District of South Grant.

WASTE OF YAN YEAN WATER.

THE Board of Land and Works begs to direct attention to the urgent necessity that exists for checking Waste of Yan Yeau Water.

The loss of pressure occasioned by this waste during the summer months is greater than the main pipe is able to afford, and, unless stringent means are used to restrict it, citizens generally will suffer serious inconvenience from the great reduction in the supply, while those residing in the higher parts of the city and suburbs will be entirely deprived of water, as the constant discharge by unnecessary waste renders supply at high levels practically impossible.

Under these circumstances, the Board has no alternative but strictly to enforce the operation of the 11th bye-law, which provides a penalty of Five pounds in cases where water is allowed to run to waste.

The provisions of the Public Works Statute will also be rigidly carried out; every person using the water for irrigation without permission, and without affixing a meter, will be prosecuted. The service pipe will likewise be cut off, without notice, in all instances where water is wasted, misused, or unduly consumed.

The Board earnestly trusts that the public generally will assist the police and the officers of the department in abating an evil which causes such serious inconvenience to so large a number of citizens.

Commissioner of Public Works.

Syphon-pumps will not be allowed unless the water is supplied by measure.

3. Any person receiving water from the board who shall take and carry away such water from his premises, or who shall allow any person to take or carry away such water, or shall sell the same to any other person, shall be liable to a penalty not exceeding Five pounds.

4. Any person not having agreed to be supplied by the board who shall take or carry away water from any drinking-tap, trough, or private or public service-pipe, shall be liable to a penalty not exceeding Five pounds.

5. Before any person shall affix any service-pipe to any pipe of the board, or alter, repair, or in any manner interfere with any pipe of the board, or any service-pipe, cock, or fitting connected with the pipes of the board, he shall obtain from the board a license in that behalf to execute such works, and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such pipe, service-pipe, cock, or fitting as aforesaid shall be liable to a penalty not exceeding Ten pounds.

6. Before any such license shall be granted by the board the person applying for same shall satisfy the board that he is a competent plumber.

7. Any person, whether licensed as aforesaid or not, who shall offend by opening any ground, so as to uncover any pipe or pipes the property of the board, without giving two days'

notice to the board of his intention so to do, or who shall in any way tamper with or alter any pipe the property of the board, without the permission in writing of the board being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work, or engine, the property of the board, shall be liable for each such offence to a penalty not exceeding Twenty pounds.

8. Any person, whether licensed as aforesaid or not, who shall lay any pipe to communicate with the pipes of the board without giving two days' notice of the day and hour when such pipe is intended to be made to communicate with the pipes of the board, or who shall make such communication except under the superintendence and according to the directions of some officer of the board, or who shall lay any leaden or other pipe to communicate with the pipe of the board of a strength and material not sanctioned by the board, shall be liable for each such offence to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board. Wrought-iron piping of approved quality and lead-piping of the following weights only will be allowed to be fixed for either internal or external services:—

Diameter of Pipe.	Weight of Pipe per Yard.
$\frac{1}{2}$ inch	5 lbs.
$\frac{3}{4}$ "	6 "
1 "	7 $\frac{1}{2}$ "
1 $\frac{1}{4}$ "	9 "
1 $\frac{1}{2}$ "	12 "
1 $\frac{3}{4}$ "	16 "
2 "	20 "

No service of a larger bore than $\frac{1}{2}$ inch will be permitted unless by special consent of the board.

9. If any person shall neglect to repair any service-pipe conveying water from the pipes of the board into the premises of such person, after having received notice from any officer of the board that such service-pipe requires repairing, the board may stop the water from flowing into such premises, either by cutting off the service-pipe or otherwise as to the said board may seem fit, until the necessary repairs shall have been effected. The service-pipes from the main being the property of the owners or occupiers of the tenements supplied by such service-pipes, the occupier (if any), and if none, the owner, shall in every instance in which any damage shall be caused by reason of such service-pipe being leaky or otherwise out of repair or broken, be liable to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board.

10. Any person supplied with water by the board who shall wilfully or negligently allow the same to run to waste, shall be liable for each offence to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board.

11. If any meter should cease registering, and during the time it is undergoing repairs, the board shall estimate and charge for the water consumed by taking an average of the quantity used during the previous quarter, or during the corresponding period of the preceding year.

12. Any person, whether licensed as aforesaid or not, connecting any service-pipe, or branch service-pipe, with any steam boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, shall be liable to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board.

13. No meter shall be affixed unless the dial of the same is capable of registering (1,000,000) one million gallons.

14. Overflow-pipes to private baths will not be permitted.

15. Water closets will not be allowed to be supplied direct from the main, but from a cistern only, so constructed that the water cannot flow continuously, and that not more than two gallons can escape at each flush.

16. If any person supplied with water by the board does or causes to be done anything in contravention of any of these regulations, or fails to pay his rates when due, or fails to do anything which under any of these regulations ought to be done, or wilfully or negligently allows water to run to waste, the board may cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of injury remains or is not remedied.

17. The streets shall not be watered from hydrants or fire-plugs by means of a hose, but the water is to be applied to the streets by carts, or by manual labor, or by special stand-pipes of approved size and form.

18. The water supplied in the above district shall be received and consumed under and in accordance with these regulations, and not otherwise, through pipes and meters laid, placed, and being under and in accordance with the same regulations, and not otherwise.

19. In the construction of these bye-laws the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole; and the word "board" shall mean the Board of Land and Works.

The foregoing bye-laws were made and passed by the Board of Land and Works, and the Seal of the said Board of Land and Works was hereunto affixed the eleventh day of December 1873, in the presence of

TENDERS will be received until Ten o'clock a.m. on Tuesday the 23rd December 1873 from persons willing to furnish the undermentioned Supplies, required by the Department of Victorian Railways.

100 carriage roof lamps.
100 do. side lamps—right and left hand.
60 do. tail lamps.

Printed forms of tender may be had at the Office of the Railway Storekeeper, Williamstown, where samples can be seen and all particulars obtained.

Tenders having alterations or erasures therein will not be entertained.

Security will be required in the amount of £50 for due fulfilment of the contract either in Government debentures, bank deposit-receipt, in favor of the Secretary, Tender Board, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Secretary of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

Persons failing to take up their contracts will be disqualified from tendering for Government supplies for a period of twelve months.

All tenders must be enclosed in a separate envelope, marked "Tender for Railway Lamps," and be deposited in the Stores Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS.

The whole of the above-named articles required for the service of the Victorian Railways are to be in accordance with the samples and specifications, and in every respect to be of the very best description, quality, and manufacture, subject to the approval of the engineer-in-Chief, the Traffic Manager, and the General Overseer of Locomotives. The goods will be subject to the examination and test of an Inspecting Officer appointed by any of the above.

The order for supply under this contract must issue from the Secretary for Railways, and all the lamps must be delivered free of charge to the Railway Stores, Williamstown, on or before the 1st day of March 1874.

Delivery, as a rule, is to be of the full quantity ordered; but all deliveries must be accompanied with detailed invoices or bills of parcels in duplicate, showing quantity, rate, and value, also the number of the order for the goods, otherwise the goods will not be received. Delivery will not be deemed to have been made until the goods have been approved of.

In the event of supplies ordered under this contract not being delivered within the specified time, it will be competent for the Railway Storekeeper, on the order of the Secretary, to cancel the order and purchase the same, or such articles as may be suitable for the service, at the risk of the contractor, from whose account any expense over and above the contract price will be deducted.

The Railway Storekeeper will have power to reject such article or articles as are obviously of inferior character, or not in accordance with the specification, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected article and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

All rejected goods must be removed by the contractor within twenty-four hours after notice has been given of such rejection, and, if not so removed, the Railway Storekeeper is hereby empowered to send the same to Melbourne, there to be stored at the contractor's risk and expense.

In the event of a difference of opinion between the contractor and the head of the branch requiring the supply, as to the quality, the same is to be decided by a board of survey composed of persons named by the Commissioner of Railways, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor.

Contractors are not at liberty to transfer their contract under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

Commissioner of Railways and Roads.
