His Excellency the Governor

Major-General Sir Trevor Chute, K.C.B.	Mr. McKean
Mr. MacPherson	Mr. Cohen
Mr. McDonnell	Mr. Smith
Mr. Aspinall	Mr. Longmore
Mr. Berry	Mr. McLellan.

WHEREAS by the 58th section of "*The Land Act 1869*" it is enacted that the Governor shall have power, from time to time and at any time, under regulations to be made for such purpose, to proclaim any Crown lands as a common, and place it under the management of any borough or shire council, mining or road board, or any person or persons, or any two or more of the said councils, boards, or persons, and to direct the manner by which the fees shall be imposed, paid, collected, and recovered for depasturing thereon, and how such fees shall be disposed of: And whereas by the 59th section it is enacted that the Governor shall have power to appoint managers and to frame regulations for the management of any common heretofore proclaimed or hereafter to be proclaimed: Now therefore the Governor, acting by and with the advice of the Executive Council, doth by this present order make the regulations following:—

1. In the construction and for the purposes of these regulations, the words "large cattle" shall mean cows, heifers, oxen, steers, mares, geldings, colts, fillies, asses, and mules; the words "small cattle" shall mean sheep and goats; and the word "farmer" shall mean a person who resides on and uses for the purpose of agriculture or dairying land held by that person, either in fee or under lease or license issued under "*The Land Act 1862*," "*The Amending Land Act 1865*," or under "*The Land Act 1869*."

2. Application for the proclamation of a common under "*The Land Act 1869*" shall be made in the form prescribed in Schedule A hereto, and must be signed by not less than ten owners or legal occupiers of land not nearer than five miles to any existing common whereon they could legally depasture cattle.

3. Application for the increase of any existing common shall be made in the form prescribed in Schedule B hereto, and must contain full particulars relative to the area of the common to be increased, the number of cattle depastured thereon during the year preceding the date of the application, the number of persons whose cattle have been depastured on the common during such year, the amount of commonage fees received during that year, and how such fees have been disposed of.

4. Ratepayers in shires, road districts, and boroughs, holders of miners' rights, business licenses, or carriers' licenses, and farmers, shall be respectively entitled to depasture on a common proclaimed under "*The Land Act 1869*," within a distance of five miles from their places of residence, four head of large cattle, or the equivalent of the whole or a portion thereof in small cattle, on the basis that one head of large cattle be deemed equivalent to three head of small cattle. A farmer having under cultivation not less than one-tenth portion of the land occupied by him shall be allowed to depasture on such common one additional head of large cattle, or the equivalent in small cattle, for every ten acres of such land cultivated by him.

5. The fees for depasturing cattle on a common shall be paid in advance, and shall not be less than at the rate of four shillings per annum for every head of large cattle, and one shilling and four pence per annum for every head of small cattle. The managers of any common may, from time to time and at any time, make alterations in the scale of fees within the prescribed limits, which alterations shall be subject to the approval of the Board of Land and Works, and be published in a newspaper circulating in the district wherein the common is situated.

6. The managers of a common shall have power to appoint a herdsman to take charge of the cattle depastured on such common, and be responsible for the efficient carrying out of the regulations framed for the management of that common. He shall also conform to any special instructions issued to him by its managers relative to the registration, custody, and delivery to owners of the cattle thereon, and to the prevention of trespass thereon of cattle other than travelling cattle for which no commonage fees have been paid. Such herdsman shall be remunerated for his services out of the fund derived from the commonage fees, and he shall provide security for the honest and faithful discharge of his duties in such amount as the managers of the common may deem adequate.

7. The managers of commons wholly or partially comprised within boroughs or townships, and of gold-fields commons proclaimed under the Acts No. 117 or 145, may grant to butchers or to slaughtermen special licenses to depasture, for such periods of time as may be agreed on, cattle intended for slaughter, subject to the condition that the fees shall not be at a proportionably less rate than four shillings per head per annum for large cattle, and one shilling and four pence per head per annum for small cattle.

8. The money derived from the fees received for the agistment of cattle on a common may, in addition to the defraying of the remuneration of the herdsman, be expended by the managers of such common on the publication of the regulations for its management, the purchase of books, stationery, branding-irons and tar, and on the eradication of thistles on the common. The surplus after such expenditure may be disposed of, with the concurrence of the Board of Land and Works under its seal, in the formation of dams for storage of water on the common, the improvement of natural water-holes, the construction of stockyards, and the improvement of the approaches to the common.

9. The managers of commons shall keep books in the forms prescribed in Schedules C and D hereto, in which books shall be recorded the description and brands of the cattle depastured on the commons, the money received as commonage fees, the payments made from the funds derived therefrom, the dates of such

payments, and the authority for making them; and the managers shall give printed receipts in the form of the Schedule E hereto annexed consecutively numbered, the butts of which receipts must be retained for inspection.

NOTE.—The Melbourne Hospital is in Melbourne Proper, the Benevolent Asylum in North Melbourne and Carlton, the Yarra Bend Lunatic Asylum in Jika-jika parish (remainder of), and the Industrial Schools in South Yarra and Prahran.

* This calculation is made upon the population at the last census, instead of the present population, as there are no means of estimating the changes which have taken place in the different sub-districts since the census was taken. It is believed that the present population of the whole district of Melbourne and suburbs amounts to 175,000. If this be correct, the mortality of the month under review would indicate a proportion of 2.11 deaths to every 1000 persons living.

The mortality of Melbourne and suburbs, together with the mean temperature in the shade and the mean atmospheric pressure, during the month of February for the ten years 1860-1869 were as follow:—

Year	Number of Deaths.	Mean Temperature.	Mean Height of Barometer.
February 1860	306	65.4°	29.819 inches.
" 1861	353	65.0°	29.693 "
" 1862	335	66.7°	29.814 "
" 1863	279	66.1°	29.839 "
" 1864	310	62.5°	29.903 "
" 1865	386	64.4°	29.868 "
" 1866	384	67.8°	29.896 "
" 1867	520	67.8°	29.855 "
" 1868	357	63.8°	29.937 "
" 1869	356	64.7°	29.878 "
Mean of ten years	360	65.4°	29.860 "

The deaths during the month of February amounted to 370, or 10 more than the average of the same month in the previous years. If however an allowance be made for the increase of population during the period a low rate of mortality is indicated for the month under review.

The highest temperature in the shade recorded at the Melbourne Observatory during the month was 109° on the 15th, and the lowest was 49.4° on the 27th. The mean temperature of the month (66.5°) was more than a degree above the average. The greatest range of the thermometer in any one day (49°) took place on the 21st, viz.:—from a maximum of 102° to a minimum of 63°. The least range (5.9°) was on the 22nd, viz.:—from a maximum of 60° to a minimum of 60.1°. The mean atmospheric pressure (29.911 in.) was half an inch below the average.

Fifty-four per cent. of the deaths were of males, and 46 per cent. were of females; 55 per cent. were of children under five, against 60 per cent. in February 1869; 57 per cent. in February 1868; 74 per cent. in February 1867; 53 per cent. in February 1866; 64 per cent. in February 1865; 62 per cent. in February 1864; 65 per cent. in February 1863; 68 per cent. in February 1862; 66 per cent. in February 1861; and 61 per cent. in February 1860.

Four octogenarians, viz.:—Two males and two females died during the month. The males were aged respectively 81 and 86, and died of old age; as also did one of the females aged 83. The other female, aged 87, died of asthma.

The violent deaths amounted to the large number of 21; of which 16 were attributed to accident, 1 to homicide, and 4 to suicide. The following are the particulars:—A steamer's call-boy aged 13 was killed by a fall from a ship; a gunsmith aged 23 died of accidental injuries caused by the upsetting of a cart; a cabman aged 36 died of abscess on the brain resulting from a fractured skull caused by falling into the hold of a ship; a butcher aged 51 of injury to the spine; a butcher aged 52 of a poisoned wound caused by a needle breaking off in the hand; a female aged 32 of burning; a boy aged 2 of drowning in a wash-tub; a boy aged 4 of drowning in a waterhole; a girl aged 8 of drowning in a water tank; a youth aged 17 of drowning in the Yarra whilst bathing; a candlemaker aged 45; a fellmonger aged 60; and a woolwasher of age unknown were drowned in the Yarra; a shepherd of age unknown was drowned in the Kororoit Creek at Keilor; a male infant aged 2 months was suffocated in bed; a female aged 17 was drowned in the Yarra (verdict wilful murder); a clerk aged 53, of unsound mind, died of a self-inflicted gunshot wound; a surgeon's apprentice aged 21 committed suicide by poison; a blacksmith aged 48, and a female aged 22, both of unsound mind, drowned themselves in the Yarra.

Fifty-six deaths, or 15 per cent. of the whole, occurred in charitable institutions, viz.:—88 in the Melbourne Hospital, 3 in the Lyng-in Hospital, 1 in the Benevolent Asylum, 4 in the Immigrants' Home, 4 in the Yarra Bend, and 1 in the Carlton Lunatic Asylum, 8 in the Industrial Schools, 8 in the Melbourne Gaol, and 1 in the Pentridge Stockade.

The deaths of children under five years of age numbered 204, of which 109, or about 53 per cent., were of males, and 95, or nearly 47 per cent., were of females; of those dying, 140 were under one year of age, 50 were between one and two years, 9 were between two and three, 1 was between three and four, and 4 were between four and five.

The persons dying at a more advanced age than five years numbered 166, of which 92, or nearly 55 per cent., were males, and 74, or nearly 45 per cent., were females; 11 were between five and ten, 7 were between ten and fifteen, 7 were between fifteen and twenty, 15 were between twenty and twenty-five, 17 were between twenty-five and thirty, 14 were between thirty and thirty-five, 15 were between thirty-five and forty, 12 were between forty and forty-five, 16 were between forty-five and fifty, 13 were between fifty and fifty-five, 7 were between fifty-five and sixty, 11 were between sixty and sixty-five, 8 were between sixty-five and seventy, 7 were between seventy and seventy-five, 4 were eighty and upwards, and 2 were of unspecified ages.

The following table shows the causes of the deaths of persons of both sexes under and over five years of age, and the proportions per cent. of deaths from each cause, in Melbourne and suburbs, during the month of February 1870:—
