At the Executive Council Chamber, Melbourne, Monday, the twelfth day of February, 1866.

PRESENT:

His Excellency the Governor
Mr. McCulloch | Mr. Francis
Mr. Grant

WHEREAS by the 42nd section of *The Amending Land Act 1865* it is enacted that the Governor in Council shall have power from time to time to issue licenses for any period not exceeding one year, which shall entitle the holders thereof respectively to reside on or to cultivate any lands on any "gold field" within the meaning of any Act now or hereafter to be in force relative to the gold fields or lands adjacent thereto, not exceeding in extent twenty (20) acres, subject to the payment of such license fee, and upon such terms and conditions as shall be approved of by the Governor in Council, and be set forth in such licenses: And whereas by the 70th clause of *The Amending Land Act 1865* it is amongst other things enacted that the Governor in Council shall have power from time to time to make and alter or rescind rules, regulations, and orders for prescribing the form of and the conditions and mode of applying for leases and licenses to be issued under the Act before mentioned, and the conditions on which the same shall be issued: Now therefore His Excellency the Governor, with the advice of the Executive Council, in pursuance of the power conferred as aforesaid, doth by this present Order rescind the several rules and regulations heretofore made and ordered relating to applications for, and the granting of, licenses entitling the holders thereof to reside on or to cultivate lands on gold fields or lands adjacent thereto, not exceeding in extent twenty (20) acres, and doth by this present Order make the rules and regulations following for applying for and granting licenses for any of the purposes hereinbefore mentioned:—

1. *Intending applicants to define on the ground the land they desire to occupy, and to cause the same to be surveyed.*—Every person desiring to obtain land under the provisions of the 42nd section of *The Amending Land Act 1865* shall fix in the ground, at a depth of not less than eighteen inches, a post, painted white, three inches square, and three feet high from the surface of the ground, at, as nearly as possible, each of the angles of the land he desires to occupy, and he shall forthwith employ the Government contract surveyor authorised to effect surveys for applicants for licenses to occupy land in the district in which the land is situated, to survey and mark out the land, and such surveyor shall fix the said posts at each of the surveyed angles of the land applied for, and shall also, from the foot of each post, cut trenches on the ground, three feet in length, to indicate the direction of the lines which would intersect at such post.

2. *Notice of application to be exhibited on the land, and to be published in local newspaper.*—The applicant for the license shall affix to one of these corner posts a notice in writing, setting forth that he has applied for a license to occupy the land as marked out in the manner aforesaid; and shall insert in the nearest local newspaper a notice that he has made application for such land; the situation and area of which, together with the name and address of the applicant, the name of the Government contract surveyor employed to survey the same, must be specified in such notice.

3. *Government contract surveyors' districts.*—The Board of Land and Works shall assign to Government contract surveyors

districts within which they shall be eligible to effect surveys for applicants for licenses, and the operations of such surveyors, so far as regards the survey of land for applicants for such licenses, shall be restricted to the districts so assigned to them.

4. *Allotments to be rectangular in form.*—Allotments applied for in unsurveyed localities should be of a rectangular form, and must in every instance contain at least two right angles; the boundary lines should conform either to the true meridian or to the magnetic meridian, and the meridian adopted should be specified on the plan. The boundaries of a site comprised in a surveyed allotment must conform to the lines of the prior survey.

5. *Certain lands not available for occupation under licenses.*—Licenses will not issue in ordinary cases for occupation of lands situated as under:—

Lands comprised within proclaimed reserves or townships.

Lands situated at a greater distance from the nearest gold workings than ten (10) miles.

Lands in such positions that the occupation thereof would tend to obstruct the access to homesteads, woolsheds, or other buildings, or to dams or reservoirs, or the access of holders of miners' rights, sawmill licenses, wood or other licenses, to timber and water.

Lands comprising two or more detached portions, or including portions of two or more surveyed allotments.

Land comprising a greater extent of frontage to a river or creek than 10 chains measured in a straight line from point to point.

Lands situated on both banks of a river or creek, or on both sides of a roadway or frequented track.

Lands included in any mining claim or held under mining lease, unless with the consent in writing of the claim-holders or lessees first had and obtained.

Lands comprising any dwellings, improvements, or crops not the property of the applicant for a license.

Lands proclaimed open for selection in agricultural areas.

6. *Description of land, plan, and report to be supplied by the Government contract surveyor.*—The surveyor of the land shall insert in the form of application set forth in schedule A herewith, a correct technical description of the land applied for, showing its connection with a fixed point of a Government survey; and shall supply a plan of the land on a scale of eight chains to one inch, showing the position within its boundaries of any watercourses, waterholes, dams, races, roads, tracks, huts, fences, gardens, old gold-workings, boundaries of any existing mining claims, and any topographical information that may be necessary to be known when dealing with the application, and shall inscribe on such plan the name in full of the applicant for the land indicated thereby.

He shall state in the report the particulars of all claims to prior occupancy, respecting which he shall make enquiries whilst the survey is in progress. He shall also state on the plan whether the bearings of the boundary lines have reference to the true or to the magnetic meridian.

7. *Applications to be consecutively dealt with by the Government contract surveyor and district surveyor.*—The form of application, and plan when ready, shall be forthwith transmitted by the Government contract surveyor to the District Surveyor of the district within which the land applied for shall be situated; and the District Surveyor shall, with the least possible delay, plot, or cause to be plotted, on a plan to be kept in his office and called the "Locality Plan," the boundaries of the land applied for, and shall report whether there are any valid claims to prior occupancy of the land, and whether the granting of the application would interfere with any residence sites, or access of miners or others to timber or water. He shall then transmit the application to Melbourne for the consideration of the Mining Department and the Board of Land and Works.

8. The Government contract surveyor shall insert on the application the amount claimed by him within the limits hereinafter prescribed for survey and fees in connection therewith.

9. *Fees to be charged by the Surveyors.*—The Government contract surveyor who shall survey the land shall, if he comply with these regulations, be entitled to the fees hereinafter mentioned, viz.:—

Marking out block, and, furnishing description, plan, and report relative thereto...	£2 5 0
Allowance for every mile beyond four that the block is distant from the surveyor's office, or survey camp...	0 2 0
Allowance for every mile beyond four if such block be one of two or more blocks surveyed in the same locality on the same day...	0 1 0

10. *Objections to be forwarded to district surveyor.*—Persons who may object to the occupation of land set forth in any such application, must communicate in writing to the district surveyor full particulars of their objections, within seven (7) days after the date of the third publication in the local newspaper of the notice required to be given as before mentioned:—

The district surveyor shall record all such objections and attach the statement of same to the applications in respect to which they are made.

11. *Minors and married women ineligible to obtain licenses.*—No person under the age of twenty-one years, nor any married woman, unless she has obtained a decree for judicial separation binding according to the laws now in force in Victoria, will be allowed to hold a license under the 42nd section of *The Amending Land Act 1865*; and if a license should be obtained improperly by any person so disqualified, it will be rescinded, without any compensation for improvements that may be placed or made on the land by such licensee.

12. *Lands applied for not to be occupied before license is obtained.*—If during the interval between the publication of an application for a license and the consideration of the application by the Board of Land and Works, the applicant should, without authority, occupy the land applied for, the application will be liable to be refused.

13. *Form of license.*—The Governor in Council, upon being satisfied that no valid objection exists to the occupation of the land applied for, may issue, through the Department of Lands and Survey, a license, which shall be signed by the Commissioner of Crown Lands and Survey, to occupy the same in the form in the schedule B hereunto annexed, and subject to the terms and conditions therein set forth.

14. *Fees payable.*—The fees to be paid for licenses to occupy land for residence and cultivation shall be as under:—

For sites comprising any area not exceeding five (5) acres, Two pounds (£2) per annum.
For sites comprising any area exceeding five (5) acres and not exceeding ten (10) acres, Two pounds ten shillings (£2 10s.) per annum.
For sites comprising any area exceeding ten (10) acres and not exceeding twenty (20) acres, Four pounds (£4) per annum.

Such fees shall be payable in advance to the receiver and paymaster (or other officer appointed to receive the same) whose office shall be nearest to the land held under such licenses; and every license shall bear date of the day on which it is granted by the Governor in Council, and shall continue in force for a period not exceeding one year from such date, and may be renewable.

15. If any person to whom a license shall have been granted shall fail to take out the same within one month after the date of the notification to him from the Crown Lands Office in Melbourne of the granting of the license, and the transmission thereof to the receiver and paymaster, or other officer authorised to issue the same, such license shall thereupon become forfeited, and the land described therein shall be and shall be deemed and taken to be available for other applicants.

16. *Renewal of licenses.*—If the holder of a license shall, within fourteen (14) days before the expiry of the term of such license, or of any license renewed as hereinbefore provided, notify to such receiver and paymaster, or other officer as hereinbefore mentioned, that he desires to renew his right of occupation under such license, and if he forward with such notification the amount payable thereunder, and if he adduce evidence (on being required so to do) sufficient to show that he has complied with the conditions of the license then in force, the license may be renewed subject to all the terms and conditions thereof, and the licensee shall not be required to erect posts, publish notices, or make application as hereinbefore directed. If the holder of any such license fail to forward such notice and fee within the period before mentioned, he will, on the expiration of the term of the license, be liable to forfeit his right to occupy the land described in such license, and if he continue thereafter to occupy the land he will be liable to prosecution for unauthorised occupation of Crown lands, and no compensation will be given for any improvements on the land, which will thereupon be deemed to be available for occupation by other persons, or to be otherwise appropriated.

17. The interest of the licensee in the event of his death shall pass to his personal representatives; but no assignment of the licensee's interest under execution or order of sequestration will be recognised.

18. Surveys must not be undertaken for persons ineligible under these regulations to obtain licenses, or for more than one applicant for the same land.

19. No surveys shall be made of land not available for occupation under license.

20. Every Government contract surveyor shall keep a record of the date of any orders received by him to survey sites,

and shall, as far as practicable, consecutively execute personally, or by an assistant duly qualified under these regulations, the surveys in accordance with the relative priority of the dates of those orders, and shall keep a record of the date of completion of every such survey.

21. Any Government contract surveyor who shall wilfully or carelessly disregard the foregoing regulations and restrictions, or knowingly mark out any lot in such a manner as to overlap part of any other lot previously marked out by some other duly qualified Government contract surveyor for an applicant for a license under the 42nd section of *The Amending Land Act 1865*, will be liable to be disqualified from making surveys under that section of the Act, and from tendering for any public surveys.

22. If any doubt should occur with reference to the priority of two or more applications for the same ground, the Board of Land and Works shall have power to decide which application shall have precedence.

23. The Board of Land and Works may, on the application of the licensee at any time after the expiration of one (1) year from the date of the first license, and on being satisfied that the land applied for is not auriferous, cause the land held under any license under the 42nd section of the said Act to be sold by auction, subject to valuation for the improvements of the licensee thereon, provided such land be not within any reserve for agricultural areas, in which case valuation for improvements will be allowed whenever the area in which, the same are included shall be proclaimed open for selection.

And the Honorable James Macpherson Grant, Her Majesty's Commissioner of Crown Lands and Survey for Victoria, shall give the necessary directions herein accordingly.

J. H. KAY,
Clerk of the Executive Council.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only; and if all be included in one tender, it may be accepted for one article only, if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs. for bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

The successful tenderer will be required to enter into a bond, with two approved sureties, for one-third the estimated amount of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street; or if sent by post they must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximative, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1866; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.
