Tenders.**CONTRACT SURVEYS.**

SEPARATE tenders for the performance in each of the undermentioned Survey Districts of the several surveys enumerated below will be received at the Department of Lands and Survey, up to Twelve o'clock on Wednesday, the 3rd day of January, 1866, under the conditions notified to tenderers for Contract Surveys in the *Government Gazette* of the 14th May, 1861.

Survey of detached residence areas on gold fields under five acres in extent.

Survey and marking of main and secondary roads, and occupation roads.

Survey of detached township allotments, ranging from twenty perches to half an acre.

Survey of detached agricultural allotments, ranging from twenty up to six hundred and forty acres in extent.

Such surveys to be made at the instance of and under the specific directions of the District Surveyor, and will embrace only such surveys as may not be let by the department by tender in the usual way. The successful tenderer under this advertisement will therefore have no monopoly of the surveys required in the district.

Tenderers will state separately for each district:—

Rate per lineal mile trenched as directed on specification for township surveys.

Rate per lineal mile marked as directed for suburban surveys.

Rate per lineal mile marked for main and secondary roads, unconnected with survey of allotments (both sides of road marked, but payment made by single measurement).

Rate per lineal mile chained in feature survey and connection lines.

Rate per lot for marking detached allotments under five acres in extent:—

1st. class. Containing under fifteen allotments in one connected survey.

2nd class. Comprising fifteen allotments and upwards in one connected survey.

The requisite plans of these surveys to be finished in accordance with the specifications for contract surveying, and preparation of plans for photolithographic purposes.

The rates accepted for these surveys to be in operation up to the 31st December, 1866.

The surveys to be executed personally by the contractor, unless under very special circumstances, authority for which will have to be obtained from the Surveyor General.

The surveys in future are to be proceeded with in the following order. Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only; and if all be included in one tender, it may be accepted for one article only, if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs. for bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

The successful tenderer will be required to enter into a bond, with two approved sureties, for one-third the estimated amount of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street; or if sent by post they must be addressed to the Chairman of the Tender Board Stores and Transport Office, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximative, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1866; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.

RECEPTION OF VESSELS OF WAR OF THE UNITED STATES.

THE subjoined despatches are published for general information.

By His Excellency's Command,
J. McCULLOCH.

Chief Secretary's Office,
Melbourne, 3rd January, 1866.

(Circular.)

Downing street, 18th October, 1865.

SIR,—With reference to my circular despatch of the 3rd June last, I transmit to you herewith, for your information and guidance, a copy of a further letter from Earl Russell (13th October, 1865), announcing that all measures of a restrictive nature on vessels of war of the United States in British ports, harbors, or waters, are now to be considered as at an end, and that it is the desire and intention of Her Majesty's Government that unrestricted hospitality and friendship should be shown to vessels of war of the United States in all Her Majesty's ports whether at home or abroad.

I have, &c.,

(Signed) EDWARD CARDWELL.

Earl Russell to Mr. Cardwell.

Foreign Office, 13th October, 1865.

SIR,—With reference to my letter of the 2nd of June last, prescribing the course to be taken by Her Majesty's several authorities in all ports, harbors, and waters belonging to Her Majesty, whether in the United Kingdom or beyond the seas, in consequence of the recognition by Her Majesty's Government that peace was restored within the whole territory of which the United States of North America before the commencement of the civil war were in undisturbed possession, and with reference more particularly to that passage in my letter in which it was laid down that Confederate vessels departing in pursuance of requisitions to be made by Her Majesty's authorities from any port, harbor and waters belonging to Her Majesty, in which, at the time of the receipt by those authorities of the fresh orders, such vessels might be found, should then and for the last time have the full benefit of the prohibition theretofore enforced against pursuit of them within twenty-four hours by a cruiser of the United States lying at the time within any such ports, harbors, and waters, I have the honor to state to you that Her Majesty's Government are of opinion that it is desirable that Her Majesty's naval and other authorities at home and in Her Majesty's possessions abroad, should be formally apprised that, as full time has now elapsed since my letter of the 2nd of June for giving effect to the provisions of that letter, all measures of a restrictive nature on vessels of war of the United States in British ports, harbors or waters, are now to be considered as at an end, and that it is the desire and intention of Her Majesty's Government that unrestricted hospitality and friendship should be shown to vessels of war of the United States in all Her Majesty's ports, whether at home or abroad.

I have addressed a similar letter to the Secretaries of State for the Home and India Departments, and to the Lords Commissioners of Her Majesty's Treasury and the Admiralty.

I have, &c.,

(Signed) RUSSELL.

The Right Hon. Edward Cardwell, M.P.,
&c., &c., &c.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only; and if all be included in one tender, it may be accepted for one article only, if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs. for bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

The successful tenderer will be required to enter into a bond, with two approved sureties, for one-third the estimated amount of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street; or if sent by post they must be addressed to the Chairman of the Tender Board Stores and Transport Office, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximative, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1866; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.

GEO. VERDON.

The firewood to be of the best description, and cut in lengths of two feet or three feet as required, 40 cubic feet to the ton; to be stacked on delivery. Each load of fresh water to contain 165 gallons. Fuel to be furnished on the quarterly order of the officer requiring the same; water monthly or as required.

Each tender to be accompanied by a certificate from two responsible persons, that they are willing to become bound as sureties in any sum not exceeding Twenty pounds, for the due fulfilment of the contract, to which effect a bond must be executed within ten days of acceptance of tender. The names of tenderers, with their proposed sureties and their addresses, should be stated at full length.
