Tenders for the Service of 1867.

COAL.

TENDERS will be received until Noon on Wednesday, the 21st day of November, 1866, from persons willing to supply Coal at Melbourne and Geelong, in such quantities as may be required by the Engineer-in-Chief, for Government Railways, from the 1st of January to the 31st December, 1867, inclusive.

The estimated consumption at Melbourne, during the year, will be about 11,000 tons, and at Geelong 4000 tons.

The coal is to be delivered daily on to the coal platforms, and during such hours as may be required by the officer receiving, and at such part of the station ground as may be pointed out, in bags each containing 1½ cwt. net, weighed at the expense of the contractor on the coal platform.

The contractor will be required at his own cost to provide a sufficient supply of coal bags to keep two days' supply upon the Melbourne and on the Geelong coal platforms, and the contractor will bear all loss through wear and tear of bags.

The bags will be returned to the contractor on the third day following the delivery, and a receipt must be given by the contractor or his agent, at the time of receipt of the bags, for all bags returned, and the Government hold themselves responsible only for deficiency in return of bags.

Tenders are to specify the price for each of the following kinds of coal separately, viz.:

Walsend
Australian Agricultural Company
Minnit
Warratah
Coal and Copper Company
Or other New South Wales mines

Further particulars may be obtained from the Locomotive Superintendent, Melbourne, or the Loco. Foreman at Geelong.

Security will be required, to the amount of £1000, for the due fulfilment of the Melbourne, and £500 for the due fulfilment of the Geelong contract, either by debentures, bank deposit-receipt, or by bond; if the latter, the tender must be accompanied by a certificate from two responsible persons that they are willing to become bound as sureties; and in either case the security must be completed within five days, failing which the contract may be again advertised and another tender accepted. Persons failing to take up their contract will be disqualified as future contractors.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

Tenders, endorsed "Tender for Coal, Railways," are to be deposited in the tender-box at the Stores and Transport Office, King street, Melbourne, and addressed to the Chairman of the Tender Board.

The Government will not necessarily accept the lowest or any tender.

CONDITIONS.

1. The coal is to be the very best of its kind, and must be either screened before delivery, over a screen with bars at least one inch apart and ten feet long, set at an angle of 45 degrees to the ground level, or hand-picked so as to be of the same size as if screened in the above manner, and be quite free from small shale or other impurities.

2. The orders will be issued by an officer of the railway department; and should an order not be complied with within twenty-four hours, it will be competent for the local officer who ordered, to purchase at the contractor's risk.

3. Coal, when delivered, is to be accompanied by the order, which will be receipted by the officer receiving the supply, and must be rendered with the contractor's accounts.

4. The contractor will be required to prepare his own account monthly or bi-monthly on the prescribed form, and present the same in a complete state to the Locomotive Superintendent, who will send it forward to the Railway Storekeeper, to be passed for payment at the Treasury or at a district pay office, as the case may be.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by the Engineer-in-Chief or the Locomotive Superintendent, and the decision of either is to be final.

6. The Engineer-in-Chief or officer in charge at the station will have the power to reject coal which is of inferior quality, and the contractor must take back the rejected coal, and supply good in its stead; failing which it will be procured elsewhere, and the extra expense charged to the contractor.

Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

7. A repetition of irregularity in the quality or quantity of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Fifty pounds for each case, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

8. It will be competent for the contractor, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving, in writing, a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

9. The contractor will not be exempt from wharfage or other import or landing rates.

HENRY MILLER,
Commissioner of Railways.
Railway Department,

When delivered the wood is to be solidly stacked where pointed out on the station ground, at the contractor's cost, and in stacks of two feet wide by five feet high, with space between each stack for measurement, or such other dimensions as may be directed ready for measurement; but no stack is to exceed two feet in width, and must be measured and certified to by the Railway Storekeeper. Cash security to the amount of 10 per cent. will be required for due fulfilment of the contract.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for 10 per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The Railway Storekeeper will have full power to reject any wood which he may consider not in accordance with the specification, notice of which will be given to the contractor, in writing, stating the reason.

Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

On certificate of the Traffic Superintendent that the contract has been completed to his satisfaction, the amount deposited as security will be repaid to the contractor.

For each and every week's delay in delivery beyond the time specified in this contract, the Government shall be entitled to deduct as and for liquidated damages the sum of £10 sterling.

IRON CASTINGS.

TENDERS will be received until Noon on Wednesday, the 21st day of November, 1866, from persons willing to furnish Iron Castings, in such quantities as may be required for the Government Railways, from 1st January until the 31st December, 1867.

The castings are required for locomotive engine work, carriage work, &c.

Whenever specially ordered, the castings shall be run from the very best "cold-blast iron," and of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed

by the Locomotive Superintendent, so as to produce a hard, close, soft, or other description of metal.

The castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honeycomb, cinder, or any other imperfection, and are to be sound in every respect and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be requested, and no extra charge shall be made or allowed for same; and the contractor will be required to remove the head or runner from the casting where possible, and charge the casting at the net weight only, trimmed and cleaned. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Government, and returned to the Melbourne Station, there to be delivered to the contractor free of cost of carriage.

Whenever ordered, the castings are to be moulded in loam without a pattern, and loam price will be paid according to schedule, but no extra charge will be allowed for patterns, strickles, or loam boards. The orders will express the kind or description of casting according to the schedule distinction; and the rates there filled in opposite each item will be allowed accordingly.

The Government will supply all patterns, and deliver the same to the Melbourne Station free of cost, from whence the contractor must fetch them when required and when due notice of same has been given in writing, and no cost for carriage from Spencer street Station to the contractor's place of business will be allowed.

Whenever only one or two castings are required, and they can be moulded from the broken originals, the contractor will be bound to mould from such patterns without requiring the Government to supply a wooden or other pattern for same, and no extra price will be allowed.

All pipes and bends must be moulded in loam whenever required, and a loam pattern made. A loam pattern must be struck up for any casting when a pattern cannot be supplied, and when only one casting or so is required, and when of that simple form that it can be made from a loam pattern; and no extra rate or charge will be allowed for the loam pattern beyond the loam price stated in schedule. The Government will supply all necessary striking boards, but no plates or cramps.

All patterns, loam boards, &c., supplied by the Government must be returned by the contractor in good order to the Government with the castings, and delivered to the Railway Stores at Williamstown, and no allowance will be made for return carriage.

The following must all be of good mixture of "cold-blast" iron:—

- No. 1.—Locomotive or engine cylinders ... per cwt.
- No. 2.—Castings of all descriptions, moulded in loam or sand and oven dried ...
- No. 3.—Very best description of sand castings, moulded in boxes, as specified, and dried if required ...
- No. 3a.—Chilled castings ...
- The following must all be of good mixture of "hot-blast" iron:—
- No. 4.—Open sand castings ... per cwt.
- No. 5.—Common heavy castings, for furnace work, &c. ...
- No. 6.—Furnace bars ...
- No. 7.—Railway chairs ...
- No. 8.—General heavy permanent-way castings ...
- No. 9.—Water pipes of any shape, bends, sockets, T pieces, &c., of four inches diameter and upwards ...
- No. 10.—Water pipes in straight lengths of four inches diameter and upwards ...

Tenderers must state the security proposed, whether in debentures, bank deposit-receipt, cash deposit, guarantee society's bond, or sureties; if the latter, the tender must be accompanied by a certificate from two responsible persons that they are willing to become bound as sureties; and in either case the bond must be executed within ten days of acceptance of the tender, failing which the contract may be again advertised at the risk of the tenderer, or another tender accepted. The Government will not necessarily accept the lowest or any tender, and may elect to require money surety. Persons failing to take up their contract will be disqualified as future contractors.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The names of the tenderers and their proposed sureties, together with their addresses, must be stated in full length.

All tenders must be enclosed in a separate envelope, marked "Tenders for Iron Castings," and addressed to the Chairman of the Tender Board, Stores and Transport Office, King street, Melbourne.

Security required, £50.

CONDITIONS.

1. All orders for supplies under these contracts must issue from the Secretary of Railways, and all goods must be delivered free of charge to the Railway Stores, Williamstown, unless otherwise ordered by the Secretary.

2. Notwithstanding the delivery of any castings into the store and a receipt having been given for them, should such castings turn out unsound, not in accordance with pattern or instructions, or in any way whatever defective, or of different quality of iron to that ordered, they must be taken away from the Railway Store at Williamstown at the expense of the contractor, and other castings must be supplied in lieu thereof, without delay, and without additional charge.

3. Tenderers must fill in opposite to each particular item in the schedule the price at which he undertakes to execute the work, according to the specification and conditions.

4. Should the contractor, in the opinion of the Engineer-in-Chief, fail to furnish work in accordance with this specification, then, in seven days after due notice to that effect shall have been given in writing, the Secretary for Railways shall have full power to re-advertise and relet this contract to any other person the Government shall think fit; and at the expiration of seven days after such notice shall have been given to the contractor, this contract shall become null and void.

5. The contractor must furnish with each delivery detailed invoices or bills of parcels, in duplicate, showing quantity, rate, and value, also the number of the order of the goods, otherwise they will not be received. Delivery, as a rule, is to be of the full quantity ordered at one time.

6. The contractor will prepare his own account on the prescribed form, and render the same to the Railway Storekeeper for certification, previously to payment at the Treasury.

7. In the event of a difference of opinion between the contractor and the officer requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Engineer-in-Chief, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor.

9. The Locomotive Superintendent will have power to reject such article or articles as are obviously of inferior character, or not in accordance with the specification, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

Contractors are not at liberty to transfer their contracts under power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

10. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report from the Locomotive Superintendent, to a penalty not exceeding Ten pounds; and it will be in the power of the Government, upon repetition of such irregularities, to terminate the contract forthwith.

11. It will be competent either for the contractor on his own behalf, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving a notice in writing of full three calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

HENRY MILLER,
Commissioner of Railways.

Railway Department,
26th October, 1866.
