GRANVILLE.

*Lieut.-Col. Scott to the Under Secretary of State, Colonial Office.*

Office of Her Majesty's Commissioners for the Exhibition of 1851,  
5, Upper Kensington Gore, W., 10th August, 1869.

SIR,—I am directed by Her Majesty's Commissioners for the Exhibition of 1851, to transmit, for the information of the several British colonies, copies of the announcement of the first of the series of International Exhibitions of selected Specimens of Art and Industry, which it is intended shall be held in London in 1871, and to request that you will move the Earl Granville to cause them to be forwarded to each colony as early as convenient.

Her Majesty's Commissioners desire me to point out that these exhibitions will be on a comparatively limited scale, that the objects sent from each colony will not be arranged together as heretofore, but in their proper classes, and that it is desired that manufacturers should exhibit only a single specimen of each object.

Her Majesty's Commissioners will be prepared to receive colonial objects for exhibition under the following special regulations, viz. :—

(1). Every object which can be exhibited on a vertical surface, or wall space, will be accepted, if accompanied by a certificate from the Government of the colony where it was produced, that such object is considered worthy of exhibition.

(2). Every producer desiring to exhibit an object, which will require for its exhibition superficial or floor space, must forward to Her Majesty's Commissioners, before a date to be hereafter appointed, a working drawing or photograph of such object, with accurate dimensions and descriptive particulars, on receipt of which, Her Majesty's Commissioners will, if the object be considered

worthy of exhibition, transmit direct to the producer a certificate of the acceptance of such object, thereby guaranteeing its admission.

(3.) Any producer may, at his option, instead of conforming with either of the foregoing regulations, send any object direct to the Exhibition Building, for the inspection and approval of the judges selected for the other British exhibitors, and under the same regulations as shall be prescribed with reference to other British goods so submitted for inspection.

Further particulars having reference to the specialities of each colony will hereafter be sent.

I have, &c.,

(Signed)

Lieut.-Col. Royal Engineers.

The Under Secretary of State, Colonial Office.

By His Excellency the Honorable SIR JOHN HENRY THOMAS MANNERS SUTTON, Knight Commander of the Most Honorable Order of the Bath, Governor and Commander-in-Chief in and over the Colony of Victoria, &c., &c., &c.

WHEREAS by an Act of the Imperial Parliament of Great Britain and Ireland, passed in the thirty-second year of Her Majesty's reign, intitled *An Act for amending the Law relating to the Coasting Trade and Merchant Shipping in British Possessions* (a copy of which is hereunto subjoined), it is, amongst other things, enacted that the said Act shall be proclaimed in every British possession by the Governor thereof as soon as may be after he receives notice of the said Act, and shall come into operation in that British possession on the day of such proclamation: Now therefore I, the Governor of Victoria, in pursuance of the power vested in me by the said Act, do hereby proclaim the said Act, and declare that it shall come into operation in the said colony of Victoria from this date.

Given under my Hand and the Seal of the Colony, at Melbourne, this nineteenth day of November, in the year of our Lord One thousand eight hundred and sixty-nine, and in the thirty-third year of Her Majesty's reign.

By His Excellency's Command,

GOD SAVE THE QUEEN!

## MERCHANT SHIPPING (COLONIAL), 1869.

## CHAP. II.

*An Act for amending the Law relating to the Coasting Trade and Merchant Shipping in British Possessions.*—[13th May, 1869.]

BE it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

## PRELIMINARY.

1. *Short title.*—This Act may be cited as *The Merchant Shipping (Colonial) Act 1869.*

2. *Definition of terms.*—“*British possession*,” “*Legislature*.”—In this Act, unless the context otherwise requires,—

The term “*British possession*” means any territory or place situate within Her Majesty's dominions, and not forming part of the United Kingdom, or of the Channel Islands, or Isle of Man; and all territories and places under one legislature as hereinafter defined are deemed to be one British possession for the purposes of this Act:

The term “*legislature*” includes any person or persons who exercise legislative authority in the British possession, and where there are local legislatures as well as a central legislature, means the central legislature only.

3. *Commencement of Act.*—This Act shall be proclaimed in every British possession by the governor thereof as soon as may be after he receives notice of this Act, and shall come into operation in that British possession on the day of such proclamation, which day is hereinafter referred to as the commencement of this Act.

## COASTING TRADE.

4. *Regulation of coasting trade by colonial legislature.*—After the commencement of this Act the legislature of a British possession, by any Act or Ordinance, from time to time, may regulate the coasting trade of that British possession, subject in every case to the following conditions:

- (1.) The Act or Ordinance shall contain a suspending clause, providing that such Act or Ordinance shall not come into operation until Her Majesty's pleasure thereon has been publicly signified in the British possession in which it has been passed.
- (2.) The Act or Ordinance shall treat all British ships (including the ships of any British possession) in exactly the same manner as ships of the British possession in which it is made.
- (3.) Where by treaty made before the passing of this Act Her Majesty has agreed to grant to any ships of any foreign state any rights or privileges in respect of the coasting trade of any British possessions, such rights and privileges shall be enjoyed by such ships for so long as Her Majesty has already agreed or may hereafter agree to grant the same, anything in the Act or Ordinance to the contrary notwithstanding.

5. *Secs. 323 and 163 of 16 and 17 Vict. c. 107, repealed.*—The following sections of *The Customs Consolidation Act 1853*, are hereby repealed; namely,

Section three hundred and twenty-eight as from the commencement of this Act:

Section one hundred and sixty-three as from the date in the case of each British possession at which either an Act or Ordinance with respect to the coasting trade made within two years after the commencement of this Act in such British possession comes into operation, or if there is no such Act or Ordinance, at which the said two years expire.

## MERCHANT SHIPPING.

6. *Registrars of British ships in British possessions.*—It shall be lawful for Her Majesty, by Order in Council, from time to time to declare, with respect to the British possession mentioned in the order, the description of persons who are to be registrars of British ships in that British possession, and to revoke any order so made.

After the date specified in the order, or, if no date is specified, after the date of the proclamation of the order in the British possession, the order shall have effect as if it were contained in section thirty of *The Merchant Shipping Act 1854.*

7. *Application of merchant shipping Acts to Canada.*—In the construction of *The Merchant Shipping Act 1854*, and of the Acts amending the same, Canada shall be deemed to be one British possession.

8. *Colonial certificates to master, mates, and engineers.*—Where the legislature of any British possession provides for the examination of, and grant of certificates of competency to persons intending to act as masters, mates, or engineers on board British ships, and the Board of Trade reports to Her Majesty that they are satisfied that the examinations are so conducted as to be equally efficient as the examination for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner, it shall be lawful for Her Majesty, by Order in Council,

1. To declare that the said certificates shall be of the same force as if they had been granted under the said Acts:
2. To declare that all or any of the provisions of the said Acts which relates to certificates of competency granted under those Acts shall apply to the certificates referred to in the said order:
3. To impose such conditions and to make such regulations with respect to the said certificates, and to the use, issue, delivery, cancellation, and suspension thereof, as to Her Majesty may seem fit, and to impose penalties not exceeding fifty pounds for the breach of such conditions and regulations.

Upon the publication in the *London Gazette* of any such Order in Council as last aforesaid, the provisions therein contained shall, from a date to be mentioned for the purpose in such order, take effect as if they had been contained in this Act.

It shall be lawful for Her Majesty in Council to revoke any order made under this section.

THE Governor in Council has authorized John Hannan to occupy, for mining purposes, for a period not exceeding three months from the date hereof, all that piece or parcel of land containing three roods and twenty perches, more or less, being part of the Volunteer Drill Ground at Castlemaine, which is described as follows: Commencing at the north-western angle of the block which bears east one chain fifty links from the north-eastern angle of section 117 B, Castlemaine; thence bounded on the north by a line bearing east one chain; on the east by a line bearing south sixteen degrees forty-two minutes east five chains twenty-two links; on the south by Forest street, bearing west two chains fifty links; and on the west by Gingell street, bearing north five chains, more or less, to the point of commencement, subject to the following conditions, namely:—

1. The surface of the ground shall not be occupied for the purpose of residence, nor shall any tents or huts be erected thereon.
2. No shaft shall be sunk or excavation made within a distance of fifteen feet from the creek channel.
3. Only one block of ground, the extent of which shall not exceed fifteen feet by twelve feet, shall be mined upon at any one time; and each such block shall be properly filled in and levelled to the satisfaction of the warden, before mining operations shall be commenced upon any other block.
4. During the progress of such mining operations, all excavations and heaps of headings, &c., shall be securely enclosed by a substantial fence, and a light shall be kept burning at night in the vicinity thereof.
5. The mining operations hereby authorized, shall be conducted in such a manner as not to injure the fencing upon or adjacent to the land above described, or the streets forming the boundaries thereof.
6. Before commencing mining operations under the authority of this order, the said John Hannan shall deposit in the hands of the receiver and paymaster at Castlemaine, the sum of Ten pounds sterling, as a guarantee that he will observe and fulfil these conditions. On the discontinuance of mining operations on the said land, if the above conditions shall have been fulfilled, one-half of such deposit shall be returned to the depositor upon his applying for the same; and if during a further period of six months all depressions in the surface of the ground mined upon which may have from time to time occurred, shall be satisfactorily filled in and levelled, and the surface of the ground levelled in as good a condition as before the commencement of mining operations, the remaining half of the said deposit shall be also returned to the said depositor; but if any of the conditions be not fulfilled—of which the warden shall be the sole judge—the whole, or any part of the said deposit, may be forfeited, and the cost of repairing any damage done to the reserve shall be defrayed out of the moneys so deposited, not as a penalty, but by way of liquidated damages.
7. In case any person mining under the authority of this order shall in any way violate the above conditions, it shall not be lawful for him any longer to mine upon or within the said lands.

**IRON CASTINGS.**

TENDERS will be received until Noon on Tuesday, the 30th of November, 1869 (postponed from 23rd November), from persons willing to furnish Iron Castings, in such quantities as may be required for the Government Railways, from 1st January until the 31st December, 1870.

The castings are required for locomotive engine work, carriage work, &c.

Whenever specially ordered, the castings shall be run from the very best "cold-blast iron," and of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the Locomotive Superintendent, so as to produce a hard, close, soft, or other description of metal.

The castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honeycomb, cinder, or any other imperfection, and are to be sound in every respect and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be requested, and no extra charge shall be made or allowed for same; and the contractor will be required to remove the head or runner from the casting where possible, and charge the casting at the net weight only, trimmed and cleaned. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Government, and returned to the Melbourne Station, there to be delivered to the contractor free of cost of carriage.

Whenever ordered, the castings are to be moulded in loam without a pattern, and loam price will be paid according to schedule, but no extra charge will be allowed for patterns, strickles, or loam boards. The orders will express the kind or description of casting according to the schedule distinction; and the rates there filled in opposite each item will be allowed accordingly.

The Government will supply all patterns, and deliver the same to the Melbourne Station free of cost, from whence the contractor must fetch them when required and when due notice of same has been given in writing, and no cost for carriage from Spencer street Station to the contractor's place of business will be allowed.

Whenever only one or two castings are required, and they can be moulded from the broken originals, the contractor will be bound to mould from such patterns without requiring the Government to supply a wooden or other pattern for same, and no extra price will be allowed.

All pipes and bends must be moulded in loam whenever required, and a loam pattern made. A loam pattern must be struck up for any casting when a pattern cannot be supplied, and when only one casting or so is required, and when of that simple form that it can be made from a loam pattern; and no extra rate or charge will be allowed for the loam pattern beyond the loam price stated in schedule. The Government will supply all necessary striking boards, but no plates or cramps.

All patterns, loam boards, &c., supplied by the Government must be returned by the contractor in good order to the Government with the castings, and delivered to the Railways. Stores at Williamstown, and no allowance will be made for return carriage.

The following must all be of good mixture of "cold-blast" iron:—

- No. 1.—Locomotive or engine cylinders ... per cwt.
- No. 2.—Castings of all descriptions moulded in loam or sand and oven dried ... "
- No. 3.—Very best description of sand castings, moulded in boxes, as specified, and dried if required ... "
- No. 3a.—Chilled castings ... "

The following must all be of good mixture of "hot-blast" iron:—

- No. 4.—Open sand castings ... per cwt.
- No. 5.—Common heavy castings, for furnace work, &c. ... "
- No. 6.—Furnace bars ... "
- No. 7.—Railway chairs ... "
- No. 8.—General heavy permanent-way castings ... "
- No. 9.—Water pipes of any shape, bends, sockets, T pieces, &c., of four inches diameter and upwards ... "
- No. 10.—Water pipes in straight lengths of four inches diameter and upwards ... "

Security will be required in the amount of £50 for due fulfilment of the contract, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect.

Forms of tender may be obtained from the Secretary to the Tender Board.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Secretary of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tenders for Iron Castings," and deposited in the Tender Box at the Stores Tender Board Offices, Treasury; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Stores Tender Board Offices, Treasury, Melbourne.

#### CONDITIONS.

1. All orders for supplies under these contracts must issue from the Secretary of Railways, and all goods must be delivered free of charge to the Railway Stores, Williamstown, unless otherwise ordered by the Secretary.

2. Notwithstanding the delivery of any castings into the store and a receipt having been given for them, should such castings turn out unsound, not in accordance with pattern or instructions, or in any way whatever defective, or of different quality of iron to that ordered, they must be taken away from the Railway Store at Williamstown at the expense of the contractor, and other castings must be supplied in lieu thereof, without delay, and without additional charge.

3. Tenderers must fill in opposite to each particular item in the schedule the price at which he undertakes to execute the work, according to the specification and conditions.

4. Should the contractor, in the opinion of the Engineer-in-Chief, fail to furnish work in accordance with the specification, then, in seven days after due notice to that effect shall have been given, in writing, the Secretary for Railways shall have full power to re-advertise and let this contract to any other person the Government shall think fit; and at the expiration of seven days after such notice shall have been given to the contractor this contract shall become null and void.

5. The contractor must furnish with each delivery detailed invoices or bills of parcels, in duplicate, showing quantity, rate, and value, also the number of the order of the goods, otherwise they will not be received. Delivery, as a rule, is to be of the full quantity ordered at one time.

6. The contractor will prepare his own account on the prescribed form, and render the same to the Railway Storekeeper for certification, previously to payment at the Treasury.

7. In the event of a difference of opinion between the contractor and the officer requiring the supply as to the quality, the same is to be decided by a board of survey, composed of persons named by the Engineer-in-Chief, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor.

9. The Locomotive Superintendent will have power to reject such article or articles as are obviously of inferior character, or not in accordance with the specification, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

Contractors are not at liberty to transfer their contracts under power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

10. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report from the Locomotive Superintendent, to a penalty not exceeding Ten pounds; and it will be in the power of the Government, upon repetition of such irregularities, to terminate the contract forthwith.

11. It will be competent either for the contractor on his own behalf, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving a notice in writing of full three calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

FRANCIS LONGMORE,  
Commissioner of Railways.

Railway Department,  
Melbourne, 3rd November, 1869.

#### COAL.

TENDERS will be received until Noon on Tuesday the 30th of November, 1869 (postponed from 23rd November), from persons willing to supply Coal at Melbourne and Geelong, in such quantities as may be required by the Engineer-in-Chief, for Government Railways, from the 1st January to the 31st December, 1870, inclusive.

The estimated consumption at Melbourne, during the year, will be about 11,000 tons, and at Geelong 4000 tons.

The coal is to be delivered daily on the coal platforms, and during such hours as may be required by the officer receiving, and at such part of the station ground as may be pointed out, in bags each containing 14 cwt. net, weighed at the expense of the contractor on the coal platform.

The contractor will be required at his own cost to provide a sufficient supply of coal bags to keep two days' supply upon the Melbourne and on the Geelong coal platforms, and the contractor will bear all loss through wear and tear of bags.

The bags will be returned to the contractor on the third day following the delivery, and a receipt must be given by the contractor or his agent, at the time of the receipt of the bags, for

all bags returned, and the Government hold themselves responsible only for deficiency in return of bags.

Forms of tender and further particulars may be obtained from the Locomotive Superintendent, Melbourne, or the Loco. Foreman at Geelong, and the Secretary, Tender Board.

Security will be required, to the amount of £1000, for the due fulfilment of the Melbourne, and £500 for the due fulfilment of the Geelong contract, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect.

Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, endorsed "Tender for Coal, Railway," are to be deposited in the Tender-box at the Stores Tender Board Offices, Treasury, or if sent by post, they must be addressed to the Chairman of the Tender Board, Stores Tender Board Offices, Treasury, Melbourne.

#### CONDITIONS.

1. The coal is to be of the very best quality, for locomotive engine purposes, and must be either screened before delivery, over a screen with bars at least one inch apart and ten feet long, set at an angle of 45 degrees to the ground level, or hand-picked so as to be of the same size as if screened in the above manner, and be quite free from small shale or other impurities.

2. The orders will be issued by an officer of the railway department, and, should an order not be complied with within twenty-four hours, it will be competent for the local officer who ordered, to purchase at the contractor's risk.

3. Coal, when delivered, is to be accompanied by the order, which will be receipted by the officer receiving the supply, and must be rendered with the contractor's accounts.

4. The contractor will be required to prepare his own account monthly or bi-monthly on the prescribed form, and present the same in a complete state to the Locomotive Superintendent, who will send it forward to the Railway Storekeeper, to be passed for payment at the Treasury, or at a district pay office as the case may be.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by the Engineer-in-Chief or the Locomotive Superintendent, and the decision of either is to be final.

6. The Engineer-in-Chief or officer in charge at the station will have the power to reject coal which is of inferior quality, and the contractor must take back the rejected coal, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense charged to the contractor.

Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

7. A repetition of irregularity in the quality or quantity of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Fifty pounds for each case, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

8. It will be competent for the contractor, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving, in writing, a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

9. The contractor will not be exempt from wharfage or other import or landing rates.

Commissioner of Railways.

Security will be required to the amount of Twenty pounds for the due fulfilment of the contract, either in Government debentures, bank-deposit receipt, or cash deposit, as the tenderer may elect.

Forms of Tender may be obtained from the Secretary to the Tender Board.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Secretary of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, endorsed "Tender for Coal for Smithy purposes," are to be deposited in the Tender-box at the Stores Tender Board

Offices, Treasury; or if sent by post, they must be addressed to the Chairman of the Tender Board, Stores Tender Board Offices, Treasury, Melbourne.

**CONDITIONS.**

1. The coal is to be of the very best quality for smithy purposes, and must be screened before delivery over a screen with bars half an inch apart, and afterwards through a screen with bars an inch apart, and that which has passed through the bars one inch apart is to be delivered, and is to be what is termed nutty smiths' coal, free from lumps, dust, shale, sulphur, and other impurities.

2. The contractor is to deliver the coal screened, ready for use, into the waggons on the railway or breakwater pier at Williamstown, at the option of the Government, or may deliver into the railway waggons at any station on the Victorian Railways. The coal will be weighed by the Government, and such weight and returns shall form the basis upon which the contractor's account will be made out.

3. The contractor will be required to produce the invoice and a letter from either company, to prove the genuineness of the coal, before it will be received. The coal will be afterwards subjected to such test as the Engineer-in-Chief may decide, before acceptance.

4. The contract entered into under this notice is not to be considered as being infringed or vitiated by the importation of smiths' coal by the Government for the service of the Victorian Railways, or the purchase of slack or small coal.

5. The contractor will be required to prepare his own account monthly or bi-monthly on the prescribed form, and present the same in a complete state, signed by the officer receiving the supply, to the Locomotive Superintendent, who will send it forward to the Railway Storekeeper to be passed for payment at the Treasury or at a district pay office, as the case may be.

6. In the event of a difference of opinion between the contractor and the officer receiving the supply, as to the quality of the coal, the same is to be decided by a board of survey composed of persons named by the Engineer-in-Chief, and the decision of the board is to be final.

7. If the delay necessary for obtaining the decision of a board of survey should be detrimental to the public service, the Engineer-in-Chief or Locomotive Superintendent will have the power to reject coal which is of an inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected coal and supply good in its stead, failing which it will be procured elsewhere, and the extra expense charged to him.

8. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Twenty-five pounds for each case, as the Government may direct; and it will also be in the power of the Government to terminate the contract forthwith.

9. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

10. It will be competent for the contractor, or for the Secretary for Railways on behalf of the Government, to terminate the contract, by giving, in writing, a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

11. The orders will be issued by the Secretary, on the requisition of the Locomotive Superintendent; and, should an order for Australian Agricultural or Wallsend coal not be complied with and satisfied within twenty-one days, the Railway Storekeeper shall have power to obtain the supply elsewhere, and charge the extra cost of the same to the contractor.

12. The estimated consumption of coal for smiths' use during the year will be about 100 tons; but the Government do not bind themselves to order that quantity, but only what may be required from time to time.

FRANCIS LONGMORE,  
Commissioner of Railways.

Railway Department,

Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The contractor will be paid for the wood only on the measurements made by the officers of the Government, after it has been delivered and properly stacked by the contractor and left as aforesaid; payment will then be made at the rate of 90 per cent. at the completion of each delivery of 100 tons; the remaining 10 per cent., together with the cash security, will be paid over to the contractor on the certificate of the Engineer-in-Chief that the whole of the contract has been completed to his satisfaction.

The firewood is to be delivered at each place mentioned herein, and is to be delivered at the rate of at least 100 tons per week at each place mentioned, commencing not later than the 1st day of January, 1870.

For each and every week's delay in the delivery beyond the times specified in this contract the Government shall be entitled to deduct, as and for liquidated damages, the sum of £10 sterling.

The officer appointed by the Government to receive and inspect the wood shall have full power to reject any wood which he may consider not in accordance with the specification, notice of which will be given to the contractor, in writing, stating the reason.
