PRESERVATION OF FOREIGN ANIMALS AND BIRDS INTRODUCED INTO VICTORIA.

THE Government wishes to call the attention of all classes of colonists to the efforts which are being made by the Acclimatisation Society of Victoria for the introduction of useful animals, game, song birds, &c., into this country, and to solicit the co-operation of the public in a work which promises to be attended with the most beneficial results, and to contribute to the prosperity and enjoyment of the community. This co-operation will be most effectually rendered by the public zealously protecting from injury and destruction the animals and birds introduced into and turned loose in the colony by the society. On the grounds of humanity, and in the interests of the whole community, the Government confidently appeals to the good sense and right feeling of the public to second the efforts of the Acclimatisation Society, and to protect and preserve what has involved such an expenditure of time, money, and pains to procure.

By His Excellency's Command,
JOHN O'SHANASSY.

Chief Secretary's Office,
Melbourne, 5th January, 1863.

WHEREAS by an Act of the Parliament of Victoria, passed in the twenty-fifth year of Her present Majesty's reign (No. 148), intituled, *An Act to amend the law relating to Leases of Auriferous Lands and for other purposes*, it is amongst other things enacted that it shall be lawful for the Governor in Council, from time to time, to make regulations, not being contrary to the provisions of the said Act, prescribing the amount of rent or royalty, or the fee to be paid by licensees under the said Act, the form of licenses, the conditions upon which such licenses shall be issued and the privileges to be enjoyed under them, the manner in which the amount of compensation to be paid by any licensees under the said Act shall be determined, and generally for carrying out the provisions of the said Act, and such regulations may be applicable either to the whole colony or any part thereof, or to any particular description of land or mode of mining, and such regulations from time to time to alter, amend, or rescind; and it is also enacted that no such regulation shall have any force or efficacy until twenty-one days after it shall have been published in the *Government Gazette*: And whereas it is expedient to make regulations respecting water-rights: Now therefore His Excellency the Governor, by and with the advice of the Executive Council, doth by this present Order make the regulations hereto subjoined respecting licenses authorising persons to cut, construct, and use races, dams, and reservoirs upon any Crown lands in accordance with the provisions of the said Act, that is to say:—

1. *Interpretation clause.*—In the construction and for the purposes of these regulations, the word "race" shall mean an artificial channel for conveying water, whether formed by cutting and excavating the ground, or by boxes or troughs connected together.

The word "dam" shall mean an artificial earthwork, stone, or wooden wall, formed and used for retaining water in a reservoir.

The word "reservoir" shall mean a place where water is stored and retained by artificial embankments or walls.

2. *Lands which may be licensed.*—Any Crown lands, whether the same shall or shall not have been demised under the provisions of any other Act now or hereafter to be in force.

3. *How application shall be made.*—Every person desirous of obtaining a license authorising him to cut, construct, and use a race, dam, or reservoir, shall apply therefor by forwarding, through the Commissioner of Crown Lands, to the minister having for the time being charge of the mining interests of the colony, and addressed to him, an application in the form in the schedule herunto annexed marked A, and which application shall be signed by such person with his name and address, and shall bear date to the day of its delivery to the said Commissioner of Crown Lands; and he shall also publish in one of the newspapers published in, or if none be published in, then in a newspaper published nearest to the district wherein the lands on which it is proposed to cut or construct such race, dam, or reservoir are situate, a copy of such application; such publication to appear in that issue of the said newspaper which shall appear next after the day of the delivery as aforesaid of the said application.

4. *The ground applied for to be marked.*—On or previous to the day of such publication the person or persons so applying shall, in case the application shall be for a race, erect or cause to be erected on the lands applied for, and on the course of the proposed race, posts, not less than three inches square, standing at least three feet in height above the surface of the ground, and distant not more than twenty chains from each other; and in case the application be for a reservoir, shall erect such posts at such principal angles of, or some other conspicuous spots on the boundary of the ground proposed to be used for such reservoir; and all the posts herein referred to shall be maintained in their places until the application shall be granted or refused: Provided that if the lands applied for shall have been demised, and if the applicant shall be prevented from erecting such posts, then and in such case it shall be sufficient if such applicant shall mark out the land as near to the mode herein in that behalf prescribed as the circumstances will permit.

5. *Applicant for a license for a dam or reservoir to furnish plans and sections.*—Every applicant for a license to construct a dam or reservoir, shall furnish sketch plans and sections, on the scale of twenty feet to one inch, showing the proposed situation of the dam or reservoir, and the proposed mode of construction of the works connected therewith, and these plans and sections shall accompany his application.

6. *Preliminary deposit to be made.*—Previous to the time of making such application the applicant or applicants must deposit with the clerk of the Commissioner of Crown Lands, or if there be no such clerk, with the clerk of the petty sessions holden nearest to the land or some part of the land to be affected by the grant applied for, the sum of Ten pounds as a guarantee

for the payment of the expenses of survey, and of any other expenses which may, by or on behalf or by direction of the Crown, be incurred in connection with such application, such payments to be made by the said clerk according as the minister having such charge as aforesaid shall direct, and such clerk shall give to the person or persons paying the said sum, a receipt therefor in the form in the schedule hereto marked B. Any portion of such sum which shall remain after the payment of such expenses shall be returned to the applicant, but if the application be withdrawn, or if the applicant shall neglect or refuse to take delivery of the grant, then the whole sum, after the payment of such expenses as aforesaid, shall be forfeited: Provided that the expression "Commissioner of Crown Lands" used herein and throughout these regulations shall mean the Commissioner of Crown Lands acting for the time being in the district within which the land, or some part of the land to be affected by the grant applied for, shall lie.

7. *Mining surveyor to survey the land applied for.*—Upon the receipt by the Commissioner of Crown Lands of such application and the money to be deposited as aforesaid, the said Commissioner of Crown Lands shall direct a mining surveyor to proceed to the proposed site of the race, dam, or reservoir, and survey the same, and furnish such Commissioner of Crown Lands with a report containing a description thereof, and a statement as to the intended course of such race, and the intended area and boundaries of such dam or reservoir, the probable supply of water for such race or reservoir, the plan proposed for obtaining such supply, whether it is proposed to take or divert water from any spring, lake, pool, or stream, and, if so, setting forth in what quantity, and whether there is there existing any other race, dam, or reservoir, which could or might be affected by the race, dam, or reservoir the license for which shall be applied for, and also whether the Crown lands forming the proposed site for such race, dam, or reservoir, have or have not been demised under the provisions of any Act of Parliament, and shall also at the same time furnish to such commissioner a map of the part of the district within which the said site shall be situate, showing the position and form, as nearly as may be, of the dam or reservoir, or the course of the race, and in such a manner as that the same may be capable of ascertainment by reference to some fixed points in such district.

8. *Surveyor to affix notices.*—The said mining surveyor shall, after having obtained such direction as aforesaid, proceed with all reasonable speed to carry out the same, and he shall also ascertain by inspection whether or not the posts erected by the applicant or applicants are sufficient to indicate the ground applied for, and if he shall think that additional posts should be erected he may order the same to be erected, and they shall accordingly be erected by such applicant or applicants, and the said surveyor shall affix at such convenient places as he shall think requisite on the line of the proposed race, or on the site of the proposed dam or reservoir, notices dated the day of the completion of the said survey, setting forth, in the form of the schedule herunto annexed marked C, a general description of the land applied for, and the name and address of the applicant or each of the applicants, and such notices shall be effectually secured by the surveyor.

9. *Where more than one application is made for the same land.*—In the event of applications being made for any such licenses which, if granted, would be inconsistent or would interfere with each other or could not be beneficially held concurrently, that one of such applications as shall have been first left with the Commissioner of Crown Lands shall be first considered, and in case any two or more of such applications shall be left with the said commissioner at the same time, it shall be in the discretion of the Governor to which of the applicants the license shall be granted.

10. *Objections to issue of license.*—Any person objecting to the issue of any such license shall, within twelve clear days after the date of the notice posted on the land by the surveyor as aforesaid, lodge with the Commissioner of Crown Lands, and deliver to the applicant or applicants, at the address or addresses stated in such notice posted as aforesaid, full notice of all objections against the issue of such license.

11. *Objectors to deposit a sum as security for due prosecution of objections.*—Every person so objecting shall (except in cases of interference or encroachment which are otherwise provided for) deposit with the clerk of the Commissioner of Crown Lands or of such petty sessions as aforesaid, the sum of Five pounds, to be disposed of by such clerk in such manner as the minister having such charge as aforesaid shall direct, in payment of all expenses to which the applicant or applicants may be put by reason of such objection, in case such objection shall not be prosecuted, or shall fail; and such clerk shall give to the person or persons making such deposit a receipt in the form in the schedule hereto marked D, and in case there shall be no such expenses, or if there shall be any then subject to the payment thereof, the said sum shall be refunded to the person so objecting.

12. *Enquiry into applications, &c., to be held after expiration of certain period.*—As soon as conveniently may be after the expiration of the twelve days, exclusive of Sunday, Good Friday, and Christmas Day, allowed for objections, and after the delivery to the Commissioner of Crown Lands of the receipt in the last preceding clause marked D, the said commissioner shall proceed to hold at a time and place to be named by him, and of which not less than two clear days' notice shall be given by him to the applicant and objector, or, if more than one, to each of the applicants and objectors, an enquiry into the truth of the particulars stated by the applicant or applicants and of the objections made by each objector, and the said commissioner shall have power to adjourn the hearing of such objections to any other time and place: Provided that if several men unite in one objection, notice to any one of them shall be sufficient.

13. *After enquiry, report to be forwarded.*—At such enquiry the Commissioner of Crown Lands shall hear such evidence as shall be tendered to him in relation to the application and objections, and on the second of the two days, which shall next follow after such enquiry, or, should there be no objections, immediately after the expiration of the twelve days allowed for objections, he shall forward to the office of the minister having such charge as aforesaid the application and objections thereto, if any, and the evidence taken by him as aforesaid, if any, with his opinion thereon, together with the report, plan, and map to be furnished to him by the surveyor as aforesaid, and the sketch plans and sections referred to in clause 5 hereof.

14. *Copy of report may be obtained by every applicant.*—Every applicant who shall require the same, shall be permitted to take a copy of the mining surveyor's report and map of the ground to be affected by the license applied for, and shall also at any time before the said commissioner shall have forwarded the evidence as aforesaid be entitled to examine the same and to make or cause to be made a copy of the same for his own use and guidance.

15. *Date and form of license, and where to be obtained.*—Every license shall bear date the day of the execution thereof by the Governor, or by such person as shall be duly authorized in that behalf by the Governor, and shall be in the form in the schedule hereunto marked E, and may be obtained at the office of the Commissioner of Crown Lands, who shall deliver the same to the applicant or applicants, or such person as shall be duly authorized by him or them to receive the same, upon delivering to the said commissioner a receipt showing that a fee of £1 has been paid by the applicant or applicants to the clerk of the said commissioner, or of such petty sessions as aforesaid, and also of a receipt from a receiver and paymaster for the first half year's rent.

16. *Extent of land to be sold under a license.*—The land which will be permitted to be used under a license for a race shall not exceed an area of four acres for every mile in length of such race, and no land bordering on any dam or reservoir shall be used for any other purpose than that of collecting, retaining, or storing water: Provided that in case the license shall be for a race, if by reason of any natural impediment it shall be impracticable or attended with unforeseen difficulty or expense to cut the same according to the line originally designed therefor, it shall be lawful for the licensee, having first obtained the permission of the minister having such charge as aforesaid, to deviate in the cutting of such race so far from such originally designed line as shall be necessary to escape the effects of such impediment.

17. *Term for which license can be granted.*—The term for which any license shall be granted shall be determined in each case according as the Governor from a consideration of the circumstances in each such case shall think fit, but such term can in no case exceed fifteen years.

18. *Rents to be paid.*—The rents to be paid shall be as follows:—

For every race such sum as shall be considered proper, having regard to the quantity of water and the expenditure necessary, but not less than Five pounds per annum.

For every reservoir Ten shillings per annum for every million gallons of water according to capacity.

The above rents to be paid yearly in advance.

19. *Conditions of license.*—The grants of licenses to cut and use races shall be subject to the following conditions:—If the drainage of any area through which such race shall be cut shall be more than adequate for the supply of the water authorised to be taken by the person to whom such license shall have been granted, and any other such license shall have been granted to some other person to cut and use a race to be supplied with water from the same area, the Governor shall have the right to require the persons to whom such licenses shall have been granted to construct, and they shall on such requisition at their joint cost construct a reservoir, to be approved by some person to be appointed by the Governor, for the purpose of the storage of the water of such area in sufficient quantity for the supply of both the said races; and in case any third, fourth, or other subsequent such license should be granted in respect of the water of the same area of drainage, the same being more than sufficient for the races then supplied therefrom, the Governor shall also have the right upon any such subsequent grant being made to require all the persons then holding such licenses to construct, if not theretofore constructed, and they shall on such requisition at their joint cost construct such reservoir, or if there shall have been theretofore constructed, then to enlarge, and they shall on such requisition enlarge the same so far as shall be necessary for the purpose of the storage of water in sufficient quantity for the supply of all the races in respect of which licenses shall have been granted within such area; such enlargement to be approved of by such person as the Governor shall appoint for the purpose: Provided that if at any time the water derived from such area shall have become diminished to a quantity less than sufficient for the supply of all the races then existing and in use, the several licensees shall be entitled to use such water in the order of priority of dates of their respective grants; provided also that if on the occasion of any such enlargement of a reservoir the parties bound under the provisions hereof to effect the same shall not agree as to the proportion of the expense to be borne by them respectively, the Governor shall be entitled to fix such proportion. In case a license shall be granted to cut or construct a race or reservoir within a drainage area within which one or more than one race shall already have been cut, the Governor shall have the right to require the licensee or licensees for such one or more than one race, at his or their cost alone, to construct or enlarge such reservoir as in this clause first mentioned,

and for the purpose therein mentioned, instead of requiring the same to be done by him or them jointly with the person to whom the license in this clause first mentioned shall have been granted, and the licensee or licensees so required shall construct or enlarge such reservoir accordingly. If any race shall intersect any road ordinarily used for the passage of wheeled vehicles, whether such road shall have been proclaimed or not, footway, race, or canal, the licensee shall, at his own expense, construct good and substantial bridges, footways, roadways, or aqueducts over the same, the several works to be subject to the approval of an officer appointed by the Governor; and such licensee shall maintain all such works in good repair, and shall, if required by a Commissioner of Crown Lands, make, or cause to be made, at his own expense, temporary roadways, footways, races, or aqueducts, in such manner as shall be by such commissioner ordered during the time the permanent roadways, footways, or other works are in course of construction: Provided that if any such roads, footways, or other works shall be under the control of any municipal council, road board, or other local body, then and in such case the several works to be constructed by the licensee shall be subject to the approval of an officer to be appointed by such municipal council, road board, or other local body.

A license for a race shall be liable to be forfeited by order of the Governor in case the provisions of this and the last preceding clauses shall not be observed by the licensees bound to the observance thereof; and a license for a race or reservoir shall be liable to be forfeited at the will of the Governor in any of the following cases:—If any such race or reservoir shall without good cause be left without being *bond fide* used for any period of twelve months, the Governor to determine whether the same has been left without being so used or not. If any dam or any of the works connected with such race or reservoir shall become from neglect or imperfect construction dangerous to the public, or shall be suffered to remain out of repair for any unreasonable time, the Governor to determine whether such works have so become dangerous or not, or have been so suffered to remain out of repair.

The Governor shall be entitled at any time to revoke any such license and resume possession of the land upon which any such race, dam, or reservoir shall have been cut or constructed, upon payment to the person then entitled to the benefit of any such license of the value of the outlay by such person upon or in respect of such race, dam, or reservoir, and such percentage thereon, not exceeding Fifty pounds per cent., as shall be just, having regard to the value and state of repair of such race, dam, or reservoir, and of the works connected therewith.

20. *Form of transfer.*—Any person to whom any such license shall have been granted shall be at liberty to transfer the same to any other person, provided that he shall give notice of such transfer to the minister having charge for the time being of the mining interests of the colony. Every such transfer shall be effected by an instrument in writing signed by the transferor in presence of a justice of peace, and shall be in the form in the schedule hereto marked F; and every person to whom any such transfer shall be made shall be subject to these regulations as fully as if the license had been originally granted to himself.

21. *Compensation for injury.*—In any case in which an application shall be granted to cut or construct any race, dam, or reservoir, in or upon any land demised under the provisions of this or any other Act now or hereafter to be in force, or occupied by virtue of a miner's right or business license, and if the licensee shall enter upon such land the Commissioner of Crown Lands shall, on complaint being made by the said lessee of the land or holder of miner's right or business license, give notice in writing to the licensee and the lessee of the land or the holder of the miner's right or business license, as the case may be, to appear before him at a time and place to be named in such notice, and shall then and there receive such evidence as may be tendered to him and as may be pertinent to such enquiry, and shall decide what shall be the amount of the compensation to be paid by the applicant.

22. *Special cases.*—In cases where it shall be shown that a departure from the foregoing areas or rents would, under special circumstances, be desirable, the same may be altered by the Governor, and such conditions and stipulations may be imposed and such rents and royalties reserved as by the said Governor may be considered necessary.

23. *Persons entering on land applied for subsequent to application.*—If any person or persons shall subsequently to the making of any application under these regulations, whilst the same is under consideration, enter upon or occupy any Crown land for which such application has been made, such occupation or entry shall not operate to prevent the issue of a license to the said applicant or applicants.

Printed forms of tender may be obtained from the Government Storekeeper, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only, and if all be included in one tender, it will be accepted for one article only if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel for oats and bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight, only after deducting the tare is to be charged.

No tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which the contract may be again advertised or another tender accepted.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

All tenders must be enclosed in a separate envelope, marked, "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street, or if sent by post they must be addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated in schedule being, however, only approximative, and it must be understood that the Government will draw either more or less than stated. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by an invoice of quantity showing the gross weight, the tare, and the net weight (this should be on the back of the requisition or order), which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed on the order, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of a department, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which, it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or the contractor, by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Government Storekeeper on behalf of the Government, or for the contractor on his own behalf, to terminate the contract by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1863.
