Notice to Mariners.

[No. 36.]

AUSTRALIA—NORTH-EAST COAST.

CORAL PATCH IN BLACKWOOD CHANNEL.

INFORMATION has been received at the Admiralty, that H.M.S. *Salamander*, 20th January, 1865, whilst steering to the south-west through the Blackwood channel on the route recommended from Raine island towards the Middle banks, struck on an unknown coral patch, with only 7 feet on its shoalest part at low water.

The patch lies about a mile E.S.E. of the eastern part of the Middle banks, or in lat. $11^{\circ} 47' 10''$ S., long. $143^{\circ} 41' 35''$ E. It is about 230 yards long, east and west, 110 yards wide, has 10 to 17 fathoms all round it, and 15 to 17 fathoms in the channel, a mile wide, between it and the reef in connection with the eastern sand bank on the Middle banks. From its shoalest spot of 7 feet, the centre of the eastern sand bank on the Middle banks bears W. $\frac{1}{2}$ N. distant 2½ miles, and the south extreme of Sir Charles Hardy islands S.W. 144 miles.

Vessels entering the Great Barrier reef by the Raine island entrance, should as soon as possible after passing north or south of Raine island, bring its beacon to bear N.E. $\frac{1}{2}$ E., steering S.W. $\frac{1}{2}$ W. (allowing for tide and a northerly set) for Sir Charles Hardy islands. As soon as the beacon is lost sight of, the vessel will be clear of the shoal patches westward of the 100 fathoms line of soundings, and on the bank. Look out now for Sir Charles Hardy islands, and when they are plainly seen, steer for their south extreme on a S.W. $\frac{1}{2}$ W. bearing, and when the easternmost sand bank on the Middle banks bears N.W. by W., and the west Ashmore bank (if seen) S.S.W. $\frac{1}{2}$ W., the vessel will be well to the south-west of the Salamander patch, and a course may then be shaped for either the North or Pollard channels.

[All bearings are magnetic. Variation 5° E. in 1865.]

By Command of their Lordships,

GEO. HENRY RICHARDS,
Hydrographer.

Hydrographic Office, Admiralty,

This Notice affects the following Admiralty Charts:—Australia, North and East Coasts, sheet 21. No. 2354; Coral Sea, No. 2764; and Australia, Northern portion, No. 2759; also, Australia Directory, vol. 2, page 228.

NOTICE TO MARINERS.

LEADING LIGHTS AND BEACONS FOR NEWCASTLE, NEW SOUTH WALES.

THE accompanying Notice to Mariners, received from the Honorable the Colonial Secretary of New South Wales, is published for general information.

JAS. G. FRANCIS,

Commissioner of Trade and Customs.

Department of Trade and Customs,
Melbourne, 5th March, 1866.

The Treasury, New South Wales,
15th February, 1866.

THE following particulars with reference to the leading lights in the Harbor of Newcastle, in this colony, are published for general information.

GEOFFREY EAGAR.

Office of Superintendent of
Pilots, Lights, and Harbors, Sydney,
10th February, 1866.

NOTICE TO MARINERS.

LEADING LIGHTS AND BEACONS FOR NEWCASTLE.

In order to increase the facilities for navigating Newcastle Harbor, leading lights for entering, and also leading lights for taking the north channel, will be exhibited on and after Tuesday, the 1st of May, 1866.

The two fairway lights for entering (red and bright) will be shown from beacons 228 feet apart, in a S.W. $\frac{1}{2}$ S. and N.E. $\frac{1}{2}$ N. direction, erected on a clear space of ground on the hill at the back of the town, between the Wesleyan and Catholic Churches.

Those for taking the north channel, also red and bright, will be shown from beacons erected on the breakwater in the vicinity of the old Bull beacons, at a distance of a hundred feet apart, in a W. by N. and E. by S. direction.

In both cases, when the lights are in line, the bright will be the uppermost and the red the lowermost one of the two. In the day time, however, this order of color will be reversed, as it is intended to paint the upper beacons red and the lower ones white.

The lower or north-eastern of the two obelisks at present used for the leading mark in, situated on Shepherd's Hill, will be removed, so likewise will be the remnant of the Bull beacons on the breakwater.

The exhibition of these leading lights will not necessitate different sailing directions to those already published, any more than the lights and new beacons being substituted for the obelisks and beacons which are at present in use.

In entering the Port of Newcastle at night great caution will be necessary, in consequence of the strength of the tide, and due allowance will have to be made for ebb or flow, on sighting the north channel lights, and about to alter course from S.W. $\frac{1}{2}$ S., with the fairway lights in one, to W. by N., the direction which a vessel will have to steer to keep the north channel lights in line to gain an anchorage in the north harbor.

Superintendent.

The mortality of Melbourne and suburbs, together with the mean temperature in the shade, and the mean atmospheric pressure, during the month of January, for the last seven years, were as follow:—

	Number of Deaths.	Mean Temperature.	Mean Height of Barometer.
January, 1860	407	68.7°	29.827 inches.
" 1861	450	67.2°	29.798 "

" 1866	470	66.3°	29.855 "
Mean of seven years	409	66.5°	29.830 "

The mortality of Melbourne and suburbs during January was higher than it was in the same month of any year of the previous six, and the deaths were more numerous by 61 than an average of the month extending over seven years. They were, however, fewer by 8 than in the month of December.

The mean temperature and mean atmospheric pressure during the month were about the average.

Males and females died in the respective proportions of 54 and 46 per cent. Sixty-five and a half per cent of the deaths were of children who had not attained their fifth year, against 65 per cent. in January, 1865; 64 per cent. in January, 1864, and January, 1863; 68 per cent. in January, 1862; 71 per cent. in January, 1861; and 73 per cent. in January, 1860.

The highest number of deaths on any one day was 23. These occurred on the 6th. The next highest number was 22, which occurred respectively on the 16th and 22nd. The lowest mortality recorded was 9 deaths on both the 3rd and 18th, and 10 upon the 11th and 20th.

Six persons of 75 years old and upwards died during the month, of whose deaths the following are the particulars:—A male aged 75 died of apoplexy, another at 75 of bronchitis, one at 79 of disease of the kidneys, and one at 80 of old age. A female aged 76 died of dropsy, and one at 80 of apoplexy.

The violent deaths numbered 22, of which 16 are believed to have resulted from accident and 6 from suicide. The following are the particulars of the accidental deaths:—A boy aged 8 was killed through being run over by a horse on the Flemington race-course, a laborer aged 16 died from the effects of a fall, a farm laborer aged 24 from being accidentally crushed, a blacksmith aged 34 from falling into a drain, a woodsplitter aged 45 from injuries caused by a tree falling on him, a laborer aged 19 from the effects of an explosion of gunpowder whilst blasting gravel, a blacksmith aged 17 from an accident with firearms, an infant aged 16 months and a boy aged 3 years of scalds, a boy aged 34 of burns caused by matches, a boy aged 9 of sunstroke, a boy aged 6, a youth aged 15, a painter aged 20, a mason aged 23, and a brickmaker aged 67, of drowning.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw only; and if all be included in one tender, it may be accepted for one article only, if advisable.

As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs. for bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

The successful tenderer will be required to enter into a bond, with two approved sureties, for one-third the estimated amount of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

All tenders must be enclosed in a separate envelope, marked "Tender for ——" (as the case may be), and deposited in the box at the Government Stores, King street; or if sent by post they must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximative, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1866; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.
