Treasury,
Melbourne, 8th July, 1858.

NOTICE TO PERSONS HAVING CLAIMS ON THE PUBLIC TREASURY.

FREQUENT complaints being made as to the delay experienced by the public in obtaining payment of accounts due by the Government: It is requested that all unsuccessful applicants to the Pay Office of the Treasury for accounts due to them will in every case make enquiries respecting the same in the Reference Room attached to the Treasury Department, next door to the Pay Office.

If this course is observed, it will enable the Treasurer to ascertain whether the delays complained of are attributable to his department.

MARYBOROUGH GAOL.

PROCLAMATION

By His Excellency Sir HENRY BARKLY, Knight Commander of the Most Honorable Order of the Bath, Captain-General and Governor-in-Chief of the Colony of Victoria, and Vice-Admiral of the same, &c., &c., &c.

WHEREAS a certain building has been erected at Maryborough, in the county of Talbot, at the public expense, as and for a lock-up for police purposes: And whereas it is deemed expedient to proclaim such building to be a gaol, prison and house of correction, within the meaning of an Act of the Lieutenant Governor and Legislative Council of the said colony, passed in the sixteenth year of the Reign of Her present Majesty, intituled, "*An Act to make provision for the better control and disposal of Offenders.*" Now therefore I, Sir Henry Barkly, the Governor of Victoria, in pursuance of the provisions of the said Act, with the advice of the Executive Council, do hereby proclaim the said building, called and known as the Police Lock-up, situated at Maryborough aforesaid, as and to be a public gaol, prison and house of correction, within the meaning of the said Act.

Given under my Hand and the Seal of the Colony, at Melbourne, this twenty-third day of July, in the year of Our Lord One thousand eight hundred and fifty-eight, and in the twenty-second year of Her Majesty's Reign.

(L.S.) HENRY BARKLY,
By His Excellency's Command,
JOHN O'SHANASSY.

CAPE BORDA LIGHTHOUSE.

THE annexed notice which has been received in this Department, is, at the request of the Government of South Australia, published for general information.

By His Excellency's Command,
HENRY MILLER.

SOUTH AUSTRALIA.

CAPE BORDA LIGHTHOUSE, KANGAROO ISLAND.

Notice to Mariners.

THE Master and Wardens of the Trinity House of South Australia hereby give notice, that the light on Cape Borda was first exhibited on the evening of the 13th July, 1858, and will continue to be exhibited every night from sunset to sunrise.

Cape Borda lies in lat. 35° 45' 20" south, long. 136° 38' 0" east, and is a bold clifly headland 480 feet above the sea level.

The lighthouse is a square stone tower, and stands thirty (30) feet from the ground, on the summit of a small mound, about five hundred (500) yards from the edge of the cliffs. The total height of the lantern is therefore five hundred and ten (510) feet above the level of the sea.

The light, which is on the catoptric principle, exhibits a bright and red flash alternately every half-minute ($\frac{1}{2}$ -minute), and may be seen on an arc extending from N. 60° E. to S. 35° W. (round by west). The bright flash may be seen at a distance of thirty (30) miles, in clear weather; but the red light will not be visible more than about half that distance, therefore when the red light is not distinguishable, the bright light only will appear at intervals of one minute.

Vessels approaching Cape Borda from the south-west should keep the light well open of the high land to the southward of the Cape, to avoid the reef off Cape Bedout, the western extremity of the Island. Vessels bound up Investigator's Straits, after having rounded Cape Borda, should keep the light quite clear of the high land to the eastward of it, on a S.W. by W. bearing until Cape Forbin is passed, when it may be shut in with the high land.

Vessels bound down Investigator's Straits should not bring the light to bear to the westward of S.W. by W.

The above bearings are magnetic, the variation being 5° east.

Master of the Trinity House, South Australia.

 Melbourne, 21st July, 1858.

SUSPECTED MURDER.
 FIFTY POUNDS REWARD.

WHEREAS it has been represented to the Government that a German named Martin Leahman was last seen in company with one Christian Von See, proceeding in the direction of Myers's Flat, with a horse and cart, at Seven o'clock in the morning on some day about the middle of June last, and has not been since heard of: And whereas there is reason to suspect that the said Martin Leahman has been murdered: Notice is hereby given that a reward of Fifty pounds will be paid by the Government to any person giving information to the police which will lead to the apprehension and conviction of the person or persons who murdered the said Martin Leahman, should it prove that he has been murdered.

By His Excellency's Command,
 JOHN O'SHANASSY.

PARTICULARS.

Description of the missing man.—Martin Leahman, a German, of slight make, about 48 years of age, with light hair slightly inclined to grey, and rather bald at the top of his head, without whiskers, but he did not shave for a fortnight before he left. He had on two cloth jumpers, the inner one yellow, two pairs of trousers made by himself of old flour bags; a pair of old bluchers or shoes, with blue stockings tied with old rags, an old black hat with a cover of old sacking.

On some day about the middle of June last, at 7 a.m., Leahman and Christian Von See were seen going in the direction of Myers's Flat with a horse and cart. About 8 a.m. they passed the "Allies Hotel," at Myers's Flat, and were then going towards Pearson's. Some days subsequently, at 5 p.m., Von See called at the "Allies Hotel;" he was accompanied by an aboriginal, and stated that he had been looking for a horse on the Loddon but could not find him. Von See also stated that he had travelled that day from the Serpentine, and had stopped the previous night at "Wood's Hotel."

Leahman, it appears, accompanied Von See to search for a lost chestnut horse, which had once strayed from its former owner (Mr. Cotton, of the Allies Hotel), and was eventually found at the Lower Loddon pound. Von See had on two occasions previously gone on foot and alone in search of this horse. There is reason to believe that they on this last occasion proceeded towards the Lower Loddon. The aboriginal above-mentioned is said to have gone to the Whipstick.

On Saturday, the 19th, and Sunday, the 20th of June last, Von See was at the "Durham Ox" public-house (Wood's), at Serpentine Creek, and then gave to mounted constable Emerson the following brands and description of a chestnut horse, which he stated he had lost and had come to look for, viz., "a chestnut horse, branded CT near shoulder, T off shoulder."

On Sunday, the 20th of June, the constable saw Von See's horse and cart at the above-mentioned public-house.

On Monday, the 21st of June, Von See left, and went in the direction of the Serpentine Inn (Rolph's).

The Treasury,
New South Wales, 8th June, 1858.
STEAM TUG.

THE Government of New South Wales being desirous of purchasing a Steam Tug, suitable for the purpose of harbor towing, for the port of Newcastle, invites offers from owners of steamers in this and the neighboring colonies, who may have the description of vessel required for sale.

The vessel must be of not less than 70 horse power, on low pressure principle, and propelled by paddles.

Every proposal must be accompanied with the fullest information possible as to age, size, power, and general capabilities of the vessel, as also with certificates from the Government Surveyors to Steam Boards.

The proposal must state the price, the mode of payment, and the place where the vessel is lying, and whether deliverable in Sydney or elsewhere; also the period to be allowed to the Government to accept or reject the offer.

Applications will be received at this office up to the 31st July next, addressed to the Honorable the Colonial Treasurer, New South Wales.

HENRY LANE,
Under Secretary.

Personal Information.

BUNCE, MR. DANIEL, formerly a writer for the *Weekly Dispatch*, who arrived in Australia about the year 1832, is requested to leave his address at the Chief Secretary's Office, Melbourne.—6th July, 1858.

MALLET, EUGENE, who arrived in the colony by the ship *Appleton* in April, 1853, is requested to forward his address to the Secretary General Post Office, Melbourne.—18th June, 1858.

MUNICIPALITY OF BALLAARAT EAST.

SECOND Half-yearly Report of the municipality of Ballaarat East, made in pursuance of the 43rd section of the Municipal Act.

PUBLIC WORKS.

During the past half-year the undermentioned public works have been completed by the council:—

The forming and metalling of 25 chains of road in Esmond street.

The forming and metalling of 8 chains of road in Peel street.

Making 120 chains of footpath with bluestone kerbing.

Making 120 chains of footpath with 3-inch sawn planks.

Making 4 chains of street crossings pitched with bluestone.

Metalling 3 chains 50 links road leading to Pennyweight Flat.

Repairing 2 miles of Bakery Hill and Eureka roads.

Construction of a wooden bridge, with stone abutments, over the Caledonian Creek, Esmond street.

Construction of a wooden bridge over the Caledonian Creek, Pennyweight road.

Removing the weighbridge from its former site on the Main road, to Specimen Hill, in close proximity to the proposed market reserve.

Plans and specifications are being prepared for the following works:—

The completion of the footpaths to the police station on the plank road.

The repair of Brown Hill road, and erection of bridge thereon.

The repair of Eureka street to the town boundary.

The repair of the Pennyweight road.

The footpaths of the Main road, being a total length of 2 miles, will be completed this month.

It is confidently expected that the sites for town hall, public markets, recreation and other reserves, will be gazetted forthwith.

The municipality has suffered much loss and inconvenience owing to the dilatoriness of the Board of Land and Works in the department of roads and bridges and public lands respectively.

Four months were allowed to elapse after the necessary sums had been placed upon the estimates, before tenders were called for metalling the main road and constructing the culverts and channels. Pools of stagnant water in the roadways and natural channels, and culverts choked with sludge, have been allowed to remain for a considerable time, to the serious detriment of the sanitary condition of the municipality, while our cross streets have not been defined up to the present time, notwithstanding that in reply to frequent applications made to the Government, assistance for that purpose was promised to be rendered to the district surveyor.

BYE-LAWS.

The following bye-laws, passed by the council, have been assented to by His Excellency the Governor, viz.:—

No. 4. For the appropriation of the sum of £3000, first instalment of grant-in-aid.

No. 9. To compel owners and occupiers to keep the water-channels, footpaths, and rights-of-way bounding their premises free from sweepings, rubbish, offal, or any offensive matter.

No. 10. To compel owners and occupiers to keep their premises free from offensive matter, and for restraining noisome and offensive trades.

The undermentioned bye-laws are in the hands of the executive:—

No. 5. For regulating and licensing public vehicles, public carter, water drawers, &c.

No. 6. For regulating and licensing persons to slaughter certain animals.

No. 7. For regulating the driving of unbroken horses, &c.

No. 8. For regulating the formation of crossings for wheeled vehicles over footpaths, and for protecting the footpaths and water-channels.

No. 11. For the management of water-courses, drains, &c.

APPLICATIONS TO GOVERNMENT.

(Granted.)

For a temporary police court in Ballaarat East; the whole of the expenses of building, stationery, &c., up to the present, having been defrayed by the council.

For the appointment of a clerk of petty sessions.

(Refused or remaining in abeyance.)

For possession of the cross streets free from obstructions.

For a uniform increased depth to the Main road allotments.

For the appointment of a water commission.

For the haymarket site to be gazetted.

For the expenditure, in this district of the sums nominally placed upon the estimates for that purpose.

For the appointment of a stipendiary magistrate.

For compensation to the occupants of culvert and drain reserves.

For a ground reserve for a stone quarry.

For the removal of drain obstructions.

For the sanction of the Board of Land and Works to the site selected by the council for a police court.

RESIGNATION, RETIREMENT BY ROTATION, AND RE-ELECTION OF COUNCILLORS.

Councillor Isaacs resigned on the 4th and councillor Wilson on the 5th May. Councillors Rodier (chairman), Scrase and Jones, retired by rotation on the 1st June, and councillors Rodier and Scrase having allowed themselves to be put in nomination were returned to the council on that day; councillors Sweeney, Anderson and Dyte, were also elected, the five members appearing on the poll in the following order:—

William B. Rodier	295 votes
Daniel Sweeney	263 "
Edwin Scrase	251 "
Andrew Anderson	243 "
Charles Dyte	182 "

At a meeting held on the 31st May, 1858, in accordance with the 18 Victoria No. 15, clause 10, for the purpose of nominating candidates for the council, it was determined by a majority of ratepayers present that the chairman for the ensuing year should receive a salary at the rate of £300 per annum.

APPOINTMENTS.

Messrs. Coote and Andrews having resigned the office of municipal engineers on the 5th January, Mr. John Gwynneth received that appointment on the 26th January.

Dr. Leman has been recommended to the Governor, by the Central Board of Health, for the office of public vaccinator and health officer.

GRANT-IN-AID.

On the £4000 was received as a second instalment of the grant-in-aid.

COLLECTION OF TOWN RATES.

In consequence of the delay in appointing a clerk to the court of petty sessions, the rate collector could not commence his duties until the 11th January. The appeals against assessment were disposed of at a court held for that purpose on the 22nd December.

The amount of town rates collected up to 3rd June was £4055 12s. 9d.

VISIT OF THE GOVERNOR.

His Excellency the Governor having accepted invitations from the councils of both municipalities, arrived on Ballaarat on the 19th January, being met at their respective boundaries by the members of the eastern and western councils. The occasion was observed as a public holiday, and during his stay the Governor received congratulatory addresses from the various local bodies. His Excellency also attended at a public banquet given in honor of his first visit to Ballaarat, and expressed himself much gratified at the unanimity of feeling testified in his reception, and acknowledged that from the facts brought under his notice this district up to the present-time had not received a fair share of the general revenue.

REGISTRATION OF PARLIAMENTARY VOTERS.

No registrar having been appointed in this municipality, the council employed several deputy registrars, and by this means caused 5596 names to be inserted upon the electoral roll, in addition to those obtained by the other local bodies.

BENEVOLENT AND VISITING ASSOCIATION.

The moieties of police court fines accruing to the council were handed over to this institution in the months of March, April and May, but in consequence of the increasing number of applications for pecuniary assistance, and the ascertained general utility of the association, a resolution was carried to the effect that on and after the 1st June the sum of £30 per month be paid into the funds of the Ballaarat Benevolent Association.

BOARD OF HEALTH.

In the month of April considerable alarm was excited by a rumor that the small-pox had made its appearance here. A strict medical investigation was instituted, and the Central Board of Health, with an alacrity worthy of imitation in the other Government departments, immediately extended the Public Health Act to Ballaarat East, and expressed its willingness to afford every assistance to preserve the hitherto healthful condition of the municipality.

WATER SUPPLY.

The only cheap water supply for domestic uses having been vested in the municipal council of Ballaarat prior to the formation of this council, and that body having refused to join this council in making the supply available for both municipalities, steps were taken to obtain a professional report on the Wendouree Swamp (the source of supply referred to), and that report being favorable to the opinion that by a small expenditure sufficient water might be stored in the Swamp to serve the population the whole year round, the council caused a bill to be prepared for the repeal of the by-law under which the Swamp was held by the municipal council of Ballaarat. The bill was entrusted to J. B. Humfray, Esq., M.L.A., but owing to the number of ministerial changes that occurred during the last session of the Assembly, it was never fairly placed before the House. Mr. Humfray has, however, given notice that early in the next session he will ask for leave to introduce the bill. The council have also applied to the Government to reserve certain lands on Gong Gong Creek for a reservoir, and to guarantee interest on the expenditure of a Water Commission for Ballaarat.

STATISTICS OF THE MUNICIPALITY.

The following extract from *Facts and Figures*, in connection with Ballaarat, prepared by the committee of the local bodies, will serve to show the manner in which this district has been neglected hitherto in appropriation of the estimates, and may not be considered out of place in this report:—

"Beginning at the commencement of the history of this gold field, we find that in the years 1851 and 1852, the revenue contributed by the population of Ballaarat in indirect taxation, was, £7608 14s. 5d. During the same period the sums paid for business and miners' licenses were £38,422 10s. The total was £46,031 4s. 5d. For the same years the amounts voted for roads leading from the seaboard—for internal roads and for public works, were nil. But in those years Melbourne had £22,677 appropriated for her benefit, and Geelong £15,854.

"In the year 1853 the revenue contributed from Ballaarat by indirect taxation was £57,948 19s. 5d., the amount paid for licenses, £98,071, the total being £156,019 19s. 5d. In the same year the gold produced from this gold field was worth at least £1,405,499. The total amount voted for the roads and public works connected with the district was £5000—for roads from the seaboard £7000. The proportion of expenditure to

revenue was as 1 to 13, and to the value of the produce as 1 to 117. The yield of gold for Castlemaine and Bendigo for this year may be valued at £6,461,340, but the amount voted for the joint districts was, for public works £37,669, and for roads from the seaboard £307,637, making a total of £345,306. The proportion of expenditure to produce was as about 1 to 19. The revenue contributed from those districts, calculated on the same data as those adopted in the estimate for Ballaarat, amounted that year in round numbers to £678,866. The expenditure, therefore, was more than one-half of the revenue. When can such a circumstance be found in the history of Ballaarat? In this year the sum voted for public works and buildings in Melbourne was £422,967—for like purposes in Geelong £111,815.

"In the year 1854 the revenue from Ballaarat, in the shape of indirect taxation, was in round numbers £135,937. The gold licenses may safely be taken as nearly equalling those of the preceding year, or £90,000. The total would be £225,937. The value of her gold produce for that year was £2,625,704. In the same year the sum voted for public works in the district was £6000, and for roads from the seaboard £40,000, making a total of £46,000, hence the proportion of expenditure to revenue was nearly as 1 to 5, and to value of produce as 1 to 57. The amount voted to Bendigo and Castlemaine this year for public works, &c., was £32,500, and for roads from the seaboard £130,000, the total being £162,500. The value of their produce was in round numbers £4,000,000. The proportion of expenditure to value of produce was as 1 to 24. In this year, 1854, the sums voted for Melbourne amounted to £683,950, and to Geelong £155,532. The two took more than one-fourth of the entire revenue of the colony, and four-sevenths of the sum expended on all its public works.

"In 1855 the revenue from Ballaarat, through indirect taxation, was £121,562; for licenses it may be taken at £35,000; and the duty of 2s. 6d. per oz. on gold would amount in that year to £81,315, the total being £237,877. The total value of her gold produce during that year was £3,528,009. The sum voted for public works in the district was £5000, for roads from the seaboard £60,000, the total being £65,000. The proportion of expenditure to revenue was as 3 to 11, and to value of produce as 1 to 54. The joint yield of Castlemaine and Bendigo that year may be calculated at £3,780,756. The sum voted for their public works was £16,000, for roads from the seaboard £100,000, the total being £116,000. The ratio of expenditure to produce was as 2 to 65. In the same year the amount appropriated to Melbourne was £730,150, to Geelong £206,000, the total being £936,150, not much less than one-third of the revenue of the colony, or about thirteen-twentieths of the total sum expended for all its public works, which in that year was £1,490,397.

"In the year 1856 the indirect revenue from Ballaarat was £123,750, the duty upon her gold not less than £142,045, and the licenses £20,974, the three being £286,769. The gold yield cannot be valued at less than £4,544,648. The amount voted for public works in the district was £24,662, for roads from the seaboard £114,976, the total being £139,638. The ratio of expenditure to revenue was as 2 to 5, and to produce as 2 to 65. In this year the gold produce of the united districts of Castlemaine and Bendigo may be estimated at £4,276,784. The sums voted for public works amounted to £41,084, and for roads £114,976, the total being £156,060. The ratio of expenditure to produce was as 2 to 55. In that year Melbourne had voted for it £402,554, and Geelong £67,555, making altogether £470,109, or one-sixth of the revenue of the colony.

"In 1857 the indirect revenue from Ballaarat was in round numbers £121,000. The duty on her gold produce may be taken at £104,660. The licenses (probably not quite equalling the preceding year) at £18,000, the total being £243,660. The value of the gold was not less than £3,349,116. The appropriation for public works in the district was £27,093, and for roads from the seaboard £85,500, the total being £112,593. The proportion of expenditure to revenue was therefore nearly as 1 to 2, and to produce 1 to 30. The value of the gold produce from the joint districts of Castlemaine and Bendigo may be taken at £3,305,868. The sums voted for their public works was £96,072, and for roads from the seaboard £102,000, the total being £198,072, or in proportion to the produce as 1 to 17. In the same year the sums voted for Melbourne amounted to £431,703, and for Geelong £151,050, together £582,753, or rather more than one-sixth of the entire revenue of the colony.

"There is, however, another view to be taken of this matter. Hitherto we have been treating the amount expended for the roads as solely for the benefit of Ballaarat, and have confined the revenue to that from the population resident within the boundaries of the two municipalities. As respects the first, Ballaarat has, as yet, from the incomplete condition of the roads, been less benefited than might have been anticipated. On the Geelong line, the outlay has tended as much or more to advance the districts near to that town than Ballaarat itself, and of the total expenditure certainly not more than half should fairly be charged to the latter place. And again as to the population, the inhabitants of the outlying districts are now, and have for the last four years, been equal on the average to those within the municipal boundaries. These two circumstances taken together would seriously affect the case and heighten the injustice of which we complain. Let the land revenue from the district of Ballaarat be added, and it will be for the public to say how far we are justified in our indigna-

tion at the manner in which we have been treated. A short summary will suffice:—

	£	s.	d.
Revenue from Ballarat, 1851-2 ...	46,031	4	5
" " 1853 ...	156,019	19	5
" " 1854 ...	225,937	0	0
" " 1855 ...	237,877	0	0
" " 1856 ...	286,769	0	0
" " 1857 ...	243,660	0	0
	£1,196,294	3	10
Add indirect revenue from outlying districts ...	502,249	0	0
Add land revenue to November, 1857 ...	380,255	2	1
Total ...	£2,078,778	5	11

"On public works, grants to municipalities, every form of public disbursement save official salaries and their appendant outlay, only £69,755 has been expended, and assuming that one-half of the road cost, or £128,750, is fairly chargeable to Ballarat, the total being £298,505, would be scarcely one-eighth of the revenue derived from it. And this proportion is aggravated by the fact that while we have contributed one-eighth of the total revenue of the whole colony during the last seven years (the figures being £17,233,862 and £2,078,778 respectively), we have been directly benefited by only one sixtieth of the expenditure. During the same period £2,694,006 has been devoted to Melbourne, and £707,808 to Geelong, the total being £3,401,814, or very close upon one-fifth of the whole revenue of the colony for the last seven years."
