Nevertheless no existing interest or privilege shall be deemed to be affected by the repeal of the bye-laws under which such interest is occupied or enjoyed.

BYE-LAW No. 2.—DISPUTED ELECTIONS.

1. It shall be competent for any duly qualified elector, or member of this board, at any time to dispute the validity of the election of any member thereof, by lodging with the chairman of this board a written statement of objections against the person occupying a seat thereat, whom they consider has not been duly elected.

2. Upon the receipt by the chairman of this board of any such statements, the person lodging the same shall be informed at what time the board will investigate such dispute, and shall also be instructed to bring with him whatever documentary or other evidence he may possess bearing on the subject of such disputed election. The member whose election is in dispute shall also receive notice of the time when the dispute is to be investigated.

3. At the time appointed for the hearing of the dispute, the objectors, and also the member objected to, shall produce their miners' rights, and the board shall then proceed to investigate the matter, and shall hear statements in evidence from either party. The hearing of the dispute may be adjourned for any period which may in the opinion of the board be deemed necessary.

4. At the close of the investigation the votes of the members of the board shall be taken in the usual manner, "Aye" or "No," and the majority of either finding shall be deemed to be the decision of the board, which shall be declared by the chairman. In the event of the finding being equal, the chairman shall give his casting vote, and such decision shall be final and conclusive in the matter of such disputed election.

5. Should the decision of the board be that the member objected to has not been duly elected, the chairman shall forward to the returning officer a copy of the resolution to that effect.

5. All motions, and notices of motion, shall be given in writing to the chairman, and shall be read, signed, and dated by the mover.

In the event however of an amendment being carried, the original motion shall be deemed rejected, and the amendment so carried shall take the place of such original motion; and on it one amendment can be moved but no more.

13. No member shall speak twice to any question or motion before the board, except (with the sanction of the chairman) in

20. It shall be competent, by a vote of two-thirds of the members present, for the board to suspend any standing order herein contained, provided the effect of such suspension shall not be the rescinding of any resolution previously adopted by the board at the same sitting.

BYE-LAW No. 12.—PROSPECTING, ALLUVIAL, RIVER, CREEK, AND BANK SLUICING CLAIMS.

Any person prospecting for new alluvial gold workings (elsewhere than in the bed of a creek or river, or in any place where gold has been obtained in payable quantities, or where any prospecting claim is at the time occupied), shall be allowed an area not exceeding one thousand yards square.

Upon the discovery of gold in payable quantities within such prospecting claim, the claim shall be forfeited, and the discoverer shall be entitled to occupy, in addition to the area that the number of men registered and constantly employed on such prospecting claim will entitle him to, an extended area equal to two entire claims of the said class, with an additional ordinary claim for every five miles that the said prospecting claim is distant from the nearest recognised gold workings. If in the bed of a river or creek, the discoverer or discoverers shall be entitled to occupy two hundred yards along the course of the stream by a width of fifty yards along the course of the stream for each man, or four hundred yards along the course of the stream by fifty yards for four men, with an additional (25) twenty-five yards for each man for every (5) five miles that the said prospecting claim is distant from the nearest recognised gold workings; but in no case shall a prospecting claim exceed (800) eight hundred yards in length. Upon the discovery of payable gold, the prospector or prospectors shall (within (21) twenty-one days, should the distance not exceed (10) ten miles from the nearest recognised gold workings, and (30) thirty days should it exceed that distance) register a prospecting claim with the nearest registrar, and shall at the same time leave with him, in writing, a full description of the locality in which the discovery has been made, the nature of the workings, and its distance from the nearest recognised gold workings. Any person failing to comply with this regulation shall forfeit all benefit arising from this bye-law.

BYE-LAW No. 13.—UNION OF ALLUVIAL, RIVER, CREEK, AND BANK CLAIMS.

Any number of claims which shall adjoin each other in at least half their length or width may be united and occupied as

one claim; provided always, that the number of men necessary to be employed on, or in connection with the claims, if occupied singly, shall be employed on, or in connection with the united claim; and where a river or creek claim is united to one or more alluvial claims of any other class, the water privileges of such river or creek claim shall not extend further than if such river or creek claim had not been united to any other. All such unions shall be registered with the registrar within forty-eight hours after such union.

BYE-LAW No. 14.—MODE OF TAKING POSSESSION OF AN ALLUVIAL, RIVER, CREEK, AND BANK SLUICING CLAIM.

Any person taking possession of an alluvial, river, creek, and bank sluicing claim shall do so by erecting or causing to be erected a post at each corner of the ground, such post to be at least four (4) inches square and showing four (4) feet above the surface, and firmly fixed in the ground, with the number corresponding to the number of the claim in the books of the registrar to be legibly cut on each of such posts; such posts to be kept erected and kept in proper repair during the occupation of such claim under a penalty of One (1) pound. The holder of any such claim shall be held responsible for the following duties, that is to say:—He shall register the occupation of the claim with the registrar within forty-eight (48) hours after such occupation; and shall, within seven (7) days proceed and continue to work the said claim with the requisite number of men.

BYE-LAW No. 15.—FORFEITURE OF ALLUVIAL, RIVER, CREEK, AND BANK SLUICING CLAIMS.

No alluvial, river, creek, or bank sluicing claims shall be declared forfeited by any holder of a miner's right, on the ground that such claims were not properly marked, or for any act or omission for which a penalty is provided, but on application being made to the warden by any miner to have the right, title, or interest of any other miner to, or in an alluvial, river, creek, or bank sluicing claim forfeited, on the ground that the same has not been fairly worked during the time of occupancy; or that the same has been left unworked for a longer period than ninety-six (96) consecutive hours; or that less than the minimum number of men required by these bye-laws have been employed thereon; and in the event of the same being declared forfeited the applicant shall then be entitled to full possession. Provided that when a claim is declared forfeited, it shall be lawful to have any road, timber, mining plant, or other materials absolutely beneficial to the applicant valued by a mining surveyor, and that the amount of such valuation (if any) together with the cost of estimating such value shall, within forty-eight (48) hours, be paid to the original owner, or lodged with the mining registrar; such payment or lodgment shall be a condition precedent to putting the applicant in possession of such claim.

BYE-LAW No. 16.—ABANDONMENT OF ALLUVIAL, RIVER, CREEK, AND BANK SLUICING CLAIMS.

Any alluvial, river, creek, or bank sluicing claim unworked for thirty (30) days from the date on which work ceased in such claim, or from the date of expiration of period of exemption, shall be deemed to be abandoned, and any duly authorized miner may make application to the warden to have the said claim declared abandoned, and on such declaration of abandonment being made may take possession thereof without being called upon to pay any compensation, or to give any notice whatever to the previous owner.

BYE-LAW No. 17.—GENERAL SUSPENSION.

When any person or company requires, after three (3) months' work with the requisite number of men, to suspend or partially suspend operations at any time through want of funds, overflow of water, want of water, or breakage of machinery, such person or company, or the manager or secretary of such company duly authorized on his or their behalf, shall make a statutory declaration setting forth the reasons for which he or they require registration of suspension, and such declaration shall be in the form (in Schedule I) hereunto appended, and on receipt of such declaration the registrar shall, upon ascertaining and satisfying himself that such reasons are good and sufficient, register such person or company for permission to suspend or partially suspend operations for any term not exceeding three (3) calendar months, in the form set forth in Schedule K hereunto appended, and after the expiration of such suspension work with the necessary number of hands shall be immediately resumed, and no second or subsequent suspension shall be allowed until six months work with the full complement of men shall have been done on the claim from the date of the last suspension: Provided always that such registration shall afford no protection to the parties obtaining the same, in any case where the same has been obtained through any wilful misrepresentation of facts; and should work not be resumed, as hereinbefore provided, then such ground shall be deemed to be forfeited, and may be taken possession in the manner provided in Bye-law No. 7, except in the case of river, creek, and bank sluicing claims, which may be suspended during the continuance of floods or want of water, but for no other cause. In all cases during the time of suspension a copy of the registrar's certificate shall be kept posted conspicuously on the claim.

BYE-LAW No. 18.—EXEMPTION FROM FORFEITURE OF CLAIMS.

1. Notwithstanding the provisions made in these bye-laws, the lawful occupant of a claim shall not be liable to any penalty, or his claim liable to forfeiture, during the time he is incapacitated from work by illness, or has to attend any court of law, or upon any urgent business, but should any dispute arise as to the claim not being represented in accordance with these bye-laws, the onus of proof of absence shall rest with the claimholder.

2. Claims not forfeited by neglect of hired workmen or tributors.

No miner holding a claim or portion thereof, or share or interest therein, who employs hired labor to work the same, shall be deemed to have forfeited or abandoned his right, title, or interest in the same through any neglect, absence, or omission on the part of any workmen thereon employed by him; and further, no claim or portion of a claim shall be declared forfeited or deemed to be abandoned where the same is *bona fide* worked by the number of miners required by the bye-laws now in force, on tribute, that is to say, where a portion of the gross or net proceeds of the claim, as the case may be, is agreed upon to be returned by the tributor or tributors to the owner or owners of the claim, by way of tribute, rent or royalty. And the owner or owners of such claim shall be deemed to be working the same in a *bona fide* manner as much as if they employed hired workmen for that purpose, and shall enjoy all the rights, privileges, and exemptions contained in the bye-laws now in force. Provided always that if after seven (7) days' notice, in writing, of such neglect, absence, or omission being given to such miner, either personally or by leaving the same at his last known place of residence, or in the event of the owner or owners being absent and not to be found, and such notice having been advertised in one or more newspapers circulating in the division in which the claim is situated, such neglect, absence, or omission, if continued, said miner shall be deemed to have abandoned his claim or portion of claim, or share or interest therein, as the case may be.

BYE-LAW No. 19.—WATER-RACES.

1. Any person intending to cut or construct a race for mining purposes shall register the same with the mining registrar, stating the proposed extremities thereof, and shall mark the proposed course thereof with pegs at intervals not exceeding 100 yards. He shall then be deemed to be in possession of such proposed course; but if he shall not, within one month, begin to form such race, or having begun, shall not continue the formation thereof, he shall forfeit his title to any portion of the proposed course of the race which has not been cut or constructed.
2. The owner of any race used for mining purposes shall be entitled to hold, in addition to the site of such race, five feet on each side thereof.
3. The head of any race cut for the purposes of diverting water from any river or creek shall not be shifted to the prejudice of any existing race.
4. The owner of any race shall build and maintain efficient bridges where any road, path, or track in ordinary use crosses such race.

BYE-LAW No. 20.—TAIL-RACES.

The holder of any claim using a tail-race in connection with such claim shall be entitled to occupy an area, for the site of such tail-race, not exceeding one (1) mile in length by a width of 27 feet, for a distance of 20 yards from the upper end of such tail-race, and a width of 12 feet for the remaining portion thereof. Nevertheless, no person shall be entitled to occupy any greater length of tail-race than is necessary for his requirements.

BYE-LAW No. 21.—RIVER AND CREEK WATER-RIGHTS.

1. Rights to divert water shall be divided into three classes, viz., river and creek water-rights, bank water-rights, and motive-power water-rights.
2. River and creek water-rights shall in all cases be superior to others.
3. Bank water-rights shall be superior to motive-power. River and creek and motive-power water-rights, taken up in connection with a river or creek claim, shall be deemed to belong to the claim or area with which they were first occupied, and shall not be used in or extended to any other claim.
4. The superiority of water-rights of the same class shall be by priority of registration.
5. If the use of a bank water-right shall be abandoned for any period exceeding one month at a time, when water is available for it, the right shall be deemed forfeited.
6. The alteration of the course of a race at any time shall not in any way affect any water-right or any privilege attached to such race.
7. If the water flowing in any river or creek is insufficient to supply all the water-rights derived from such river or creek, the owner of any water-right shall, on receipt of a water notice from the owner of any superior water-right (in form of Schedule L), cease to divert or make available to the superior water-right his supply of water, or such portion thereof as shall be necessary to make up the supply of the superior water-right, and shall not resume such diversion until a supply in excess of the quantity allowed to such superior right shall be available.
8. The holder of any river, creek, or motive-power water-right shall not be entitled to demand a supply of water at a higher level than is sufficient for his purposes.
9. Any person registering a water-right shall be deemed to be in the use and occupation of such water-right during the time he may be cutting or constructing the race through which the water is to flow.

BYE-LAW No. 22.—HOW AND WHERE WATER TO BE GAUGED.

1. The holder of any water-right in this district shall be limited to a supply of water to be gauged by a box twelve feet long, twelve inches wide, and six inches deep in the inner measurement, with an opening of an uniform depth of one inch and one-eighth of an inch across the bottom.
2. All gauges shall be placed level in the race, by the owners of the race, at a distance not exceeding twenty yards from the point where such race heads, within twenty-four hours after receiving a written notice (in the form of Schedule H) from

any person entitled to receive a supply of water from the same source, and shall thereafter continue to run such water through the above-mentioned gauge.

BYE-LAW No. 23.—PROTECTION TO SPRINGS.

No person shall be allowed to open a drain or tunnel into any spring in the Gippsland mining district, unless at a distance of not less than 100 yards from any drain or tunnel which may have been previously opened, and from which any occupied race derives a supply of water, unless with the consent of the owner of such last-mentioned race, drain, or tunnel.

Any spring, waterholes, or other depository of water may be reserved for domestic purposes on the following conditions, viz.:—

Application shall be made to the mining registrar for the registration thereof (in the form of Schedule G) by not less than five holders of miners' rights or business licenses, and a copy of the certificate of such registration to be posted in a conspicuous place near such water; nevertheless, any surplus water that may overflow from such reserved spring, waterhole, or other depository of water, or any water that may be in excess of the requirements of those for whose use such water is reserved, may be registered, diverted, and used for mining and other purposes.

BYE-LAW No. 24.—CAUSING CLAIMS TO BE FLOODED PROHIBITED.

No person shall back the water of any river, creek, race, or watercourse into or upon any claim, or otherwise cause any claim to be flooded either wilfully or by neglect.

BYE-LAW No. 25.—PROTECTION TO RACES AND CLAIMS.

No person shall permit any water used on or in connection with any claim or race to flow upon or into any other claim, race, or tail race. All claimholders shall keep all tailings or sludge from their claim clear of any other claim, race, or tail race, unless with the consent of the owner thereof.

BYE-LAW No. 26.—SURVEYOR TO ENTER UPON CLAIMS.

It shall be imperative upon any claimholder to permit the mining surveyor, his agents, or assistants to enter upon the claim, descend the shaft, and examine the underground workings, and, when required by the surveyor, to render him all reasonable assistance in doing so.

BYE-LAW No. 27.—WHO MAY ENFORCE PENALTIES.

Any of the penalties imposed by these bye-laws may be enforced by the warden on complaint being made to him by any person being the holder of a miner's right or business license.

BYE-LAW No. 28.—WORKED OR ABANDONED GROUND.

Any person taking up any worked or abandoned alluvial, river, creek, or bank sluicing ground, shall be entitled to take possession of two ordinary claims, such claims to be taken up in the manner prescribed in Bye-law No. 14.

BYE-LAW No. 29.—ROADS AND TRAMWAYS.

Any claimholder requiring to construct a road or tramway out and beyond the limits of his claim, may occupy a site for such road or tramway not exceeding two miles in length by 20 feet in width, subject to the following conditions, viz.:—He shall define the area so occupied by posts not more than 200 yards apart, and shall register the same within forty-eight (48) hours of the time of occupation. When any such area shall not have been used for the purpose for which it has been registered for a period of four (4) consecutive weeks, it shall be deemed to be abandoned: Provided always that such area shall not be liable to forfeiture during the working of the claim held in connection therewith, or during the period for which a suspension from the working of such claim may have been lawfully obtained.

BYE-LAW No. 30.—RESERVOIRS.

1. Any person desirous of constructing a reservoir shall take possession of the site or area thereof by erecting a post at each angle, and shall register the same with the registrar within forty-eight (48) hours after taking possession.
2. The embankments of all reservoirs having a storage capacity of more than 500,000 gallons, constructed for the purpose of storing water, shall be formed of earth, with or without a facing of other material, and shall be of the following dimensions and according to the following scale, viz.:—The base of the embankment shall be four (4) feet wide in addition to five (5) feet for every foot it is in height. The front of the embankment shall have a slope of not less than three (3) feet for every foot it is in height, and the back shall have a slope not less than two (2) feet for every foot in height. The top of the embankment when finished shall not be less than four (4) feet in width. There shall also be a bye-wash formed at least four (4) feet below the level of the top of the embankment, which shall not be less than eight (8) feet wide; and if the storage capacity of the reservoir exceed 1,000,000 gallons, then the width of the bye-wash shall not be less than twelve (12) feet.

BYE-LAW No. 31.—RESIDENCE AND BUSINESS SITES.

No person shall occupy a residence or business site, or any portion of which is within 33 feet of the centre of any road, street, or thoroughfare, or within 10 feet of any side previously occupied.

No person shall take up and occupy for residence or business purposes any ground within (12) twelve feet of any race, unless with the consent of the owner of such race.

Any person taking up land under this bye-law shall not be deemed to be in legal possession thereof unless the same shall have been registered within (48) forty-eight hours after taking possession, and such person shall be compelled to occupy the same within (21) twenty-one days after such registering, or in default, the same shall be deemed to be forfeited.

BYE-LAW No. 32.—SITES FOR MACHINERY.

All such areas to be registered with the registrar, and a copy of such registration kept posted in a conspicuous part of the area until the erection of such machinery; but no person shall be entitled to occupy any such area on the supposed course of any known quartz reef. Any person having occupied any such area, and shall fail to erect any such machinery thereon within six months from the date of occupation, shall forfeit all title to such area.

Population on the 31st March, 1867 ...	364,746	279,130	643,876		

NOTE.—During the past quarter there has been a total loss to the population of 19 persons, arising from the fact that the excess of departures over arrivals (1473) exceeded the excess of births over deaths (1461) by that number. The estimated population on the 31st December, 1866, as shown in the table, differs slightly from that given in the published abstract for the last quarter of that year, in consequence of the final examination of the returns sent in by the Deputy Registrars having developed a few inaccuracies which have now been corrected.

Survey and marking of main and secondary roads, and occupation roads.

Survey of connected township allotments, ranging from twenty perches to half an acre.

Survey of detached agricultural allotments, ranging from twenty up to six hundred and forty acres in extent.

Such surveys to be made at the instance of and under the specific directions of the district surveyor, and will embrace only such surveys as may not be let by the Department by tender in the usual way. Tenderers will state separately for each district:—

Rate per lineal mile marked as directed for suburban surveys.

Rate per lineal mile marked for main and secondary roads unconnected with survey of allotments (both sides of road marked, but payment made by single measurement).

The surveys in future are to be proceeded with in the following order:—Lists of the applications for surveys in each district received in one calendar month will be handed to the contractor on or about the first day of the month following, and such surveys are to be proceeded with at once, and finished before any further applications of a more recent date can be commenced:—

BREAD, MEAT, GROCERIES, AND VEGETABLES.

TENDERS will be received until Noon on Wednesday, 22nd instant, from persons willing to furnish the undermentioned supplies at Beechworth and Ararat, for the Lunatic Asylum, from 1st July to 31st December, 1867:—

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne; the Sheriffs at Beechworth and Ararat; by whom also information will be afforded to persons tendering.

The value of all packages, whether in bulk or otherwise, is to be included in the price demanded (except flour, meal, and potato bags, which will be returned when empty).

Tenderers must state the security proposed, whether in debentures, bank deposit-receipt, cash deposit, or sureties; if the latter, the certificate on the printed form of tender must be signed by two responsible persons willing to become bound in the sum specified for the due fulfilment of the contract, and the names of the tenderers and their proposed sureties, together with their respective addresses, must be stated at full length upon such certificate.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The Government may elect to require a cash deposit; but any approved security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tenders for —" (as the case may be), and be deposited in the Tender-box at the Government Stores, King street; or (if sent by post) must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.
