BYE-LAW No. 1.—REPEAL OF EXISTING BYE-LAWS.

From and after the date at which these bye-laws shall come into operation, all and singular, the bye-laws hitherto framed by the mining board of Gippsland, and now in force for the mining district of Gippsland, shall be, and the same are hereby annulled and repealed. Nevertheless, no existing interest or privilege shall be deemed to be affected by the repeal of the bye-laws under which such interest is occupied or enjoyed.

BYE-LAW No. 2.—DISPUTED ELECTIONS.

1. It shall be competent for any duly qualified elector, or member of this board, at any time to dispute the validity of the election of any member thereof, by lodging with the chairman of this board a written statement of objections against the person occupying a seat thereat, whom they consider has not been duly elected.

2. Upon the receipt by the chairman of this board of any such statements, the person lodging the same shall be informed at what time the board will investigate such dispute, and shall also be instructed to bring with him whatever documentary or other evidence he may possess bearing on the subject of such disputed election. The member whose election is in dispute shall also receive notice of the time when the dispute is to be investigated.

3. At the time appointed for the hearing of the dispute, the objectors, and also the member objected to, shall produce their miner's rights, and the board shall then proceed to investigate the matter, and shall hear statements in evidence from either party. The hearing of the dispute may be adjourned for any period which may in the opinion of the board be deemed necessary.

4. At the close of the investigation the votes of the members of the board shall be taken in the usual manner, "Aye" or "No," and the majority of either finding shall be declared by the chairman. In the event of the finding being equal, the chairman shall give his casting vote, and such decision shall be final and conclusive in the matter of such disputed election.

5. Should the decision of the board be that the member objected to has not been duly elected, the chairman shall forward to the returning officer a copy of the resolution to that effect.

BYE-LAW No. 3.—STANDING ORDERS OF THE GIPPSLAND MINING BOARD.

1. On the assembling of the board after every election the clerk shall read the returning officers' intimation setting forth the names of the persons who have been elected as members of the board, and the division for which they have been returned.

2. Every member, on first taking his seat at the board, shall enter his name and address in a book to be kept for that purpose.

3. The board having been constituted, the minutes of the previous meeting shall be read by the clerk. No discussion shall be allowed on such minutes, except as to their accuracy as a correct record of the proceedings of the board.

4. The reading of the correspondence received shall then be taken as the next order of the day.

5. All motions, and notices of motion, shall be given in writing to the chairman, and shall be read, signed, and dated by the mover.

6. Any motion or amendment not seconded, shall not be further debated, but shall lapse; and no discussion shall be allowed on a motion for adjournment.

7. Any member having proposed a motion or amendment may withdraw the same; but should it be seconded, it can only be withdrawn by consent of the board.

8. Any member having a new bye-law to introduce shall furnish to the clerk of the board a copy of such bye-law at least one month before the next sitting of the board, and the clerk shall furnish a copy of such proposed bye-law to each member of the board at least fourteen days before the next sitting of the board.

9. All motions which, if carried, would have the effect of introducing new regulations into the district, shall be first affirmed by the board, then considered in committee of the whole, and if necessary, amended, and shall again be affirmed by the board before it shall be deemed to be finally adopted by the board. No such motion shall be read a third time except at the time appointed for the third reading of all which have been agreed to at the same sitting of the board.

10. The mover of any motion or amendment, or any member speaking thereto, shall rise and address the chairman, and shall not be interrupted unless called to order, when he shall resume his seat until the member raising the point of order shall have been heard, and the question of order disposed of by the chairman, whose decision shall be final, when he (the said original speaker) shall proceed with the subject.

11. All members, including the chairman, shall stand while addressing the board.

12. If two or more members rise at the same time to speak, the chairman shall decide who is entitled to priority.

13. One amendment shall only be discussed at one time, but if lost, one other can be moved before the original motion is put to the vote. In the event, however, of an amendment being carried, the original motion shall be deemed rejected, and the amendment so carried shall take the place of such original motion; and on it one amendment can be moved but no more.

14. No member shall speak twice to any question or motion before the board, except (with the sanction of the chairman) in explanation or reply, or in committee of the whole, notwithstanding a member making a substantive motion shall have the right of reply: any member merely seconding a motion shall not be held to have spoken to it.

15. All questions before the board shall be determined by the chairman putting the question to each individual member, who shall vote by replying "Aye" or "No."

Provided that when a claim is declared forfeited it shall be lawful to have any road, timber, mining plant, or other materials absolutely beneficial to the applicant valued by the mining surveyor, such valuation shall be subject to the approval of the warden, and that the amount of such valuation (if any), together with the cost of estimating such value, shall, within forty-eight hours, be paid to the original owner or lodged with the mining registrar, such payment or lodgment shall be a condition precedent to putting the applicant in possession of such claim.

Provided always that such registration shall afford no protection to the parties obtaining the same, in any case where the same has been obtained through any wilful misrepresentation of facts; and should work not be resumed as hereinbefore provided, then such ground shall be deemed to be forfeited, and may be taken possession of in the manner provided for in Bye-law No. 8, except, in the case of river, creek, or bank sluicing claims, which may be suspended during the continuance of floods or want of water.

And the owner or owners of such claim shall be deemed to be working the same in a *bond fide* manner as much as if they employed hired workmen for that purpose, and shall enjoy all the rights, privileges, and exemptions contained in the bye-laws now in force. Provided always, that if after seven (7) days' notice, in writing, of such neglect, absence, or omission being given to such miner, either personally or by leaving the same at his last known place of residence, or in the event of the owner or owners being absent or, not to be found, and such notice having been advertised in one or more newspapers circulating in the division in which the claim is situated, such neglect, absence, or omission, if continued, said miner shall be deemed to have abandoned his claim or portion of claim, or share or interest therein, as the case may be.

5. If the use of a water-right shall be abandoned for any period exceeding one month at a time, when water is available for it, the right shall be deemed forfeited, and on application being made to the warden, and the same being declared forfeited by him, the applicant may be put in possession thereof.

6. The alteration of the course of a race at any time shall not in any way affect any water-right or any privilege attached to such race.

7. If the water flowing in any river or creek is insufficient to supply all the water-rights derived from such river or creek, the owner of any water-right shall, on receipt of a water notice from the owner of any superior water-right (in form of Schedule L,) cease to divert or make available to the superior water-right his supply of water, or such portion thereof as shall be necessary to make up the supply of the superior water-right, and shall not resume such diversion until a supply in excess of the quantity allowed to such superior right shall be available.

Any spring, waterhole, or other depository of water may be reserved for domestic purposes on the following conditions, viz.:

Application shall be made to the mining registrar for the registration thereof (in the form of Schedule G) by not less than five holders of miners' rights or business licenses, and a copy of the certificate of such registration shall be posted in a conspicuous place near such water; nevertheless, any surplus water that may overflow from such reserved spring, waterhole, or other depository of water, or any water that may be in excess of the requirements of those for whose use such water is reserved may be registered, diverted, and used for mining and other purposes.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders will be received for either oats, bran, hay, or straw; but if all be included in one tender, it may be accepted for one article only, if advisable.

Tenders must express the prices in words as well as in figures, and without alterations or erasures.

As much forage as the storage will accommodate will be ordered at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs for bran (net weight), including delivery at the stations and all charges; bags to be returned when empty.

Tenders not complying with the terms of advertisement will not be entertained.

The successful tenderer will be required to enter into a bond for one-third of the estimated amount of the contract, within ten days after the acceptance is notified. Two approved securities are required for contracts amounting to £150 and upwards, and one surety for contracts under £150.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

All tenders must be enclosed in a separate envelope, marked "Tender for Forage," and deposited in the box at the Government Stores, King street; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice, and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheat, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximative, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed, or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

4. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

5. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

6. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey, composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

7. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 5.

8. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 5.

9. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

11. It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice can only be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1868; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.
