PETITION UNDER THE MUNICIPAL ACT.

SALE.

THE Governor, with the advice of the Executive Council, has directed the publication of the substance and prayer of the petition hereinafter set forth, signed by One hundred and fifty-three householders and landowners, at and near Sale, in the district of Gipps Land, praying for the erection of their locality into a municipal district.

JOHN O'SHANASSY.

Chief Secretary's Office,
Melbourne, 8th April, 1862.

2199.

The petitioners state that they are householders and landowners in the township and parish of Sale, and that necessity exists for the erection of the township into a municipal district, to further its improvement and good government.

They further state that it is the centre of a large agricultural district, and that the elements of wealth, such as a large and increasing population, genial soil, and mineral productiveness, are there concentrated; but the greatest inconvenience is caused by the want of proper roads, whereby the outlet of produce is obstructed and the cost of imported necessities is enhanced.

That the township, possessing no improvements in the way of street making and draining, is, during several months in the year, all but uninhabitable, and that owing to its isolation in position and interest, local self-government is indispensable to its welfare and progress.

They suggest the following area for a municipal district, viz.:—"Bounded on the west by the western boundary of the parish of Sale, commencing at Flooding Creek, at the south-west corner of lot 101, and bearing north to the north-west corner of the said parish; thence on the north by the northern boundary of the said parish, or two-chain road, bearing east to the one-chain road on the west side of 'The Heart,' thence by a one-chain road bearing south, and a line in continuation till it intersects Flooding Creek; thence by that creek to the point of commencement; comprising an area of about nine square miles, no part of which is distant six miles from any other."

And the petitioners pray as follows:—

"Your petitioners hereby pray that your Excellency will be pleased to cause the area above described to be proclaimed as 'The Sale Municipal District.'"

[The signatures to the above-mentioned petition appeared in No. 43 of the Gazette, pp. 618, 619 ante.]

PROPOSED ROAD DISTRICT.

INGLEWOOD OR KINGOWER.

TWO several memorials for the constitution of a road district have been received, both of which refer to an area nearly identical, viz.:—

No. I.—The chairman of the municipal council of Inglewood represents that the ill state of the communications around Inglewood, and the refusal of the Government to render any

assistance except through a road board, necessitate the incorporation of a district, proposed to be designated "The Inglewood Road District," and to comprise as large an area as possible. The chairman states that the area at present unrepresented by a road board is bounded on the south by the Bet-bet road district, on the east by the Marong road district, on the west by the St. Arnaud road district, and on the north by the River Murray.

No. II.—In a memorial, bearing the signatures of eighty-five "settlers, merchants, storekeepers, miners, and other residents in that part of the Avoca district not included in any road district and enclosed by the boundary lines of the Bet-bet, Sandhurst, and St. Arnaud road districts on the north-west and south-east, and extending to the River Murray on the north," the memorialists express a desire that the country embraced within the outside boundary lines of the abovementioned districts, and to such an extent in a northerly direction as to His Excellency may appear good and convenient, may be forthwith proclaimed as "The Kingower Road Board District." They draw attention to the position of Kingower as a central point, and one most convenient of approach for the numerous persons on whom the burthen of forming the roads will devolve.

In a separate communication, the secretary of a public meeting interested in the formation of the road district referred to above in No. II., represents that the memorialists are desirous that the proposed Kingower road district should be bounded as follows, viz.:—"Commencing at a point where the north-western extremity of the Avoca road district approaches the St. Arnaud road district; and thence along the northern boundary lines of the Avoca and Bet-bet districts and continuing to the west bank of the Loddon River; thence along the west bank of the Loddon River to where it joins or approaches the west bank of the Murray; thence westerly to the north-west termination of the Avoca River; and thence southerly along the eastern bank till it meets the Avoca district's north-western boundary."
