3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions above mentioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold field, in such manner as shall be just.

4. Rewards shall be given in accordance with the following scale, namely:—

- A. For the discovery of a gold field distant more than one mile and less than two miles from the nearest gold workings, and on which there shall be employed, three months after the report of the discovery having been made, not less than 200 men, a sum not exceeding £200.

THE COMPANIES STATUTE, 1864.

THIS is to certify that, in pursuance of the Act 27 Victoria No. 190, called *The Companies Statute, 1864*, "The Gipps Land Lakes Navigation Company (limited)," limited by shares, has been registered by me.

Dated this ninth day of June, 1864.

THOS. SUNDERLAND,  
Deputy Registrar General.

Printed forms of tender, with schedules of the articles required and copies of conditions, may be obtained from the Government Storekeeper, Melbourne.

Tenders must state the security proposed, whether in debentures, bank deposit receipt, cash deposit, Guarantee Society's bond, or sureties; if the latter, the tender must be accompanied by a certificate from two responsible persons that they are willing to become bound as sureties in the sum specified for due fulfilment of the contract; and such security must be completed within seven days of acceptance of the tender, failing which, the contract may be again advertised or another tender accepted.

The Government may elect to require a money surety. Tenders, endorsed, "Tender for ——" (as the case may be), are to be deposited in the box at the Government Stores, or addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The Government will not necessarily accept the lowest or any tender.

**CONDITIONS.**

1. The supplies are to be according to sample, where so indicated, and other items are to be of the best of their several kinds or manufacture.
2. All orders for supplies under these contracts must issue from the Government Storekeeper's Department, and unless otherwise specially ordered, the supplies must be delivered to the Government Stores. When ordered, they are to be delivered free of charge to any part of Melbourne, and in the case of Oil for Lighthouses, at the Marine Yard, Williamstown.
3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by the importation of stores for the Government service, or by any contracts made by the military commissariat, or by other departments of the public service.
4. All supplies when delivered must be accompanied by the order, which will be receipted, and must be rendered with the contractor's account. No goods will be received unless accompanied by the order.
5. In the event of supplies ordered under these contracts not being delivered within forty-eight hours, it will be competent for the Government Storekeeper, should circumstances require it, to purchase the same, or such articles as may be suitable for the service, at the risk of the contractor, from whose account any expense incurred by such purchase over and above the contract price will be deducted.
6. Each contractor will be required to prepare his own account monthly in the prescribed form, and present the same to the Government Storekeeper for payment at the Treasury.
7. In the event of a difference of opinion between the contractor and the head of the department requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Government, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.
8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 5.
9. The Government Storekeeper will have power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 5.
10. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth the amount of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.
11. It will be competent, either for the contractor on his own behalf, or for the Government Storekeeper on behalf of the Government, to terminate the contract by giving a notice in writing of eight full calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

## CITY OF MELBOURNE.

At a meeting of the council of the city of Melbourne, held in the Council Chamber in the Town Hall, Swanston street, in the said city, on the 3rd, and by adjournment on the 4th and 5th days of May, 1864, at which were present—The Right Worshipful the Mayor, Alderman John Thomas Smith, presiding; Aldermen Richard Eades, Richard Evans Hill, John Harbison, and Michael Keeley; Councillors William Bayles, Henry Donovan Brown, Joshua Covell, Edward Cohen, John Edwards, John George Golemitz, William Grant, Michael Gallager, George Hughes, Charles Edwin Jones, Isaac Lyons, Joseph Story, Samuel Thorp, James Widdow, and George Wragge, being more than one-third of the members of the said council—it was resolved and ordered, That whereas by an Act of the Governor and Legislative Council of New South Wales, 14 Victoria No. 20, intituled, *An Act for regulating the formation, drainage, and repair of streets, courts, and alleys on private property, within the city of Melbourne*, it is amongst other things enacted, that where any street, court, or alley on private property, in the city of Melbourne, shall not be, or shall not have been, sufficiently paved, flagged, macadamised, levelled, drained, and sewered, or otherwise completed or repaired to the satisfaction of the council of the said city, it shall be lawful for the said council at any time, and from time to time, by any order under the hand of the mayor or town clerk of the said city for the time being respectively, to order that any such street, court, or alley, or any part thereof, shall be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewered, or otherwise completed or repaired, in such manner and within such time as to the said council may appear expedient; and thereupon the owners of the tenements adjoining or abutting upon such street, court, or alley, on each side thereof, shall, in such manner and

within such time as shall be expressed in such order, at their respective costs, charges, and expenses, remove all obstructions, and well and sufficiently pave, flag, macadamise, level, drain, and sewer, or otherwise complete or repair so much of the said street, court, or alley, to the centre thereof, as may be opposite to and co-extensive with their respective tenements, adjoining or abutting on such streets, courts, or alleys respectively:

And whereas by the Act of the Parliament of Victoria No. 178, intituled, *An Act to further alter and amend the laws relating to the city of Melbourne and of the town of Geelong respectively, and to extend and apply other existing Acts thereto*, it is amongst other things enacted, that the words "tenements adjoining or abutting on such street, court, or alley" where used in the first hereinbefore recited Act, shall be held and taken to mean all tenements or premises actually abutting upon, and accessible from and communicating with, such street, court, or alley, whether the owners or occupiers thereof have or have not a right to use or do commonly use the same: And that the word "owner" used in the said Act shall apply to and be held to include agent of an owner, but only in so far as to enable such agent to apply to the defrayal of expenses incurred in the formation, drainage, and repair of such street, court, or alley, under the authority hereof, monies of his principal, of which he shall be in the receipt or possession, accruing from tenements lawfully chargeable for such expenses:

And that the said Act for regulating the formation, drainage, and repair of streets, courts, and alleys on private property within the city of Melbourne, shall extend and apply to the entire limits of the said city:

And that the apportionment of the expense incurred by the council of the city of Melbourne in the formation, drainage, and repair of every such street, court, or alley on private property, shall be made proportionate to the extent of the area of the land of each of the several owners which shall be so situated as to have or be capable of obtaining access to such street, court, or alley, at the time of or in consequence of the formation or repair of such street, court, or alley:

And whereas the streets, courts, or alleys enumerated in the schedule to the order annexed marked A. have not been sufficiently paved, flagged, macadamised, levelled, drained and sewered, or otherwise completed or repaired, to the satisfaction of the council of the city of Melbourne:

Be it now ordered by the council of this the said city, that the streets, courts, or alleys enumerated in the schedule to this order annexed marked A shall, within ten days from the date of this order's coming into operation, be freed from obstruction, paved, flagged, macadamised, levelled, drained, and sewered, in such manner as is expressed in the schedule to this order annexed, and marked B. And it is hereby notified to the owners respectively of the tenements adjoining or abutting upon the streets, courts, or alleys enumerated in the schedule to this order annexed marked A, that if they or any of them shall neglect or omit to remove the obstructions, and pave, flag, macadamise, level, drain, and sewer, or otherwise complete and repair the street, court, or alley on which their respective tenements adjoin or abut, in the manner and within the time expressed in this order, then the council of the said city will remove all obstructions in the said streets, courts, or alleys, and pave, flag, macadamise, level, drain, sewer, and otherwise complete or repair the same, or such parts thereof as shall not have been so done pursuant to this order; and will thereupon ascertain, determine, and charge such respective owners with their several proportionate part of the costs, charges, and expenses thereof, according to and co-extensive with their respective tenements adjoining or abutting on such street, court, or alley, proportionate to the extent of the area of the land of each of the several owners, so situated as to have or be capable of obtaining access to such street, court, or alley, at the time of or in consequence of the formation or repair of such street, court, or alley, having regard in such apportionment to the state and condition in which the pavement, flagging, macadamising, levelling, draining, and sewerage of such streets, courts, or alleys respectively, or any part thereof, shall or may be at the time of making this order.

Made and passed by the council of the city of Melbourne, at the meeting of the said council held on the 5th day of May, 1864, by adjournment from the 3rd and 4th days of the same month.

E. G. FITZGIBBON,

## SCHEDULE B.

Referred to in this Order.

Manner in which the streets, courts, and alleys enumerated in schedule A, referred to in this Order, are ordered to be freed from obstruction, paved, kerbed, flagged, macadamised, levelled, drained, and sewered.

The natural soil is to be reduced or made up, as the case may require, so that the longitudinal section of the whole street, court, or alley shall in no part have an inclination of less than

one (1) in eighty (80), and where practicable the entire length is to form one incline.

In laying on any stuff it is to be spread in layers of not more than one foot thick.

The transverse section of the street, court, or alley (where the water-channels are on the sides) is to show a roadway whose crown shall be one inch above the kerbs of the footways, and the fall from the crown to the water-channels shall not be less than one (1) in twenty-five (25).

Each street, court, or alley shall have a bluestone pitched water-channel, either at each of its sides or in its centre, of sufficient capacity to meet the required drainage for the same, the width of said channel or channels in no instance to be less than two (2) feet.

The pitchers to be nine (9) inches wide, and from six (6) to nine (9) inches deep, and from nine (9) to fourteen (14) inches long, with upright-sides set in sand, and well rammed down to such section as the city surveyor may direct.

The bottom of the channel is to be seven (7) inches below the kerbstones of footpaths.

On either side of the roadway there is to be, where practicable, a footpath not more than three (3) feet wide, and these are to be separated from the roadway by a neatly dressed bluestone kerb from two (2) to four (4) feet long, six (6) inches wide, and fifteen (15) inches deep.

The footways are to be covered with a coat of gravel three (3) inches thick, and the surface is to fall towards the channel at the rate of one (1) in ten (10).

The roadway is to be covered with a coat of clean bluestone metal, 2½-inch gauge, nine (9) inches deep in the centre, and six (6) inches deep on the sides, and this, when necessary, covered over with a coat of good loam two (2) inches thick, and rolled with corporation iron roller.

Whenever private entrances lead from the streets, courts, or alleys, they are to be paved to the full width (of building line) with bluestone pitchers similar to those used in the channels.

All entrances from adjoining street shall be pitched and kerbed either with four (4) inch bluestone cubes or nine (9) inch pitchers, as the city surveyor may direct, the sides being well supported with eight (8) inch stone kerbing.

The whole of the work must be done under the inspection and subject to the approval of the city surveyor, who is authorised to order any deviation from these general principles which the peculiarities of any case may require.
