Printed forms of tender may be obtained from the Government Storekeeper, Melbourne, or the officer in charge of the police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

At stations where oats and bran cannot readily be procured, the tenders may be for hay or straw only; when all the supplies are included in one tender, it will, if advisable, be accepted for hay or straw, and not for the other articles.

Contractors will be allowed to deliver a quarter's supply on the 1st January, a six months' supply on the 1st April for a winter's stock, and the remainder on the 1st October, subject to the provisions contained in clause 2, Conditions of Contract.

The price must be per ton for hay and straw, and per bushel for oats and bran, including delivery at the stations, and all charges.

The net weight only after deducting the tare is to be charged. No tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which the contract may be again advertised or another tender accepted. No bond will be required if the whole supply in value will not amount to £150.

The names and addresses of the tenderers, and of their proposed sureties, must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the Tender Box at the Government Stores, King street, or if sent by post they must be addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known on the 9th December, 1859.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats and bran also to be sound and sweet and of the best description.

2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated in the schedule being, however, only approximative, and it must be understood that the Government will draw either more or less than stated. The excess over the estimate will, however, in no case exceed 50 per cent.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage when delivered must be accompanied by an invoice of quantity, showing the gross weight, the tare, and the net weight (this should be on the back of the requisition or order), which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account, monthly, in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Government Stores, Melbourne, or the Treasury Pay Office of the district, as may be indicated on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed on the order, it will be competent for the department, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage, as to quality of the same, it is to be decided by a Board of Survey, composed of persons named by the head of a department, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Government Storekeeper on behalf of the Government, or for the contractor on his own behalf, to terminate the contract by giving in writing a notice of three full calendar months to that effect, it being understood that such notice can only be given from the first day of a month, and provided that no such notice can be given before the 30th April, 1860.

CITY COUNCIL OF MELBOURNE.

WHEREAS by an Act of the Governor and Legislative Council of New South Wales, 14 Victoria No. 20, intitled, *An Act for regulating the formation, drainage, and repair of Streets, Courts, and Alleys, on Private Property, within the city of Melbourne*, it is amongst other things enacted, that where any street, court, or alley on private property in the city of Melbourne shall not be, or shall not have been, sufficiently paved, flagged, macadamised, levelled, drained, and sewerred, or otherwise completed or repaired, to the satisfaction of the council of the said city, it shall be lawful for the said council, at any time, and from time to time, by any order under the hand of the mayor or town clerk of the said city for the time being respectively, to order that any such street, court, or alley, or any part thereof, shall be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewerred, or otherwise completed or repaired, in such manner and within such time as to the said council may appear expedient, and thereupon the owners of the tenements adjoining or abutting upon such street, court, or alley, on each side thereof, shall in such manner and within such time as shall be expressed in such order, at their respective costs, charges, and expenses, remove all obstructions, and well and sufficiently pave, flag, and macadamise, level, drain, and sewer, or otherwise complete or repair so much of the said street, court, or alley, to the centre thereof, as may be opposite to and co-extensive with their respective tenements, adjoining or abutting on such streets, courts, or alleys respectively.

And whereas the streets, courts, and alleys enumerated in the schedule to this order annexed, marked A, have not been sufficiently paved, flagged, macadamised, levelled, drained, and

sewerred, or otherwise completed or repaired, to the satisfaction of the council of the city of Melbourne:

Be it now ordered by the council of this the said city, that the streets, courts, and alleys enumerated in the schedule to this order annexed, marked A, shall, within ten days from the date of this order's coming into operation, be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewerred, in such manner as is expressed in the schedule to this order annexed, and marked B; and it is hereby notified to the owners respectively of the tenements adjoining or abutting upon the streets, courts, and alleys enumerated in the schedule to this order annexed, marked A, that if they or any of them shall neglect or omit to remove the obstruction, and pave, flag, macadamise, level, drain and sewer, or otherwise complete and repair the street, court, or alley on which their respective tenements adjoin or abut, in the manner and within the time expressed in this order, then the council of the said city will remove all obstructions in the said streets, courts, and alleys, and pave, flag, macadamise, level, drain, sewer, and otherwise complete or repair the same, or such parts thereof as shall not have been so done pursuant to this order, and will thereupon ascertain, determine, and charge such respective owners with their several proportionate parts of the costs, charges, and expenses thereof, according to and co-existent with their respective tenements adjoining or abutting on such street, court, or alley, having regard in such apportionment to the state and condition of the pavement, flagging, macadamising, levelling, draining, and sewerage in such streets, courts, or alleys respectively, or any part thereof, as shall or may be at the time of making this order.

Made and passed by the council of the city of Melbourne, this thirty-first day of October, 1859.

E. G. FITZGIBBON,
Town Clerk.

SCHEDULE A, REFERRED TO IN THIS ORDER.

Streets, courts, and alleys ordered to be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewerred.

| No. | Locality. | Block. | Allotments. |
|----------------|--|--------|-------------|
| LA TROBE WARD. | | | |
| 1 | South side of Bourke street east | 11 | 13 and 14. |
| 2 | North side of Little Collins street east | 11 | 12. |

SCHEDULE B, REFERRED TO IN THIS ORDER.

Manner in which the streets, courts, and alleys, enumerated in schedule A, referred to in this order, are ordered to be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewerred:—

The natural soil is to be reduced or made up as the case may require, so that the longitudinal section of the whole right-of-way shall in no part have an inclination of less than 1 in 120, and where practicable the entire length is to form one incline. In laying on any stuff it is to be spread in layers of not more than one foot thick. The transverse section of the right-of-way is to show a roadway whose crown shall be one inch above the kerbs of the footways, and in the fall from the crown of the water-channels is to be at the rate of 1 in 25.

On either side of the roadway there is to be a water channel eighteen inches wide, consisting of two rows of bluestone pitchers, nine inches deep, and not less than nine inches by fourteen inches on the surface, with upright sides, set in loam and rammed with a rammer weighing forty pounds, so as to subside four inches.

The bottom of the channel is to be seven inches below the top of the kerbs.

On either side of the roadway there is also to be a footway not more than three feet wide, and these are to be separated from the roadway by a red gum plank or kerb ten inches by three, set on edge, and fastened with five-inch spikes to piles four inches by four of red gum, three feet long, driven into the soil.

The footways are to be covered with a coat of gravel three inches thick, and the surface is to fall towards the channel at the rate of 1 in 10. The roadway is to be covered with a coat of broken metal, broken to a two and a half inch gauge, and laid on seven inches thick at the channels, and eight inches at the crown, and this when necessary is to be covered with a coat of loam one and a half inches thick.

Wherever private entrances lead from the rights-of-way they are to be paved to the full width with bluestone pitchers, in the same manner as the channels. Paving is to be extended from the channels towards the line of houses or fences, so as to cross the entire footway.

The whole of the work must be done under the inspection and subject to the approval of the city surveyor, who is authorised to order any deviation from these general principles which the particularities of any case may require. No. 1543
