Green vegetables, such as—

} equal to 1 lb. of potatoes	

The above substitutions are to be made whenever it may be considered advisable by the officer authorized to draw the rations, but not otherwise.

The contractor will be required to prepare his own account monthly in the prescribed form, and to present the same in a complete state to the officer in command, for payment at the Treasury, Melbourne.

In the event of a difference of opinion between the contractor and the officer receiving the supplies, as to quality, the matter is to be decided by a board of survey composed of persons named by the officer in command, and the decision of the board is to be final; but if, from the perishable nature of the goods, this course cannot be adopted, the officer in command will have power to reject such article or articles, it being understood that he will be responsible to the Government for so doing.

Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

In the event of any alteration in the Tariff affecting any of the items included in these contracts, the Government, or the contractor, as may be the case, will make a proportionate allowance by way of deduction from, or increase of, the price of the item so affected.

It will be competent for the Inspector of Stores on behalf of the Government, or the contractor on his own behalf, to terminate the contract by giving a notice in writing of one calendar month to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

Security will be required, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tenders for —" (as the case may be), and be deposited in the Tender-box at the Government Stores, King street; or (if sent by post) must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.

CONDITIONS.

1. All the articles are to be of the best quality of the several kinds, in the best condition, and to be delivered in sound packages.

2. Bread. A sample of the best ordinarily retailed to the public will be considered as a test loaf for first quality. Second quality to be made of flour known in the trade as "best second," and the third quality (that issued for prisoners of the Crown) to be made of flour, the produce of prime wheat, from which twelve per cent. has been extracted in bran and waste.

3. Fresh meat is to be supplied in such proportions as may be required, and, when the quantity admits, to be delivered in fore and hind quarters alternately. When shins of beef form a portion of the supply, a fair proportion of the bone, not less than five inches, must have been cut off.

4. The supplies coming under the head of Rations and Medical Comforts are to be delivered direct to the establishment entitled thereto on the written order of the officer in charge. All other supplies will be ordered by the head of department, either for delivery at the Stores and Transport Office, or at the office of the department concerned, as may be stated in the order.

5. The order issued by the head of department must accompany the goods, and the account is to be rendered simultaneously with delivery of the supplies. In other cases the account is to be rendered monthly. The rates quoted in the orders cannot be exceeded.

6. Should the contractor fail to supply any articles at the time mentioned in the order they will be otherwise procured, and the expense over and above the contract price will be deducted from his account.

7. In the event of a difference of opinion between the contractor and the officer receiving the supplies as to the quality, the same to be decided, in cases where the article is not of a perishable nature, by a Board of Survey composed of persons named by the head of the department, and the decision of the board is to be considered final.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured by the person requiring it, and the expense charged as in clause 6.

9. In cases where the article is of a perishable nature, or when from some other cause injury would be sustained either

by the person to whom the rations are due, or to the contractor in waiting for a Board of Survey, the head of the department, or officer in charge of the station, will have power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and that the contractor must take back the rejected article and supply good in its stead; failing which it will be obtained by the officer requiring it, and the expense charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report of the Tender Board, to such mulct, not exceeding £50, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

11. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

12. It will be competent for the Inspector of Stores, on behalf of the Government, or the contractor, on his own behalf, to terminate the contract, by giving, in writing, a notice of three full calendar months, it being understood that such notice can be given only from the first day of the month. It will also be competent for the Inspector of Stores to terminate the contract, without notice, on infringement of condition No. 11, or should there be reason to know that the contractor takes advantage of his contract to communicate improperly with a prisoner.

13. In the event of any alteration in the Tariff affecting any of the items included in these contracts, the Government or the contractor, as may be the case, will make a proportionate allowance, by way of deduction from or increase of the price of the item so affected.

14. The contracts entered into under this notice are not to be considered as being infringed or vitiated by the importation of stores for the Government service, or by any contracts made by the Imperial Commissariat, or on account of other Governments; or by the consumption of the produce or surplus stock of any Government establishment.

PRINTING AND BINDING.

TENDERS will be received until Noon on Wednesday, 13th November, 1867, for the supply of Printed Forms and Books, in such quantities as may be required for the Victorian Railways, for the period of twelve months from 1st January to 31st December, 1868.

Schedules of the articles required, and forms of tender, may be obtained at the Stores and Transport Office, Melbourne, where samples of books and forms lie for inspection of tenderers.

The supplies are to be properly packed by the contractors, and delivered in cases suitable for transport. The cases will be returned to contractor without delay.

Security will be required in the amount of £100 for due fulfilment of the contract, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, sealed and marked "Tender for Forms and Books for Victorian Railways," to be addressed to the Chairman of Tender Board, Stores and Transport Office, King street, Melbourne.

CONDITIONS.

1. Every article is to be strictly in accordance with the specification or sample, and subject to approval.

2. All orders for supplies must be issued from the Secretary of Railways, and all goods must be delivered free of charge to Railway Stores, Williamstown, unless otherwise directed by the secretary.

3. Delivery as a rule is to be of the full quantity ordered at one time; but all deliveries must be accompanied with detail invoice, or bill of parcels, showing quantity, rate, and value; also the number of the order, otherwise the goods will not be received.

4. Fourteen days will be allowed to execute orders for printed forms, and twenty-one days for books.

5. Any irregularity in the quantity or quality of the supplies, or of delay in delivery, will subject the contractor, upon report from the Railway Storekeeper, to such mulct, not exceeding one-fourth the amount of the monthly account, as the Government may direct.

6. The Railway Storekeeper will have the power to reject such supplies as he may consider not according to contract, and the contractor may claim a survey to be held, provided he gives the Railway Storekeeper notice thereof within twenty-four hours after the goods have been rejected. The Commissioner of Railways will appoint the Board of Survey, and his decision will be final.

7. On completion of an order, the contractor will furnish his account to the Railway Storekeeper, and payment will be made at the Treasury. The orders are to be sent in with the account to which they relate.

8. The contract may be terminated by three months' notice from either party—the contractor on his own behalf, and the Secretary for Railways on behalf of the Government. Should the contractor, however, fail to perform the contract satisfactorily, the Secretary of Railways may terminate the contract forthwith.

9. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

IRON CASTINGS.

TENDERS will be received until Noon on Wednesday, the 13th day of November, 1867, from persons willing to furnish Iron Castings, in such quantities as may be required for the Government Railways, from 1st January until the 31st December, 1868.

The castings are required for locomotive engine work, carriage work, &c.

Whenever specially ordered, the castings shall be run from the very best "cold-blast iron," and of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the Locomotive Superintendent, so as to produce a hard, close, soft or other description of metal.

The castings are to be clean sharp, free from surface scale, shell, gold shuts, blow holes, honeycomb, cinder, or any other imperfection, and are to be sound in every respect and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be requested, and no extra charge shall be made or allowed for same; and the contractor will be required to remove the head or runner from the casting where possible, and charge the casting at the net weight only, trimmed and cleaned. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Government, and returned to the Melbourne Station, there to be delivered to the contractor free of cost of carriage.

Whenever ordered, the castings are to be moulded in loam without a pattern, and loam price will be paid according to schedule, but no extra charge will be allowed for patterns, strickles, or loam boards. The orders will express the kind or description of casting according to the schedule distinction; and the rates there filled in opposite each item will be allowed accordingly.

The Government will supply all patterns, and deliver the same to the Melbourne Station free of cost, from whence the contractor must fetch them when required and when due notice of same has been given in writing, and no cost for carriage from Spencer street Station to the contractor's place of business will be allowed.

Whenever only one or two castings are required, and they can be moulded from the broken originals, the contractor will be bound to mould from such patterns without requiring the Government to supply a wooden or other pattern for same, and no extra price will be allowed.

All pipes and bends must be moulded in loam whenever required, and a loam pattern made. A loam pattern must be struck up for any casting when a pattern cannot be supplied, and when only one casting or so is required, and when of that simple form that it can be made from a loam pattern; and no extra rate or charge will be allowed for the loam pattern beyond the loam price stated in schedule. The Government will supply all necessary striking boards, but no plates or cramps.

All patterns, loam boards, &c., supplied by the Government must be returned by the contractor in good order to the Government with the castings, and delivered to the Railways Stores at Williamstown, and no allowance will be made for return carriage.

The following must all be of good mixture of "cold-blast" iron:—

- | | |
|--|----------|
| No. 1.—Locomotive or engine cylinders | per cwt. |
| No. 2.—Castings of all descriptions, moulded in loam or sand and oven dried | " |
| No. 3.—Very best description of sand castings, moulded in boxes, as specified, and dried if required | " |
| No. 3a.—Chilled castings | " |

The following must all be of good mixture of "hot-blast" iron:—

- | | |
|---|----------|
| No. 4.—Open sand castings | per cwt. |
| No. 5.—Common heavy castings, for furnace work, &c. | " |
| No. 6.—Furnace bars | " |
| No. 7.—Railway chairs | " |
| No. 8.—General heavy permanent-way castings | " |
| No. 9.—Water pipes of any shape, bends, sockets, T pieces, &c., of four inches diameter and upwards | " |
| No. 10.—Water pipes in straight lengths of four inches diameter and upwards | " |

Security will be required in the amount of £50 for due fulfilment of the contract, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tenders for Iron Castings," and addressed to the Chairman of the Tender Board, Stores and Transport Office, King street, Melbourne.

CONDITIONS.

1. All orders for supplies under these contracts must issue from the Secretary of Railways, and all goods must be delivered free of charge to the Railway Stores, Williamstown, unless otherwise ordered by the Secretary.

2. Notwithstanding the delivery of any castings into the store and a receipt having been given for them, should such castings turn out unsound, not in accordance with pattern or instructions, or in any way whatever defective, or of different quality of iron to that ordered, they must be taken away from the Railway Store at Williamstown at the expense of the contractor, and other castings must be supplied in lieu thereof, without delay, and without additional charge.

3. Tenderers must fill in opposite to each particular item in the schedule the price at which he undertakes to execute the work, according to the specification and conditions.

4. Should the contractor, in the opinion of the Engineer-in-Chief, fail to furnish work in accordance with this specification,

then, in seven days after due notice to that effect shall have been given, in writing, the Secretary for Railways shall have full power to re-advertise and relet this contract to any other person the Government shall think fit; and at the expiration of seven days after such notice shall have been given to the contractor, this contract shall become null and void.

5. The contractor must furnish with each delivery detailed invoices or bills of parcels, in duplicate, showing quantity, rate, and value, also the number of the order of the goods, otherwise they will not be received. Delivery, as a rule is to be of the full quantity ordered at one time.

6. The contractor will prepare his own account on the prescribed form, and render the same to the Railway Storekeeper for certification, previously to payment at the Treasury.

7. In the event of a difference of opinion between the contractor and the officer requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Engineer-in-Chief, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor.

9. The Locomotive Superintendent will have power to reject such article or articles as are obviously of inferior character, or not in accordance with the specification, it being understood that he will be responsible to the Governor for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

Contractors are not at liberty to transfer their contracts under power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

10. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report from the Locomotive Superintendent, to a penalty not exceeding Ten pounds; and it will be in the power of the Government, upon repetition of such irregularities, to terminate the contract forthwith.

11. It will be competent either for the contractor on his own behalf, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving a notice in writing of full three calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

J. F. SULLIVAN,
Commissioner of Railways.

Railway Department,
26th October, 1867.

The coke will be weighed by the Government, and such weight and returns shall form the basis upon which the contractor's account will be made out.

3. Orders will be issued by the Secretary one week previously to the departure of the English mail; and if such orders be not satisfied at the expiration of seven calendar months from the date of the departure of such mail, it will be competent for the Railway Storekeeper, on the order of the secretary, to purchase, at the risk of the contractor, and subject him to a mulct not exceeding Five pounds for each and every day's delay in the delivery after the time specified, disasters of the seas excepted. Should a supply of coke be required within seven months, the Government reserve to themselves the right to purchase, provided the contractor refuses to supply at contract rate.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply, as to the quality of the coke, the same is to be decided by a board of survey composed of persons named by the Engineer-in-Chief, and the decision of the board is to be final.

6. If the delay necessary for obtaining the decision of a board of survey should be detrimental to the public service, the Engineer-in-Chief or Locomotive Superintendent will have the power to reject coke which is of an inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected coke and supply good in its stead, failing which, it will be procured elsewhere and the extra expense charged to him. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

7. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Fifty pounds for each case, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

8. It will be competent for the contractor, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving, in writing, a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

9. The estimated consumption of coke during the year will be about 200 tons; but the Government do not bind themselves to order this quantity, but only what may be required from time to time.
