Printed forms of tender may be obtained from the Government Storekeeper, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only, and if all be included in one tender, it will be accepted for one article only if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel for oats and bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street, or if sent by post they must be addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

## CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated in schedule being, however, only approximative, and it must be understood that the Government will draw either more or less than stated. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by an invoice of quantity, showing the gross weight, the tare, and the net weight (this should be on the back of the requisition or order), which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed on the order, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of a department, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

NOTE.—The asterisk denotes that the councillor opposite whose name it is placed is not on the committee named.

At the annual election, the following gentlemen were nominated in the place of Councillors Hammond, Gordon, and Keys, who retired by rotation, viz.:—Messrs. Houston, Keys, Hammond, and Gordon. The result of the poll was the election of the first three named.

At the first meeting of the council, R. K. Hammond, Esq., was elected chairman.

On the 6th April, Mr. F. W. Bull was appointed acting town clerk and surveyor; and on the 18th May, the appointment was confirmed by the council.

Contracts have been entered into for various urgent public works, besides completing those entered into during the previous half-year, and many minor improvements have been effected.

At the commencement of the present municipal year, with the view of better discussing the works necessary to be carried out within the municipality, it was deemed advisable to let the subject of public works come before a full council committee in preference to the system hitherto adopted of a public works committee of three members. This arrangement has tended much to facilitate business, and remove discussion from the ordinary meetings of council.

On the 24th March, a deputation from the council waited on the Honorable the Postmaster General, relative to the reduction of the postage rate, and extension of delivery in Brighton. The postage has not yet been reduced, but the delivery has been extended in East Brighton. It is proposed that a deputation from the council should again wait upon the Postmaster General relative to the reduction.

(Signed) JOHN CHRISTIE,  
GEORGE NYLAND,  
Auditors.

24th August, 1863.

A detailed account of the receipts and expenses is open at the Town Clerk's Office for the inspection of ratepayers.

The financial statement shows that the overdraft at the bank has increased £3005 3s. 4d. since the last report, which is caused partly by not having received any portion of the grant-in-aid during the past half-year, and partly by the extensive contracts for public works which are now almost completed.

The remaining two acceptances drawn by Messrs. Borland and Lockhart, on account of the market building, jointly amounting to the sum of £634 18s. 4d., became due on the 29th of May. The bank refused to cash them on account of not being previously advised of their becoming due, in connection with the increased overdraft. The acceptances were renewed by the drawers for the term of three months.

The annual assessment commenced being made on the 13th February; the appeals were heard on the 29th of April. There were 20 notices of appeal, 7 were reduced and 13 confirmed. There are 2894 properties assessed, the amount of the assessment is £76,747, upon which a rate of One shilling in the pound has been duly made.

A committee of the council was convened on the 2nd of June to consider their financial position, with a view to its amendment, and recommended that, in consideration of the reduced value of property, and consequently in the assessment, likewise in the amount appropriated by the Government in aid of the municipality, that the working expenses be reduced by having the streets cleaned and the lamps lighted by contract, likewise by altering the officers' salaries to the following scale:—

	£	s.	d.
The town clerk, per annum	250	0	0
Surveyor, ditto, with private practice	200	0	0
Inspector, ditto	150	0	0
Weighmaster	100	0	0

The collector's income is reduced in proportion by the diminution in the amount of the annual assessment.

The recommendation was adopted by the council. The council have also resolved not to undertake further extensive works until the overdraft at the bank is consistently reduced, although, as must necessarily be the case in all young communities, the inhabitants in each part of the district are claiming their share of public improvement.

Chairman.
