Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only; and if all be included in one tender, it may be accepted for one article only, if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs. for bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

The successful tenderer will be required to enter into a bond, with two approved sureties, for one-third the estimated amount of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street; or if sent by post they must be addressed to the Chairman of the Tender Board Stores and Transport Office, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximative, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1866; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.

The mortality in Collingwood is unusually high. Among adults bilious diarrhoea and low fever are most prevalent. In North Melbourne diarrhoea and scarlatina are the most fatal causes of death. In Richmond dysentery and diarrhoea are reported as in the ascendant.

It is evident that with the advance of summer the progress of disease is advancing with unusual celerity, and that more than ordinary caution will be necessary on the part of municipal authorities and of private families to guard against the destructive results consequent upon the neglect of the plainest rules of hygiene.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only; and if all be included in one tender, it may be accepted for one article only, if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs. for bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

The successful tenderer will be required to enter into a bond, with two approved sureties, for one-third the estimated amount of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street; or if sent by post they must be addressed to the Chairman of the Tender Board Stores and Transport Office, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheatan, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only, approximative, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1886; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.
