very greatly impeded by the delay on the part of the Government, both as regards payment of the municipal grant (which, even up to this time, they have not been able to obtain), and also in recommending His Excellency's necessary assent to their bye-laws: the consequence has been that they have not been able to obtain funds, either from the grant or from local rates; and had it not been that the Bank of New South Wales consented to make advances on the personal responsibility of members of the finance committee, the council would have been unable to stir one step. With the abovenamed accommodation from the bank, however, the council proceeded to have the six main streets of the township cleared of stumps and boulders, and the holes filled up.

Though, further than for this temporary improvement, and the payment of the actual outlay necessary for carrying on the business of the council, and for conducting certain trifling works of actual necessity that occasionally arose, they did not feel justified in incurring expense until they had really tangible funds to their credit.

They are, however, glad to find, even thus late, that the Government are beginning to give way respecting the payment of the legislative grant, and, therefore, that they may expect to receive at least a portion of it now very shortly. They also expect in the course of a few weeks to be in receipt of the first moiety of the one shilling rate, due on 10th April, 1857, and, as the other moiety will be due on 20th July, they are very hopeful of being, ere long, in a position to proceed with such works as may seem most pressing upon their attention.

But the council cannot conclude this portion of their first report without recording their strong deprecation of the great delays which occur on the part of the Government in any matter in which the council is obliged to correspond with it; the annoyance to the council, and the loss to the municipality occasioned by which delays, is really of very serious moment.

The following applications to Government have been granted:—

APPLICATIONS TO THE CHIEF SECRETARY.

For copies of the *Government Gazette* from date of the commencement of the municipality (though at first refused).

For approval of corporation seal and motto.

For sanction to the appointment of a police sergeant, as the council's inspector of nuisances.

For the exemption from municipal rates of the Wesleyan, Roman Catholic, and Hospital reserves (the Church of England having already received exemption, through the direct appeal of the trustees to Government, although this council originated the matter with them, and actually delayed making the above applications on behalf of the other bodies until they should receive the expected letter from the Church of England trustees, requesting to be included therein).

APPLICATIONS TO THE SURVEYOR GENERAL.

For a reserve of one acre of land in Ford street, as a site for town hall, council chambers, and municipal offices.

For a reserve of one and a quarter acres for the purposes of a market square.

For the boundaries of the municipality to be definitely marked out (only partially complied with).

For a reserve of two acres for a manure depot.

For a reserve of two one-quarter acre allotments in High street, to improve the entrance from the bridge (a portion of each allotment granted for the purpose).

For a reserve of portion of allotment 1, section 13, in High street on which is a spring of water, which the council considered likely to be a benefit to the public generally.

For the public recreation ground and racecourse, to be vested in the council, and not in other trustees.

For a reserve whence persons could obtain loan for building purposes.

APPLICATIONS TO THE COMMISSIONER OF PUBLIC WORKS.

For copy of regulation and directions for carrying out public works.

APPLICATIONS TO THE HON. THE TREASURER.

For payment of council's moiety of Beccworth police fines, paid into the Treasury in error.

The undermentioned applications to Government have either been refused, or are not yet decided upon, as stated:—

APPLICATIONS TO THE CHIEF SECRETARY.

For payment of the grant for public works in this municipality, which, notwithstanding the unceasing perseverance of the council on the subject, from the 11th October, 1856, up to the end of this, their first half-year of office, they have been unable to obtain.

For a complete set of the Legislative Acts and Ordinances. Refused.

For copy of the Government "General Regulations." Refused, as they were now much altered in practice.

APPLICATIONS TO THE SURVEYOR GENERAL.

For the land beyond Last street not to be sold. At first granted, and the land withdrawn, but afterwards, without any intimation to the council of the intended alteration, it was put up and sold by public auction in the usual way.

For the roads and footways in the municipality to be duly proclaimed and gazetted. Although the council have been most urgent in their reiterations of this application, they have been able to obtain no reply to it of any kind so far, and the want of its being acceded to, renders almost nugatory (as regards this district) several clauses of the Town and Country Police Act, which, if properly carried out, would be of the greatest advantage to the good order of the municipality.

For a sum to be placed on the supplementary estimates to cover the expense of removing the bodies from the old graveyard, in the heart of the town, to the new cemetery, not yet fully decided upon, but the council have every hope of a favorable reply, as a similar request from the municipal council of Castlemaine was acceded to.

For the district surveyor to employ extra hands to mark out the municipal boundaries fully and permanently. No reply whatever received.

APPLICATIONS TO COMMISSIONER OF PUBLIC WORKS, AND TO THE CENTRAL ROAD BOARD.

For the Melbourne entrance to the town from the main bridge to be permanently formed up High and Short streets, which application the council, ever since their election to office, have been urgently pressing upon the attention of both these departments; but, as yet, have received no definite reply. This is a work, the neglect of which reflects the greatest possible disgrace upon the Road Board and its officers, as it is by far the worst portion of the main Sydney road in this district; and its remaining "in the all but impassable" state it has been for so long a period, has been of serious detriment to the interests of the municipality. The council intend getting the matter brought before the legislature at the earliest and most convenient moment.

BUSINESS LICENSES.

The council have from time to time received, through the courtesy of the resident warden of the district, copies of the Government regulations respecting the one-mile boundary question, as affecting the issuing of business licenses, also letters from individuals on the subject, but have declined to interfere at all in the matter, under the present aspect of the gold-fields management.

RATEPAYERS' ROLL AND ASSESSMENT.

The council have procured the compilation of the ratepayers' roll for the district, and had the whole of the properties valued for assessment. The court of appeal will now be held almost immediately (on the bye-law imposing the rate of 1s. in the pound being sanctioned by His Excellency).

SANITARY.

The council have been entirely prevented from entering upon the drainage of the town, owing to the heretofore mentioned delays on the part of Government, in putting them in possession of funds necessary to carry out works of such vital importance. But, notwithstanding this drawback, the council are thankful to be able to report very satisfactorily on the general health of the locality during the past six months.

Before the re-approach of spring, however, the council hope to be in a position to carry out at least the most necessary of the required sanitary improvements, in which all-important work they look for the co-operation of their fellow-inhabitants of this district, both generally and as individuals, and would be always glad to receive any useful practicable suggestions on the subject.

FINANCE.

The town clerk keeps the accounts of the council, subject to the supervision of the chairman, its honorary secretary, by whom all cheques are signed, then countersigned by the town clerk. But no payment is made until the account has been duly audited and passed by the finance committee, and ordered payment of by the council.

The annexed balance sheet, for the first six months of the council's existence, will amply show the desire of the council to keep down their expenditure, such as is therein set forth as incurred, being only such as was absolutely necessary for the beneficial working of the municipality.

The item for furniture shows that but a very meagre supply has been obtained, the council being undesirous of incurring expenditure under this head until they should be located in permanent chambers, which they hope will be the case after the winter, when they will be better able to mature their plans respecting them.

With respect to the items for stationery, advertising, and surveys, the council need scarcely remark that only really absolute expenditure has been incurred under these heads.

And, indeed, the same remark will apply to the whole financial statement.

In concluding this report, the council need only add, that in all their proceedings they have been guided by a desire to promote the well-being of the municipality generally, to which end their best efforts will always be used.

Chairman.
