## ARARAT MINING DISTRICT.

BYE-LAW No. III.—REGULATING ALLUVIAL WORKING IN THE RAGLAN DIVISION OF THE ARARAT DISTRICT.—[10th April, 1861.]

**A**T a meeting of the mining board of the mining district of Ararat, begun and holden at the mining board rooms, Ararat, in the said district, on the 10th day of April, One thousand eight hundred and sixty-one, it is ordained by the said board as follows, that is to say:—

1. *Classification of workings.*—Alluvial gold mining shall be divided into two classes, viz., wet workings and dry workings. Wet workings shall comprise all ground in which, by the occurrence of water below the surface or gravel drift, slabbing of the shaft from the top to the bottom becomes necessary. Dry workings all ground in which such slabbing is not required.

2. *Definition of lead.*—The term lead shall be held to mean the alluvial deposits or wash-dirt containing gold, and running in a continuous course or occurring successively or repeatedly in spots or patches.

## DRY WORKINGS.

3. *Frontage claims.*—*Marking out.*—All claims in dry workings, except in cases provided for in clause headed Block claims on dry frontage leads, and except also in claims in hill surfacing and hill sinking, hereafter provided for, shall be frontage claims, and of an indefinite width, and shall be marked with a conspicuous peg at each end (the upper and the lower) on the supposed course of the lead, until the discovery of the same in the claim, within twenty-eight (28) days after which the boundaries must be defined by a peg placed at each corner of the claim, and such pegs shall be at right angles, but no such claim shall exceed eighty (80) feet in width.

4. *Size of frontage claims after discovery of the lead.*—The extent of claims in flats and gullies shall be (without regard to depth) for each man (not exceeding four men in a claim) twenty (20) feet along the course of the lead with full width thereof, provided such width does not exceed eighty (80) feet.

5. *Block claims on dry frontage leads.*—After the boundaries of a frontage claim are defined by four pegs, any person or persons not exceeding four in a claim may take up the ground on either side after leaving the distance required for the wall, three (3) feet.

6. *Size of block claims.*—The extent of ground for such block claims shall be for each man twenty (20) feet in length, by a width of eighty (80) feet.

7. *Hill surfacing.*—*Size of claims, &c.*—The extent of claims in hill surfacing, not exceeding five (5) feet in depth, shall be as follows, viz.:—

One man, 30 feet x 30 feet;  
Two men, 45 feet x 40 feet;  
Three men, 45 feet x 60 feet;  
Four men, 60 feet x 60 feet;

limited to four men in a claim. All claims must be marked with a peg at each corner, and such pegs must be at right angles wherever practicable.

8. *Hill sinking; size of claims, &c.*—The extent of claims in hill sinking, exceeding five (5) feet in depth, shall be as follows, viz.:—

One man, 20 feet x 40 feet;  
Two men, 40 feet x 40 feet;  
Three men, 60 feet x 40 feet;  
Four men, 80 feet x 40 feet;

limited to four men in a claim. All claims must be marked with a peg at each corner, and such peg must be at right angles wherever practicable.

9. *Walls to be left.*—A wall of neutral ground, three (3) feet in width, must be left between all claims. Walls exceeding three (3) feet in width shall not be considered neutral ground.

10. *To prevent shepherding.*—All claims must be proceeded with within forty-eight (48) hours after the time of marking out, until the claim is abandoned, except in case of illness, attendance at courts of justice, public holidays, or in case of dispute, any other cause of absence satisfactory to the warden and assessors. A breach of this clause shall render the share or shares affected liable to forfeiture.

11. *Oversized claims.*—When a miner or miners have marked out, or are holding more ground than they are entitled to, the overplus may be taken possession of by any other miner or miners, on whom it shall be incumbent to sink a shaft for themselves, unless the original holders are willing to work the ground with them, but no such party must exceed the authorized number of men. The person or persons taking possession of the excess of ground marked out or held, shall be entitled to choose from which end of the claim it shall be taken.

## WET WORKINGS.

12. *Frontage claims.*—*Marking out.*—All claims in wet sinking shall be frontage claims, and of an indefinite width, and shall be marked off with a conspicuous peg at each end, the upper and the lower, on the supposed course of the lead. After the discovery of the course of the lead throughout the claim, the boundaries must be defined by a peg placed at each corner of the claim, and such pegs shall be at right angles.

13. *Size of claims.*—The extent of claims in wet workings shall be as specified in the following table, viz.:—

Where the depth of sinking does not exceed 75 feet	30 feet	Along the course of the lead with full width thereof for each man without limit to the number in a party.
Between 75 feet and 125 feet	40 feet	
Between 125 feet and 175 feet	50 feet	
And 175 feet and upwards	60 feet	

14. *Walls to be left.*—A wall of neutral ground, six (6) feet in width, must be left between every two claims. Walls exceeding six (6) feet in width shall not be considered neutral ground.

15. *To prevent shepherding.*—All claims in wet workings must be proceeded with within forty-eight (48) hours after the time of marking out, till the claim is abandoned, except in cases of illness, attendance at courts of justice, public holidays, or in case of dispute, any other cause of absence satisfactory to the warden

and assessors except in cases provided for in the following clause. Non-compliance with this clause shall render the share or shares affected liable to forfeiture.

16. *Exceptional cases.*—When the depth of sinking exceeds eighty (80) feet it shall be lawful for half the number of any party, if not less than sixteen (16) men in a claim, to hold possession of, and work at the same, till the remainder are required, and the interests of the absent men in the claim shall not be prejudiced by their working in another claim for hire: provided always that the names of the sixteen (16) men, or more, together with the number and date of their miners' rights, be kept posted on a conspicuous part of the claim.

17. *Oversized claims.*—When a party has marked out, or is holding more than the authorized extent of ground, any miner or miners (according to the extent of ground marked out in excess), shall be entitled to be admitted into the claim; but when any miner or miners abandon their share or shares in a claim, the remaining shareholders, if any, shall be allowed seventy-two (72) hours to replace them. After the expiration of the seventy-two (72) hours, if the share or shares are still unrepresented, any miner or miners may take possession of them, provided they first make a satisfactory arrangement with the other shareholders for any liability on such share or shares.

18. *Water baling and night work.*—When the quantity of water renders constant baling necessary, it shall be compulsory on all parties holding claims below a given point on the lead (the said point to be determined by the warden, and assessors) to work in sinking and baling both day and night, until the claims are worked out or abandoned, or until baling is suspended by general consent.

## PROSPECTING.

19. *Definition of prospectors.*—Prospectors shall be held to be persons engaged in searching for a new lead, and the first party or person discovering a new lead shall be the only person or party entitled under this bye-law to a prospecting claim on the said lead.

20. *Conditions required for obtaining a prospecting claim.*—All the men in a prospecting party must have been employed in the claim from the commencement thereof, unless it can be proved before the warden and assessors that greater difficulties than could be foreseen rendered an increase in the party absolutely necessary. But in no case shall any beyond the authorized number of men be recognised as entitled to a prospecting claim. Prospectors discovering a new lead must, with as little delay as possible, report the same to the warden, who may give permission to any number of miners, not exceeding six (6), to descend the shaft, to examine the course and position of the lead.

21. *General protection to prospectors.*—Prospectors shall be entitled to mark out and hold the extent of ground hereinafter provided for, and shall be protected against any other party for the same lead within the distances specified in the following tables, viz.:—

Hill surfacing	100 yards in every direction.
Hill sinking	150 yards in every direction.
Dry frontage leads	500 yards above and below on the supposed course of the lead.
Wet frontage leads	1000 yards above and below on the supposed course of the lead.

Any party discovering a lead within the above-mentioned distance during the time the authorized prospectors are in search for it, shall only be entitled to an ordinary claim.

22. *Prospecting.*—*Size of claims.*—Prospectors discovering a new lead shall be entitled to an extent of claim as specified in the following table, viz.:—

Hill Surfacing.	Hill Sinking.	Dry workings in flats and gullies.	Wet workings.
One prospector only.	Limited to four men.	Limited to eight men.	Limited to eighteen men.
50 x 50 feet	1 man 40 x 60 feet. 2 men 80 x 60 feet. 3 men 120 x 60 feet. 4 men 120 x 80 feet	60 feet along the course of the lead with full width thereof for each man.	For each man double the ordinary extent of ground along the course of the lead, with full width thereof specified in clause 13.

23. *Marking out claims.*—In hill sinking and in hill surfacing where there is no continuous lead, the claim must be marked by a conspicuous peg at each corner. In wet workings and dry workings in flats and gullies, a conspicuous peg must be placed at each end of the claim, the upper and the lower, and the prospectors shall be protected until the discovery of the lead, or their abandonment of the search for it, against any other party taking possession of any intermediate ground from range to range, between parallel lines drawn at right angles with their upper and lower pegs: provided always that the protection does not interfere with a lead already in work.

24. *Boundaries of frontage leads.*—*Prospecting claims to be defined.*—After the discovery of the course of the lead throughout prospecting claims on frontage leads, the boundaries must be defined by placing a conspicuous peg at each corner of the claim.

25. *Regulation for working prospecting claims.*—Prospecting claims shall be worked in accordance with the clauses regulating the class of mining under which they fall, except those clauses which relate to the number of men and size of claim.

## DISCOVERING A LOST LEAD.

26. *Size of claims.*—Any person or party discovering a lead lost for three months or more, above or below the spot where it was lost, shall be entitled to an extent of ground as follows, viz., in frontage claims on dry leads forty (40) feet along the course of the lead, with full width thereof, for each man, limited to

eight (8) men in a claim; and in wet sinking, limited to eighteen (18) men in a claim, for each man, double the ordinary extent of ground along the course of the lead, with full width thereof, specified in clause 13.

27. *Protection during search.*—Parties searching for a lead lost for three months or more shall be entitled to mark out and hold claims in accordance with the provisions of the previous clause. After the discovery of the lead, all parties (if any) unsuccessful in recovering the lost lead, must immediately reduce their claims to the limits of an ordinary claim or ordinary claims in proportion to the number of men employed.

#### OLD WORKINGS.

28. *Definition of old workings.*—The term old workings shall mean ground in which a number of shafts have been sunk, and which has been for the greater part undermined or worked out for at least three (3) months.

29. *Size of claims.*—The extent of claims in old workings, without regard to number of men in a claim, shall be as specified in the following table, viz.:

Wet workings.	Dry workings in flats and gullies.	Hill surfacing.	Hill shaling.
For each man three times the ordinary extent of ground along the course of the lead with full width thereof specified in clause 13.	60 feet along the course of the lead with full width thereof for each man.	1 man 60 x 60 feet. 2 men 90 x 90 feet. 3 men 120 x 90 feet. 4 men 120 x 120 feet. And so on in proportion to the number of men.	1 man 80 x 40 feet. 2 men 80 x 80 feet. 3 men 120 x 80 feet. 4 men 160 x 80 feet. And so on in proportion to the number of men.

30. *Marking out claims.*—All claims in old workings must be marked with a conspicuous peg at each corner, such pegs to be at right angles.

31. *Regulations for working claims.*—Claims in old workings shall be worked in accordance with the clauses regulating the class of mining under which they fall, except those clauses which relate to the number of men and size of claims.

32. *Determining what constitutes old workings.*—In case of dispute, the warden and assessors shall determine whether the ground that may be in question can be fairly held as coming under the definition of old workings.

#### DAMS AND PUDDLING MACHINES.

33. *Dams and puddling machines.*—Any person intending to erect a dam or puddling machine must post a notice, legibly written in the English language, to that effect, on a conspicuous place on the site intended, which notice must remain posted seven (7) clear days; and any person objecting to the erection of such dam or puddling machine must, within the seven (7) days, appeal to the warden, who, with assessors, shall determine whether such puddling machine may or may not be erected. The owners of dams must provide sufficient drainage for their sludge and refuse water, so as not to interfere with or injure any other dam or claim. Dams abandoned for one month or more shall be held forfeited. Any person injuring or destroying a dam shall be liable to the owner for the damage done to it. Persons washing at a dam must not allow their sludge or tailings to flow into it.

#### GENERAL REGULATIONS.

34. *Position of frontage claims when the lead deviates.*—When the lead changes its course from the supposed one as marked out, all claims, the boundaries of which are not defined by four (4) pegs, shall be changed with it, each claim keeping its relative position.

35. *Presence of partners.*—It shall not be necessary for all the shareholders to be present at the marking out of a claim; one or more may do so, and they shall not be challenged till the expiration of the forty-eight (48) hours, when all must be present at the claim and proceed to work, except in cases provided for in clause 16.

36. *Hoisting the flag.*—It shall be imperative on all parties on striking the lead to indicate the spot on the surface by hoisting a flag on it.

37. *Timbering.*—Any miner or miners neglecting to timber their ground (or the walls, should they work them) severally, shall be liable to adjoining claimholders for any injury sustained thereby.

38. *Disputed share or claim.*—Any miner intending to take possession of a disputed share or claim must first obtain authority for so doing from the warden.

39. *Pegs.*—All pegs marking the boundaries of claims must be at least two (2) feet in length above the surface of the ground, and firmly fixed therein.

40. *Absence from claim.*—Any miner leaving his share unrepresented by a competent miner, may have his place supplied, if desired by a majority of the shareholders, and he shall be responsible to the person employed for a reasonable wage for the same.

41. *Drawing slabs.*—Any person drawing slabs from a shaft with water standing in it, or with water in a drift puddled back, must immediately afterwards fill up the shaft above the level of the water drift, so as to prevent it injuring adjoining claims. Should any damage result to adjoining claims, the person or persons drawing such slabs shall be liable to the owners of claims injured for all and any damage sustained thereby. Slabs left for more than twenty-eight (28) days in an abandoned claim shall be held forfeited, but any person taking possession of such claim, together with the slabs, within the twenty-eight (28) days specified, shall pay the owner or owners for the slabs at a reasonable valuation.

No. 67.—APRIL 30, 1861.—2.

42. *Effacing notices or removing pegs.*—No person shall efface, alter, remove, or destroy any notice posted on a claim, or wilfully remove the pegs thereof.

43. *Ownership of shares.*—Any holder of a miners' right may own one or more shares in any number of claims, provided each and every such share be represented by a man holding a miner's right and working in the claim, and such representation shall have as much force for all the purposes of this bye-law as if the owner himself were working in the claim.

44. *Sale or transfer of shares.*—The owner of any share or shares (holding a miner's right) may sell or otherwise dispose of them, provided they be properly represented.

45. *Hired labor.*—No interest or share shall be deemed abandoned through the neglect of a hired man: provided that after forty-eight (48) hours' notice be given to the owner of such interest, or share, or his authorised agent, by a miner claiming the same, the interest or share be fully represented.

46. *Forfeiture of interest.*—Any miner forfeiting his interest in a claim shall not be entitled to any portion of his former partner's interest therein.

47. *Holidays.*—Miners may be absent from their claims all the following days, viz.:—Good Friday to Easter Tuesday, both inclusive; 24th December to 2nd January, both inclusive; any day on which the election of a member of the legislature or mining board of this district may take place, the day before and the day after such election, and any day proclaimed a holiday by the warden.

48. *Tailings.*—Any miner wishing to retain possession of cement, tailings, or other substance, for the purpose of extracting gold therefrom, may do so for six (6) months: provided he stacks the same in a proper manner, on ground not supposed to be payable for mining purposes; and provided he also keep a notice containing his name and address posted thereon.

49. *Penalty for breach of bye-laws.*—In accordance with the provisions of the Gold Fields Act, any person who shall infringe any bye-law of this board shall be liable, for every such offence, to be fined in any sum not exceeding £10.

50. *Repeal clause.*—And it is further ordained that this bye-law shall have force in the Raglan division of the Ararat district only, and that no other bye-law heretofore enacted by this board shall have any power or force in the said division of Raglan, saving only the undermentioned, that is to say:—Bye-law No. XI. of the 11th of October, 1853, relating to occupation of sites under a business license and miner's right; Bye-law No. XIII. of the 9th of November, 1858, regulating water rights and privileges for sluicing purposes; and Bye-law No. VI. of the 10th of July, 1860, regulating quartz mining; and all or any other bye-law, in so far as they refer to the division of Raglan, are hereby repealed.

The undersigned members of the said mining board concurred in making the foregoing bye-law.

GEO. FIDDMONT,  
COLIN C. MCINTYRE,  
JOHN Y. WAKEHAM,  
JOHN DREW,  
PATRICK McGRATH,  
JAMES CAMERON,  
GEORGE B. McALPINE,  
STEPHEN COUPER (except clause 3),  
EDWARD SALISBURY, Chairman.

Chief Secretary's Office,  
Melbourne.

It is hereby certified that the foregoing Bye-law, No. III., of the Mining Board for the district of Ararat, has been made in the form and has been signed in the manner prescribed by law; and any person desirous to dispute the validity of such bye-law is hereby required to do so in accordance with the provisions of, 21 Victoria No. 32, sec. 112.

Gazetted on the 30th day of April, 1861.

PETITION UNDER THE MUNICIPAL ACT.

TARADALE.

IN pursuance of the Act of Council 18 Victoria No. 15, the Governor, with the advice of the Executive Council, has directed the publication of the substance and prayer of the petition hereinafter set forth, signed by one hundred and fifty-four householders resident at Taradale, in the county of Bourke, praying for the erection of their locality into a municipal district.  
 S.2950.

R. HEALES.

The petitioners state that they reside in the district of Taradale, in the county of Bourke, and draw attention to the extensive mining operations now carried on in the neighborhood of the township, the large population engaged therein, the substantial and costly character of their dwellings, and the quantity of land under cultivation in their immediate vicinity.

They further state that no provision exists for the formation and maintenance of some of the roads and streets in the township, which consequently are sometimes nearly impassable; and they desire to impress upon His Excellency the expediency of forming the district into a municipality, as tending greatly to advance its interests and materially aid its improvement and good government.

They suggest the following area for a municipal district, viz.:—  
 "Commencing at the north angle of Taradale suburban allotment No. 1. of section 12; thence running in a south-westerly direction about twenty-three chains to the western side of Melbourne main road; thence south two hundred and eighty-two chains, more or less; thence east about two hundred and ten chains along the centre of the Government road reserve between portions 51 and 55 and between portions 50 and 51 of the parish of Edgecombe to a point in the centre of the River Coliban; thence due north eighty chains, crossing portions 43, 44, 45, and 46 of the said parish of Edgecombe, and continuing up the centre of a road reserve between portions 3, 2, 1, and 4 of the parish of Metcalfe, to a distance of eighty chains, more or less; thence north 20 degrees west about one hundred and fifty-three chains to the centre of a Government road reserve running on the south side of allotment 4 of section 5, in the parish of Hawkstone; thence due west crossing the Coliban River to the Mount Alexander Railway; thence south-west to the commencing point, no one point in the described area being distant more than six miles from any other point, nor the limits or boundaries of such district embracing an area of more than nine square miles."

And the petitioners pray as follows:—

"Your petitioners therefore humbly pray your Excellency that the district so defined may be proclaimed a municipality, under the name of 'The Municipal District of Taradale,' according to the provisions of the Act of Council 18 Victoria No. 15."

#### MUNICIPALITY OF CHEWTON.

BYE-LAW NO. 3.—A BYE-LAW FOR EMPOWERING THE CHAIRMAN OF THE MUNICIPAL COUNCIL OF CHEWTON TO TAKE ELECTIONS BY BALLOT TO SUPPLY VACANCIES FROM TIME TO TIME IN THE MUNICIPAL COUNCIL OF CHEWTON.

WHEREAS by the Act of Council 18 Victoria No. 15, entitled, *An Act for the establishment of Municipal Institutions in Victoria*, it is amongst other things enacted, that it shall be competent for the council of any municipal district to make bye-laws for the conducting of elections (18 Victoria No. 15, section 26), such elections to be taken by ballot: Be it therefore ordered and directed by the council of the municipal district of Chewton, that from and after the date of this bye-law receiving the assent of His Excellency the Governor, the chairman of the municipal council of Chewton, or his deputy or deputies, be hereby severally empowered to take elections by ballot to supply vacancies occurring from time to time in the municipal council of Chewton, in like manner, as far as the case may apply, as elections by ballot are now from time to time taken to supply vacancies in the Legislative Council and Assembly of Victoria, according to the provisions to that effect in the Act of Council 19 Victoria No. 12, entitled, *An Act for the Election of Members, &c., &c.*

Chief Secretary's Office,  
Melbourne.

The foregoing Bye-law, No. 3, made by the municipal council of Chewton, has been assented to by the Governor in Council.

#### MUNICIPALITY OF NEWTOWN AND CHILWELL.

BYE-LAW No. 20.—TO REPEAL BYE-LAW No. 4, AND TO MAKE OTHER PROVISION FOR THE PREVENTION OF GOATS BEING AT LARGE WITHIN THE BOUNDARIES OF THE MUNICIPAL DISTRICT OF NEWTOWN AND CHILWELL.

WHEREAS by an Act of Council 18 Victoria No. 15, intituled, *An Act for the establishment of Municipal Institutions in Victoria*, it was amongst other things enacted, that it shall be competent for the council of any municipal district to make bye-laws for the general good rule and government of such district: Be it therefore ordered and directed by the municipal council of Newtown and Chilwell, that from and after this bye-law shall have received the assent of His Excellency the Governor in Council, bye-law No. 4, relating to the prevention of goats being at large, shall be and the same is hereby repealed, and that the following be substituted:—

Whereas the streets and uninclosed places situate within the municipal district of Newtown and Chilwell are infested by a great number of goats, which are allowed to go at large at all hours of the day and night, to the great annoyance of the inhabitants, and very serious mischiefs have arisen and are likely to arise from such goats being allowed to go at large: Be it therefore ordered and directed by the municipal council of Newtown and Chilwell, that from and after the date of this bye-law receiving the assent of His Excellency the Governor, it shall not be lawful for any person to suffer or permit any goat or goats belonging to him or her, or under his or her charge, to be at large in any street or public place, or in any uninclosed place, within the said municipal district, whether the same be or be not public property; and any person who shall so offend shall, on conviction before any two or more justices of the peace, forfeit and pay for every such offence a sum not exceeding Twenty shillings.

And be it further ordered and directed, that in case the owner or proprietor of any goat or goats so being at large as aforesaid cannot be found, every goat found at large contrary to the provisions of this bye-law shall be liable to be seized and taken to the nearest pound-yard; and the town inspector, or any person authorised in writing by the chairman of the municipal council for the time being, is hereby empowered to seize and impound every such goat or goats so found at large accordingly.

Chief Secretary's Office,  
Melbourne.

*The foregoing Bye-law, No. 20, made by the municipal council of Newtown and Chilwell, has been assented to by the Governor in Council.*

## MUNICIPALITY OF BELFAST.

THE NINTH HALF-YEARLY REPORT OF THE MUNICIPAL COUNCIL OF BELFAST, ENDING 27TH MARCH, 1861.

## ELECTIONS.

ON the 29th of September, the annual election to fill seats rendered vacant by effluxion of time, took place this year, three in number, and the same day having been appointed for the election of a member to serve in room of Councillor Mason, resigned, the issue was as follows:—Councillor Bland was re-elected, and Messrs. A. J. Brown, W. Beaver, and J. Scott, were returned to fill the other three seats.

On the 3rd of October, Councillor Bland was elected chairman for the current year.

## OFFICERS.

The former town clerk, Mr. S. J. Bayly, having resigned at the expiration of the last municipal year, and the council having decided, by resolution, on amalgamating the offices of town surveyor and town clerk, applications from persons competent to fill the amalgamated offices were invited: three applications were received, and, on the 17th October, Mr. George Kelly, C.E., was elected to fill them at a salary of £300 a year, the duties of valuator and compiler of the Rate and Assessment Rolls having been super-added on the day of election, and this officer has also to perform the duties of secretary to the local board of health.

Mr. Owen Flannery was elected rate collector on the same day, having been elected from four candidates, but he resigned on the 23rd of January, and fresh applications having been invited, and two received, Mr. J. N. Kelly was elected for the current year, on the 6th of February.

On the 31st of October, the council requested the late town clerk, Mr. S. J. Bayly, solicitor, to act as their solicitor, and that gentleman having consented, the staff of officers required to enable them to carry out and execute their functions was then completed.

## BYE-LAWS.

No. 20. For levying a rate of One shilling in the pound, was duly gazetted.

No. 21. For abating the nuisance of flocks of geese being allowed to wander through the streets and public thoroughfares, has been returned from the Chief Secretary's Office several times for amendment, and has not yet been gazetted.

No. 22. Consisting of regulations for the management of the bathing-house erected by the council at Boarding School Bay has not been gazetted, the opinion of the Crown Solicitor having been that the existing laws are sufficient for the protection of the bath-keepers and the management of the bathing-house.

## PUBLIC WORKS AND BUILDINGS.

During the past half-year upwards of £1000 has been expended within the municipality on public works and buildings: 30 chains of new streets 99 feet wide have been formed, 15 chains of other streets have been metalled, 10 chains of foot-path and hip 30 feet wide have been formed, and 25 chains repaired, and about 23 chains of Beach street, Belfast East, have been fenced off from Mr. Burnside's allotments, for the purpose of preserving a public right-of-way at that place. The deep pitched crossings at intersection of Bank and William streets, have been bridged over, and the thoroughfare made level there. About 15 chains of the worst part of a road leading into the back country near Rosebrook has been formed where some deep cutting and embankment was found necessary, and several other street or road works of minor importance have been carried out, including the erection and painting, &c., of some sawn-stuff fencing on the Rosebrook road, at points where such was considered necessary for the public safety.

The botanical gardens have also received a considerable share of attention; twelve garden seats, each 8 feet long, have been fixed in convenient positions, with one closet for each sex. A wateringcart has been provided, and a plan has been prepared for a summer house, but the necessary curtailment of expenditure has prevented its erection.

The council has also endeavored to supply a want long felt in Belfast, by the erection of a public bathing-house at Boarding-school Bay. When completed it was late in the season, but since then, notwithstanding, numbers of both sexes have availed themselves of it. The charges are the very lowest which could be made consistent with order and comfort, and it is hoped that the health of the townspeople will be improved by it, cleanliness promoted, and a greater number of visitors induced to come to Belfast during the bathing season to enjoy its advantages.

## FINANCE.

On the 30th October, the balance of the Government grant-in-aid for 1860 was received, amounting to £471 19s. 6d., which, when added to the balance then in the treasurer's hands, enabled the council to proceed with the works hereinbefore referred to.

The cost of those works, and general expenditure, however, having exceeded the revenue from all sources in the month of January, it was then found necessary to provide further funds, and the members of the council gave their personal security to the bank for an advance of £500. That advance has been also expended and not yet re-paid, but the rates which are now being collected will soon have amounted to a greater sum, and leave a balance for further expenditure in the hands of the treasurer.

## PATENT FOR IMPROVEMENTS IN RAILWAY CARRIAGES.

THIS is to notify that John Robert Richards, jun., of Melbourne, in the county of Bourke, and colony of Victoria, did, on the 4th day of December, 1860, deposit at the office of the Chief Secretary, in Melbourne, a specification, or instrument in writing, under his hand and seal, particularly describing and ascertaining the nature of the said invention, and in what manner the same is to be performed; and that by reason of such deposit the said invention is protected and secured to him exclusively for the term of six calendar months thence next ensuing. And I do further notify that the said John Robert Richards, jun., has given notice, in writing, at my chambers, of his intention to proceed with his application for letters patent for the said invention, and that I have appointed Monday, the 3rd day of June next, at Eleven o'clock in the forenoon, at my chambers, to hear and consider the said application and all objections thereto; and I do hereby require all persons having an interest in opposing the grant of such letters patent, to leave before that day, at my chambers in Melbourne, particulars in writing of their objections to the said application, otherwise they will be precluded from urging the same.

Given under my hand this 26th day of April, 1861.

R. D. IRELAND,  
Attorney General.
