Tenders, endorsed "Tender for Coal for Smithy purposes," are to be deposited in the Tender-box at the Stores Tender Board Offices, Treasury; or (if sent by post) they must be addressed to the Chairman of the Tender Board, Stores Tender Board Offices, Treasury, Melbourne.

CONDITIONS.

1. The coal is to be of the very best quality for smithy purposes, and must be screened before delivery over a screen with bars half an inch apart, and afterwards through a screen with bars an inch apart, and that which has passed through the bars one inch apart is to be delivered, and is to be what is termed nutty smith's coal, free from lumps, dust, shale, sulphur, and other impurities.

2. The contractor is to deliver the coal screened, ready for use, into the waggons on the railway or breakwater pier at Williamstown, at the option of the Government, or may deliver into the railway waggons at any station on the Victorian Railways. The coal will be weighed by the Government, and such weight and returns shall form the basis upon which the contractor's account will be made out.

3. The contractor will be required to produce the invoice and a letter from either company to prove the genuineness of the coal before it will be received. The coal will be afterwards subjected to such test as the Engineer-in-Chief or General Overseer of Locomotives may decide before acceptance.

4. The contract entered into under this notice is not to be considered as being infringed or vitiated by the importation of smiths' coal by the Government for the service of the Victorian Railways, or the purchase of slack or small coal.

The contractor will be required to prepare his own account monthly on the prescribed form, and present the same in a complete state to the Railway Storekeeper to be passed for payment to the Treasury.

6. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality of the coal, the same is to be decided by a board of survey composed of persons named by the Commissioner of Railways, and the decision of the board is to be final.

7. If the delay necessary for obtaining the decision of a board of survey should be detrimental to the public service, the Engineer-in-Chief or General Overseer of Locomotives will have the power to reject coal which is of an inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected coal and supply good in its stead, failing which it will be procured elsewhere, and the extra expense charged to him.

8. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Five pounds for each case, as the Government may direct; and it will also be in the power of the Government to terminate the contract forthwith.

No. 2.—JANUARY 3, 1873.—2.

9. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

10. It will be competent for the contractor, or for the Secretary of Railways on behalf of the Government, to terminate the contract, by giving in writing a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

11. The orders will be issued by the Secretary, and, should an order for Australian Agricultural or Wallsend coal not be complied with and satisfied within twenty-one days, the Railway Storekeeper shall have power to obtain the supply elsewhere, and charge the extra cost of same to the contractor.

12. The estimated consumption of coal for smiths' use will be about 50 tons; but the Government do not bind themselves to order that quantity, but only what may be required from time to time.

D. GILLIES,
Commissioner of Railways and Roads.

Railway Department,
Melbourne, 2nd January 1873.
