FINANCE.

To enable this council more effectually to carry out public works they have reduced salaries from £470 to £200 per annum, causing the united duties of their officers to be discharged by one individual.

PUBLIC WORKS REPORT, ETC.

The following works have been satisfactorily carried out during the past half-year, according to plans and specifications, namely:—

The first contract for erecting the piers, platform, and railing of Union street bridge has been completed. A second contract for erecting wing-walls, sodding embankments, additional railing and metalling of same, has been completed. Also, a third contract for underpinning and tuck pointing the joints with cement and sand, and painting and tarring the woodwork of same, has been completed.

A contract for cutting, filling, and forming ten chains of Andrew street and footpaths has been completed.

First six months' contract for clearing the channels, culverts, and sewers, has been completed; and another contract for a like period and for similar purposes has been entered into.

Contracts have been fully carried out for the eradication of thistles off the municipal reserves, and adjoining streets.

A contract has been entered into, and is nearly completed, for the removal of the weighbridge from its former unsuitable site in Sydney street, and for its re-erection upon a more suitable one in Foot street.

The contract for repairs to the fire-engine is nearly completed; and the stable upon the premises occupied by the council has been repaired and converted into an engine-house for the use of the same.

Applications to the Government were made to place the whole of the letter-carrier's salary on the estimates, one moiety of which has hitherto been paid by this council.—Granted, from 1st January last.

Application was also made, in accordance with a previous promise, to place upon the estimates a sufficient sum for the erection of a new Government post office and telegraph station, upon a most central site liberally given to the Government by Mrs. Morris for that purpose.—So far acceded to that a sum of money has been placed upon the supplementary estimates for carrying out the design.

An application was made under the new land bill for a further extension of our town common to the extent, in all, of 10 sections.—Just granted to the extent of 7½ sections.

An application was also made to have open cube crossings or culverts laid down at the points where the main streets intersect the Sydney road, to provide for more effectual drainage.—Plans are now being prepared for effecting same.

Application was made to the Honorable the Commissioner of Public Works for a share of the vote for the supply of water.—Our claim was to be considered when the distribution of the grant takes place.

Also, to the Honorable the Chief Secretary to place upon the estimates for 1861 £10,000, to assist us in obtaining an abundant supply of good water, of which this municipality is so much in want.—At present refused, owing to the deficiency in the revenue.

The assent of the Government has been given to Bye-law No. 22, for levying a rate for the current year of 1s. in the pound.
