LEGISLATIVE ASSEMBLY.

I HEREBY notify that I have this day received a Return to the Writ issued by me on the twenty-third day of July last, for the Election of a Member to serve in the Legislative Assembly of Victoria for the Electoral District of Ballarat West, in the place of William Mountford Kinsey Vale, Esquire, whose seat became vacant by his acceptance of an office of profit under the Crown; and that by the Return endorsed on such writ, it appears that

WILLIAM MOUNTFORD KINSKY VALE
was duly elected Member for the said Electoral District.

FRANS. MURPHY,
Legislative Assembly Chamber, Speaker.
Melbourne, 14th August, 1866.

ADDITIONAL MONEY ORDER OFFICES.

ON and after the 16th inst., Money Orders may be obtained and made payable at the undermentioned Post Offices:—

CARLTON,
LANCERFIELD, and
MOYSTON (Campbell's Reef).

WILLIAM TURNER,
Deputy Postmaster General.
General Post Office,
Melbourne, 6th August, 1866.

PACKETS FOR TRANSMISSION BY POST.

THE following Order, directing what Packets may be sent by Post as inland and foreign packets, and upon what terms and conditions the same may be sent, has been approved by His Excellency the Officer administering the Government in Council, and is published in accordance with 29 Victoria No. 293, section 8.

1. A packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass or in cases containing glass), prints or maps, and any quantity of paper, parchment or vellum, or patterns or samples of merchandise; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed or plain, or a mixture of these, but no printed matter or prints will be allowed, except such as may be printed on paper, parchment, or vellum. Further, all legitimate binding, mounting, or covering of a book, &c., or a portion thereof, will be allowed, whether such binding, &c., be loose or attached, as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto. Patterns or samples (except such as are intended for transmission within the colony, or to the other Australian colonies and New Zealand) must not have a value of their own apart from their mere use as patterns or samples.

2. Every packet must be sent either without a cover, or in a cover open at the ends or sides so as to admit of the enclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string; but in such case, the postmaster is authorized to cut the string, though if he do so, he must again tie up the packet as before. Samples of seeds, drugs, and so forth, which cannot be sent in open covers may be enclosed in bags of linen or other material, tied round the neck so as to be easily loosened and refastened, or (as inland packets only) in closed transparent bags; but foreign packets must not be sent in closed bags, although transparent.

No. 89.—AUGUST 14, 1866.—1.

3. No packet may contain anything which is sealed or otherwise closed against inspection, nor any matter or thing not hereinbefore specified; nor must there be any letter nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not to be regarded as a letter. Indeed, as respects the name and address of the sender, not only is the writing permitted, but it is even recommended; so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned. Packets containing patterns must not bear any writing other than the name and address of the persons for whom they are intended, the name and address of the sender, a manufacturer's or trade mark, number, and the price of the articles.

4. Packets containing seeds, not sent as samples, may be forwarded as inland packets only; such packets must not, however, exceed eight ounces in weight, and must be either in bags or papers, tied so that they may be easily opened and refastened, or in closed transparent bags.

5. No packet must exceed two feet in length, one foot in width, or one foot in depth; and if any packet exceeding these dimensions be presented, it must not be received.

6. Any packet closed against inspection that may be posted, bearing postage-stamps equal in value to the proper postage as an inland or foreign letter, not exceeding half an ounce in weight, as provided by the Act aforesaid, shall be treated in the same manner as a letter exceeding one half ounce in weight, and posted with only one single rate of postage thereon.

7. Any packet which shall be posted in fraud or violation of these regulations, or shall have no postage, or less than one rate of postage, as a packet not exceeding four ounces in weight paid thereon, or shall contain or have on the outside thereof any profane, obscene, or libellous address, signature, picture, or thing, must be sent to the dead-letter office forthwith.

8. If an inland packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of one rate as a packet of four ounces in weight, it may be forwarded to its destination, double the deficient postage being charged on delivery.

This Order to have effect from the first day of August, 1866.

J. McCULLOCH,
Chief Secretary.

General Post Office,
Melbourne.

PREPARATION OF GENERAL ELECTORAL LISTS DURING THE WEEK ENDING 1ST DAY OF SEPTEMBER, 1866.

SPECIAL NOTICE TO HOLDERS OF ELECTORS' RIGHTS.

IT is hereby notified that holders of Electors' Rights, issued on or before the 1st day of September, 1865, must obtain renewed rights in lieu thereof, in order to have their names placed upon the General Lists to be made up on the 1st day of September next.

Neglect of this precaution will result in the omission of the names of the persons so neglecting from the new list to be made up as aforesaid.

Every renewed right will bear the same number and will be in the like form and tenor as that in lieu of which it is issued, and will be equally available for any election that may take place before the completion of the new roll in October next.

No Elector whose name is on a Roll of Ratepaying Electors for any district is entitled to a renewed Elector's Right for such district.—*Vide* sections 61 and 62 of *The Electoral Act* 1865.

J. McCULLOCH,
Chief Secretary's Office,
Melbourne, 11th June, 1866.

OUTSTANDING ACCOUNTS.

THE undermentioned persons are requested to call as soon as possible for payment of the accounts due to them, and now lying at the Receipt and Pay Offices.
N.B.—This list does not include accounts which have been in the Pay Offices for a longer period than six months.

E. S. SYMONDS,
Under Treasurer.

Nine of the deaths registered in South Melbourne occurred in public institutions. With the exception of scarlatina, which is reported in several of the districts, the general health is good and the rate of mortality favorable.

SANDHURST MINING DISTRICT.

GENERAL BYE-LAW No. 7.—[26th April, 1866.]

At a meeting of the mining board of the mining district of Sandhurst, begun and holden at Sandhurst, in the said district, on the 26th day of April, One thousand eight hundred and sixty-six, it is ordained by the said board as follows, that it is to say—

1. *Regulations of local courts and former bye-laws of mining boards repealed.*—Whereas it is expedient that the bye-laws enacted by the mining board of the mining district of Sandhurst should be revised and amended, the said bye-laws are hereby repealed, and the following bye-laws substituted in lieu thereof, excepting a bye-law made by the said board for prescribing the mode in which the validity of disputed elections shall be decided; excepting, also, a bye-law to regulate the drainage of sludge and water in the Heathcote division of the Sandhurst mining district, made and passed by the said board on the thirty-first (31st) day of July, One thousand eight hundred and sixty-two (1862), and gazetted on the twenty-sixth (26th) day of August, One thousand eight hundred and sixty-two (1862); and also excepting those portions of such bye-laws heretofore enacted by any local court or mining board of the said district as it may be necessary to retain for the purpose of deciding any dispute respecting the boundaries of claims occupied before this bye-law shall have come into force; and, also, further provided, that nothing herein contained shall in any manner affect any right, title, interest, liability, or obligation existing at the time when this bye-law shall come into force.

SECTION I.—FOR REGULATING THE PROCEEDINGS OF THE SANDHURST MINING BOARD.

ORDER OF MEETINGS.

1. That the sittings of the board be open to the public on all ordinary occasions, but a majority of the board may require the exclusion of strangers while the sense of the board is taken, whether the question then under consideration shall be discussed with closed doors or not.
2. The first business at each sitting of the board shall be to confirm and, if necessary, amend the minutes of the preceding sitting. The chairman shall initial any amendment made on the minutes.
3. The reception of deputations, the presentation of memorials or petitions, and the reading of correspondence, shall take precedence of all other business, in the order herein stated.
4. The order of the day shall include all business of which due notice has been given, and all matters arising out of former sittings of the board. The bringing up of reports shall have precedence of all motions.
5. All motions shall be considered in the order in which notice thereof has been given.
6. It shall be competent for any member to propose an original motion or an amendment upon a motion, without previous notice, provided the same shall be handed to the chairman and read to the members, and that it be not of a legislative character. But no motion, the effect of which would be to rescind any previous resolution of the board shall be entertained unless a fortnight's notice shall have been previously given.
7. No motion, having reference to the amendment, repeal, or introduction of a bye-law, shall be entertained unless upon one week's notice in writing given at a previous sitting of the board.
8. No notice of motion entered on the notice paper shall be proceeded with unless by the member who gave such notice, or by some member authorised by him, and no motion shall be entertained until seconded, nor shall any motion be withdrawn unless by the action of the board, and any member about to propose a motion shall read the same before speaking to it.
9. No committee report shall be adopted unless it shall have been brought up and read at a previous sitting of the board.
10. Any proposed bye-law, or amendment of any bye-law, shall be read a first time without discussion. Upon a second reading of such proposed bye-law, or amendment of any bye-law, a discussion may take place, after which the said proposed bye-law, or amendment of any bye-law, may be considered in a committee of the board. But no bye-law, nor any amendment of a bye-law, shall be passed until read a third time.
11. Any one or more of the "standing orders" may be suspended *pro tem.* in case of emergency, by the consent of a majority of the members present exclusive of the chairman.
12. A call of the board for special purposes shall be made by the chairman, on the written requisition of four members of the board.
13. The final decision of the board upon all questions shall be ascertained by the chairman in the following manner, viz.:—Having put the question to the board, the members shall each respectively signify his judgment by the word "aye" or "no." The chairman may afterwards require a show of hands upon any such occasion at his discretion.
14. The clerk of the board shall have charge of the board room, and all books, records, maps, &c., therein; and shall affix in a conspicuous place in the same room copies of such notices as may be given at the board from time to time, and shall also preserve the original notices.

ORDER OF DEBATE.

1. Any member upon proposing a motion or amendment, or discussing any matter, must rise and address the chairman, and no member shall be interrupted unless by a call to order, when he shall resume his seat; the member calling to order shall then be heard, and the question of order decided by the chairman before the subject is resumed or any other business entered upon.
2. If more than one member rise at the same time, the chairman shall decide respecting the pre-audience.
3. No member shall speak twice on the same question unless by way of explanation merely, or in reply, as the mover of an original motion; after such reply the question shall be immediately put to the vote unless an amendment be moved. When however, any amendment has been proposed and seconded it may be discussed, and the question upon it put by the chairman before he shall put the original motion. If no amendment shall be proposed, nor any amendment proposed shall be carried, then the original motion shall be put to the vote.

4. No member shall digress from the subject under discussion, and any member who may impute motives or make use of expressions calculated to offend any other member of the board, shall be required by the chairman to withdraw such expression and apologise to the board.

5. The decision of the chairman shall be final on all questions of "order" or "practice," and he shall state the same without comment or argument.

6. Any member may require the clerk of the board to take down any particular expression immediately upon their being used, and any member may of right demand the production of any of the documents of the board bearing upon the question under consideration.

7. No discussion shall be allowed on any motion for adjournment, and if the question shall be decided in the negative the next motion or order of the day shall be considered before the question for adjournment be again entertained.

8. Any member may record his protest against any decision of the board, provided he notify his intention to that effect on the passing of the resolution against which he protested.

SECTION II.—GENERAL CLAUSES.

1. *Warning before blasting.*—Ten minutes previous to the discharge of any blast of gunpowder, or other explosive substance, within fifty (50) feet from the surface of the ground, due notice of such discharge shall be given by the persons who shall have prepared or caused such explosion to all other persons working, residing, or passing within a distance of one hundred (100) yards from the place of such discharge.

2. *Pegs, posts, and all mining plant and easements protected.*—No person shall remove, injure, destroy, or deface any posts, pegs, logs, fence, notices, or any mining plant of whatsoever description, without permission from the owner of the claim on which they may be situated.

3. *Duplicates of forms, &c.*—For the purposes of this bye-law, all printed forms, schedules, or other documents appertaining to them, shall be issued in duplicate, one copy of which shall be filed in the proper office, and the other retained by the person requiring them.

4. *Making of crossing-places.*—Where any two or more miners are desirous of forming a road or bridge or crossing-place over or across any gully, creek, reef, or claim, they shall be at liberty to do so. Provided, however, that no such road or crossing-place shall be made over or through any mining claim, unless compensation for damage or loss shall be immediately paid or tendered to the owner thereof; and provided further, that such road, bridge, or crossing-place shall be of a breadth, when practicable, of not less than fifteen (15) feet, and be so constructed that no injury shall accrue to any drain, creek, or culvert passing under it.

5. *Protection of private roads.*—No person shall dig within the distance of five (5) feet from the nearest wheel track of any private road used for mining purposes, or drive underneath the same, unless the drive shall be more than ten (10) feet beneath the surface of the road, nor shall any person interfere in any way with any such road.

6. *Work to be done in claim when marked off.*—All claims marked off under this bye-law shall be in full work within forty-eight hours from the time of marking, unless where the contrary is provided in any clause hereinafter following; and any claim not in full work with the number of men defined by this bye-law within such time shall be deemed to be abandoned, and may be awarded by the warden to any other miner.

7. *Preparatory work in claims.*—Any miner employed in making necessary preparation for the working of any claim, or employed in the erection of machinery in connection with the same, shall be deemed as working the claim.

8. *Claims not forfeited by neglect of hired workmen or tributors.*—No miner holding a claim or portion thereof, or share or interest therein, who employs hired labor to work the same, shall be deemed to have forfeited or abandoned his right, title, or interest in the same through any neglect, absence, or omission on the part of any workman thereon employed by him; and further, no claim or portion of a claim shall be declared forfeited or be deemed to be abandoned where the same is *bond fide* worked by the number of miners required by the bye-laws now in force on tribute, that is to say, where a portion of the gross or net proceeds of the claim (as the case may be) is agreed upon to be returned by the tributor or tributors to the owner or owners of the claim by the way of tribute, rent, or royalty.

And the owner or owners of such claim shall be deemed to be working the same in a *bond fide* manner as much as if they employed hired workmen for that purpose, and shall enjoy all the rights, privileges, and exemptions contained in the bye-laws now in force.

Provided always that if after seven (7) days' notice, in writing, of such neglect, absence, or omission being given to such miner, either personally or by leaving the same at his last known place of residence; or in the event of the owner or owners being absent and not to be found, and such notice having been advertised in one or more newspapers circulating in the division in which the claim is situated, such neglect, absence, or omission, if continued, said miner shall be deemed to have abandoned his claim or portion of claim, or share or interest therein, as the case may be.

9. No miner shall forfeit his claim, or share in a claim who may be absent from the same on any general holiday, or through sickness of himself or family, or through attending a court of justice, or a mining board, or being a volunteer and absent in obedience to an order received from his commanding officer.

10. *Lien clause.*—The holder or holders of any registered claim (whether quartz or alluvial), or of any share or interest therein, may grant a lien upon the same to any person or persons as security for the payment of any debt or liability which he or they may have contracted; and upon production to the registrar of the register, or transfer, or certificate, by which the intending lienor holds such share, claim, or interest intended to be made subject to such lien, and of the lienor's miner's right, and upon the execution of a lien ticket by a lienor or lienee, in the form of schedule P, the said registrar shall register the said lien, and after making such registration, he (the registrar) shall issue to the lienee a duplicate of the lien ticket, and shall inscribe on the register, or transfer ticket, or certificate of the lienor, the date and amount of the lien, and name of the lienee. And every such lien so effected shall be a specific charge upon such subject or lien; and when more than one lien shall be effected on the same subject, each lien shall take precedence according to their respective dates.

Provided that the registrar shall cancel any lien on any claim, share, or interest, upon the lienor delivering to said registrar a certificate from the lienee to the effect that such debt or liability for which such lien was granted has been discharged.

Provided also that in the event of such lienor neglecting to discharge such lien at the expiration of fourteen (14) days after the time specified for the discharge of such lien, then shall the subject of such lien become the absolute property of the lienee, who shall be registered as the absolute owner thereof.

11. *Time within which surveys shall be made.*—That upon an application for a survey being made by any miner or miners to an authorised mining surveyor, and upon the requisite fee having been deposited, it shall be the duty of the surveyor to make the same, or cause it to be made, within fourteen days from the date of application.

12. *Auriferous earth, quartz, &c., may be stacked and registered.*—Any person or persons having forfeited or abandoned any quartz or other gold workings shall be at liberty to retain possession of any quartz, stone, cement, tailings, or other substance containing gold (the produce of such workings) that may have been raised at the time of the forfeiture or abandonment, provided such quartz, stone, cement, tailings, or any other substance shall be stacked, and the mining registrar shall, upon application being made to him, register the same, and give a certificate of registration in the form of schedule Q hereunto annexed.

SECTION III.—ALLUVIAL CLAIMS.

1. *Claims to be properly marked.*—All alluvial claims taken up or occupied under this bye-law, shall be marked as follows, that is to say:—In alluvial ground the claim shall be marked by substantial pegs, standing at each corner of the claim, at least one (1) foot above the surface of the ground, and, in addition, an angular trench, at least six (6) inches in depth and three (3) feet in length, to be cut at each corner of the claim.

2. *Prevention of accidents.*—Any miner working in alluvial ground a claim within twenty (20) feet of any public road or ordinary crossing-place, shall enclose any shaft or excavation which he shall make upon such claim by an embankment, or other fence, at least four (4) feet in height, so as to afford thereby a reasonable security against accidents to passengers; and no miner shall, when he abandons his claim, destroy or remove any such fence or embankment, or portion thereof.

3. *Extent of ordinary block claims.*—The extent of ground which miners shall be entitled to mark off and hold as claims shall be as follows, namely:—

	Feet. Feet.	Sq. Feet.
One miner shall be entitled to	35 x 35 or area of	1,225
Two	50 x 50	2,500
Three	60 x 60	3,600
Four	70 x 70	4,900
Five	80 x 80	6,400
Six	85 x 85	7,225
Seven	95 x 95	9,025
Eight	100 x 100	10,000

But whenever the extent of sinking shall exceed fifty (50) feet, the extent of ground for—

	Feet. Feet.	Sq. Feet.
Two men shall be 70 x 70 or an area of	4,900	
Three	85 x 85	7,225
Four	100 x 100	10,000

4. *Form of claim on alluvial ground.*—As far as practicable, all claims shall be marked off in a rectangular form, the length of the same in any case not to exceed twice the breadth.

5. *Size of prospecting claims.*—Prospectors shall be entitled to an extent of claim as specified in the following table:—

FOR DISCOVERING A NEW LEAD.

Exceeding two hundred and fifty (250) yards and less than one (1) mile distant from any established lead	Sixty-five (65) yards by sixty-five (65) yards.
One (1) mile and less than three (3) miles	One hundred (100) yards by one hundred (100) yards.
Three (3) miles and less than five (5) miles	One hundred and fifty (150) yards by one hundred and fifty (150) yards.
Five (5) miles or any greater distance	Two hundred (200) yards by two hundred (200) yards.

Such distance to be reckoned from the nearest point thereto of any abandoned or existing alluvial gold workings.

FOR DISCOVERING A LOST OR ABANDONED LEAD.

In dry sinking { Fifty (50) yards by fifty (50) yards.
In wet sinking { One hundred (100) yards by one hundred (100) yards.

6. *Wall between adjoining claims.*—A wall of two (2) feet in width shall be left between adjoining claims by the miner or miners last marking out.

7. *Sinking ahead on an established lead.*—Any party sinking not less than two hundred and fifty (250) yards distant from the nearest boundary line of any claim bottomed, or at work (at the time of commencing to sink) shall be entitled to a claim—

In dry sinking { Fifty (50) yards by fifty (50) yards.
In wet sinking { One hundred (100) yards by one hundred (100) yards.

8. *Prospectors must register their claims and report the discovery of payable gold.*—Prospectors on discovering payable gold shall within seven (7) days report the same to the registrar of the division or subdivision in which such discovery is made, and register the claim and post a notice outside the registrar's office stating the locality in which such claim is situated. Prospectors not complying with the aforesaid conditions shall only be entitled to an ordinary claim.

9. *Extended claims.*—Where in an alluvial claim the nature of the ground and the proposed mode of working is such that a very expensive race or cutting, or work or timbering, or machinery is necessary, the owner thereof may mark out and occupy as a portion of his claim such additional area of adjacent unoccupied ground as the warden may deem an equivalent for the extra expense: Provided that such extended area shall not in any case exceed ten thousand (10,000) square yards; and immediately after such extension, the owner of said claim shall cause the same to be surveyed by the mining surveyor of the division wherein the same may be situated, who shall connect said claim with some fixed point, and shall deliver to said owner a plan of said claim; and the owner of said claim shall cause a memorial in the form or to the effect set forth in schedule F, to be written, and together with the plan aforesaid, delivered to the mining registrar of the division wherein said claim may be situated, within seven (7) days after said survey.

10. *Claims may be amalgamated.*—The holders of any number of adjoining claims may amalgamate the same by posting, on some conspicuous place near the centre of such claims, a notice in writing containing the number of claims amalgamated and the name of each shareholder, which notice must be kept posted until the claim be abandoned; and such amalgamated claims shall be worked every working day by at least two (2) miners; and further, the working of any one of said amalgamated claims shall be deemed a working of the whole.

11. *Co-operative claims.*—It shall be lawful for any number of owners of adjacent claims to combine together in the use of steam machinery for the working of previously worked alluvial ground, and to hold any quantity of that ground not exceeding twenty (20) acres: Provided, however, that when the horse power of the steam engine or engines used on such claim shall not amount to fifteen (15) horse power, such claim shall not exceed ten (10) acres: Provided also, that any such owners of adjacent claims not employing at least five (5) horse power shall not be entitled to hold more than five (5) acres: And provided that in all such claims at least one (1) man to every acre shall be constantly employed during the ordinary working hours. Provided that in all such cases claims shall be taken possession of only upon being laid out and surveyed by a mining surveyor, and the expenses of such survey shall be defrayed by the applicant.

12. *Creek claims.*—Any miner or party of miners desirous to work the bed of any creek, shall be entitled to mark off and occupy not more than two hundred (200) yards in length of said creek, and for each fifty (50) yards in length of said claim there shall be at least one (1) man kept constantly employed in or in connection with the working of said claim; and if any miner or miners take up a claim to search for gold at a distance of six hundred (600) yards from the nearest boundary of the nearest creek claim on said creek, he or they shall be entitled to mark off and occupy a claim not exceeding three hundred (300) yards, and for each seventy-five (75) yards in length of said claim there shall be at least one man constantly employed at or in connection with the working of said claim. And when any miner or party of miners shall take up a claim to search for gold a distance of one (1) mile from any other claim then being worked, or on any creek whereon no work has been done, he or they shall be entitled to mark off and hold four hundred (400) yards, and for each one hundred (100) yards in length of said claim there shall be at least one (1) man constantly at work on or in connection with the working of said claim, and any such claim shall extend for fifty (50) yards on each side from the centre of the creek at every point; and within seven (7) days of the marking out of any such claim, the owner or owners shall give notice thereof in writing to the mining registrar of the division wherein the same is situated.

13. *Shepherding claims.*—On the day on which any claim shall be taken possession of, not less than one-half the shareholders must remain thereon for two (2) consecutive hours, viz., from nine (9) of the clock a.m. to eleven (11) of the clock a.m.; and on every succeeding day each shareholder in such claim must (except prevented through sickness or any public holiday) be present thereon during the term abovementioned, until work is commenced and continued in a *bona fide* manner. No share or interest in any claim being shepherded shall, under any circumstances, become liable to forfeiture, unless through absence from such claim during the hours specified above. But no person holding a share or interest in a claim under this clause can hold any other share or interest at the same time, unless such share or interest be represented by a miner other than himself, and in all respects in accordance with the provisions of this section.

14. *Alluvial claims (forfeited).*—If any miner or miners neglect to work, or cause to be worked, his or their claim or claims or share or shares in a claim after the shaft thereon has been bottomed, for a longer period than two (2) consecutive working days, his or their share or shares shall be deemed forfeited, unless, in case of dispute, he or they can justify such neglect under any of the provisions of the bye-law regulating alluvial mining.

15. *Exempted alluvial claims.*—The owner of any alluvial claim held under this by-law, and in which a shaft not less than fifty (50) feet deep has been sunk, not being a puddler's claim, shall be exempted from working the same for a period of one month from the date that *bona fide* work ceased: Provided that the owner of such claim post up a notice upon a substantial post upon a conspicuous part of the said claim, stating that the claim is under exemption, and that he shall immediately acquaint the mining registrar of the division of the cessation of work, and the said registrar shall keep a record of the same open to the public: and the said owner shall include in such notice the number and date of such record and exemption.

16. *Special holding in alluvial ground.*—In all ground where the sinking shall exceed eighty (80) feet in depth in dry sinking, or fifty (50) feet in depth, where water renders the working of the ground difficult, or where the sinking shall be through basalt, or where tunnelling under the same shall be necessary, it shall be lawful under this clause for any two or more miners to mark off and occupy for general gold-mining purposes, a claim not exceeding in extent twenty (20) acres.

17. Any claim taken up under the 16th clause of this section shall be deemed to be efficiently worked for the first six months by two men. At the expiration of this time, ten men must be employed on or in connection with the working of the claim.

18. Any miner or miners taking up ground under this section, must mark off the proposed claim in a rectangular form, the length in no case to exceed twice the breadth. Each angle of the claim must be marked by a post 3 inches square; trenches 6 inches deep must be cut at each angle, showing the direction of the boundary lines of the claim, and on each corner post must be posted a notice in the form of schedule I; such notice must also be posted at the warden's office, and at the office of the mining registrar. The aforesaid notices must be kept upon the posts of the proposed claim for 14 days, at the expiration of which time the applicant must apply to the registrar and surveyor to have the claim registered and surveyed.

SECTION IV.—FRONTAGE SYSTEM.

1. *Declaration of frontage leads.*—It shall be competent for the mining registrar, on the application of twenty miners working or desirous of working on any ground where a lead is known to exist, to proceed to the said ground seven days after receiving such application, hear all the evidence that may be offered, and on his finding that the majority of miners working or desirous of working on said ground are in favor of such application, to declare the same under the frontage system, provided that a copy of such application shall have been posted four days in some conspicuous part of such ground prior to the mining registrar proceeding to the said ground.

2. After the declaration of any frontage lead, claims shall be laid off or caused to be laid off by the mining registrar; and the mining registrar may then, and at any time thereafter, receive applications for claims or shares on such lead, and every such application shall be registered in a book to be kept for that purpose under the date and hour upon which such applications are made. The claims shall be marked consecutively, and priority of right to any claim, or share in any claim, shall be according to the priority of registration; and the registrar shall at the time of registration issue to each person registered a register ticket in the form specified in schedule II annexed hereunto.

3. The extent of ground for every four miners shall be one hundred feet along the course or supposed course of the lead, with a width of eight hundred yards, until the lead is defined, as provided for in clause 10 of this section, when the width shall be reduced to two hundred feet, and the remainder of the ground shall then be open for occupation in block claims.

4. Within four days after the necessary number of shares have been registered for any claim within eight claims from the last payable shaft, the owners of the same shall commence to sink their shaft, and continue to do so all and every lawful day; and when such parties shall strike water they shall (if necessary) sink their shaft, and continue to do so all and every day and night until their well is complete, after which they shall continue to bail the water (if necessary) day and night until the claim is abandoned, except in cases of erection or breakage of machinery, such machinery or breakage, as the case may be, to be erected and repaired without delay; and it shall be competent for not less than half the number of claimholders in such lead to fix the minimum capacity of the bucket used for such water bailing; the non-compliance with this section shall be deemed a forfeiture of the claim or share therein.

5. Any number of claims not exceeding eight may amalgamate for the purpose of erecting machinery; and the labor of erecting such machinery upon any one of these amalgamated claims, or the working of any one or more of such claims with good and efficient machinery, shall be deemed a *bona fide* working of the whole of them, provided that when gold is found, and while payable gold is being got, a number of miners equivalent to what would have been required to work the claims individually be employed in or on any one or more of such claims or about such machinery.

6. All registered claimholders, except those that are compelled to sink under any of the clauses of this section, shall be and appear on the ground during the whole of the time from the hour of Eleven to Twelve in the forenoon of every Monday and Thursday, for the purpose of holding their claims; and any claimholder absenting himself shall be deemed to have abandoned his share in the claim, and such share shall be open to occupation on application by any other miner.

7. A junction of two or more leads shall be considered to have taken place when such leads shall have joined and formed one lead; and the point of junction shall be deemed to be the point at which two lines drawn along the centres of such leads towards their confluence or junction, and produced, shall intersect each other, such centres being understood to mean the respective centres of those portions of the confluent leads

which, after the last bends in such leads respectively, prior to their confluence, flow towards each other.

8. When a junction of leads shall have been discovered to exist, the holders of claims, in respect of which registration shall have been first effected, shall be entitled to hold the claims for which they have been so registered, as against the holders of claims in respect of which registration shall have been subsequently effected, notwithstanding that all such claimholders may have been finally registered for the same ground as having been supposed to be on different leads; such priority to be determined by reference to the first or original registration, and not to be effected by any subsequent transfer of any share or interest in such first-mentioned claim.

9. When two leads converge and are discovered to be distant from each other three hundred feet or less, the registrar shall stay final but not conditional registration until the actual point of junction (if any) shall have been discovered, when the persons conditionally registered shall be dealt with as provided in the 6th clause of this section, or until it shall have been ascertained that such leads diverge from each other in courses sufficient in extent to allow spaces for claims thereon beyond the points at which final registration has been discontinued as aforesaid, or until it shall appear to the registrar that no junction in fact exists, when final registration shall be resumed; and no person shall be permitted to commence mining operations on any ground in respect of which final registration shall have been so stayed until such registration is resumed as aforesaid, when the persons conditionally registered shall be entitled to final registration according to the priority of their conditional registration.

10. When the lead shall have been discovered in any frontage claim the owner thereof shall, with the least possible delay, construct or cause to be constructed a main drive into, and thence along the course of such lead throughout such claim; and the centre of the main drive so constructed shall, for the purpose of fixing the lateral boundaries and marking the course of the lead on the surface, be considered the central line of the lead; and the owners of the claim shall define such central line (so far as the same may from time to time be traced or determined by the workings of the claim) on the surface by pegs firmly fixed in the ground, and projecting three feet at least above the surface, and distant not more than fifty feet from each other; and such pegs shall not be varied or altered at any time.

11. In cases where the lead or gutter changes its course from the original supposed one, the position of the claim shall be changed accordingly by the mining registrar, taking precedence as before according to their numbers.

12. Any party of miners (not less than four) desirous of prospecting for a new lead, or for a continuation of the lead being worked, under the frontage system, at a distance of upwards of half a mile from the last payable shaft, shall be entitled to a double claim in length with the usual frontage, but their title to such claims shall only be valid so long as they continue to work such claims according to the conditions laid down in No. 4 clause of this section, and the non fulfilment of such conditions on any such claim shall be deemed an abandonment of the same.

13. *Deputy registrar.*—It shall be lawful for a registrar to appoint any fit and proper person to act as the deputy of such registrar, or as his assistant, in the discharge and performance of the duties of his office, and to effect all such registration as but for this clause should have been effected by the registrar himself, and in the name of the registrar to sign the same and all such other documents as require the registrar's signature, and generally to do and perform all and every such other act and deed as pertain to and constitute the duties of such registrar; and it shall be lawful for such registrar to remove such deputy or assistant at his pleasure, the appointment or dismissal of such deputy or assistant to be registered by the clerk of the mining board; and no deputy or assistant shall have the power to perform any act under this section until the name shall have been registered as aforesaid, and any registrar appointing such deputy or assistant shall be responsible for all and every the act and proceedings of such deputy or assistant under this section; and all acts done by such deputy or assistant in relation to the office of registrar shall be as valid and effectual as if done by the registrar himself: Provided always, that no neglect or default of any registrar, or his deputy, or assistant, shall in any way prejudice the right or title of any person to any interest, matter or thing, in respect of which such registrar shall have any duty to perform under this section.

14. *Transfer of shares by companies.*—It shall be lawful for any mining company holding a registered claim to effect and register transfers of shares or interests therein from the holder or holders thereof to any person or persons, or to effect the registration of any lien granted, or any share or interest therein, by the holder or holders thereof, to any other person or persons, subject to the restrictions and conditions hereinafter prescribed that is to say—Every mining company taking advantage of this section, previous to effecting any transfer of any share or interest, or effecting the registration of any lien upon any share or interest therein, shall deliver to the mining registrar of the division in which such company's claim is situated a notice in writing, which notice the said mining registrar shall retain and file, intimating the intention of the said company to effect transfers of shares or interest and to effect registration of liens upon shares or interest in such company's claim as aforesaid; and the said notice shall set forth the name or names of one or more person or persons who shall therein be nominated, appointed, and empowered to act as the agent or agents of the said company in effecting and registering transfers, and in effecting registration of liens as aforesaid, subject to the provisions of this section, on such company's behalf; and such notice shall be signed by a majority of the shareholders in the said company, and shall be generally in the form set forth in schedule V hereunto appended; and the person or persons who have been duly nominated, appointed, and empowered as aforesaid, upon the

production to him or them of the register or transfer ticket or certificate by virtue of which the intending transferor holds the share or interest intended to be transferred, provided the act to be performed be the transfer of a share or interest in such company's claim, and of the miner's right of the intending transferee, and upon the request, either orally or in writing, of such transferor or transferee, shall, during proper and reasonable hours, effect in triplicate a transfer of said share or interest, in the form contained in schedule V hereunto appended, which triplicate form of transfer shall be signed by the transferor and transferee in the presence of the person or persons duly authorised as aforesaid, and shall be attested by said persons or persons in the form contained in said schedule V, and the said duly authorised person or persons shall register the transferee for the share or interest so transferred in the form contained in schedule T hereunto appended, under the date and hour on which the transfer was effected, and shall issue to the transferee two of the forms of transfer so effected, in triplicate, to be disposed of as hereinafter directed; and in case the transferor shall have transferred only a portion of the interest held by him in said company's claim, shall also issue to said transferor a certificate in the form contained in schedule X hereunto appended showing the amount of interest retained by said transferor; and the transferor and transferee shall, within forty-eight hours next after the date of the transfer aforesaid, deliver to the mining registrar the register or transfer ticket, or certificate by virtue of which the transferor held the interest transferred previous to transfer, and the certificate (if any) of the interest retained by said transferor, and the two triplicate forms of transfer held by the transferee; and on production of the said tickets or certificates and of the triplicate or transfer aforesaid, provided the same shall have been duly signed and attested as prescribed, the registrar shall forthwith register the transferee in his books for the share or interest transferred, as from the date of the transfer set forth on the triplicate forms of the transfer aforesaid; and the registrar shall retain and file one of the said triplicate forms of transfer so delivered to him, and shall also retain and file any certificate or ticket by which such share or interest may have been held previous to transfer, and shall endorse with the signatures and the date and hour of its delivery to him the remaining triplicate of transfer and thereupon return the same to the transferee, and shall in like manner endorse the certificate, if any, of the interest retained by the transferor, and return the same to the said transferor; and in case of the act to be performed shall be the registration of a lien, as hereinbefore mentioned, the person or persons duly authorised as aforesaid, upon the production to him or them of the register or transfer ticket, or certificate by virtue of which the intending lienor holds the share or interest intended to be made the subject of a lien, and of the miner's right of the intending lienee, and upon the execution of a lien ticket by the lienor or lienee, in the form prescribed in schedule P hereunto appended, duly attested by the person or persons authorised as aforesaid, shall register the said lienee for a lien upon said share, in the form prescribed in schedule T hereunto appended; and the lien ticket as aforesaid shall be executed in duplicate, and shall be disposed of as herein directed; and the person or persons duly authorised as aforesaid shall inscribe on the register or transfer ticket, or certificate produced by the lienor, the amount and date of the lien and the name of the lienee, and shall attest the same by his or their signatures, and return it to the lienor; and the lienor and lienee shall within forty-eight hours next after the date of such registration, deliver to the mining registrar the register or transfer ticket or certificate by virtue of which the lienor holds the share or interest which has been so made the subject of a lien, and the duplicate lien ticket held by the lienee; and on production of the said tickets or certificates, and of the said duplicate lien tickets, provided the same shall have been properly prepared and attested, the registrar shall forthwith register the lienee in his books for a lien upon the aforesaid share or interest as from the date set forth in the duplicate lien tickets produced by the lienee; and the registrar shall retain and file one of the duplicate tickets so produced, and the remaining duplicate ticket he shall endorse in the manner hereinbefore mentioned, and return the same to the lienee; and all transfers of shares or interests effected and registered in the manner herein specified, and all registrations of liens effected in the manner herein specified, shall be deemed to be good and efficient evidence that the said shares or interests have been duly transferred, or that the said liens have been duly registered as the case may be; and the persons whose names are set forth as transferees or lienees on the aforesaid transfer or lien tickets respectively, shall be deemed to be the lawful owners of the shares or interests set forth therein; and no transfer of shares or interests, or registration of liens effected by any mining company, or any agent or agents empowered to act on their behalf, shall be deemed to be legally effected, or be binding on such company or any other person, unless the provisions of this clause shall have been complied with.

15. *Shares transferable.*—In cases where companies do not effect their own transfers and registrations, as provided in clause 14 of this section, it shall be lawful for the registered owner or owners of any claim or share, or part thereof, or interest therein, and for the registered holder of any lien thereon, to transfer the same; and the registrar, on the production to him of the miner's right or miners' rights, registration, transfer, or lien tickets, by virtue of which the transferor or transferors, holds or hold the interest so transferred, shall forthwith register such transfer, and such registration shall be in the form in schedule T hereunto appended; and the transfer ticket shall be signed by the parties thereto, and shall be attested by the registrar or his deputy, who shall thereupon deliver a transfer ticket, in the form set forth in schedule X hereunto appended, to the transferee or transferees; and the registrar shall retain and file the original or last registration or transfer ticket relating to the interest transferred. And in case the person making the

transfer shall retain any interest in the claim, share, or lien, in relation to which the transfer shall have been effected, the registrar shall issue to him a certificate, in the form contained in schedule X hereunto appended, showing the amount of interest held or retained by the transferor.

16. *Possession of and registration for abandoned claims.*—When any person shall have been put in possession of any abandoned share, the registrar, upon delivery to him by the person to whom the possession has been given of a certified copy of the warden's order in such case, which order the registrar shall retain and file, and upon the production to him of the miner's right of said person, and upon the application by said person to be registered for said share, shall forthwith register such person from the date of the warden's order aforesaid, for the whole of the interest held by the persons incurring the forfeiture at the time of said forfeiture, in the forms set forth respectively in schedules T and W hereunto appended, and shall issue to the said person a certificate, in the form contained in schedule W hereunto appended: Provided always that nothing in this section contained shall be deemed to exonerate or release any person, whose claim, share, or interest shall have been forfeited in accordance with the provisions of this section, from any liability in respect of said claim, share, or interest, to which he may have been legally subject at the time of such abandonment or forfeiture.

17. *Liability of holders of shares worked by contract, &c.*—Persons holding shares or portions of shares in claims which are being worked by contract or hired labor, or by a smaller number of men than are registered for the same, shall be deemed to be working shareholders; and non-payment of calls made for the purpose of defraying the expenses of working the claim, and payable by such persons, shall be deemed to be neglect of work, within the meaning of this section; and the share or shares, or portions thereof, of persons neglecting to pay any calls payable in respect of the same, within twenty-one days after such call shall have become due, shall, in the absence of some rules made by the company or party holding such claim providing otherwise, be deemed to be abandoned, and shall be forfeited, and may be taken possession of (subject to such calls) by any other person, as provided in clause 16 of this section: Provided nevertheless that no forfeiture shall be incurred under this clause for non-payment of any calls unless notice in writing of such call shall have been served on the person whose interest is intended to be forfeited seven days at least before the expiration of the aforesaid period of twenty-one days: Provided also that in case the person liable to pay such call cannot after reasonable inquiry be found, it shall be sufficient to post such notice on the claim in which such share or interest is held, and also at the office of the registrar of the division in which such claim is situated, and such posting shall be deemed a service of such notice on the defaulting shareholder.

18. *Abandonment of shares.*—Any person holding a share or shares in a registered claim may abandon the same, provided that previous to such abandonment the said shareholder shall give to his partner or partners, and also to the registrar a notice in writing to that effect, and shall publish four days consecutively a copy of said notice in a daily newspaper circulating in the division in which such claim is situated; and the registrar, after having been satisfied that notice has been given in each of the ways aforesaid, shall forthwith cancel the registration by which such share has been held; and the shareholder shall thereupon be released from all further liability in respect of such share: Provided always that nothing herein contained shall be deemed or taken to interfere with, set aside, or cancel any debt, agreement, engagement, or contract, which may at the date of such abandonment exist between said shareholder and his co-partner or co-partners.

19. This section shall only be applicable to alluvial leads where the sinking is not less than seventy feet.

SECTION V.—QUARTZ WORKING.

1. *Marking of quartz claims.*—All quartz claims shall be marked by substantial posts at least three (3) inches in thickness, and standing three (3) feet above the surface, and in addition an angular trench at least six (6) inches in depth and three (3) feet in length, to be cut at each corner of the claim; and all such posts and trenches shall be maintained free from any rubbish or soil so as to be readily observed.

2. *Walls.*—No wall shall be allowed between any two claims, but if a wall shall be necessary it shall be lawful for the warden of the division to prescribe, and from time to time to vary, the extent and thickness of any wall which may be necessary, and excise the same in equal proportions from the claims of the several parties who may be benefited by such wall being allowed. And no person shall mine into, remove, or damage any wall which shall have been left by agreement between the parties, or which may have been prescribed as aforesaid to be left, unless by permission of said warden.

3. *Extent of claim.*—Any one or more miners shall be entitled to hold more than one claim on any line of reef, but such claim shall not exceed eighty (80) yards in length, by a width at right angles to the supposed line of reef of one hundred and fifty (150) yards, and all the quartz or other auriferous rock lying within or beneath the boundaries of any such claim, shall be the property of the owners or holders thereof: Provided the right to any such claim shall not be taken to include a right to any alluvial deposits that may exist within the boundaries of the same, except as hereinafter provided: Provided further that not less than two (2) miners or workmen shall be kept regularly employed upon or at work in connection with each such claim.

4. *Prospecting.*—When any miner may be desirous of searching for any new lode or vein of quartz, or the continuation of any discovered vein, he shall be entitled to mark off and occupy a claim one hundred and fifty (150) yards in length on the supposed line of reef, by a width at right angles to said line of one hundred and fifty (150) yards: Provided the end boundary of such claim be not within the distance of four hundred (400) yards from the nearest end boundary of any claim

occupied, unless the same be situated on a parallel line of reef: Provided further that any claim taken up under this clause shall be worked in a *bona fide* manner during the ordinary hours of labor, for a period of six (6) months, or in default the extent of said claim beyond an ordinary claim shall be deemed to be abandoned: Provided also that the occupant of any such increased claim shall, within seven days after the marking thereof, report the particulars to the mining registrar of the division or sub-division wherein the said claim is situated: Provided also that within seven days after the discovery of any payable auriferous lode or vein of quartz, the owner or occupier of said claim shall give notice of such discovery to such mining registrar aforesaid, and any miner neglecting to give such notice, shall forfeit his right to such extended claim. And further, on the discovery of any such payable reef as aforesaid, the said occupant shall defray the expenses of surveying the same, with the view of laying down the definite bearing of the said reef.

5. *Temporary amalgamation of quartz claims.*—It shall be lawful for the owners of any number of adjoining claims on the same line of reef, the length of which said claims taken together shall not exceed two hundred and forty (240) yards, to amalgamate such claims temporarily for the purpose of mining in search of any lode or supposed lode, at their joint expense and under their joint management, until the discovery of a payable auriferous lode shall be effected; and under the aforesaid circumstances and until such discovery, the *bona fide* working of any one of such amalgamated claims shall be deemed a legal working of the whole of them. And it shall be lawful for any owner of a claim to hold the same unworked if he shall pay in to the miners nearest (at the time of such arrangement), and mining in search upon the same line or supposed line, a weekly money contribution or an equivalent. But the owner of any claim or claims amalgamated or contributed for and so held unworked shall be bound to work the same in a *bona fide* manner within one month from the day upon which such mining in ceased to be carried on in a *bona fide* manner: Provided that the hereinbefore named contribution money shall be deemed to be only an advance, and the same, or a just proportion of the same, shall be returnable should payable quartz be struck; and that the owner of the claim whereupon is the prospecting shaft shall make use of said shaft as a working shaft, but not otherwise. And the proprietors of any shaft upon such amalgamated claims, or the owners of any prospecting shaft receiving any such contribution, shall post up on each shaft, and at all times maintain, a ticket containing a list legibly written of the number of such claims amalgamated or paying in the length of each claim respectively, and the name of the owners thereof. And the miners working at any such shaft shall, in addition, at all times give such information respecting any contributing claim as shall be required of them by any authorized miner; and the owner of the claim to which contributions are paid, or in which the work is carried on, shall immediately after such amalgamation lodge with the registrar of the division wherein the said amalgamated claims are situated a memorial in the form of schedule B hereunto annexed: Provided however that it shall not be lawful for any claimholder to let his claim stand unworked under this clause so as in any manner to interfere with any bye-law enacted by the Mining Board for the drainage of wet reefs.

6. *Special holdings.*—For the better and more economical working of quartz, it shall be lawful for any miner or miners to take up a quartz claim on any line of reef exceeding eighty (80) yards, and not exceeding three hundred and twenty (320) yards in length by a width of one hundred and fifty yards, subject to the following special conditions: That the owners of any such claim shall, within forty-eight (48) hours after marking off, commence to work the claim in a *bona fide* manner, and shall for the first six (6) months thereafter keep continuously employed thereon every lawful day not less than four (4) men, and for the next six (6) months and as long as they continue to hold it, not less than eight (8) men: Provided that the owner of any such claim shall be entitled to exemption from the aforesaid labor basis for one (1) month for each six (6) months' labor continuously done, such exemption to be recorded in the same manner as is provided for other quartz claims in clause 7 of this section.

7. *Exemption of quartz claims.*—The owner of any quartz claim in which three (3) months' *bona fide* work or upwards has been done, shall be entitled to be exempted from working the same for a period of three (3) months from the date on which such *bona fide* work ceased; and the owner of any claim which has been in *bona fide* work for any period less than three (3) months and not less than one (1) month, shall be entitled to similar exemption for a length of time equal to that during which his claim was in work: Provided that the said owner shall within three (3) days of the commencement of such period of exemption, lodge with the registrar of the division wherein the claim is situated an application in the form contained in the schedule C hereunto annexed, and headed "Exemption Certificate," and the registrar shall thereupon issue to the aforesaid owner a duplicate of certificate. And further, it shall be lawful for any such owner as aforesaid, at the termination of the time named in his exemption certificate, to make application to the warden to have the time extended for a further period equal to that originally given in any such certificate: and the warden may, at his discretion, authorize the registrar to issue to aforesaid owner a certificate in the form of schedule K hereunto annexed, and headed "Extended Exemption Certificate," but previous to such authority being given, or any such extended certificate being issued, the aforesaid owner shall serve or cause to be served on the owners of the two (2) quartz claims on the same line nearest to his own a printed notice of application for extended exemption, according to the form contained in schedule L annexed; and should there be only one claim as aforesaid in occupation, or should the owners of any of the two nearest be absent and not to be found, then the service of the notice upon the owners of the next nearest claims on the same or any other

line, or should there be only one quartz claim in occupation within one quarter of a mile from the claim for which exemption is sought, service of notice upon the owners of such claims as are occupied, and in default of a sufficient number then upon the miners residing nearest to such claim as aforesaid shall be sufficient; and the aforesaid owner shall, if required by any person on whom such notice is served, go and point out to him the exact boundaries of the claim for which such exemption is sought; and every person upon whom such notice is served, in accordance with this bye-law shall insert in writing on the back thereof and in the manner therein prescribed, the date on which it was served on him and his approval or disapproval of such extended exemption being granted; and until the expiration of three (3) clear days from the day on which the notice was served on the miners adjoining, during which period any miner whatever may enter his objection to the issue of the certificate, and until all and every such objection has been heard and over-ruled by any warden or warden and assessors, no extended exemption certificate shall be granted to such owner; and such owner shall also truly answer all such questions as are prescribed on the face of the certificate of exemption and sign the same; and whenever any miner has obtained any certificate as aforesaid he shall, for the information of all other persons, securely fix and at all times maintain, somewhere within the boundaries of the claim for which exemption has been given, a piece of board at all times visible, with the letter E, if exemption only, and the letters EE, if extended exemption, and the number and date of the certificate, legibly painted thereon: Provided that any certificate as aforesaid shall not exempt the owner thereof from any liability to pay drainage assessment under any of the bye-laws of this board: Provided also that if it shall be proved to the satisfaction of the warden that an exemption certificate or an extended exemption certificate has been obtained upon false representations, such certificate shall be cancelled, and the claim so falsely represented, forfeited.

8. *Forfeiture of claims.*—No claim shall be declared forfeited by any holder of a miner's right on the ground that such claims were not properly marked, or for any act or omission for which a penalty is provided; but on application being made by any miner to have the right, title, or interest of any other miner to or in a quartz claim forfeited, on the ground that the same has not been fairly worked during the time of occupancy, or that the same has been left unworked for a longer period than ninety-six (96) consecutive hours; or that less than the minimum number of men required by this section have been employed thereon. And in the event of the same being declared forfeited, the applicant shall then be entitled to full possession: Provided that when a claim is declared forfeited it shall be lawful to have any road, shaft, drives, timber, mining plant, or other materials, absolutely beneficial to the applicant valued by a mining surveyor; and that the amount of said valuation (if any) together with the cost of estimating such value shall within forty-eight (48) hours be paid to the original owner; and such payment shall be a condition precedent to putting the applicant in possession of such claim.

9. *Claims may be declared abandoned.*—Any quartz claim unworked for three (3) calendar months from the date on which *bona fide* work ceased in such claim, or from the date of expiration of period of exemption, shall be deemed to be abandoned, and any duly authorized miner may make application to have the said claim declared abandoned, and on such declaration of abandonment being made, may take possession thereof without being called upon to pay any compensation or to give any notice whatever to previous owner.

10. *Amalgamated claims, or when manual labor is found to be inadequate.*—It shall be lawful for the owners of any number of adjacent quartz claims which cannot be worked by manual labor, and the length of which in the aggregate shall not exceed three hundred and twenty (320) yards, and have been worked two hundred and twenty (220) feet below the surface, or to the original water level, to amalgamate their claims into one area, which shall be called a working area, so that such amalgamated claims may be worked from one main shaft and drives, and the working of any one of such amalgamated claims shall be considered equivalent to working the whole of said claims. Provided always that there shall be one miner employed to every eighty (80) lineal yards contained within such area as hereinbefore mentioned. Provided also that said miners are employed for the benefit of all the claims within the said area; such an amalgamation as aforesaid shall not in any way invalidate or interfere with any right, title, or interest of any claimholders or part claimholders that may have existed prior to its formation, unless by special agreement. But no working area shall be considered legally formed until a survey and plan have been made showing the boundaries of all the claims proposed to be amalgamated within said area. And further, the holders of any claim may withdraw the same from any working area three (3) months after they have given to the mining registrar and to the manager of the area notice of their intention so to do. Provided that the said claimholders have paid their share of all the expenses incurred, and of all the expenses they have agreed to incur by the execution of any work that they have consented to have done for the benefit of the whole of the said area; but the withdrawal of any claim from any working area shall not deprive the owners of the claims which have not been withdrawn from the free use of any shafts or drives in the said withdrawn claims that may have been made at the joint expense of the claimholders within the said area.

The plans of all working areas shall be left in charge of the mining registrar of the division, who shall certify the withdrawal of any claim by writing across the face of said claim as shown on said deposited plan.

11. *Claims to be registered.*—Every owner or part owner of a claim held by "miner's right" shall, within seven (7) days after first becoming possessed of the same, cause his or their interest in the claim to be registered in a book to be kept for that pur-

pose by the mining registrar, and no miner shall be deemed to be legally in possession of any quartz claim, or share in any such claim, until such claim or share as aforesaid has been so registered; and no transfer made of any quartz claim or share in such claim by transferors, though in legal possession, shall be deemed a legal transfer unless such transfer has been duly registered by the registrar of the division in which the claim sought to be transferred is situated; and when any quartz claim or share in any such claim has been transferred, and the transfer duly registered, the registrar shall certify the same by signing his name across the face of the transfer ticket, and affixing the day and date. All quartz claims to be numbered consecutively as they are registered, and the registrar shall issue to each applicant for registration a certificate in the form set forth in schedule A annexed, and shall keep a duplicate copy of the same. This clause shall not apply to any alluvial claims whatever, nor to quartz claims situated ten (10) miles or more from the nearest mining registrar's office. Provided always the owners of any quartz claim situated a further distance off may avail themselves of said clause should they deem it advisable.

12. *Re-survey not required.*—When any miner has been put in possession by the warden of an abandoned or forfeited claim, which has been previously surveyed at the instance of former owners, it shall not be necessary to have a re-survey; but such miner can, by applying to the registrar, obtain a tracing or duplicate to be taken from the office plan, showing the claim as held by previous owner, and such claim with such boundaries as are herein set forth shall be deemed the boundaries of the claim held by the new owner, the same as if the survey had been made at his request.

13. *For defining and fixing the boundaries of quartz claims.*—The owners of any quartz claims other than prospecting claims shall, for the better identification of their respective claims, cause the same to be surveyed by the mining surveyor, who shall make a plan of the same, showing the area and boundaries, and shall connect each claim with one fixed point; and the said surveyor shall issue to the owner, whose claim he has surveyed, a sketch or duplicate of the plans made. And such mining surveyor shall make, and always maintain at the registrar's office, a plan of each line of reef within his division, or within such portion of a division as may be allotted to him, on a scale not more than twenty (20) yards to the inch; and such plans shall be called office plans, and shall be kept in conspicuous places in the registrar's office, and shall at all times be accessible for inspection by the public; and in the event of no objection being raised by any miner, the said surveyor shall enter such survey in the office plan to which it respectively belongs, within fourteen (14) days after such survey has been made. And further, the said surveyor shall, at the time of making such surveys as aforesaid, afford every facility for adjoining claimholders to ascertain whether any encroachment is being made; and any miner deeming that an encroachment has been made, may lodge an objection against the survey, and shall lodge a copy of such objection with the registrar of the division; but no such objection shall hold good unless made within fourteen (14) days after the survey has been made. And no survey objected to shall be entered on the office plan until all objections made have been heard and set aside; and the fact of any such claim surveyed as aforesaid being entered on any such office plan shall be deemed good and conclusive evidence that such claim, with such boundaries as are therein set forth, was at the time of survey legally in possession of the aforesaid owner, unless direct evidence can be brought showing that mistakes have occurred. And in the event of any such owner being desirous of having his boundaries altered, he may mark off the claim temporarily in such altered form as he may require, and shall, within three (3) days thereafter lodge with the registrar an application for a re-survey, signed by a majority of his partners; and when such re-survey shall have been made and the alterations entered on the office plan as aforesaid, the boundaries shown in such survey shall be deemed the boundaries of such claim, whether all the partners have assented to such alteration being made or not.

14. *Shafts shall be made safe for the public.*—Any miner who may sink a shaft or make an excavation upon his claim, in search of auriferous quartz, within twenty (20) feet of any public road or ordinary crossing-place, shall substantially fence or ombank in such shaft or excavation to the height of at least four (4) feet, and maintain the same during the occupancy of such claim.

SECTION VI.—PUDDLING AND CEMENT CRUSHING.

1. *Machines not to be placed on workable ground.*—No race, dam, dam-bank, machine, roadway, water-hole, or water, shall be made, placed, formed, or collected upon auriferous ground, nor in such a position as to prevent or hinder any miner from taking out auriferous earth, quartz, or other substance; and the owner of any such race, dam, dam-bank, machine, water-hole, or water so situated, shall be compelled to remove the same: Provided always, that no such owner shall be compelled to remove the same until compensation for such removal shall have been paid or tendered to him by the miner or miners seeking to enforce such removal, and the amount of compensation to be determined by the warden.

2. *Dams, machines, &c., authorised.*—Any miner about to form a dam, well, or water-hole, or to erect a puddling machine, shall first obtain the authority of a warden: Provided that the said miner shall first personally serve upon the owners of two machines or registered dams nearest to the sites applied for, or upon the person in charge of such machines, a written notice of such application in the form prescribed in schedule G annexed, provided such machines are not over half a mile distant from the site so applied for. And the applicant shall, if required by any person upon whom such notice is served, go to and point out to such person the exact site for which application has been made; and any person to whom such application is tendered, if tendered in accordance with this bye-law, shall insert in writing on the back of said notice, and in the manner therein prescribed,

the date on which it was served upon him, and his approval or disapproval of the grant of such authority as aforesaid to the applicant; until the expiration of three (3) clear days from the day on which the service of the notice was completed, and until such objection (if any) has been heard and overruled, such authority shall not be granted to the applicant to make, nor shall he make or commence to make any dam, well, or water-hole, or erect any machine as aforesaid in that place.

3. *Sites of dams, &c., to be surveyed.*—No person shall obtain the grant of a site for a puddling mill-dam or easements therewith save upon the survey and report made by a mining surveyor, and the said surveyor shall see that a notice has been received by at least two (2) owners of mills or registered dams in accordance with clause 2 of this section before making the survey, and shall give a copy of his report and plans of said site to the applicant; and also the said surveyor shall, on making such plan, connect the site of the proposed mill or dam, &c., with some point so as to secure its identity.

4. *Claims when exempted.*—When any miner is engaged in the erection of steam or horse machinery for puddling, or crushing cement, it shall be competent for him to mark off the claim which he proposes to occupy in connection with such machinery, and said claim shall be deemed his claim to occupy in connection with such machinery, but he shall duly work the same within two (2) months after the so marking it off; and when any miner, notwithstanding proper precautions on his part, shall be, through the want of water, unable to work his claim, he shall not forfeit the same nor any portion thereof on that account. And this clause further provides, that it shall be competent for any miner, upon posting a notice to the effect upon a conspicuous part of his claim, and also upon giving notice to the registrar of the division, to obtain three (3) months' exemption in any one year, provided three (3) months' *bond fide* work shall have been done upon the claim immediately preceding the application for such exemption, such application to be made in accordance with schedule H annexed to this bye-law.

5. *Changing a road.*—If any miner be desirous to change the direction of any private road, he shall, for a period of seven (7) days previous to such change, affix a notice of such desire in a conspicuous place in such road.

6. *Machines, &c., not to be too close to roads.*—No puddling or crushing machine of any description shall be placed within the distance of fifteen (15) feet from the edge of any road or crossing place in use.

7. *Sludge and water to be kept off roads.*—No person shall allow any water or sludge flowing from his mill, dam, or machine, to run or spread over any road, footpath, or crossing place in common use, unless the same shall be in an authorised drain.

8. *Dams, &c., to be properly made.*—When any person shall receive authority under this section to make any water-hole or dam, he shall excavate the earth to the depth of twelve (12) feet, unless the bed rock lies nearer to the surface, in which latter case the said dam or water-hole shall be excavated to the rock.

9. *Dams not to be made near reefs.*—No water-hole, race, or dam shall be made by any miner within the distance of twenty (20) yards from the line of any quartz workings; and the removal or alteration of any race, water-hole, or dam respectively, which is proved to discharge water into any underground workings, may be made on payment of such sum of money as may be deemed equitable to be paid by the person benefited to the owner of the said water-hole or dam; and any such removal or alteration of any such race or dam shall be effected in such manner as may be directed by the warden of the district.

10. *Water not to be taken from dams.*—No person shall, without the consent of the owner thereof, take away or make use of any water which may be in any duly authorised water-hole or dam, nor shall any person drive or allow his or their cattle into any such hole or dam, but any person may carry water therefrom for domestic purposes only: Provided however, that it shall be lawful for any person to take water from any dam or water-hole when such dam or water-hole shall have been (under the provisions of this section) unused for the purposes intended for a period of three (3) months.

11. *Forfeiture of puddling dams, &c., by neglect to use them.*—The owner of any dam, well, water-hole or site of machine neglecting or discontinuing the use of the same in connection with his own mining operations for a period of six (6) months, except in the case of want of water, shall thereby forfeit all right, title, and interest therein.

12. *Puddlers or others not to pump water from other miners.*—No puddler or other person shall pump, take away, or damage any water which may be in any unregistered water-hole or excavation of any kind, if any other miner shall be at work at such water-hole or excavation, and require the water for puddling purposes, unless such puddler or other person shall have previously obtained the consent of such miner or other competent authority.

13. *Machines, &c., obstructing creeks.*—It shall not be lawful for any person to hold or place any machine, dam, water-hole, bank, washing-stuff, or building of any kind, so as to impede the passage of water or sludge in any channel or creek within the district in which mining operations are carried on, or within the distance of fifteen (15) feet from the edge of any channel or creek as aforesaid.

14. *Drains for machines, &c., to be made.*—The owner or occupier of any machine or claim which discharges sludge or water shall, if necessary, under the direction and subject to the approval of the superintendent of drains for the time being, make for the proper conveyance of such sludge or water to the main drain of the gully or flat in which such machine is situated, a good and sufficient drain; and every such private drain shall be excavated and made as nearly as possible to the same depth as that of the main drain into which it shall discharge and join; and when in any branch gully there shall be no proper main drain, then such private drain shall, subject and under like direction, be made and united in the manner most convenient to the private drain of any other machines in the same gully, and the owner of

such private drain shall, at all times, maintain the same in good order and free from obstruction.

15. *Making drains across roads, &c.*—Any person who may enjoy the use of any drain crossing any road or footpath, or who may be desirous to make any drain of any kind across any road or footpath, shall make or hold such drain only upon obtaining permission from the owner of said road or footpath, or other competent authority; and such drains, and the bridges in connection therewith, shall be constructed and kept in repair by the owner of such drains.

16. *Protection of sludge or water drains and reservoirs.*—No person shall in any way whatsoever interfere with any private or public sludge or water channel without the written authority of the owner, or superintendent of sludge and water drains. But it shall be lawful for the superintendent or any one authorised by the board to mark off and hold certain areas, to be called sludge or tailings reservoirs, for the more convenient depositing of the sludge or tailings flowing from puddling, quartz crushing, or other machines; such areas to be marked by posts three (3) inches in thickness, and standing three (3) feet above the surface of the ground, with the words painted thereon sludge or tailings reservoir.

17. *Puddling and cement crushing.*—In all partially worked and unoccupied ground where horse machinery is employed, any miner or miners employing not less than three (3) men to each machine shall be entitled to hold one (1) acre in not more than two (2) blocks to each machine, exclusive of the site of his or their mill; and where steam machinery is employed, three (3) acres, which may be taken up in not more than two (2) blocks; the working of either of which shall be deemed a working of the claim: Provided that no such claims be allowed on any gold field until after the expiration of twelve (12) months from the date of the day on which the prospecting claim of such gold field was allowed, and any such claim left unworked for ninety-six (96) consecutive hours (except in the case of want of water) shall be declared forfeited.

SECTION VII.—SLUDGE.

1. *Purposes of this bye-law.*—Funds to be expended by the said board in and about the repairing, clearing, and keeping clear all main and intermediate sludge channels, not being private sludge channels, existing within the division of Sandhurst, and for defraying all costs incurred in raising the said funds, and for the due distribution of such funds, and also for keeping the accounts thereof, shall be raised as follows:—

2. *Assessment on horse puddling machines, &c.*—For the purpose aforesaid, the owner or occupier of every horse puddling machine situated on ground held by miner's right or by lease, and for every site for a horse puddling machine situated as aforesaid, shall pay in advance to the said mining board a quarterly assessment of one pound ten shillings (£1 10s.): Provided always, that in case such owner or occupier shall hold two (2) or more such puddling machines, all of which shall be situated within a distance of one hundred and fifty (150) yards from each other, he shall for every such machine exceeding one pay as aforesaid a quarterly assessment of fifteen (15) shillings; and the owner or occupier of such machine or site shall be responsible for the payment of such assessment until he shall have sold or abandoned said machine or site, and given notice in writing of such sale or abandonment to the superintendent of the subdivision wherein the same is situated.

3. *Assessment on steam puddling machines.*—For the purpose aforesaid the owner or owners of every puddling machine worked by steam power shall pay in advance to the said mining board a quarterly assessment of ten (10) shillings per horse power of the engine or engines used by him or them for such puddling purposes.

4. *Assessment on steam crushing machines.*—For the purposes aforesaid, the owner or occupier of every machine situated on ground held by miner's right or by lease, worked by steam power and used for the purpose of crushing cement, alluvial soil, gravel, quartz, or other material, shall pay as aforesaid a quarterly assessment of three (3) shillings per stamper head used by him for such purpose.

5. *When assessments payable.*—The foregoing assessments shall be due and payable quarterly in advance, by the owners or occupiers of machinery, on the twenty-eighth (28th) day of March, the twenty-eighth (28th) day of June, the twenty-eighth (28th) day of September, and the twenty-eighth (28th) day of December, in each year.

6. *Duties of collector.*—That it be the duty of the collector to demand, receive, and collect all fees and charges imposed by this bye-law, and upon receipt thereof pay the same into such bank as the mining board may from time to time appoint, to the credit of the members of the finance committee, to be hereafter appointed in pursuance of and subject to the provisions of clause seven (7) of this section, and each collector shall, at such times as the board may appoint, furnish to the board a correct account of his receipts, together with his bank book, with a list of all arrears in the subdivision of which he is collector.

7. *Duties of superintendent, finance committee, &c.*—It shall be the duty of the superintendent to compile an assessment roll once every three (3) months for the Sandhurst division, containing the names of all owners or part owners of machinery, driven either by horse or steam power, whether such machinery is in work or not, and to furnish a copy of the same to the mining board. It will also be the duty of the superintendent to take cognizance of the various sludge channels under the control of the board throughout the division, and to supervise the work being carried on in maintaining and clearing the same, and shall furnish a weekly report of his proceedings thereon to the mining board; and shall further furnish to the mining board, once a month, or at such times as the board may require, a clear statement of the works then in progress, together with the cost of the same, and shall apply once a fortnight to the board for the sum necessary to defray such cost; and thereupon three members of the board who shall be appointed by the board to act as a finance committee may draw a cheque in

their joint names for the required amount, and said cheque shall be countersigned by the clerk of the board: Provided that such committee shall be appointed at a meeting of the board to be specially called for that purpose, of which meeting one week's notice in writing shall be given by the clerk to each member of the board.

8. *Interpretation clause.*—For the purposes of this section the word "owner" shall be held to include the members of a mining partnership.

SECTION VIII.—RELATIVE TO WATER-RIGHTS, ETC.

1. *Interpretation clause.*—For the purposes of this section the word "race" shall mean an artificial channel for conveying water; "tail-race" shall mean a race or channel for the purpose of draining any claim or claims, or for carrying off the water used for sluicing, puddling, or other mining purpose; the word "dam" or "reservoir" shall mean a place where water is stored or retained by artificial embankments, and the words "right" or "water-right" shall mean the privilege of diverting and using water from any creek or river.

2. *Conditions to be complied with.*—Any miner or miners desirous of securing water for mining purposes from any creek, river, or other sources which may be lawfully diverted by constructing a race or water-course, may, by virtue of his or their miner's rights, construct such water-race for such purpose, subject to the conditions hereinafter provided, viz:—

The applicant or applicants shall post up and maintain for a period of fourteen consecutive days, on some conspicuous part of the place to which it is intended to divert the water, a notice in the form of schedule D hereunto annexed, and shall also post up a copy of said notice at the office of the mining registrar of the division in which said race will terminate, and shall cause a copy of said notice to be inserted at least twice in the nearest local paper to said termination of race. The applicant or applicants shall further mark out the course of proposed race with substantial pegs, standing at least three (3) feet above the surface of the ground, situated at about forty (40) yards apart, through its entire length. After the lapse of fourteen clear days from the date of posting said notice, the applicant or applicants shall (if no objection to the construction of said race have been lodged within that time) register such race with the mining registrar of the division aforesaid, in a book to be kept for that purpose, in the form of schedule E hereunto annexed, whereupon the mining surveyor shall make a survey thereof, and a plan of the same, and on making such plan he shall connect the same with some point, so as to secure its identity.

3. *Objections.*—Any person or persons objecting to the construction and registration of such "race," dam, or reservoir, shall lodge such objection in writing with the mining registrar, stating the grounds of the objection, and the name or names of the persons so objecting, and any such objection shall be made within the above-mentioned fourteen days. A copy of the objection shall also be lodged with the applicant or applicants, at his or their address or addresses, and also with the warden of the division.

4. *Water gauge.*—All races or water-rights shall have placed, as hereinafter described, a box for the purpose of gauging or measuring the quantity of water flowing through such race or water-course.

Such gauge-box shall be six (6) feet long, twelve (12) inches wide, and six (6) inches in depth in the inner measurement, with an opening of an uniform depth of three inches across the bottom. The box shall be fixed level with the race, the lower edge of which shall be level with the lower edges of the box for a distance of not less than twelve feet, immediately above it; and in races running more than one sluice head of water, the box shall be increased in width twelve inches for every additional head of water the race may be permitted to carry.

The gauge-box shall be placed immediately below the place where the race receives its last supply, and the quantity of water flowing through such aperture above described shall, for the purposes of this section, be considered a sluice head.

5. *Quantity of water allowed to each race.*—The quantity of water or number of sluice heads for any race or water-course shall be in proportion to the number of miners forming the party or company constructing, or being in possession of, any race, that is to say, in proportion to the number of miners duty registered for such race, and shall be determined by the following scale, viz:—

1 or 2 miners	1 sluice-head.
4	2
7	3

But in no case shall any party be registered for more than three (3) sluice heads of water.

6. *Priority of right.*—The right to any water shall take precedence according to the date of registration, and if at any time the water shall become insufficient to supply all the races cut from the same river, creek, &c., the party or company being last registered shall cease to enjoy such right during such deficiency of water, as against any antecedent right.

7. *Extent of sluicing claims.*—The extent of mining claims for sluicing purposes in new surfacing, or ground previously worked and unoccupied, shall not exceed fifty (50) yards in length, by a width at right angles of fifty (50) yards, for each miner forming the party. Such claims shall be marked out and taken up in one block, and shall form one aggregate area, and such miner or miners shall have such claims, or aggregate area of claims, surveyed by the mining surveyor, who shall make a plan of same, and, for its identification, shall connect such claim or area with some fixed point; and such claim or area, and each and every share owned or held therein, shall be registered with the mining registrar of the division in which the claim is situated. And any miner or miners leaving his or their claims, or share in such aggregate area unworked for a period of three consecutive working days, or otherwise not complying with the requirements of this section, shall forfeit his right to such claim or share.

8. *Extended claim in old workings.*—In order to afford facilities for, and to encourage the investment of capital in re-working of auriferous alluvial lands, and where the proposed mode of working is such that an expense of not less than £100 is necessary in making a race, or cutting, or timbering, or machinery, every holder of a miner's right shall be entitled to take up and hold a claim not exceeding ten acres in extent (the length of which shall not, however, exceed double the width), and he shall employ on, or in connection therewith, one person for every acre so held.

No such claim, under this clause, shall be allowed, except on ground which has been previously worked, and has been unoccupied for six (6) months.

9. *Width allowed on each side of race.*—Any person or persons occupying a race for the conveyance of water for mining purposes, shall be entitled to a width of ten feet on each side of such race, measuring from the centre thereof, provided always that where the depth of a cutting exceeds twelve feet, or when a tunnel is required, the width shall be twenty feet on each side of such race, measuring from the centre thereof.

10. *Races may be constructed through claims.*—Any miner or miners shall be entitled to cut or construct any race, tail-race, or drain for mining purposes, through any claim or claims held by any other miner or miners, or under, over, or across any other race, tail-race, or drain; provided always that such first-mentioned race, tail-race, or drain be cut, constructed, timbered, framed, and formed in such a manner as not to injure the claim, race, tail-race or drain through or across which it may be cut or constructed.

11. *Water-races may be extended or altered.*—Any miner or miners may extend his or their race or watercourse beyond the point for which he or they were originally registered, or make any alteration or deviation therein, in accordance with the provisions of this section; provided that no such extension or alteration shall interfere with any registered right obtained by any other miner or miners prior to the application for said alteration or extension.

12. *Water to be left running in creeks, &c.*—In all river beds and main creeks, from which water is diverted for mining purposes, there shall at all times be left running at least one sluice-head of water for general use; and in all tributary creeks from which water is diverted for mining purposes, there shall be left remaining in its natural channel a quantity of water not less than half a sluice head.

13. *Heads of races not to be shifted.*—No miner or miners shall shift the head or heads of his or their water-race so as to prejudice the right of any person or persons, or diminish the supply of water to which such last-mentioned person or persons may be entitled.

14. *Commencing and continuing the formation of races.*—Any miner or party of miners who shall not within one calendar month from the registration with the mining registrar begin to form such race, or having begun, who shall discontinue the formation thereof for a longer period than six consecutive working days, shall forfeit his or their right and title to the whole race as registered with the mining registrar.

15. *Side streams not claimable.*—When any race shall cross any gully, creek, or stream, the owner or owners of such race shall conduct all water in such gully, creek, or stream, either under or over said race, so as to flow in its usual course, if said owner or owners be requested to do so in writing by any other person or persons requiring the same, he or they being at the time legally entitled to do so.

16. *Protection to water-right during drought.*—The race and the right to the water shall not be held forfeited by the owner or owners working in other claims when the supply of water is insufficient.

17. *Forfeiture.*—Any registered water-right or water-rights wherein there is a sufficient supply of water for the due working thereof, and wherein operations thereon or in connection therewith shall have been wholly discontinued for a space of fourteen (14) consecutive working days, shall be forfeited, unless in case of dispute the owner or owners thereof can justify such discontinuance under this section.

18. *Exemption.*—All mining claims for sluicing purposes may be held unworked for any time during which there may be an insufficient supply of water, if registered with the mining registrar, who shall on registering the same give a certificate of such registration in the form of schedule C hereunto annexed, a notice of which shall be kept posted on the claim during such exemption.

19. *Relative to dams for gold-washing purposes other than in connection with puddling machines.*—It shall be lawful for any miner or miners who may be desirous of constructing a dam or reservoir for gold-washing purposes other than in connection with a puddling-machine, to construct such dam or reservoir for such purpose, and he or they shall be deemed to possess an exclusive right to all water therein collected and conserved.

20. *Conditions to be complied with.*—Such dam or reservoir may be constructed and held for the due and efficient working of any claim occupied in new workings, or in any partially worked or abandoned ground.—Provided

That the intended site of such dam or reservoir shall be marked out at each angle with pegs or posts not less than three inches in diameter, and standing at least three feet from the surface of the ground.

That the applicant or applicants shall post up at the warden's office and at the office of the mining registrar of the division in which such proposed dam shall be situated, and shall also post up and maintain for a period of seven consecutive days, on some conspicuous place within the intended site of such dam or reservoir, a notice in the form of schedule N hereunto annexed. Such notices shall be obtained from the mining registrar, and shall be duly posted up on the day of issue from the office of said registrar.

That no such dam or reservoir shall be constructed within one hundred yards of the nearest water privilege (without the written consent of the owner of such water privilege), such distance to be computed from the nearest peg of such water privilege to the nearest peg of the proposed site.

That upon the expiration of seven clear days after posting said notice, the applicant or applicants shall register said dam or reservoir with the mining registrar of the division in which such dam or reservoir is situated, in a book to be kept for that purpose in the form of schedule O hereunto annexed, which registration shall be deemed valid and conclusive evidence of legal possession.

Provided that such dam or reservoir shall in no way injure or interfere with any pre-existing water privilege, and shall be substantially constructed to the prescribed height, and shall not exceed one-half of an acre in area.

Provided also, any miner or miners who may have become legally entitled to construct a dam or reservoir under this section, shall construct the same within three months from the date of registration under a penalty of forfeiting his or their right to occupy such dam or reservoir.

21. *Objections.*—Any person or persons objecting to the construction and registration of such dam or reservoir, shall, within seven days from the date of the notice as described, lodge in writing, with the warden of the division in which such dam is proposed to be constructed, and with the applicant or applicants at the address or addresses stated in such notice, a notice objecting to the issue of such registration, and stating the grounds of his or their objections.

SECTION IX.

1. *Rules and regulations for mining partnerships.*—In any mining partnership or company formed for the purpose of extracting gold from any claim held under miners' rights, where the rules and regulations of the said company shall not otherwise provide, or where the said company shall not have any rules and regulations in writing, the rights and privileges of the several members shall be held and enjoyed subject to the following rules and regulations:—

The decision of any number of shareholders representing or holding a majority of the shares of the company according to their relative value, shall (subject to any bye-law made or hereafter to be made by this board) be final on all questions relating to the working of the mine, or the amount of money to be paid by each member into the funds of the company for the purpose of carrying on the works, or for the erection of machinery, or for draining purposes; provided that each member shall be liable to pay a share of the expenses, and shall be entitled to receive a share of the profits of the company, proportionate to the value of the share held by him. When any call of money shall have been made by a majority as aforesaid of the members of any company, for any of the purposes aforesaid, every member shall forthwith pay unto the person appointed to receive the same his part or proportion thereof; and every call shall become due twenty-four (24) hours after the same shall be made.

When any member shall make default in payment of any such call for the space of fourteen days next after such call shall have become due, a meeting of the company shall be called in the same manner as the meetings of the said company have heretofore usually been called; and notice of such meeting, in the form and to the effect hereinafter provided, shall be delivered to the defaulting member, or advertised three (3) clear days in one or more newspapers circulating or published in the division in which the claim is situated, before the time of holding such meeting, and such notice shall be signed by the manager or other presiding member of the company.

And when said meeting shall be held, if the said defaulting member shall not in the mean time have paid up all arrears due by him, and shall not be present, or, being present, shall not then pay up the amount due, a majority of the members then present having paid up all arrears, may declare the share or shares of the said defaulting member to be forfeited, and without any further notice to the defaulter; and the said share or shares, with all right, title, or interest to or in any capital, machinery, or other property of the company, shall be forfeited.

Provided always that when any share or shares have been declared by the said shareholders forfeited, such share or shares shall be put up for sale by public auction, of which previous notice shall be given of at least three (3) succeeding days in some newspaper published or circulating in the division; or if there be no such newspaper, then in two newspapers circulating in the district where the claim is situated, and shall at such sale be sold to the highest bidder, and the proceeds of such sale, after payment of the expenses thereof, shall, so far as they will extend, be appropriated in liquidation of the debt due to the company on such share or shares; and after payment of the expenses of such sale and of the call or calls due on such share or shares, the surplus, if any, shall be delivered to the former owner of said share or shares, on his executing to the said company and the shareholders thereof a release of all claims in respect thereof.

The following is the notice referred to:—

To A.B. (the defaulter).

186

Sir,—You are requested to take notice that a meeting of the company, of which you are a shareholder, will be held at _____ on the _____ day of _____ 186____, at which you are requested to attend.

You are indebted to the company, for calls now due over fourteen (14) days, in the sum of £ _____, and unless that sum be paid at or before said meeting your share (or shares) will be forfeited.

C.D.,
Manager.

SECTION X.—ELECTION OF MANAGERS OF THE GOLD FIELDS COMMONS WITHIN THE MINING DISTRICT OF SANDHURST.

1. *Annual election.*—That the annual election of managers of the gold fields commons within the mining district of Sandhurst shall take place at the first regular meeting of the board held in July of each year, or as soon thereafter as practicable.

2. *Mode of election.*—That such election shall take place by ballot, and each member of the board shall or may vote thereat.

3. *Assent of candidate to be given in writing.*—That no person shall be nominated or elected to fill the office of manager without his assent in writing, which assent shall be given to the chairman by the member nominating, when required so to do by any member of the board.

4. *Chairman and clerk to count votes, and declare result in writing.*—That the votes so soon as recorded shall be counted in the presence of the members by the chairman, who shall be assisted by the clerk of the board; and the chairman, upon ascertaining the result of such election, shall declare the names of the successful candidates to the board as being duly elected, and shall thereupon direct the clerk to enter such declaration in the minute book, and acquaint, in writing, the persons elected to fill the office of managers of such circumstance.

5. *Removal of managers.*—Managers when elected shall be entitled to retain office for twelve months, but the mining board may, at any time before the expiration of that period, remove any one or more of the managers from office, if it should be deemed by the board, or a majority of its members, expedient to do so; and on the removal by the board of any such manager, the board will or may elect another in his stead, and the person so elected shall hold such office for the remainder of the term his predecessor would have been entitled to have held the same, unless removed by the mining board.

SECTION XI.—RESIDENCE RIGHTS.

1. *Residence under miner's right.*—Any holder of a miner's right may occupy for residence, exclusive of his mining claim, one quarter of an acre, and the said area for residence shall be marked off where practicable in a rectangular form, of which the length shall not exceed twice the breadth: Provided that in the event of such holder of a miner's right having marked off such quantity of land for the purpose of residence not residing upon such land, he shall be deemed to have abandoned the same; and said miner shall mark off such residence claim by substantial posts placed and maintained three (3) feet above the ground.

2. *Buildings not to be crowded.*—No miner or holder of a business license shall erect a dwelling-house or stable, or stack any hay, washing stuff, stone, tailings, or any other thing within forty (40) feet of any residence erected on land alienated from the Crown, or on land held for residence or mining under miner's right, or as a residence under a business license.

3. *Extent of ground under business licenses.*—The holder of a business license shall be entitled to an allotment of ground having a frontage of thirty-six (36) feet by a depth of one hundred and fifty (150) feet; and wherever a large rush is anticipated, the mining surveyor shall mark off a site for a street or streets in a convenient situation not likely to be auriferous, such streets to be one and a-half (1½) chains wide, and shall mark the allotments for business places along such street or streets: and after such site has been marked off, it shall be reserved for holders of business licenses only, and no holder of a miner's right shall be allowed to occupy such allotments for the purpose of residence, except such as had erected their abode previous to the marking off of same as aforesaid; and to entitle any holder of a business license to occupy any of such allotments for business purposes, he shall first cause the same to be registered by the mining registrar, who shall give a certificate of such registration in the form of schedule M hereunto annexed.

4. *Protection of residence.*—Any holder of a miner's right who may have resided on the portion of land allowed him for residential purposes for a period of not less than six (6) months, shall be entitled to leave the said residence unoccupied for a period not exceeding six (6) months, on his lodging due application with the registrar of the division in which his residence is situated, asking for the protection thereof.

5. *Water-holes for domestic purposes.*—Where any miner or miners, or holders of business licenses, find it necessary to reserve a water-hole for domestic purposes, the same shall be protected from damage: Provided that the same shall not exceed in quantity of water, or extent of area of ground, what shall be absolutely necessary for the domestic purposes of the applicant or applicants, who shall not be allowed to sell any water so protected. And that, in cases of long continued drought or scarcity of water, the water-hole so protected shall become public property, for domestic purposes only: And this clause further provides that any person or persons wishing to protect a water-hole for the above purpose, must cause a notice to that effect to be placed on a post alongside of such hole.

INTERPRETATION CLAUSE.

Construction of words and terms.—For the purpose of this bye-law, and any other or others that may be subsequently made, the word "miner" shall also be construed to mean any holder of a miner's right; and the word "machine" to mean any engine, mill, or other apparatus (not being a trough or puddling tub) used in mining, or for the purpose of separating gold from any other substance; and throughout this bye-law every word and term used in the singular number of masculine gender only, shall be construed equally to imply and include the plural number, and females as well as males, unless there be something in the context repugnant to such construction; and the word "warden" shall mean one of Her Majesty's wardens in and for the colony, or in and for any district thereof; and "payable quartz or payable gold" shall mean that which shall yield a return after the cost (average wages

included) of procuring and crushing or washing twenty (20) tons of material irrespective of sinking a shaft, or putting in drives or levels, or assessments for pumping; and the words "mining registrar" and "registrar" shall mean any officer or officers to be appointed to carry out this bye-law; and the word "prospector" shall mean any person or persons engaged in searching for or discovering any new vein of quartz, lost or abandoned lead, or deposit of gold.

SCHEDULE A.

Locality.	Names of partners, and the shares held by them.	Nature of claim.	State whether the claim or share sought to be registered was taken up under miner's right or by purchase. PATENT FOR AN INVENTION INTITULED "AN INVENTION FOR IMPROVEMENT IN PRODUCING BLOCKS FOR ILLUSTRATING NEWSPAPERS AND BOOKS."

THIS is to notify that George Collins Levey, of East Melbourne, gentleman, did, on the thirty-first day of July, 1866, deposit at the office of the Chief Secretary, in Melbourne, a specification, or instrument in writing, under his hand and seal, particularly describing and ascertaining the nature of the said invention, and in what manner the same is to be performed; and that by reason of such deposit the said invention is protected and secured to him exclusively for the term of six calendar months thence next ensuing. And I do further notify that the said George Collins Levey has given notice, in writing, at my chambers, of his intention to proceed with his application for letters patent for the said invention, and that I have appointed Monday, the tenth day of September next, at Eleven o'clock in the forenoon, at my chambers, to hear and consider the said application and all objections thereto; and I do hereby require all persons having an interest in opposing the grant of such letters patent, to leave, on or before the sixth day of September, at my chambers, in Melbourne, particulars in writing of their objections to the said application, otherwise they will be precluded from urging the same.

Given under my hand this eleventh day of August, A.D. 1866.
