## Notice to Mariners.

**LIGHTHOUSE, CAPE WICKHAM, KING'S ISLAND, TASMANIA.**  
**NOTICE** is hereby given that a Circular Stone Tower, one hun-  
dred and forty-five feet high, and painted white, has been  
erected for a Lighthouse on the hill near Cape Wickham, at the  
north end of King's Island, in Bass's Straits, and from which a  
*fixed white light* will be exhibited on and after the 1st day of  
November next.

The light is of a first class catadioptric description, at an  
elevation of two hundred and eighty feet above the level of the  
sea, and, in clear weather, will be visible from the deck of a  
vessel about eight leagues on an arc of the horizon to seaward from  
S.S.W.  $\frac{1}{2}$  W. round the compass northerly to E.S.E.

The attention of mariners is also earnestly called to the follow-  
ing extract from the Report of the Lighthouse Commissioners  
appointed by the Governments of New South Wales, Victoria,  
South Australia, and Tasmania:—

"In advising the erection of a lighthouse on this island, the  
commissioners wish to guard themselves from affording the  
public any reasonable supposition that this light can be at all  
considered in the position of a great highway light for the  
navigation of the straits. The south coast of New Holland,  
at the western entrance of Bass's Straits, being free from danger,  
affords, in their opinion, the safest shore for the prudent mariner  
to approach; and they conceive that the light on King's Island  
is only to be regarded as a beacon for warning navigators of  
danger, rather than as a leading light to a great thoroughfare."

The bearings following were taken in 1855, by Commander  
Ross, R.N., from the site of the lighthouse—  
Western extremity of Harbinger Reef, N. 69° W.; distance,  
4½ miles.

Eastern extremity, N. 54½° W.; distance, 4 miles.  
Navarino Shoal, N. 34½° E.; distance, 2½ miles.  
Southern extremity of New Year's Island, S. 39° W.; distance,  
9 miles.

Northern ditto, S. 49½° W.; distance, 7½ miles.  
The bearings are magnetic; variation 10° east.

**C. M. MAXWELL,**  
Chairman Marine Board.  
Hobart Town, 20th August, 1861.

FOR

REGULATING LEASES OF LANDS CONTAINING  
MINERALS AND METALS OTHER THAN GOLD.*At the Government House, Melbourne, the second day of  
September, 1861.*

PRESENT :

His Excellency the Governor

Major-General Pratt, C.B.	Mr. Humfray
Mr. Heales	Dr. Macadam
Mr. Aspinall	Mr. Houston

WHEREAS by an Act of the Parliament of Victoria, passed in the session held in the twenty-third and twenty-fourth years of the reign of Her present Majesty, intituled, *An Act for regulating the Sale of Crown Lands and for other purposes*, it is amongst other things enacted, that it shall be lawful for the Governor to demise, under such restrictions, limitations, and conditions as may be deemed necessary by the Governor in Council, to any person for any term not exceeding thirty years from the making of such lease, any Crown lands not exceeding six hundred and forty acres, for the purposes of mining for any mineral or metal except gold, but no such lease shall be granted in reversion; and if any person to whom any such lease shall be granted, his executors, administrators, or assigns, shall neglect to work the land comprised therein for the purposes for which such lease shall have been granted, such lease shall be absolutely void: And it is further enacted, that the Governor in Council shall have full power to define what shall be considered mineral lands, and to prescribe the form of leases for mining purposes to be issued under the said Act, and the conditions on which such leases shall be issued: Now therefore His Excellency the Governor, by and with the advice of the Executive Council, doth by this present Order make the Regulations hereinafter contained, for the purpose of determining the restrictions, limitations, and conditions under which leases of Crown lands, for the purposes of mining for any mineral or metal, except gold, will be granted, and the form of lease to be issued for the said mining purposes, that is to say:—

1. *Interpretation clause.*—In the construction and for the purposes of these regulations, the term "mining purposes" shall mean the purpose of any obtaining mineral or metal other than gold.

2. *Lands which may be leased.*—All crown lands within the colony of Victoria may be leased under these regulations, except—

Lands occupied by any person holding a miner's right, business license, or Chinese residence license, other than the applicant, or which any person other than the applicant may be entitled by any lease or license to hold for mining purposes:

The whole or any part of any land in or over which any person other than the applicant has any interest or authority other than those above mentioned, which he may lawfully use or exercise for mining purposes, or for discovering the existence of gold or other metal or mineral:

The whole or any part of any lands leased for agricultural or other purposes.

3. *Situation of land applied for to be advertised by applicant.*—Every person desirous of obtaining a lease of crown lands for mining purposes shall make application therefor in manner hereinafter provided, and shall, fourteen clear days previous to making such application, cause to be published in one or more of the newspapers circulating in, or if none in, then nearest to, the district wherein such lands may be situate, a notice in the form in the schedule hereunto annexed marked A, and which notice shall be signed by him with his name and address, and shall bear date the day of its publication; and shall on or previous to the day of such publication erect, or cause to be erected, at or near each angle of the land applied for, a post not less than three inches square and standing at least three feet in height above the surface of the ground.

4. *To whom application is to be made, &c.*—Every person applying for a lease of crown lands for mining purposes shall apply for such lease by addressing to the Commissioner of Mines, through the nearest commissioner of crown lands or warden of the gold fields, an application in duplicate, in the form in the schedule hereunto annexed marked B; and the commissioner of crown lands or warden of the gold fields, as the case may be, shall, as soon as it may conveniently be done, enter or cause to be entered, in a book kept for that purpose, such application, numbered according to the order in which it shall have been received, and shall thereupon, and upon receipt of the deposit referred to in the application, give to the applicant a certificate and receipt in the form in the schedule hereunto annexed marked C; and the priority of every application shall be determined according to the times at which it shall have been received and entered as aforesaid.

5. *Applicant to make deposit to cover expenses of enquiry into objections, &c.*—At the time of applying as aforesaid for a lease, the applicant or applicants must deposit with the commissioner

of crown lands or warden of the gold fields, as the case may be (in addition to a sufficient sum to cover the charges of survey), the sum of Five pounds sterling, as a guarantee for payment of any expenses which may be incurred by reason of any objection to such application being allowed; and whether such application shall be allowed or not, any surplus which may remain over and above the expenses incurred, or the whole sum, as the case may be, shall be returned to the applicant or applicants; but if the application is withdrawn by the intending lessee or lessees, he or they shall forfeit the deposit, together with all the expenses which may have been actually incurred for the purposes of survey.

6. *Mining surveyor to survey the land applied for.*—Upon the receipt of such application and money aforesaid, the commissioner of crown lands or warden of the gold fields, as the case may be, shall direct the mining surveyor of the district to proceed to the land applied for, and survey the same, and furnish such commissioner of crown lands or warden of the gold fields with a report thereon as to the area, boundaries, and description thereof, and the character of the ground, setting forth as accurately as may be the minerals or metals which it is supposed to contain, as also any claims or prior occupancy respecting which he shall make enquiry while making the survey, accompanied by a plan of the ground on the scale of two chains to the inch, together with a map of the part of the district within which the ground is situate, so as to connect the particular area applied for with at least one fixed point in the district; and the commissioner of crown lands or warden of the gold fields shall transmit such report, plan, and map to the Commissioner of Mines, together with his own report thereon, with as little delay as under the circumstances may be possible.

7. *Surveyor to mark out the land applied for.*—The said mining surveyor shall, after having obtained such direction as aforesaid, proceed with all reasonable speed to carry out the same, and he shall also mark out the land applied for, by fixing at each angle thereof, and in or near the middle of the said lines thereof, a post painted white, and standing at least three feet above the surface of the ground, and shall affix, upon some convenient place within the boundaries of the land applied for, a notice, dated on the day of the completion of such survey, setting forth, in the form of the schedule hereunto annexed marked D, the description of the land applied for, and the name and address or names and addresses of the applicant or applicants, and such notice shall be effectually secured by the surveyor.

8. *Where more than one application is made for same land.*—In the event of more than one application being made for the same land or any part thereof, each of such applications shall be dealt with according to its priority; unless one (or both) of the applicants shall claim to be the original discoverer, in which case the person who shall establish to the satisfaction of the Board of Land and Works that he was the true and first discoverer of the mineral or metal in such lands as aforesaid, shall receive such lease.

9. *Objectors to issue of lease to give notice.*—Any person objecting to the issue of such lease to any applicant or applicants shall, within twelve clear days after the date of the notice posted on the land by the surveyor aforesaid, forward to the commissioner of crown lands or warden of the gold fields for the district, and also to the applicant or applicants, at the address or addresses stated in such notice posted as aforesaid, full notice of all objections against the issue of such lease to the applicant or applicants.

10. *Objector to deposit a sum as security for due prosecution of objections.*—Every person so objecting shall (except in cases of interference or encroachment, which are hereinafter provided for) deposit with the commissioner of crown lands or warden of the gold fields, as the case may be, the sum of Five pounds as security for the due prosecution of his objections, and in satisfaction of all expenses to which the applicant or applicants shall be put by such objection; and if such objection shall not be prosecuted, or shall fail, so much of such sum shall be handed over to the applicant or applicants as may, by the commissioner of crown lands or warden of the gold fields before mentioned, be declared necessary to defray the expenses of the applicant or applicants, and the balance (if any) shall be refunded to the person objecting.

11. *Enquiry into applications, &c., to be held after expiration of certain period.*—As soon as conveniently may be after the expiration of the twelve days, exclusive of Sunday, Good Friday, and Christmas Day, allowed for objections, the commissioner of crown lands or warden of the gold fields shall proceed to hold, at a time and place to be named by him, an enquiry into the truth of the particulars stated by the applicant or applicants, and of the objections made by each objector.

12. *After enquiry report to be forwarded.*—At such enquiry the commissioner of crown lands or warden of the gold fields shall receive such information as the parties may offer, and as he may think pertinent to his enquiry; and immediately after such enquiry, or, should there be no objections, immediately after the expiration of the twelve days allowed for objections, he shall forward to the office of the Commissioner of Mines the application and objections thereto, if any, and his report thereon, together with the report, plan, and maps mentioned in No. 6 hereof.

13. *Copy of report may be obtained by every applicant.*—Every applicant who shall require the same shall be permitted to take a copy of the mining surveyor's report, and plan of the ground sought to be leased, and shall also be entitled to examine the report of the commissioner of crown lands or warden of the gold fields, and make or cause to be made a copy of the same for his own use and guidance.

16. *Special provisions may be inserted in lease.*—In any case in which an application shall have been made in pursuance of these regulations for a lease of land, in any part of which any person other than the applicant or applicants may be entitled to cut, construct, or use any race or dam, or to any other easement for mining or other purposes, the Governor may, if he shall think fit, notwithstanding anything hereinbefore contained, authorise the issue of a lease for such land, subject to all existing rights in, to, or the use of such race or dam or other easement, and impose such terms as the said Governor may think fit, in order to secure the enjoyment of the same, or to secure compensation for any injury or inconvenience likely to arise to such person by reason of the issue of such lease: Provided always, that the Governor may, if he shall think fit, authorise the construction in or upon any such land of any race, dam, road, canal, or railway which may be required for the public convenience.

In all cases where an applicant or applicants has or have obtained a lease for working lands containing any one of the minerals or ores of metals, or metals other than gold, and where he or they propose to work more than one, he or they shall pay for each additional ore or metal the sum of One shilling per acre per annum; and for every ton of mineral or metal raised, a further sum, by half-yearly instalments, equivalent to two per centum on the value of the mineral or metal at the mouth of the mine.

## RETIREMENT BY ROTATION AND ELECTION.

At the end of this half-year, being the close of the fifth municipal year, Councillors Phillip Corboy, James Thomas, and John Gilmour Brown, retired by rotation. The firstnamed gentleman withdrew, and the two latter were nominated for re-election.

The election resulted in the re-election of Councillors James Thomas and John Gilmour Brown, and in the election of John Taylor in the place of Councillor Corboy.

And at the first meeting of the council after the annual election, Councillor George Hudson was elected chairman for the ensuing municipal year.

APPLICATIONS TO THE GOVERNMENT.

To construct open cube crossings at the intersection of Foote, Bourke, Union, and Mitchell streets with the Main Sydney road.—Granted for Mitchell street only.

For a grant of land for municipal quarries.—Permission to take stone therefrom granted, but a permanent grant of the land for that purpose was refused.

The confirmation and proclamation in *Gazette* of bye-law No. 23.—Granted.

For the first instalment of grant in aid of municipalities, for 1861.—Granted.

For a portion of the vote for enclosing and improving park lands for botanic gardens.—£100 granted for fencing only.

For an exchange of land for the site of the intended botanic gardens.—Granted.

For our proportion of the vote for the supply of the gold fields and towns with water, to aid in the construction of a reservoir. Our fair share promised.

For confirmation and proclamation in *Gazette* of bye-law No. 24.—Granted.

For the remaining instalment of the grant in aid of municipalities for 1861.—Not yet passed for payment.

For the confirmation of a new and more liberal rule and regulation for the town common, fixing the number of horses and cattle to be depastured thereon by each inhabitant at six.—Acknowledged, but not yet confirmed.

THE FIRE ENGINE.

As our fire engine had long remained useless for want of suction hose of the proper size, which could not be procured in the colony, we had a sufficient quantity wired and prepared for it by Messrs. Fulton and Co., of Melbourne. The engine was repaired and put into complete working order, and an efficient volunteer fire brigade has been enrolled, and a good furnishment ordered for their equipment, towards the cost of which the Melbourne fire insurance companies have handsomely subscribed £15, this council agreeing to provide any balance that may be required to complete the same; and they have handed over the engine, &c., solely to the care and management of the brigade, and provided a man to keep the engine and equipment in repair and efficient working order; and the brigade are now prepared to act should any fire unfortunately occur.

THE WEIGHBRIDGE

Has been removed, re-erected, adjusted, and put into efficient working order, and has been rented by tender for the term of one year, for the sum of £24.

WATER WORKS.

The council intend to proceed with the construction of a reservoir as soon as they have received the grant-in-aid for the purpose; and they propose to carry out a scheme for supplying the town with water commensurate with the means at their disposal.

PUBLIC OR BOTANICAL GARDENS.

A suitable site has been granted by the Government, and as soon as the £100 granted to aid in fencing in the same is received, means will be taken to fence the gardens, which are much wanted as a place for public recreation for the use of the inhabitants.
