Schedules of the articles required, and printed forms of tender, may be obtained from the Government Storekeeper, by whom also any information or explanation will be afforded to persons tendering. A stock of stationery is in store, to a list of which tenderers will be afforded an opportunity of referring, in order to ascertain what articles will, and what will not be required.

Separate tenders will be received for each schedule, but they must include the whole of the articles therein mentioned, and one price must be stated for each article. The value of all packages, whether bulk be broken or not, must be included in the prices demanded.

Tenderers must state the security proposed, whether in debentures, bank deposit receipt, cash deposit, Guarantee Society's bond, or sureties; if the latter, the tender must be accompanied by a certificate from two responsible persons that they are willing to become bound in the sum specified for due fulfilment of the contract; and such security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

In cases where two or more manufacturers' names are indicated on the schedule, tenderers are to state which of those makers' goods they intend to supply.

The names of the tenderers and their proposed sureties (if any), together with their addresses, must be stated at full length.

All tenders must be enclosed in a separate envelope marked "Tenders for —" (as the case may be), and be deposited in the Tender-box at the Government Stores, King street, or, if sent by post, must be addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

CONDITIONS.

1. The supplies are to be according to sample, where so indicated, and other items are to be of the best of their several kinds or manufacture.

2. All orders for supplies under these contracts must issue from the Government Storekeeper's Department, and unless otherwise specially ordered, the supplies must be delivered to the Government Stores. When ordered, they are to be delivered free of charge to any part of Melbourne, and in the case of Ship Chandlery and Oil for Lighthouses, at the Marine Yard, Williamstown.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by the importation of stores for the Government service, or by any contracts made by the military commissariat, or by other departments of the public service.

4. All supplies when delivered must be accompanied by the order, which will be received, and must be rendered with the contractor's account. No goods will be received unless accompanied by the order.

5. In the event of supplies ordered under these contracts not being delivered within forty-eight hours, it will be competent for the Government Storekeeper, should circumstances require it, to purchase the same, or such articles as may be suitable for the service, at the risk of the contractor, from whose account any expense over and above the contract price will be deducted.

6. Each contractor will be required to prepare his own account monthly in the prescribed form, and present the same to the Government Storekeeper for payment at the Treasury.

7. In the event of a difference of opinion between the contractor and the head of the department requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Government, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 5.

9. The Government Storekeeper will have power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 5.

10. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth the amount of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent, either for the contractor on his own behalf, or for the Government Storekeeper on behalf of the Government, to terminate the contract by giving a notice in writing of three full calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month; and within the period for which the contract is made.

The Government will not necessarily accept the lowest or any tender.

CONDITIONS.

1. All articles must be of the best quality of their several kinds.

2. All orders for supplies under this contract must emanate from the Chief Medical Officer, or from the Government Storekeeper, and the articles must be delivered at the office of the Chief Medical Officer, or at the Government Stores, as the case may be.

3. All supplies, when delivered, must be accompanied by the order, which, when received, is to be rendered with the contractor's account. No supplies can be received unless accompanied by the order, and net weight or quantity only will be paid for.

4. The contractor will be required to prepare his own account monthly in the prescribed form, and to present the same in a complete state to the Chief Medical Officer, or to the Government Storekeeper, for payment at the Treasury.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Government, and the decision of the board is to be considered final.

6. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted from the contractor's account.

7. If from any cause injury would accrue to the public service by waiting for a board of survey, the Chief Medical Officer, or the Government Storekeeper, as the case may be, will have the power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and that the contractor must take back the rejected article and supply good in its stead, failing which, it will be procured elsewhere, and the extra expense (if any) will be charged as in clause 6.

8. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivery or replacing them when required, will subject the contractor to such mulct, not exceeding one-fourth the amount of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

9. It will be competent for the Government Storekeeper on behalf of the Government, or the contractor on his own behalf, to terminate the contract by giving a notice in writing of three full calendar months; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

WATER SUPPLY.

No reference to the receipts and expenditure of the water supply is made in the above balance-sheet, as the business in connexion therewith has been transferred to separate offices,

and special officers have been appointed to conduct it under the direction of the two municipal councils conjointly, under the title of "The Ballarat and Ballarat East Water Commission," a special report of which will be shortly published. It may not be out of place here, however, to state that the works are not at present leased, but are under the management of the commission; that the pipes contracted for from England, mentioned in a previous report, are arriving; that a testing machine has been imported and erected at the railway station; the pipes are being duly and severely tested, and but few proved faulty; they are being distributed along the line for laying; the upper reservoir at Harry Beale's Swamp is in course of construction, and other works being carried out, the whole involving a heavy outlay, to meet which the councils are taking measures to effect a loan on their revenues, and it is confidently anticipated that during the next summer Ballarat will have the great advantage of being supplied with purer water than heretofore, and in almost unlimited quantity from this source; the advantages that will be derived, and the rates from which, will doubtless amply justify the expenditure made.

ATTENDANCE OF MEMBERS.

The public works committee meet every Tuesday, at 11 a.m.; the finance committee on the same day, at 4 p.m.; the legislative and market committees when necessary.

N.B.—The meetings held in conjunction with the Western Council, in connection with the water supply, are not included in the above, but are in addition to them, and will be recorded in the report of the water committee.

RESIGNATION, RETIREMENT BY ROTATION, AND ELECTION.

Councillor C. Dyte resigned his seat in the council at the end of March, but as that gentleman's seat would become vacant by the usual rotation on the 1st June, it was not refilled until the end of the year, when Councillors J. Dodds and J. Fussell retired by rotation. At a public meeting of the ratepayers, held at the Town Hall, on Thursday, 23rd May, five candidates were nominated, namely, the above-named gentlemen, with Mr. James O'Meara and Mr. Frederick C. Downes, the show of hands being in favor of Messrs. Dodds, Fussell, and Downes, a poll was demanded on behalf of the other candidates, which was taken on the following day, and resulted in the re-election of Councillors Dodds and Fussell, and the election of Mr. F. C. Downes, in the place of Councillor C. Dyte, Councillor Dodds for three years, and Councillors Fussell and Downes for two years.

To enable the municipal council to borrow a certain sum of money for the carrying out of the water supply.

APPLICATIONS TO THE GOVERNMENT, GRANTED.

Reserves.—The reservation for drainage and sanitary purposes, of those two areas of land lying between Peel street, Humfray street, and East street, near the railway.

Melbourne road.—In consequence of the application of the residents and owners of land along that portion of the Melbourne road between Ballarat and Lal-lal Creek, assisted by the co-operation of the two municipal councils, for the improvement of the road, the Honorable the Commissioner of Roads and Bridges appropriated the sum of £1000 toward the work, which this council has taken upon itself the responsibility of carrying out.

Main road channels.—Repeated applications have been made during the last three years, for having the Main road channels placed at such levels as would permit of proper drainage, the pitching to be completed throughout, but without success until May last, when the Honorable the Commissioner of Roads and Bridges apportioned the sum of £350 towards the object, and the council considering the necessity of the work, notwithstanding that the road is under the charge of the Central Road Board, has agreed to complete it and pay the additional cost, which is estimated will be at least an equal amount, and may be considerably more.

APPLICATIONS TO THE GOVERNMENT, UNDER CONSIDERATION.

Cemetery.—This matter still remains in abeyance, awaiting new legislation under the amended Municipal Corporations Bill.

Storm-water channel.—That the Government would complete the remaining portion of this channel, so as to give an outlet to the portions already made, and the drainage of the district.—(See further remarks under this head.)

Railway foot bridge.—The foot bridge over the railway at Ryea street, between Queen street and Victoria street bridges, although the Government agreed with the council to construct it at the same time that Queen street bridge was determined upon, has not yet been commenced; the Railway Department has, however, recently promised to commence it as soon as possible.

SURVEY OF STREETS AND SALE OF FRONTAGES.

This most important work is being carried out under contract with the Government and the supervision of the district surveyor, but judging from the progress made, it must be attended with many difficulties, probably owing to the irregular manner in which a large number of the dwellings are erected. In February last, the council having obtained a progress plan of the survey, and in compliance with the repeated requests of the inhabitants, made application for the sale of frontage allotments to certain streets; to this application no reply has yet been received, in consequence of its having been referred to the mining board for report as to any existing objections, which report has not yet been made; it is, however, to be regretted that so much delay should result in complying with the wishes of those whose interests may not interfere with mining operations.

STORM-WATER AND SLUDGE CHANNELS.

Notwithstanding the increasing action upon the Government to obtain the completion of these channels, during the past summer, the council deeply regrets to state that no measures were taken, seeing which, and in consequence of the injurious effects on the health of the district during the summer season and the danger to property in times of rain resulting from the non-completion of these channels. The inhabitants of the district called a public meeting in February last, soliciting the co-operation of the two municipal councils and the other local bodies, again to press upon the Government the necessity for completing this work. At the meeting, which was most numerous and influentially attended, a memorial was adopted to be presented to the Legislative Assembly, and it was also resolved that circulars, embodying the petition, be forwarded to each member of the House, and the co-operation of the representatives of the district invited, which was according done, and the Honorable J. B. Humfray duly presented the memorial, but refrained from giving notice of motion on the subject, from the favorable intimations made to him by several members of the Government, which led that gentleman to believe that the object could be attained without a special vote of the House. The Honorable the Commissioner of Public Works undertook to bring the subject under the notice of his colleagues, and recommend it to their favorable consideration, but since then, that gentleman has repeatedly informed this council that he had not had an opportunity of so doing. A short time previous to the resignation of the late ministry, Mr. Humfray gave notice of motion on the subject, but owing to the recent change of Government, further action is for a short time suspended; it is, however, the intention of the council to use its utmost influence to cause the work to be commenced as soon as the dry season arrives.

WEIGHTS AND MEASURES.

The council has built an office for the deposit of the standard, weights and measures, and for the use of the inspector, adjoining the Town Hall; during the time this was being done, a room in the Town Hall was temporarily used for that purpose.

LEGISLATIVE.

Mundic.—In consequence of representations from a large number of the inhabitants that mundic was being burnt in the municipality to the injury of health, the council felt called upon to take action in the matter, and having ascertained that it was being burnt at various mining works for the extraction of gold, lost no time in obtaining an analysis and report from the central board of health and an eminent chemist resident in the district, by which it was found that the practice of burning mundic, unless under proper regulations, could no longer be permitted with safety to the health of the inhabitants; the council has, therefore, taken the matter into consideration, with a view of ascertaining the most advisable means to be adopted, which without unnecessarily interfering with mining pursuits, will guarantee protection to health.

Municipal Conference.—The intended final meeting of the municipal conference mentioned in last report did not take place, whereby the business of previous meetings was left in a very unfinished state, and many of the most important matters connected with municipal government undetermined upon. The municipal and charitable institutions commission has furnished its report to the Government, and the new "Municipal Corporations Bill" has been laid before Parliament, and passed the second reading, but unless more extended powers than the Bill proposes are given to municipal corporations, and their permanent endowment more liberally provided for, a favorable opportunity will be lost, and the satisfactory settlement of this long-agitated question further delayed.

Chairman of the Council.
