DECISIONS OF HER MAJESTY'S COMMISSIONERS ON POINTS RELATING TO THE EXHIBITION.—MARCH, 1861.

HER Majesty's Commissioners have fixed upon Thursday, the 1st day of May, 1862, for opening the Exhibition.

The Exhibition building will be erected on a site adjoining the gardens of the Royal Horticultural Society, and in the immediate neighborhood of the ground occupied in 1851 on the occasion of the first International Exhibition.

The portion of the building to be devoted to the exhibition of pictures will be erected in brick, and will occupy the entire front towards Cromwell road; the portion in which machinery will be exhibited will extend along Prince Albert's road, on the west side of the gardens.

All works of industry to be exhibited should have been produced since 1850.

Subject to the necessary limitation of space, all persons, whether designers, inventors, manufacturers, or producers of articles, will be allowed to exhibit; but they must state the character in which they do so.

Her Majesty's Commissioners will communicate with foreign and colonial exhibitors only through the commission which the government of each foreign country or colony may appoint for that purpose; and no article will be admitted from any foreign country or colony without the sanction of such commission.

No. 94.—JUNE 21, 1861.—1.

No rent will be charged to exhibitors.

Prizes, or rewards for merit, in the form of medals, will be given in the Industrial department of the Exhibition.

Prices may be affixed to the articles exhibited.

Articles of great size or weight, the placing of which will require considerable labor, must be sent before Saturday, the 1st of March, 1862; and manufacturers wishing to exhibit machinery, or other objects, that will require foundations or special constructions, must make a declaration to that effect on their demands for space.

Any exhibitor whose goods can properly be placed together, will be at liberty to arrange such goods in his own way, provided his arrangement is compatible with the general scheme of the Exhibition, and the convenience of other exhibitors.

Where it is desired to exhibit processes of manufacture, a sufficient number of articles, however dissimilar, will be admitted for the purpose of illustrating the process; but they must not exceed the number actually required.

Exhibitors will be required, to deliver their goods at the building, and to unpack and arrange them, at their own charge and risk; and all articles must be delivered with the freight, carriage, portage, and all charges and dues upon them paid.

Exhibitors will be permitted, subject only to the necessary general regulations, to erect, according to their own taste, all the counters, stands, glass frames, brackets, awnings, hangings, or similar contrivances which they may consider best calculated for the display of their goods.

Exhibitors must be at the charge of insuring their own goods should they desire this security. Every precaution will be taken to prevent fire, theft, or other losses, and Her Majesty's Commissioners will give all the aid in their power for the legal prosecution of any persons guilty of robbery or wilful injury in the Exhibition, but they will not be responsible for losses or damage of any kind which may be occasioned by fire or theft, or in any other manner.

Exhibitors may employ assistants to keep in order the articles they exhibit, or to explain them to visitors, after obtaining written permission from Her Majesty's Commissioners; but such assistants will be forbidden to invite visitors to purchase the goods of their employers.

Her Majesty's Commissioners will provide shafting, steam (not exceeding 30 lbs. per inch), and water, at high pressure, for machines in motion.

Intending exhibitors, in the United Kingdom, are requested to apply, without delay, to the Secretary to Her Majesty's Commissioners, at the offices, 454, West Strand, London, W.C., for a *Form of Demand for Space*, stating at the same time in which of the four sections they wish to exhibit.

Foreign and colonial exhibitors should apply to the commission, or other central authority appointed by the foreign or colonial government, as soon as notice has been given of its appointment.

Her Majesty's Commissioners having consulted a committee as to the organization of the Fine Art department of the Exhibition, will publish the rules relating thereto at a future date.

CONDITIONS.

1. The supplies are in all cases to be of the best quality and description, and should articles of any particular manufacture be ordered, the same are to be furnished at the rates set forth in the contract.

2. All orders for supplies under these contracts must issue from the Government Storekeeper's Department, and unless otherwise specially ordered, the supplies must be delivered to the Government Stores. When ordered, they are to be delivered free of charge to any part of Melbourne, and in the case of Ship Chandlery and Oil for Lighthouses, at the Marine Yard, Williamstown.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by the importation of stores for the Government service, or by any contracts made by the military commissariat, or by other departments of the public service. When desirable, raw material will be ordered for the manufacture in the penal establishments of articles required by the Government Storekeeper.

4. All supplies when delivered must be accompanied by the order, which will be receipted, must be rendered with the contractor's account. No goods will be received unless accompanied by the order.

5. In the event of supplies ordered under these contracts not being delivered within forty-eight hours, it will be competent for the Government Storekeeper, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price will be deducted.

6. Each contractor will be required to prepare his own account monthly in the prescribed form, and present the same to the Government Storekeeper for payment.

7. In the event of a difference of opinion between the contractor and the head of the department requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Government, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey, will be charged to the contractor.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 5.

9. The Government Storekeeper will have power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 5.

10. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth the amount of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent, either for the contractor, on his own behalf, or for the Government Storekeeper, on behalf of the Government, to terminate the contract by giving a notice in writing of three full calendar months to the opposite party, it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

THE period embraced in this report is from the 18th November, 1860, to the 17th May, 1861, both inclusive.

ELECTIONS.

At the annual election of three councillors to serve in the places of F. B. Salmon, Charles Callaway, and Henry Robinson, who retired by rotation, the following were elected:—Thomas Pierce, Braham Phillips Mosely, and Edward Tufton Smith.

On the 26th March, a meeting took place to elect three councillors in the places of Thomas Evans, John Patterson Smith, and K. J. Mustow, senior, who were disqualified through non-attendance. A poll was taken the following day, when James Jones, Thomas Dale Wrigley, and Robert Buchanan Bell, were duly elected.

On the 8th May, James Scott was elected in place of Edward Tufton Smith, resigned.

CHAIRMAN.

On the 22nd November, 1860, Councillor Andrews was elected chairman for the ensuing year. On the 11th of April, in consequence of his resignation (retaining, however, his seat in the council), Councillor Bell was elected chairman for the remainder of the year.

ATTENDANCE OF MEMBERS.

There have been twenty-six general meetings of the council, at which the attendance has been as follows, viz.:

REMOVAL OF SITTINGS.

In consequence of the rising importance of the Back Creek portion of the municipality, the council (having previously passed a resolution to that effect), on 20th December, 1860, removed their sittings to temporary municipal chambers, Scandinavian crescent, Back Creek, and which they have rented from Messrs. Harbottle and Co.; and although the minority of the council resident at Amherst protested against such a step, the council have the satisfaction of finding that it has met with the approval of a majority of the ratepayers, as evidenced in the large attendances and interest displayed at the weekly meetings and at the late municipal elections.

OFFICERS.

On the 27th December, 1860, Mr. John Mohr was elected acting town clerk in the room of Mr. W. Wood, which office he held till the 7th February, 1861, when Mr. W. D. Banks was elected town clerk and surveyor at a salary of £250 per annum.

ASSESSMENT.

By the annual valuation returns (after deducting £185 allowed by courts of appeal), property to the amount of £13,666 has been assessed, which, at a rate of 1s. 6d. in the pound, gives an annual revenue of £1024 19s.

BYE-LAWS.

The following bye-laws have been made by the council, and received the assent of His Excellency the Governor:—

- No. 11. For the better prevention of fire.
No. 12. For levying a rate of 1s. 6d. in the pound.

PUBLIC WORKS.

In consequence of the council, on entering on the present municipal year, being indebted to contractors and others to the extent of upwards of £300, they have been unable to effect any improvements worthy of notice; as, however, they expect shortly to be in receipt of the first instalment of the Government grant-in-aid, that, together with the amount of rates to be collected, will enable them to enter on a course of general improvements.

APPLICATIONS TO GOVERNMENT.

There have been the following applications to Government, with more or less success:—

1. For a sum to be placed on the estimates for the erection of a court house at Amherst, or for adapting the town hall for court-house purposes.—Refused.
