Printed forms of tender may be obtained from the Government Storekeeper, Melbourne, or the officer in charge of the police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

At stations where oats and bran cannot readily be procured, the tenders may be for hay or straw only; when all the supplies are included in one tender, it will, if advisable, be accepted for hay or straw, and not for the other articles.

Contractors will be allowed to deliver a quarter's supply on the 1st January, a six months' supply on the 1st April for a winter's stock, and the remainder on the 1st October, subject to the provisions contained in clause 2, Conditions of Contract.

The price must be per ton for hay and straw, and per bushel for oats and bran, including delivery at the stations, and all charges.

The net weight only after deducting the tare is to be charged.

No tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which the contract may be again advertised or another tender accepted. No bond will be required if the whole supply in value will not amount to £150.

The names and addresses of the tenderers, and of their proposed sureties, must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the Tender Box at the Government Stores, King street, or if sent by post they must be addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known on the 9th December, 1859.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats and bran also to be sound and sweet and of the best description.

2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated in the schedule being, however, only approximative, and it must be understood that the Government will draw either more or less than stated. The excess over the estimate will, however, in no case exceed 50 per cent.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage when delivered must be accompanied by an invoice of quantity, showing the gross weight, the tare, and the net weight (this should be on the back of the requisition or order), which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account monthly, in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Government Stores, Melbourne, or the Treasury Pay Office of the district, as may be indicated on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed on the order, it will be competent for the department, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage, as to quality of the same, it is to be decided by a Board of Survey, composed of persons named by the head of a department, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Government Storekeeper on behalf of the Government, or for the contractor on his own behalf, to terminate the contract by giving in writing a notice of three full calendar months to that effect, it being understood that such notice can only be given from the first day of a month, and provided that no such notice can be given before the 30th April, 1860.

By His Excellency's Command,
GEO. HARKER.

General Post Office,
Melbourne, 1st October, 1859.

CONVEYANCE OF MAILS, 1860.

TENDERS are hereby invited and will be received until Noon of Tuesday, the 15th November, 1859, for the conveyance of Post Office Mails, as undermentioned, for one year, from the 1st January to the 31st December, 1860.

All tenders are required to be written on the prescribed form, printed copies of which may be had gratuitously on application at any post office in the colony, and must be forwarded (if by post prepaid) addressed to the Honorable the Postmaster General, with the words "Tender for the Conveyance of Mails" endorsed on the cover.

Tenderers are requested to describe by their numbers, as below, the mail services for which they tender.

Every tender must bear the *bonâ fide* signatures of the tenderer, and of two responsible persons willing to become bound with him in double the amount of the contract for the due performance of the service.

Persons tendering are requested to state whether they propose to convey the mails on horseback or in a carriage; in the latter case they are to state the description of vehicle they intend to use, and the number of horses by which it is to be drawn.

In the performance of the services numbered 18, 32, and 47, contractors will be required to provide free conveyance by every journey for a mail guard, an officer of the Post Office, who will have special custody of the mails in course of transit.

In cases where it may at any time be practicable to convey mails by railway, a rateable reduction will be made in the amount of the contract, and contractors will be required to take up the mails at any part of the road to which railway communication may extend.

The mails to Castlemaine, Sandhurst, Maryborough, Heathcote, Ballarat, Echuca, and Moama, and between Sandhurst and Runnymede, will be required to be conveyed by night.

The Government will not necessarily accept the lowest or any tender.
