PUBLIC WORKS FINISHED OR IN PROGRESS.

The various works undertaken by the council during the past six months have been satisfactorily completed. Among them may be enumerated the kerbing and channelling of about two chains of Sydney street, from Brisbane street to Clarke street; the opening of drains along Foot and Bourke streets to the creek, by which it is hoped the storm water will be so diverted that the annoyance caused by it to the owners of premises running from Sydney to Melbourne streets will not again occur. The drainage of a portion of George street, and also of Albert street, has been effected, and substantial culverts have been erected at the junction of Albert and Fitz Roy streets with Union street.

The kerbing and channelling of Sydney street, on the east side, is being satisfactorily proceeded with, and will be completed with due despatch. The council have also invited tenders for repairing that portion of the Cemetery road, or Foot street, within the municipality.

ANNUAL ELECTION.

At the annual election, which took place on the 9th August, the three retiring councillors, viz., Messrs. Beavan, Trainor, and Corboy, were re-elected by polled votes.

GENERAL AUDIT.

The council have ordered a general audit of the accounts from the establishment of the municipality to the present time. This was ordered principally on account of certain statements made at the annual election, to the effect that this council had expended more in salaries, &c., than any other similar institution in the colony. The audit will, it is believed, show that such is not the case, and that the statements alluded to have no foundation in fact.

WATER SUPPLY.

The council have at various times endeavored to induce the Government to place a sum of money upon the estimates to be appropriated to supplying the town of Kilmore with water. Hitherto they have not succeeded, but the present Government have given a promise that the matter should receive consideration.

FRED. W. C. BEAVAN,

Chairman.

APPLICATIONS TO GOVERNMENT.

27th January.—Renewed application for a sum to be placed on the estimates for harbor improvements.—Granted.

18th February.—Through the collector of customs at Warrnambool, for a powder magazine.—Granted.

26th April.—For a further grant-in-aid of public parks.—Granted.

30th May.—For a post delivery within the town.—Refused.

BYE-LAWS.

The following bye-laws have been passed by the council:—

No. 19. To authorise the levy of a rate.—Gazetted 3rd May.

No. 20. To empower the council to close any street, road, or right-of-way during the progress of works affecting the same.—Gazetted 27th May.

No. 21. To fix the rates of tolls to be charged at the weighbridge.—Gazetted 27th May.

Considerable progress has been made in the formation of streets and in the general improvements of the town, considering the extensive earthworks required to be executed in order to obtain proper levels, and the very limited revenue at the disposal of the council.

FIRE BRIGADE.

On the 12th of January, the municipal council called a meeting of the inhabitants with a view to the formation of a fire brigade. The council took the initiative by offering a bonus to a competent fireman, and to pay necessary expenses. The meeting chose a committee, who placed themselves in communication with the various insurance companies in Melbourne for assistance in obtaining an engine.

The council have also placed a weighbridge in a central part of the town, which they believe will prove a benefit both to the storekeepers and farmers.

HARBOR IMPROVEMENT.

On the 23rd March, Captains Pasley and Ferguson visited Warrnambool and inspected the proposed line of cutting for the purpose of changing the course of the Merri River, and on their favorable representations the harbor improvement (a matter of paramount importance to this port) has at length "after repeated applications" been taken up by the Government. In 1853, Mr. Barrow, a Government engineer, was directed to make a survey of Lady Bay, and in his report to the colonial engineer under date 13th December of the same year he proposes to divert the course of the Merri with a view to prevent the drift sand from the hummocks being brought down by the winter floods and deposited in the bay; but that gentleman's estimate being considered by competent judges inadequate to carry off the large volume of water which flows down the river during the rainy season, the town surveyor (by direction of the municipal council, made a fresh survey of the proposed line of cutting, and prepared plans and sections, which were approved by the Government, who called for tenders and accepted that of Mr. D. Morrison. The first sod was turned on 1st July by the chairman, and the works are now in active progress.

BOTANICAL GARDEN.

A moiety of the land reserved for public parks in this municipality has been fenced in and suitable offices erected. A gardener and assistants have been at work some weeks with considerable effect.

The municipal council have to thank those gentlemen who so handsomely contributed from time to time parcels of valuable trees and shrubs.
