REGULATIONS FOR LODGINGHOUSES.

NOTICE is hereby given that in conformity with the provisions of the Public Health Act (18 Victoria No. 13, section 23), and of the Common Lodginghouses Act (18 Victoria No. 8, section 10), the following regulations have been made for the purpose of preventing the over-crowding of lodginghouses, and to provide for the better ventilation of such establishments:—

1st. In sleeping apartments in wooden buildings, not lathed and plastered, where there is a fireplace and doors and windows in proportion to the size of the room, a space of 300 cubic feet shall be allowed for each person.

No. 59.—APRIL 16, 1861.—2.

2nd. In wooden buildings lathed and plastered inside, and in brick and stone buildings, with a fireplace, and door and windows in proportion to the size of the room, 400 cubic feet.

3rd. In all buildings where there is no chimney, 500 cubic feet shall be allowed.

In cases where there is no chimney, the inspector will see that there are proper means of admitting a plentiful supply of fresh air near the bottom of the room, and also for permitting the foul air to escape at the upper part of the room; and he will take care that no building is occupied as a sleeping place without a proper amount of ventilation.
