SECTIONS V. TO X. OF "THE POLICE OFFENCES STATUTE 1865" EXTENDED TO THE SHIRE OF BELLARINE.

PROCLAMATION

By His Excellency the Honorable SIR JOHN HENRY THOMAS MANNERS SUTTON, Knight Commander of the Most Honorable Order of the Bath, Governor and Commander-in-Chief in and over the Colony of Victoria, &c., &c., &c.

WHEREAS by an Act of the Parliament of Victoria, passed in the session held in the twenty-eighth year of Her Majesty's reign (No. 266), called *The Police Offences Statute 1865*, it is amongst other things enacted that the Governor in Council may by proclamation in the *Government Gazette* extend all or any of the provisions contained in Part I. of the said Statute to any city, town, district, or place in Victoria, and may define the limits of any such city, town, district, or place, and vary and alter such limits, and may revoke any such proclamation; and upon any such proclamation the provisions so proclaimed shall extend to and be in force in such city, town, district, or place: Now therefore I, the Governor of Victoria, do, with the advice of the Executive Council, by this my Proclamation, extend the provisions contained in sections V., VI., VII., VIII., IX., and X. of Part I. of the said Statute to

THE SHIRE OF BELLARINE.

Given under my Hand and the Seal of the Colony, at Melbourne, this eighth day of July, in the year of our Lord One thousand eight hundred and sixty-seven, and in the thirty-first year of Her Majesty's reign.

REGULATIONS RELATING TO GOLD MINING
LEASES ALTERED.

At the Executive Council Chamber, Melbourne, the fifteenth day of July, 1867.

PRESENT:

His Excellency the Governor	Mr. Grant
Mr. McCulloch	Mr. Sullivan
Mr. Higinbotham	Mr. Bindon
Mr. Verdon	Mr. Macgregor
Mr. Francis	

WHEREAS by *The Mining Statute 1865*, it is amongst other things enacted that it shall be lawful for the Governor in Council from time to time to make regulations, not being contrary to the provisions of the said Act, for the purposes mentioned in the forty-third section thereof, and such regulations from time to time to alter, add to, or rescind: And whereas by an Order in Council bearing date the twenty-fourth day of December, 1866, certain regulations were made relating to leases for gold mining: And whereas it is expedient to alter the same: Now therefore His Excellency the Governor, with the advice of the Executive Council, doth by this present Order alter the Regulations above referred to in the manner and to the extent hereinafter set forth, that is to say:—

ALTERATION OF REGULATIONS RELATING TO GOLD MINING
LEASES.

The posts to be erected by the applicant for lease at each angle of the land proposed to be leased shall be not less than three inches square, and sunk at least one foot three inches in the ground, and standing in height at least two feet six inches above the surface of the ground, instead of at least three feet in height, as required by the second clause of the above regulations.

In the Form of Lease, Schedule G, to the said regulations, the words "posts not less than two feet six inches in height above the ground," shall be substituted for the words "posts not less than three feet in height above the ground."

And the Honorable John Macgregor, Her Majesty's Minister of Mines for Victoria, shall give the necessary directions herein accordingly.

REGULATIONS RELATING TO LICENSES TO CUT,
CONSTRUCT, AND USE RACES, DRAINS, DAMS,
AND RESERVOIRS, UNDER "THE MINING
STATUTE 1865."

At the Executive Council Chamber, Melbourne, the fifteenth day of July, 1867.

PRESENT:

His Excellency the Governor

Mr. McCulloch	Mr. Grant
Mr. Higinbotham	Mr. Sullivan
Mr. Verdon	Mr. Bindon
Mr. Francis	Mr. Macgregor

WHEREAS by *The Mining Statute 1865*, it is amongst other things enacted that it shall be lawful for the Governor in Council, from time to time, to make regulations, not being contrary to the provisions of the said Act, for the purposes mentioned in the forty-third section thereof, and such regulations from time to time to alter, add to, or rescind: And whereas on the twenty-fourth day of December, One thousand eight hundred and sixty-six, the Governor in Council, made certain regulations relating to the granting of licenses for cutting, constructing, and using races, dams, and reservoirs, under the powers given by the said Act: And whereas it is expedient to alter the same: Now therefore, His Excellency the Governor, with the advice of the Executive Council, doth by this present Order, rescind the above-mentioned regulations of the twenty-fourth day of December, One thousand eight hundred and sixty-six, save so far as the said regulations rescind any regulations previously thereto made respecting the subject matter thereof, and doth hereby make the subjoined regulations in regard to licenses authorizing persons to cut, construct, and use races and reservoirs, under the powers conferred by the said Act, that is to say:—

INTERPRETATION CLAUSE.

1. In the construction and for the purposes of these regulations, the word "race" shall mean an artificial channel for distributing water from any reservoir or other deposit, or from any head of water, whether such race be formed by cutting and excavating the ground, or by boxes or troughs connected together. The word "drain" shall mean any channel or passage, artificial or otherwise, through or by means of which water is supplied to any reservoir or other deposit, or to any head of water. The word "dam" shall mean an artificial earthwork or stone or wooden wall, formed and used for retaining water in a reservoir. The word "reservoir" shall mean a place where water is stored and retained by artificial embankments or walls. The expression "source of supply" shall mean any spring, lake, pool, river, stream, or creek, or any other depository of water. The word "applicant" and the word "person" where it refers to an applicant, shall mean a person proceeding to obtain any such license as last aforesaid. The expression "the warden" shall mean the warden acting for the time being in the division or part of the division of a mining district in which the land in respect of which the license shall be applied for shall lie. Words importing the singular shall be taken to include the plural, and the plural the singular.

REQUIREMENTS PRELIMINARY TO THE ISSUE OF LICENSES.

2. Any person intending to apply for a license must, in case the intended application shall be for a race or drain, erect or cause to be erected along the course of the proposed race or drain, posts not less than three inches square, sunk at least one foot three inches in the ground, and standing at least two feet six inches in height above the surface of the ground, and distant not more than twenty chains from each other; and also in every case where the water for such race is proposed to be taken from any spring, lake, pool, river, stream, or creek, a post not less than three inches square, standing at least two feet six inches in height above the surface of the ground, at every point where the water is proposed to be diverted from any such river, stream, or creek, and a similar post at every point at which he shall propose (as by his application hereinafter mentioned he shall be bound to do), to return or to convey the water so taken into the same or some other lake, pool, river, stream, or creek; and in case the application be for a reservoir, he must erect such posts at the principal angles of or some other conspicuous spots on the boundary of the ground proposed to be used for such reservoir; and all the posts herein referred to shall be maintained in their places until the application shall be granted or refused. Every such post must be painted white on all sides thereof for a space of six inches from the top, and a letter or figure, not previously used by any other applicant for any lease or license under *The Mining Statute 1865*, be legibly painted in black on the white painted part of one of the sides of each such post, the same letter or figure to be used on all such posts: Provided that if the lands in respect of which the license shall be applied for shall have been demised, and if the applicant shall be prevented by or on behalf of the lessee from erecting such posts, then and in such case it shall be sufficient if such applicant shall mark out the land as near to the mode herein in that behalf prescribed as the circumstances will permit. The applicant must also publish in a newspaper circulating in the district, or nearest to the district in which such land shall be situated, or if two or more such newspapers shall circulate equally near thereto, then in any one of them, and in that one of such newspapers which shall be published next after the time when such posts shall have been erected, a notice stating that on a day specified in the said notice, and which must be the sixth day after the day of the said publication excluding that day, an application for a license will be made, and further containing the matter and being in the form in the schedule hereto marked A; and also on the day of such publication post a copy of such notice at the post office nearest to the said land, or if there shall

be a police court nearer to the said land than such post office, then at such police court; and also on the same day post a copy of such notice on the warden's or mining surveyor's or mining registrar's office nearest to the said land: Provided that if the said sixth day shall fall on a Sunday or public holiday, the day next thereafter, not being itself a public holiday, shall be the day to be specified in the said notice.

3. The applicant must then and previously to the time of making his application, deposit with the clerk of the warden, or if there be no such clerk, with the clerk of the petty sessions holden nearest to the land about to be applied for, the sum of Ten pounds, to be appropriated to such extent and in such manner as the Minister of Mines shall direct, towards the expenses of survey and other expenses which may be incurred by or on behalf of or by direction of the Crown in connection with such application, such payments to be made by the said clerk according as the Minister of Mines shall direct; and such clerk shall give to the applicant a receipt for the said sum in the form in the schedule hereto annexed marked B. Any portion of such sum which shall remain after the payment of such expenses shall be returned to the applicant; but if the application be withdrawn or abandoned, or if the applicant shall neglect or refuse to take delivery of the license, then the whole sum, after the payment of any such expenses as aforesaid, shall be forfeited.

4. The person intending to apply for the license must then, on the day specified in his said notice, apply for the same, and in the following manner, that is to say:—He shall address to the Minister of Mines, and leave with the warden, an application, and two copies thereof, in the form in the schedule hereto annexed marked C, and shall also leave therewith the receipt in the next preceding clause hereof mentioned, together with (if the application be for a reservoir or a dam) sketch-plans and sections, on the scale of twenty feet to one inch, showing the proposed situation of the dam or reservoir, and the proposed mode of construction of the works connected with the said reservoir; and the warden shall, as soon thereafter as it may conveniently be done, enter or cause to be entered, in a book to be kept by him for that purpose, a copy of such application, numbered according to the order in which it shall have been received, with a memorandum of the day and hour of such receipt, and such day and hour he shall also endorse upon such application; and he shall thereupon return the said receipt to the applicant, and give to him a certificate, in the form in the schedule hereto annexed marked D; and the priority of every application shall be determined according to the time at which it shall have been so received as aforesaid; and the warden shall also make a note in the said book to the effect that the receipt for the money to be deposited as aforesaid has been produced to him.

OFFICIAL SURVEY.

5. Upon the receipt by the warden of such application and copies, and of the receipt for the money to be deposited as aforesaid, the said warden shall give to a mining surveyor one of the said copies, and shall direct such surveyor to proceed to the proposed site of the race, drain, dam, or reservoir, and survey the same, and furnish such warden with a report in relation to the said application, such report shall contain a description of such site, and a statement as to the intended course of such race or drain, and the intended area and boundaries of such dam or reservoir, the probable supply of water for such race or reservoir, the plan proposed for obtaining such supply, whether it is proposed to take or divert water from any and what source or sources of supply, and if so, setting forth in what quantity and how far the points of diversion, return, and conveyance in the next preceding clause hereof mentioned, or any of them, are, or is, fit and proper, and whether the same or any of them should be disallowed or altered, and if so, the reason of such surveyor therefor, and whether there is existing any other race, drain, dam, or reservoir, which could or might be affected by the race, drain, dam, or reservoir, the license for which shall be applied for, and also whether the Crown lands forming the proposed site for such race, drain, dam, or reservoir, have or have not been demised under the provisions of any Act of Parliament, and shall also, at the same time, furnish to such warden a map of the part of the district within which the said site shall be situated, showing the proposed position and form, as nearly as may be, of the dam or reservoir, or the proposed course of the race or drain with such proposed points of diversion, return, and conveyance as aforesaid, and in such manner as that the same and such position and course may be capable of ascertainment by reference to some fixed points in such district. And in case the said surveyor shall be of opinion that the proposed mode of constructing or of supplying with water the race, drain, dam, or reservoir, the license for which shall be applied for, would injuriously affect any other race, drain, dam, or reservoir, he shall state in his said report in what manner such injurious effect would be produced, and whether there are any and what facts within his knowledge which lead him to consider that the applicant knew or had reason to believe that such injurious effect would be produced, provided that the said surveyor shall obtain so far as he can, and give to the Minister of Mines, all such further information, and make such further plans and surveys relative to such application as the said minister shall require.

6. The said mining surveyor shall, after having obtained such direction as aforesaid, proceed, with all reasonable speed, to carry out the same, and he shall also ascertain by inspection whether or not the posts erected by the applicant are sufficient to indicate the ground in respect of which the license shall be applied for, and if he shall think that additional posts should be erected, he may order the same to be erected, and they shall accordingly be erected by such applicant, and the said surveyor shall affix at such convenient places as he shall think requisite on the line of the proposed race or drain, or on the site of the proposed dam or reservoir, notices dated the day of the completion of the said survey, in the form in the schedule hereto annexed marked E, containing the name and address of the

applicant, or each of the applicants, and the other matters mentioned in the said schedule; and also as soon as he conveniently can after having made the survey post a notice, similar to the notices hereinbefore mentioned, save so far as altered as directed by the said schedule, and dated of the same day as the notice to be posted on the ground as aforesaid, on the outside of his own office, and of the post office nearest to his office, or if there shall be a police court nearer to his office than such post office, then of such police court; and such notices shall be effectually secured by the surveyor in the places where they shall have been affixed.

7. In the event of applications being made for any such licences which, if granted, would be inconsistent, or would interfere with each other, or could not be beneficially held concurrently, that one of such applications as shall have been first left with the warden shall be first considered, and in case any two or more of such applications shall be left with the said warden at the same time, it shall be in the discretion of the Governor to which of the applicants the license shall be granted.

OBJECTIONS.

8. Any person objecting to the issue of any such license must, in order to have his objections considered, within twenty-one clear days after the date of the notice posted on the land by the surveyor as aforesaid (Sundays and public holidays not to be counted in the said twenty-one days), lodge with the warden, and deliver to the applicant, at the address stated in such notice, notice in writing, signed by him, and stating his address, of his objections against the issue of such license.

9. Every person so objecting shall, at the time of his lodging with the warden the notice of his objections, deposit with the clerk of the warden, or if there be no such clerk, with the clerk of the petty sessions holden nearest to the land in respect of which the license shall be applied for, the sum of Five pounds, to be disposed of by such clerk in such manner as the Minister of Mines shall direct, in payment of all expenses to which the applicant may without, in the opinion of such minister sufficient reason be put by reason of such objections, in case such objections shall not be prosecuted, or shall fail; and such clerk shall give to the person or persons making such deposit a receipt in the form of the schedule hereto marked F; and in case there shall be no such expenses, or if there shall be any, then subject to the payment thereof, the said sum shall be refunded to the persons objecting.

ENQUIRY INTO APPLICATIONS AND OBJECTIONS.

10. After the expiration of the said twenty-one days, the warden shall, in case no objections shall have been lodged, forward the application to the Minister of Mines; but if any such objections shall have been lodged, the warden shall proceed to hold, at a time and place to be named by him, and of which two clear days' notice in writing shall be given by him to the applicant, or to each of the applicants, and to the objector or each of the objectors, an enquiry into the truth of the particulars stated by the applicant and objector: Provided, however, that the warden shall not hold the said enquiry unless there shall have been delivered to him, on or previous to the day fixed for the enquiry, the receipt in the next preceding clause mentioned; and the warden shall have power to adjourn every such enquiry to any other time and place: Provided that if several persons unite in one objection, notice to any one of them shall be sufficient.

11. At such enquiry the warden shall take evidence in relation to the application and objections; and on the second of the two days which shall next follow after such enquiry, he shall forward to the office of the Minister of Mines the application and objections thereto, and the evidence taken by him as aforesaid, together with the sketch-plans and sections to be left with, and the report and map to be furnished to him, as hereinbefore mentioned; and also a report, to be drawn up by him, containing his opinion on the application, the objections, and the evidence.

12. Every applicant who shall require the same shall be permitted, at any reasonable time before the warden shall have forwarded the documents to be so forwarded by him as aforesaid, to take a copy of the report and map, and to examine the said evidence, and to make, or cause to be made, a copy thereof, for his own use and guidance; and every such applicant shall also be entitled to obtain from the warden, at his own expense, a copy of the warden's report.

THE LICENSES.

13. Upon the receipt by the Minister of Mines of the documents to be forwarded to him by the warden as aforesaid, the Governor in Council will, on consideration thereof, and of all objections, if any, to the granting of such license, as well those forwarded by the warden, if any, as any others which may be tendered to him, either refuse the license applied for, or, after the expiration of one month after notice of the intention to grant the same shall have been published in the *Government Gazette*, grant the same as applied for, or modified as he shall think fit, and subject so far as he shall think fit to the provisions hereof, and also subject to the terms to be referred to in such license; and every such license shall be in the form in the schedule hereto marked G, or as near thereto as the nature of the purpose for which the same shall be required will permit.

14. Every license shall bear date the day of the execution thereof by the Governor, and will be transmitted to the warden to whom the application shall have been delivered or such other warden as the Minister of Mines shall choose, at whose office the same may be obtained, who shall deliver the same to the applicant, or such person as shall be duly authorized to receive the same, upon his application therefor within the time herein-after prescribed, and upon delivery to the warden of a receipt showing that a fee of One pound has been paid by the applicant to the clerk of the warden, or if there be no such clerk, to the clerk of the petty sessions holden nearest to the land applied

for, which clerks are to receive such fee and to give such receipt, and also upon delivery to the said warden of a receipt from a receiver and paymaster for the first year's rent.

15. Upon receiving the license the warden shall, as soon after as he can conveniently do so, unless in the meantime the licensee shall apply for and obtain delivery of the license under the provisions of the next preceding clause, give notice of such receipt by advertisement in the *Government Gazette*, therein setting forth the name of the licensee, and describing the land affected by the license as the same shall be described in the license, and shall thereby request the attendance at his office of the licensee to take delivery of the license within seven days from the date of such notice; and should the licensee fail to comply with the terms of the said advertisement, the warden shall return the license to the Minister of Mines, who shall act in the matter thereof as he shall think right.

16. If any license so applied for shall be refused or there shall be a failure to comply with the terms of the notice in the last preceding section mentioned, and the Minister of Mines shall thereupon determine that the license shall not be granted, or if any application for a license shall be withdrawn, the Secretary for Mines shall, on receiving the directions of the Minister of Mines to that effect, cause a notice to be published in the *Government Gazette*, notifying that such ground is open to persons holding miners' rights or business licenses, or to applicants for a lease or license under *The Mining Statute 1865*, as if no license in respect of the said ground had ever been applied for; but so, however, as not to interfere with, or in anywise prejudice or affect any rights or interests under miners' rights or otherwise, existing at the time at which such application shall have been made in the land or water which was intended to be affected by such application. And if any license shall be declared forfeited the said secretary shall, on receiving such directions as aforesaid, notify by such notice as aforesaid that the ground which was affected by such license is open to the holders of miners' rights or business licenses, or to applicants for a lease or license under *The Mining Statute 1865*.

17. All costs and expenses incurred by or on behalf of or by direction of the Crown, by reason of the withdrawal or abandonment of any application for a license, shall be considered expenses within the meaning of the third clause hereof.

18. The land which will be permitted to be used under a license for a race shall not exceed an area of four acres for every mile in length of such race, and no land bordering on any dam or reservoir shall be used by or for the benefit of the licensee for any other purpose than that of collecting, retaining, or storing water: Provided that in case the license shall be for a race, if by reason of any natural impediment it shall be impracticable, or attended with unreasoned difficulty or expense, to cut the same according to the line originally designed therefor, it shall be lawful for the licensee, having first obtained the permission of the Minister of Mines, to deviate in the cutting of such race so far from such originally designed line as shall be necessary to avoid the effects of such impediment.

19. The term for which any license shall be granted shall be determined in each case according as the Governor, from a consideration of the circumstances in each such case, shall think fit, but such term can in no case exceed fifteen years.

20. The rents to be paid shall be as follows:—
For every race, such sum as shall be considered proper, having regard to the quantity of water and the expenditure necessary, but not less than Two pounds per annum.

For every reservoir such sum per annum for every million gallons of water as may be right, having regard to the capacity of the reservoir.

The above rents to be paid yearly in advance.

CONDITIONS UNDER WHICH LICENSES ARE TO BE ISSUED.

21. The grants of licenses to cut and use races shall be subject to the following conditions:—

(i.) If the drainage of any area through which such race shall be cut shall be more than adequate for the supply of the water authorized to be taken by the licensee, and any other such license shall have been granted to some other person to cut and use a race to be supplied with water from the same area, the Governor shall have the right to require the persons to whom such licenses shall have been granted to construct, and they shall on such requisition, at their joint cost, construct a reservoir, to be approved by some person to be appointed by the Governor, for the purpose of the storage of the water of such area in sufficient quantity for the supply of both the said races; and in case any third, fourth, or other subsequent such license shall be granted in respect of the water of the same area of drainage, the same being more than sufficient for the races then supplied therefrom, the Governor shall also have the right, upon any such subsequent grant being made, to require all the persons then holding such licenses to construct, if not theretofore constructed, and they shall on such requisition, at their joint cost, construct such reservoir, or if any such shall have been theretofore constructed, then to enlarge, and they shall on such requisition enlarge the same so far as shall be necessary for the purpose of the storage of water in sufficient quantity for the supply of all the races in respect of which such licenses shall have been granted within such area: such construction or enlargement to be approved of by such person as the Governor shall appoint for the purpose: Provided that if at any time the water derived from such area shall have become diminished to a quantity less than sufficient for the supply of all the races then existing and in use, the several licensees shall be entitled to use such water in the order of priority of dates of their respective grants; provided also that if on the occasion of any such construction or enlargement of a reservoir the parties bound under the provisions hereof to effect the same shall not agree as to the proportion of the expense to be borne by them respectively, the Governor shall be entitled to fix such proportion.

(ii.) If within a drainage area within which one or more than one race shall already have been cut, another license to cut a race shall be granted, the Governor shall have the right to require the licensee or licensees for such one or more than one race, at his or their cost alone, to construct or enlarge such reservoir as in this clause first mentioned, and for the purpose therein mentioned, instead of requiring the same to be done by him or them jointly with the person to whom such other license shall have been granted, and the licensee or licensees so required shall construct or enlarge such reservoir accordingly.

(iii.) If any race shall intersect any road ordinarily used for the passage of wheeled vehicles, whether such road shall have been proclaimed or not, or any footway, race, or canal, the licensee shall, at his own expense, construct good and substantial bridges, footways, roadways, or aqueducts over the same, the several works to be subject to the approval of an officer appointed by the Governor: and such licensee shall maintain all such works in good repair, and shall, if required by the warden, make or cause to be made, at his own expense, temporary roadways, footways, races, or aqueducts, in such manner as shall be by such warden ordered during the time the permanent roadways, footways, or other works are in course of construction: Provided that if any such roads, footways, or other works shall be under the control of any municipal council, road board, or other local body, then and in such case the several works to be constructed by the licensee shall be subject to the approval of an officer to be appointed by such municipal council, road board, or other local body.

(iv.) That where the water to be used by virtue of any such license is to be diverted from any source of supply, the licensee shall divert the same, at the points for that purpose, to be marked on the plan to be endorsed on the said license, and at no other points, save with the consent, in writing, of the Minister of Mines, and in such quantities from each of such points as shall be specified in such license, and shall return or convey such water to the same or any other source of supply at the points for that purpose marked on the said plan, and at no other points save with such consent as aforesaid. If any licensee shall desire that the course of his race or any of the said points of diversion, return, or conveyance should be altered, he may apply to the warden to consider the matter, and if the warden shall, on consideration, be of opinion that such alteration would, having regard to the rights and interests of all other persons, be proper, the warden shall transmit to the Minister of Mines a statement of such his opinion and of the alterations desired, and the said minister may allow the same either as stated or modified as he may think fit, or disallow the same, or the licensee may, if he shall so desire and the said minister shall express his consent thereto in writing, surrender his license and obtain a new license with such alterations either as stated or modified as aforesaid.

(v.) If the warden shall, either from the report of a mining surveyor or from any other facts which may come to his knowledge, be of opinion that any drain or drains should be constructed under a race, or any flume or flumes over a race, the warden shall direct the same to be constructed by and at the expense of the licensee to the satisfaction of a mining surveyor, subject however to the decision of the Minister of Mines in case the matter should be referred to him by the licensee.

(vi.) If the warden, on the application of the holder of a claim intersected by a race, shall be of opinion that such claim could be more effectually worked if a flume or flumes were substituted for the portion of the race intersecting such claim, he may authorize such flume or flumes to be constructed by and at the expense of the holder of such claim.

(vii.) That the licensee for a race shall fix and keep fixed and in proper order, at each point of diversion from any source of supply of water for his race, such gauge-box and of such form and dimensions, having regard to the quantity of water which by his license he shall be empowered to take from such source of supply, as the warden shall, after obtaining the opinion of a mining surveyor in respect thereof, think proper and direct, subject however to the decision of the Minister of Mines in case the matter shall be referred to him by the licensee.

(viii.) A license will be liable to be forfeited at the will of the Governor in any of the following cases, that is to say:—
If the conditions under which a license shall be issued shall not be observed by the licensee, or if any of the obligations lawfully imposed on him shall not be by him fulfilled, or if any race or reservoir shall without good cause be left without being *bona fide* used for a period of six months (an officer to be appointed by the Governor to determine whether the same has been so left without being so used or not), or if any dam or any other of the works connected with any race or reservoir shall become, from imperfect construction or neglect, dangerous to the public, or in any way a nuisance, or shall be suffered to remain out of repair for an unreasonable time (such officer as aforesaid to determine whether such works have so become dangerous, or a nuisance, or suffered to remain out of repair as aforesaid), or if the licensee divert water in greater quantities or from other points or sources than as specified in his license, or do not return or convey the water used by him as therein directed, or shall interfere in any way other than is hereby directed or allowed, or under a license with any tail-water or water after the same shall have been used by him.

22. If in any of the cases aforesaid the Governor shall determine that a license shall be forfeited, a declaration of such forfeiture shall be published in the *Government Gazette*, and thereupon all right and title of the licensee to or in respect of the ground in respect of which the license shall have been granted shall cease, and such licensee remaining on the said

ground or in the use of the subject of the license shall be considered a trespasser, and may be dealt with accordingly.

23. The Governor shall be entitled at any time to revoke any such license and resume possession of the land upon which any such race, drain, dam, or reservoir shall have been cut or constructed, upon payment to the person then entitled to the benefit of any such license of the value of the outlay by such person upon or in respect of such race, drain, dam, or reservoir, and such percentage thereon, not exceeding Fifty pounds per cent., as shall be just, having regard to the value and state of repair of such race, drain, dam, or reservoir, and of the works connected therewith.

24. Licenses to cut races for the taking and using of tail-water for the purposes authorized by the thirty-sixth section of *The Mining Statute 1865*, will be granted, and the several provisions aforesaid will be applicable to such licenses.

25. Any person or persons, or persons or company, who at the time at which these regulations shall come into force shall be in possession of a license issued under the Act of the twenty-fifth year of the reign of Queen Victoria, number one hundred and forty-eight, shall be entitled, if he or they or such company shall so require, to surrender such license, and obtain a license under the thirty-sixth section of *The Mining Statute 1865*, for a period of time equal to the time which at the time of the granting of such last-mentioned license shall be unexpired of the license to be surrendered, and at the rent stated in such last-mentioned license, or for such other time not longer than fifteen years, and such other rent not less than two pounds per annum, as the Governor shall think fit; and such new license shall be subject to the conditions aforesaid, so far as the same can apply.

25. In any case where, at the time of the coming into force of these regulations, a race shall be held under a miner's right, or under miners' rights, or a consolidated miner's right, or a miner's right issued to an incorporated company, a license under the thirty-sixth section of *The Mining Statute 1865*, and subject so far as they can apply to the conditions aforesaid, will be granted to the owner or owners of such race, on his or their, or such company proving his or their or such company's title thereto, to the satisfaction of the Minister of Mines, but subject, however, to any water-rights legally existing at the time of the making of such grant; provided, however, that no person or persons, or company, shall be entitled to such grant, unless he shall have applied to the Minister of Mines therefor within the time in that behalf specified in the *Government Gazette*, for the mining district in which the said race shall be situate.

TRANSFER OF LICENSES.

27. Any person to whom any such license shall have been granted shall be at liberty to transfer the same to any other person, provided that he shall give notice of such transfer to the Minister of Mines. Every such transfer shall be effected by an instrument in writing, signed by the transferor in presence of and witnessed by a justice of the peace, and shall be in the form in the schedule hereto marked H; and every person to whom any such transfer shall be made shall be subject to these regulations as fully as if the license had been originally granted to himself.

COMPENSATION FOR INJURY.

28. In any case in which an application shall be granted to cut or construct any race, drain, dam, or reservoir, in or upon any land demised under the provisions of this or any other Act now or hereafter to be in force, or occupied by virtue of a miner's right or business license, and if the licensee shall enter upon such land the warden shall, on complaint being made by the said lessee of the land or holder of miner's right or business license give notice in writing to the licensee and the lessee of the land, or the holder of the miner's right or business license, as the case may be, to appear before him at a time and place to be named in such notice, and shall then and there receive such evidence as may be tendered to him and as may be pertinent to such enquiry, and shall decide what shall be the amount of the compensation to be paid by the applicant.

PERSONS ENTERING ON LAND APPLIED FOR SUBSEQUENT TO APPLICATION.

29. If any person shall subsequently to the making of any application under these regulations, whilst the same is under consideration, enter upon or occupy any Crown land for which such application has been made, such occupation or entry shall not operate save at the will of the Governor to prevent the issue of a license to the applicant.

MORTLAKE CEMETERY.

RULES AND REGULATIONS OF THE MORTLAKE PUBLIC CEMETERY.

THE Trustees of the above-named Cemetery, in pursuance of the powers and authority given to them, do make the following Rules and Regulations:—

Before any interment shall take place in the said cemetery, application for permission shall be made at the office of the trustees, a reasonable time previously, when an order, in the form or to the effect set out in the schedule hereto annexed, marked A, will be given to the applicant on payment of the proper charges.

All such charges must be paid when the order for interment is given, or before the ground or vault is opened.

The charges will be remitted on the burial of any poor person in such cemetery, on a certificate of a minister of religion, or other sufficient evidence to the satisfaction of the trustees, that such person was a pauper, or that the relatives and friends of the deceased are unable to pay the costs and charges.

The name, age, late place of residence, and probable cause of death of deceased, must be stated at the time of applying for the order, according to the instruction in Schedule B.

The time fixed for the funeral to be the time when the procession is to be at the cemetery, and the same must be observed as punctually as possible.

Until otherwise ordered, the usual hours fixed for the performance of funerals will be from Ten a.m. to Six p.m. in the month of September to April, both inclusive, and from Ten a.m. to Four p.m. in the other four months, except on Sundays, when the usual and only hours for funerals will be from Two to Five o'clock p.m. throughout the year.

The trustees will cause all common graves to be dug, and all orders for interment shall be given to the keeper at the lodge of the cemetery, or at the office of the trustees, in sufficient

time for that purpose, and to allow the necessary arrangement to be made.

No fencing round any grave to be erected until approved of by the trustees.

No servant or other person employed by or engaged in any duty or on behalf of the trustees will be permitted to receive any gratuity for the discharge thereof.

No dogs, horses, or conveyances will be allowed to enter the cemetery.

The ground will be open to the public daily from sunrise to sunset.

The keeper shall have orders to turn out or take into custody, as the case may require, any person who shall behave indecorously, or commit any trespass or injury to the trees, flowers, or erections, or otherwise infringe the Act of Council relating to the cemetery or the regulations for protection of the same; and such person will be proceeded against according to the provisions of the Act.

FAMILY OR PRIVATE BURIAL-PLACES.

The trustees will permit vaults or graves to be dug, maintained, and kept as family or private burial-places, according to the terms of such permission, to and for the sole and separate use of any person desirous to have the same, and his representatives for ever; and monuments or tomb-stones may be erected or placed thereon, in accordance with these rules and regulations, on payment of such fees as shall from time to time be established by them. Permission to have a family or private burial-place will be granted at the office of the trustees, in the form and to the effect set forth in Schedule B hereto annexed.

Parties wanting such graves or vaults will be required to construct them under the direction of the trustees; and in case interment is to be made in any private grave or vault, the consent of the party entitled thereto, in writing, must be left with the order.

No interment shall take place in any vault or private family burying-place until an order be obtained from the trustees, and payment of such charges as shall from time to time be established by them.

All monuments, vaults, graves, burying-places, and grave-stones to be kept in repair and proper condition at the expense of the owners.

Every coffin in a vault or brick grave to be bricked in, cemented, and covered by a slab of freestone, slate, or iron.

A drawing of every stone, tomb, or pedestal, and a plan of every monument or tablet proposed to be erected, and a copy of every epitaph or inscription, shall be submitted to the trustees for approval before permission for the erection or placing thereof shall be given.

In the erection of tablets, copper cramps must be used. The trustees shall determine the position of any monument proposed to be erected, when approved by them; according to the description, size, and character thereof, having reference to the general plan for ornamenting the said cemetery in an appropriate manner.

A plan of the cemetery, showing the situation of the purchased and other graves, shall be kept at the office of the trustees, and may be inspected at the charge set out in schedule; and register of all grants will be kept by the secretary.

The trustees reserve the right to make any alterations from time to time in these charges and regulations.

Tenders to be endorsed with the subject tendered for, as "Tender for —."

J. F. SULLIVAN,
Commissioner of Railways and Roads.

LANDS FOR PASTORAL OCCUPATION.

TENDERS will be received (under the 39th section of *The Amending Land Act 1865*) by the Board of Land and Works up to Noon of Tuesday, the 23rd day of July next, for the occupation (for pastoral purposes only) of the portions of land hereunder described, subject to the following terms, conditions, limitations and provisions contained in *The Land Act 1862* and *The Amending Land Act 1865*, relating to the ordinary pastoral occupation of Crown lands, and to the provisions of the 78th section of the first-named Act defining the privileges of travellers.

1. The period of occupation will be one year from the date of the acceptance of the tender.
2. The minimum fee in each case will be £5, in accordance with the Regulations of the 16th May, 1865.
3. The license fee must be paid every year in advance; the first fee must accompany the tender or be paid by the successful tenderer or his agent immediately on the declaration of the tenders, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition will be accepted.
4. The licenses will be subject to the granting of licenses under the 42nd section of *The Amending Land Act 1865*, without any reduction of the license fee or allowance for compensation during the current year of occupancy.
5. If the land be not required for sale or for other appropriation, the license will be renewable at the option of the said Board, on the same terms and conditions, provided application be made by licensee two months prior to the expiry of the current license, and payment of license fee for the ensuing year be made on approval of the Board being signified.
6. If any error whatsoever be made to appear in the description or area of the portions of land to be licensed hereunder, the same shall be rectified, and a compensation or equivalent in satisfaction thereof, shall be determined by the Board of Land and Works, and accepted by the licensee in full of claim for loss or damage sustained thereby, or in the event of the licensee being dissatisfied with the amount so determined, the Board may cancel such license and return to the licensee the proportionate part of the license fee for the unexpired term of such license.
7. Any improvements made upon the land will be so made at the risk of the licensee, as no compensation will be made for such improvements, neither will any time after the expiration of this license be allowed to remove any improvement so made.

Plans and information may be obtained in this office, and the Survey Offices of Camperdown and Warrnambool.

TENDERS FOR BREADSTUFFS.

TENDERS will be received until Noon on Wednesday, 31st July, from persons willing to supply Bread, &c., in such quantities as may be required in the Melbourne District by the various Departments of the Public Service (except the Imperial Commissariat, Aborigines, and Railways) from 13th August to the 31st December, 1867.

Melbourne District includes Pentridge, Yarra Bend, Richmond, and Collingwood. Security, £150.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne.

Flour and meal bags will be returned when empty. Tenderers must state the security proposed, whether in debentures, bank deposit-receipt, cash deposit, or sureties; if the latter, the certificate on the printed form of tender must be signed by two responsible persons willing to become bound in the sum specified for the due fulfilment of the contract, and the names of the tenderers and their proposed sureties, together with their respective addresses, must be stated at full length upon such certificate.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The Government may elect to require a cash deposit; but any approved security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tenders for Breadstuffs," and be deposited in the Tender-box at the Government Stores, King street; or (if sent by post) must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.

CONDITIONS.

1. All the articles are to be of the best quality of the several kinds, in the best condition, and to be delivered in sound packages.

2. Bread. A sample of the best ordinarily retailed to the public will be considered as a test loaf for first quality. Second quality to be made of flour known in the trade as "best seconds," and the third quality (that issued for prisoners of the Crown) to be made of flour, the produce of prime wheat, from which twelve per cent. has been extracted in bran and waste.

3. Fresh meat is to be supplied in such proportions as may be required, and, when the quantity admits, to be delivered in fore and hind quarters alternately. When shins of beef form a portion of the supply, a fair proportion of the bone, not less than five inches, must have been cut off.

4. The supplies coming under the head of Rations and Medical Comforts are to be delivered direct to the establishment entitled thereto on the written order of the officer in charge. All other supplies will be ordered by the head of department, either for delivery at the Stores and Transport Office, or at the office of the department concerned, as may be stated in the order.

5. The order issued by the head of department must accompany the goods, and the account is to be rendered simultaneously with delivery of the supplies. In other cases the account is to be rendered monthly. The rates quoted in the orders cannot be exceeded.

6. Should the contractor fail to supply any articles at the time mentioned in the order they will be otherwise procured, and the expense over and above the contract price will be deducted from his account.

7. In the event of a difference of opinion between the Contractor and the officer receiving the supplies as to the quality, the same to be decided, in cases where the article is not of a perishable nature, by a Board of Survey composed of persons named by the head of the department, and the decision of the board is to be considered final.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured by the person requiring it, and the expense charged as in clause 6.

9. In cases where the article is of a perishable nature, or when from some other cause injury would be sustained either by the person to whom the rations are due, or to the contractor, in waiting for a Board of Survey, the head of the department, or officer in charge of the station, will have power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and that the contractor must take back the rejected article and supply good in its stead; failing which it will be obtained by the officer requiring it, and the expense charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report of the Tender Board, to such mulct, not exceeding £50, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

11. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognised by the Government.

12. It will be competent for the Inspector of Stores, on behalf of the Government, or the contractor on his own behalf, to terminate the contract, by giving, in writing, a notice of three full calendar months, it being understood that such notice can be given only from the first day of the month. It will also be competent for the Inspector of Stores to terminate the contract, without notice, should there be reason to know that the contractor takes advantage of his contract to communicate improperly with a prisoner.
